Item 2.02. Results of Operations and Financial Condition.

On July 21, 2005, Baxter International Inc. issued an earnings press release for the quarterly period ended June 30, 2005. The press release, including attachments, is furnished as Exhibit 99 to this report.

The press release contains several non-GAAP financial measures as defined by the Securities and Exchange Commission. These measures are used in addition to results presented in accordance with generally accepted accounting principles (GAAP). The non-GAAP financial measures reflect an additional way of viewing aspects of the company's operations that, when viewed with GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, may provide a more complete understanding of factors and trends affecting the company's business. Management strongly encourages investors to review the company's consolidated financial statements and publicly filed reports in their entirety.

The non-GAAP financial measures include adjusted earnings and adjusted earnings per share, each excluding certain items that are unusual or nonrecurring. Unusual or nonrecurring items can be highly variable, difficult to predict, and of a size that may substantially impact the company's reported operations for a period. Management believes that these non-GAAP earnings measures can facilitate a fuller analysis of the company's results of operations, particularly in evaluating performance from one period to another. In addition, management uses these non-GAAP financial measures internally in financial planning, to monitor performance, and in setting performance compensation targets.

The release also uses free cash flow, which is defined as cash flow from continuing operations less capital expenditures and is not a measure defined in accordance with GAAP. This measure is used internally to evaluate the company's cash performance, and management believes that free cash flow is a useful measure to investors in that it provides a representation of the company's cash level available to reduce debt outstanding, pay common stock dividends, repurchase common stock or make strategic investments and acquisitions.

Item 9.01. Financial Statements and Exhibits.

(c) The following exhibit is furnished herewith:
