MEETING WILL BE HELD TO CONSIDER ANY MATTER DESCRIBED HEREIN.**

Shareholders of record at the close of business on March 8, 2008, the Record Date, are entitled to notice of the action to be effective on or about April 5, 2008. Each share of our common stock entitles its holder to one vote on each matter submitted to the shareholders. The elimination of the need for a meeting of stockholders to approve this action is made possible by Delaware Statutes which provides that the written consent of the holders of outstanding shares of voting capital stock, having not less than the minimum number of votes which would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted, may be substituted for such a meeting. In order to eliminate the costs involved in holding a special meeting of our stockholders, our Board of Directors voted to utilize the written consent of the holders of a majority in interest of our voting securities. **This Information Statement is circulated to advise the shareholders of action already approved by written consent of the shareholders who collectively hold a majority of the voting power of our capital stock and shall serve as our Annual Meeting.**

CURRENT INFORMATION REGARDING THE COMPANY

The following is a description of the current operations of the Company

THE COMPANY

American Southwest Music Distribution, Inc. f/k/a GL Energy & Exploration, Inc. (we or the Company) was incorporated in the state of Delaware in 1998. Previously, the company engaged in the exploration of mining prospects in the western United States.

On March 13, 2006, we entered into an agreement (the Exchange Agreement) pursuant to which we acquired all of the equity of American Southwest Music Distribution, Inc., a Texas corporation (American). Pursuant to the Exchange Agreement, we issued 22,500,000 shares of our common stock and 23,980 shares of our series A convertible preferred stock to David Michery and Kent Puckett, the sole shareholders of American. On August 18, 2006, we filed a certificate of amendment to our certificate of incorporation with the Delaware secretary of state changing our name to American Southwest Music Distribution, Inc.

As a result, our business is the business of American. American s current business is the production, acquisition, marketing and sale of pre-recorded music. American s pre-recorded music products will include releases of the new musical performances of recording artists, as well as compilations featuring various artists or repackaged releases of previously recorded music from our master music catalog and derived from licenses of music masters from third-parties. The exchange was accounted for as a reverse acquisition. The accounting rules for reverse acquisitions require that, beginning with the date of the acquisition (March 13, 2006), our balance sheet include the assets and liabilities of American and our equity accounts be recapitalized to reflect the net equity of American. Accordingly, our historical operating results are now the operating results of American.

Our current executive offices are located at 13191 Crossroads Parkway, Industry, California 91746. Our telephone number is (562) 805-4530.

Company History

We produce, acquire, market and sell pre-recorded music through our wholly owned subsidiary, American. American was incorporated in the State of Texas in May 2004. In July 2004, American acquired the assets of Celestial Breakaway Records and Out of Control Records music catalog, which consisted of rights to various master recordings previously released commercially. Pursuant to that acquisition, American procured the exclusive right to

commercially market and sell those master recordings worldwide.

On October 13, 2004, American entered into that certain Agreement and Plan of Reorganization with the Company (the Merger Agreement), pursuant to which all of American s outstanding shares were to be converted into shares of the Company s capital stock, with the Company being the surviving corporation. Although the Merger Agreement was executed, certain closing conditions were never satisfied, including the filing of a certificate of merger with the Delaware Secretary of State and as such the merger was never consummated. The Board of Directors of both American and the Company deemed it in the best interest of their respective companies and shareholders to terminate the Merger Agreement and to enter into the Exchange Agreement.

On March 13, 2006, American, their shareholders and the Company entered into the Exchange Agreement pursuant to which the Company issued an aggregate of 22,500,000 shares of its common stock and 23,980 shares of its series A convertible preferred stock to the American stockholders in exchange of their transfer of American shares to the Company.

Recent Developments

In the last fiscal year, our Board of Directors approved an amendment to our certificate of incorporation (the Charter Amendment) to: (i) change our name to American Southwest Music Distribution and (ii) effectuate a reverse stock split of our common stock by changing and reclassifying each seventy four (74) shares of our issued and outstanding common stock, par value \$.001 per share (Common Stock) into one (1) fully paid and non-assessable share of Common Stock (the Reverse Split). A majority of our stockholders approved the Charter Amendment by written consent on July 7, 2006. A notice of shareholder action by written consent was mailed to all stockholders of record as of July 7, 2006 informing them of this action on July 27, 2006. The Charter Amendment was filed with the Delaware Secretary of State on August 17, 2006. Nasdaq effectuated the name change and reverse split on Thursday August 24, 2006. Information in this Annual Report (other than our audited financial statements) has been adjusted to give effect to the Reverse Split.

