ITEM 2. ACQUISITION OF ASSETS

Imaging Technologies Corporation ("ITEC" or the "Company") first reported the acquisition of shares of Greenland Corporation ("Greenland") and Quik Pix, Inc. ("QPI") on Form 8-K filed on January 21, 2003.

(a) On January 14, 2003, ITEC completed its acquisition all of the 19,183,390 shares of common stock of Greenland; and paid for the exercise of warrants to purchase 95,319,510 shares of Greenland common stock. The purchase price was \$2,250,000 in the form of a promissory note convertible into shares of ITEC common stock, the number of which will be determined by a formula applied to the market price of the shares at the time that the promissory note is converted.

The warrants have been exercised, but are deliverable pursuant to the terms of the Closing Agreement, which details certain sales performance provisions.

The purchase price was determined through analysis of Greenland's financial reports as filed with the Securities and Exchange Commission and the potential future performance of Greenland's ExpertHR subsidiary. The total purchase price was arrived at through negotiations.

Greenland's ExpertHR subsidiary provides professional employer services (PEO) to

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form 8-K

niche markets. Greenland's Check Central subsidiary is an information technology company that has developed the Check Central Solutions' transaction processing system software and related MAXcash Automated Banking Machine (ABM kiosk designed to provide self-service check cashing and ATM-banking functionality. Greenland's common stock trades on the OTC Bulletin Board under the symbol GREENLAND.

(b) On January 14, 2003, ITEC completed its acquisition of 110,000,000 shares of common stock of QPI. The purchase price was 12,500,000 shares of ITEC restricted common stock.

The purchase price was determined through analysis of QPI's financial condition and the potential future performance of its business operations. The total purchase price was arrived at through negotiations.

Established in 1982, QPI is a visual marketing support firm. Its principal product, Photomotion, is patented. PhotoMotion is a unique color medium that uses existing originals to create the illusion of movement and allows for three to five distinct images to be displayed with an existing light box. QPI visual marketing products are sold to a range of clientele including advertisers and their agencies.

ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS.

The following unaudited Pro Forma Statements have been derived from the unaudited financial statements of ITEC for the six month period ended December 31, 2002 and the unaudited financial statements of Greenland for the six month period ended December 31, 2002. Greenland is a reporting company whose financial results are reported pursuant to Regulation S-B.

Pursuant to Section 210.2-02(w) of Regulation S-X, the acquisition of QPI does not meet the standard of a "significant subsidiary". Accordingly, pro-forma financial statements are not included in this report. ITEC will consolidate the financial results related to QPI in its Form 10-Q for the period ending March 31, 2003.
