**EXPONENT, INC.**

**PROXY STATEMENT**

**FOR THE**

**2014 ANNUAL MEETING OF STOCKHOLDERS**

**ABOUT THE ANNUAL MEETING**

**General**

The enclosed proxy is solicited on behalf of the Board of Directors of Exponent, Inc., a Delaware corporation. The Annual Meeting of Stockholders will be held at the Company's principal executive offices, 149 Commonwealth Drive, Menlo Park, California 94025, on Thursday, May 29, 2014 at 9:00 a.m. Pacific time. The telephone number for this location is (650) 326-9400.

**What is the Purpose of the Annual Meeting?**

At the Company's Annual Meeting, stockholders will act upon matters outlined in the accompanying notice of the Annual Meeting and transact such other business that may properly come before the Annual Meeting.

**Who is Entitled to Vote?**

Only stockholders of record at the close of business on the Record Date, April 2, 2014, will receive notice of the Annual Meeting and are entitled to vote at the Annual Meeting. Each outstanding share entitles its holder to cast one vote on each matter to be voted upon. There are no cumulative voting rights.

Please note that if you hold your shares in “street name,” that is, through a broker or other nominee, you will need to bring a copy of a brokerage statement reflecting your stock ownership on the Record Date. If you do not vote your proxy, your brokerage firm may either vote your shares on routine matters, such as the ratification of the Company’s independent auditor, or leave your shares without a vote. We encourage you to provide instructions to your brokerage firm by voting your proxy. This ensures your shares will be voted at the Annual Meeting.

We have provided our stockholders access to our proxy materials over the internet in accordance with rules and regulations adopted by the United States Securities and Exchange Commission (“SEC”). Therefore, a Notice of Internet Availability of Proxy Materials (the “Notice”) will be mailed on or about April 16, 2014 to all stockholders entitled to vote at the meeting. The Notice will have instructions for stockholders on how to access Exponent’s proxy materials via a website or how to request that a printed copy of the proxy materials be mailed to them. The Notice will also have instructions on how to elect to receive all future proxy materials electronically or in printed form. If you choose to receive future proxy materials electronically, you will receive an email each year with instructions on how to access the proxy materials and proxy voting site.

The SEC has adopted rules that allow companies and intermediaries, such as brokers, to deliver a single copy of certain proxy materials to certain stockholders who share the same address, a practice referred to as “householding.” Some banks, brokers and other nominees will be householding Exponent’s proxy materials, unless contrary instructions are received from the affected stockholders. Once you have received notice from your broker or other nominee holder of your Exponent common stock that the broker or other nominee holder will be householding the proxy materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive separate proxy materials, or if you are receiving multiple copies of the proxy materials and wish to receive only one copy, please notify your broker or other nominee holder of your Exponent common stock. We will deliver promptly, on written or oral request, a separate copy of our proxy materials, including our annual report to stockholders, to each stockholder participating in householding. To request that proxy materials be householded or to request separate copies of proxy materials, please contact us at: Corporate Secretary, 149 Commonwealth Drive, Menlo Park, CA 94025 or by telephone at (650) 326-9400.

## **How Do I Vote?**

You may vote by telephone, vote via the internet, or vote in person. To vote by telephone or via the internet, please follow the instructions provided in the Notice. If you elected to receive printed proxy materials, you may submit your proxy by mail. To vote by mail, you must sign your proxy card and send it in the enclosed prepaid, addressed envelope. If you mark your voting instructions on the proxy card, your shares will be voted as you instruct. If you return a signed card but do not provide voting instructions, your shares will be voted as recommended by the Board of Directors:

- for the six named nominees to the Board of Directors;
- for the ratification of the appointment of KPMG LLP, an independent registered public accounting firm, as the Company's auditor for the fiscal year ending January 2, 2015;
- to approve, on an advisory basis, the fiscal 2013 compensation of the Company's named executive officers; and

If you choose to vote in person, you will have an opportunity to do so at the Annual Meeting. You may either bring your Notice to the Annual Meeting, or if you do not bring your Notice, the Company will pass out written ballots to anyone who was a stockholder as of the Record Date.

## **What if I Change My Mind After I Vote?**

You may revoke your proxy and change your vote at any time before the polls close at the Annual Meeting. You may do so by voting by telephone or via the internet, by signing or delivering another proxy with a later date if you elected to receive printed proxy materials or by voting in person at the Annual Meeting. Your proxy with the latest date is counted.

## **What Does it Mean if I Receive More than One Notice?**

It means you have multiple accounts with the transfer agent and/or with brokers. Please provide voting instructions for all Notices you receive.

## **What Constitutes a Quorum?**

The presence, in person or by properly executed proxy, of the holders of a majority of the shares of common stock outstanding as of the Record Date constitutes a quorum at the Annual Meeting. Shares that voted “For” or “Against” on the proposals are treated as being present at the Annual Meeting for purposes of establishing a quorum and are deemed to be “votes cast” at the Annual Meeting with respect to the proposals. Abstentions and broker non-votes will also be included for purposes of determining whether a quorum of shares is present at the Annual Meeting. However, abstentions and broker non-votes will not be counted and will therefore have no effect on issues requiring approval of a majority of the votes cast. Signed, unmarked proxy cards are voted as recommended by the Board of Directors. The affirmative vote of a majority of the votes cast is required for the election of directors, the ratification of the appointment of KPMG LLP, and the advisory vote on executive compensation.

