Barclays PLC

**Annual Report and
Accounts and Notice of
2009**

**Annual G
eneral Meeting**

In compliance with Listing Rule 9.6.1
, Barclays PLC
has today submitted
to the UK Listing Authority
two copies of each of the documents listed below:

- Annual Report 2008
- Annual Review 2008
- Notice of

2009

Annual General Meeting

- Proxy forms for the 2009

Annual General Meeting

Copies of the above documents will shortly be available for inspection at the UK Listing Authority's Document Viewing Facility, which is situated at:

The Financial Services Authority
25 The North Colonnade
Canary

Wharf
London
E14 5HS

Copies of the Annual Report, Annual Review and Notice of
2009

Annual General Meeting

are
available on
our

website,
www.barclays.com/investorrelations

As announced on 18 November 2008, at the 2009 Annual General Meeting all Directors will stand for re-election, with the exception of Sir Nigel Rudd and Professor Dame Sandra Dawson, who will both retire at the conclusion of the 2009 AGM and are not offering themselves for re-election.

The
Joint
Annual Report on Form 20-F for Barclays PLC and Barclays Bank PLC for the year ended 31 December 2008

will
be filed with the US Securities and Exchange Commission
later today

and
will be
available on
our
website,
www.barclays.com/investorrelations

Copies
will also be lodged with the
UK Listing Authority's
Document Viewing Facility.

Barclays shareholders (including holders of Barclays American Depositary Receipts) can receive a printed copy of the complete audited financial statements for Barclays PLC and Barclays Bank PLC for the year ended 31 December 2008 free of charge upon request in the following way

A condensed set of financial statements, the Group Chief Executive's Review and the Group Finance Director's Review were included in the final results announcement issued on 9 February 2009. This announcement contains additional information for the purposes of compliance with the Disclosure and Transparency Rules, including principal risk factors, details of related party transactions and a responsibility statement. This information is extracted from the Annual Report 2008 in full unedited text. Accordingly, page references in the text refer to page numbers in the Annual Report 2008.

Risk factors

The following information sets forth certain risk factors that the Group believes could cause its actual future results to differ materially from expected results. However, other factors could also adversely affect the Group results and so the factors discussed in this report should not be considered to be a complete set of all potential risks and uncertainties.

Business conditions and general economy

The profitability of Barclays businesses could be adversely affected by the worsening of general economic conditions in the

United Kingdom

, globally or in certain individual markets such as the

United States

,

Spain

or

South Africa

. Factors such as interest rates, inflation, investor sentiment, the availability and cost of credit, foreign exchange risk, creditworthiness of counterparties, the liquidity of the global financial markets and the level and volatility of equity prices could significantly affect the Group's customers' activity levels and financial position. For example:

- the current economic downturn or significantly higher interest rates or continued lack of credit availability to the Group's customers could adversely affect the credit quality of the Group's on-balance sheet and off-balance sheet assets by increasing the risk that a greater number of the Group's customers and counterparties would be unable to meet their obligations;

- a market downturn or further worsening of the economy could cause the Group to incur further mark to market losses in its trading portfolios;

- a further decline in the value of

Sterling

relative to other currencies could increase risk weighted assets and therefore the capital requirements of the Group;

- a further market downturn could reduce the fees the Group earns for managing assets. For example, a downturn in trading markets could affect the flows of assets under management; and

- a further market downturn would be likely to lead to a decline in the volume of transactions that the Group executes for its customers and, therefore, lead to a decline in the income it receives from fees and commissions and interest.

