Proposal One

ELECTION OF DIRECTORS

Three directors are to be elected at the Annual Meeting for terms of three years. Eight other directors have been elected to terms expiring in 2006 or 2007, as indicated below. The following pages set forth certain information for each nominee and each incumbent director as of March 31, 2005, except as otherwise noted. All of the nominees and all of the incumbent directors listed below were directors previously elected by the shareholders.

The election of each nominee for director requires the affirmative vote of the holders of a plurality of the shares of Common Stock cast in the election of directors. With a plurality vote, the nominees that receive the highest vote totals for the director positions up for election will be elected. Votes that are withheld and shares held in street name (Broker Shares) that are not voted in the election of directors will not be included in determining the number of votes cast. Unless otherwise specified in the accompanying form of proxy, it is intended that votes will be cast for the election of all of the nominees as directors. If, at the time of the Annual

Meeting, any nominee should be unavailable to serve as a director, it is intended that votes will be cast, pursuant to the enclosed proxy, for such substitute nominee as may be nominated by the Board of Directors. Each nominee has consented to being named in this Proxy Statement and to serve if elected. The Board of Directors, in its business judgment, has determined that each of the nominees for election this year except Mr. King, and each of the incumbent directors, are independent as defined by New York Stock Exchange listing standards.

² The number of shares of Common Stock shown in the table includes 66,201 shares held for executive officers in the Employees' Stock Purchase Plan of Universal Leaf Tobacco Company, Incorporated ("Universal Leaf"). The Employees' Stock Purchase Plan of Universal Leaf held 743,109 shares or 2.9% of the shares of Common Stock outstanding on June 24, 2005. The number of shares also includes 400 shares that are jointly or solely held by minor children or other children living at home or held in fiduciary capacities. Such shares may be deemed to be beneficially owned pursuant to the rules of the Securities and Exchange Commission but inclusion of the shares in the table does not constitute admission of beneficial ownership.

Section 16(a) Beneficial Ownership Reporting Compliance

The Company's directors and executive officers are required under Section 16(a) of the Securities Exchange Act of 1934, as amended, to file reports of ownership and changes in ownership of Common Stock with the Securities and Exchange Commission. Copies of those reports must also be furnished to the Company.

Based solely on a review of the copies of reports furnished to the Company and the written representations of its directors and executive officers, the Company believes that, during the 2005 fiscal year, all filing requirements applicable to directors and executive officers were satisfied, except for Messrs. Allen B. King, William L. Taylor, Hartwell H. Roper, and George C. Freeman III, who each inadvertently had one late Form 4 filing in connection with single transactions through the Supplemental Stock Purchase Plan of Universal Leaf, and Ms. Karen M. L. Whelan, who inadvertently had one late Form 4 filing in connection with a sale of shares related to the discontinuance of the Career Equity Ownership program.

CORPORATE GOVERNANCE AND COMMITTEES

General

The business and affairs of the Company are managed under the direction of the Board of Directors in accordance with the Virginia Stock Corporation Act and the Company's Articles of Incorporation and Bylaws. Members of the Board are kept informed of the Company's business through discussions with the Chairman, President, and Chief Executive Officer and other officers, by reviewing materials provided to them, and by participating in meetings of the Board and its committees. The corporate governance practices followed by the Company are summarized below.

Corporate Governance Guidelines

The Board of Directors has adopted Corporate Governance Guidelines that set forth the practices of the Board with respect to the qualification and selection of directors, director orientation and continuing education, director responsibilities, Board composition and performance, director access to management and independent advisors, director compensation, management evaluation and succession, evaluation of the Board's performance, and various other issues. The Guidelines are available to shareholders and the public free of charge under the Investor/Corporate Governance section of the Company's website at www.universalcorp.com. A printed copy is available to any shareholder free of charge upon written request to the Treasurer of the Company, at Universal Corporation, P. O. Box 25099, Richmond, Virginia 23260.

Code of Ethics

The Board of Directors has adopted a Business Ethics Policy applicable to directors, officers, and employees of the Company and each of its subsidiaries and controlled affiliates. The Business Ethics Policy includes the New York Stock Exchange requirements for a Code of Business Conduct and Ethics and the Securities and Exchange Commission definition of a Code of Ethics for Senior Financial Officers. The Business Ethics Policy addresses such topics as protection and proper use of Company assets, compliance with applicable laws and regulations, accuracy and preservation of records, accounting and financial reporting, conflicts of interest, and insider trading. The Business Ethics Policy is available to shareholders and the public

free of charge under the Investor/Corporate Governance section of the Company's website at www.universalcorp.com. A printed copy is available to any shareholder free of charge upon written request to the Treasurer of the Company at the address set forth above.

Executive Sessions

The independent directors of the Board meet in executive session at least annually without management or employee directors present. The independent directors designate the director who will preside at the executive session. For fiscal year 2005, the independent directors designated Mr. Stallard as the presiding director. The presiding director is responsible for advising the Chairman and/or the Chief Executive Officer of the outcome of any decisions reached or suggestions made at these sessions. Executive sessions where non-employee directors meet on an informal basis may be scheduled either before or after each regularly scheduled Board meeting.

Communications with Directors

Shareholders may at any time direct communications to the Board as a whole, to the director who presides at the executive sessions of the non-management directors, or to any individual member of the Board, through the Company's website or by contacting the Company's Secretary. The Corporate Governance-Highlights section of the Company's website contains an e-mail address established for receipt of shareholder communications, and provides the full mailing address for communications to be delivered via the Company's Secretary.

Shareholders making such communications are encouraged to state that they are shareholders and provide the exact name in which their shares of Common Stock are held and the number of shares held. Each shareholder communicating with the Board will receive a written acknowledgement from or on behalf of the Company's Secretary after receipt of the communication sent in the manner described above. After screening such communications, the Company's Secretary will distribute communications to the intended recipient(s) as appropriate.

Board and Committee Meeting Attendance

In the 2005 fiscal year, there were six meetings of the Board of Directors. Each director attended 75% or more of the total number of meetings of the Board and of the committees on which he served.

Committees of the Board

The standing committees of the Board of Directors are the Executive Committee; the Audit Committee; the Executive Compensation, Nominating, and Corporate Governance Committee; the Finance Committee; and the Pension Investment Committee.

Executive Committee

Edgar Filing: UNIVERSAL CORP /VA/ - Form DEF 14A

The Executive Committee has the authority to act for the Board of Directors on most matters during the intervals between Board meetings. The members of the Executive Committee are Messrs. King (Chairman), Farrell, Foster, Sheehan, and Stallard. The Executive Committee met seven times during the 2005 fiscal year.

Audit Committee

The responsibilities of the Audit Committee include the review of the scope and the results of the work of the independent public accountants and internal auditors, the review of the adequacy of internal accounting controls, and the selection and appointment of independent public accountants. The Audit Committee operates

under a written charter last amended by the Board in October 2002. The Audit Committee's charter is available under the Investor/Corporate Governance section of the Company's website at www.universalcop.com.

The members of the Audit Committee are Messrs. Stosch (Chairman), Adams, Johnson, Moore, Sheehan, and Trani. The Board of Directors has determined that each of the Audit Committee members is independent as defined under the applicable independence standards set forth in regulations of the Securities and Exchange Commission and the New York Stock Exchange listing standards. The Board has also determined that all of the Audit Committee members are financially literate as defined by the New York Stock Exchange listing standards. In accordance with the applicable regulations of the Securities and Exchange Commission, the Board of Directors has further determined that the Audit Committee contains at least one audit committee financial expert as defined by such regulations. Walter A. Stosch, the Chairman of the Audit Committee. The fact that the Board did not identify additional Audit Committee members as audit committee financial experts does not in any way imply that other members do not meet that definition.

The Audit Committee met 11 times during the 2005 fiscal year. Additional information with respect to the Audit Committee is discussed below under Audit Information on page 20 of this Proxy Statement.

Executive Compensation, Nominating, and Corporate Governance Committee

The Executive Compensation, Nominating, and Corporate Governance Committee performs the responsibilities of the Board of Directors relating to compensation of the Company's executives. The committee's responsibilities include reviewing and approving corporate goals and objectives relevant to compensation of the Company's Chief Executive Officer, evaluating the Chief Executive Officer's performance in light of those goals and objectives, and determining and approving the Chief Executive Officer's compensation level based on this evaluation; making recommendations to the Board with respect to annual and long-term incentive compensation and equity-based plans; evaluating the performance of, and determining the salaries, incentive compensation, and executive benefits for senior management; and administering the Company's equity-based, deferred, and other compensation plans. The committee also develops qualifications for director candidates, recommends to the Board of Directors persons to serve as directors of the Company, and monitors developments in, and makes recommendations to the Board concerning, corporate governance practices. The committee acts as the Company's nominating committee. The committee operates under a written charter last amended by the Board in April 2004. The committee's charter is available under the Investor/Corporate Governance section of the Company's website at www.universalcop.com. For additional information regarding the compensation-related activities of the committee, see Report of Executive Compensation, Nominating, and Corporate Governance Committee on page 10 of this Proxy Statement.