As of the Record Date, a total of 13,141,368 shares of the Company’s common stock, \$.001 par value, were issued and outstanding. For information regarding security ownership by management and by the beneficial owners of more than 5% of the Company’s common stock, see “Security Ownership of Certain Beneficial Owners and Management.” The closing price of the Company’s common stock on the NASDAQ Global Select Market on the Record Date was \$76.10 per share.

## **PROPOSAL NO. 1**

### **ELECTION OF DIRECTORS**

#### **Nominees**

A Board of six directors is to be elected at the Annual Meeting. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the Company's six nominees named below. The term of office of each person elected as a director will continue until the next Annual Meeting or until a successor has been elected and qualified. The Board has determined that a majority of the members of the Board are independent directors within the meaning of applicable NASDAQ listing standards.

#### **Required Vote**

The Company's Bylaws require that each director be elected by the majority of votes cast with respect to such director in uncontested elections. Each current director has provided an irrevocable, conditional resignation which is effective only if (i) he or she fails to receive the required majority vote at any Annual Meeting at which he or she face re-election and (ii) the board accepts such resignation. If an incumbent director fails to receive the required majority vote for re-election, the Corporate Governance and Nominating Committee will act on an expedited basis to determine whether to accept the director's resignation and will submit such recommendation for prompt consideration by the Board.

The election of directors pursuant to this Proposal is an uncontested election, and, therefore, the majority vote standard will apply. Abstentions and broker non-votes will not have any effect on the outcome of this Proposal. In tabulating the voting results for the election of directors, only "FOR" and "AGAINST" votes are counted.

No transactions required to be disclosed under SEC rules, and no other transactions, arrangements or relationships, existed or were considered by the Board in making its independence determinations.

**Board Leadership and Risk Oversight**

The Board has delegated oversight for matters involving certain specific areas of risk exposure to its committees. Each committee reports to the Board of Directors at regularly scheduled Board meetings, and more frequently if appropriate, with respect to the matters and risks for which the committee provides oversight. The Audit Committee oversees the integrity of the Company’s financial statements, risks related to the Company’s financial reporting process and internal controls, the independent auditors’ qualifications, independence and performance, and the Company’s corporate finance matters, including its capital structure. The Human Resources Committee is responsible primarily for the design and oversight of the Company’s executive compensation policies, plans and practices. A key objective of the Human Resources Committee is to ensure that the Company’s overall executive compensation program appropriately links pay to performance and aligns the interests of the Company’s executives with its stockholders, while seeking to encourage an appropriate level of risk-taking behavior consistent with the Company’s long-term strategy. The Human Resources Committee also monitors the design and administration of the Company’s compensation programs to ensure that they include appropriate safeguards to avoid encouraging unnecessary or excessive risk taking by Company employees. Another important element of risk mitigation is ensuring a balanced,

engaged and independent board. The Corporate Governance and Nominating Committee is primarily responsible for identifying and recommending nominees for director and overseeing the annual board evaluation of its performance.

### **Corporate Governance and Nominating Committee**

As described in the previous table, the Corporate Governance and Nominating Committee of the Board identifies individuals qualified to become Board members, recommends that the Board select the director nominees for the next annual meeting of stockholders, oversees the Board's annual evaluation of its performance and reviews and recommends to the Board compensation for non-employee directors. The committee is also responsible for developing and recommending to the Board a set of corporate governance guidelines applicable to the Company and for periodically reviewing such guidelines. The members of the Corporate Governance and Nominating Committee are all independent directors within the meaning of applicable NASDAQ listing standards. The responsibilities of this committee are set forth in the Corporate Governance and Nominating Committee Charter, which is available on the Company's website at: <http://www.exponent.com/corporate-governance/>.

The information below describes the criteria and process that the Corporate Governance and Nominating Committee use to evaluate candidates to the Board of Directors.

*Criteria for Nomination to the Board of Directors.* The Corporate Governance and Nominating Committee considers the appropriate balance of experience, skills and characteristics required of the Board of Directors, and seeks to insure that at least a majority of the directors are independent under the rules of the NASDAQ Global Select Market, and that members of the Audit Committee meet the financial literacy requirements under the rules of the NASDAQ Global Select Market and at least one of them qualifies as an “audit committee financial expert” under the rules of the SEC. Nominees for director are recommended to the Board on the basis of the appropriate size, function and needs of the Board, taking into account that the Board as a whole will have competency in the following areas: (i) industry knowledge; (ii) accounting and finance; (iii) business judgment; (iv) management; (v) leadership; (vi) business strategy; and (vii) corporate governance.

*Stockholders’ Proposals for Nominees.* The Corporate Governance and Nominating Committee will consider written proposals from stockholders for nominees for director. Any such nominations should be submitted to the Corporate Governance and Nominating Committee c/o the Secretary of the Company and should include, in addition to the other information required under our Bylaws, the following information: (a) all information relating to such nominee that is required to be disclosed pursuant to Regulation 14A under the Securities Exchange Act of 1934 (including such person’s written consent to being named in the proxy statement as a nominee and to serving as a director if elected); (b) the name(s) and address(es) of the stockholder(s) making the nomination and the number of shares of the Company’s common stock which are owned beneficially and of record by such stockholder(s); and (c) appropriate biographical information and a statement as to the qualifications of the nominee. The nomination should be submitted in the time frame described in the Bylaws of the Company and under the caption, “Stockholder Proposals and Nominations for the 2015 Annual Meeting.”

