AMERICAN ACCESS TECHNOLOGIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2004 Unaudited

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of American Access Technologies, Inc. and Subsidiaries (the Company) at June 30, 2004 have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-QSB and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of financial position as of June 30, 2004 and results of operations for six months and three months ended June 30, 2004 and 2003. All adjustments are of a normal recurring nature. The results of operations for interim periods are not necessarily indicative of the results to be expected for a full year. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. The statements should be read in conjunction with the consolidated financial statements and footnotes thereto for the year ended December 31, 2003 included in the Company's Form 10-KSB.

2. Net Loss per Common Share

The Company follows Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share which requires the presentation of both basic and diluted earnings (loss) per share.

Basic net loss per common share has been computed based upon the weighted average number of shares of common stock outstanding during the periods. Diluted loss per share has not been presented, as it would be anti-dilutive. The computation of net loss per share is reflected in the following schedule:

	Six Months Ended June 30, 2004	Six Months Ended June 30, 2003	Three Months Ended June 30, 2004	Three Months Ended June 30, 2003
Computation of Net Loss per Common Share				
Net Loss	\$ (493,805)	\$ (669,123)	\$ (200,290)	\$ (561,894)
Total Weighted Average Number of Common Shares and Equivalents	6,457,009	5,879,532	6,739,367	5,915,451
Net Loss per Common Share	\$ (0.08)	\$ (0.11)	\$ (0.03)	\$ (0.09)

3. Issuance of Common Stock

The Company issued 18,000 shares of stock in lieu of cash to its outside legal counsel in May, 2004 for services rendered in the first quarter of 2004.

Table of Contents

In April 2004, the Company settled a legal claim with two former directors of the Company. The Company agreed to issue 11,806 and 5,903 shares of stock to each director, respectively. The value of these shares, \$25,500, collectively, was accrued for during the first quarter, 2004.

In June 2004, the Company issued 21,500 shares of stock to a third party in settlement of a legal matter that amounted to a charge of \$30,000 in the second quarter 2004.

For the three and six months ended June 30, 2004, these transactions resulted in a charge of \$48,000 and \$74,000, respectively, to Selling, General and Administration expense.

4. Stock-Based Compensation

Stock

For the six months ended June 30, 2004, the charge of \$18,275 represents the remainder of the amortization of 45,000 shares valued at \$38,700 issued as a retirement incentive in June, 2003.

Stock Options and Warrants

On June 3, 2004, the Company issued 20,000 options as an incentive to a new employee.

Fair Value Disclosures

Had the compensation cost for stock options issued to employees/officers/directors, been determined based on the fair value at the grant date consistent with SFAS No. 123, the Company's net loss and loss per share would have been as follows:

	Six Months Ended	Six Months Ended	Three Months Ended	Three Months Ended
	June 30, 2004	June 30, 2003	June 30, 2004	June 30, 2003

Table of Contents

The Company used the Black-Scholes option-pricing model to determine the fair value of grants made in the six months and three months ended June 30, 2004 and 2003, respectively. The following assumptions were applied in determining the pro forma compensation cost:

	Six Months Ended June 30, 2004	Six Months Ended June 30, 2003	Three Months Ended June 30, 2004	Three Months Ended June 30, 2003
RiskFree Interest Rate	4.99%	4.99%	4.99%	4.99%

Expected Option Life	1 year	.75-1.25 years	1.25 years	.75-1.25 years
Expected Stock Price Volatility	73-83%	105-131%	75%	105-131%

5. Subsequent Events

On July 23, 2004, stockholders approved the 2004 Employee Stock Incentive Plan and the 2004 Director Stock Option Plan by an overwhelming majority as noted in Part 2 Item 5 of this document.

The Board of Directors believes that these Plans will prove to be an important long-term incentive that is critical to enable the Company to attract, retain, motivate, reward and remunerate qualified personnel and will encourage participants to exert maximum efforts towards the Company's success, focus on the long-term growth of stockholder value as well as promote a closer identity of interest between participants and stockholders of the Company. By thus encouraging participants and promoting their continued association with the Company, the Plans are expected to benefit the Company and its stockholders. Collectively, these Plans authorize the issuance of up to 2,500,000 shares of the Company's common stock.

The award of annual stock options to directors is designed as compensation for service as a director for the period from their election at an annual meeting of stockholders until the next annual meeting of stockholders. Due to the lack of sufficient shares authorized for issuance under the Company's 2000 Director Stock Option Plan, the directors elected at the 2003 annual meeting of stockholders received only one-half of the options to which they were entitled under the 2000 Director Stock Option Plan. The 2004 Director Stock Option Plan provides that the incumbent directors elected at the 2003 annual meeting will receive the balance of the options they would have received for service as a director from the 2003 annual meeting to the 2004 annual meeting at the same time and the same option price they will receive the options to be granted after the 2004 annual meeting of stockholders, if they are elected and the Directors Plan is approved at the Annual Meeting.

On July 26, 2004, the Board of Directors authorized a grant of 564,000 five-year employee stock options at an exercise price of \$1.53 from the 2004 Employee Stock Incentive Plan and 430,000 five-year Board of Director stock options at an exercise price of \$1.53 from the 2004 Director Stock Option Plan.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The following discussion should be read in conjunction with the financial statements and notes thereto included elsewhere in this Form 10-QSB and our Form 10-KSB for the year ended December 31, 2003. Historical results and percentage relationships set forth in the statement of operations, including trends that might appear, are not necessarily indicative of future operations.

Forward-Looking Statements

Except for historical and factual information, this document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements that address activities, events or developments that we expect, believe or anticipate will or may occur in the future, such as predictions of future financial performance. All forward-looking statements are based on assumptions made by us based on our experience and perception of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. These statements are subject to numerous risks and uncertainties, many of which are beyond our control, including our ability to maintain key products sales or effectively react to other risks described from time to time in our SEC filings. No forward-looking statement can be guaranteed, and actual results may differ materially from those projected. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

BUSINESS

American Access Technologies, Inc. develops and manufactures patented zone cabling and wireless enclosures that mount in ceilings, walls, raised floors, and in custom furniture, to facilitate the routing of telecommunications network cabling, fiber optics and wireless solutions to the workspace environment. We believe that zone cabling is a superior approach for growth, open office configurations and wherever frequent moves, additions and changes of telecommunications services are a factor because zone cabling of the workspace reduces both labor and material costs for initial network installation and facilitates moves, adds, changes and upgrades for the network installations of today and tomorrow.

Our wholly-owned subsidiary, Omega Metals, Inc., is a precision sheet metal fabrication and assembly operation which manufactures our zone cabling and wireless products and also serves a diverse client base of over 300, including engineering, technology and electronics companies, mostly in the Southeast. Manufacturing services include precision stamping, bending, assembling, painting, powder coating and silk screening. The Company operates from a 67,500 sq. ft. manufacturing facility situated on 8 1/2 acres of land that it owns.

Table of Contents

On May 8, 2003 we entered into an agreement with Chatsworth Products, Inc., Westlake Village, CA establishing a five-year strategic alliance for the manufacture and sales of Zone Cabling and Wireless products developed by American Access. These products, which are currently manufactured by American Access, are co-branded with the names of both American Access and Chatsworth Products, Inc. (CPI) and will be exclusively sold and distributed by CPI. Under the agreement, American Access will continue to manufacture the products but CPI will have manufacturing rights under certain circumstances. American Access, currently, manufactures all of such products. In connection with the alliance, CPI purchased 215,517 shares of American Access common stock.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have adopted various accounting policies that govern the application of accounting principles generally accepted in the United States of America in the preparation of our financial statements. Our significant accounting policies are described in the footnotes to the consolidated financial statements at December 31, 2003. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on our knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results. Certain accounting policies involve significant judgments and assumptions by us which have a material impact on our financial condition and results. Management believes the following critical accounting policies reflect its most significant estimates and assumptions used in the presentation of our financial statements. We do not have off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as special purpose entities (SPEs).

Revenue Recognition

The Company recognizes revenue from product sales at the time the product is shipped to the customer.

Allowance for Doubtful Accounts

The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. The estimate is based on management's assessment of the collectibility of specific customer accounts and includes consideration for credit worthiness and financial condition of those specific customers. We also will review historical experience with the customer, the general economic environment and the aging of our receivables. We record an allowance to reduce the specific receivables to the amount

Table of Contents

that we reasonably believe to be collectible. Those estimates subject to potential change in the near term include allowances for doubtful accounts. Based on our historical collection experience, we currently feel our allowance for doubtful accounts (\$72,000) is adequate.

Stock-Based Compensation

Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS No. 123), encourages, but does not require companies to record stock-based compensation plans using a fair value based method for grants to employees and directors. The Company has chosen to continue to account for stock-based compensation, granted to employees and directors, using the intrinsic value based method prescribed in Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*. Accordingly, compensation cost for stock options granted to employees and directors is measured as the excess, if any, of the quoted market price of the Company's common stock at the date of the grant over the amount an employee must pay to acquire the stock. Grants of stock-based compensation to non-employees are accounted for following SFAS No.123 utilizing the fair value method. SFAS No.123 requires that fair value of the investment granted be measured, which the Company does using an option pricing model.

THE SIX MONTHS AND THREE MONTHS ENDED JUNE 30, 2004 COMPARED WITH THE SIX MONTHS AND THREE MONTHS ENDED JUNE 30, 2003

OVERALL RESULTS OF OPERATIONS

For the six months ended June 30, 2004, we generated a net loss of \$493,805 or \$0.08 per share, which was a \$175,318 decrease (or 26.2%) in net loss from the net loss of \$669,123 or \$0.11 per share over the comparative six-month period in the prior year.

For the three months ended June 30, 2004, we generated a net loss of \$200,290 or \$0.03 per share, which was a \$361,604 decrease (or 64.4%) in net loss from the net loss of \$561,894 or \$0.09 per share over the comparative three-month period in the prior year.

Table of Contents

The following were the most notable factors in the three and six month period ending June 30, 2004: overall sales increased, margins improved, and compensation decreased. These positive factors were somewhat offset by higher legal expenses as explained below. Most of the higher legal expenses related to the settlement of two non-material legal matters in the second quarter of 2004. It was management's decision that it was in the best interest of the Company to settle these matters rather than to continue further time consuming and expensive litigation.

	Six Months Ended June 30,			Three Months Ended June 30,		
	2004	2003	% Change	2004	2003	%
Loss before other income	\$ (523,821)	\$ (719,756)	-27.3%	\$ (224,058)	\$ (584,304)	-61.7%
Net loss	\$ (493,805)	\$ (669,123)	-26.2%	\$ (200,290)	\$ (561,894)	-64.4%

REVENUES

The overall increase in revenues for the six months and three months ended June 30, 2004 is the result of an increased marketing effort of the zone and wireless products spurred by CPI as well as increased sales of formed metal.

	Six Months Ended June 30,			Three Months Ended June 30,		
	2004	2003	% Change	2004	2003	% Change
Zone cabling	\$ 1,163,483	\$ 990,008	17.5%	\$ 691,991	\$ 432,578	60.0%
Formed metal	1,868,001	1,699,737	9.9%	1,062,523	755,769	40.6%
Total	\$ 3,031,484	\$ 2,689,745	12.7%	\$ 1,754,514	\$ 1,188,347	47.6%

Zone cabling sales increased 17.5% (\$173,000) over the six months ended June 30, 2003 and 60.0% (\$259,000) over the three months ended June 30, 2003. Additionally, sales increased 46.8% (\$220,000) over the prior quarter.

Formed metal sales increased of 9.9% (\$168,000) over the six months ended June 30, 2003 and 40.6% (\$307,000) over the three months ended June 30, 2003. Additionally, sales increased 31.9% (\$257,000) over the prior quarter.

We recognize that our zone cabling and wireless products have a longer sales cycle that depends on our products being incorporated into larger projects. Therefore, quarterly sales of these products are not consistent. We anticipate that subsequent quarters will continue to reflect positive results from the relationships that our AATK sales efforts have nurtured with Original Equipment Manufacturers (OEM) and the relationships that the CPI sales force has developed for these products.

COSTS AND EXPENSES

Direct costs represent costs incurred by the Company to have its products manufactured and assembled. Although the cost of sales has increased, when viewed in conjunction with the increase in sales, it is noteworthy that the Company, through its ongoing demand for efficiencies, is continuing to improve the gross margin.

Table of Contents

	Six Months Ended June 30,			Three Months Ended June 30,		
	2004	2003	% Change	2004	2003	%
Cost of sales	\$ 2,318,259	\$ 2,129,663	8.9%	\$ 1,285,449	\$ 1,007,237	27.6%

Gross Margin %	23.5%	20.8%		26.7%	15.2%	

To elaborate further on direct costs:

the cost of materials and supplies as a percentage of sales is slowly declining due to more aggressive purchasing procedures;

labor and related costs as a percentage of sales remains between 33% and 36%;

contracted services for silk screening and laser burning are being utilized more frequently;

the cost of utilities as a percentage of sales is increasing steadily as reflected in the general economy's increasing fuel prices;

and site expenses have generally decreased and are expected to continue at the 7% range.

Total	\$ 1,237,045	\$ 1,279,838	-3.4%	\$ 693,123	\$ 765,414	-9.5%

Primary factors causing the increase in Selling, General and Administrative expenses are increased professional fees related to higher than average legal expenses and settlement amounts in the second quarter 2004 due to claims against the Company and increased sales commission expense due to increased sales. Most of the higher legal expenses related to the settlement of two non-material legal matters in the second quarter of 2004. It was management's decision that it was in the best interest of the Company to settle these matters than to continue further time consuming and expensive litigation.

