Form 10-Q

August 15, 2011

---

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2011

Commission File Number: 001-34864

CHINA HGS REAL ESTATE, INC.  
(Exact Name of Registrant as Specified in Its Charter)

Florida  
(State or Other Jurisdiction of Incorporation)

33-0961490  
(I.R.S. Employer Identification Number)

6 Xinghan Road, 19th Floor, Hanzhong City  
Shaanxi Province, PRC 723000  
(Address of Principal Executive Offices, Zip Code)

+ (86) 091 - 62622612  
(Registrant's Telephone Number, including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐  
Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Accelerated filer ☐  
Smaller reporting company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
Yes ☐ No ☒

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the U.S. generally accepted accounting principles (“GAAP”) for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of the management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended June 30, 2011 and 2010 are not necessarily indicative of the results that may be expected for the full year. The information included in this Form 10-Q should be read in conjunction with Management’s Discussion and Analysis of Financial Condition and Results of Operations and the financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2010.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

The condensed consolidated financial statements include the financial statements of China HGS Real Estate Inc. (the “Company” or “China HGS”), China HGS Investment Inc. (“HGS Investment”), Shaanxi HGS Management and Consulting Co., Ltd. (“Shaanxi HGS”) and its variable interest entity (“VIE”), Shaanxi Guangsha Investment and Development Group Co., Ltd. (“Guangsha”). All inter-company transactions and balances between the Company and its subsidiaries have been eliminated upon consolidation.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the condensed consolidated financial statements. Estimates are used for, but not limited to, the selection of the useful lives of property and equipment, provision necessary for contingent liabilities, fair values, revenue recognition, taxes, budgeted costs and other similar charges. Management believes that the estimates utilized in preparing its condensed consolidated financial statements are reasonable and prudent. Actual results could differ from these estimates.

Fair value of financial instruments

The Company follows the provisions of Accounting Standards Codification (“ASC”) 820, Fair Value Measurements and Disclosures. It clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3-Inputs are unobservable inputs which reflect the reporting entity's own assumptions or what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The carrying amounts reported in the accompanying condensed consolidated balance sheets for cash and cash equivalents, restricted cash, other current assets, accounts payable, customer deposits, other payables, accrued expenses, and taxes payable, approximate their fair value based on the short-term maturity of these instruments. The fair value of the long term customer and construction deposits approximate their carrying amounts because the deposits are received in cash.

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## Revenue recognition

Real estate sales are recognized in accordance with ASC 360-20 “Real Estate Sales”.

Revenue from the sales of development properties is recognized by the full accrual method at the time of the closing of an individual unit sale. This occurs when title to or possession of the property is transferred to the buyer. A sale is not considered consummated until (a) the parties are bound by the terms of a contract, (b) all consideration has been exchanged, (c) any permanent financing of which the seller is responsible has been arranged, (d) all conditions precedent to closing have been performed, (e) the seller does not have substantial continuing involvement with the property, and (f) the usual risks and rewards of ownership have been transferred to the buyer. Further, the buyer’s initial and continuing investment is adequate to demonstrate a commitment to pay for the property, and the buyer’s receivable, if any, is not subject to future subordination.

The Company provides “mortgage loan guarantees” only with respect to buyers who make down-payments of 30%-50% of the total purchase price of the property. The period of the mortgage loan guarantee begins on the date the bank approves the buyer’s mortgage and we receive the loan proceeds in our bank account and ends on the date the “Certificate of Ownership” evidencing that title to the property has been transferred to the buyer. The procedures to obtain the Certificate of Ownership take six to twelve months (the “Mortgage Loan Guarantee Period”). If, after investigation of the buyer’s income and other relevant factors, the bank decides not to grant the mortgage loan, the Company’s mortgage-loan based sales contract terminates and there is no guarantee obligation. If, during the Mortgage Loan Guarantee Period, the buyer defaults on his or her monthly mortgage payment for three consecutive months, we are required to refund the loan proceeds back to the bank, although we have the right to keep the customer’s deposit and resell the property to a third party. Once the Certificate of Ownership has been issued by the relevant government authority, the Company’s loan guarantee terminates. If the buyer then defaults on his or her mortgage loan, the bank has the right to take the property back and sell it and use the proceeds to pay off the loan. The Company is not liable for any shortfall that the bank may incur in this event.

To date, no buyer has defaulted on his or her mortgage payments during the Mortgage Loan Guarantee Period and the Company has not had to refund any loan proceeds pursuant to its mortgage loan guarantees.

## Foreign currency translation

The Company’s financial information is presented in U.S. dollars. The functional currency of the Company’s operating subsidiaries is Renminbi (“RMB”), the currency of the PRC. The financial statements of the Company have been translated into U.S. dollars in accordance with ASC 830-30 “Translation of Financial Statements”. The financial information is first prepared in RMB and then is translated into U.S. dollars at year-end exchange rates as to assets and liabilities and average exchange rates as to revenue and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. The effects of foreign currency translation adjustments are included as a component of accumulated other comprehensive income in stockholders’ equity.

	June 30, 2011	2010	September 30, 2010
Period end RMB : USD exchange rate	6.4635	6.8086	6.6981
Nine months average RMB : USD exchange rate	6.5796	6.8352	

The RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that the RMB amounts could have been, or could be, converted into U.S. dollars at the rates used in translation.

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Real estate property development completed and under development

Real estate property consists of finished residential unit sites and commercial offices and residential unit sites under development. The Company leases the land for the residential and commercial units sites under land use right leases with various terms from the PRC government. The cost of land use rights is included in the development cost and allocated to each project. Real estate property development completed and real estate property under development are stated at the lower of cost or fair value.

Expenditures for land development, including cost of land use rights, deed tax, pre-development costs, and engineering costs, exclusive of depreciation, are capitalized and allocated to development projects by the specific identification method. Costs are allocated to specific units within a project based on the ratio of the sales area of units to the estimated total sales area of the project (or phase of the project) multiplied by the total cost of the project (or phase of the project).

Cost of amenities transferred to buyers is allocated to specific units as a component of total construction cost. The amenity cost includes landscaping, road paving, etc. Once the projects are completed, the amenities are under control of the property management companies. In accordance with GAAP, real estate property development completed and under development is subject to impairment when the carrying amount exceeds fair value. An impairment loss is recognized only if the carrying amount of the assets is not recoverable and exceeds fair value. The carrying amount is not recoverable if it exceeds the sum of the undiscounted cash flows expected to be generated by the assets.

Management evaluates, on a yearly basis, the impairment of the Company's real estate developments based on a community level. Each community is assessed as an individual project. The evaluation takes into account several factors including, but not limited to, physical condition, inventory holding period, management's plans for future operations, prevailing market prices for similar properties and projected cash flows. There were no impairment losses for the nine months ended June 30, 2011 and 2010, respectively.

Customer deposits

Customer deposits consist of amounts received from customers relating to the sale of residential units in the PRC. In the PRC, customers will generally obtain permanent financing for the purchase of their residential unit prior to the completion of the project. The lending institution will provide the funding to the Company upon the completion of the financing rather than the completion of the project. The Company receives these funds and recognizes them as a liability until the revenue can be recognized.

Property warranty

The Company provides its customers with warranties which cover major defects to building structures and certain fittings and facilities of properties sold. The warranty period varies from two years to five years, depending on different property components the warranty covers. The Company constantly estimates potential costs for materials and labor with regard to warranty-type claims expected to be incurred subsequent to the delivery of a property. Reserves are determined based on historical data and trends with respect to similar property types and geographical areas. The Company constantly monitors the warranty reserve and makes adjustments to its pre-existing warranties, if any, in order to reflect changes in trends and historical data as information becomes available. The Company may

seek further recourse against its contractors or any related third parties if it can be proved that the faults are caused by them. In addition, the Company also withholds up to 2% of the contract cost from sub-contractors for periods of two to five years. These amounts are included in current liabilities, and are only paid to the extent that there has been no warranty claim against the Company relating to the work performed or materials supplied by the subcontractors. For the nine months ended June 30, 2011 and fiscal year ended September 30, 2010, the Company had not recognized any warranty liability or incurred any warranty costs in excess of the amount retained from subcontractors.