Shareholders entitled to vote for the election of directors may submit candidates for consideration by the committee if the Company receives timely written notice, in proper form, for each such recommended director nominee. If the notice is not timely and in proper form, the nominee will not be considered by the committee. To be timely for the 2006 Annual Meeting, the notice must be received within the time frame set forth in Proposals for 2006 Annual Meeting on page 22 of this Proxy Statement. To be in proper form, the notice must include each nominee's written consent to be named as a nominee and to serve if elected, and information about the shareholder making the nomination and the person nominated for election. These requirements are more fully described in the Company's Bylaws and Corporate Governance Guidelines.

The committee does not differentiate between Board candidates submitted by Board members or those submitted by shareholders with respect to evaluating candidates. All Board candidates are considered based upon various criteria, such as their broad-based business skills and experience, prominence, and reputation in their profession, their global business and social perspective, concern for the long-term interests of the shareholders, knowledge of the Company's or related industries, and personal and professional integrity, ethics, and judgment—all in the context of an assessment of the perceived needs of the Board at that point in time. Because the needs of the Board change from time to time, the committee has not established specific minimum qualifications that must be met by potential new directors. The Board, however, believes that as a matter of policy there should be a substantial majority of independent directors on the Board.

The members of the Executive Compensation, Nominating, and Corporate Governance Committee, all of whom the Board, in its business judgment, has determined are independent as defined by the New York Stock Exchange listing standards, are Messrs. Sheehan (Chairman), Farrell, Foster, and Stallard. The committee met six times during the 2005 fiscal year.

Finance Committee

The Finance Committee has the responsibility of establishing the Company's financial policies and controlling its financial resources. The members of the Finance Committee are Messrs. Foster (Chairman), King, Adams, Crocker, and Stosch. The Finance Committee met three times during the 2005 fiscal year.

Pension Investment Committee

The Pension Investment Committee establishes the investment policies, selects investment advisors and portfolio managers, and monitors the performance of investments of the pension plans, the retirement plans and other qualified employee benefit plans of Universal Leaf and the Company's other U.S. subsidiaries. The members of the Pension Investment Committee are Messrs. Stallard (Chairman), Crocker, Farrell, Johnson, Moore, and Trani. The Pension Investment Committee met five times during the 2005 fiscal year.

Director Independence

The Board of Directors, in its business judgment, has determined that each member of the Board of Directors except Mr. King, the Company's Chairman, President and Chief Executive Officer, is independent as defined by the New York Stock Exchange listing standards. In reaching this conclusion, the Board evaluated each director in light of the specified independence tests set forth in the New York Stock Exchange listing standards. In addition, the Board considered whether the Company and its subsidiaries conduct business and have other relationships with organizations of which certain members of the Board or members of their immediate families are or were directors or officers. The Board evaluated such relationships, if any, with respect to each director except Mr. King and determined that no such relationships were material.

Annual Meeting Attendance

The Company expects and encourages each member of the Board of Directors to attend annual meetings of shareholders when it is reasonably practical for the director to do so. All of the directors attended the 2004 Annual Meeting except Mr. Joseph C. Farrell.

DIRECTORS' COMPENSATION

Each director who is not an officer of the Company receives an annual retainer of \$30,000, a fee of \$1,500 for each Board meeting attended, and a fee of \$1,500 for each committee meeting attended. A non-employee director may elect to receive his annual retainer in cash, shares of Common Stock, or an option to purchase such shares. If option payment is elected, the number of shares of Common Stock covered by the option is determined by dividing the Black-Scholes value per share on the date of grant into 125% of the cash value of the annual retainer.

