Note 1 - Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared from the books and records of BRL Holdings, Inc., (the "Company" or "BRL" formerly Biorelease Corp or Biorelease). As discussed in Notes 1 to the consolidated financial statements of the Company included in its filing on Form 10-KSB for the year ended June 30, 2003 and in Note 2 hereunder, as of the consummation of the acquisition of Element 21 Golf Company on September 17, 2002, the reporting entity changed from the Company to Element 21 Golf Company. These statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Rule 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements and should be read in conjunction with the Company's audited financial statements at and for the fiscal year ended June 30, 2003. In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended September 30, 2003 are not necessarily indicative of the results that may be expected for the year ended June 30, 2004.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Plan of Operation

During the coming months, subject to raising additional capital of which we cannot be assured, we plan to complete the develop and market scandium alloy golf clubs, based upon the technology we acquired in the Element 21 Acquisition. We anticipate seeking one or several existing companies already marketing gold products to partner with in establishing the Element 21 brand and offering Element 21 golf clubs. The Company is also in discussions with several infomercial producers and media management companies to support the roll out of the Element 21 golf clubs subject to raising significant additional funds. We have not fully completed evaluation of our business plan in this respect, so we are unable to be specific as to schedule. In any event, we will need substantial funds, in either equity or debt investments, or partners, who can fund our planned product roll out. There are no definitive arrangements or understandings with anyone to provide this required funding.

During the next 3 months, other than funds directed into this product roll out plan, our only foreseeable additional cash requirements will relate to maintaining our Company in good standing as a publicly traded company or the payment of expenses associated with reviewing or investigating specifics of the roll out plan. Our Company may be required to sell shares of our common stock to "accredited" or "sophisticated" investors or borrow from members of management, as we have done in the past for the payment of expenses related to these

matters.

Results of Operations

The Company had no operations other than those associated with formulating a strategic plan to design, develop and market scandium alloy golf clubs, based upon the technology we acquired in the Element 21 Acquisition. We have not yet committed to a specific plan and accordingly we have not yet determined the amount of capital that will be required to implement such.

Three Months Ended, September 30, 2003 and 2002

For the three months ended September 30, 2003 the Company including its subsidiaries, had no revenues, administrative expenses of \$155,009, gain on settlement of liabilities of \$361,962 yielding a net profit of \$206,953 as compared to the three months ended September 30, 2002, wherein the Company had no operations, no

revenues and incurred general and administrative expenses of \$38,882 resulting in a net loss of \$38,882.

Liquidity.

At September 30, 2003, our current assets were \$20,818, our total assets were \$23,535 and we had total current liabilities of \$867,398 resulting in a stockholder's deficit of \$843,863. In order to meet its expenses during the next 12 months, management expects that we may be required to sell shares of our common stock to "accredited" or "sophisticated" investors or borrow from members of our management, as we have done in the past, to pay required expenses.

Liquidity and Capital Resources

From inception until the closing of the Reorganization, the Subsidiary's primary source of funds has been the proceeds from private offerings of its Common and Preferred Stock and advances from affiliates and management of the Company. Since the Reorganization, the primary source of current capital for operations has been the proceeds of stock issuances and advances from related parties.

Dividend Policy

The Company has not declared or paid any cash dividends on its common stock since its inception and does not anticipate the declaration or payment of cash dividends in the foreseeable future. The Company intends to retain earnings, if any, to finance the development and expansion of its business. Future dividend policy will be subject to the discretion of the Board of Directors and will be contingent upon future earnings, if any, the Company's financial condition, capital requirements, general business conditions and other factors. Therefore, there can be no assurance that dividends of any kind will ever be paid.

Effect of Inflation

Management believes that inflation has not had a material effect on its operations for the periods presented.
