- A Special Cash Dividend of \$0.10 Per Share -

FOR IMMEDIATE RELEASE

MACAO (June 18, 2012) - Deswell Industries, Inc. (Nasdaq: DSWL) today announced its financial results for the fiscal fourth quarter ended March 31, 2012.

Net sales for the fourth quarter ended March 31, 2012 were \$12.2 million, a decrease of 23.7% compared to net sales of \$16.0 million for the same quarter ended March 31, 2011. Net sales decreased by 33.5% to \$4.9 million in the Company's plastic segment and by 15.1% to \$7.3 million in the electronic and metallic segment. The operating loss in the fourth quarter was \$1.7 million, compared to an operating loss of \$0.4 million for the same quarter of fiscal 2011.

Total gross margin decreased to 11.6% in the fourth quarter ended March 31, 2012 compared to 15.3% in the same quarter last year. Gross profit margin in the plastic segment decreased to 12.6% of net sales for the fourth quarter of fiscal 2012 compared to 19.5% of net sales for the same quarter of last fiscal year. The decrease of gross profit and margin in the plastic segment was mainly due to an increase in factory overheads as a percentage of net sales. Gross profit margin in the electronic and metallic segment decreased to 10.8% of net sales for the fourth quarter ended March 31, 2012 compared to 11.6% of net sales for the year-ago quarter. The decrease in gross margin in the electronic and metallic segment was mainly attributed to an increase in labor cost as well as an increase in factory overheads, offsetting a decrease in raw materials cost as a percentage of net sales.

The Company reported a net loss of \$0.7 million for the fourth quarter ended March 31, 2012 compared to a net loss of \$0.6 million for the quarter ended March 31, 2011. Deswell reported a basic and diluted loss per share of \$0.04 for the fourth quarter of fiscal 2012, (based on 16,197,000 and 16,202,000 weighted average shares outstanding, respectively) compared to a basic and diluted loss per share of \$0.04, (based on 16,195,000 and 16,204,000 weighted average shares outstanding, respectively) for the same quarter ended March 31, 2011.

Net sales for the year ended March 31, 2012 were \$64.8 million, a decrease of 22.9%, compared to sales of \$84.0 million for fiscal year 2011. Total gross margin for fiscal year 2012 increased to 14.6% compared to total gross margin of 11.4% in fiscal year 2011. Operating loss for the year ended March 31, 2012 was \$2.2 million, compared to operating loss of \$8.8 million for fiscal year 2011. The Company reported a net loss of \$1.5 million in the fiscal year of 2012, compared to a net loss of \$8.1 million for the year ended March 31, 2011. Deswell reported a basic and diluted net loss per share of \$0.09 for the year ended March 31, 2012, (based on 16,197,000 and 16,207,000 weighted average shares outstanding, respectively), compared to a basic and diluted loss per share of \$0.50, (based on 16,193,000 and 16,203,000 weighted average shares outstanding, respectively), for the prior fiscal year.

Net cash provided by operating activities during the year ended March 31, 2012 was \$11.3 million compared to net cash of \$3.2 million used in operating activities during the last fiscal year.

The Company's financial position remained strong at the end of the fourth quarter of fiscal year 2012, with \$33.1 million in cash and cash equivalents at March 31, 2012, compared to \$35.6 million at March 31, 2011. Working capital totaled \$60.9 million as of March 31, 2012, versus \$59.7 million as of March 31, 2011. Furthermore, the Company has no long-term or short-term borrowings at March 31, 2012.

Mr. Franki Tse, Chief Executive Officer, commented, "Our sales were affected primarily by weakening worldwide demand, although the seasonal effect of labor supply was also an issue given the Chinese New Year in late January. We continue to see a challenging environment, especially in Europe and the U.S. We are managing our overhead, working closely with current customers and driving new business initiatives. Our balance sheet remains particularly strong with cash and no long or short term debt."

Fourth Quarter Dividends

The Company also announced that on June 18, 2012 its board of directors declared a cash dividend of \$0.05 per share and a special dividend of \$0.10 for the fiscal fourth quarter ended March 31, 2012. The dividends will be payable on July 27, 2012 to shareholders of record as of July 6, 2012.

Forward-Looking Statements

Statements in this press release that are "forward-looking statements" are based on current expectations and assumptions that are subject to risks and uncertainties. For example, our statements regarding our expected growth in sales from the electronic and metallic division in the coming year and our efforts to reduce overhead costs in our plastic division are forward-looking statements. Actual results could differ materially because of the following factors, among others, which may cause revenues and income to fall short of anticipated levels or our overhead expenses to increase: our dependence on a few major customers; vigorous competition forcing product price reductions or discounts; the timing and amount of significant orders from our relatively few significant customers; continuing increases in resin prices that cannot be passed on to customers; unexpected production delays; obsolete inventory or product returns; losses resulting from fraudulent activity of our customers or employees; labor shortages that increase labor and costs; changes in the mix of product products we manufacture and sell; adverse currency fluctuations in the renminbi and Hong Kong dollar when translated to US dollars; potential new accounting pronouncements; and the effects of travel restrictions and quarantines associated with major health problems, such as the Severe Acute Respiratory Syndrome, on general economic activity.

