UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTER ENDED SEPTEMBER 30, 2003

Commission File Number 1-10741

PROVENA FOODS INC.

(Exact name of registrant as specified in its charter)

California
(State or other jurisdiction of incorporation or organization)

95-2782215
(I.R.S. employer identification number)

5010 Eucalyptus Avenue, Chino, California
(Address of principal executive offices)

91710
(ZIP Code)

(909) 627-1082

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Edgar Filing: PROVENA FOODS INC - Form 10-Q

Yes No

Indicate by check mark whether the registrant is an accelerated filer (as defined in rule 12b-2 of the Exchange Act).

Yes No

The number of shares of Provena Foods Inc. Common Stock outstanding at September 30, 2003 was:

Common Stock 3,198,904

Notes to Condensed Financial Statements

September 30, 2003 and 2002 (Unaudited)

(1) Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with the requirements of Form 10-Q and, therefore, do not include all information and footnotes which would be presented if such financial statements were prepared in accordance with accounting principles generally accepted in the United States for annual financial statement purposes. These statements should be read in conjunction with the audited financial statements presented in the Company's Form 10-K for the year ended December 31, 2002. In the opinion of management, the accompanying financial statements reflect all adjustments which are necessary for a fair presentation of the results for the interim periods presented. Such adjustments consisted only of normal recurring items. The results of operations for the three months and nine months ended September 30, 2003 are not necessarily indicative of results to be expected for the full year.

(2) Inventories

Inventories at September 30, 2003 and December 31, 2002 consist of:

	<u>2003</u>	<u>2002</u>
Raw materials	\$ 1,533,276	1,128,576
Work-in-process	1,037,936	705,993
Finished goods	1,513,565	1,109,554
	<u>\$ 4,084,777</u>	<u>2,944,123</u>

(3) Segment Data

Business segment sales and operating income (loss) for the three months and nine months ended September 30, 2003 and 2002 and assets at September 30, 2003 and December 31, 2002 are as follows:

Three Months Ended September 30, Nine Months Ended September 30,

Table of Contents(4) Net Earnings (Loss) and Earnings (Loss) per Share

In accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, the Company has not reported compensation expense for its grants of stock options. Had the Company reported the fair value at the date of grant as compensation expense under Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, the Company's net earnings (loss) would have been the pro forma amounts set forth below. Basic earnings (loss) per share are net earnings (loss) divided by the weighted average number of common shares outstanding during the period, and diluted earnings (loss) per share are net earnings (loss) divided by the sum of the weighted average plus an incremental number of shares attributable to outstanding options. Options for 107,111 shares were not used for the diluted earnings (loss) calculations below because their effect was anti-dilutive.

(5) Debt

The Company has short-term and long-term debt agreements consisting of a line of credit, various equipment loans, real estate loans and industrial development revenue bonds (IDRB). The IDRB debt is secured by a letter of credit that expires in October 2008.

Under the line of credit, equipment and real estate loan agreements, the Company is required to meet certain financial and non-financial covenants. The Company was in compliance with the covenants for the quarter ended September 30, 2003, and believes it is probable that it will be in compliance for the next 12 months.

Edgar Filing: PROVENA FOODS INC - Form 10-Q

In June 2003, the Company issued a \$375,000 short-term note payable bearing interest at 9% per annum and due in December 2003 for the purchase of certain equipment for the pasta division. In September 2003, the Company borrowed an additional \$500,000 from the bank for the purchase of the equipment under a short-term note payable bearing interest at 4.75% per annum and due November 1, 2003. The Company anticipates refinancing these notes payable on a long term basis and has a commitment for an \$866,750 five-year term loan secured by the equipment bearing interest at 3.65% over a commercial paper rate. Accordingly, the Company has classified these notes payable as long-term in the accompanying September 30, 2003 balance sheet.

Forward-Looking Statements

The following discussion may contain forward-looking statements that express or imply expectations of future performance, developments or occurrences. Actual events may differ materially from these expectations due to uncertainties relating to the economy, competition, demand, commodities, credit markets, energy supplies and other factors.

Swiss American Sausage Co. Meat Division (Swiss)

Sales by the processed meat division increased 6% in dollars and 4% in pounds in the 1st nine months of 2003 and increased 21% in dollars and 9% in pounds in the 3rd quarter of 2003, compared to the same periods of 2002. Sales in dollars increased proportionately more than sales in pounds because of higher selling prices reflecting higher meat costs. Swiss operated at a \$529,829 profit for the 1st nine months of 2003 compared to a \$1,187,268 profit for the 1st nine months of 2002, and at a \$154,998 profit for the 3rd quarter of 2003 compared to a \$646,299 profit for the 3rd quarter of 2002. Reduced profits were caused primarily by higher workers compensation insurance costs, higher freight costs from greater shipping volume and distances, and meat cost increases outpacing increases in selling prices.