The Outside Directors' 1994 Deferred Income Plan permits a non-employee director to defer all or a portion of his compensation. Deferred amounts are deemed hypothetically invested as designated by the director in certain investment options offered by the Company. In 1998, this plan was amended to add a deferred stock unit fund to the investment options available under the plan. Each deferred stock unit represents a hypothetical share of Common Stock and fluctuates in value with the market price of the stock. The portion of a director's deferral account that is invested in the deferred stock unit fund is increased by the number of deferred stock units that could be purchased with Common Stock dividends paid by the Company. With respect to investment options other than the deferred stock unit fund, the Company may, but is not required to,

invest the deferred amounts in a Company-owned life insurance product with parallel investment options. Subject to certain restrictions, the director may elect at the time of deferral to take cash distributions, in whole or in part, from his deferral account either prior to or following termination of service.

Until fiscal year 2005, each non-employee director received an annual award of 700 shares of restricted Common Stock following each Annual Meeting pursuant to the Restricted Stock Plan for Non-Employee Directors and the 2002 Executive Stock Plan. No director was authorized to receive in the aggregate more than 2,100 shares of restricted Common Stock under these plans. Restrictions on awards under these plans expire in the event the director becomes disabled, dies, is not nominated for reelection, or is not reelected. The number of shares previously issued to non-employee directors will be adjusted for stock dividends, stock splits, and certain other corporate events that may occur in the future. In addition, until fiscal year 2005, each non-employee director received an option to purchase 2,000 shares of Common Stock on the first business day following each Annual Meeting under the 1994 Stock Option Plan for Non-Employee Directors and the 2002 Executive Stock Plan. The exercise price of all such options is the fair market value of the Common Stock on the date of grant. All of the options became exercisable six months after the date of grant and expire ten years from the date of grant. Shorter expiration periods may apply in the event an optionee dies, becomes disabled, or resigns from, or does not stand for reelection to, the Board. The options previously granted will be adjusted for stock dividends, stock splits, and certain other corporate events that may occur in the future.

During fiscal year 2005, the Company's Executive Compensation, Nominating, and Corporate Governance Committee modified the annual awards and grants provided to non-employee directors following each Annual Meeting. Pursuant to the 2002 Executive Stock Plan, non-employee directors will now receive 1,000 shares of restricted Common Stock in place of the historical award of 700 shares of restricted Common Stock and annual grant of stock options. The restricted Common Stock will be awarded on an annual basis to non-employee directors on the first business day following each Annual Meeting, beginning with the 2005 Annual Meeting.

As part of its overall program of charitable giving, the Company offers the directors participation in a Directors' Charitable Contribution Program (the Charitable Program). The Charitable Program is funded by life insurance policies purchased by the Company on the directors. The directors derive no financial or tax benefits from the Charitable Program, because all insurance proceeds and charitable tax deductions accrue solely to the Company. The Company, however, will donate up to \$1,000,000 in aggregate to one or more qualifying charitable organizations recommended by that director. Donations will be made by the Company in ten equal annual installments, with the first installment to be made at the later of the director's retirement from the Board or age 70; the remaining nine installments will be paid annually beginning immediately after the director's death.

Each director is also eligible to participate in a Directors' Matching Gifts Program in which the Company matches directors' contributions to charities. The maximum amount that can be matched in any fiscal year is \$5,000 per director.

REPORT OF EXECUTIVE COMPENSATION, NOMINATING, AND CORPORATE GOVERNANCE COMMITTEE

The Company's executive compensation and benefits program is administered by the Executive Compensation, Nominating, and Corporate Governance Committee (the Committee), which is composed entirely of non-employee directors, all of whom the Board, in its business judgment, has determined are independent as defined by the applicable New York Stock Exchange listing standards, Securities and Exchange Commission rules and Internal Revenue Service rules. The goal of the program is to attract, motivate, reward, and retain the management talent required to achieve the Company's business objectives, at compensation levels that are fair and equitable and competitive with those of comparable companies. This goal is furthered by the Committee's policy of linking compensation to individual and corporate performance and by encouraging significant stock ownership by senior management in order to align the financial interests of management with those of the shareholders.

