PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD
JANUARY 14, 2005

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Proxy Statement

We are sending you this Proxy Statement and the enclosed proxy card because Ellsworth Convertible Growth and Income Fund, Inc.'s Board of Directors is soliciting your proxy to vote at the 2005 Annual Meeting of Shareholders. This Proxy Statement summarizes the information you need to know to cast an informed vote at the Annual Meeting. However, you do not need to attend the Annual Meeting to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card or use any of the available alternative proxy voting methods specified in the instructions that accompany this Proxy Statement.

If you are the record owner of your shares, the available alternative proxy voting methods are telephone and Internet voting. If your shares are held by a broker, the alternative proxy voting methods may include telephone, Internet and any alternative method of voting permitted by your broker.

This Proxy Statement, the attached Notice of Annual Meeting and the enclosed proxy card will first be sent on or about November 29, 2004 to all shareholders entitled to vote. Shareholders who owned shares of the Company's common stock on November 17, 2004 are entitled to vote. On this record date, there were 12,298,127 shares outstanding. We know of no beneficial owner of more than five percent of those shares. Each share of the Company's common stock that you own entitles you to one vote. (A fractional share has a fractional vote.)

We are also sending along with this Proxy Statement the Company's 2004 Annual Report, which includes our financial statements.

Time and Place of Meeting

We are holding the Annual Meeting on Friday January 14, 2005 at 11:00 a.m., Eastern Time, at the Company's offices located at 65 Madison Avenue, Morristown, New Jersey 07960.

Voting by Proxy

Whether you plan to attend the Annual Meeting or not, we urge you to complete, sign and date the enclosed proxy card and to return it promptly in the envelope provided. If you are the record owner of your shares on the books of the Company's transfer agent, then you may also submit your proxy vote by telephone or via the Internet, by following the instructions accompanying this Proxy Statement. If your broker holds your shares in its name, you may submit your proxy vote by any other means specified in the

instructions that accompany this Proxy Statement. Returning the proxy card or using any of the available alternative proxy voting methods will not affect your right to attend the Annual Meeting and vote.

If you properly fill in your proxy card and send it to us in time to vote or use any of the available alternative proxy voting methods, your "proxy" (one of the individuals named on your proxy card) will vote your shares as you have directed. If you sign the proxy card or use any of the available alternative proxy voting methods but do not make specific choices, your proxy will vote your shares as recommended by the Board of Directors as follows:

- o FOR the election of all four nominees for director.
- o FOR ratification of the appointment of independent auditors for 2005.
- o AGAINST the amendment to the Company's Charter.

Your proxy will have authority to vote and act on your behalf at any adjournment of the meeting.

If you give a proxy, you may revoke it at any time before it is exercised. You can do this in one of four ways:

- o You may send in another proxy with a later date.
- o If you submitted a proxy by telephone, via the Internet or via an alternative method of voting permitted by your broker, you may submit another proxy by telephone, via the Internet, or via such alternative method of voting, or send in another proxy with a later date.
- o You may notify the Company's Secretary in writing before the Annual Meeting that you have revoked your proxy.
- o You may vote in person at the Annual Meeting.

Voting in Person

If you do attend the Annual Meeting and wish to vote in person, we will give you a ballot when you arrive. However, if your shares are held in the name of your broker, bank or other nominee, you must bring a letter from the nominee indicating that you are the beneficial owner of the shares on November 17, 2004, the record date for voting, and authorizing you to vote.

Quorum Requirement

A quorum of shareholders is necessary to hold a valid meeting. A quorum will exist if shareholders entitled to vote a majority of all shares outstanding on the record date are present in person or by proxy.

Under rules applicable to broker-dealers, if your broker holds your shares in its name, we expect that the broker will be entitled to vote your shares on Proposals 1 and 2 even if it has not received instructions from you. However, your broker will not be entitled to vote on Proposal 3 unless it has received instructions from you. If your broker does not vote your shares on Proposal 3 because it has not received instructions from you, these shares will be considered "broker non-votes."

2

Broker non-votes, if any, and abstentions will count as present for establishing a quorum.

Vote Necessary to Approve a Proposal

Proposal 1. Directors are elected by a plurality vote of shares present at the meeting, meaning that the director nominee with the most affirmative votes for a particular slot is elected for that slot. In an uncontested election for directors, the plurality requirement is not a factor. Abstentions will not count as votes cast and will have no effect on the outcome of this proposal. We expect that brokers will be entitled to vote on this proposal, but any broker non-vote will have no effect on the outcome of this proposal.

Proposal 2. The affirmative vote of the majority of votes cast is needed to approve the ratification of the Audit Committee's appointment of the independent auditors. Abstentions will not count as votes cast and will have no effect on the outcome of this proposal. We expect that brokers will be entitled to vote on this proposal, but any broker non-vote will have no effect on the outcome of

this proposal.

Proposal 3. The affirmative vote of two-thirds of all outstanding shares of the Company, whether or not present at the Annual Meeting, is needed to approve the amendment of the Company's Charter. Broker non-votes and abstentions will not count as votes cast and will have the effect of votes against this proposal.