*Process for Identifying and Evaluating Nominees.* The Corporate Governance and Nominating Committee believes the Company is well served by its current directors, and in the ordinary course re-nominates incumbent directors who continue to be qualified for Board service, have performed well and are willing to continue as directors. If an incumbent director is not standing for re-election, or if a vacancy on the Board occurs between annual stockholder meetings, the Corporate Governance and Nominating Committee may seek out potential candidates for Board appointment who meet the criteria for selection as a nominee and have the specific qualities or skills being sought. Director candidates are selected based on input from members of the Board, senior management of the Company and, if the Corporate Governance and Nominating Committee deems appropriate, a third-party search firm. The Corporate Governance and Nominating Committee will evaluate each candidate’s qualifications and check relevant references. In addition, such candidates will be interviewed by at least one member of the Corporate Governance and Nominating Committee. Candidates meriting serious consideration will meet with the majority of the members of the Board. Based on this input, the Corporate Governance and Nominating Committee will evaluate which of the prospective candidates is qualified to serve as a director and whether the Committee should recommend to the Board that this candidate be appointed to fill a current vacancy on the Board, or presented for approval of the stockholders, as appropriate.

The Company has not adopted a formal policy with respect to stockholder nominees. The Company expects that the evaluation process for a stockholder nominee would be similar to the process outlined above.

*Board Nominees for the 2014 Annual Meeting.* Mr. Gaulke, Dr. Johnston, Mr. Riggins, and Dr. Shoven are current directors standing for re-election. Ms. Richardson has been a director of the Company since December of 2013 but has not previously been subject to stockholder election. Ms. Richardson was initially identified by the Corporate Governance and Nominating Committee as a candidate for director. Ms. Zumwalt was identified by the Corporate Governance and Nominating Committee as a candidate for director.

*How to Contact the Board of Directors.* Interested parties wishing to contact the non-management directors of the Company may do so by writing to them at the following address: Corporate Secretary, 149 Commonwealth Drive, Menlo Park, CA 94025. All letters received will be categorized by the Company's Corporate Secretary, and then forwarded to the Company's non-management directors.

The Company does not have a policy requiring the directors to attend the annual stockholders' meeting. However, all of the Company's directors in office at the time of our last annual stockholders' meeting attended that meeting. It is expected that all of our directors then in office will attend the Annual Meeting.

## **Code of Business Conduct and Corporate Governance**

The Board of Directors has adopted a Code of Business Conduct and Ethics, which applies to all of the Company's employees, officers and members of the Board of Directors. The Company has also adopted a Code of Ethics applicable to its senior financial officers, including its President and Chief Executive Officer, Executive Vice President and Chief Financial Officer, and Vice President, Corporate Controller and Treasurer. Copies of both documents are available on the Company's website at: <http://www.exponent.com/corporate-governance/>. The Company intends to disclose any waivers from these codes in a report on Form 8-K filed with the SEC.

## **Risk Management**

The Company takes a comprehensive approach to risk management and seeks to employ risk management principles in all of its management processes. This comprehensive approach is reflected in the reporting processes pursuant to which management provides information to the Board to support the Board's role in oversight, approval and decision-making. The Board maintains oversight responsibility for the management of the Company's risks, and closely monitors the information it receives from management to provide oversight and guidance to our management team concerning the assessment and management of risk. The Board approves the Company's high level goals, strategies and policies to set the tone and direction for appropriate levels of risk taking within the business.

Our Board also reviews the Company's enterprise risk management (ERM) program to ensure that an appropriate ERM process is in place. This review includes a discussion of the major risk exposures identified by senior management and steps implemented to monitor and mitigate such exposures on an ongoing basis. In addition to these reviews, our senior executives with responsibility for various business functions provide the Board and its committees with periodic updates regarding the Company's strategies and objectives, and the risks inherent thereto. Members of management most knowledgeable of relevant issues attend Board meetings to provide additional insight into items being discussed, including risk exposures. In addition, our directors have access to Company management at all times and at all levels to discuss any matters of interest, including those related to risk.

## **Compensation of Directors**

Members of our Board of Directors who are employees of the Company do not receive additional compensation for their services as directors of the Company. Non-employee members of the Board of Directors receive:

An annual cash retainer of \$60,000;

An annual restricted stock unit grant valued at \$80,000 that cliff vests on the day prior to the Company's next Annual Stockholder Meeting following the grant date;

- \$12,000 for service on the Audit Committee;
- \$22,500 for serving as Chairman of the Board of Directors;
- \$12,500 for serving as Chairperson of the Audit Committee;
- \$10,000 for serving as Chairperson of the Corporate Governance and Nominating Committee; and
- \$10,000 for serving as Chairperson of the Human Resources Committee.

### **Director Stock Ownership Guidelines**

We believe that the financial interests of our directors should be aligned with those of our stockholders. On June 3, 2010 our Corporate Governance and Nominating Committee adopted stock ownership guidelines for all non-employee directors. The stock ownership guideline for non-employee directors is equal to two times the director's annual cash retainer for board service. Stock that counts towards satisfaction of our stock ownership guidelines includes shares owned outright by the non-employee director or his or her immediate family members residing in the same household or in trust and restricted stock units, whether or not vested. The value of shares owned outright is Exponent's prior 365-day average closing common stock price. The value of restricted stock units is the grant date fair value. The calculation is done at the beginning of each year. Non-employee directors are required to achieve their stock ownership guideline within five years of the date the guidelines were adopted. If a person's stock ownership guideline increases, that person has a five-year period to achieve the new guideline. As of April 2, 2014, all non-employee directors met the stock ownership guidelines or are expected to meet the applicable ownership guidelines within the specified time period.