Current market volatility and recent market developments

The global financial system has been experiencing difficulties since August 2007 and financial markets have deteriorated dramatically since the bankruptcy filing of Lehman Brothers in September 2008. Despite measures taken by the

United Kingdom

and

United States

governments and the European Central Bank and other central banks to stabilise the financial markets, the volatility and disruption of the capital and credit markets have continued. Together with the significant declines in the property markets in the

United Kingdom

, the

United States

,

Spain

and other countries, these events over the past two years have contributed to significant write-downs of asset values by financial institutions, including government-sponsored entities and major retail, commercial and investment banks. These write-downs have caused many financial institutions to seek additional capital, to merge with larger and stronger institutions, to be nationalised and, in some cases, to fail. Reflecting concern about the stability of the financial markets generally and the strength of counterparties, many lenders and institutional investors have substantially reduced and, in some cases, stopped their funding to borrowers, including other financial institutions. While the capital and credit markets have been experiencing difficulties for some time, the volatility and disruption reached unprecedented levels in the final months of 2008 and economic activity started to contract in many of the economies in which the Group operates. These conditions have produced downward pressure on stock prices and credit capacity for certain issuers. The resulting lack of credit, lack of confidence in the financial sector, increased volatility in the financial markets and reduced business activity could continue to materially and adversely affect the Group's business, financial condition and results of operations.

Credit risk

Credit risk is the risk of suffering financial loss, should any of the Group's customers, clients or market counterparties fail to fulfil their contractual obligations to the Group. The credit risk that the Group faces arises mainly from wholesale and retail loans and advances. However, credit risk may also arise where the downgrading of an entity's credit rating causes the fair value of the Group's investment in that entity's financial instruments to fall.

In a recessionary environment, such as that ongoing in the

United Kingdom

, the

United States

and other economies, credit risk increases. Credit risk may also be manifested as country risk where difficulties may arise in the country in which the exposure is domiciled, thus impeding or reducing the value of the assets, or where the counterparty may be the country itself.

Another form of credit risk is settlement risk, which is the possibility that the Group may pay a counterparty but fail to receive the corresponding settlement in return. The Group is exposed to many different industries and counterparties in the normal course of its business, but its exposure to counterparties in the financial services industry is particularly significant. This exposure can arise through trading, lending, deposit-taking, clearance and settlement and many other activities and relationships. These counterparties include brokers and dealers, commercial banks, investment banks, mutual and hedge funds and other institutional clients. Many of these relationships expose the Group to credit risk in the event of default of a counterparty and to systemic risk affecting its counterparties. Where the Group holds collateral against counterparty exposures, it may not be able to realise it or liquidate it at prices sufficient to cover the full exposures. Many of the hedging and other risk management strategies utilised by the Group also involve transactions with financial services counterparties. The failure of these counterparties to settle or the perceived weakness of these counterparties may impair the effectiveness of the Group's hedging and other risk management

strategies.

The Group's credit risk governance structure, management and measurement methodologies, together with an analysis of exposures to credit risk is detailed in the 'Credit risk management' section on page 80 and the 'Credit Risk' note to the financial statements on page 264.

Barclays Capital credit market exposures

An analysis of Barclays Capital's credit market exposures is detailed on

pages 106 to 118.

Market risk

Market risk is the risk that the Group's earnings or capital, or its ability to meet business objectives, will be adversely affected by changes in the level or volatility of market rates or prices such as interest rates, credit spreads, commodity prices, equity prices and foreign exchange rates. Market risk has increased due to the volatility of the current financial markets.

The main market risk arises from trading activities. Barclays is also exposed to market risk through non-traded interest rate risk and the pension fund.

The Group's market risk governance structure, management and measurement methodologies, together with an analysis of exposures to both traded and non-traded market risk is detailed in the 'Market risk management' section on page 119 and the 'Market Risk' note to the financial statements on page 278. Pension risk is analysed in note 30 on page 234.

The Group's future earnings could be affected by depressed asset valuations resulting from a deterioration in market conditions. Financial markets are sometimes subject to stress conditions where steep falls in asset values can occur, as demonstrated by recent events affecting asset backed CDOs and the

US

sub-prime residential mortgage market and which may occur in other asset classes during an economic downturn. Severe market events are difficult to predict and, if they continue to occur, could result in the Group incurring additional losses.

In 2007 and in 2008, the Group recorded material net losses on certain credit market exposures, including ABS CDO Super Senior exposures. As market conditions change, the fair value of these exposures could fall further and result in additional losses or impairment charges, which could have a material adverse effect on the Group's earnings. Such losses or impairment charges could derive from: a decline in the value of exposures; a decline in the ability of counterparties, including monoline insurers, to meet their obligations as they fall due; or the ineffectiveness of hedging and other risk management strategies in circumstances of severe stress.

