#### ITEM 4. INFORMATION ON THE COMPANY

##### A. History and Development of the Company

Our legal and commercial name is RoboGroup T.E.K. Ltd. We were incorporated under the laws of the State of Israel in 1982 as Robotec (G.A.L.) Industrial Robotic Technology Ltd. for an indefinite term. In 1983 we changed our name to Eshed Robotec (1982) Ltd. On December 2000, we changed our name to RoboGroup T.E.K. Ltd. Our registered office and principal executive offices are located at 13 Hamelacha Street, Afek Industrial Park, Rosh Ha Ayin 48091 Israel and our telephone number is 972-3-9004111. Our address on the internet is <http://www.robo-group.com>. The information on our website is not incorporated by reference into this annual report.

We operate through two business sectors. The first sector focuses on our traditional business activities, the education field. This sector includes our research and development sections, the operations section, and the marketing and sales of our products and products manufactured by third parties, to the Israeli and international training and education markets.

The second sector consists of our partly-owned subsidiary Yaskawa Eshed Technology, or YET, which is engaged in the development and manufacture of motion control products for the industrial market. We hold 50% of YET's issued share capital, with the remaining 50% being held by Yaskawa Electric Corporation, or YEC.

Until 2003 we had a third business sector which was comprised of our start-up company MemCall

MemCall was engaged in the development of a new search technology which was intended to reduce the time for locating and retrieving data in computers and communications networks. In December 2003, our board of directors decided to significantly reduce the amount of investment in this activity, and since the beginning of 2004, while we are maintaining four of Memcall's patents and patent applications, it has become operationally inactive. Nevertheless, during 2004 and the first six months of 2005, we have continued to make efforts to attract potential customers and strategic partners for MemCall.

---

**Recent Developments**

During 2004 we continued to implement the cost-cutting measures in the education sector, which we had commenced in 2003 in order to improve our financial status and profitability, including personnel cuts, the consolidation of related activities, the reduction of salary costs of our senior executives and the reduction in general expenses. We reduced our operating expenses in 2004, by approximately NIS 9 million (\$2.1 million) compared to 2003. These measures have improved both our financial results for 2004 compared to 2003, and our negative cash flow.

**Standby Equity Distribution Agreement**

On June 22, 2004, we entered into a Standby Equity Distribution Agreement with Cornell Capital Partners LP, or Cornell. Pursuant to the Standby Equity Distribution Agreement, we may, at our discretion, periodically issue advance notices to Cornell requiring it to purchase our ordinary shares for a total purchase price of up to \$5,500,000. In connection with the Standby Equity Distribution Agreement, we registered 5,957,082 of our ordinary shares on a registration statement on Form F-2, that was declared effective on September 28, 2004. For more information on the Standby Equity Distribution Agreement, see Item 10, Additional Information Material Contracts.

**Agreements between YET and YEC**

In January, 2004, our subsidiary YET entered into a one year Development Agreement with its other major shareholder YEC, pursuant to which YET provided development services to YEC based on the demand and special definitions of YEC for \$1.6 million.

In February 2004, YET entered into a one year separate Royalty Agreement with YEC pursuant to which YEC paid YET royalties for its use of technology developed by YET (other than in the framework of the Development Agreement).

On January, 2005, YET entered into a one year new Development Agreement with YEC pursuant to which YET provided development services to YEC based on the demand and special definitions of YEC for \$1.6 million.

On January 1 2005, YET entered into a five year separate Royalty Agreement with YEC pursuant to which YEC is paying YET royalties for its use of technology developed by YET.

On December, 2004, we received a dividend of US \$400,000 from YET. In March 2005, we received a further dividend of US \$200,000 from YET.

---

**Investments in our subsidiary MemCall**

During the course of 2003, MemCall invested significant efforts in negotiating with potential strategic partners (manufacturers and marketers in the global silicon market) none of which matured into a contract.. MemCall conducted negotiations with several potential strategic partners, none of which matured into a contract. In December 2003 our board of directors decided to significantly reduce our continued investment in Memcall. As at the time of this report, Memcall does not directly employ any employees but is continuing to maintain four of its patents Nevertheless, during 2004 and the first six months of 2005, we have continued to make efforts to attract potential customers and strategic partners for MemCall.

As of December 31, 2004 we have invested \$4.7 million in the development of MemCall.

**To the Shareholders of RoboGroup T.E.K LTD.  
INDEPENDENT AUDITORS REPORT**

We have audited the accompanying balance sheets of **RoboGroup T.E.K LTD.** (hereinafter - the Company) as of December 31, 2004 and 2003, and the consolidated balance sheets as of the same dates and the related statements of operations, statements of changes in shareholders' equity and statements of cash flows - for each of the three years ended December 31, 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements, based on our audit.