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income taxes

The Company accounts for income taxes in accordance with ASC 740 "Income Taxes". Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial statements or income tax returns. Deferred tax assets and liabilities are determined based on the difference between the financial statement and tax basis of assets and liabilities using enacted rates expected to apply to taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. There are no deferred tax amounts for the nine months ended June 30, 2011 and 2010.

The Company is a corporation organized under the laws of the State of Florida. However, all of the Company's operations are conducted solely by its subsidiaries in the PRC. No income is earned in the United States and the management does not repatriate any earnings outside the PRC. As a result, the Company did not generate any U.S. taxable income (loss) for the nine months ended June 30, 2011 and 2010.

Land appreciation tax ("LAT")

In accordance with the relevant taxation laws in the PRC, the Company is subject to LAT based on progressive rates ranging from 30% to 60% on the appreciation of land value, which is calculated as the proceeds of sales of properties less deductible expenditures including borrowing costs and all property development expenditures. LAT is exempted if the appreciation values do not exceed certain thresholds specified in the relevant tax laws.

The whole project must be completed before the LAT obligation can be assessed. Accordingly, the Company should record the liability and the total related expense at the completion of a project unless the tax authorities impose an assessment at an earlier date. The methods to implement this tax law vary among different geographic areas. Hanzhong, where the Mingzhu Garden, NanDajie and Central Plaza projects are located, implements this tax rule by requiring real estate companies to prepay the LAT based upon customer deposits received. The tax rate in Hanzhong is 1%. Yangxian, where the Yangzhou Pearl Garden project is located, has a tax rate of 0.5%.

Recent accounting pronouncements

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, "Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs," ("ASU 2011-04"). ASU 2011-04 expands the disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. This new guidance is to be applied prospectively. This guidance will be effective for the Company beginning January 1, 2012. The Company anticipates that the adoption of this standard will not materially affect its consolidated financial statements.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income," ("ASU 2011-05"). ASU 2011-05 eliminates the option to report other comprehensive income and its components in the statement of changes in equity. ASU 2011-05 requires that all non-owner changes in stockholders' equity be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. This new guidance is to be applied retrospectively. This guidance will be effective for the Company beginning January 1, 2012. The Company anticipates that the adoption of

this standard will not change the presentation of its consolidated financial statements.

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 3. REAL ESTATE PROPERTY DEVELOPMENT COMPLETED AND UNDER DEVELOPMENT

The following summarizes the components of real estate property development completed and under development as of June 30, 2011 and September 30, 2010:

	June 30, 2011	September 30, 2010
<b>Development completed:</b>		
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan)	\$ 2,991,548	\$ 439,146
Nan Dajie (Mingzhu Xinju)	1,629,505	1,950,967
Yangzhou Pearl Garden	8,223,972	6,714,977
Central Plaza	1,017,760	1,817,250
Real estate property development completed	\$ 13,862,785	\$ 10,922,340
<b>Under development:</b>		
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan)	\$ 25,117,149	\$ 16,174,674
Oriental Mingzhu Garden	27,667,462	-
Nan Dajie (Mingzhu Xinju)	7,479,763	6,663,618
Yangzhou Pearl Garden	14,378,565	14,447,300
Real estate property under development	\$ 74,642,939	\$ 37,285,592
<b>Short Term</b>	<b>\$ 18,675,151</b>	<b>\$ 28,021,880</b>
<b>Long Term</b>	<b>55,967,788</b>	<b>9,263,712</b>
	<b>\$ 74,642,939</b>	<b>\$ 37,285,592</b>

As of June 30, 2011 and September 30, 2010, land use rights included in real estate property under development totaled \$47,119,513 and \$13,934,195, respectively.

## NOTE 4. CUSTOMER DEPOSITS

Customer deposits consist of amounts received from customers for the pre-sale of residential units in the PRC. The detail of customer deposits is as follows:

	June 30, 2011	September 30, 2010
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan)	\$ 9,672,761	\$ 9,789,559
Nan Dajie (Mingzhu Xinju)	4,118,212	-
Yangzhou Pearl Garden	12,605,393	4,005,331
Total	\$ 26,396,366	\$ 13,794,890
<b>Short Term</b>	<b>\$ 12,889,490</b>	<b>\$ 12,424,261</b>
<b>Long Term</b>	<b>13,506,876</b>	<b>1,370,629</b>
	<b>\$ 26,396,366</b>	<b>\$ 13,794,890</b>

Customer deposits are typically 10%-20% of the unit price for those customers who purchase properties in cash and 30%-50% of the unit price for those customers who purchase properties with mortgages. Buyers with mortgage loans pay customer deposits. The banks provide the balance of the funding to the Company upon consummation of the

sales. The banks hold the properties as collateral for customers' mortgage loans. If the customers default, the bank will repossess the collateralized properties. Except during the Mortgage Loan Guarantee Period of approximately six to twelve months, the banks have no recourse to the Company for customers' defaults.

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

## NOTE 5. STOCK OPTIONS

On March 16, 2011, the Company's Board of Directors granted stock options to three independent directors to purchase up to an aggregate of 34,000 shares of the Company's common stock. Twenty percent (20%) of the shares underlying the options were exercisable on the grant date and the remaining 80% of the shares underlying the options become vested over the next eight quarters at the rate of 10% at the end of every quarter. The exercise price of the options is \$2.37 per share and the options expire on March 16, 2016.

Under the fair value recognition provisions of ASC Topic 718, stock-based compensation cost is measured at the grant date based on the value of the award and is recognized on a straight-line basis as expense over the vesting period. Additionally, the Company is required to use judgment in estimating the amount of stock-based awards that are expected to be forfeited. If actual forfeitures differ significantly from the original estimate, stock-based compensation expense and the results of operations could be impacted.

The assumptions used in calculating the fair value of options granted using the Black-Scholes option pricing model are as follows:

	Options granted on March 16, 2011
Risk-free interest rate	1.87%
Expected life of the options	5 years
Expected volatility	65%
Expected dividend yield	0%

The fair value of options granted during the nine months ended June 30, 2011 was \$44,590 utilizing the Black Scholes model. The Company uses the Black-Scholes option-pricing model, which incorporates various assumptions including volatility, expected life and interest rates to determine fair value. The Company's expected volatility assumption is based on the historical volatility of Company's stock. The expected life assumption is primarily based on the simplified method due to the Company's limited option exercise behavior. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

The following table summarizes the stock option activities of the Company:

	Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)	Aggregate Fair Value
Outstanding at September 30, 2010	34,000	\$ 2.60	3.50	\$77,157
Granted	34,000	\$ 2.37	4.75	\$44,590
Forfeited	-	-	-	-
Exercised	-	-	-	-
Outstanding at June 30, 2011	68,000	\$ 2.49	4.38	\$121,747
Exercisable at June 30, 2011	37,400	\$ 2.54	3.84	\$75,103

Stock-based compensation expense recognized in the three and nine months ended June 30, 2011 and 2010, respectively, were as follows:

	Three months ended June 30,		Nine months ended June 30,	
	2011	2010	2011	2010
General and administrative expenses	\$ 12,175	\$ 7,716	\$ 36,524	\$ 30,863

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

As of June 30, 2011, there was \$46,645 of unrecognized compensation cost related to stock option awards that is expected to be recognized as expense over approximately 2 years.

#### NOTE 6. TAXES

##### (A) Business sales tax

The Company is subject to a 5% business sales tax on revenue. It is the Company's continuing practice to recognize the 5% business sales tax based on revenue as it is recognized.

##### (B) Corporate income taxes ("CIT")

The Company is governed by the Income Tax Laws of the U.S. and the People's Republic of China concerning private-run enterprises, which are generally subject to income tax at a statutory rate of 25%, on income reported in the statutory financial statements after appropriate tax adjustments.

However, as approved by the local tax authority of Hanzhong City, the Company's CIT was assessed annually at a pre-determined fixed rate as an incentive to stimulate the local economy and encourage entrepreneurship. The local income tax rate in Hanzhong is 2.5% and in Yangxian is 1.25% on revenue. For the three and nine months ended June 30, 2011 and 2010, the Company's assessed income taxes were \$181,218, \$716,828, \$133,107 and \$534,583, respectively.