On October 10, 2006, we entered into a Profit Participation Agreement with Screw U Records, LLC. The agreement calls for the exclusive assignment to the Company of recording rights of certain named artists. The initial term of the agreement is for nine full months from the time of the commercial release of the first album produced by any of the named artists. The Company also has the option to request 6 additional recordings subject to certain restrictions. The agreement calls for the Company to pay certain advances for the production of the albums. For the first album produced, the Company will pay a royalty to Screw U Records of 50% of net receipts to the Company. Net receipts are defined as gross receipts less all recoupable costs and advances. The royalty payment percentages for additional albums produced under the option terms varies from 25% for the first option album to 10% for the remaining options.

Our Business

Our business is the production, acquisition, marketing and sale of pre-recorded music. Our pre-recorded music products will include releases of the new musical performances of recording artists, as well as compilations featuring various artists or repackaged releases of previously recorded music from our master music catalog and derived from licenses of music masters from third-parties.

Our expansion and exploitation of its music catalog is an integral part of its business and growth strategy. American owns a music catalog with 25 album masters, and intends to add to the music catalog through strategic and complementary acquisitions, licensing agreements, and by executing recording agreements with artists, production companies and other record labels with new recordings.

We will enter into rights acquisition, licensing, distribution and recording agreements ("Recording Agreements") with artists, third party record labels and production companies ("Labels") to provide us with master recordings that have not been previously released for sale to consumers ("New Masters"). Through each Recording Agreement, we will acquire the worldwide copyright and exclusive right to distribute and license music products derived from the New Masters that will be recorded and produced by the Labels, during the term of the Recording Agreement or any

extension thereof. We will also acquire the exclusive right to record and market all New Masters of the recording artist(s) featured on any and all New Masters recorded by the Labels during the term of the Recording Agreements. We will also have the right to extend the term of the Recording Agreement through the exercise of multiple options pursuant to the terms of the Recording Agreements.

Most of our Recording Agreements will have an initial term and will usually have up separate, consecutive, irrevocable options, to renew the term for additional periods, at our sole discretion. As a condition of the initial term, and prior to exercising each option, we will be required to pay recoupable advances to the Label.

Pursuant each Recording Agreement, each Label will agree to deliver one or more New Masters to us during the term of the Recording Agreement. Each New Master will be required to contain at least twelve (12) newly recorded compositions of the featured recording artist(s), having an aggregate playing time of no less than forty (40) minutes ("Album"), and must be complete and satisfactory to us, in our managements' sole discretion.

If an Album is satisfactory us, we will market and advertise the consumer release of the Album, and after the Label's delivery of an Album to us, we will commercially release the Album in the United States and Canada. Whether or when an Album is commercially released to consumers is within our sole discretion. The actual amount of money spent marketing an Album will be determined by us.

Depending upon the initial success of any single, we will advance to the Label the costs to film and produce a music video featuring the single song selected by us. Pursuant to the terms of the Recording Agreement, we have the right to supervise and approve all elements of the music video. Once an acceptable music video is completed, we will use our efforts and pay third-party promoters to secure airplay of the music video on regional and national music video shows, as part of our marketing of the particular Album.

The marketing expenses we spend on any Album are variable, because the actual amount of expenditures for each Album will depend upon our management's business judgment and discretion, about the commercial success (or lack thereof) of any Album, or the effectiveness of any Album's marketing. At any point, we can elect to continue to or discontinue spending money to market any individual Album. If the Album realizes commercial success in the United States and Canada, the Album will be released in foreign territories.

Depending upon the terms of each Recording Agreement, we will pay each Label royalties from the net profits we actually receive from the sale of music products delivered during the term of the Recording Agreement. According to the terms of each Recording Agreement, we will only be required to pay royalties to a Label after we recoup all advances (we make to or on behalf of the Label) from Label's percentage of net sales of all music products derived from the New Master(s) delivered by the subject Label.

AMENDMENT OUR ARTICLES OF INCORPORATION TO EFFECT A 1-FOR-50 REVERSE STOCK SPLIT OF OUR ISSUED AND OUTSTANDING COMMON STOCK

Introduction

On March 8, 2008, our board of directors unanimously adopted a resolution declaring it advisable to amend our certificate of incorporation to effectuate a 1-for-50 reverse stock split. Our board of directors further directed that this amendment to our certificate of incorporation be submitted for consideration by our stockholders. On March 8, 2008, the holders of our voting stock approved the 1-for-50 reverse stock split.