PROPOSAL 1

ELECTION OF DIRECTORS

Structure of the Board of Directors

The Board of Directors is divided into three classes for purposes of election. One class is elected at each annual meeting of shareholders. Directors in each class serve for a three-year term. Classifying the Board of Directors for election may be regarded as an "anti-takeover provision" because it has the effect of maintaining the continuity of the Board of Directors and requiring at least two years to change a majority of the Board of Directors.

The Board of Directors currently consists of nine persons. Seven of the directors are "independent," meaning they are not "interested persons" of the Company within the meaning of the Investment Company Act of 1940, as amended (the Investment Company Act). Two of the Company's directors are "interested persons" because of their business and financial relationships with the Company and Davis-Dinsmore Management Company (Davis-Dinsmore), its investment adviser.

At the 2005 Annual Meeting, the terms of three directors are expiring. The directors approved the nomination of each of the three directors whose terms are expiring in 2005, as set forth below, to serve for terms that expire in 2008. In addition, the directors approved the nomination of one director, Robert J. McMullan, for a term that expires in 2006. Mr. McMullan was appointed by the Board of Directors as a director to fill a vacancy created by the retirement of George R. Lieberman, a former Company director. Mr. McMullan was nominated for election at the 2005 Annual Meeting so that shareholders may have an opportunity to vote for him as a director. Other directors are not up for election this year and will continue in office for the rest of their terms.

Each of the nominees is willing to serve as a director. However, if a nominee becomes unavailable for election, proxies will vote for another nominee proposed by the Board of Directors or, as an alternative, the Board of Directors may keep the position vacant or reduce the number of directors.

3

Nominees for Directors

The Board of Directors has approved the nomination of the following people to serve as directors until the annual meeting of shareholders to be held in 2006 or 2008, as the case may be. The business address of each nominee and/or director listed below is Ellsworth Convertible Growth and Income Fund, Inc., 65 Madison Avenue, Suite 550, Morristown, NJ 07960.

Thomas H. Dinsmore and Jane D. O'Keeffe are brother and sister.

Committees of the Board of Directors

The Board of Directors has three committees: an Audit Committee, a Nominating and Administration Committee and a Pricing Committee.

Audit Committee

The Company has a separately designated Audit Committee as that term is defined in the Securities Exchange Act of 1934, as amended. The Audit Committee is comprised entirely of independent directors (Mr. Benton, Dr. Bogan, Mr. Halsted and Mr. McMullan, with Dr. Bogan serving as Chairperson). In addition, all such members are independent as such term is defined by the American Stock Exchange's Company Guide.

In accordance with its charter, attached as Appendix A to this Proxy Statement, the Committee oversees the Company's accounting and financial reporting policies and practices, as well as the quality and objectivity of the Company's financial statements and the independent audit of the financial statements. Among other duties, the Committee is responsible for: (i) the appointment, compensation and oversight of any independent auditors employed by the Company (including monitoring the independence qualifications and performance of such auditors and resolution of disagreements between the Company's management and the auditors regarding financial reporting) for the purpose of preparing or issuing an audit report or performing other audit, review or attest services; (ii) overseeing the accounting and financial reporting process of the Company; (iii) monitoring the process and the resulting financial statements prepared by management to promote accuracy and integrity of the financial statements and asset valuation; (iv) assisting the Board of Directors' oversight of the Company's compliance with legal and regulatory requirements that related to the Company's accounting and financial reporting, internal control over financial reporting and independent audits; (v) to the extent required by Section 10A of the Securities Exchange Act of 1934 (the "Exchange Act"), pre-approving all permissible audit and non-audit services provided to the Company by its independent auditors; (vi) pre-approving, in accordance with Item 2.01(c) (7) (ii) of Regulation S-X, certain non-audit services provided by the Company's independent auditors to the Company's investment adviser and certain other affiliated entities if the Company's independent auditors are the same as, or affiliated with, the investment adviser's or affiliated

6

entities' auditors; and (vii) to the extent required by Regulation 14A under the Exchange Act, preparing an audit committee report for inclusion in the Company's annual proxy statement.

Audit Committee Report

The Audit Committee reviewed and discussed the Company's audited financial statements with its independent auditors, PricewaterhouseCoopers LLP (PwC). These discussions included the auditor's judgments about the quality, not just acceptability, of the Company's accounting principles as applied in its financial reporting. PwC, the Audit Committee and management also discussed matters such as the clarity, consistency and completeness of the accounting policies and disclosures, with a particular focus on critical accounting

policies.

The Audit Committee has received a letter from PwC required by Independence Standards Board Standard No. 1 disclosing all relationships between PwC and its related entities and the Company. The Audit Committee discussed with PwC their independence as the Company's independent auditors. In addition, the Audit Committee has considered whether the provision of non-audit services by PwC is compatible with maintaining PwC's independence. The Audit Committee also reviewed and discussed the Company's audited financial statements with management.

Based on the review and discussions described above, the Audit Committee has recommended to the Board of Directors that the audited financial statements be included in the Company's annual report to shareholders for the fiscal year ended September 30, 2004 for filing with the Securities and Exchange Commission.