Although the possibility exists for reinterpretation of the application of the tax regulations by higher tax authorities in the PRC, potentially overturning the decision made by the local tax authority, the Company has not experienced any reevaluation of the income taxes for prior years. The PRC tax rules are different from the local tax rules and the Company is required to comply with local tax rules. The difference between the two tax rules will not be a liability of the Company. There will be no further tax payments for the difference.

The following table reconciles the statutory rates to the Company's effective tax rate for its PRC operations for the three and nine months ended June 30, 2011 and 2010:

	Three months ended June 30,		Nine months ended June 30,	
	2011	2010	2011	2010
Chinese statutory tax rate	25.0	%	25.0	%
Exemption rendered by local tax authorities	-22.2	%	-19.2	%
Effective tax rate	2.8	%	5.8	%

##### (C) LAT

Since January 1, 1994, LAT has been applicable at progressive tax rates ranging from 30% to 60% on the appreciation of land values, with an exemption provided for the sales of ordinary residential properties if the appreciation values do not exceed certain thresholds specified in the relevant tax laws. However, the Company's local tax authority in Hanzhong city has not imposed the regulation on real estate companies in its area of administration. Instead, the local tax authority has levied the LAT at the rate of 0.8% or 1.0% against total cash receipts from sales of real estate properties, rather than according to the progressive rates.

Edgar Filing: CHINA HGS REAL ESTATE INC. - Form 10-Q

For the three and nine months ended June 30, 2011 and 2010, the Company has made full payment for LAT with respect to properties sold in accordance with the requirements of the local tax authorities.

(D) Taxes payable consisted of the following:

	June 30, 2011	September 30, 2010
CIT	\$ 812,004	\$ 601,450
Business tax	3,085,536	2,904,529
Other tax and fees	619,217	405,272
Total taxes payable	\$ 4,516,757	\$ 3,911,251

CHINA HGS REAL ESTATE, INC.  
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7. CONTINGENCY

As an industry practice, the Company provides guarantees to PRC banks with respect to loans procured by buyers of the Company's real estate properties for the total mortgage loan amount until the "Certificate of Ownership" has been issued to the buyers by the government, which generally takes six to twelve months. Because the banks provide loan proceeds prior to the issuance of the "Certificate of Ownership," the mortgage banks require the Company to maintain, as restricted cash, 5% to 10% of the mortgage proceeds as security for the Company's obligations under such guarantees. If a buyer defaults on his payment obligations, the mortgage bank may deduct the delinquent mortgage payment from the security deposit and require the Company to pay the excess amount if the delinquent mortgage payments exceed the security deposit. The Company has made necessary reserves in its restricted cash account to cover any potential mortgage default as required by the mortgage lenders. The Company has not experienced any loss to date related to these guarantees.

NOTE 8. SHAREHOLDER LOANS

(A) On June 16, 2011, Guangsha, the VIE, entered into a one-month RMB loan agreement ("RMB Loan Agreement") with Mr. Xiaojun Zhu, the majority shareholder and Chairman of the Board of Directors. Pursuant to the RMB Loan Agreement, Guangsha borrowed RMB32,000,000 (\$4,950,878) from Mr. Xiaojun Zhu to partially fund a deposit for a land use right bid bond. In June 2011, the Company paid RMB100,000,000 (\$15,198,492) as a deposit bid bond for a land use right auction held in July 2011. As the Company did not acquire the land use right, the bid bond deposit was fully refunded to the Company in July 2011. As of August 12, 2011 Guangsha repaid a total of RMB18,000,000 (\$2,784,869) owed to Mr. Xiaojun Zhu under the RMB Loan Agreement.

According to the terms of the RMB Loan Agreement, there was no interest for the loan. The Company recorded the interest expense for the loan at the market interest rate and treated it as contribution from shareholder. The interest expense was \$11,692 for the three months ended June 30, 2011.

On July 16, 2011, Guangsha and Mr. Xiaojun Zhu entered into an agreement to extend the term of repayment for one month with no interest charge.

(B) On June 28, 2011, the Company entered into a one-year loan agreement ("USD Loan Agreement") with Mr. Xiaojun Zhu. Pursuant to the USD Loan Agreement, the Company borrowed USD1,810,000 from Mr. Xiaojun Zhu to make a capital injection to Shaanxi HGS, the Company's subsidiary. The interest rate for the loan is 4% per annum.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion and analysis of financial condition and results of operations relates to the operations and financial condition reported in the financial statements of China HGS Real Estate, Inc. for the three and nine months ended June 30, 2011 and 2010 and should be read in conjunction with such financial statements and related notes included in this report.

As used in this report, the terms "Company," "we," "our," "us" and "HGS" refer to China HGS Real Estate, Inc. and its subsidiaries.

### Preliminary Note Regarding Forward-Looking Statements.

We make forward-looking statements in Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report based on the beliefs and assumptions of our management and on information currently available to us. Forward-looking statements include information about our possible or assumed future results of operations which follow under the headings "Our Business Overview," "Liquidity and Capital Resources," and other statements throughout this report preceded by, followed by or that include the words "believes," "expects," "anticipates," "intends," "plans," "estimates" or similar expressions.

Forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from those expressed in these forward-looking statements, including the risks and uncertainties described below and other factors we describe from time to time in our periodic filings with the U.S. Securities and Exchange Commission (the "SEC"). We therefore caution you not to rely unduly on any forward-looking statements. The forward-looking statements in this report speak only as of the date of this report, and we undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

### Our Business Overview

We conduct substantially all of our business through our subsidiary, Shaanxi Guangsha Investment and Development Group Co., Ltd., in Hanzhong, Shaanxi Province. All of our business is conducted in mainland China. We were founded by Mr. Xiaojun Zhu, our Chairman and Chief Executive Officer, and commenced operations in 1995 in Hanzhong, a prefecture-level city of Shaanxi Province. Since the initiation of our business, we have been focused on expanding our business in certain Tier 2 and Tier 3 cities in China, which we strategically selected based on a set of criteria. Our selection criteria include population and urbanization growth rate, general economic condition and growth rate, income and purchasing power of resident consumers, anticipated demand for private residential properties, availability of future land supply and land prices and governmental urban planning and development policies. As of June 30, 2011, we have developed projects on Southwestern Street and West Ring Road in the city of Hanzhong, and Yang County in Shaanxi Province. We utilize a standardized and scalable model that emphasizes rapid asset turnover, efficient capital management and strict cost control. We plan to expand into strategically selected Tier 2 and Tier 3 cities and even some adjacent towns with real estate development potential, such as Guangyuan in Sichuan Province, Dazhou in Chongqing, and Xi'an in Shaanxi Province. We expect to benefit from rising residential housing demand as a result of increasing income levels of consumers and growing populations.

## RESULTS OF OPERATIONS

Three Months Ended June 30, 2011 compared to Three Months Ended June 30, 2010

## Revenues

We recognize revenue from the sales of real property in accordance with the full accrual method at the time of the closing of an individual unit sale. This occurs when title to or possession of the property is transferred to the buyer. A sale is not considered consummated until (a) the parties are bound by the terms of a contract, (b) all consideration has been exchanged, (c) any permanent financing of which the seller is responsible has been arranged, (d) all conditions precedent to closing have been performed, (e) the seller does not have substantial continuing involvement with the property, and (f) the usual risks and rewards of ownership have been transferred to the buyer. Further, the buyer's initial and continuing investment is adequate to demonstrate a commitment to pay for the property, and the buyer's receivable, if any, is not subject to future subordination. Sales transactions not meeting all the conditions of the full accrual method are accounted for using the deposit method in which all costs are capitalized as incurred, and payments received from the buyer are recorded as a deposit liability.

We provide "mortgage loan guarantees" only with respect to buyers who make down-payments of 30%-50% of the total purchase price of the property. The period of the mortgage loan guarantee begins on the date the bank approves the buyer's mortgage and we receive the loan proceeds in our bank account and ends on the date the "Certificate of Ownership" evidencing that title to the property has been transferred to the buyer. The procedures to obtain the Certificate of Ownership take six to twelve months (the "Mortgage Loan Guarantee Period"). If, after investigation of the buyer's income and other relevant factors, the bank decides not to grant the mortgage loan, our mortgage-loan based sales contract terminates and there is no guarantee obligation. If, during the Mortgage Loan Guarantee Period, the buyer defaults on his or her monthly mortgage payment for three consecutive months, we are required to refund the loan proceeds back to the bank, although we have the right to keep the customer's deposit and resell the property to a third party. Once the Certificate of Ownership has been issued by the relevant government authority, our loan guarantee terminates. If the buyer then defaults on his or her mortgage loan, the bank has the right to take the property back and sell it and use the proceeds to pay off the loan. The Company is not liable for any shortfall that the bank may incur in this event.

To date, no buyer has defaulted on his or her mortgage payments during the Mortgage Loan Guarantee Period and the Company has not had to refund any loan proceeds pursuant to its mortgage loan guarantees. As a result, based on the Company's historical experience, the Company believes that its revenue recognition policy is appropriate.

The following table summarizes our revenue generated by different projects:

	For Three Months Ended June 30, 2011			2010			Variance		
	Revenue	%		Revenue	%		Amount	%	
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan)	\$532,800	4.2	%	\$1,313,578	16.1	%	\$(780,778 )	-59.4	%
Yangzhou Pearl Garden	10,976,371	86.4	%	5,703,130	69.7	%	5,273,241	92.5	%
Central Plaza	1,188,552	9.4	%	1,163,571	14.2	%	24,981	2.1	%
Total Real Estate Sales before Sales Tax	\$12,697,723	100	%	\$8,180,279	100	%	\$4,517,444	55.2	%
Sales Tax	(723,011 )			(503,158 )			219,853	43.7	%
Revenue net of sales tax	\$11,974,712			\$7,677,121			\$4,297,591	56.0	%

Revenues increased by 55.2% to approximately \$12.7 million for the three months ended June 30, 2011 from approximately \$8.2 million for the three months ended June 30, 2010. The increase was primarily attributable to the sale of property at Yangzhou Pearl Garden, of which the revenue for the three months ended June 30, 2011 increased by 92.5% compared to the prior comparable period.

For the three months ended June 30, 2011, a total of 233 units of residential and commercial properties from Yangzhou Pearl Garden were sold, an increase of 58.5% from the 147 units sold in the three months ended June 30, 2010. In addition, the increase in revenue from Yangzhou Pearl Garden was also attributable to the rise in per square-meter sales price. The average sales prices of Yangzhou Pearl Garden were approximately \$400 and \$316 per square-meter for the three months ended June 30, 2011 and 2010, respectively, representing an increase of approximately \$84 per square-meter or 26.6%. The increase in sales units and unit sales prices was mainly caused by the continuous reconstruction in Yang County. The target of the reconstruction is to move the residential, commercial and government districts from the old downtown area to the newly built residential and municipal area. As the largest residential project of the reconstruction in Yang County, Yangzhou Pearl Garden is well known by the local residents for its high quality, high standard and acceptable price for local middle-class families. With the reconstruction of Yang County continuing, the market demand for Yangzhou Pearl Garden keeps rising.

The increasing trend in revenue at Yangzhou Pearl Garden was partially offset by decreased sales from Mingzhu Garden, which was mainly due to the change of sales strategy for Mingzhu Garden. The Company is developing the next phase of Mingzhu Garden, which will be completed by September 2011. Management believes that it will be able to sell the currently remaining properties in Mingzhu Garden at higher prices if those are sold with the new phase. To achieve the synergy effect, the Company slowed down the sales of Mingzhu Garden by selling only to customers who paid the full purchase price without a mortgage. As a result, only 6 units were sold for the three months ended June 30, 2011.

#### Sales taxes

Sales taxes consist of the following:

Type of Tax	Percent	Basis
Business Tax	5%	Taxed on Revenues
Urban Construction Tax	7%	Taxed on the amount of Business Tax
Education Surcharge Tax	3%	Taxed on the amount of Business Tax
Land Appreciation Tax(1)	0.5% or 1%(2)	Taxed on the amount of Customer Deposits

- (1) Unlike other taxes included in sales tax, land appreciation taxes are calculated on the amount of customer deposits received.
- (2) Land appreciation tax is assessed at the rate of 0.5% of the customer deposits in Yangzhou and 1% of the customer deposits in Hanzhong.

Sales taxes were \$723,011 and \$503,158 for three months ended June 30, 2011 and 2010, respectively, representing an increase of 43.7%, primarily as a result of the increase in our recognized revenue.

#### Cost of Sales

The following table sets forth a breakdown of our cost of sales:

	For Three Months Ended June 30,						Variance	
	Cost	%		Cost	%		Amount	%
Land use right	\$ 766,684	16.0 %		\$ 1,124,417	28.0 %		\$ (357,733 )	-31.8 %
Construction cost	4,036,501	84.0 %		2,893,801	72.0 %		1,142,700	39.5 %
Total cost	\$ 4,803,185	100 %		\$ 4,018,218	100 %		\$ 784,967	19.5 %

Our cost of sales consists primarily of costs associated with land use rights and construction costs. Cost of sales are capitalized and allocated to development projects using the specific identification method. Costs are allocated to specific units within a project based on the ratio of the sales area of units to the estimated total sales area of the project or phase of the project multiplied by the total cost of the project or phase of the project.

Cost of sales was approximately \$4.8 million for the three months ended June 30, 2011 compared to \$4.0 million for the three months ended June 30, 2010. The \$0.8 million increase in cost of sales was mainly attributable to increased unit sales reflected in increased revenue.

Land use rights cost: The cost of land use rights includes the land premium we pay to acquire land use rights for our property development sites, plus taxes. Our land use rights cost varies for different projects according to the size and location of the site and the minimum land premium set for the site, all of which are influenced by government policies, as well as prevailing market conditions.

Costs for land use rights for the three months ending June 30, 2011 were \$766,684, as compared to \$1,124,417 for the three months ended June 30, 2010, representing a decrease of \$357,733 or 31.8%. For the three months ended June 30, 2010, 21,950 square-meters of properties were sold, including one large club house, one kindergarten and certain multi-layer (typically six stories or less) commercial properties, for which the land use rights cost was 5 to 7 times that of the sub-high-rise (typically seven to 11 stories) or high-rise (typically 12 to 33 stories) buildings. As a result, the average land use rights cost per square-meter was \$51.2 for the three months ended June 30, 2010. For the three months ended June 30, 2011, the sales were mainly comprised of the sub-high-rise or high-rise residential and commercial units, for which the average land use rights cost per square-meter was \$26.1, a decrease of 49.0% from the prior comparable quarter. Therefore, the total land use rights cost recognized in the current quarter was less than that of comparable quarter, although the sales in the current quarter, totaling 29,359 square-meters, were higher than in the same period of last year.

Construction cost: We outsource the construction of all of our projects to third party contractors, whom we select through a competitive tender process. Our construction contracts provide a fixed payment which covers substantially all labor, materials and equipment costs, subject to adjustments for some types of excess, such as design changes during construction or changes in government-suggested steel prices. Our construction costs consist primarily of the payments to our third-party contractors, which are paid over the construction period based on specified milestones. In addition, we purchase and supply a limited range of fittings and equipment, including elevators, window frames and door frames. Our construction costs for the three months ending June 30, 2011 were approximately \$4.0 million as compared to approximately \$2.9 million for the three months ended June 30, 2010, representing an increase of \$1.1 million or 39.5%. The increase in construction cost is due to the increase in units sold reflected in the increased revenue recognized.

The total cost of sales as a percentage of real estate sales before sales tax for the three months ended June 30, 2011 decreased to 37.8% from 49.1% for the three months ended June 30, 2010, which was mainly attributable to the increased sales prices and the decreased land use rights costs, included in cost of sales.

#### Gross Profit

Gross profit was approximately \$7.2 million for the three months ended June 30, 2011 compared to approximately \$3.7 million for the three months ended June 30, 2010, an increase of \$3.5 million or 96.0%, which was mainly attributed to the increase in revenue and the decrease of land use rights costs. The overall gross profit as a percentage of real estate sales before tax increased to 56.5% in the three months ended June 30, 2011 compared to 44.7% in the comparable period in prior year mainly due to the increase in unit sales price.