We have not audited the financial statements of the consolidated companies whose joint assets represent approximately 18% of the total consolidated assets as of December 31, 2004 and 2003 respectively and whose joint revenues represent approximately 44%, 43%, and 28% of the total consolidated revenues for the years ended December 31, 2004, 2003 and 2002 respectively. The financial statements of those companies were audited by other independent public accountants whose reports have been furnished to us and our opinion, insofar as it relates to amounts included for those companies, is based solely on the reports of those other public accountants.

We conducted our audit in accordance with generally accepted auditing standards, including those prescribed by the Auditors (Mode of Performance) Regulations, 1973 and with the standards of the Public Company Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance that the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our examination and on the reports of the other public accountants referred to above, the above mentioned financial statements present fairly, in all material respects, the financial position - of the Company and consolidated - as of December 31, 2004 and 2003 and the results of operations, changes in shareholders' equity, and cash flows - of the Company and consolidated - for each of the three years ended December 31, 2004, in conformity with accounting principles generally accepted in Israel and in the United States (as applicable to the financial statements of the Company, such accounting principles are practically identical in the said countries, save for the measurement in terms of a constant purchasing power, which became an accepted accounting practice in Israel during a period of hyperinflation and save for certain matters summarized in note 26). It is also our opinion that the above mentioned financial statements have been prepared in conformity with the Securities Regulations (Preparation of Annual Financial Statements), 1993.

As described in Note 2, the financial statements as of the dates and for the reported periods subsequent to December 31, 2003, are presented in reported amounts, in conformity with Accounting Standards of the Israel Accounting Standards Board. The financial statements as of the dates and for the reported periods until the aforementioned date are presented in values that were adjusted until that date according to the changes in the general purchasing power of the Israeli currency, in accordance with pronouncements of the Institute of Certified Public Accountants in Israel.

**Sincerely Yours,**

**NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Cont. )****L. Fixed Assets**

Fixed assets are stated at cost (Demonstration equipment are valued at the cost of finished products of the same type) less accumulated depreciation.

Financing costs of credit lines opened for financing the purchase of the building, in the period prior to its use, have been capitalized.

Depreciation is calculated according to the straight-line method at the following rates, which are considered to be adequate to the depreciation of the assets over the course of their estimated useful lives:

	%
Machinery and equipment (mainly 20%)	10-20
Office equipment and furniture (mainly 6%)	6-10
Computers and computerized equipment (mainly 33%)	20-33
Vehicles (mainly 20%)	15-20

Leasehold improvements	Over the lease period

**M. Intangible Property**

**N. Impairment of assets**

The Company examines at each balance date the returnable amount of its assets whenever signs for impairment of those items exist. When an asset's book value exceeds its returnable amount, the Company recognizes the loss from impairment of that asset. Loss from impairment of assets, excluding goodwill, which was recognized earlier, is annulled only in case of change in estimates used to determine the returnable amount, as of date when last loss from impairment was recognized. The book value after the annulment will not exceed the book value of that asset, which would have been set for unless the loss from impairment had been recognized during the prior years.

**O. Deferred Taxes**

Deferred taxes are computed in respect of temporary differences between the reported amounts of assets and liabilities and their tax basis and calculated according to the enacted tax rates and laws that is expected to be in effect when the differences are expected to be paid or realized. The Company recognizes tax benefits receivable where the expectation of realization according to management estimate, is more likely than not.

The proportionately consolidated company has accumulated earnings derived from tax exempt income as an approved enterprise. The distribution of a dividend out of such income would give rise to the imposition of corporation tax at the rate of 20% in respect to that income. It is the intention of the Company and the proportionately consolidated company to constantly reinvest its tax-exempt income and not to distribute it as dividend. Accordingly, there is no provision for deferred taxes in respect of tax exempt income.

The Company included a provision for taxes, that may enact when dividends from proportionately consolidated company are received from income of approved enterprise, except for tax exempt income.

**NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Cont. )****S. Research and Development Costs**

Research and development costs are charged to income as incurred. Related grants are deducted from the related costs on an accrual basis.

**T. Earnings Per Share**

The basic earnings (losses) per share are calculated on the basis of a weighted average of the issued and paid-up shares during the year, with no accounting for possible dilution.

These financial statements do not include the effect of a possible dilution from options given to employees because their effect is anti-dilution or not material.

**U. Impact of recently issued Accounting Standards**

On July 2004, the Israeli Accounting Standards Board published Accounting Standard No. 19, Taxes on Income. The Standard provides that a liability for deferred taxes is to be recorded for all temporary differences subject to tax, except for a limited number of exceptions. In addition, a deferred tax asset is to be recorded for all temporary differences that may be deducted, losses for tax purposes and tax benefits not yet utilized, if it is anticipated that there will be taxable income against which they can be offset, except for a limited number of exceptions. The new Standard applies to financial statements for periods beginning on January 1, 2005.