Elizabeth C. Bogan, Ph.D., Chairperson
William A. Benton
Donald M. Halsted
Robert J. McMullan

Nominating and Administration Committee

The Nominating and Administration Committee is comprised entirely of independent directors (Mr. Ahalt, Mr. Halsted and Mr. Platt, with Mr. Ahalt serving as Chairman). In addition, all such members are independent as such term is defined by the American Stock Exchange's Company Guide. In accordance with its charter, the Committee, among other duties, is responsible for: (i) nominating persons for election or appointment: (a) as additions to the Board of Directors, (b) to fill vacancies which, from time to time, may occur in the Board of Directors and (c) for election by shareholders of the Company at meetings called for the election of directors; (ii) nominating persons for appointment as members of each committee of the Board of Directors, including, without limitation, the Audit Committee, the Nominating and Administration Committee, and the Pricing Committee; (iii) reviewing from time to time the compensation, if any, payable to the directors and making recommendations to the Board of Directors regarding compensation; (iv) reviewing and evaluating from time to time the functioning of the Board of Directors and the various committees of the Board of Directors; (v) overseeing the selection of independent legal counsel to the independent directors; and (vi) monitoring the performance of independent legal counsel employed by the Company and the independent directors.

After a determination by the Nominating and Administration Committee that a person should be nominated as an additional director, or as soon as practical after a vacancy occurs or it appears that a vacancy is about to occur for a director position on the Board of Directors, the Nominating and Administration Committee will nominate a person for appointment by a majority of the independent directors to add to the Board of Directors or to fill the vacancy. Prior to a meeting of the shareholders of

7

the Company called for the purpose of electing directors, the Nominating and Administration Committee will nominate one or more persons for election as directors at such meeting.

Evaluation by the Nominating and Administration Committee of a person as a potential nominee to serve as a director, including a person nominated by a shareholder, should result in the following findings by the Nominating and

Administration Committee: (i) upon advice of independent legal counsel to the independent directors, that the person will qualify as an independent director (applicable only to the nomination of independent directors), and that the person is otherwise not disqualified under the Investment Company Act from serving as a director of the Company; (ii) with respect to the nomination of independent directors only, that the person is free of any material relationship with the Company (other than as a shareholder of the Company), that would interfere with the exercise of independent judgment; (iii) that the person is willing to serve, and willing and able to commit the time necessary for the performance of the duties of a director; (iv) that the person can make a positive contribution to the Board of Directors and the Company, with consideration being given to the person's business experience, education and such other factors as the Nominating and Administration Committee may consider relevant; (v) that the person is of good character and high integrity; (vi) that the person has desirable personality traits including independence, leadership and the ability to work with the other members of the Board of Directors; (vii) that the person is not an AMEX employee or floor member; and (viii) that the composition of the Board of Directors is varied as to educational background, business experience and occupation.

Consistent with the Investment Company Act, the Nominating and Administration Committee can consider recommendations from management in its evaluation process.

The Nominating and Administration Committee will consider nominees recommended by a shareholder to serve as director, provided: (i) that such person is a shareholder of record at the time he or she submits such names and is entitled to vote at the meeting of shareholders at which directors will be elected; and (ii) that the Nominating and Administration Committee, shall make the final determination of persons to be nominated. The Nominating and Administration Committee will evaluate nominees recommended by a shareholder to serve as directors in the same manner as they evaluate nominees identified by the Nominating and Administration Committee.

A shareholder may nominate an individual for election to the Board of Directors at the 2006 Annual Meeting of shareholders if the shareholder: (1) is a shareholder of record at the time of giving notice to the Company; (2) is a shareholder of record at the time of the 2006 Annual Meeting; (3) is entitled to vote at the 2006 Annual Meeting; and (4) has complied with the notice procedures in the Company's Bylaws. The notice procedures require that a shareholder submit the nomination in writing to the Secretary of the Company no earlier than September 16, 2005 but no later than October 16, 2005. The notice must contain all information relating to the nominee required for proxy solicitations by Regulation 14A under the Securities Exchange Act of 1934, as amended, (including the individual's written consent to being named in the proxy statement as a nominee and to serving as a director if elected). The notice must also contain the shareholder's name and address as they appear on the Company's books (and the name and address of any beneficial owner, on whose behalf the nomination is made) and the number of shares of stock owned beneficially and of record by such shareholder and shareholder nominee.

A current copy of the Nominating and Administration Committee Charter is set forth in Appendix B.

Pricing Committee

The Pricing Committee is comprised of three members, two of whom are independent directors (Mr. Ahalt and Mr. Platt, with Mr. Ahalt serving as Chairman) and one of whom is an interested person (Mr. Dinsmore). In accordance

Edgar Filing: ELLSWORTH CONVERTIBLE GROWTH & INCOME FUND INC - Form DEF 14A

with its charter, the Committee assists the Company's investment adviser, Davis-Dinsmore, in its valuation of the Company's portfolio securities when pricing anomalies arise and the full Board is not available to assist Davis-Dinsmore in making a fair value determination.