Effective Time of the Reverse Split

We intend to file, as soon as practicable on or after the twentieth (20th) day after this information statement is sent to our shareholders, an amendment to our certificate of incorporation effectuating the reverse stock split with the Secretary of State of Delaware. This amendment to our certificate of incorporation will become effective at the close of business on the date the amendment to the certificate of incorporation is accepted for filing by the Secretary of State of Delaware. It is presently contemplated that such filing will be made on March 26, 2008.

Reasons for the Reverse Stock Split

Our board of directors seeks to adopt the one for seventy-four reverse stock-split in order to improve our capitalization and to comply with the terms of the agreement underlying our acquisition of all of the outstanding shares of Ultimate Sports Entertainment, Inc. (See RECENT CHANGES Change in Control). After giving effect the acquisition without the reverse stock split, the number of total shares outstanding on April 20, 2008 will be 674,963. Our board of directors believes that this number of outstanding shares, along with the low per share market price of our common stock, impairs its marketability to and acceptance by institutional investors and other members of the investing public and creates a negative impression of our company. The board of directors has determined that, for the reasons set forth herein, the better choice is to effectuate the reverse split.

Theoretically, decreasing the number of shares of common stock outstanding should not, by itself, affect the marketability of the shares, the type of investor who would be interested in acquiring them, or our reputation in the financial community. In practice, however, many investors and market makers consider low-priced stocks as unduly speculative in nature and, as a matter of policy, avoid investment and trading in such stocks. The presence of these negative perceptions may be adversely affecting, and may continue to adversely affect, not only the pricing of our common stock but also its trading liquidity. In addition, these perceptions may affect our commercial business and our ability to raise additional capital through the sale of stock or the cost of debt we may incur.

We hope that the decrease in the number of shares of our outstanding common stock resulting from the reverse split, and the anticipated increase in the price per share, will encourage greater interest in our common stock among members of the financial community and the investing public and possibly create a more liquid market for our stockholders with respect to those shares presently held by them. However, the possibility exists that stockholder liquidity may be adversely affected by the reduced number of shares which would be outstanding if the reverse split is effected, particularly if the price per share of our common stock begins a declining trend after the reverse split is effected. Companies which effectuate reverse stock splits often experience such a declining trend.

It is possible that the reverse split will not achieve any of the desired results. There also can be no assurance that the price per share of our common stock immediately after the reverse split will increase proportionately with the reverse split, or that any increase will be sustained for any period of time.

We are not aware of any present efforts by anyone to accumulate our common stock, and the proposed reverse split is not intended to be an anti-takeover device.

Possible Disadvantages

The liquidity of our common stock may be adversely affected by the reduced number of freely-tradeable shares outstanding after the reverse stock-split. The reverse stock-split will cause the number of odd-lot holders to go up and cause the number of round-lot holders of the common stock to go down. An odd-lot is fewer than 100 shares. The number of round-lot holders is a common measure of a stock's distribution, and a lower number may reflect more negatively on our shares. In addition, the new odd-lot holders may become reluctant to trade their shares because of any stigma or higher commissions associated with odd-lot trading. Stockholders who hold odd-lots may experience an increase in the cost of selling their shares and may have greater difficulty in making sales. This may negatively impact the average trading volume and thereby diminish interest in the common stock by some investors and advisors.

Notwithstanding these potential disadvantages, the board of directors believes that the reverse stock-split is in our best interest for the reasons set forth above.

Effects of Reverse Stock-Split

The reverse stock-split will increase our authorized but unissued common stock, which may be used by our board of directors in order to thwart anti-takeover efforts by outsiders. The board nominees are not aware of any such current takeover efforts, and the reverse split is not being proposed as an anti-takeover measure.

Following the reverse split (and conversion of the series A preferred stock), our capital structure will be as follows:

(i)

674,963 shares of common stock outstanding;

(ii)

500,000,000 shares of common stock authorized, with 0 shares reserved for issuance

While management is currently seeking attractive equity or debt financing arrangements, there are currently no proposals or arrangements, written or otherwise, to issue additional shares of our common stock at this time. However, should we issue additional shares of stock in the future, this could have the effect of diluting the earnings per share and book value per share of existing shares of common stock.

