PROXY STATEMENT

THE MANITOWOC COMPANY, INC.

SOLICITATION AND VOTING

This Proxy Statement is furnished by the Board of Directors (the Board of Directors) of The Manitowoc Company, Inc., a Wisconsin corporation (referred to in this Proxy Statement as we or the Company), to the shareholders of the Company in connection with a solicitation of proxies for use at the Annual Meeting of Shareholders (the Annual Meeting) to be held at 9:00 a.m., Central Daylight Time, on Tuesday, May 3, 2005, at the Holiday Inn located at 4601 Calumet Avenue, Manitowoc, Wisconsin, and at any and all adjournments thereof. This Proxy Statement and the accompanying materials are being mailed to shareholders on or about April 12, 2005.

On February 23, 2005, the record date for determining shareholders entitled to vote at the Annual Meeting, there were outstanding 29,976,185 shares of Company Common Stock, \$0.01 par value per share (the Common Stock). Each share outstanding on the record date is entitled to one vote on all matters presented at the meeting.

Any shareholder entitled to vote may vote in person or by duly executed proxy. A proxy may be revoked at any time before it is exercised by filing a written notice of revocation with the Secretary of the Company, by delivering a duly executed proxy bearing a later date, or by voting in person at the Annual Meeting. Attendance at the Annual Meeting will not in itself constitute revocation of a proxy. The shares represented by all properly executed unrevoked proxies received in time for the Annual Meeting will be voted as specified on the proxies. Shares held for the accounts of participants in the Company's Dividend Reinvestment Plan and RSVP Profit Sharing Plan (for which the proxies will serve as voting instructions for the shares) will be voted in accordance with the instructions of participants or otherwise in accordance with the terms of those Plans. If no direction is given on a properly executed unrevoked proxy, it will be voted **FOR** each of the three director nominees.

The cost of soliciting proxies will be borne by the Company. Solicitation will be made principally by mail, but also may be made by telephone, facsimile or other means of communication by certain directors, officers, employees, and agents of the Company. The directors, officers, and employees will receive no compensation for these proxy solicitation efforts in addition to their regular compensation, but may be reimbursed for reasonable out-of-pocket expenses in connection with the solicitation. The Company has retained the services of Georgeson Shareholder Communications, Inc. to assist in the solicitation of proxies for an anticipated cost to the Company of \$7,500 plus reasonable out-of-pocket expenses. The Company will request persons holding shares in their names for the benefit of others, or in the names of their nominees, to send proxy material to and obtain proxies from their principals and will reimburse such persons for their expenses in so doing.

To be effective, a matter presented for a vote of shareholders at the Annual Meeting must be acted upon by a quorum (i.e., a majority of the votes entitled to be cast represented at the Annual Meeting in person or by proxy). Abstentions, shares for which authority is withheld to vote for director nominees, and broker non-votes (i.e., proxies from brokers or nominees indicating that such persons have not received instructions from

Edgar Filing: MANITOWOC CO INC - Form DEF 14A

the beneficial owners or other persons entitled to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote) will be considered present for the purpose of establishing a quorum. Once a share is represented at the Annual Meeting, it is deemed present for quorum purposes throughout the meeting or any adjourned meeting, unless a new record date is or must be set for the adjourned meeting.

Directors are elected by a plurality of the votes cast by the holders of shares entitled to vote in the election at a meeting at which a quorum is present. A plurality means that the individuals who receive the largest number of votes are elected as directors up to the maximum number of directors to be chosen at the election (four at the Annual Meeting). Votes attempted to be cast against a director nominee are not given legal effect and are not counted as votes cast in an election of directors. Any shares not voted, whether by withheld authority, broker non-vote or otherwise, will have no effect on the election of directors except to the extent that the failure to vote for an individual results in another nominee receiving a larger number of votes.

1. PROPOSALS REQUIRING YOUR VOTE

ELECTION OF DIRECTORS

Three directors are to be elected at the Annual Meeting. The names of the nominees to the Board are set forth below along with additional information regarding such persons. If elected, Messrs. Anderson, Nosbusch and Throop will hold office for a three-year term expiring in the year 2008, or until their respective successors are duly elected and qualified. Messrs. Anderson, Nosbusch and Throop are presently serving as directors of the Company.

The election will be determined by a plurality of the votes duly cast. Shares represented by proxies in the accompanying form will be voted for the election of the nominees listed below, unless a contrary direction is indicated. The three nominees have indicated that they are able and willing to serve as directors. However, if any of the nominees should be unable to serve, an eventuality which management does not contemplate, it is intended that the proxies will vote for the election of such other person or persons as management may recommend.

The Board of Directors Recommends Election of the Nominees Whose Names Follow

2. EQUITY COMPENSATION PLANS

The following table summarizes, as of December 31, 2004, the number of shares of the Company's common stock that may be issued under the Company's equity compensation plans pursuant to which grants of options, warrants and rights to acquire shares may be made from time to time.