Liquidity risk

This is the risk that the Group is unable to meet its obligations when they fall due as a result of customer deposits being withdrawn, cash requirements from contractual commitments, or other cash outflows, such as debt maturities. Such outflows would deplete available cash resources for client lending, trading activities and investments. In extreme circumstances, lack of liquidity could result in reductions in balance sheet and sales of assets, or potentially an inability to fulfil lending commitments. This risk is inherent in all banking operations and can be affected by a range of institution-specific and market-wide events including, but not limited to, credit events, merger and acquisition activity, systemic shocks and natural disasters. The Group's liquidity risk management has several components:

- intra-day monitoring to maintain sufficient liquidity to meet all settlement obligations;
- mismatch limits to control expected cash flows from maturing assets and liabilities;
- monitoring of undrawn lending commitments, overdrafts and contingent liabilities; and
- diversification of liquidity sources by geography and provider.

During periods of market dislocation, such as those currently ongoing, the Group's ability to manage liquidity requirements may be impacted by a reduction in the availability of wholesale term funding as well as an increase in

the cost of raising wholesale funds. Asset sales, balance sheet reductions and the increasing costs of raising funding will affect the earnings of the Group.

In illiquid markets, the Group may decide to hold assets rather than securitising, syndicating or disposing of them. This could affect the Group's ability to originate new loans or support other customer transactions as both capital and liquidity are consumed by existing or legacy assets.

The Group's liquidity risk management and measurement methodologies are detailed in the 'Liquidity Risk Management' section on page 125 and the 'Liquidity Risk' note to the financial statements on page 282.

Capital risk

Capital risk is the risk that the Group has insufficient capital resources to:

- meet minimum regulatory capital requirements in the

UK

and in other jurisdictions such as the

United States

and

South Africa

where regulated activities are undertaken. The Group's authority to operate as a bank is dependent upon the maintenance of adequate capital resources;

- support its credit rating. A weaker credit rating would increase the Group's cost of funds;

- support its growth and strategic options.

During periods of market dislocation, increasing the Group's capital resources may prove more difficult or costly.

Regulators have also recently increased the Group's capital targets and amended the way in which capital targets are calculated and may further do so in future. This would constrain the Group's planned activities and contribute to adverse impacts on the Group's earnings.

The Group's capital management objectives and processes are detailed in the 'Capital risk management' section on page 128.

Operational risk

Operational risk is the risk of direct or indirect losses resulting from human factors, external events, and inadequate or failed internal processes and systems. Operational risks are inherent in the Group's operations and are typical of any large enterprise. Major sources of operational risk include operational process reliability, IT security, outsourcing of operations, dependence on key suppliers, implementation of strategic change, integration of acquisitions, fraud, human error, customer service quality, regulatory compliance, recruitment, training and retention of staff, and social and environmental impacts.

The Group's operational risk management and measurement methodologies are detailed in the 'Operational risk management' section on page 131.

Financial crime risk

Financial crime risk is a category of operational risk. It arises from the risk that the Group might fail to comply with financial crime legislation and industry laws on anti-money laundering or might suffer losses as a result of internal or external fraud, or might fail to ensure the security of personnel, physical premises and the Group's assets.

The Group's financial crime management and processes are detailed in the 'Financial crime risk management' section on page 134.

Regulatory compliance risk

Regulatory compliance risk arises from a failure or inability to comply fully with the laws, regulations or codes applicable specifically to the financial service industry. Non-compliance could lead to fines, public reprimands, damage to reputation, enforced suspension of operations or, in extreme cases, withdrawal of authorisations to operate. In addition, the Group's businesses and earnings can be affected by the fiscal or other policies and other actions of various governmental and regulatory authorities in the

United Kingdom
, the European Union ('EU'), the
United States

,
South Africa

and elsewhere. All these are subject to change, particularly in the current market environment where recent developments in the global markets have led to an increase in the involvement of various governmental and regulatory authorities in the financial sector and in the operations of financial institutions. In particular, governmental and regulatory authorities in the

United Kingdom

, the

United States

and elsewhere are implementing measures to increase regulatory control in their respective banking sectors, including by imposing enhanced capital requirements or by imposing conditions on direct capital injections and funding. Any future regulatory changes may potentially restrict the Group's operations, mandate certain lending activity and impose other compliance costs. It is uncertain how the more rigorous regulatory climate will impact financial institutions, including the Group.

