(BW) (NY-GP-STRATEGIES) (GPX) GP Strategies Reports Fourth Quarter and Year End Results and Receipt of Favorable Tax Ruling from the IRS for Tax Free Spin-off

Business Editors

NEW YORK--(BUSINESS WIRE)--March 31, 2003--

Revolving Credit Debt Reduced by \$11.3 Million Since December 2001

GP Strategies Corporation (NYSE: GPX), a global provider of training, e-Learning solutions, management consulting and engineering services, today announced results for the quarter and year ended December 31, 2002.

For the quarter ended December 31, 2002, net sales decreased by only \$.5 million to \$36.1 million, as compared to net sales of \$36.6 million for the quarter ended September 30, 2002, primarily due to fewer workdays as a result of holidays in the fourth quarter. Net sales for the quarter ended December 31, 2002 were \$36.1 million as compared to \$42.4 million for the quarter ended December 31, 2001.

For the year ended December 31, 2002, net sales were \$152.2 million, as compared to net sales of \$186.6 million for the year ended December 31, 2001. The Company believes that the decline in net sales was attributable to the continued downturn in the economy which caused a reduction in net sales from its advanced manufacturing, automotive and e-Learning customers. However, the decrease in net sales was partially offset by increased net sales from the Company's Homeland Defense services and initiatives.

For the quarter ended December 31, 2002, net loss was \$1.6 million or \$.10 loss per share as compared to a net loss of \$2.3 million or \$.19 loss per share for the fourth quarter of 2001.

Results for the quarter ended December 31, 2002 included a gain on the sale of marketable securities of \$0.6 million offset by investment and other (loss) income of \$1.4 million relating to non-cash equity losses on the Company's investment in GSE of \$1.3 million and equity losses on other investments. In addition, the Company recorded \$.3 million of expenses relating to its tax free spin off, \$.3 million relating to severance expenses, and \$.1 million relating to the Company's recent move of its offices to White Plains, New York.

Jerome I. Feldman, Chairman and CEO, stated, "2002 has been a very difficult year. The continued downturn in the economy has had a substantial impact on our customer base. However, despite the current

Edgar Filing: GP STRATEGIES CORP - Form 8-K

economic environment, the Company has taken proactive steps to position itself for the future, including significant cost reductions and continued debt reduction, which we anticipate will yield results when the economy improves."

Although net sales decreased in 2002, the Company has made significant progress in achieving its long-term objectives. The Company has reduced its debt outstanding under its revolving credit agreement by approximately 32% to approximately \$22.0 million at December 31, 2002 from approximately \$32.3 million at December 31, 2001. The Company has also reduced future annual operating expenses by over \$7 million due to actions taken in the third and fourth quarter in 2002 in order to improve long-term profitability. In addition, the Company received a favorable tax ruling from the IRS for the tax-free spin-off.

Most importantly, the Company has received contracts from new clients who the Company believes have the potential to become significant long-term customers. Recent contract awards include Agilent Technologies, Eli Lilly and Company, IBM and United Technologies. In addition, the Company has over 20 years of experience in the area of Homeland Defense and the efforts and initiatives of its multi-disciplinary team are beginning to yield positive results.

On March 21, 2003, the Company received a favorable tax ruling from the IRS for the tax-free spin-off of certain of its non-core assets, including MXL Industries, Inc., into a separate corporation to be named National Patent Development Corporation. Each holder of the Company's common stock would receive one share of common stock of National Patent for each share of Company's common stock held. The spin-off is still subject to the consent of the Company's lenders and certain SEC filings.

The Company was not in compliance with certain financial covenants of its revolving credit agreement based upon the Company's final results for the quarter ended December 31, 2002. The Company and its lead bank have agreed to a waiver of compliance of such covenants as of December 31, 2002, and an amendment which will also contain certain covenant modifications for future periods. The waiver and amendment are subject to final documentation.

For the year ended December 31, 2002, net loss was \$5.2 million or \$.34 loss per share as compared to a net loss of \$0.9 million or \$.09 loss per share for the year ended December 31, 2001.

For the year ended December 31, 2002, the Company had a net gain of \$2.3 million from the sale of Millennium Cell shares. In addition, the Company recorded a credit of \$1.2 million to compensation expense related to a deferred compensation plan. These items were offset by severance and related expenses of \$2.3 million and investment and other (loss) income of \$2.2 million primarily from non-cash equity losses related to the Company's investment in HMS of \$1.4 million and GSE of \$1.2 million and other equity investments. The Company also recorded charges of approximately \$0.7 million relating to financial and consulting fees and \$0.8 million of legal fees relating to the Company's ongoing litigation against MCI Communications, Systemhouse and Electronic Data System Corporation, as successor to Systemhouse.

About GP Strategies Corporation

GP Strategies, whose principal operating subsidiary is General Physics Corporation, is a NYSE listed company (GPX). General Physics is a global provider of training, e-Learning solutions, management consulting and engineering services, improving the effectiveness of organizations by customizing solutions to meet the specific needs of
