SECRETARY OF STATE FOR TRADE AND INDUSTRY ANNOUNCEMENT REGARDING SPECIAL SHARES IN BRITISH ENERGY plc ('BRITISH ENERGY') AND COMMENT ON STATUS OF RESTRUCTURING

Special Shares

The Secretary of State for Trade and Industry ("Secretary of State") made an announcement today regarding the special shares currently held by the UK Government in the British Energy Group and which will continue to be held in the restructured British Energy Group.

The Secretary of State has decided to retain 2 key provisions of the special shares relating to the British Energy group of companies as follows:

1. The requirement for any investor to obtain the consent of the UK Government for any shareholding in excess of 15% of British Energy's issued ordinary shares.

2. The requirement for British Energy to obtain the consent of the UK Government for the disposal of any of its nuclear power stations.

However, the Secretary of State has announced that both of these provisions will be amended to ensure that UK Government consent can only be refused on the grounds of national security.

Other than these provisions, the UK Government will be giving up all its other rights under the special shares.

In addition, the Secretary of State will be retaining its special share in the Nuclear Generation

Decommissioning Fund (NGDF), and carry it forward into the Nuclear Liabilities Fund

(NLF) if British Energy's restructuring is successful.

Status of Restructuring

Edgar Filing: BRITISH ENERGY PLC - Form 6-K

British Energy exchanged a formal agreement with its major creditors on the restructuring in October 2003. However, it must be recognised that the restructuring remains subject to a large number of significant uncertainties and important conditions including receipt by the Secretary of State for Trade and Industry (the 'Secretary of State') of a satisfactory notification from the European Commission that in so far as the proposals involve the grant of State Aid by the UK Government, such aid is compatible with the common market. The Secretary of State expects to receive this notification around summer 2004. Furthermore, the Secretary of State is entitled not to proceed with the restructuring if, in her opinion, the Group will not be viable in all reasonably foreseeable conditions without access to additional financing beyond that which is committed and will continue to be available when required.

If, for any reason, the restructuring cannot proceed, the Board may have to seek the protection of insolvency proceedings. In this case the distribution to unsecured creditors may represent only a small fraction of their unsecured liabilities and it is highly unlikely that there will be any return to shareholders. Even if the restructuring is implemented, the return, if any, to existing shareholders will represent a very significant dilution of their existing interests.