Our charter currently provides that preferred stock may be issued in one or more series. Our board of directors is authorized to fix the number of shares of any series of preferred stock, to determine the designation of any such series and to determine the rights, preferences, privileges, qualifications and limitations of such preferred stock. Depending upon the nature and terms of any such designated and issued preferred stock, such issuance could make a takeover of our company more difficult and therefore, less likely. An issuance of any shares of preferred stock could have the effect of diluting the earnings per share and book value per share of existing shares of common stock. The board of directors has no present plans, understandings, or agreements to issue any preferred stock. Other than our preferred stock as discussed above, there are no provisions of our articles, bylaws, employment agreements or credit agreements that have material antitakeover consequence.

Stock Certificates and Fractional Shares

Stockholders will be required to exchange their stock certificates for new certificates representing the shares of common stock after giving effect to the reverse stock-split with our transfer agent. Stockholders will not be required to pay a transfer or other fee in connection with the exchange of certificates.

We will not issue any certificates representing fractional shares of our common stock in the transaction, while retaining the current par value of \$0.001. We will not be paying any cash to stockholders for any fractional shares resulting from the reverse split; rather, any resulting fractional shares shall be rounded up to the nearest whole number.

Our transfer agent is Continental Stock Transfer & Trust Company, 17 Battery Place, New York, New York 10004.

Procedure for Implementing the Reverse Stock-Split

In connection with the reverse stock-split, fifty (50) shares of our pre-split outstanding common stock will be exchanged for one share of common stock. Post-split shares of our common stock may be obtained by surrendering certificates representing shares of pre-split common stock to our transfer agent. To determine the number of shares of our common stock issuable to any record holder, the total number of shares represented by all of the certificates issued in the name of that record holder held in each account as set forth on the records of the transfer agent on the date upon which the split becomes effective will be divided by 50.

We will not issue any certificates representing fractional shares of our common stock in the transaction, while retaining the current par value of \$0.001. Any resulting fractional shares shall be rounded up to the nearest whole number. Upon surrender to the transfer agent of the share certificate(s) representing shares of pre-split common stock, the holder will receive a share certificate representing the appropriate number of shares of our common stock.

Federal Income Tax Consequences

The following discussion generally describes certain federal income tax consequences of the reverse stock-split to our stockholders. The following does not address any foreign, state, local tax or alternative minimum income, or other federal tax consequences of the proposed reverse stock-split. The actual consequences for each stockholder will be governed by the specific facts and circumstances pertaining to such stockholder's acquisition and ownership of the common stock. Each stockholder should consult his or her accountants for more information in this regard.

We believe that the reverse stock-split will qualify as a recapitalization under Section 368(a)(1)(E) of the Code or as a stock-for-stock exchange under Section 1036(a) of the Code. As a result, no gain or loss should be recognized by us or our stockholders in connection with the reverse stock-split. A stockholder's aggregate tax basis in his or her shares of post-reverse stock-split common stock received from us will be the same as his or her aggregate tax basis in the pre-reverse stock-split common stock exchanged therefore. The holding period of the post-reverse stock-split common stock surrendered in exchange therefore will include the period for which the shares of pre-reverse stock-split common stock were held, provided all such common stock was held as a capital asset on the date of the exchange.

This summary is provided for general information only and does not purport to address all aspects of the possible federal income tax consequences of the reverse stock-split and is not intended as tax advice to any person. In particular, and without limiting the foregoing, this summary does not consider the federal income tax consequences to our stockholders in light of their individual investment circumstances or to holders subject to special treatment under the federal income tax laws (such as life insurance companies, regulated investment companies and foreign taxpayers).

No ruling from the Internal Revenue Service or opinion of counsel has been or will be obtained regarding the federal income tax consequences to our stockholders as a result of the reverse stock-split. Accordingly, each stockholder is encouraged to consult his or her tax advisor regarding the specific tax consequences of the proposed transaction to such stockholder, including the application and effect of state, local and foreign income and other tax laws.

THE AMENDMENT HAS BEEN APPROVED BY THE BOARD AND THE WRITTEN CONSENTS OF THE HOLDERS OF THE MAJORITY OF THE OUTSTANDING VOTING CAPITAL STOCK OF THE COMPANY.

DISSENTER'S RIGHTS OF APPRAISAL

The general corporation law of the State of Delaware does not provide for dissenter's rights of appraisal in connection with the amendment to the Certificate of Incorporation.