It is anticipated that the Committee will meet only as pricing anomalies or issues arise that cannot be resolved by the entire Board due to time constraints.

Board and Committee Meeting Attendance

During the 2004 fiscal year, the Board of Directors met nine times, the Audit Committee met four times and the Nominating and Administration Committee met four times. The Pricing Committee did not meet. All directors attended at least 75% of all Board and Committee meetings held during the 2004 fiscal year. The Company's policy regarding Board member attendance at annual meetings of shareholders is that directors are encouraged but not required to attend such annual meetings. Each of the Company's then current directors attended the Company's 2004 annual meeting of shareholders.

Shareholder Communications with the Board of Directors

The Company adopted Shareholder Communication Procedures (the "Procedures") that set forth the process by which shareholders of the Company may send communications to the Board of Directors. If a shareholder sends a recommendation of a nominee to the Board of Directors or to an individual director, such communication would be covered by the Procedures. Shareholder proposals submitted pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended, and communications made in connection with such proposals are not subject to the Procedures. The Company's Bylaws also contain provisions requiring a shareholder to provide advance notice of his or her intention to nominate, at the Company's annual meeting of shareholders, an individual for election as director.

Pursuant to the Procedures, shareholders should send their communications to the Shareholder Relations Group. Communications may be sent by regular mail or delivery service to the following address: 65 Madison Avenue, Suite 550, Morristown, NJ 07960. Email communications may be sent to: info@ellsworthfund.com. All shareholder communications that are directed to the Board of Directors or an individual director of the Company in his or her capacity as director and received by the Shareholder Relations Group shall be promptly forwarded to the individual director of the Company to whom they were addressed or to the full Board, as applicable. Copies of all such shareholder communications will also be distributed to the Chairs of each of the Company's Audit Committee and Nominating and Administration Committee, and to counsel for the Company and for the independent directors. Counsel for the Company and for the independent directors, upon receipt of its copy of a shareholder communication, shall work with such Chairs and counsel for the independent directors to determine whether such shareholder communication should be distributed to any directors to whom it was not sent and whether and in what manner the directors should respond to such shareholder communication. Responses, if any, to shareholder communications shall be coordinated by counsel for the Company and for the independent directors, working with the Chairs.

Directors' Compensation

Mr. Dinsmore and Ms. O'Keefe are the only officers of the Company or Davis-Dinsmore who serve on the Board of Directors. Each director who is not an officer of the Company or Davis-Dinsmore

currently receives (1) an annual fee of \$5,000, (2) \$1,000 plus expenses for each Board meeting attended, (3) \$1,000 for each shareholders' meeting attended, (4) \$1,000 plus expenses for each Committee meeting attended that is not held in conjunction with a Board meeting, and (5) \$500 for each Committee meeting attended that is held in conjunction with a Board meeting. The chairperson of each Committee receives an additional \$200 per Committee meeting.

Davis-Dinsmore is the Company's investment adviser and is also the investment adviser to Bancroft. Because of this connection, Bancroft and the Company make up a "fund complex" (Fund Complex). The following table shows the compensation that was paid to the directors solely by the Company as well as by the Fund Complex as a whole during the 2004 fiscal year.

PROPOSAL 2

RATIFICATION OF THE APPOINTMENT OF INDEPENDENT AUDITORS

Although not required to do so, the Board of Directors seeks your ratification of the Audit Committee's appointment of PricewaterhouseCoopers LLP (PwC) as the Company's independent auditors for the 2005 fiscal year. The Board of Directors believes that the shareholders should have the opportunity to vote on this matter. If the appointment is not ratified, the Audit Committee will meet to select new independent auditors. We do not expect that a representative from PwC will be present at the Annual Meeting. However, should a PwC representative choose to attend, he or she will have an opportunity to make a statement and to respond to appropriate questions.

Fees Billed by PwC Related to the Company

Set forth in the table below are the aggregate fees billed to the Company by PwC for services rendered to the Company during the Company's last two fiscal years ended September 30, 2003 and September 30, 2004.

Fiscal Year Ended September 30 -----	Audit Fees -----	Audit-Related Fees (1) -----	Tax Fees (2) -----	All Other -----
2003	\$32,827	\$0	\$2,200	\$0
2004	\$34,400	\$9,785	\$2,500	\$0

- (1) "Audit-Related Fees" include those fees billed to the Company by PwC in connection with its review of the Company's Registration Statement on Form N-2 relating to the Company's Rights Offering. All Audit-Related Fees were pre-approved by the Company's Audit Committee and no Audit-Related Fees were approved by the Company's Audit Committee pursuant to section 2.01(c)(7)(i)(C) of Regulation S-X, which waives the pre-approval requirement for certain de minimus fees.
- (2) "Tax Fees" include those fees billed by PwC in connection with its review of the Company's income tax returns. All Tax Fees were pre-approved by the Company's Audit Committee and no Tax Fees were approved by the Company's Audit Committee pursuant to section 2.01(c)(7)(i)(C) of Regulation S-X, which waives the pre-approval requirement for certain de minimus fees.