The three main components of the Company's executive compensation program have historically been base salary, annual cash awards under incentive compensation plans adopted by the Company and its principal subsidiaries, and equity participation usually in the form of stock option grants and eligibility to participate in the Employees' Stock Purchase Plan of Universal Leaf Tobacco Company, Incorporated. Each year the Committee reviews the total compensation package of executive officers to ensure they meet the goals of the program. As a part of this review, the Committee considers corporate performance information, compensation survey data, the advice of consultants, and the recommendations of management. During fiscal year 2005, the Committee, with advice and assistance from an independent compensation consultant, undertook a comprehensive review of the mix, form, and calibration of the executive compensation program. The results of that review, applicable for fiscal year 2006, can be summarized as follows:

The Committee reaffirmed its objective of setting total direct compensation (including salary, annual incentive awards and long-term incentive awards) for executives at levels competitive with the market median for executives in comparable positions at companies of comparable size, complexity and operational characteristics.

The Economic Profit and Earnings Per Share annual incentive calibration ranges were updated and adjusted to reflect current and anticipated business conditions and to ensure adequate performance stretch in the annual incentive plan goals.

The mix of pay was adjusted to place less emphasis on annual cash incentive opportunity levels and relatively greater emphasis on long-term performance and award opportunities.

To reduce the overall emphasis on annual cash incentives, the Committee concluded that a meaningful percentage of annual bonus should be paid in the form of restricted stock. Accordingly, for fiscal year 2006, the amount of annual incentive earned above a targeted cash opportunity level determined for each officer, at the mid-point of conventional performance for Economic Profit and Earnings Per Share, will be paid 50% in cash and 50% in restricted stock with three-year cliff vesting. Had this approach been followed during fiscal years 2001 through 2004, an average of approximately 39% of total annual bonus paid would have been deemed above the targeted cash opportunity level and therefore paid out one-half in cash and one-half in restricted stock.

The Career Equity Ownership program (the CEO Program) described under Equity Participation below, has been discontinued in favor of a new approach estimated to be more efficient under Financial Accounting Standards Board Statement No. 123 R (FAS 123R). The long-term incentive program value will now consist of 50% stock options (or stock-settled stock appreciation rights) and 50% restricted stock or restricted stock units with five-year cliff vesting (Career Shares). Named executive officers will have additional vesting restrictions or holding period requirements on Career Shares in order to preserve deductibility under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code).

Stock ownership guidelines for senior executive officers have been implemented. Officers will have five years to comply with fixed share ownership levels of 65,000, 25,000 and 7,500 (which approximate multiples of salary of 5, 3.5 and one times) for the Chief Executive Officer, Executive Vice Presidents and Senior Vice Presidents, respectively, of Universal Leaf. Restricted stock or restricted stock unit awards are counted in determining compliance with the guidelines.

Base Salary. Base salaries for executive officers are reviewed annually to determine whether adjustments may be necessary. Factors considered by the Committee in determining base salaries for executive officers include personal performance of the executive in light of individual levels of responsibility, the overall performance and profitability of the Company during the preceding year, economic trends that may be affecting the Company, and the competitiveness of the executive's salary with the salaries of executives in comparable positions at companies of comparable size or operational characteristics. Each factor is weighed by the Committee in a subjective analysis of the appropriate level of compensation for that executive. For purposes of assessing the competitiveness of salaries, the Committee reviews compensation data from national surveys and selected groups of companies with similar size or operational characteristics to determine ranges of total

compensation and the individual components of such compensation. Such compensation data indicates that the Company's salary levels generally have been below the median of such data when compared to executive positions of similar scope and responsibility.

Mr. King became the Chief Executive Officer of the Company on January 1, 2003, and Chairman of the Board on October 28, 2003, and has 36 years experience with the Company. For the fiscal year beginning April 1, 2004, Mr. King's base salary was increased by the annualized rate of 3.3% after a thorough review and evaluation by the Committee of the competitiveness of Mr. King's salary and total cash compensation to those of other chief executive officers at comparable companies. The Committee conducted a similar review and evaluation during the 2005 fiscal year as part of its comprehensive review of executive compensation described above. For the fiscal year beginning April 1, 2005, Mr. King's base salary was increased by approximately 14.9% based on that review.

Annual Cash Incentives. The Company and its principal subsidiaries have incentive compensation plans under which key management employees may receive annual cash incentive awards that vary from year to year based upon corporate, business unit, and individual performance. Pursuant to the Company's Executive Officer Annual Incentive Plan (the "Incentive Plan") approved by the shareholders at the 2004 Annual Meeting, with respect to the Named Executive Officers based in the United States, the bonus awards in the 2005 fiscal year were based 50% on the generation of economic profit, which is defined as consolidated earnings before interest and taxes after certain adjustments, minus a capital charge equal to the weighted average cost of capital times average funds employed, and 50% on the generation of earnings per share, adjusted to exclude extraordinary gains and losses and bonus accruals under the plan. Mr. King's cash incentive award for the 2005 fiscal year was approximately 39.5% less than the award he received in fiscal year 2004. This decrease is directly attributable to the financial performance of the Company, including the Company's economic profit and adjusted earnings per share performance during fiscal year 2005.