(1) Consists of the Company's 1995 Stock Plan and Deferred Compensation Plan. For a description of the key provisions of those plans, see the discussion contained herein in Item 9 - Report of the Compensation Committee on Executive Compensation, under the headings "1995 Stock Plan" and "Deferred Compensation Plan" and the discussion contained herein in Item 4 - Compensation of Directors.

- (2) Column (a) does not include 136,517 common stock units issued under the Deferred Compensation Plan as of December 31, 2004. Each common stock unit represents the right to receive one share of Company common stock following the participant's death, disability, termination of service as a director or employee, a date specified by the participant, or the earlier of any such events to occur. Since the common stock units are acquired by participants through a deferral of fees or compensation, there is no exercise price associated with the common stock units. As a result, the weighted-average exercise price in column (b) is calculated solely on the basis of outstanding options issued under the 1995 Stock Plan, the 1999 Non-Employee Director Stock Option Plan, the 2003 Incentive Stock and Awards Plan, and the 2004 Non-Employee Director Stock and Awards Plan, and does not take into account the common stock units issued under the Deferred Compensation Plan. The operation of the Deferred Compensation Plan requires the plan trustees to make available as and when needed a sufficient number of shares of Company common stock to meet the needs of the plan. Accordingly, since there is no specific number of shares reserved for issuance under the Deferred Compensation Plan, column (c) includes only those shares remaining available for issuance under the 1995 Stock Plan, the 1999 Non-Employee Director Stock Option Plan, the 2003 Incentive Stock and Awards Plan and the 2004 Non-Employee Director Stock and Awards Plan.
- (3) Does not include the 60,875 shares underlying the outstanding stock options issued under the Grove Investors, Inc. 2001 Stock Incentive Plan, which were assumed by the Company in connection with the acquisition of Grove Investors, Inc. Those options have a weighted average exercise price of \$18.30. No additional options may be granted under the Grove Investors, Inc. 2001 Stock Incentive Plan.
- (4) Consists of (a) the Company's 2003 Incentive Stock and Awards Plan, (b) the 2004 Non-Employee Director Stock and Awards Plan, and (c) the 1999 Non-Employee Director Stock Option Plan. For a description of the key provisions of the plans, see the discussion contained in this proxy under Item 9 Report of the Compensation Committee, and Item 4 Compensation of Directors.

4. COMPENSATION OF DIRECTORS

Directors of the Company are entitled to reimbursement of their reasonable out-of-pocket expenses in connection with their travel to and attendance at meetings of the Board of Directors and committees of the Board. In addition, for fiscal year 2004 each non-employee director was paid an annual retainer of \$30,000, each non-employee director serving as a committee chairman was paid an additional \$7,500 annual retainer, and each non-employee director was paid an additional fee of \$1,500 for each meeting of the Board of Directors and each committee meeting attended. Directors who are employees of the Company do not receive separate remuneration in connection with their service on the Board or Board committees. In 2004, the Board approved stock ownership guidelines for non-employee directors, which requires a non-employee director to acquire an amount of the Company's Common Stock equal to five times such director's total annual retainer. Non-employee directors have until the end of fiscal year 2009 to meet the guideline.

Under the Company's Deferred Compensation Plan, each non-employee director may elect to defer all or any part of the director's annual retainer and meeting fees for future payment upon death, disability, termination of service as a director, a date specified by the participant, or the earlier of any such date to occur. A director may use the Deferred Compensation Plan as a means of achieving the director's stock ownership requirement, by electing to defer a portion of his/her compensation under the Company's Deferred Compensation Plan, and by making an appropriate election under the Deferred Compensation Plan.

Amounts deferred by participating non-employee directors are accounted for in one or more bookkeeping accounts maintained pursuant to the Deferred Compensation Plan. The value of each such account is based on the performance of a specific investment. The investments associated with bookkeeping accounts under the Deferred Compensation Plan are shares of the Common Stock of the Company for the Company Stock Fund and selected mutual funds for the Money Market Fund, Bond Fund, Balanced Fund, S & P 500 Index Fund, Equity Fund, Small Cap Fund, Mid Cap Growth Stock Fund, and International Stock Fund. Participants have no rights as shareholders pertaining to Company Stock units credited to their accounts under the Company Stock Fund. Effective March 31, 2002, transfers between the Company Stock Fund and any other Fund are not permitted. Transfers between the other Funds may be made in accordance with plan rules. Distributions from the Company Stock Fund are required to be made in Company Stock, except fractional shares may be paid in cash. Upon a change in control (as defined in the Deferred Compensation Plan), all restrictions on the distribution of deferred compensation will be automatically terminated and the participant would promptly receive the full balance of his/her account.

