For purposes of determining the number of votes cast with respect to a particular matter, only those cast For or Against are included. Abstentions and broker non-votes (i.e. shares held by a broker or nominee which are represented at the Meeting, but with respect to which the broker or nominee is not empowered to vote on a particular proposal) are counted only for purposes of determining whether a quorum is present at the Meeting.

The stock transfer books of the Company will not be closed. Stockholders who do not expect to attend the Meeting, but wish to have their shares of stock voted at the Meeting, are urged to complete, sign, date and return the enclosed Proxy as promptly as possible.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee (the "Compensation Committee") of the Company at the direction of the Board has prepared the following report for inclusion in this Proxy Statement. The Compensation Committee is comprised of Messrs. Beitzel, Kaminski and Lubrano, three non-employee directors who are disinterested persons within the meaning of Rule 16b-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and who are independent as required by applicable laws and regulations, and the listing standards of the NASDAQ. The Compensation Committee has the responsibility for all compensation matters concerning the Company's executive officers.

The Company's executive compensation program is intended to attract and retain highly-qualified senior managers by providing compensation opportunities that reflect the Company's business results and the individual executive's performance. The Compensation Committee believes that these compensation opportunities will motivate management's efforts by ensuring that the rewards received by Company executives are consistent with the achievement of the Company's business objectives and with the value added by management to the stockholders' interests in the Company. The program provides for base salaries that reflect such factors as level of responsibility, internal fairness and external competitiveness, and annual incentive bonus awards that are payable in cash for the achievement of target levels of sales and earnings, strategic acquisitions and other initiatives, introduction of innovative products and services, and the achievement of and progress toward other significant annual financial and operational objectives as determined by the Compensation Committee. In general, the cash compensation of the Company's executive officers approximates the average of compensation paid to executives of appropriate comparable companies who occupy positions of similar responsibilities. The program also provides long-term incentive opportunities in the form of stock options that strengthen the mutuality of economic interest between management and the Company's stockholders and encourage management continuity.

The following is a discussion of each element of the Company's executive compensation program, including a description of the decisions and actions taken by the Compensation Committee with respect to the 2004 compensation for the Chief Executive Officer (the "CEO") and all executive officers as a group.

Management Compensation Program

Compensation of the Company's executive officers in the year ended December 31, 2004 (as reflected in the tables that follow with respect to the Named Executive Officers) consisted of the following elements: base salary and the opportunity for an annual incentive bonus and stock option grants under the Company's stock option plans. Total annual cash compensation for each executive officer varies each year based on the Company's achievement of its annual objectives and the individual's performance. Stock options to purchase 25,000 shares were granted to each of John Collins, James Dore, Sampo Kaasila and Costas Kitsos, and options to purchase 160,000 shares were granted to Anna Chagnon, under the 1997 and 2000 Stock Plans during 2004. In addition, stock options that were previously granted to certain executive officers and employees under the 1994 Stock Plan, the 1996 Stock Plan, the 1997 Stock Plan and the 2000 Stock Plan continue to be outstanding and unexercised. The potential value of previously granted long-term stock options varies based upon the fair market value of the Company's stock.

With respect to determining the base salary of each of the executive officers, the Compensation Committee takes into consideration a variety of factors, including the executive's level of responsibility and individual performance, the salaries of similar positions in comparable companies and the financial and operational performance of the Company in relation to its objectives and its competitive standing. The Company reviews the results of various industry salary surveys to ensure its understanding of competitive compensation levels and practices in the marketplace. From time to time, the Compensation Committee utilizes the services of a recognized, independent external consulting firm to determine marketplace compensation values and practices, and to assess the reasonableness of the overall compensation program.

Table of Contents

The Company's annual incentive bonus to its executive officers (including the Named Executive Officers) is based on the achievement of objective, financial and operational performance targets and the discretion of the Compensation Committee. These targets may include sales volume, net operating income, accomplishment of certain strategic business initiatives and other performance objectives as may be determined annually. In determining individual incentive bonus awards, the accountability of executive officers and their individual contributions towards the attainment of these objectives are considered. In determining awards for the most recent performance year, the Compensation Committee placed considerable emphasis on sales growth, progress towards achievement of earnings objectives, new product development, and management of corporate expenses and cash and cash equivalents on hand. The calculation of the Company's financial and operational performance with respect to the determination of these incentive bonus awards, if any, is made as soon as is practicable after the completion of the Company's fiscal year.

In addition to cash compensation, the Compensation Committee and the Board believe that providing executive officers with stock ownership opportunities aligns the interests of the executives with other stockholders and encourages the executives' long-term retention in the Company. The long-term incentive element of the Company's management compensation program is therefore in the form of stock option grants. On February 13, 2004, the Board awarded Incentive Stock Options (ISOs) to purchase 100,000 Class A Shares to Anna Chagnon and on August 2, 2004, the Board awarded ISOs to purchase 25,000 Class A Shares to each of John Collins, James Dore, Sampo Kaasila and Costas Kitsos, and non-qualified options to purchase 60,000 shares to Anna Chagnon, under the 1997 and 2000 Stock Plans. Such options have an exercise price equal to the fair market value of the Class A Common Stock of the Company on the date of grant, are exercisable for ten years and vest in one-third increments on each of the first, second and third anniversaries of the date of the grant.

The 1994 Stock Plan, 1996 Stock Plan, 1997 Stock Plan and 2000 Stock Plan are intended to create opportunities for executive officers and other key employees of the Company to acquire a proprietary interest in the Company and thereby enhance their efforts in the service of the Company and its stockholders. In addition, the vesting provisions of such awards (which limit the exercisability of such options for certain periods of time) encourage the continued service and stability of the management team.

Chief Executive Officer Compensation

Anna M. Chagnon has served as Chief Executive Officer of the Company since October 2003. She has also served as President of the Company since June 2000 and as General Counsel since July 1997. Ms. Chagnon is eligible to participate in the same executive compensation programs in which other executive-level employees of the Company participate. Her total annual compensation for 2004 (including compensation derived from salary and annual incentive bonus) was determined by the Compensation Committee in consideration of the same performance criteria used to establish pay levels for all other executive-level employees. In particular, Ms. Chagnon's salary upon being promoted to Chief Executive Officer in 2003 was set at the rate of \$230,000 per annum in recognition of her promotion and the Board's overall satisfaction with her performance and contributions. The Compensation Committee has determined that Ms. Chagnon's salary is below the median salary of Chief Executive Officers in a selected group of comparable companies. On February 13, 2004, the Board awarded incentive stock options (ISOs) to purchase, up to 100,000 Class A Shares to Ms. Chagnon in consideration of her promotion to Chief Executive Officer. On August 2, 2004, the Board awarded non-qualified stock options to purchase 60,000 Class A Shares to Ms. Chagnon, in recognition of her performance at that point during the year. Such options have an exercise price of \$1.59 per share which was equal to the fair market value of the Class A Common Stock of the Company on the date of grant, are exercisable for ten years from the date of grant and vest in one-third increments on each of the first, second and third anniversaries of the date of the grant.

Respectfully submitted,

COMPENSATION COMMITTEE