As noted above, the changes to the Company's compensation program applicable to the 2006 fiscal year include changes to the form and calibration of awards issuable under the Incentive Plan. The Company will continue to issue incentive awards based on the various performance factors referenced above.

Equity Participation. The Committee administers the Company's 1989, 1997, and 2002 Executive Stock Plans, under which it has granted to key executive employees options to purchase shares of Common Stock based upon a determination of competitive aggregate compensation levels. The primary objective of issuing stock options has been to encourage significant investment in stock ownership by management and to provide long-term financial rewards linked directly to market performance of the Company's stock. The Committee believes that significant ownership of stock by senior management is the best way to align the interests of management and the shareholders, and the Company's stock incentive program is effectively designed to further this objective.

During the 1992 fiscal year, the Committee instituted the CEO Program to promote an increase in the equity interest of key executives through systematic option exercises and the retention of shares. The CEO Program required each participant to make an investment in the Company by contributing to the CEO Program currently owned shares equal to at least 10% of the number of shares subject to the initial options granted to the participant under the CEO Program. Option exercises would occur automatically at not less than six-month intervals when at least a minimum stock price appreciation had occurred. The exercise price of options granted under the CEO Program was the fair market value of a share of Common Stock on the date of grant. CEO Program options could not be exercised until six months after the date of grant and would expire ten years from such date. Stock options granted to key executives under the CEO Program in the 2003 fiscal year were intended to meet the Committee's three-year targets for CEO Program grants and, therefore, no new option grants were made under the CEO Program during the 2004 or 2005 fiscal years (excluding reload options).

With the upcoming adoption of FAS 123R, the projected accounting cost of the CEO Program dictated the consideration of other, more cost-efficient forms of equity compensation for the 2006 fiscal year and beyond. The Committee decided during the 2005 fiscal year to discontinue the CEO Program. The share balances in the participating executives' CEO Program accounts have been distributed to the participants. All previously issued reload options became immediately exercisable for their respective remaining terms.

Tax Considerations. Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation of more than \$1 million paid in any year (not including amounts deferred) to a company's chief executive officer and to the four other most highly compensated executive officers. The statute, however, exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. In this regard, the Company has taken appropriate actions to maximize the deductibility of stock option grants, annual cash incentive awards, and restricted stock grants. While the Company's policy is generally to preserve corporate tax deductions by qualifying compensation over \$1million paid to executive officers as performance-based, the Committee may, from time to time, conclude that compensation arrangements are in the best interests of the Company and its shareholders despite the fact that such arrangements might not, in whole or part, qualify for tax deductibility.

Retirement Benefits

Employees of Universal Leaf and certain of the Company's other U. S. subsidiaries are covered by a defined benefit retirement plan, which is qualified under the Internal Revenue Code, and a defined benefit supplemental retirement plan, which is a non-qualified plan intended to provide benefits in excess of limits allowed by the Internal Revenue Code. The table below shows estimated annualized benefits payable under both plans at normal retirement (age 65) based on the average salary and bonus (as reported in the Summary Compensation Table) for the highest consecutive three years. The actuarial equivalent of benefits under the supplemental retirement plan is payable in a lump sum upon retirement.

The credited years of service for Messrs. King, Taylor, Roper, and Starkey are 36, 15, 31, and 24, respectively.

The benefits shown in the table are calculated on the basis of a 50% joint and survivor benefit, assuming that at retirement the age of the employee's spouse is 62. The amounts in the table do not include any social security benefits that an employee may receive.

Mr. van de Winkel is covered by a pension plan established under the laws of the Netherlands. The plan, which covers employees of N.V. Deli Universal and certain other Dutch subsidiaries, is partially funded by employer and participant contributions. During the 2005 fiscal year, N.V. Deli Universal contributed \$78,435 to the plan on behalf of Mr. van de Winkel. His estimated annual pension benefit under the plan, assuming retirement at age 60, continuance of current salary level and 20 years of service, is \$183,994.