Royal-Angelus Macaroni Company Pasta Division (Royal)

The pasta division's sales decreased about 1% in dollars but increased 3% in pounds in the 1st nine months of 2003 and increased 13% in dollars and 16% in pounds in the 3rd quarter of 2003, compared to the same periods of 2002. The increases in sales in pounds were not matched by proportionate increases in sales in dollars because of aggressive pricing at Royal directed toward meeting competition and maintaining volume. Royal operated at a \$432,935 loss for the 1st nine months of 2003 compared to a \$434,633 loss for the 1st nine months of 2002 and a \$163,256 loss for the 3rd quarter of 2003 compared to a \$181,148 loss for the 3rd quarter of 2002. Although there was some improvement in sales in pounds and operating results, Royal continues to be adversely affected by competition resulting from increased industry capacity. Some of the

Edgar Filing: PROVENA FOODS INC - Form 10-Q

causes of the continuing losses were aggressive pricing, the increased cost of an additional salesman and increased workers compensation insurance cost.

-6-

Table of Contents

The Company

Company sales were up 5% in the 1st nine months of 2003 compared to the 1st nine months of 2002 and were up 20% in the 3rd quarter of 2003 compared to the 3rd quarter of 2002. The Company realized net earnings of \$61,005 for the 1st nine months of 2003 compared to net earnings of \$377,140 a year ago and a net loss of \$13,560 for the 3rd quarter of 2003 compared to net earnings of \$228,666 a year ago. Swiss accounted for the increased sales and decreased earnings. The Company's gross margins for the 1st nine months and 3rd quarter of 2003 were 9.5% and 7.8%, respectively, compared to 11.6% and 13.9% a year ago. Both divisions contributed to the decreased Company margins, Royal from aggressive pricing and Swiss from meat cost increases. Royal's aggressive pricing reduced Royal's margins, but resulted in increased sales in pounds and smaller losses. Increased volume is regarded as essential to Royal's return to profitability. At Swiss, meat costs and selling prices increased steadily during the year, but resistance to selling price increases caused selling price increases to lag behind meat cost increases, reducing margins and profits. Meat costs are not expected to increase indefinitely, and level or falling meat costs should increase the profitability at Swiss.

General and administrative expense was down about \$137,000 for the 1st nine months of 2003 and about \$125,000 in the 3rd quarter of 2003, compared to the same periods in 2002. The decreases reflect reductions in health insurance costs, bad debt expense and outside services partially offset by increases in dues and bank charges. Distribution expense was up about \$297,000 for the 1st nine months and \$113,000 for the 3rd quarter because of increased salesman payroll, increased advertising and freight at Swiss and increased workers compensation insurance costs. Net interest expense decreased about \$74,000 for the 1st nine months and \$40,000 for the 3rd quarter of 2003 because of lower interest rates. Other income increased for the 1st nine months because of insurance proceeds from a vendor for a scrapped product batch, but decreased for the 3rd quarter because of reduced by-product salvage sales at Swiss.

Meat plant employees are represented by United Food and Commercial Workers Union, Local 588, AFL-CIO, CLC under a collective bargaining agreement dated April 1, 2002 which expires April 2, 2006. Pasta plant employees are represented by United Food and Commercial Workers Union, Local 1428, AFL-CIO, CLC under a collective bargaining agreement dated October 2, 2002 which expires September 30, 2006. There has been no significant labor unrest at the division's plants and the Company believes it has a satisfactory relationship with its employees.

Liquidity and Capital Resources

The Company has generally satisfied its normal working capital requirements with funds derived from operations and borrowings under its bank line of credit, which is part of a credit facility with Comerica Bank-California. The line of credit, as modified effective August 5, 2003, is payable on demand, is subject to annual review, and bears interest at a variable annual rate of 0.75% over the bank's Base Rate. The maximum amount of the line of credit is the lesser of \$4,000,000, or 40% of eligible inventories plus 80% of eligible receivables, with a limit of \$1,500,000 for inventories, determined monthly. The inventories percent and limit change to 30% and \$1,000,000 at November 2, 2003. At September 30, 2003 the Base Rate was 4.00% per annum, the maximum amount of the line of credit was \$4,000,000 and the Company had \$3,792,344 of borrowings under the bank line of credit.

Table of Contents

As part of the credit facility, Comerica Bank-California issued a \$4,060,000 letter of credit to support \$4,000,000 of industrial development bonds issued in 1998 for costs relating to the construction of the Company's meat plant. The bonds bear a variable rate of interest payable monthly and set weekly at a market rate - 1.15% per annum at September 30, 2003. The Company pays a 1.5% per annum fee on the amount of the letter of credit and fees of the bond trustee estimated at 0.5% of the bond principal per year. Monthly payments of bond principal into a sinking fund began May 1, 2000, totaled \$76,700 the first year and increase about 5.6% each year until May 1, 2022, when \$813,500 of remaining principal is payable in 18 equal monthly payments.