For further information regarding risks and uncertainties associated with the Company’s business, please refer to the “Risk Factors” section of Company’s Annual Report on Form 20-F, copies of which may be obtained from the Website maintained by the Securities and Exchange Commission at <http://www.sec.gov>.

All information in this release is made as of the date of this press release. Deswell undertakes no duty to update any forward-looking statement to conform the statement to actual results or changes in Deswell’s expectations.

4. Earnings Per Share

The basic net income per share and diluted net income per share are computed in accordance with ASC No. 260, "Earnings Per Share" (formerly the SFAS No.128 "Earnings Per Share").

The basic net income per share is computed by dividing income available to common holders by the weighted average number of common shares outstanding during the period. Diluted net income per share gives effect to all potentially dilutive common shares outstanding during the period. The weighted average number of common shares outstanding is adjusted to include the number of additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. In computing the dilutive effect of potential common shares, the average stock price for the period is used in determining the number of treasury shares assumed to be purchased with the proceeds from exercise of options.

The net loss for the quarters ended March 31, 2012 and 2011 were both from the Company's continuing operations.

5. Stock Buyback Plan

On March 14, 2012, the Company's board of directors authorized a stock buyback plan to repurchase up to an aggregate of \$4.0 million of its issued and outstanding common shares during the next two years. The program does not obligate Deswell to acquire any particular number or dollar amount of its common shares and may be suspended, modified, extended or discontinued at any time. No assurance can be given that any particular number or dollar amount of common stock will be repurchased. As of March 31, 2012, no common share has been repurchased under the stock buyback plan.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Results of Operations

Quarter Ended March 31, 2012 Compared to Quarter Ended March 31, 2011

Net Sales - The Company's net sales for the quarter ended March 31, 2012 were \$12,198,000, a decrease of \$3,780,000, or 23.7%, as compared to the corresponding period in fiscal 2011. The decrease in sales was mainly related to the decrease in sales of \$2,481,000 at our plastic segment and \$1,299,000 in sales from our electronic and metallic segment. These represent decreases of 33.5% and 15.1% respectively, as compared with the net sales from these segments in the corresponding period of the prior fiscal year.

The decrease of net sales in our plastic segment was mainly due to a decrease in orders from existing customers of \$2,843,000 offsetting the increase in orders from existing customers of \$362,000. About 49% of the decrease in orders was from the segment's major customer for telephone products and 35.7% was the decrease in orders for office equipment and plastic component of electronic entertainment products. The decrease of net sales in the electronic and metallic segment was mainly due to a decrease in orders from existing customers for professional audio equipment of \$3,594,000, offsetting increases of \$1,091,000 and \$1,205,000 in sales for audio and home entertainment products from existing and new customers.

Gross Profit - The gross profit for the quarter ended March 31, 2012 was \$1,409,000, representing a gross profit margin of 11.6%. This compares with the overall gross profit and gross profit margin of \$2,440,000 or 15.3% for the quarter ended March 31, 2011.

Gross profit in the plastic segment decreased by \$821,000 to \$622,000 or 12.6% of net sales, for the quarter ended March 31, 2012, as compared to \$1,443,000 or 19.5% of net sales, for the quarter ended March 31, 2011. The decrease in gross margin in the plastic segment was mainly due to an increase in factory overheads as a percentage of net sales, as compared to the same quarter in the prior year.

Gross profits in the electronic & metallic segment decreased by \$210,000 to \$787,000, or 10.8% of net sales, for the quarter ended March 31, 2012, as compared to \$997,000 or 11.6% of net sales, for the same period of last fiscal year. The decrease in gross profit and margin was mainly attributed to an increase in labor cost due to more overtime charges as well as an increase in factory overheads as a percentage of sales, offsetting increase in the selling price of products as compared to the same quarter of last fiscal year.

Selling, General and Administrative Expenses – SG&A expenses for the quarter ended March 31, 2012 were \$3,235,000, or 26.5% of total net sales, compared to \$2,788,000, or 17.4% of total net sales for the quarter ended March 31, 2011. There was an increase in selling, general and administrative expenses of \$447,000 compared to the corresponding period of last year.

The SG&A expenses in the plastic segment increased by \$430,000 to \$2,013,000, or 40.9% of net sales, for the quarter ended March 31, 2012 compared to \$1,582,000 or 21.4% of net sales for the corresponding period in fiscal 2011. The higher SG&A expense for the quarter was primarily related to increases of \$384,000 in stock compensation cost, \$139,000 in government license and registration fees, offsetting a decrease of \$239,000 in staff cost and welfare, as well as \$54,000 decrease in selling expense, as compared with the year-ago quarter.