The following table sets forth the gross margin of each of our projects:

	For Three Months Ended June 30,					
	2011			2010		
	Gross Profit	Percentage of Revenue		Gross Profit	Percentage of Revenue	
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan)	\$376,548	70.7 %		\$911,649	69.4 %	
Yangzhou Pearl Garden	6,731,422	61.3 %		2,601,744	45.6 %	
Central Plaza	786,568	66.2 %		648,668	55.7 %	
Sales Tax	(723,011 )			(503,158 )		
Total Gross Profit	\$7,171,527	56.5 %		\$3,658,903	44.7 %	
Total Real Estate Sales before Sales Tax	\$12,697,723			\$8,180,279		

#### Operating Expenses

Total operating expenses increased by 73.4% or \$254,824 to \$601,915 for the three months ended June 30, 2011 from \$347,091 for the three months ended June 30, 2010 as a result of an increase in selling expenses of \$139,110. The increase in selling expenses is mainly due to the increase in commission expenses as a result of increased unit sales.

Additionally, general and administration expenses increased by \$115,714 to \$421,827 for the three months ended June 30, 2011 from \$306,113 for the three months ended June 30, 2010, which was primarily due to the listed company related expenses, including service fees for investor relation, and fees for U.S. legal counsel and auditors.

	For Three Months Ended June 30,			
	2011		2010	
Selling expenses	\$	180,088	\$	40,978
General and administrative expenses		421,827		306,113
Total operating expenses	\$	601,915	\$	347,091
Percentage of Real Estate Sales before Sales Tax		4.7 %		4.2 %

#### Interest (Income)/Expense

Net interest income was \$11,142 for the three months ended June 30, 2011 compared to net interest expense of \$13,968 for the three months ended June 30, 2010. As the Company paid off all the short term bank loans in late 2010, there was no bank loan interest expense for the three months ended June 30, 2011. Before paying a deposit for a land use right bid bond and the consideration for new land use rights in June 2011, the Company had significantly more the cash on hand than during the prior comparable period. As a result, interest income increased significantly. The increased interest income was partially offset by interest expense of \$11,692 for the shareholder loan borrowing on June 16, 2011.

#### Income Taxes

##### U.S. Taxes

China HGS is a Florida corporation. However, all of our operations are conducted solely by our subsidiaries in the PRC. No income is earned in the United States and we do not repatriate any earnings outside the PRC. As a result, we

did not generate any U.S. taxable income for the three months ended June 30, 2011 and 2010.

## PRC Taxes

Our Company is governed by the Income Tax Law of the People's Republic of China concerning private-run enterprises, which are generally subject to tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments.

However, the local taxing authority of Hanzhong City has the power to assess corporate taxes annually on local enterprises at a pre-determined fixed rate as an incentive to stimulate the local economy and encourage entrepreneurship. In 2010, the taxing authority assessed us for income taxes at the rate of 1.25% on revenue in Yang County and 2.5% on our revenue in Hanzhong, instead of statutory rate of 25%. As a result, income tax expense for the quarter ended June 30, 2011 was \$181,218. Income taxes increased by 36.1% compared to \$133,107 for the three months ended June 30, 2010 as a result of our higher revenue.

Although the possibility exists for reinterpretation of the application of the tax regulations by higher tax authorities in the PRC, potentially overturning the decision made by the local tax authority, the Company has not experienced any reevaluation of the income taxes for prior years. Management believes that the possibility of any reevaluation of income taxes is remote based on the fact that the Company has obtained the written tax clearance from the local tax authority. Thus, no additional taxes payable have been recorded for the difference between the taxes due based on taxable income calculated according to the statutory taxable income method and taxes due based on the fixed rate method. It is the Company's policy that if such reevaluation of income taxes becomes probable and the amount of additional taxes due can be reasonably estimated, additional taxes shall be recorded in the period in which the amount can be reasonably estimated and shall not be charged retroactively to an earlier period.

## Net Income

We reported net income of \$6,402,548 for the three months ended June 30, 2011, as compared to net income of \$3,165,030 for the three months ended June 30, 2010. The \$3,237,518 increase in our net income was primarily due to the increase of revenue as further discussed above under Revenues.

## Other Comprehensive Income

We operate primarily in the PRC and the functional currency of our operating subsidiary is the Chinese Renminbi ("RMB"). The RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that the RMB amounts could have been, or could be, converted into USD at the rates used in translation. Translation adjustments resulting from this process amounted to \$955,421 and \$166,767 for the three months ended June 30, 2011 and 2010, respectively. The balance sheet amounts with the exception of equity at June 30, 2011 were translated at RMB 6.4635 to USD 1.00 as compared to RMB 6.8086 to USD 1.00 at June 30, 2010. The equity accounts were stated at their historical rate. The average translation rates applied to the income statements accounts for the periods ended June 30, 2011 and 2010 were RMB 6.5186 and RMB 6.8335, respectively. The increased other comprehensive income was mainly attributable to the larger difference between the average exchange rate and the period end exchange rate as a result of a higher RMB appreciation rate. For the three months ended June 30, 2011, the difference of exchange rate at the period end and the average was 0.0551, while the difference was 0.0249 for the three months ended June 30, 2010.

Nine Months Ended June 30, 2011 Compared to Nine Months Ended June 30, 2010

The following table summarizes our revenue generated by different projects:

	For Nine Months Ended June 30, 2011			For Nine Months Ended June 30, 2010			Variance		
	Revenue	%		Revenue	%		Amount	%	
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan)	\$14,479,133	37.1	%	\$8,489,491	25.6	%	\$5,989,642	70.6	%
Nan Dajie (Mingzhu Xinju)	1,201,132	3.1	%	-	-		1,201,132	-	
Yangzhou Pearl Garden	20,844,522	53.4	%	23,487,857	70.9	%	(2,643,335)	-11.3	%
Central Plaza	2,531,736	6.5	%	1,163,571	3.5	%	1,368,165	117.6	%
Total Real Estate Sales before Sales Tax	\$39,056,523	100	%	\$33,140,919	100	%	\$5,915,604	17.8	%
Sales Tax	(2,236,650)			(2,036,584)			200,066	9.8	%
Revenue net of sales tax	\$36,819,873			\$31,104,335			\$5,715,538	18.4	%

Revenues increased by 17.8% to approximately \$39.1 million for the nine months ended June 30, 2011 from \$33.1 million for the nine months ended June 30, 2010. The Company recognized revenues on sales of 775 units of residential and commercial properties for the nine months ended June 30, 2011, as compared to sales of 983 units of residential and commercial properties recognized for the nine months ended June 30, 2010. Although the sales of units recognized as revenue for the nine months ended June, 2011 are fewer than the sales of units included in the same period for the prior year, the revenue for the current period is higher than the comparable period due to the increase of the average unit sales price. The average sales prices per square-meter were \$426 and \$315 for the nine months ended June 30, 2011 and 2010, respectively, representing an increase of \$112 or 35.5%, as a result of robust market demand for the properties.

#### Cost of Sales

The following table sets forth a breakdown of our cost of sales for the periods indicated.

	For Nine Months Ended June 30, 2011			For Nine Months Ended June 30, 2010			Variance		
	Cost	%		Cost	%		Amount	%	
Land use rights	\$1,785,308	10.5	%	\$2,954,521	17.4	%	\$(1,169,213)	-39.6	%
Construction cost	15,173,841	89.5	%	14,000,175	82.6	%	1,173,666	8.4	%
Total cost	\$16,959,149	100	%	\$16,954,696	100	%	\$4,453	0.0	%

Cost of sales was approximately \$17.0 million for the nine months ended June 30, 2011 compared to approximately \$17.0 million for the nine months ended June 30, 2010.

Land use rights cost: Costs for land use rights for the nine months ending June 30, 2011 were \$1,785,308, as compared to \$2,954,521 for the nine months ended June 30, 2010, representing a decrease of \$1,169,213 or 39.6%. The decrease was mainly due to the decrease in units recognized as revenue. For the nine months ended June 30, 2011, there were 775 units recognized as revenue, a decrease of 21.2% from 983 units for the nine months ended June 30, 2010. In addition, the decrease was also attributable to increased sales of units in sub-high-rise and high-rise buildings. For the sub-high-rise and high-rise buildings, there are more units than the multi-layer building on the same

area. Therefore, the unit cost of land use rights of the sub-high-rise or high-rise building is lower than that of the multi-layer building.