Also as part of the credit facility, the bank made four loans to the Company for the meat plant, a \$1,280,000 real estate loan and three equipment loans totalling \$2,614,788. The real estate loan was made in December 1999, bears a fixed rate of interest of 9.1% per annum and is payable in equal monthly payments of principal and interest over its 25 year term. Each equipment loan bears a variable rate of interest and is payable in equal monthly payments of principal plus interest over its term, with issue date, initial amount, term and rate as follows: July 1999, \$1,000,000, 7 year, bank's Base Rate; September 1999, \$1,200,000, 7 year, bank's Base Rate plus 0.25%; and December 1999, \$414,788, 5 year, bank's Base Rate plus 0.75%.

All parts of the credit facility are secured by substantially all of the Company's assets, including accounts receivable, inventory, equipment and fixtures, the Company's two pasta buildings and the meat plant, none of which is otherwise encumbered. The credit facility prohibits mergers, acquisitions, purchase or disposal of assets, borrowing, granting security interests, and changes of management and requires a tangible net worth greater than \$9,500,000, increasing by 50% of net income per quarter beginning with the quarter ending December 31, 2003; working capital not less than \$0 increasing by \$200,000 at December 31, 2003 and \$50,000 each quarter thereafter; a debt to tangible net worth ratio of not more than 2; and cash flow coverage not less than 1.3. The Company was in compliance with the financial covenants at September 30, 2003 and expects to be in compliance at December 31, 2003.

Cash decreased \$212,476 in the 1st nine months of 2003 compared to a \$139,851 decrease in the 1st nine months of 2002. Operating activities used \$378,968 of cash primarily from increases in accounts receivable, inventories and prepaid expenses, partially offset by net earnings, depreciation and amortization, and increases in accounts payable and accrued liabilities. Most of the increase in accounts receivable occurred in the third quarter from the increase in sales and from customers taking slightly longer to pay, without a material change in the aging of accounts receivable. Inventories decreased in the third quarter but are up from December 31, 2002 because of increased sales, because both meat and flour costs are up, and because Swiss has increased the inventories it carries in anticipation of customers' needs. Prepaid expenses are up primarily because of a workers compensation insurance deposit. Investing activities used \$1,211,166 of cash for additions to property and equipment, primarily a second long goods line for Royal, and financing activities provided \$1,377,658 of cash primarily from increased borrowings under the bank line and the notes payable incurred in the purchase of the long goods line.

Table of Contents

The Company purchased a second used long goods line for the pasta division in the 2nd quarter of 2003. The line was disassembled and shipped to Royal's plant with delivery completed in early July 2003. The estimated total cost of the line is approximately \$1,000,000 and the line is expected to be operational by the end of 2003. The Company has financed the acquisition of the line with a \$375,000 short term note to the seller and a \$500,000 short term loan from Comerica and has a commitment for a long-term equipment loan for a major part of the cost that is expected to close in the 4th quarter of 2003. The second line is more modern and is expected to produce high quality goods faster and more efficiently than Royal's existing line. The addition of a second line will enable Royal to produce two long goods products at the same time and reduce production interruptions for product changes.

Commitments and Contingencies

The following table shows the long-term debt principal and capital lease obligation payments due in the specified periods. The lease payments are estimates because they are proportional to pounds of a product sold.

(amounts in thousands)	Totals	Three Months Ending	Year Ending December 31,					Thereafter
		December 31,	2004	2005	2006	2007		
		2003						
Long-Term Debt	\$ 6,879	325	679	610	515	312	4,438	
Capital Lease Obligation	449	11	49	48	48	48	245	
Totals	\$ 7,328	336	728	658	563	360	4,683	

The Company expects that its operations and bank line of credit will provide adequate working capital to satisfy the normal needs of its operations for the foreseeable future, including cash flow to service its debt.

The Company believes that it has a good relationship with Comerica Bank-California, as evidenced by the bank's previous over-advances under the line of credit, waivers in prior years of defaults under the financial covenants and modifications of the financial covenants. That relationship is crucial to the Company, because the line of credit is payable on demand, the Company could not make an immediate repayment of the line of credit, and a failure to repay the line after demand would render the entire credit facility in default. As a result, the bank has the power to require that the credit facility be restructured or refinanced.

Critical Accounting Policies

The Securities and Exchange Commission defines a critical accounting policy as one which is both important to the portrayal of the registrant's financial condition and results of operations and requires management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Critical for the Company are determining the allowance for doubtful accounts and valuing inventory.