SG&A expenses in the electronic and metallic segment increased by \$17,000 to \$1,222,000, or 16.8% of net sales, for the quarter ended March 31, 2012 compared to \$1,206,000, or 14.1% of net sales for the corresponding period in fiscal 2011. The increase in SG&A expenses was primarily related to an increase of \$165,000 in stock compensation cost, offsetting decreases of \$34,000 in staff cost and welfare, \$15,000 in communication expense, as compared with the corresponding quarter in the prior fiscal year.

Other operating income - Other operating income was \$174,000 for the quarter ended March 31, 2012, as compared to other operating expense of \$57,000 for the quarter ended March 31, 2011.

On a segment basis, other operating income attributable to the plastic segment was \$74,000 as compared to other operating expense of \$184,000 for the same quarter last year. The increase in other operating income was mainly accounted by an exchange gain of \$132,000, offsetting a provision of \$60,000 for doubtful receivables in the quarter ended March 31, 2012, as compared to a provision of \$135,000 for doubtful receivables and \$195,000 for impairment of fixed assets, offsetting a gain of \$165,000 from sales of materials in the year-ago quarter.

Other operating income attributable to the electronic and metallic segment was \$100,000 in the quarter ended March 31, 2012, as compared to other operating income of \$127,000 for the year-ago quarter. The decrease in other operating income was mainly due to the gain of \$22,000 from sales of materials and other operating income of \$88,000, as compared to the recovery of local sales tax in the amount of \$50,000 and other operating income of \$71,000 in the corresponding quarter of prior fiscal year.

Operating loss - Operating loss was \$1,652,000 for the quarter ended March 31, 2012, as compared with operating loss of \$405,000 for the corresponding quarter in the prior fiscal year.

On a segment basis, the operating loss in the plastic division was \$1,317,000 or negative 26.8% of net sales in the quarter ended March 31, 2012 compared to an operating loss of \$323,000 or negative 4.4% of net sales in the corresponding period of fiscal 2011. The increase in operating loss in the plastic division was mainly due to decrease in sales revenues, lower gross margin as well as higher SG&A expense as a percentage of net sales as described above.

Operating loss in the electronic & metallic segment was \$335,000, or negative 4.6% of net sales in the quarter ended March 31, 2012 compared to an operating loss of \$82,000 or negative 1.0% of net sales in the corresponding period of fiscal 2011. The increase in electronic & metallic operating loss was due to a decrease in gross profit margins and an increase in SG&A expenses as a percentage of net sales as described above.

Non-operating income – Non-operating income increased by \$953,000 to \$982,000 for the quarter ended March 31, 2012 as compared to non-operating income of \$29,000 for the year-ago quarter. This is mainly attributable to the interest income of \$107,000, dividend income of \$217,000 and a change of \$652,000 on the fair value of marketable securities, as compared to the interest income of \$81,000 in the year-ago quarter.

Income Taxes – Income tax for the quarter ended March 31, 2012 was comprised of a credit adjustment of \$29,000 to income tax and a deferred tax provision of \$72,000, as compared to an income tax expense of \$596,000 and a deferred tax benefit of \$319,000 in the corresponding quarter of the prior fiscal year.

The income tax of the electronic and metallic segment for the quarter ended March 31, 2012 was comprised of an income tax expense of \$50,000 and a deferred tax benefit of \$26,000, as compared to an income tax expense of \$176,000 and a deferred tax benefit of \$257,000 in the corresponding quarter of fiscal 2011.

Net Loss – The Company had a net loss of \$713,000 for the quarter ended March 31, 2012 as compared to a net loss of \$653,000 for the quarter ended March 31, 2011. Net loss for the quarter ended March 31, 2012 represented negative 5.8% of net sales, compared to negative 4.1% of net sales in the same quarter of the prior fiscal year.

Net loss for the plastic segment for the quarter ended March 31, 2012 totaled \$590,000, as compared to a net loss of \$664,000 for the corresponding quarter in fiscal 2011. The net loss was mainly the result of a decrease in gross margin and an increase in SG&A expense as a percentage of net sales offsetting improvement in non-operating income as well as lower income tax expense incurred for the quarter as described above.

Net loss for the electronic & metallic segment for the quarter ended March 31, 2012 was \$123,000, as compared to net income of \$11,000 for the corresponding quarter in fiscal 2011. The net loss of the electronic & metallic segment was mainly the result of lower gross margin, higher SG&A expense a percentage of sales and lower deferred tax benefit in the quarter as described above.

Year ended March 31, 2012 Compared to Year Ended March 31, 2011

Net Sales - The Company's net sales for the year ended March 31, 2012 were \$64,783,000, a decrease of \$19,239,000 or 22.9% as compared to fiscal 2011.