Construction cost: Although the units recognized as revenue decreased by 21.2%, the construction costs for the nine months ending June 30, 2011 were approximately \$15.2 million, which increased by 8.4% from approximately \$14.0 million for the nine months ended June 30, 2010, as a result of an increase in average unit cost. The unit construction costs of sub-high-rise and high-rise buildings are much higher than those of multi-layer buildings. For the nine months ended June 30, 2011, as there were more sub-high-rise and high-rise units sold than during the prior comparable period, the cost of construction increased accordingly. In addition, the increased construction cost was attributable to the increase in raw commodities prices.

The total cost of sales as a percentage of real estate sales before sales tax for the nine months ended June 30, 2011 decreased to 43.4% from 51.2% for the nine months ended June 30, 2010, which was mainly attributable to the increase in unit sales prices and the decrease in land use rights costs.

### Gross Profit

Gross profit was approximately \$19.9 million for the nine months ended June 30, 2011 as compared to approximately \$14.1 million for the nine months ended June 30, 2010, an increase of \$5.7 million or 40.4% which was mainly attributed to the increase in unit sales price and the decrease in land use rights cost. Overall gross profit as a percentage of real estate sales before sales tax increased to 50.9% in the nine months ended June 30, 2011 compared to 42.7% for the comparable period in prior year.

The following table sets forth the gross margin of each of our projects:

	For Nine Months Ended June 30,			
	2011		2010	
	Gross Profit	Percentage of Revenue	Gross Profit	Percentage of Revenue
Mingzhu Garden (Mingzhu Nanyuan & Mingzhu Beiyuan)	\$ 7,649,295	52.8 %	\$ 4,340,334	51.1 %
Nan Dajie (Mingzhu Xinju)	818,084	68.1 %	-	-
Yangzhou Pearl Garden	11,951,889	57.3 %	11,197,221	47.7 %
Central Plaza	1,678,106	66.3 %	648,668	55.7 %
Sales Tax	(2,236,650 )		(2,036,584 )	
Total Gross Profit	\$ 19,860,724	50.9 %	\$ 14,149,639	42.7 %
Total Real Estate Sales before Sales Tax	\$ 39,056,523		\$ 33,140,919	

### Operating Expenses

Operating expenses decreased by \$759,955 to \$1,091,060 for the nine months ended June 30, 2011 from \$1,851,015 for the nine months ended June 30, 2010 as a result of decreases of \$620,435 and \$139,520 in general and administrative expenses and selling expenses, respectively. Approximately \$270,000 of the decrease in general and administrative expenses is attributable to the fact that, unlike the comparable period in 2010, the Company did not accrue any management bonuses this quarter because of missing the sales target set by management. Approximately \$196,000 of the decrease in general and administrative expense is due to reverse acquisition costs incurred during the nine months ended June 30, 2010. The reverse acquisition costs were \$196,000 compared to nil for the nine months ended June 30, 2011. In addition, the Company entered into a settlement agreement in December 2010 with respect to fees owed in connection with its reverse acquisition in December 2009, pursuant to which approximately \$167,000 was credited to general and administrative expenses.

The decrease in our selling expense is due to our reduced marketing expense. With the marketing and advertising efforts made in the prior year to brand the Company and introduce our projects, the Company and the projects have been well recognized in the local market. As a result, the Company reduced marketing and advertising expenditure in the current period.

	For Nine Months Ended June 30,			
	2011		2010	
Selling expenses	\$	344,628	\$	484,148
General and administrative expenses		746,432		1,366,867
Total Operating expenses	\$	1,091,060	\$	1,851,015
Percentage of Real Estate Sales before Sales Tax		2.8	%	5.6
				%

#### Interest (Income)/Expense

Net interest income was \$30,033 for the nine months ended June 30, 2011 compared to net interest expense of \$40,550 for the nine months ended June 30, 2010. As the Company paid off all the short term bank loans during 2010, the interest expense decreased significantly for the nine months ended June 30, 2011.

#### Income Taxes

##### U.S. Taxes

China HGS is a Florida corporation. However, all of our operations are conducted solely by our subsidiaries in the PRC. No income is earned in the United States and we do not repatriate any earnings outside the PRC. As a result, we did not generate any U.S. taxable income for the nine months ended June 30, 2011 and 2010.

##### PRC Taxes

Our Company is governed by the Income Tax Law of the People's Republic of China concerning private-run enterprises, which are generally subject to tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments.

However, the local taxing authority of Hanzhong City has the power to assess corporate taxes annually on local enterprises at a pre-determined fixed rate as an incentive to stimulate the local economy and encourage entrepreneurship. In 2010, the taxing authority assessed us for income taxes at the rate of 1.25% on revenue in Yang County and 2.5% on our revenue in Hanzhong, instead of the statutory rate of 25%. As a result, income tax expense for the nine months ended June 30, 2011 was \$716,828. Income taxes increased by 34.1% as compared to \$534,583 for the nine months ended June 30, 2010 as a result of our higher revenue and gross profit.

Although the possibility exists for reinterpretation of the application of the tax regulations by higher tax authorities in the PRC, potentially overturning the decision made by the local tax authority, the Company has not experienced any reevaluation of the income taxes for prior years. Management believes that the possibility of any reevaluation of income taxes is remote based on the fact that the Company has obtained the written tax clearance from the local tax authority. Thus, no additional taxes payable have been recorded for the difference between the taxes due based on taxable income calculated according to statutory taxable income method and the taxes due based on the fixed rate method. It is the Company's policy that if such reevaluation of income taxes becomes probable and the amount of additional taxes due can be reasonably estimated, additional taxes shall be recorded in the period in which the amount can be reasonably estimated and shall not be charged retroactively to an earlier period.

## Net Income

We reported net income of \$18,081,383 for the nine months ended June 30, 2011, as compared to net income of \$11,724,077 for the nine months ended June 30, 2010. The \$6,357,306 increase in our net income was primarily due to the increase of revenue and gross profit as further discussed above under Revenues and Gross Profit above.

## Other Comprehensive Income

We operate primarily in the PRC and the functional currency of our operating subsidiary is RMB. The RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that the RMB amounts could have been, or could be, converted into USD at the rates used in translation. Translation adjustments resulting from this process amounted to \$2,075,308 and \$173,231 for the nine months ended June 30, 2011 and 2010, respectively. The balance sheet amounts with the exception of equity at June 30, 2011 were translated at RMB 6.4635 to USD 1.00 as compared to RMB 6.8086 to USD 1.00 at June 30, 2010. The equity accounts were stated at their historical rate. The average translation rates applied to the income statements accounts for the periods ended June 30, 2011 and 2010 were RMB 6.5796 and RMB 6.8352, respectively. The increased other comprehensive income was mainly attributable to the larger difference between the average exchange rate and the period end exchange rate as a result of higher RMB appreciation rate. For the nine months ended June 30, 2011, the difference of exchange rate at the period end and the average was 0.1161, while the difference was 0.0266 for the nine months ended June 30, 2010.

## Liquidity and Capital Resources

### Current Assets and Liabilities

To date, we have financed our operations primarily through cash flows from operations. As of June 30, 2011, the Company had \$25,592,140 in working capital, a decrease of \$14,463,493 as compared to \$40,055,633 as of September 30, 2010.

Current assets decreased by \$5.4 million to approximately \$53.8 million as of June 30, 2011 from \$59.3 million as of September 30, 2010. The primary changes in our current assets during this period were decreases in cash, loans to outside parties and property under development; and increases in land use right bid bond deposit and property developments completed. The decrease of cash from \$12,621,845 as of September 30, 2010 to \$2,641,578 as of June 30, 2011 was mainly due to the payment of land use right acquisition consideration and for a land use right bid bond deposit, with a total amount of approximately \$43.1 million. The decrease in cash was partially offset by cash generated from operating income, increased customer deposits and loans from a shareholder. The decrease of loans to outside parties from \$6,748,832 at September 30, 2010 to \$1,889,297 at June 30, 2011 was attributed to a decrease in lending to our construction material suppliers. The balance of property under development decreased \$9.3 million from \$28,021,880 as of September 30, 2010 to \$18,675,151 as of June 30, 2011, while the balance of property development completed increased \$2.9 million from September 30, 2010 to June 30, 2011. It showed high liquidity of the completed properties.