At the Annual Meeting in 1999, the shareholders approved The Manitowoc Company, Inc. 1999 Non-Employee Director Stock Option Plan (the 1999 Plan). Pursuant to the terms of the 1999 Plan (as amended by the Board of Directors in 1999, 2001 and 2002), each non-employee director is automatically granted an option to purchase 3,000 shares of Common Stock on the date he/she becomes a director of the Company, and each continuing non-employee director is thereafter automatically granted an option to purchase an additional 5,000 shares of Common Stock annually on the date of the first meeting of the Board of Directors occurring each calendar year. At the Annual Meeting in May 2004, the shareholders approved The Manitowoc Company, Inc. 2004 Non-employee Director Stock and Awards Plan (the 2004 Director Stock Plan). The 2004 Director Stock Plan provides for stock-based awards (Awards) in the form of non-qualified stock options, restricted stock, and restricted stock units. The 2004 Director Stock Plan replaces the 1999 Plan. As such, the 1999 Plan has been frozen and no further options will be made under the 1999 Plan. However, options already granted under the 1999 Plan will continue to be governed by the terms of that plan.

The purpose of the 2004 Director Stock Plan is three-fold: (i) to promote the long-term growth and financial success of the Company; (ii) to induce, attract and retain highly experienced and qualified individuals to serve on the Company's Board of Directors; and (iii) to assist the Company in promoting a greater identity of interest between the Company's non-employee directors and its shareholders. The 2004 Director Stock Plan is designed to achieve these goals by providing non-employee directors of the Company with incentives to increase shareholder value by offering the opportunity to acquire shares of the Company's common stock, receive incentives based on the value of such common stock, or receive other incentives on the potentially favorable terms that the 2004 Director Stock Plan provides. Only non-employee directors of the Company are eligible to receive Awards under the 2004 Director Stock Plan. The Compensation Committee of the Company's Board of Directors may, in its discretion, grant Awards from time to time in such amounts as it determines and to such non-employee directors as it selects.

Pursuant to the terms of the 1999 Plan, each non-employee director who was serving at the time of the Board of Director's first meeting in 2004 was granted options to purchase 5,000 shares of Common Stock. Since Mr. Krueger was not a director at that time and since the 1999 Plan was replaced by the 2004 Plan effective May 4, 2004, on June 30, 2004, Mr. Krueger was granted options to purchase 3,000 share of Common stock under the 2004 Director Stock Plan. The terms of the Award to Mr. Krueger provide that (a) the option price is the fair market value of shares of Common Stock as of the close of business on June 30, 2004, (b) the options vest in 25% increments each year commencing on June 30, 2005, and (c) the options expire six years from the grant date.

Long-Term Incentive Plans Awards in Last Fiscal Year

As described in more detail in the Report of the Compensation Committee on Executive Compensation below, the EVA Plan required that bonuses payable to executive officers in excess of their target bonuses be banked and remain at risk. Under the EVA Plan, one third of a positive bonus bank balance is paid out at the end of each year, and a negative bonus in any year is subtracted from the outstanding bonus bank balance. As also described in the Report of the Compensation Committee on Executive Compensation, effective for the fiscal year commencing January 1, 2005, the EVA Plan has been replaced by the Short-Term Incentive Plan. Unlike the previous EVA Plan, the Short-Term Incentive Plan does not contain a bonus bank feature. Earned awards for a given year will be fully paid out after the end of the year, subject to a three-year transition period for positive and negative bank balances outstanding after the payment of the fiscal 2004 incentive awards under the EVA Plan. The amounts of the banked contingent incentive compensation awarded for fiscal 2004 to the executive officers named in the Summary Compensation Table are as follows:

The Corporate Governance Guidelines provide that the chairperson of the Corporate Governance Committee will serve as the presiding director for the executive session. If for any reason the chairperson of the Corporate Governance Committee is unable to attend or perform the presiding role at a particular executive session, he/she will designate the chairperson of either the Compensation Committee or the Audit Committee to assume the role of the presiding director for the particular executive session.

The Company has standing Corporate Governance, Audit, and Compensation Committees of the Board of Directors.

7. CORPORATE GOVERNANCE COMMITTEE REPORT

The purpose of the Corporate Governance Committee is to assist the Board in its corporate governance responsibilities, including to identify individuals qualified to become Board members, to recommend to the Board for the Board's selection director nominees, and to recommend to the Board the corporate governance principles and guidelines. The Corporate Governance Committee has adopted the following policies and

procedures regarding consideration of candidates for the Board.

Consideration of Candidates for the Board of Directors Submitted by Shareholders. The Corporate Governance Committee will only review recommendations for director nominees from any shareholder beneficially owning or group of shareholders beneficially owning in the aggregate, at least 5% of the issued and outstanding common stock of the Company for a least one year as of the date that the recommendation was made (a Qualified

Shareholder). Any Qualified Shareholder must submit its recommendation not later than the 120th calendar day before the date of the Company's proxy statement released to the shareholders in connection with the previous year's annual meeting, for the recommendation to be considered by the Corporate Governance Committee. Any recommendation must be submitted in accordance with the policy in the Corporate Governance Guidelines captioned "Shareholder Communications to the Board of Directors". In considering any timely submitted recommendation from a Qualified Shareholder, the Corporate Governance Committee shall have sole discretion as to whether to nominate the individual recommended by the Qualified Shareholder, except that in no event will a candidate recommended by Qualified Shareholder who is not independent as defined in the Company's Corporate Governance Guidelines and who does not meet the minimum expectations for a director set forth in the Company's Corporate Governance Guidelines, be recommended for nomination by the Corporate Governance Committee.

The Corporate Governance Committee did not receive prior to the deadline noted in the foregoing policy, any recommendations for director nominees from any Qualified Shareholder (as defined in the foregoing policy).

Consideration of Candidates for Board that are Incumbent Directors. The process of evaluating directors for re-election will include a peer review of each director wishing to stand for re-election at the expiration of his/her current term. This will be done by circulation of a questionnaire to all other directors to be completed in essay form or by verbal response to an independent third party. The independent third party professional consultant will review all responses and summarize the conclusions on an anonymous basis for the Corporate Governance Committee. This consultant will then review the results on an individual and confidential basis with each of the candidates. The Corporate Governance Committee may also interview each candidate individually. The Corporate Governance Committee will make a recommendation to the Board for the Board's final decision on each candidate seeking re-election. The Corporate Governance Committee shall have sole authority to retain and terminate any search firm to be used to identify director candidates and any independent third party professional consultant used in the evaluation process for directors wishing to stand for re-election. Such authority shall include the sole authority to approve the search firm's and third party professional's fees and other retention terms.

Consideration of Candidates for Board that are Non-incumbent Directors. In the event of a vacancy in the Board of Directors that the Corporate Governance Committee anticipates will not be filled by an incumbent director, the Corporate Governance Committee will manage the process of searching for a suitable director. The Corporate Governance Committee will be free to use its judgement in structuring and carrying out the search process based on the Corporate Governance Committee's and the Board's perception as to what qualifications would best suit the Board's needs for each particular vacancy. The process may include the consideration of candidates recommended by officers, Board members, shareholders and/or a third party professional search firm retained by the Corporate Governance Committee. The Corporate Governance Committee shall have sole authority to retain and terminate any third party to be used to identify director candidates and/or evaluate any director candidates. Any candidate should meet the expectations for directors set forth in the Company's Corporate Governance Guidelines. Strong preference should be given to candidates who are independent as that term is defined in the Corporate Governance Guidelines and the New York Stock Exchange rules and to candidates who are sitting or former CEO's or CFO's of companies whose securities are listed on a national securities exchange registered pursuant to Securities Exchange Act of 1934. The Corporate Governance Committee is not required to consider candidates recommended by a shareholder except in accordance the Policy captioned "Consideration of Candidates for the Board of Directors Submitted by Shareholders", set forth in the Corporate Governance Committee Charter. If the Corporate Governance Committee determines to consider a candidate recommended by a shareholder, the Committee will be free to use its discretion and judgement as to what deference will be given in considering any such candidate.

Shareholder Communications. The Corporate Governance Committee has adopted a process for shareholders to send communications to the Board. That process is included in the Company's Corporate Governance Guidelines which are attached as Appendix A and which may be viewed on the Company's website: www.manitowoc.com.

9. REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee provides assistance to the Board of Directors in fulfilling its responsibility to achieve the Company's purpose of maximizing the long-term total return to shareholders by ensuring that officers, directors and employees are compensated in accordance with the Company's philosophy, objectives, and policies. The Compensation Committee reviews and approves compensation and benefits policies, strategies, and pay levels necessary to support corporate objectives and provides an annual report on executive compensation for inclusion in the corporation's proxy statement, in accordance with applicable rules and regulations.

Executive compensation consists of the following components:

Edgar Filing: MANITOWOC CO INC - Form DEF 14A

Base salary compensation;

Short-term incentive compensation (the Economic Value Added Plan, which was replaced by the Short Term Incentive Plan effective January 1, 2005);

Long-term incentive compensation (the 1995 Stock Plan and 2003 Incentive Stock and Awards Plan);

Deferred Compensation Plan;

Supplemental Executive Retirement Plan; and

RSVP Profit Sharing Plan

Overall Compensation and Base Salary Philosophy

It is the Compensation Committee's objective to set overall compensation for executive officers, including base salary compensation, to be competitive with comparable positions at other durable goods manufacturing companies of similar size. The Compensation Committee references survey data of comparable companies obtained from a major compensation and benefits consulting firm and sets proposed overall compensation and base salaries at a level about equal to the midpoint of the survey data. Overall compensation and base salaries of individual executive officers can vary from this salary benchmark based on a subjective analysis of such factors as the scope of

the executive officer's experience, current performance and future potential, along with the Company's financial performance.

During 2004, the Compensation Committee approved stock ownership guidelines for executive officers. The guidelines require that by the end of 2009 (or within 5 years after the date that the executive officer commenced employment, whichever is later) each executive officer acquire and hold an amount of stock equal to, in the case of the chief executive officer 5 times and in the case of other executive officers 3 times, such executive officer's annual base salary. If an executive does not meet his/her ownership requirement measured as of the end of any given year (commencing in 2009 or the fifth anniversary of the executive officer's start date), the executive will be required to acquire for his or her account during the subsequent year, shares of the Company's stock having a dollar value equal to, at the time of acquisition, 50% of any earned annual bonus awards payable during such subsequent year, determined after tax, until compliance is achieved.

The Economic Value Added (EVA) Plan

The EVA Plan is an incentive compensation program, first effective during the 1994 fiscal year, which provides for annual bonuses for all executive officers of the Company along with certain other officers and key employees of the Company and its subsidiaries, if their performance adds value for the Company's shareholders. The Compensation Committee's objective under the EVA Plan is to provide an incentive share portion of compensation which will result in higher total compensation opportunities than the median total compensation of peer companies in years in which the Company performs well. Similarly, the incentive share portion of compensation payable to EVA Plan participants is expected to result in lower total compensation opportunities than the median total compensation of comparable companies in years in which the Company performs poorly.

Bonuses payable under the program are determined based on improvements in Economic Value Added (EVA), which is a technique developed by Stern Stewart & Co., a financial consulting firm based in New York, that measures the economic profit generated by a business. EVA is equal to the difference between (i) net operating profit after tax, defined as operating earnings adjusted to eliminate the impact of, among other things, certain accounting charges such as amortization of goodwill and bad debt reserve expenses, and (ii) a capital charge, defined as capital employed times the weighted average cost of capital.

Participants are divided into eleven classifications which have target bonus levels ranging from 2% to 75% of base salary. It is intended that the assignment of a particular classification correspond with a participant's relative effect on the Company's performance.

Under the EVA Plan as amended, bonuses are awarded to each Plan participant based on the improvement in EVA for the participant's business unit. To measure the improvement (or deterioration) in EVA, an EVA target is set yearly for each business unit. The Target EVA for an upcoming year is based on the prior fiscal year's actual EVA plus the expected improvement in EVA for the current fiscal year. If the actual EVA for a given year is in excess of the target EVA for the year, the bonus calculation will produce an amount in excess of the participant's target bonus. If the annual improvement in EVA is less than the targeted improvement, the bonus calculation will produce an amount less than the individual's target bonus. Bonuses payable under the EVA Plan are not subject to any minimum or maximum. In fiscal 2004, the performance of the Company and its business units resulted in Plan compensation ranging from 5.4% to a 242.1% of their targets.

In order to encourage a long-term commitment by executive officers and other key employees to the Company, the EVA Plan provides that if the bonus calculation for a given year produces an amount in excess of the participant's target bonus, the excess amount will be placed in a bonus bank for the participant. A bonus bank account is also considered at risk in the sense that if EVA performance for a given year results in a bonus calculation for a given year that is negative, the participant's bonus bank balance is reduced by the negative amount. It is possible that a participant may have a negative bank balance. A participant is not required to repay negative bonus bank balances.

Edgar Filing: MANITOWOC CO INC - Form DEF 14A

If the participant began the year with a bank balance that was zero or positive, the participant's bonus and bonus bank payable for that year would consist of the participant's bonus earned up to the target bonus, plus one third of the participant's positive bank balance (after adding to the bank balance the amount of any positive bonus earned in excess of the target bonus or subtracting from the bank balance the amount negative bonus earned for the year, as the case may be) for the year.

The EVA Plan was amended in July 2002 revising the method for determining the bonus pay-out and the bank balance pay-out if the participant began the year with a bank balance that was negative. If the participant began the year with a negative bank balance, but the EVA performance for the year resulted in a positive bonus calculation for the year, the participant's bonus and bank balance payable for that year would consist of one hundred percent of the bonus earned up to the target bonus, plus one half of any bonus earned above 100% of the target, plus one third of any positive bonus bank balance (after adding to the bank balance the amount of any positive bonus earned in excess of the target bonus for the year or subtracting from the bank balance the amount negative bonus earned for the year, as the case may be) for the year.

In addition, as amended in July 2002, once a participant has been in the EVA plan for three consecutive years, at the end of each year the participant will be paid the lesser of the ending bank balance or the bank balance at the end of the third prior year. In the event that a participant voluntarily terminates employment with the Company, the bonus bank balance is subject to forfeiture.

The Short-Term Incentive Plan

The Short-Term Incentive Plan is an incentive compensation program, which effective for the fiscal year commencing January 1, 2005, replaces the EVA Plan. The Short-Term Incentive Plan provides for annual bonuses for all executive officers of the Company along with certain other officers and key employees of the Company and its subsidiaries, if their performance adds value for the Company's shareholders. The Compensation Committee's objective under the Short-Term Incentive Plan is to provide an incentive share portion of compensation which will result in higher total compensation opportunities than the median total compensation of peer companies in years in which the Company performs well. Similarly, the incentive share portion of compensation payable to participants is expected to result in lower total compensation opportunities than the median total compensation of comparable companies in years in which the Company performs poorly. However, the Short-Term Incentive Plan eliminates some of the volatility that existed under the prior EVA Plan.

Bonuses payable under the program are determined based on improvements in Economic Value Added (EVA), which is a technique developed by Stern Stewart & Co., a financial consulting firm based in New York, that measures the economic profit generated by a business. EVA is equal to the difference between (i) net operating profit after tax, defined as operating earnings adjusted to eliminate the impact of, among other things, certain accounting charges such as amortization of good-will, bad debt reserve expenses, and capitalized research and development, and (ii) a capital charge, defined as capital employed times the weighted average cost of capital.

Participants are divided into eleven classifications which have target bonus levels ranging from 2% to 75% of base salary. It is intended that the assignment of a particular classification correspond with a participant's relative effect on the Company's performance.

Under the Short-Term Incentive Plan, bonuses are awarded to each Plan participant based on the improvement in EVA for the participant's business unit. To measure the improvement (or deterioration) in EVA, an EVA target is set yearly for each business unit. The Target EVA for an upcoming year is based on the prior fiscal year's actual EVA plus the expected improvement in EVA for the current fiscal year. The expected improvement factors are evaluated and recalibrated no less than every three years. If the actual EVA for a given year is in excess of the target EVA for the year, the bonus calculation will produce an amount in excess of the participant's target bonus. If the annual improvement in EVA is less than the targeted improvement, the bonus calculation will produce an amount less than the individual's target bonus. Bonuses payable under the Short-Term Incentive Plan can range from 20% to 250% of the target award opportunity. If the annual improvement is less than 20% of the targeted improvement, no bonus will be paid for that year. If the annual improvement is more than 250% for a given year bonus payable for the year may not be based on more than 250% of the target award opportunity. Unlike the previous EVA Plan, the Short-Term Incentive Compensation Plan does not contain a bonus bank feature. Earned awards for a given year will be fully paid out after the end of the year, subject to a three-year transition period for positive and negative bank balances outstanding after the payment of the fiscal 2004 incentive awards under the EVA Plan.

The 1995 Stock Plan

The Manitowoc Company, Inc. 1995 Stock Plan, provides that incentive stock options, non-qualified stock options, restricted stock, and limited stock appreciation rights may be granted to key employees of the Company. In fiscal 2004, stock options to purchase a total of 101,400 shares were granted to certain key employees selected by the Committee. The options vest in 25% increments annually beginning two years after the date of grant and are fully exercisable five years after such date. If any awards granted under the 1995 Stock Plan are surrendered prior to exercise, or lapsing of restrictions, the shares underlying those awards become available for grant under the 2003 Stock Plan (see below) and will not be available under the 1995 Stock Plan.

The 2003 Incentive Stock and Awards Plan

The Manitowoc Company, Inc. 2003 Incentive Stock and Awards Plan (the 2003 Stock Plan) is designed to attract and retain executives, key employees, consultants and advisors of outstanding training, experience and ability; increase shareholder value; provide motivation by means of performance-related incentives to achieve performance goals; and enable participants to share in the growth and financial success of the Company. The 2003 Stock Plan provides for both short-term and long-term incentive awards and provides that incentive stock options, non-qualified stock options, limited stock appreciation rights, restricted stock, or performance share awards (collectively referred to as Stock Plan Awards) may be granted to such officers, key employees, consultants or advisors of the Company or any of its affiliates as the Compensation Committee selects. The maximum number of shares available for Stock Plan Awards is 3,064,364, subject to adjustment for stock splits, stock dividends, and certain other transactions or events affecting the Company Common Stock. As to awards that are restricted stock, performance units or performance shares that are paid in shares or the value of which is based on the fair market value of shares, the Company may not issue or make payment as to more than 1,000,000 shares in the aggregate.

In fiscal 2004, stock options to purchase a total of 67,600 shares were granted to certain key employees selected by the committee.

The 2003 Stock Plan authorizes the Committee to establish rules and regulations as it may deem appropriate for the proper administration of the 2003 Stock Plan, to make determinations under and interpretations of the 2003 Stock Plan, and to take other steps in connection with the 2003 Stock Plan and awards under the 2003 Stock Plan as it may deem necessary or advisable. Subject to the terms of the 2003 Stock Plan, the Committee may waive any restrictions or conditions applicable to any Stock Plan Award or the exercise of an award, and the Committee may modify, amend, or cancel any of the other terms and conditions applicable to an award by mutual agreement between the Committee and the participant or any other person with an interest in the award, so long as any amendment or modification does not increase the number of shares issuable under the 2003 Stock Plan. The Board may also exercise any authority granted to the Committee except to the extent that the grant or exercise of authority by the Board would cause any qualified performance-based award to cease to qualify for exemption under Internal Revenue Code section 162(m). The Committee has sole discretion to alter selected performance goals under the 2003 Stock Plan, subject to shareholder approval, to the extent required to qualify an award for the performance-based exemption provided by Code section 162(m) and, if the Committee determines advisable, to grant an award which does not qualify for that exemption. The Board may, from time to time, amend, modify or terminate the 2003 Stock Plan or any outstanding award under the 2003 Stock Plan as necessary or desirable, subject to certain limitations.