The Company provides funding payments that are used for individual trusts for covered officers with vested accrued benefits under Universal Leaf's defined benefit supplemental retirement plan. During the 2005 fiscal year, the following amounts, less applicable tax withholding, were deposited in individual trusts for Named Executive Officers with respect to the present value of projected benefits expected to be earned through March 31, 2005, under the supplemental retirement plan: Mr. King, \$2,107,198; Mr. Taylor, \$547,587; Mr. Roper, \$415,363; and Mr. Starkey \$344,363. These amounts offset benefits otherwise payable by the Company at retirement and are not intended to increase total promised benefits.

The following tables contain information concerning grants of stock options to the Named Executive Officers during the fiscal year ended March 31, 2005, exercises of stock options by such executive officers in such fiscal year and the fiscal year end value of all unexercised stock options held by such executive officers.

¹ All options granted in the 2005 fiscal year were reload options that replaced shares of the Company's Common Stock used for stock swap option exercises under the CEO Program described above in Report of Executive Compensation, Nominating, and Corporate Governance

Committee.

² The Black-Scholes option pricing model was used to determine the Grant Date Present Value of the options listed in the table. The model assumed a risk-free interest rate of 3.43%, a dividend yield of 3.40%, and a stock price volatility of 0.29 based on the average weekly stock market closing price over the past ten years. Because the magnitude of any nontransferability discount is extremely difficult to determine, none was applied in determining the value of the reported options. The grant date present values set forth in the table are only theoretical values and may not accurately determine present value. The actual value, if any, an optionee realizes will depend on the excess of market value of a share of Common Stock over the exercise price on the date the option is exercised.

Contractual Obligations

To ensure that the Company will have the continued dedicated service of certain executives notwithstanding the possibility, threat, or occurrence of a change of control, the Company has change of control employment agreements (the Employment Agreements) with certain executives, including Allen B. King, William L. Taylor, Hartwell H. Roper, and James H. Starkey, III. The Employment Agreements generally provide that if the executive is terminated other than for cause within three years after a change of control of the Company, or if the executive terminates his employment for good reason within such three-year period or voluntarily during the 30-day period following the first anniversary of the change of control, the executive is entitled to receive certain severance benefits. Such severance benefits include a lump sum severance payment equal to three times the sum of his base salary and highest annual bonus, together with certain other payments and benefits, including continuation of employee welfare benefits and an additional payment to compensate the executive for certain excise taxes imposed on certain change of control payments.

The Board of Directors believes that the Employment Agreements benefit the Company and its shareholders by securing the continued service of key management personnel and by enabling management to perform its duties and responsibilities without the distracting uncertainty associated with a change of control.

Pre-approval Policies and Procedures

The Company has guidelines in place regarding the engagement of the Company's independent auditors to perform services for the Company. All audit and non-audit services provided by an independent auditing firm (including its member accounting and law firms outside the United States) to the Company or any wholly-owned or majority-owned affiliate of the Company must be pre-approved by the Audit Committee. All audit and non-audit services listed above were pre-approved by the Audit Committee pursuant to the terms of the Company's pre-approval policies and procedures.

A detailed report of all audit and non-audit services planned for the fiscal year is presented to the Audit Committee for its consideration, discussion, and approval. In addition, the Audit Committee pre-approves a spending account to pay the fees for unplanned audit and non-audit services that do not exceed specified dollar thresholds and are consistent in nature and scope with the planned services. The Chairman of the Audit Committee has pre-approval authority with respect to further additional services that exceed the dollar thresholds or are not consistent in nature or scope with the planned services. Audit Committee Report

Management is responsible for the Company's internal controls, financial reporting process, and compliance with laws and regulations and ethical business standards. The independent auditor is responsible for performing an independent audit of the Company's consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and issuing a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes on behalf of the Board of Directors.

In this context, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent auditors. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (Communication with Audit Committees). In addition, the Audit Committee has received from the independent auditors the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed with them their independence from the Company and its management. Moreover, the Audit Committee has considered whether the independent auditor's provision of non-audit services to the Company is compatible with maintaining the auditor's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2005, for filing with the Securities and Exchange Commission. By recommending to the Board of Directors that the audited financial statements be so included, the Audit Committee is not opining on the accuracy, completeness, or presentation of the information contained in the audited financial statements.