Non-Audit Services

During each of the last two fiscal years ended September 30, 2003 and September 30, 2004, PwC did not provide any non-audit services to the Company or Davis-Dinsmore or its affiliates or otherwise bill the Company or Davis-Dinsmore or its affiliates for any such non-audit services.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and permissible non-audit services that are proposed to be provided to the Company by its independent auditors before they are provided to the Company. Such pre-approval also includes the proposed fees to be charged by the independent auditors for such services. The Audit Committee may delegate the pre-approval of audit and permissible non-audit services and related fees to one or more members of the Audit Committee who are "independent," as such term is defined in Rule 10A-3(b)(1)(iii) under the Exchange Act. Any such member's decision to pre-approve audit and/or non-audit services and related fees shall be presented to the full Audit Committee, solely for informational purposes, at their next scheduled meeting.

The Audit Committee also pre-approves non-audit services to be provided by the Company's independent auditors to the Company's investment adviser if the engagement relates directly to the operations and financial reporting of the Company and if the Company's independent auditors are the same as, or affiliated with, the investment adviser's auditors.

The Board of Directors recommends that you vote FOR Proposal 2.

PROPOSAL 3

AMENDMENT TO COMPANY'S CHARTER

Background

The Company's common stock trades on the American Stock Exchange. For the 12 weeks that ended on November 12, 2004, the average market price for each share was approximately 9.76% less than its weekly net asset value. In this circumstance, Article IX of the Company's Charter requires the Board of Directors to adopt a proposal, to the extent consistent with the Investment Company Act, to submit a Charter amendment to shareholders that would permit shareholders to sell their shares back to the Company at their net asset value on March 31, June 30, and September 30, 2005.

At the Annual Meeting, you will be asked to approve or disapprove the following resolution:

RESOLVED, that the Company's Charter be and it is hereby amended by adding a new Article XII to read in full as follows:

ARTICLE XII

Each holder of shares of common stock of the Corporation shall have the right to tender all of such shares to the Corporation for purchase on March 31, 2005, June 30, 2005 and September 30, 2005 (each, a "Purchase Date") at net asset value as of the close of business on each such Purchase Date; provided, however, that no such right shall exist unless the Corporation receives a "no-action" letter or interpretive or exemptive relief from the Securities and Exchange Commission permitting such right; and provided further, however, that the Corporation may suspend such right (a) for any period (i) during which the New York Stock Exchange is closed other than customary week-end and holiday closings or (ii) during which trading on the New York Stock Exchange is restricted; (b) for any period during which an emergency exists as a result of which (i) disposal by the Corporation of securities owned by it is not reasonably practicable or (ii) it is not reasonably practicable for the Corporation fairly to determine the value of its net assets; or (c) for such other periods as the Securities and Exchange Commission may by order permit for the protection of security holders of the Corporation.

The Board of Directors, including all the directors who are not affiliated with Davis- Dinsmore Management Company, recommends that you vote AGAINST Proposal 3.

Factors Considered by the Board of Directors

In opposing the adoption of the proposed amendment to the Company's Charter, the Board of Directors considered the following factors:

Past Performance of the Company

The Company was established as a vehicle for long-term investment through participation in a professionally managed portfolio of convertible securities. The Company's investment objectives are to provide for income and potential for capital appreciation (which objectives the Company considers to be

13

relatively equal, over the long term, due to the nature the securities in which it invests). The Board of Directors believes that the Company has succeeded in meeting its objectives. The following table illustrates the growth in the net asset value and market price of the Company's common stock:

Period	Percentage Increase in Net Asset Value with Dividends and Capital Gains Reinvested at Net Asset Value (Annualized)		Total Investment Based on Market Price (Annualized)
	Unadjusted for the Company's 2003	Adjusted for the Company's 2003

	Rights Offering(1)	Rights Offering(2)	Rights Offering(4)

Five years ended September 30, 2004	3.73%	4.19%	6.89%
Ten years ended September 30, 2004	9.48%	9.60%	11.47%

- 1 Cumulative percentage increases based on Net Asset Value for the five year and ten year periods, unadjusted for the 2003 rights offering, are from Lipper, Inc. Closed-End Fund Performance Analysis, dated September 30, 2004. These cumulative increases are 20.11% and 147.45% respectively.
- 2 Source: Davis-Dinsmore.
- 3 Assumes reinvestment of dividends and capital gains at prices obtained pursuant to the Company's dividend reinvestment plan.
- 4 Cumulative percentage increases based on market price for the five year and ten year periods, unadjusted for the 2003 rights offering, are from Bloomberg L.P. pricing service. These cumulative increases are 39.53% and 196.10%, respectively.

The Board of Directors also looked at the following measurements of the Company's performance:

- o During the 2004 fiscal year, the Company paid distributions of \$0.315 per share from investment income. This represented approximately 3.6% of the shares' average weekly net asset value and approximately 4.0% of their average weekly closing market price.
- o In addition, on October 18, 2004, the Company declared a distribution payable on November 24, 2004 of \$0.085 per share from investment income. On the date it was declared, this distribution represented approximately 1.1% of the closing market price of the Company's shares.