Deferred Compensation Plan

The Deferred Compensation Plan is intended to attract and retain well-qualified persons for service as non-employee directors of the Company or as key employees and to promote identity of interest between the Company's non-employee directors and key employees and its shareholders by encouraging investment in the common stock of the Company (Company Stock). Eligibility is limited to non-employee directors and key employees of the Company. Compensation deferral is permitted until death, disability, termination of service as a director or employee, a date

specified by the participant, or the earlier of any such date to occur.

Deferred amounts are accounted for in one or more bookkeeping accounts maintained pursuant to the Deferred Compensation Plan. The value of each such account is based on the performance of a specific investment. The investments associated with bookkeeping accounts under the Deferred Compensation Plan include Company Stock in the Company Stock Fund and selected mutual funds, which are also used in the Company 401(k) Retirement

Plan for the Money Market Fund, Bond Fund, Balanced Fund, S & P 500 Index Fund, Equity Fund, Small Cap Fund, Mid Cap Growth Stock Fund, and International Stock Fund. Participants have no rights as shareholders pertaining to Company Stock units credited to their accounts under the Company Stock Fund. Effective March 31, 2002, transfers between the Company Stock Fund and any other Fund are not permitted. Transfers between the other Funds may only be made in accordance with plan rules. Distributions from the Company Stock Fund are required to be made in Company Stock, except fractional shares may be paid in cash.

Although not a requirement of the Deferred Compensation Plan, a director may elect to defer in whole percentages all or any part of their cash compensation. Cash compensation, for purposes of a non-employee director, means retainer fees paid for service as a member of the Board of Directors and for service on any Board committee and meeting attendance fees.

A key employee participant may elect to defer, in whole percentages, up to 40% of regular pay and up to 100% of incentive bonuses. Credits to deferred compensation accounts for key employees (but not non-employee directors) will also include a contribution equal to the amount of deferred compensation of the key employee for the plan year (subject to a maximum of 25% of eligible compensation) multiplied by the rate of fixed and variable profit sharing contributions that the participant has received from the Company for the year under the 401(k) Retirement Plan plus one percent. Key employee participants are not required to direct any minimum amount of deferred compensation into the Company Stock Fund.

The Board of Directors may at any time terminate or amend the Deferred Compensation Plan, except that no termination or amendment may reduce any account balance accrued on behalf of a participant based on deferrals already made or divest any participant of rights to which such person would have been entitled if the Deferred Compensation Plan had been terminated immediately prior to the effective date of such amendment. No amendment may become effective until shareholder approval is obtained if the amendment materially increases the benefits accruing to participants under the Deferred Compensation Plan, materially increases the aggregate number of shares of Common Stock that may be issued under the Deferred Compensation Plan, or materially modifies the eligibility requirements for Deferred Compensation Plan participation. There is no time limit on the duration of the Deferred Compensation Plan. Upon a change in control (as defined in the Deferred Compensation Plan), all restrictions on the distribution of deferred compensation will be automatically terminated and the participant would promptly receive the full balance of his/her account.

Supplemental Executive Retirement Plan

Under Manitowoc's Supplemental Retirement Plan, eligible executives are entitled to receive retirement benefits equal to 55% of their five year final average pay at normal retirement (age 65). Benefits under the plan are computed by averaging a participant's final five years of base salary (including elective deferrals) and bonus awards payable for each year (bonus plus LTIP pay outs for the year). Benefits are computed using a straight-life annuity and are not reduced for social security or other offsets.

RSVP Profit Sharing Plan

The purpose of the RSVP Profit Sharing Plan is to provide employees and the Company with the opportunity to build retirement savings. The plan has three basic components:

1. The 401(k) Savings Feature allows employees to set aside a portion of their eligible compensation on a pretax basis for retirement. Employee contributions are limited to the IRS maximum contribution allowed. Beginning in 2004 employees under the age of 50 were allowed a maximum contribution of \$13,000 and employees over the age of 50 were allowed a maximum contribution of

Edgar Filing: MANITOWOC CO INC - Form DEF 14A

\$16,000. Eligible compensation includes wages, bonus, overtime, etc. The IRS limit on eligible compensation used for plan contributions for 2004 was \$205,000.

2. The Company Matching Feature provides for a tiered match of up to 6% of pay. The plan matches 100% of the first 3% of pay that is contributed and then 50% on the next 3% of pay that is contributed. The matching contribution formula qualifies the plan for safe harbor treatment. Safe harbor treatment means that the plan automatically meets regulations designed to prevent it from favoring highly compensated

employees. The match is no longer restricted to the Manitowoc Company Stock Fund effective January 1, 2001.

3. The Retirement Plan Feature provides an annual company contribution of at least 3% of eligible compensation, contributed as a money purchase pension account. The plan also provides a variable profit sharing contribution dependent on EVA performance as a whole company. The employee does not need to participate in the 401(k) portion of the plan to be eligible to receive a contribution under the Retirement Plan Feature.