**DIRECTOR COMPENSATION IN FISCAL 2013**

## REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The following Report of the Audit Committee of the Board of Directors does not constitute soliciting material and should not be considered filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee of the Board of Directors is responsible for general oversight of the Company's financial accounting and reporting process. The Committee's primary responsibilities fall into three broad categories:

first, the Committee is charged with monitoring the preparation of quarterly and annual financial reports by the Company's management, including discussions with management and the Company's independent auditor about quarterly and annual financial statements and key accounting and reporting matters;

second, the Committee is responsible for matters concerning the relationship between the Company and its independent auditor, including their appointment or removal; approving the scope of their audit services and related fees, as well as any other services being provided to the Company; and determining whether the Company's auditor is independent; and

third, the Committee in consultation with management and the independent auditor considers the integrity of the Company's financial reporting processes and controls regarding finance and accounting.

The Committee's responsibilities are presented in detail in the complete charter of the Committee, which is available on the Company's website at: <http://www.exponent.com/corporate-governance/>. The charter reflects standards set forth in the applicable SEC regulations and the NASDAQ Global Select Market rules. Audit Committee members are independent as defined by these regulations and rules. The Board of Directors has determined that Mr. Riggins is an "audit committee financial expert" as such term is defined by these rules and regulations.

The Committee has implemented procedures to ensure that during the course of each fiscal year it devotes the attention it considers necessary or appropriate to each of the matters assigned to it under the Committee's charter.

In overseeing the preparation of the Company's financial statements, the Committee met with both management and the Company's independent auditor to review and discuss all quarterly and annual financial statements prior to their issuance and to discuss significant accounting issues. Management advised the Committee that all financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the Committee

discussed the statements with both management and the independent auditor. The Committee discussed with KPMG LLP the matters required to be discussed pursuant to applicable auditing standards adopted by the Public Company Accounting Oversight Board together with the guidelines established by the SEC and the Sarbanes-Oxley Act, including, among other items, matters related to the conduct of the audit of the consolidated financial statements by the independent registered public accounting firm and its audit of the effectiveness of internal control over financial reporting pursuant to Section 404.

The Audit Committee has received from KPMG LLP the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding KPMG's communications with the Audit Committee concerning independence. We have discussed with KPMG matters relating to its independence, including a review of both audit and non-audit services, and considered the compatibility of non-audit services with KPMG's independence.

On the basis of these reviews and discussions, the Committee recommended to the Board of Directors that the Board approve the inclusion of the Company's audited financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended January 3, 2014, for filing with the SEC.

## EXECUTIVE OFFICER COMPENSATION

### COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis explains our compensation philosophy, objectives, policies and practices with respect to our President and Chief Executive Officer, our Executive Vice President and Chief Financial Officer and our other three most highly-compensated executive officers, as determined in accordance with applicable SEC rules and as set out in the “Summary Compensation Table”. We collectively refer to these five individuals as our “named executive officers.”

**General Philosophy.** Our fundamental compensation philosophy is to align management’s incentives with the long-term interests of our stockholders, create a sense of partnership and to provide a retention vehicle. We strive to compensate our named executive officers competitively with executives and consulting professionals throughout the industry and geographies in which we operate. Executive officer compensation is based on the performance of the Company, individual achievements and the competitive environment. Individual performance assessments are based on appraisals of financial performance, professional accomplishments and leadership that meet the level of excellence demanded. We use a total compensation approach for our named executive officers, in which each element of compensation is reviewed individually and considered collectively with the other elements of our compensation program to ensure that it is consistent with the objectives of both that particular element of compensation and our overall compensation program. During our Board and Committee Meetings on February 7, 2014, we considered the results of the “say on pay” proposal from our 2013 proxy, on which 98.4% of votes cast by our stockholders were in support of our executive compensation policies and decisions for fiscal 2012. Our approach for fiscal 2013 on compensation policies and decisions remained consistent with our 2012 approach and no substantial changes were made during fiscal 2013. Our compensation program consists of the following elements: base salary, bonus, equity compensation and other benefits.

**Board Process.** The responsibility for determining the compensation of our named executive officers has been delegated by the Board of Directors to the Human Resources Committee (which is hereinafter referred to as the “Committee”). However, for our President and Chief Executive Officer’s compensation, the independent members of the Board ratify the compensation decisions approved by the Committee. As described in more detail below, the Committee’s responsibilities include establishing the general compensation policies for all employees and overseeing the specific compensation for officers of the Company. The Committee regularly reviews these compensation programs and makes adjustments as appropriate to accomplish its objectives. The Committee met five times during fiscal 2013.

In the case of the President and Chief Executive Officer, the Committee reviews the President and Chief Executive Officer’s written assessment of his performance, evaluates the performance of the President and Chief Executive Officer relative to his objectives and determines the appropriate compensation. For the other executive officers, the

President and Chief Executive Officer evaluates their performance and presents his evaluation and compensation recommendations to the Committee for review and approval. The Committee also approves all equity compensation grants. The Charter of the Committee is available on our website at: <http://www.exponent.com/corporate-governance/>.