Total current liabilities as of June 30, 2011 totaled approximately \$28.2 million, representing a 47% increase compared to \$19.2 million as of September 30, 2010. The increase in current liabilities was mainly due to the increase in shareholder loans. To finance a land use right bid bond deposit and a required contribution to the registered capital of Shaanxi HGS, the Company borrowed \$6,760,878 in short-term loans from Mr. Xiaojun Zhu, the Chairman of the Board of Director, in June 2011. In addition, the increase in current liabilities was also attributable to the increase in accounts payable. To maintain a good cash flow for our future business expansion, we continued paying our construction material suppliers upon the due date of the bill and decreased the advance or loan to the construction material suppliers. As a result, the accounts payable increased to approximately \$2.5 million as of June 30, 2011 from \$0.8 million as of September 30, 2010.

Based on our current operating plan, we believe that existing cash and cash equivalents balances, as well as cash forecast by management to be generated by operations will be sufficient to meet our working capital and capital requirements for our current operations.

In order to fully implement our business plan, however, we may need to require capital contributions far in excess of our current asset value. Our expectation, therefore, is that we will seek to access the capital markets in both the U.S. and China to obtain the funds we require. At the present time, however, we do not have commitments of funds from any source.

## Cash Flow

Comparison of cash flows results is summarized as follows:

	Nine months ended June 30,	
	2011	2010
Net cash (used in)/provided by operating activities	(16,886,907)	9,067,132
Net cash used in investing activities	(20,567 )	(7,681 )
Net cash provided by/(used in) financing activities	6,685,210	(87,770 )
Effect of change of foreign exchange rate on cash and cash equivalent	241,997	38,519
Net cash (decrease)/increase in cash	(9,980,267 )	9,010,200
Cash, beginning of period	12,621,845	820,783
Cash, end of period	\$2,641,578	\$9,830,983

## Operating Activities

Net cash used in operating activities for the nine months ended June 30, 2011 amounted to \$16,886,907, primarily due to the payment of land use right acquisition consideration and for a land use right bid bond deposit. The Company paid \$27.7 million to acquire a land use right for the development of the Oriental Mingzhu Garden project. To attend a land use right auction, the Company paid a \$15.5 million bid bond deposit in June 2011. Excluding the land use right acquired in May 2011, the property development cost balance increased by \$7.7 million for the nine months ended June 30, 2011, which was mainly due to the development of a new phase of Mingzhu Garden. The cash used in operating activities was partially offset by the net income of \$18.1 million, the increase of customer deposits and the collection of loans to outside parties. Customer deposits increased \$11.4 million, which was attributable to our business growth trend reflecting strong local market demand for residential properties, as well as higher average real-estate prices in Hanzhong. In June 2011, the Company entered into bulk-purchase agreements with two local government offices for the properties to be completed in late 2012. Upon entering into the agreements, the government offices paid in aggregate approximately \$5.2 million as the first down payment. To maintain a healthy cash flow, we kept collecting the loans to construction material suppliers. As a result, the loans to outside parties decreased \$5.0 million.

Net cash provided by operating activities during the nine months ended June 30, 2010 amounted to \$9,067,132, which consists of our net income of \$11,724,077, adding back noncash adjustments of \$82,233 and offset by net changes in operating assets and liabilities due to our expanded operating activities, including an increase in our loans to outside parties of \$3,545,569 in order to maintain a good relationship with these material suppliers, an increase of our real estate property completed of \$6,342,444 due to several of our construction projects having been completed as scheduled, a decrease of our real estate property under development of \$5,026,582 because several of our projects have been completed as of June 30, 2010 and accordingly have been transferred into inventory account, a decrease of advances from customers in the amount of \$306,694 which was attributable to increased sales resulting in recognition of the related amounts as revenues after meeting all conditions of the revenue recognition method, and an increase of tax payable of \$1,723,326 because we accrued more taxes in line with our increased sales revenue and taxable income.

## Financing Activities

Net cash flows provided by financing activities amounted to \$6,685,210 for the nine months ended June 30, 2011, which represents the proceeds of the short-term loans from a shareholder to finance the land use right bid bond deposit and a required contribution to the registered capital of Shaanxi HGS in June 2011.

Net cash flows used in financing activities amounted to \$87,770 for the nine months ended June 30, 2010, which represents the repayment of our bank loan.

## Inflation

Inflation has not had a material impact on our business and we do not expect inflation to have a material impact on our business in the near future.

## Critical Accounting Policies and Management Estimates

The discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these condensed consolidated financial statements requires us to make estimates and judgments that affect our reported assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We evaluate our estimates on an on-going basis and use them on historical experience and various other assumptions that are believed to be reasonable under the circumstances as the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates because of different assumptions or conditions.

We believe the following critical accounting policies affect our significant estimates and judgments used in the preparation of our condensed consolidated financial statements. These policies should be read in conjunction with Note 2 of the notes to condensed consolidated financial statements.

## Principles of Consolidation

The accompanying condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP"). The condensed consolidated financial statements include the financial statements of the Company and its subsidiaries China HGS Investment Inc., Shaanxi Hanguangsha Management and Consultation Limited Company and the variable interest entity Shaanxi Guangsha Investment and Development Group Co., Ltd. All significant inter-company balances and transactions are eliminated in consolidation.

At June 30, 2011, we determined that we are the primary beneficiary of Guangsha based on ongoing reassessments, taking into consideration our economic control over Guangsha; the existing contractual relationship in which all of Guangsha's activities either involve or are conducted on our behalf, and we have the obligations to absorb Guangsha's expected returns and losses.

## Use of Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes, and disclosure of contingent liabilities at the date of the condensed consolidated financial statements. Estimates are used for, but not limited to, the selection of the useful lives and residual values of property and equipment and intangible assets, provision for doubtful accounts, provision necessary for contingent liabilities, fair values, revenue recognition, and other similar charges. Management believes that the estimates utilized in preparing its condensed consolidated financial statements are reasonable and prudent. Actual results could differ from these estimates.

## Fair Value of Financial Instruments

The Company follows the provisions of Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures. ASC 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and

establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2 - Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3 - Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The Company's unaudited condensed consolidated financial instruments include cash and cash equivalents, loans to outside parties, other current assets, accounts payable, accrued expenses, customer deposits, construction deposits and taxes payable. Management has estimated that the fair value of these financial instruments approximate their carrying amounts due to the short-term nature. The fair value of the long term customer and construction deposits approximate their carrying amounts because the deposits received is cash.

### Revenue Recognition

We recognize revenue from the sales of real property in accordance with the full accrual method at the time of the closing of an individual unit sale. This occurs when title to or possession of the property is transferred to the buyer. A sale is not considered consummated until (a) the parties are bound by the terms of a contract, (b) all consideration has been exchanged, (c) any permanent financing of which the seller is responsible has been arranged, (d) all conditions precedent to closing have been performed, (e) the seller does not have substantial continuing involvement with the property, and (f) the usual risks and rewards of ownership have been transferred to the buyer. Further, the buyer's initial and continuing investment is adequate to demonstrate a commitment to pay for the property, and the buyer's receivable, if any, is not subject to future subordination.

### Customer Deposits

The classification of customer deposits as current liabilities or long term liabilities is subject to our estimation on whether we expect to be able to recognize these deposits as revenue within one year of the balance sheet date. We convert the customer deposits to revenue when the homebuyers or banks pay off the balance, and the certificates of the ownership are delivered to the homebuyers or the banks.

### Loan to outside parties

We periodically evaluate the collectability of loans to outside parties and maintain an allowance for doubtful accounts for estimated losses resulting from the inability of outside parties to pay back the loans. Loans with aging over one year are booked as allowance for doubtful accounts. If the balance of the loans over a year is significant, our provision for doubtful accounts could be material to our net income.

### Real Estate Under Development/Real Estate Completed

The real estate property development completed and under development are subject to valuation adjustments when the carrying amount exceeds fair value. An impairment loss shall be recognized only if the carrying amount of the assets is not recoverable and exceeds fair value. The carrying amount is not recoverable if it exceeds the sum of the undiscounted cash flows expected to be generated by the assets. Impairment analyses are based on our estimated sales and available market information at the time the analyses are prepared. If our estimates of the projected future cash flows or market conditions change, our evaluation of impairment losses may be different and such differences could be material to our consolidated financial statements. The evaluation of anticipated cash flows is subjective and is based, in part, on assumptions regarding estimated sales and capital requirements that could differ materially from actual results.

