PETACH-TIKVA, Israel, November 13, 2006 (BUSINESS WIRE) Eltek Ltd. (NASDAQ:ELTK), the leading Israeli manufacturer of advanced flex-rigid circuitry solutions, today announced its financial results for the third quarter of 2006.

**Third Quarter 2006 Financial Highlights:**

Record revenues of \$ 10.2 million, up 20% from Q3 2005.

Quarterly operating income of \$ 598,000 up 16%

Quarterly net income up 24% to \$ 480,000 or \$ 0.07 per fully diluted share

Eltek reported revenues for the three months ended September 30, 2006 of NIS 44.1 million (\$10.2 million) compared with NIS 36.6 million (\$ 8.5 million) for the third quarter of 2005. The increase in revenues is attributable to new customers and new projects with existing customers, along with increased sales with respect to ongoing projects.

Net income for the third quarter totalled NIS 2.1 million (\$ 480,000), or \$ 0.07 per fully diluted share compared with net income of NIS 1.7 million (\$ 386,000), or \$ 0.06 per fully diluted share for the same quarter in 2005. The third quarter of 2006 was the Company's eighth consecutive quarter of profitability.

---

**First Nine Months 2006 Financial Highlights:**

Revenues of \$ 30.3 million, up 24% from comparable period in 2005.

Nine months operating income of \$ 2 million, up 83%

Nine months net income up 135% to \$ 1.6 million, or \$ 0.23 per fully diluted share

Revenues for the nine-month period ended September 30, 2006, were NIS 130.5 million (\$ 30.3 million) compared with revenues of NIS 104.9 million (\$ 24.4 million) for the comparable period in 2005.

## Edgar Filing: ELTEK LTD - Form 6-K

Net income for the nine-month period ended September 30, 2006 was NIS 6.9 million (\$ 1.6 million), or \$ 0.23 per fully diluted share, compared with a net income of NIS 3.0 million (\$ 688 thousand) or \$ 0.10 per fully diluted share for the same period in 2005.

In the third quarter of 2006, Eltek had EBITDA of \$ 1.2 million compared to EBITDA of \$ 1.2 million in the third quarter of 2005. In the first nine months of 2006, Eltek had EBITDA of \$ 3.9 million compared with EBITDA of \$ 3.2 million in the same period in 2005.

ELTEK uses EBITDA as a non-GAAP financial performance measurement. EBITDA is calculated by adding back to net income interest, taxes, depreciation and amortization. EBITDA is provided to investors to complement results provided in accordance with GAAP, as management believes the measure helps illustrate underlying operating trends in the Company's business and uses the measure to establish internal budgets and goals, manage the business and evaluate performance. EBITDA should not be considered in isolation or as a substitute for comparable measures calculated and presented in accordance with GAAP.

**Arieh Reichart**, President and Chief Executive Officer of Eltek, said, "Our third quarter results continued a two year string of increased revenue and profitability relative to comparable prior year quarters. New high end PCBs customer engagements, gradually expanded production capacity and increasing production efficiency have contributed to the highest revenues in our history for the first nine months of 2006.

Mr. Reichart added: "We currently expect a favourable shift in our revenue growth profile toward our higher margin high end PCBs component. In order to meet the expected increase in high end customer demand, and in light of high plant utilization rate, we carefully plan to grow our capacity and modify our production processes.

**Amnon Shemer**, CFO of Eltek commented: "In the third quarter we grew our quarterly operating and net income by 16% and 24%, respectively, from the corresponding quarter in 2005. During Q3 we managed our business to offset higher raw material costs and the continued devaluation of the U.S. dollar against the NIS resulting in our receiving less NIS for each dollar denominated sale, while a significant part of our expenses, primarily employee salaries, are denominated in NIS .

In the fourth quarter of 2006 and through the first half of 2007, we plan to continue to adjust our capacity and manufacturing processes to meet the demand for our products," he continued. "We are investing in our facility, equipment, people and development of our supply chain. During the first nine months of 2006, we invested over \$ 1.7 million in capital expenditures, including \$ 643 thousand in the third quarter," he concluded.