The Charter of the Committee provides for the Committee to retain, and terminate as necessary, a compensation consultant. During 2012, the Committee engaged Compensia, an executive compensation consulting firm, to provide recommendations regarding a framework for performance objectives, as discussed below, and a group of publicly-traded professional service companies with revenue, operating income and business focus comparable to Exponent that will be used to develop competitive compensation data for our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer. For fiscal 2013, the Committee reviewed competitive compensation data for the chief executive officer and chief financial officer of 10 publicly-traded professional service companies recommended by Compensia with revenue, operating income, and business focus comparable to Exponent. Those companies included The Advisory Board, The Corporate Executive Board, CRA International, Duff & Phelps, Heidrick and Struggles, Huron Consulting, ICF International, Korn/Ferry, Navigant Consulting, and Resource Connection. During 2013, the Committee also reviewed executive compensation survey data compiled by Radford, a compensation survey provider, for chief financial officers of publicly-traded companies in Northern California with annual revenues in the \$120 million to \$769 million range. The Committee does not target compensation against a specific percentile or range of percentiles within any peer group, because there are no comparable companies that offer the same technical capability and breadth of services as Exponent. We use the data for a general understanding of the marketplace. The competitive compensation data for base salary, total cash compensation and long-term incentives were reviewed by the Committee to ensure that the President and Chief Executive Officer's compensation is not an outlier relative to the peer group reviewed. The competitive compensation data for base salary, total cash compensation and long-term incentives and the executive compensation survey data for chief financial officers provided by Radford also were reviewed by the Committee to ensure that the Executive Vice President and Chief Financial Officer's compensation is not an outlier relative to the peer groups reviewed.

## Compensation and Risk Management

The Committee does not believe that our executive compensation program encourages excessive or unnecessary risk-taking. By dividing our executives' compensation into three key elements, the Committee believes it has properly weighted the performance compensation eligible to be earned by our executives appropriately between short-term and long-term goals. Additionally, the annual bonus for the President and Chief Executive Officer is capped at two times his target bonus and 40% of each executive officer's annual bonus is settled with fully vested restricted stock units that are not delivered for four years. These provisions add protection against disproportionately large short-term incentives. The primary component of our equity compensation program is restricted stock units which cliff vest four years from the date of grant. The delayed vesting encourages our executives' sustained focus on the long-term performance of the Company. The Committee believes our executive compensation program promotes proper alignment of our executives' interests with those of the Company's stockholders.

### Elements of Compensation Program

**Base Salary.** We believe that competitive base salaries are necessary to attract and retain management talent critical to achieving our business objectives. We strive to provide base salaries commensurate with comparable executives at professional service organizations of similar size and location and with consulting professionals of similar background and experience working for both professional service organizations and in private practice. Base salaries are reviewed annually and adjusted to realign salaries with market levels after taking into account our performance, as well as the individual's responsibilities, experience and performance. The level of total compensation relative to our other executive officers, senior scientific and engineering consultants that we hire and those that have left to compete with us are also considered when determining executive officer base salaries.

Effective March 29, 2014, the annual base salary for Dr. Johnston, President and Chief Executive Officer, increased 4% from \$600,000 to \$625,000. Dr. Johnston's increased annual base salary reflected a level that Committee concluded was appropriate based upon Dr. Johnston's performance and the competitive compensation data. Effective March 29, 2014, the annual base salary for Dr. Boehm, Group Vice President, increased 3% from \$370,000 to \$380,000. Dr. Boehm's increased annual base salary reflected a level that the Committee concluded was appropriate based upon his performance in fiscal 2013. For fiscal 2014, the Committee concluded that the annual salaries for Mr. Schlenker, Executive Vice President and Chief Financial Officer, Dr. Malladi, Chief Technical Officer, and Dr. Caligiuri, Group Vice President, of \$400,000, \$600,000 and \$500,000, respectively, were competitive and would not be increased.

**Bonus.** Annual bonuses are designed to create an incentive and reward named executive officers for their contributions to our performance by making a significant portion of their total compensation variable. Our bonus plan covers all employees, including named executive officers, and the bonus pool is equal to 33% of our pre-tax income before bonuses, stock-based compensation, realized gain/loss on foreign exchange and interest income. An additional

amount of up to the amount of the President and Chief Executive Officer's target bonus will be added to the bonus pool if the President and Chief Executive Officer's targets for revenue and profit are exceeded, as discussed below. Our bonus pool has historically been 33% and the Committee determined that this amount was competitive for fiscal 2013. The total amount available in the bonus pool for fiscal 2013 was \$35,370,000. Generally 40% of each named executive officer's annual bonus is settled with fully vested restricted stock unit awards to provide a longer term incentive, under which each executive officer has the right to receive shares of our common stock four years from the date of grant. The remainder of each executive officer's annual bonus is paid in cash.

Where a named executive officer has responsibilities for both providing direct consulting services to clients and managing a business unit, his or her performance is generally weighted toward the direct consulting activities. For a named executive officer who has broader corporate responsibilities, such as our Executive Vice President and Chief Financial Officer, his performance is based on that officer's overall contribution to the Company.

For fiscal 2013, the President and Chief Executive Officer's performance was evaluated using a process developed with the help of Compensia, based on performance objectives in three categories: revenue, profitability, and leadership. The portion of the bonus determined based on objective business criteria established by the Committee is intended to qualify as performance-based compensation pursuant to Section 162(m) of the Code, while the portion of the bonus based on qualitative criteria is not. We have done this based upon our philosophy of determining total executive compensation using a combination of quantitative and qualitative assessments of performance.