Areas where changes could have an impact include:

- the monetary, interest rate and other policies of central banks and regulatory authorities;
- general changes in government or regulatory policy that may significantly influence investor decisions in particular markets in which the Group operates;
- general changes in the regulatory requirements, for example, prudential rules relating to the capital adequacy framework and rules designed to promote financial stability and increase depositor protection;
- changes in competition and pricing environments;
- further developments in the financial reporting environment;
- differentiation amongst financial institutions by governments with respect to the extension of guarantees to customer deposits and the terms attaching to those guarantees; and
- implementation of, or costs related to, local customer or depositor compensation or reimbursement schemes.

Two specific matters that directly impact the Group are the Banking Act 2009 and the Financial Services Compensation Scheme:

Banking Act 2009

On 21st February 2009, the Banking Act 2009 came into force which provides a permanent regime to allow the FSA, the UK Treasury and the Bank of England (the 'Tripartite Authorities') to resolve failing banks in the UK

. The Banking Act aims to balance the need to protect depositors and prevent systemic failure with the potentially adverse consequences that using powers to deal with those events could have on private law rights, and, as a consequence, wider markets and investor confidence.

These powers, which apply regardless of any contractual restrictions, include (a) power to issue share transfer orders pursuant to which there may be transferred to a commercial purchaser or Bank of England entity, all or some of the securities issued by a bank. The share transfer order can extend to a wide range of 'securities' including shares and bonds issued by a UK Bank (including Barclays Bank PLC) or its holding company (Barclays PLC) and warrants for such and (b) the power to transfer all or some of the property, rights and liabilities of the UK bank to a purchaser or Bank of England entity. In certain circumstances encumbrances and trusts can be over-reached. Power also exists to over-ride any default provisions in transactions otherwise affected by these powers. Compensation may be payable in the context of both share transfer orders and property appropriation. In the case of share transfer orders any compensation will be paid to the person who held the security immediately before the transfer, who may not be the encumbrancer.

The Banking Act also vests power in the Bank of England to over-ride, vary or impose contractual obligations between a UK bank or its holding company and its former group undertakings (as defined in the Banking Act), for reasonable consideration, in order to enable any transferee or successor bank of the UK bank to operate effectively. There is also power for the Treasury to amend the law (save for a provision made by or under the Banking Act) by order for the purpose of enabling it to use the special resolution regime powers effectively, potentially with retrospective effect.

Financial Services Compensation Scheme

The Financial Services Compensation Scheme (the 'FSCS') was created under the Financial Services and Markets Act 2000 and is the

UK's statutory fund of last resort for customers of authorised financial services firms. The FSCS can pay compensation to customers if a firm is unable, or likely to be unable, to pay claims against it. The FSCS is funded by levies on authorised

UK firms such as Barclays Bank PLC. In the event that the FSCS raises funds from the authorised firms, raises those funds more frequently or significantly increases the levies to be paid by such firms, the associated costs to the Group may have a material impact on the Group's results of operations and financial condition.

Further details of specific matters that impact the Group are included in the 'Competition and regulatory matters' note to the financial statements on page 246.

Legal risk

The Group is subject to a comprehensive range of legal obligations in all countries in which it operates. As a result, the Group is exposed to many forms of legal risk, which may arise in a number of ways. Primarily:

- the Group's business may not be conducted in accordance with applicable laws around the world;
- contractual obligations may either not be enforceable as intended or may be enforced against the Group in an adverse way;
- the intellectual property of the Group (such as its trade names) may not be adequately protected; and
- the Group may be liable for damages to third parties harmed by the conduct of its business.

The Group faces risk where legal proceedings are brought against it. Regardless of whether such claims have merit, the outcome of legal proceedings is inherently uncertain and could result in financial loss.

