Item 8.01. Other Events.

On December 28, 2005, the board of directors of Digirad Corporation (the "Company") approved a non-cash charge related to a reduction in the depreciable life of the current digital cameras of Digirad Imaging Solutions ("DIS"), a subsidiary of the Company, to five years. The reduction in the depreciable life of the current DIS cameras is being taken in connection with the upgrade of the DIS mobile imaging systems fleet. The Company estimates that the amount of the non-cash charge is expected to be approximately \$1.1 million in the fourth quarter ending December 31, 2005. For 2006, the Company anticipates incremental depreciation expense of approximately \$1.0 million.

On December 29, 2005, the Company issued a press release announcing the completion of the testing program of its mobile Cardius-3M imaging system and plans for a phased upgrade of its mobile DIS fleet. A copy of this press release is attached hereto as Exhibit 99.1. This summary is qualified in its entirety by reference to Exhibit 99.1 to this current report. The press release and the information therein are being furnished and shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liability of that section, nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.