**Performance Awards.** Our 2008 Equity Incentive Plan authorizes the grant of performance awards to our executive officers. Performance awards are payable only to the extent certain performance targets, based on objective business criteria specified by the Committee, are achieved in the relevant measurement period. Performance awards are payable in cash or restricted stock units, at the discretion of the Committee. At the beginning of each year, the Committee must determine the performance goals and the achievement necessary for the bonus payout. After the conclusion of the performance period, the Committee certifies (1) the extent to which each executive officer has achieved the applicable prior fiscal year's performance targets, and (2) the appropriate amount, if any, to be paid with respect to such performance-based annual incentive award. Even if the performance targets are achieved, the Committee may reduce the amount of an award through "negative discretion" and thereby reduce the payment made under a performance award, but the Committee cannot increase the amount of such award.

On February 15, 2013, the Committee determined the performance award opportunity to be granted to Dr. Johnston, President and Chief Executive Officer, for fiscal 2013. In doing so, the Committee established the performance targets, the performance required to achieve payout under the award and maximum amounts payable under this award. The Committee set the target bonus level and maximum payout at amounts they believe are competitive. Dr. Johnston's target award was set at \$200,000 with the maximum amount payable set at twice the target. Performance between the applicable targets would be paid on a straight-line basis. In establishing the target for Dr. Johnston's 2013 performance award, the Committee decided that 60% of the award, to the extent earned, would be payable in cash and 40% of the award would be payable in fully vested restricted stock units under which Dr. Johnston has the right to receive shares of our common stock four years from the date of grant.

Two performance targets were established. The revenue performance target was achieving prior fiscal revenues before reimbursements excluding the revenues before reimbursements for product sales. This target is measured on a scale of 0 to 2 with 0 being equal to 10% revenue decline, 1 being equal to 0% revenue growth, and 2 being equal to 10% revenue growth. Performance between the targets is prorated on a straight-line basis. We exceeded this quantitative goal with actual revenues before reimbursements (excluding revenues before reimbursements for product sales) growth of 6.2%. This resulted in a quantitative performance factor for this objective of 1.62 on a scale of 0 to 2.

The profit performance target was to meet the adjusted EBITDAS\* target margin. The adjusted EBITDAS margin is the calculated margin (EBITDAS/revenues before reimbursements) after subtracting the profit and revenue from product sales from EBITDAS and revenues before reimbursements, respectively. The EBITDAS target margin for fiscal 2013 was the fiscal 2012 adjusted EBITDAS margin increased or decreased by five basis points for each 1% of revenue before reimbursements growth above or below 5%. This is also measured on a scale of 0 to 2 with 0 being equal to 450 basis points below the EBITDAS target margin, 1 being equal to 250 basis points below the EBITDAS target margin, and 2 being equal to 50 basis points below the EBITDAS target margin. We exceeded this quantitative goal by exceeding the EBITDAS target margin by 9 basis points. This resulted in a quantitative performance factor for this objective of 2 on a scale of 0 to 2.

\* EBITDAS is a non-GAAP financial measure defined as net income before income taxes, interest income, depreciation and amortization and stock-based compensation.

On February 7, 2014, the Committee certified and determined the amount payable to Dr. Johnston with respect to the cash and equity components of his performance award for fiscal 2013. Both of the performance targets were weighted equally. This resulted in a composite performance factor of 1.81 on a scale of 0 to 2. Accordingly, the formula amount payable for the performance award was \$362,000 (target of \$200,000 multiplied by the composite performance factor of 1.81).

**Qualitative Bonuses.** The target for Dr. Johnston's qualitative bonus was set at \$400,000 for fiscal 2013 with the maximum payout set at twice the target. The Committee set the target bonus level and maximum payout at amounts they believe are competitive. Performance was evaluated based on objectives in three categories: revenue, profitability and leadership. The performance objectives for revenue and profit are weighted 25% each and the performance objective for leadership is weighted 50%. The Committee may reduce the qualitative bonus from the target amount at their discretion.

With respect to the revenue objective, the determination was based on the judgment of the Committee, taking into consideration factors such as how well we accomplished strategic growth initiatives, added top talent and increased focus on business development of senior staff. For the profit objective, the determination was based on the judgment of the Committee, taking into consideration factors such as how we were able to control expenses, leverage infrastructure and manage headcount growth. The leadership objective was based on the judgment of the Committee taking into consideration factors such as management of enterprise risk, expansion of our talent base and our overall strategic direction.

In determining the appropriate qualitative bonus, the Committee considered Dr. Johnston's contributions to achieving each of the three objectives. In making a qualitative assessment of the revenue objective the Committee determined that this objective was exceeded due to the business development efforts associated with our strategic growth initiatives, the addition of top talent and the increased focus on business development of senior staff. In making a qualitative assessment of the profit objective the Committee determined that this objective was met due to how expenses were managed, infrastructure was leveraged and headcount was managed. With respect to the leadership objective, the Committee recognized that this objective was exceeded due to the management of enterprise risk, the expansion of our talent base and the strategic direction provided. Based on the Committee's qualitative evaluation, the composite performance factor was 1.35 on a scale of 0 to 2. Accordingly, the amount payable for the qualitative bonus was \$538,000 (target of \$400,000 multiplied by the composite performance factor of 1.35). The Committee decided that 60% of the qualitative bonus will be paid in cash and 40% of the qualitative bonus will be settled with fully vested restricted stock units under which Dr. Johnston has the right to receive shares of our common stock four years from the date of grant.