Defending legal proceedings can be expensive and time-consuming and there is no guarantee that all costs incurred will be recovered even if the Group is successful. Although the Group has processes and controls to manage legal risks, failure to manage these risks could impact the Group adversely, both financially and by reputation.

Further details of the Group's legal proceedings are included in the 'Legal proceedings' note to the financial statements on page 245.

Insurance risk

Insurance risk is the risk that the Group will have to make higher than anticipated payments to settle claims arising from its long-term and short-term insurance businesses.

Further details of the Group's insurance assets and liabilities, including a sensitivity analysis of insurance contract liabilities, are included in the 'Insurance assets and liabilities' note to the financial statements on page 226.

Business risk

The Group devotes substantial management and planning resources to the development of strategic plans for organic growth and identification of possible acquisitions, supported by substantial expenditure to generate growth in customer business. If these strategic plans are not delivered as anticipated, the Group's earnings could grow more slowly or decline. In addition, potential sources of business risk include revenue volatility due

to factors such as macroeconomic conditions, inflexible cost structures, uncompetitive products or pricing and structural inefficiencies.

Competition

The global financial services markets in which the Group operates are highly competitive. Innovative competition for corporate, institutional and retail clients and customers comes both from incumbent players and a steady stream of new market entrants, as well as recent consolidation among banking institutions in the

United Kingdom

, the

United States

and throughout

Europe

. The landscape is expected to remain highly competitive in all areas, which could adversely affect the Group's profitability if the Group fails to retain and attract clients and customers.

Tax risk

The Group is subject to the tax laws in all countries in which it operates, including tax laws adopted at an EU level. A number of double taxation agreements entered between two countries also impact on the taxation

of the Group. Tax risk is the risk associated with changes in tax law or in the interpretation of tax law. It also includes the risk of changes in tax rates and the risk of failure to comply with procedures required by tax authorities. Failure to manage tax risks could lead to an additional tax charge. It could also lead to a financial penalty for failure to comply with required tax procedures or other aspects of tax law. If, as a result of a particular tax risk materialising, the tax costs associated with particular transactions are greater than anticipated, it could affect the profitability of those transactions.

The Group takes a responsible and transparent approach to the management and control of its tax affairs and related tax risk:

- tax risks are assessed as part of the Group's formal governance processes and are reviewed by the Executive Committee, Group Finance Director and the Board Risk Committee;
- the tax charge is also reviewed by the Board Audit Committee;
- the tax risks of proposed transactions or new areas of business are fully considered before proceeding;
- the Group takes appropriate advice from reputable professional firms;
- the Group employs high-quality tax professionals and provides ongoing technical training;
- the tax professionals understand and work closely with the different areas of the business;
- the Group uses effective, well-documented and controlled processes to ensure compliance with tax disclosure and filing obligations; and
- where disputes arise with tax authorities with regard to the interpretation and application of tax law, the Group is committed to addressing the matter promptly and resolving the matter with the tax authority in an open and constructive manner.

Note 43 Related party transactions and Directors' remuneration

(a) Related party transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operation decisions, or one other party controls both. The definition includes subsidiaries, associates, joint ventures and the Group's pension schemes, as well as other persons.

Subsidiaries

Transactions between Barclays PLC and subsidiaries also meet the definition of related party transactions. Where these are eliminated on consolidation, they are not disclosed in the Group financial statements. Transactions between Barclays PLC and its subsidiary, Barclays Bank PLC are fully disclosed directly in its balance sheet and income

statement. A list of the Group's principal subsidiaries is shown in Note 41.

Associates, joint ventures and other entities

The Group provides banking services to its associates, joint ventures, the Group pension funds (principally the UK Retirement Fund) and to entities under common directorships, providing loans, overdrafts, interest and non-interest bearing deposits and current accounts to these entities as well as other services. Group companies, principally within Barclays Global Investors, also provide investment management and custodian services to the Group pension schemes. The Group also provides banking services for unit trusts and investment funds managed by Group companies and are not individually material. All of these transactions are conducted on the same terms as third-party transactions.