Edgar Filing: PROVENA FOODS INC - Form 10-Q

Allowance for Doubtful Accounts. The Company sells to its customers on credit and grants credit to those who are deemed credit worthy based on the Company's analysis of their credit history. The Company's standard payment terms are net 30 days. The Company reviews its accounts receivable balances and the collectibility of those balances on a periodic basis. Based on the Company's analysis of the length of time that the balances have been outstanding, the pattern of customer payments, its understanding of the general business conditions of its

-9-

Table of Contents

customers and its communications with its customers, the Company estimates the recoverability of those balances. When recoverability is uncertain and the unrecoverable amounts can be reasonably estimated, the Company records bad debt expense and increases the allowance for accounts receivable by the amounts estimated to be unrecoverable. If the data the Company uses to assist in the calculation of the allowance for doubtful accounts does not reflect its future ability to collect outstanding receivables, additional provisions for doubtful accounts may be needed and the Company's future results of operations could be materially affected. At September 30, 2003, the Company had a \$9,000 allowance for doubtful accounts based on the factors stated above. Additionally, based on the Company's analysis, there is no indication that a material amount of receivables are uncollectible.

Inventory. Inventory is valued at the lower of cost or market, where market is generally the fair value less the cost to sell. The Company reviews the carrying value of its inventory on a periodic basis by determining the market value for the items in inventory and comparing the market value to the carrying value. In instances where the market value is lower than the carrying value, the Company writes down the inventory accordingly. If circumstances change (e.g. unexpected shifts in market demand) there could be a material impact on the net realizable value of the inventory.

Estimates involving critical accounting policies are based on historical data and anticipated future events, and actual results may differ from the Company's estimates.

New Accounting Standards

The following standards and interpretations are adopted by the Company as they become effective and, in the opinion of management, have not had and will not have a material effect on the Company's financial position or results of operations:

In June 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 146, Accounting for Exit or Disposal Activities effective December 31, 2002. SFAS No. 146 addresses the recognition, measurement and reporting of costs associated with exit and disposal activities, including restructuring activities. SFAS No. 146 also addresses recognition of certain costs related to terminating a contract that is not a capital lease, costs to consolidate facilities or relocate employees and termination benefits provided to employees that are involuntarily terminated under the terms of a one-time benefit arrangement that is not an ongoing benefit arrangement or an individual deferred compensation contract.

In November 2002, the FASB issued Interpretation (FIN) No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness to Others effective December 15, 2002. FIN No. 45 is an interpretation of SFAS Nos. 5, 57 and 107 and a rescission of FIN No. 34 and elaborates on the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under guarantees issued. FIN No. 45 also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken.

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure effective December 15, 2002. SFAS No. 148 amends SFAS No. 123, Accounting for Stock-Based Compensation, to provide alternative methods of transition for a voluntary change to the fair value method of accounting for stock-based employee compensation and to require prominent disclosures in both annual and interim financial statements. The required disclosures are included in the notes to the accompanying condensed financial statements.

Edgar Filing: PROVENA FOODS INC - Form 10-Q

In January 2003, the FASB issued FIN No. 46 Consolidation of Variable Interest Entities effective immediately. FIN No. 46 addresses the consolidation by business enterprises of variable interest entities as defined therein.

Table of Contents

In April 2003, FASB issued SFAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities effective June 30, 2003. SFAS No. 149 (i) clarifies under what circumstances a contract with an initial net investment meets the characteristics of a derivative discussed in paragraph 6(b) of SFAS No. 133, (ii) Clarifies when a derivative contains a financing component, (iii) amends the definition of an underlying to conform it to language used in FIN No. 45, and (iv) amends certain other existing pronouncements to result in more consistent reporting of contracts either as derivatives of hybrid instruments.

In May 2003, FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity effective May 31, 2003. SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both debt and equity and requires an issuer to classify certain instruments as liabilities in its balance sheet.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The industrial development bonds, the bank line of credit, and the equipment loans bear variable rates of interest (see **Liquidity and Capital Resources** under **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**) which tend to follow market interest rates and change the Company's interest expense in the same direction as changes in interest rates. A 1% per annum change in the rate borne by the industrial development bonds would change annual interest expense by almost \$40,000. Assuming an average bank line of credit balance of \$3,700,000 plus \$1,800,000 average principal balance of equipment loans, a 1% per annum change in the rate borne by those borrowings would change annual interest expense by \$55,000.

ITEM 4. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures within 90 days prior to the filing of this report and have concluded that: there are no significant deficiencies in the design or operation of internal controls which could adversely affect the Company's ability to record, process, summarize and report financial data; there are no material weaknesses in internal controls; and, there is no fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal controls. There have not been any changes in internal controls or in other factors that could significantly affect internal controls subsequent to the most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS No significant litigation.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS None.