We do not have specific target bonuses for our other named executive officers. The bonuses for the other named executive officers were determined on a total compensation basis based on their relative contribution to our overall performance. Where a named executive officer has responsibilities for both providing direct consulting services to clients and managing a business unit, his or her performance is generally weighted toward the direct consulting activities. The size of our bonus pool was also considered when determining the annual bonuses for our other named

executive officers.

**Equity Compensation.** Our equity compensation program is designed to align the named executive officers and stockholders' interests, create a sense of partnership and long-term incentives, and provide a mechanism for retention and to provide a competitive total compensation package. We use a combination of restricted stock units and stock options to achieve these objectives.

Generally 40% of each named executive officer's annual bonus is settled with fully vested restricted stock unit awards. The percentage of each named executive officer's annual bonus settled with vested restricted stock unit awards may be less than 40% when called for by the terms of an employment agreement or when other equity grants made were deemed adequate to align named executive officers and stockholders' interests, by using long-term incentives to create a sense of partnership, provide a mechanism for retention and provide a competitive total compensation package. Under these restricted stock unit awards, each executive officer has the right to receive shares of our common stock four years from the date of grant. Each named executive officer who received a fully vested restricted stock unit award is also granted a matching number of unvested restricted stock unit awards. These unvested restricted stock unit awards cliff vest four years from the date of grant provided the holder has met certain employment conditions. In the case of retirement at 59 ½ years or older, all unvested restricted stock unit awards will continue to vest, provided that the named executive officer does all consulting work through the Company and does not become an employee for a past or present client (direct or indirect) or competitor of the Company.

Our practice is to determine each named executive officer's bonus and the dollar amount of vested and unvested restricted stock unit awards following the availability of financial results for the prior year. With the exception of significant promotions and new hires, we generally grant restricted stock unit awards once a year during the allocation of our bonus pool. For restricted stock unit awards our 2008 Equity Incentive Plan defines the fair market value of the restricted stock unit awards as the closing price of our stock on the day of grant.

During the annual review process in February 2013, the Committee granted a stock option to purchase 16,500 shares of our common stock to Dr. Johnston, President and Chief Executive Officer, and a stock option to purchase 11,000 shares of our common stock to Mr. Schlenker, Executive Vice President and Chief Financial Officer. These stock option grants reflect levels that the Committee concluded were generally appropriate based upon past practices within the Company, each individual's total stock ownership and the amount needed to remain competitive. For stock option awards the exercise price is equal to the closing price of our stock on the date of grant. Our option awards vest ratably over a four-year period beginning on the grant date, subject to continued employment. All stock option awards continue to vest in the case of retirement at 59 ½ years or older, provided that the named executive officer does all consulting work through the Company and does not become an employee for a past or present client (direct or indirect) or competitor of the Company.

Unvested restricted stock unit awards and stock options are occasionally granted for select new hires and promotions. There were no new hire awards granted to any named executive officers.

**Executive Stock Ownership Guidelines.** We believe that the financial interests of our executive officers should be aligned with those of our stockholders. Our stock ownership guidelines are determined as a multiple of the named executive officer's annual base salary. Individual guidelines are three times for the President and Chief Executive Officer, two times for the Executive Vice President and Chief Financial Officer and one time for the other named executive officers. Stock that counts towards satisfaction of our stock ownership guidelines includes shares owned outright by the named executive officer or his or her immediate family members residing in the same household or in trust and restricted stock units, whether or not vested. The value of shares owned outright is Exponent's prior 365-day

average closing common stock price. The value of restricted stock units is the grant date fair value. The calculation is done at the beginning of each year. Named executive officers are required to achieve their stock ownership guideline within five years of the date the guidelines were adopted. If a person's stock ownership guideline increases, that person has a five-year period to achieve the new guideline. As of April 2, 2014, all the named executive officers met the stock ownership guidelines or are expected to meet the applicable ownership guidelines within the specified time period.

**Hedging and Pledging.** Our policies do not permit any director or employee, including our named executive officers, to "hedge" their ownership by engaging in short sales involving Exponent securities. Our policies do not permit any director or officer, including our named executive officers, to pledge Exponent securities as collateral.

**No Compensation Consultant Conflicts of Interest.** We are not aware of any conflict of interest that has been raised by the work performed by Compensia.

**Nonqualified Deferred Compensation.** To attract and retain high performing executive officers and consultants we have a nonqualified deferred compensation plan under which we provide certain highly compensated employees, including the named executive officers, the opportunity to elect to defer the receipt of compensation. Participants in the plan may elect to defer up to 100% of their compensation including base salary and bonus. We also retain the discretion to make company contributions for any participant. For additional information, please refer to the Nonqualified Deferred Compensation table.

**Other Benefits.** Executive officers participate in our other benefit plans on the same terms as other employees. These plans include medical and dental insurance, life insurance, an employee stock purchase plan and company contributions to each employee's defined contribution retirement account. We also provide paid vacation and other paid holidays to all employees, including named executive officers.