How the Company has performed in the past is not a guarantee of how it will perform in the future. However, the Board of Directors believes that the Company will continue to serve as an appropriate investment vehicle for its shareholders by providing for income and the potential for capital appreciation.

Market Discounts May Provide Investment Opportunities

Over the past several years, numerous closed-end funds whose shares are traded on exchanges have seen their shares trade at a discount to net asset value. In many instances these discounts have increased in recent years. A number of factors can influence the size of the discount, including demand for a fund's shares, the extent to which analysts report on a fund, and a fund's performance.

When an investor buys shares of a closed-end fund at a price that is lower

than the fund's net asset value, the investor gets an ownership interest in an investment portfolio valued at more per share than the investor paid for the shares. For example, if a fund has a net asset value per share of \$10.00, but a market value per share of \$9.00, an investor will earn a return on securities with a value (\$10.00) that is higher than his or her investment (\$9.00). This will result in a higher return on the investor's money than would have been the case if the investor paid net asset value. For this reason, the Board of Directors believes that market discounts may present investment opportunities for investors. To the extent investors act upon this investment opportunity, they may increase the demand for and liquidity of a closed-end fund's shares.

In making its recommendation that shareholders vote against the Charter amendment, the Board of Directors recognized that so long as the market discount remains stable (or is reduced), investors who sell their shares are not in a worse position than when they purchased their shares as a result of the discount. To understand why this is the case, it is important to understand the difference between a fund's net asset value and its market price. The net asset value of a fund is simply the market value of the fund's assets less the fund's liabilities. In other words, the net asset value of a fund is the value of the fund's assets if it were to liquidate those assets on any given day, less any outstanding liabilities on that day. The market price of a fund is determined independent of the net asset value and is based on the supply and demand for a fund's shares. On days when there are more buyers than sellers of a fund's shares, the fund's share price will tend to increase. On days when sellers outnumber buyers, a fund's shares price will tend to decrease. A market discount occurs where there is a difference between the fund's net asset value per share and the price investors are willing to pay for those shares.

A fund's market price per share tends to move in tandem with its net asset value per share. Therefore, it is possible that the Company's returns on its underlying assets could closely approximate the returns on your investment in the Company's shares. For example, if on a given date the Company has a net asset value per share of \$10.00 and a market value per share of \$8.50, investors who purchased shares on that date bought them at a 15% discount from net asset value. Assume the net asset value per share later increased to \$11.00. If the market value per share concurrently increased to \$9.35, the discount would have remained at 15%. In examining the return to investors, based upon net asset value, the shares increased in value from \$10.00 to \$11.00, or 10%. Based upon market value, the shares increased in value from \$8.50 to \$9.35, or 10%. In this example, investors who sold their shares on the later date were not in a worse position because of the discount.

The Board of Directors also recognized that if the market price did not increase to the same extent that the net asset value increased (thereby resulting in an increase in the market discount), investors who sell their shares would receive a lower return on their investment than if the market discount had remained the same or had decreased. For example, assume the net asset value per share of the Company's stock is \$10.00 and its market value is \$8.50, which is a 15% discount from net asset value. If the net asset value of the Company increases from \$10.00 to \$11.00 (a 10% increase), while the market value per share increases from \$8.50 to \$9.00 (a 5.9% increase), the resulting market discount would be 22% - a 7% increase. This effectively means that while the underlying assets of the Company appreciated by 10% (investment return), your investment in the Company's shares appreciated by only 5.9%, giving you a lower return on your investment than would be realized had the Company's market price kept pace with

its net asset value. Investors who sold their shares would still recognize a

gain on their investment, but not to the extent that the net asset value increased. If in the example above the market price of the Company's shares was reduced below \$8.50, investors who sold their shares at the lower price would recognize a loss upon the sale, even if the Company's net asset value had increased.

The Board of Directors has concluded that the future of the Company should not be tied to whether its shares have traded at a market discount. Instead, the Company's future should be based on its success in meeting its investment objective. In making its recommendation, the Board of Directors recognized that it had reached the same conclusion in prior years.

Tenders Would Adversely Affect the Company's Operations and Performance

The Board of Directors believes that to require the Company to repurchase its shares would not be in the best interests of the Company and its shareholders as a whole because of the effect that repurchases would have on-

- o The Company's expense ratio. Fewer shareholders would have to bear the Company's fixed expenses.
- o The Company's investment performance and its ability to achieve its investment objective. The Company might have to sell some of its more liquid and more desirable portfolio securities to raise the cash it would need to repurchase its shares. This could leave the Company with less desirable holdings.
- o The Company's status as a regulated investment company under the Internal Revenue Code of 1986, as amended. In order to maintain its status as a regulated investment company under the Code, the Company must satisfy certain quarterly diversification and annual distribution requirements. The sale of securities to pay the purchase price for the tendered shares might cause the Company's portfolio to lack sufficient diversification for purposes of the Code requirement. In addition, payment of the purchase price for the tendered shares might eliminate cash and other liquid investments that would otherwise be available to pay dividends in satisfaction of the distribution requirement of the Code.
- o The Company's continued existence. The Board of Directors might have to recommend the liquidation, merger or other reorganization of the Company if the Company were to become too small to be operated efficiently.