We classify “real estate completed” and “real estate under development” on our balance sheet into current and non-current portions based on the estimated date of completion. Real estate completed and real estate under development that we expect to be sold within one year from the balance sheet date are classified as current assets.

## Income taxes

The Company was incorporated in the United States. It is governed by the Income Tax law of United States. However, the Company conducts all of its operations through its VIE Shaanxi Guangsha Investment and Development Group Co., Ltd (“Guangsha”) in PRC, therefore did not generate any taxable income outside of the PRC for the years ended December 31, 2010 and 2009. The Management does not expect to repatriate Guangsha’s net income back to U.S. in the near future. Guangsha is governed by the Income Tax Law of the PRC concerning the private-run enterprises, which are generally subject to tax at a statutory rate of 25% on income reported in the statutory financial statements after appropriate tax adjustments. However, the local taxing authority of Hanzhong City, in which Guangsha operates, has the power to assess corporate taxes annually on local enterprises at a pre-determined fixed rate as an incentive to stimulate the local economy and encourage entrepreneurship. In 2010, the taxing authority assessed us for income taxes at 2.5% on revenue in Hanzhong and 1.25% on revenue in Yang County. Accordingly the Company records the appropriate income tax expenses based on the fixed rates as determined by the local tax authority. Although the possibility exists for reinterpretation of the application of the tax regulations by higher tax authorities in the PRC, potentially overturning the decision made by the local tax authority, the Company has not experienced any reevaluation of the income taxes for prior years. Management believes that the possibility of any reevaluation of income taxes is remote based on the fact that the Company has obtained the written tax clearance from the local tax authority. Thus, no additional taxes payable has been recorded for the difference between the taxes due based on taxable income calculated according to statutory taxable income method and the taxes due based on the fixed rate method. It is the Company’s policy that if such reevaluation of income taxes becomes probable and the amount of additional taxes due can be reasonably estimated, additional taxes shall be recorded in the period in which the amount can be reasonably estimated and shall not be charged retroactively to an earlier period.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Not applicable.

## ITEM 4. CONTROLS AND PROCEDURES

### Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this Quarterly Report on Form 10-Q (the “Evaluation Date”). The evaluation of our disclosure controls and procedures included a review of our processes and the effect on the information generated for use in this Quarterly Report on Form 10-Q. In the course of this evaluation, we sought to identify any material weaknesses in our disclosure controls and procedures and to confirm that any necessary corrective action, including process improvements, was taken. The purpose of this evaluation is to determine if, as of the Evaluation Date, our disclosure controls and procedures were operating effectively such that the information, required to be disclosed in our Securities and Exchange Commission (“SEC”) reports (i) was recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

As of June 30, 2011, Mr. Xiaojun Zhu, the Company's Chief Executive Officer and Chief Financial Officer, has concluded that, as of that date, the Company's controls and procedures were not effective due to material weaknesses (as defined in Public Company Accounting Oversight Board Standard No. 5) in the Company's internal controls over financial reporting described in the Company's Form 10-K filed on December 29, 2010. This is due to the fact that the Company lacked sufficient personnel with the appropriate level of knowledge, experience and training in the application of U.S. generally accepted accounting principles ("GAAP") standards, especially related to complicated accounting issues. This could cause the Company to be unable to fully identify and resolve certain accounting and disclosure issues that could lead to a failure to maintain effective controls over preparation, review and approval of certain significant account reconciliation from PRC GAAP to U.S. GAAP and necessary journal entries.

The Company has employed a relatively small number of professionals in bookkeeping and accounting functions, which has prevented the Company from appropriately segregating duties within its internal control systems. The inadequate segregation of duties is a weakness because it could lead to the untimely identification and resolution of accounting and disclosure matters or could lead to a failure to perform timely and effective reviews.

Based on the control deficiency identified above, we have designed and plan to implement, or in some cases have already implemented, the specific remediation initiatives described below:

- We have appointed a V.P. of Finance that has substantial U.S. GAAP financial reporting experience. This individual's primary responsibility is to assist the Company in converting the financial statements prepared under PRC GAAP into U.S. GAAP and help train Company accounting personnel in U.S. GAAP standards.
- We formulated procedures for internal review and approval of financial statements and the applicable SEC filings.
- We have established the significant transaction approval process. Senior management, through the executive committee approves and validates all significant transactions.
- We are in the process of finalizing the engagement of a consulting firm to assist in re-evaluating and implementing necessary internal control procedures.
- We are evaluating the roles of our existing accounting personnel in an effort to realign the reporting structure of our internal auditing staff in China that will test and monitor the implementation of our accounting and internal control procedures.
- We will soon begin implementation of an initiative and training in China to ensure the importance of internal controls and compliance with established policies and procedures is fully understood throughout the organization and will provide additional U.S. GAAP training to all employees involved with the performance of or compliance with those procedures and policies.
- We will provide training to the staff in business and finance departments to better understand the importance of financial reporting and non-financial disclosure requirements and provided clear guidance on reporting and non-financial disclosure requirements.
- We will increase our accounting and financing personnel resources, by retaining more U.S. GAAP knowledgeable financial professionals.

The remedial measures being undertaken may not be fully effectuated or may be insufficient to address the significant deficiencies we identified, and there can be no assurance that significant deficiencies or material weaknesses in our internal control over financial reporting will not be identified or occur in the future. If additional significant deficiencies (or if material weaknesses) in our internal controls are discovered or occur in the future, among other similar or related effects: (i) the Company may fail to meet future reporting obligations on a timely basis, (ii) the Company's consolidated financial statements may contain material misstatements, and (iii) the Company's business and operating results may be harmed.

#### Changes in Internal Control over Financial Reporting

Except for the matters described above to improve our internal controls over financial reporting, there were no further changes in our internal control over financial reporting for the three months ended June 30, 2011 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, however the Company is in the process of designing and planning to change as described above.

## PART II: OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

We may be subject to, from time to time, various legal proceedings relating to claims arising out of our operations in the ordinary course of our business. We are not currently a party to any legal proceedings, the adverse outcome of which, individually or in the aggregate, would have a material adverse effect on the business, financial condition, or results of operations of the Company.

### ITEM 1A. RISK FACTORS

As a “smaller reporting company” as defined by Item 10 of Regulation S-K, the Company is not required to provide information required by this item.

### ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

### ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

### ITEM 5. OTHER INFORMATION

On June 16, 2011, Guangsha, our VIE, entered into a one-month RMB loan agreement (“RMB Loan Agreement”) with Mr. Xiaojun Zhu, our controlling shareholder, CEO, CFO and Chairman of the Board of Directors. Pursuant to the RMB Loan Agreement, Guangsha borrowed RMB32,000,000 (\$4,950,878) from Mr. Zhu to partially fund a deposit for a land use right bid bond (the “RMB Loan”). In June 2011, the Company paid RMB100,000,000 (\$15,198,492) as a deposit for a bid bond for a land use right auction held in July 2011. As the Company did not acquire the land use right, the bid bond deposit was fully refunded to the Company in July 2011. As of August 12, 2011, Guangsha had repaid a total of RMB18,000,000 (\$2,784,869) of the RMB Loan owed to Mr. Xiaojun Zhu.

According to the terms of the RMB Loan Agreement, there is no interest payable on the loan during its term, although the loan bears interest at the rate of 15% per annum if it is not repaid during its term. On July 16, 2011, Guangsha and Mr. Xiaojun Zhu entered into an agreement to extend the term of repayment for one month with no interest charge during that period.

A translated copy of the RMB Loan Agreement, as extended, is filed as Exhibit 10.1 to this report.

On June 28, 2011, the Company entered into a loan agreement (“USD Loan Agreement”) with Mr. Xiaojun Zhu. Pursuant to the USD Loan Agreement, the Company borrowed US\$1,810,000 from Mr. Zhu in order to make a required capital contribution to the registered share capital of Shaanxi HGS, the Company’s subsidiary (the “USD Loan”). The term of the USD Loan Agreement is for one year and the USD Loan bears interest at the annual rate of 4%.

A translated copy of the USD Loan Agreement is filed as Exhibit 10.2 to this report.