### **Tax Deductibility of Pay**

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally places a limit of \$1,000,000 on the amount of annual compensation that we may deduct in any one year with respect to certain executive officers unless the compensation is qualifying performance-based compensation where certain requirements are met. It is the policy of the Committee to have stock option compensation and performance awards qualify for full deductibility to the extent feasible and consistent with our overall compensation objectives. Our 1999 Stock Option Plan and 2008 Equity Incentive Plan are designed to enable compensation recognized in connection with the exercise of options and the settlement of performance awards to qualify as performance-based compensation eligible for deductibility under Section 162(m). Base salary, qualitative bonuses, and restricted stock unit awards (excluding performance awards settled with restricted stock units) do not qualify as exceptions to the deduction limit under Section 162(m) due to the Committee's philosophy of determining total executive compensation using a combination of quantitative and qualitative assessments of performance.

### **Compensation Accounting Matters**

The Committee also considers the accounting and cash flow implications of various forms of executive compensation. In our financial statements, we record salaries and bonuses as expenses in the amount paid, or to be paid, to the named executive officers. Accounting rules also require us to record an expense in our financial statements for equity awards, even though equity awards are not paid as cash to employees. The Committee believes, however, that the many advantages of equity compensation more than compensate for the non-cash accounting expense associated with these types of awards. We currently amortize compensation expense associated with equity awards over an award's requisite service period and establish fair value of equity awards in accordance with applicable accounting standards. Based upon the structure of our employee stock purchase plan program we are not required to record compensation expenses for financial statement purposes in connection with employees' rights to purchase our stock granted under this program.

### **Potential Payments upon Termination or Change-in-Control**

Our restricted stock unit award agreements state that in the event of a change in control of the Company, the successor shall assume or substitute equivalent awards on the same terms and conditions. If the award holder is involuntarily

terminated for any reason other than the award holder's failure to substantially perform the duties of the award holder's position within a two-year period beginning on the date of the change in control, all awards are vested and settled on the date of termination. Assuming a change in control and involuntary termination of employment, the value of restricted stock unit awards that would have vested based on the closing price of our common stock on January 3, 2014 of \$77.38 for each named executive officer was as follows: Dr. Johnston \$2,016,059, Mr. Schlenker \$1,340,067, Dr. Malladi \$1,275,222, Dr. Caligiuri \$1,309,115, and Dr. Boehm \$1,282,032. We do not have any other contracts, agreements (including employment agreements), plans or arrangements, whether written or unwritten, providing for payments to a named executive officer at, following, or in connection with any termination of a named executive officer or a change in control or a change in a named executive officer's responsibilities.

As such the amounts in this column reflect three months at their prior year base salaries and nine months at their current year base salaries. Fiscal 2013 included 53 weeks of activity as compared to 52 weeks for fiscal 2012 and 2011.

(2) The amounts shown in this column represent the value of cash bonuses earned during the year indicated and paid in the first quarter of the subsequent year, excluding the portion settled with vested restricted stock unit awards.

(3) The amounts shown in this column represent the values of vested and unvested restricted stock unit awards granted during the year indicated, regardless of when earned. The value of restricted stock units granted during the first quarter of 2014 to settle a portion of each named executive officer's fiscal 2013 bonus are not included in this column.

(4)

The amounts shown in this column represent the Black-Scholes value calculated for stock options granted during the year indicated, regardless of when earned.

(5) The values of equity-based awards for this column represent the grant date fair value of the awards in accordance with ASC 718. However, pursuant to SEC rules, these values are not reduced by an estimate for the probability of forfeiture. All equity-based awards have dividend equivalent rights, which entitle the holder of the award to the same dividend value per share as holders of common stock. See the notes to our consolidated financial statements in our Annual Report on Form 10-K for the year ended January 3, 2014 regarding assumptions underlying the valuation of equity awards.

(6) The amounts shown in this column represent the value of Company contributions to each named executive officer's defined contribution retirement account earned during the year indicated. The Company provides a defined contribution retirement plan for all of its employees whereby the Company contributes to each eligible employee's account 7% of the employee's eligible base salary plus overtime. These contributions are made to the 401(k) plan up to the statutory maximum. Effective January 1, 2013, any portion of the 7% contribution in excess of the statutory maximum is made to the Company's nonqualified deferred compensation plan.

(1) Amounts represent the number of fully vested restricted stock units granted under our 2008 Equity Incentive Plan.

Amounts represent the number of unvested restricted stock units granted under our 2008 Equity Incentive Plan.

These awards cliff vest four years from the date of grant. All unvested restricted stock units will continue to vest in the case of retirement at 59 ½ years or older, provided that the named executive officer does all consulting work through the Company and does not become an employee for a past or present client (direct or indirect) or competitor of the Company.

(3) Amounts represent options granted under our 2008 Equity Incentive Plan. These options become exercisable over a period of four years at a rate of 25% per year, subject to continued employment, and expire 10 years from the date of grant. All stock options will continue to vest in the case of retirement at 59 ½ years or older, provided that the named executive officer does all consulting work through the Company and does not become an employee for a

past or present client (direct or indirect) or competitor of the Company.

**Restricted Stock Unit Awards.** Each of the named executive officers were awarded the number of vested and unvested restricted stock unit awards as shown in the table above. The number of fully vested restricted stock unit awards granted was determined by dividing the portion of each named executive officer's 2012 bonus designated for settlement in fully vested restricted stock units by the closing price of our common stock on the day of the grant. An equal number of matching unvested restricted stock unit awards were also granted to each named executive officer. For financial statement reporting purposes the value of these awards is amortized over the shorter of the four-year vesting period or the period between the grant date and the date the award recipient turns 59 ½.

**Stock Options.** Certain of the named executive officers were awarded stock options as shown in the table above. The exercise price of these stock options was equal to the closing price of our common stock on the date of grant.