Value of the Company's Portfolio

The Company would have to sell securities from its portfolio to pay for shares that it would be required to repurchase. In doing so, the Company would have to pay transaction costs. In addition, the Company might have less bargaining power in the sale of its securities if the purchasers knew that the Company was required to sell its portfolio securities to raise money for shares being repurchased. This might result in the Company selling securities at lower prices than it otherwise would. These transaction costs and potential lower prices might reduce the net asset value of the Company's shares and, therefore, the amounts payable to shareholders who sell their shares back to the Company at their net asset value.

Compliance with the Investment Company Act May Delay or Prevent Implementation

The Company's Charter requires that, if the conditions of Article IX of the Charter are met, the Board of Directors will adopt a proposal, to the extent consistent with the Investment Company Act, to

amend the Charter to give the shareholders the right to tender their shares to the Company. The Investment Company Act limits the ways in which a closed-end investment company, such as the Company, can conduct a tender offer for its shares. Therefore, the proposed Charter amendment provides that shareholders will not have the right to tender their shares unless the Company receives a no-action letter or interpretive or exemptive relief from the Securities and Exchange Commission (Commission) permitting such right to tender.

Section 23(c) (2) of the Investment Company Act provides that no registered closed-end company shall purchase any securities of any class of which it is the issuer, except pursuant to tenders, after reasonable opportunity to submit tenders given to all holders of securities of the class to be purchased. In a 1988 no-action letter, the Commission Staff took the position that Section 23(c) (2) applies only to tender offers in which a fund holds the right to repurchase its shares and not tender offers where shareholders hold the right to tender their shares to a fund. Under this interpretation, the Company would not be able to rely on Section 23(c) (2) to permit shareholders to tender their shares to the Company.

Alternatively, Rule 23c-3 under the Investment Company Act permits a closed-end fund such as the Company to conduct periodic repurchases of its shares, subject to compliance with the conditions of the Rule, without being deemed to be an issuer of redeemable securities. One condition of the Rule is that a fund must limit repurchases of shares from shareholders to no more than 25% of the outstanding common stock on any repurchase request date. The Company could not rely on Rule 23c-3 to comply with its Charter provision, because under the Charter provision shareholders have the right to tender all shares on certain dates.

As a result of the limitations of Section 23(c) (2) and Rule 23c-3, even if the shareholders approve the Charter amendment, shareholders will not have the right to tender their shares to the Company until the Company takes further action to comply with the Investment Company Act by obtaining a no-action letter or exemptive or interpretive relief from the Commission so that it can conduct share repurchases in accordance with the provisions of its Charter. There can be no assurance that the Company would be able to obtain any such no-action letter or interpretive or exemptive relief from the Commission.

Continued Listing on the American Stock Exchange

The Company's shares are listed on the American Stock Exchange. Although unlikely, the shares could be delisted if the total market value of publicly held shares and the Company's net assets are each less than \$5 million for more than 60 consecutive days, or less than 200,000 shares are publicly traded, or there are less than 300 round-lot holders of the shares, or the Company ceases to qualify as a closed-end fund under the Investment Company Act. Share repurchases will not reduce the Company's authorized capital.

Potential Advantages to Shareholders

In making its recommendation, the Board of Directors recognized that the Company's market discount has been greater than 5% in three of the past five years. For example, the market price per share was 16.5% less than the Company's net asset value per share at September 30, 2000, was 3.7% less than the net asset value per share at September 30, 2001, was 3.3% less than net asset value per share at September 30, 2002, was 6.2% less than net asset value per share at September 30, 2003 and was 8.7% less than net asset value per share at September 30, 2004. The Board of Directors also recognized that the average trading volume

for the Company's shares is less than the average trading volume for companies generally on the American Stock Exchange. The Board of Directors considered two potential advantages for shareholders in adopting the proposed Charter amendment:

17

- o If shareholders wanted to sell shares, they would be able to do so at their net asset value instead of at their market price, which averaged 10.1% less than their net asset value for the last fiscal year, and has averaged 9.7% less than net asset value over the past five fiscal years. By doing this, shareholders would maximize the return on their investment in the near term.
- o The market price for the shares may increase, thereby reducing the market discount.

However, the effect of the Company's transaction costs and potentially reduced bargaining power if it had to sell its portfolio securities might decrease the net asset value of the Company's shares and, therefore, the amounts paid to shareholders who sell their shares back to the Company.

Potential Conflicts Disclosed

Two of the directors who considered this proposal (Mr. Dinsmore and Ms. O'Keefe) are interested directors because they are directors, officers and shareholders of Davis-Dinsmore Management Company, the Company's investment adviser. If the Company repurchased its shares, the Company would become smaller and this would result in a reduction of the fees that the Company pays to Davis-Dinsmore. The interested directors acknowledged the effect that the Charter amendment would have on Davis-Dinsmore, but indicated that, in considering their recommendation, they focused on the long-term interests of the Company and its shareholders as a whole and believed that the Charter amendment was not in the best interests of the Company and its shareholders as a whole.