Legal Fees	2003 Quarterly Average	\$ 11,000
	2004 Quarterly Average	\$ 96,500
	1 st Quarter 2004	\$ 54,000
	2 nd Quarter 2004	\$ 139,000
Sales Commissions	2003 Quarterly Average	\$ 37,000
	2004 Quarterly Average	\$ 45,000
	1 st Quarter 2004	\$ 37,000
	2 nd Quarter 2004	\$ 53,000

Compensation and related benefits expense decreased 29.2% (\$220,000) over the six months ended June 30, 2003 and 43.4% (\$211,000) over the three months ended June 30, 2003. Additionally, these expenses increased 5.9% (\$15,000) over the prior quarter.

A key factor causing the decrease in compensation and related benefits expense is the expensing of officer loans as bonuses that occurred during second quarter, 2003. However, Sales Salaries has increased due the addition of a full-time sale representative.

Stock-based compensation of \$18,000 for the reporting period through June 30, 2004 represents the final period of amortization on a 2003 options grant.

LIQUIDITY AND CAPITAL RESOURCES

The Company's operating activities utilized cash of \$391,499 and \$21,837 during the six months ended June 30, 2004 and June 30, 2003, respectively. Net cash consumed by operating activities consisted of net losses, and increases in Accounts Receivable, inventories, prepaid expenses and a loss on a disposal of equipment. The cash decrease is offset by a gain in investments and increases in depreciation, amortization, stock issued for services in conjunction with decreases in accounts payable.

Net cash used by investing activities for the six months ended June 30, 2004 was \$106,981 as compared with \$98,844 for the six months ended June 30, 2003. The Company increased its investments in equipment by \$106,520, and patent costs by \$461.

For the six months ended June 30, 2004 the net cash provided by financing activities was \$592,700 as compared with a zero net change for the period ended June 30, 2003. The Company received \$413,700 from the issuance of stock and \$179,000 from the exercise of options for the six months ended June 30, 2004.

The Company received approximately \$10,000 from an exercise of options occurring on July 7, 2004.

We believe that we can acquire additional working capital, if required, through the sale of additional securities, including the potential exercise of outstanding options and warrants, a private placement, or borrowings, including bank borrowing and private equity lines. Since our 67,500 sq. ft. plant is unencumbered, we also have the potential to mortgage it to raise capital.

RISK FACTORS THAT COULD AFFECT FUTURE RESULTS

The Company and our business continues to be subject to a number of risk factors, including but not limited to the fluctuations in demand for our product line due to economic conditions, a history of operating losses, the need for additional funds, competition, and technological obsolescence. Before deciding to invest in our company or to maintain or increase your investment, you should carefully consider the risks contained in our Annual Report on Form 10-KSB, our other Quarterly Reports on Form 10-QSB; and in our other filings with the Securities and Exchange Commission, including any subsequent reports filed on Forms 10-KSB, 10-QSB and 8-K. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business and results of operations. If any of these risks actually occur, our business, financial condition or results of operations could be seriously harmed. In that event, the market price for our common stock could decline and you may lose all or part of your investment.

Because of the following factors, as well as other variables affecting our operating results, past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results or trends in future periods.

Telecommunications networking products are subject to rapid technological change and to compete, we must offer products that achieve market acceptance.

Economic weakness has affected adversely, and could continue to affect adversely, our revenue, gross margin and expenses.

We depend significantly on a distributor of our zone cabling and wireless products.

Our failure to adequately protect our proprietary rights could adversely affect our ability to compete effectively.

Decreased effectiveness of equity compensation could adversely affect our ability to attract and retain employees, and proposed changes in accounting for equity compensation could adversely affect earnings.

The exercise of our outstanding stock options could adversely affect our outstanding common stock.

ITEM 3. CONTROLS AND PROCEDURES

(a) Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-14(c) promulgated under the Securities Exchange Act of 1934, as amended (the *Exchange Act*), as of June 30, 2004. Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

(b) There have been no significant changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation referenced in paragraph (a) above.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Management settled two non-material legal matters in the second quarter of 2004. It was management's decision that it was in the best interest of the Company to settle these matters rather than to continue further time - consuming and expensive litigation.

We are involved in legal proceedings of various types in the ordinary course of business. While any such litigation to which we are a party contains an element of uncertainty, we presently believe that the outcome of each such proceeding or claim which is pending or known to be threatened, or all of them combined, will not have a material adverse effect on our consolidated financial position or results of operations.