Amounts included in the accounts, in aggregate, by category of related party entity are as follows:

For the year ended and as at 31st December 2008

	Associates	Joint ventures	Entities under common directorships	Pension funds unit trusts and investment funds	Total

No guarantees, pledges or commitments have been given or received in respect of these transactions in 2008, 2007 or 2006.

Derivatives transacted on behalf of the Pensions Funds Unit Trusts and Investment Funds amounted to £318m (2007: £22m, 2006: £1,209m).

In 2008 Barclays paid £12m (2007: £18m) of its charitable donations through the Charities Aid Foundation, a registered charitable organisation, in which a Director of the Company is a Trustee.

a. The amounts reported in prior periods have been restated to reflect new related parties.

Key Management Personnel

The Group's Key Management Personnel, and persons connected with them, are also considered to be related parties for disclosure purposes.

Key Management Personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of Barclays PLC (directly or indirectly) and comprise the Directors of Barclays PLC and the Officers of the Group, certain direct reports of the Group Chief Executive and the heads of major business units. In the ordinary course of business, the Bank makes loans to companies where a Director or other member of Key Management Personnel (or any connected person) is also a Director or other member of Key Management Personnel (or any connected person) of Barclays.

There were no material related party transactions with companies where a Director or other member of Key Management Personnel (or any connected person) is also a Director or other member of Key Management Personnel (or any connected person) of Barclays.

The Group provides banking services to Directors and other Key Management Personnel and persons connected to them. Transactions during the year and the balances outstanding at 31st December 2008 were as follows:

Directors, other
Key Management
Personnel and
connected
persons

2008 2007 2006

Edgar Filing: BARCLAYS PLC - Form 6-K

	£m	£m	£m
Loans outstanding at 1st January	7.4	7.8	7.4

Of the loans outstanding above, £1.6m (2007: £nil, 2006: £nil) relates to Directors and other Key Management Personnel (and persons connected to them) that left the Group during the year. Of the deposits outstanding above, £6.1m (2007: £2.8m, 2006: £0.1m) related to Directors and other Key Management Personnel (and persons connected to them) that left the Group during the year.

All loans are provided on normal commercial terms to Directors and other Key Management Personnel (and persons connected to them), with the exception of £692 of loans which are provided on an interest free basis.

The loans of £692 provided on an interest free basis relate to the granting of loans to one non-Director member of Barclays key management to purchase commuter rail tickets. The commuter rail ticket loans are still provided to all Barclays staff members upon request on the same terms.

All loans to Directors and other key management personnel (a) were made in the ordinary course of business, (b) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other persons and (c) did not involve more than a normal risk of collectability or present other unfavourable features.

Remuneration of Directors and other Key Management Personnel

Quasi-loans and credit card accounts	7	n/a	-

(c)

US

disclosures

For US disclosure purposes, the aggregate emoluments of all Directors and Officers of Barclays PLC who held office during the year (2008: 24 persons, 2007: 22 persons, 2006: 24 persons) for the year ended 31st December 2008 amounted to £26.8m (2007: £64.6m, 2006: £72.1m). In addition, the aggregate amount set aside for the year ended 31st December 2008, to provide pension benefits for the Directors and Officers amounted to £0.9m (2007: £1.1m, 2006: £0.8m). The aggregate emoluments of all Directors and Officers of Barclays Bank PLC who held office during the year (2008: 25 persons, 2007: 23 persons, 2006: 25 persons) for the year ended 31st December 2008 amounted to £26.9m, (2007: £64.9m and 2006: £72.2m). In addition, the aggregate amount set aside by the Bank and its subsidiaries for the year ended 31st December 2008, to provide pension benefits for the Directors and Officers amounted to £0.9m (2007: £1.1m, 2006: £0.8m).

The Directors confirm to the best of their knowledge that:

- (a) The financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of Barclays PLC and the undertakings included in the consolidation taken as a whole; and
- (b) The management report includes a fair review of the development and performance of the business and the position of Barclays PLC and the undertakings included in the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

Signed on behalf of the Board

Marcus Agius
Group Chairman
5th March 2009