Federal Income Tax Treatment

Generally, shareholders who tender all their shares would recognize a capital gain (or loss) for federal income tax purposes to the extent the amount they receive is greater (or less) than the amount they paid for their shares. This capital gain (or loss) will be taxed as long-term capital gain (or loss) if shares tendered have been owned for more than one year. A shareholder that is not a corporation is subject to federal income tax on long-term capital gain at a maximum rate of 15%. However, amounts received by tendering shareholders could be taxed as dividends in circumstances where, after application of the constructive ownership rules of the Code, the purchase of their shares by the Company did not constitute a complete termination of their interest, a substantially disproportionate redemption or a distribution that was not essentially equivalent to a dividend. Because the Company is unaware of the number of shares constructively owned by each of its shareholders, the Company will be unable to designate amounts paid to repurchase its shares as "qualified dividend income." Accordingly, any such amounts that are treated as dividends will be taxed at regular ordinary income tax rates.

Noncorporate shareholders who tender their shares may be subject to backup withholding at a 28% rate on the cash received in exchange. Backup withholding generally will not apply, however, to a shareholder who furnishes a correct taxpayer identification number and certifies under penalties of perjury that such number is correct.

How Shares Would Be Tendered

If the proposed Charter amendment is adopted and the shareholders have the right to tender their shares, the Company will make a tender offer to shareholders in accordance with the requirements of the Exchange Act, to the extent applicable, and the Investment Company Act, by publication or mailing, or both. The Company will establish procedures to make the current net asset value of the Company's shares publicly available throughout the period of the tender offer. If you wish to accept the tender offer, you may be required to tender all your shares (or all shares attributed to you for federal income tax

18

purposes under Section 318 of the Code). The Company will purchase shares tendered in accordance with the offer unless it suspends the tender offer as described above.

If you tender your shares, you will be required to pay a fee directly to the Company's transfer agent to help to defray processing costs. We anticipate that the fee will be \$25 but it could be higher or lower.

The Company will charge against capital, costs incurred by it in connection with the tender offer. Shares that have been tendered and purchased by the Company will become authorized but unissued shares.

Limitation on Tenders

If the proposed Charter amendment is adopted and the shareholders have the right to tender their shares, the Company will be able to suspend your rights to tender your shares during periods -

- o In which the New York Stock Exchange is closed (other than customary weekend and holiday closings) or trading on it is restricted.
- o In which, because of an emergency, it is not reasonably practicable for the Company to sell its portfolio securities or to fairly determine the net asset value of its shares.
- o In which the Securities and Exchange Commission permits the Company to suspend rights to tender for the protection of its shareholders.

In addition, if the proposed Charter amendment is adopted and the shareholders have the right to tender their shares, the Company intends to follow a policy (which it may change) of suspending your rights to tender your shares if, in the Board of Directors' judgment, at the time the tender offer commences, or during the tender offer period-

- o Legal action is begun or threatened that challenges the tender of the Company's shares or otherwise materially adversely affects the ability of the Company to conduct the tender offer.
- o Federal, state or foreign authorities declare a banking moratorium on banks in the United States, New York or in foreign countries in which the Company invests, and such moratorium materially adversely affects the ability of the Company to obtain liquid assets necessary to honor tenders.
- o Federal, state or foreign authorities limit the extension of credit by lending institutions or the exchange of foreign currency and those limitations materially adversely affect the ability of the Company to obtain liquid assets necessary to honor tenders.

- o War, armed hostilities, terrorist attacks or other calamity occurs that directly or indirectly involves the United States or other countries in which the Company invests and such calamity materially adversely affects the ability of the Company to obtain liquid assets necessary to honor tenders.

The Company will reinstate your rights to tender your shares once any of the above events no longer materially adversely affects the Company's ability either to conduct the tender offer, or obtain liquid assets necessary to honor tenders, as applicable.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act, Section 30(h) of the Investment Company Act, and the regulations of the Securities and Exchange Commission thereunder, require the Company's officers and directors and direct or indirect beneficial owners of more than 10% of the Company's Common Stock, as well as Davis-Dinsmore, its directors and officers and certain of its other affiliated persons (collectively, Reporting Persons), to file initial reports of ownership and changes in ownership with the Securities and Exchange Commission. Reporting Persons are required to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on its review of the copies of such forms received by it and written representations, the Company believes that all filing requirements applicable to the Reporting Persons have been complied with during the fiscal year ended September 30, 2004 except that a Form 4 report covering a 1997 gift of 400 shares by Mrs. Jean Dinsmore (a director of Davis-Dinsmore) to her grandson was not filed in a timely manner.

Shareholder Proposals

If you want us to consider including a shareholder proposal in the Company's proxy statement for the 2006 annual meeting of shareholders, we must receive it from you no later than August 1, 2005.