There are thirteen different investment vehicles in which employees may choose to invest their retirement plan account. They include the Capital Preservation Fund, the Fixed Income Fund, the Conservative Growth Balanced Fund, the Moderate Growth Balanced Fund, the Aggressive Growth Balanced Fund, the Large-Cap Value Fund, the Large-Cap Core Fund, the Mid-Cap Value Fund, the Mid-Cap Core Fund, the Mid-Cap Growth Fund, the Small Cap Value Fund, the International Fund, and The Manitowoc Company Stock Fund.

The plan is designed for long-term retirement savings. Therefore, distribution from the plan is allowed only upon the participant's retirement, disability, death or termination of employment. At that time, the participant may take a cash distribution, roll the account to another qualified plan or an IRA, or purchase an annuity. In the case of the participant's death, payment is made to the beneficiary. The plan does have a hardship withdrawal feature and a loan feature.

Chief Executive Officer Compensation

The factors used to determine the annual base salary and incentive compensation for Mr. Terry D. Growcock, the Company's Chairman and Chief Executive Officer (CEO), are the same as those described above for all executive officers. Mr. Growcock's base salary during fiscal year 2004 was \$735,000, which the Compensation Committee determined to be appropriate based upon the midpoint salary compensation of other CEOs of similarly sized durable goods manufacturing companies (as determined by the above-mentioned salary survey data) as well as a subjective evaluation of Mr. Growcock's individual performance and the Company's overall performance.

Mr. Growcock's EVA target bonus level for fiscal 2004 was 75% of base salary. As a result of the Company achieving positive EVA plan results in 2004, Mr. Growcock was paid incentive compensation of \$749,149 and \$395,798 was added to his bonus bank. During fiscal 2004 Mr. Growcock was not granted awards under the 1995 Stock Plan or the 2003 Incentive Stock and Awards Plan.

Tax Deductibility Of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), limits the Company's federal income tax deduction to \$1,000,000 per year for compensation to its chief executive officer and any of its four other highest paid executive officers. Qualified performance-based compensation is not, however, subject to the deduction limit, provided certain requirements of Section 162(m) are satisfied. Certain awards under the 1995 Stock Plan and the 2003 Incentive Stock and Awards Plan are intended to qualify for the performance-based compensation exception under Section 162(m). It is the Committee's intent to preserve the deductibility of executive compensation to the extent reasonably practicable and consistent with the best interests of the Company and its shareholders.

11. CONTINGENT EMPLOYMENT AGREEMENTS

The Company has entered into Contingent Employment Agreements (the Contingent Employment Agreements) with Messers. Growcock, Tellock, Musial, Kraus, Jones, and Laurino, and certain other key executives and employees of the Company and certain subsidiaries. The Contingent Employment Agreements provide generally that in the event of a change-in-control of the Company, as defined therein, each executive will continue to be employed by the Company for a period ranging from one to three years thereafter. Under the Contingent Employment Agreements, each executive will remain employed at the same position held as of the change-in-control date, and will receive a salary at least equal to the salary in effect as of such date, plus all bonuses, incentive compensation, and other benefits extended by the Company to its executive officers and key employees. After a

change-in-control, the executive's compensation would be subject to upward adjustment at least annually based upon his contributions to the Company's operating efficiency, growth, production, and profits. Each Contingent Employment Agreement terminates prior to the end of the applicable employment period, if the executive first attains the age of 65, voluntarily retires from the Company, or is terminated by the Company for cause, as defined in the Contingent Employment Agreement. In the event the executive is terminated by the Company without cause, the executive would be entitled to receive a monthly amount equal to the base salary and benefits the executive would have otherwise been paid but for the termination, and the annual incentive compensation the executive would have otherwise been paid but for the termination, through the end of the applicable employment period. In the event the executive is terminated by the Company for cause, the executive is only entitled to the salary and benefits accrued and vested as of the effective date of the termination. A Contingent Employment Agreement is terminable by either party at any time prior to a change-in-control. There are two categories of Contingent Employment Agreements. These categories are:

Level A. This category provides, in addition to the other general rights that are common among all the Contingent Employment Agreements, (i) the executive has the right to terminate his or her employment at any time within ninety days following a change-in-control and receive an immediate payout essentially equal to three times the executive's base salary and three times the executive's average incentive compensation over the previous three years, (ii) if any of the payments to the executive constitute an excess parachute payment under Section 4999 of the Internal Revenue Code, the Company will pay the executive an amount necessary to offset any excise tax or additional taxes resulting from the payment of any excess parachute payment, and (iii) if the executive exercises his/her rights outlined in clause (i) above, the executive will be prohibited from competing with the Company for the balance of the three year period.

Level B. The Level B form is the basic Contingent Employment Agreement without the special rights and non-competition obligations described above for the Level A form. The employment period for executives under the Level B form may be for any agreed upon period up to three years.

Mr. Growcock, Mr. Musial, Mr. Jones and Mr. Laurino have Contingent Employment Agreements with the rights described in Level A. Mr. Kraus and Mr. Tellock have Contingent Employment Agreements with the rights described in Level B, with a 3-year employment period.
