INTERNATIONAL ASSETS HOLDING CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

December 31, 2005

(Unaudited)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions and requirements of Form 10-QSB and, therefore, do not include all information and footnotes necessary for a fair presentation of financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. In the opinion of management, such financial statements reflect all adjustments (consisting of normal recurring items) necessary for a fair statement of the results of operations, cash flows and financial position for the interim periods presented. Operating results for the interim periods are not necessarily indicative of the results that may be expected for the full year. These condensed consolidated financial statements should be read in conjunction with the Company s audited consolidated financial statements for the fiscal year ended September 30, 2005, contained in the Company s Annual Report on Form 10-KSB for the fiscal year ended September 30, 2005 filed with the Securities and Exchange Commission.

Revenues Reported on Gross Basis

In accordance with the guidelines provided in EITF Issue No. 99-19, the Company has determined that revenues of the Company s physical base metals trading business, which commenced in October 2005, should be reported on a gross basis, with the corresponding cost of sales shown separately. This matter is discussed further in note 18, under the heading Commodities Trading.

Current Subsidiaries and Operations

As used in this Form 10-QSB, the term Company refers, unless the context requires otherwise, to International Assets Holding Corporation and its subsidiaries on a consolidated basis. The Company s subsidiaries are INTL Trading, Inc. (INTL Trading), INTL Commodities, Inc. (INTL Commodities), INTL Assets, Inc. (INTL Holding (U.K.) Limited, INTL Global Currencies Limited (INTL Global Currencies) and IAHC (Bermuda) Ltd. The Company also owns a 50.1% interest in INTL Consilium, LLC (INTL Consilium), an investment advisory firm that focuses on the emerging market asset class. INTL Consilium is accounted for using the equity method of accounting. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company operates as a wholesale international financial firm in five business segments — international equities market making, international debt capital markets, foreign exchange trading, commodities trading and asset management. The majority of the trading and market-making activities are undertaken as principal in order to provide our institutional customers with efficient execution and liquidity in these markets. Periodically the Company may take proprietary positions in these markets. The Company:

is a leading U.S. market-maker in select foreign securities, including unlisted ADRs, foreign common shares and OTC domestic bulletin board stocks:

trades actively in a wide variety of international debt instruments and arranges international debt transactions;

trades select illiquid currencies of developing countries;

6

Notes to Condensed Consolidated Financial Statements, continued

provides a full range of trading and hedging capabilities in select precious metals and base metals to producers, refiners, recyclers and consumers, including trading of physical metals; and

through INTL Consilium, provides investment advisory services.

(2) Restatement

In May 2005, the Company restated its financial statements for, *inter alia*, the quarter ended December 31, 2004. The restatement, as it affected the results for the quarter ended December 31, 2004, related to the accounting for certain operating leases. Previously, while the benefits of certain periods of free or reduced rent had been spread across the lease terms, the Company had not properly allocated scheduled rent escalations across the lease terms. The restatement increased rent expense to spread scheduled rent escalations on a straight-line basis over the contractual lease terms, in accordance with FAS 13, *Accounting for Leases*. As a result of this restatement, rental expense for the fiscal quarter ended December 31, 2004 was increased by \$7,911.

The restatement had no effect on cash flow for the quarter ended December 31, 2004. The table below gives a comparison between the affected amounts as previously reported and as restated.

(3) Stock-Based Employee Compensation

In October 1995, the Financial Accounting Standards Board (FASB) issued SFAS No. 123, Accounting for Stock-Based Compensation, which generally permits entities to recognize as expense over the vesting period the fair value of all stock-based awards calculated on the date of grant. Alternatively, SFAS No. 123 allows entities to continue to apply the provisions of APB Opinion No. 25, which provides that compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeds the exercise price and if disclosure is made on a pro forma basis of the expense which would have been recognized if the fair-value-based method defined in SFAS No. 123 had been applied. The Company has elected to continue to apply the provisions of APB Opinion No. 25 and provide the required pro forma disclosure

provisions of SFAS No. 123.

If the Company had determined compensation cost based on the fair value at the grant date for its stock options under SFAS No. 123, the Company s net income and earnings per share would be as reflected in the pro-forma amounts indicated below:

(4) Effects of Recent Accounting Pronouncements and Interpretations

There have been no accounting pronouncements or interpretations since the date of preparation of the Company s consolidated financial statements for the fiscal year ended September 30, 2005 that have had an effect on the Company.

(5) Basic and Diluted Earnings per Share

Basic earnings per share for the three months ended December 31, 2005 and 2004 have been computed by dividing net income by the weighted average number of common shares outstanding.

Options to purchase 126,750 and 53,600 shares of common stock were excluded from the calculation of diluted earnings per share for the three months ended December 31, 2005 and 2004, respectively, because the exercise prices of these options exceeded the average market price of the common stock for the period (i.e. they were anti-dilutive).

(7) Investment in Asset Management Joint Venture

The Company is the owner of a 50.1% interest in INTL Consilium, with the remaining 49.9% owned by Consilium Investment Capital, Inc. (CIC). The Company is entitled to receive 50.1% of the profits and losses of INTL Consilium. The Company and CIC are each entitled to appoint two of the four directors of INTL Consilium. Two principals of CIC actively manage the business of INTL Consilium. The Company has assessed the joint venture using the consolidation criteria in FIN 46R and concluded that INTL Consilium is not a variable interest entity. Accordingly, the Company assessed the consolidation criteria established by EITF 96-16 by reviewing the voting rights of each investor in INTL Consilium and, due to certain specified operating matters that require board approval, concluded that its investment in INTL Consilium should be accounted for utilizing the equity method of accounting.

(8) Goodwill and Intangible Assets

The Company acquired the foreign exchange business of INTL Global Currencies Limited in 2004. The purchase price paid by the Company for the acquisition exceeded the net asset value received by \$2,488,565. Of this amount, \$350,000 was allocated to intangible assets and the balance of \$2,138,565 was treated as goodwill. The Company has accrued additional goodwill of \$3,924,318 under the earn-out provisions of the purchase agreement. As of December 31, 2005, the Company has paid \$1,962,158 of the additional goodwill. The balance of the additional goodwill accrual of \$1,962,160 is reported as deferred acquisition consideration payable in the Company s consolidated balance sheets.

The goodwill related to the INTL Global Currencies acquisition is as follows:

Cash premium paid to sellers	\$ 1,000,000			
Cash paid for net assets received	3,577,375			
Negotiation differences for fixed assets and stamp duty	(49,982)			
Legal and accounting fees	67,047			
Value of 150,000 common shares at \$9.81 per share				
Total payments of cash and shares	6,065,940			
Less: Fair value of net assets received	3,577,375			
Less: Intangible assets identified by independent valuation	350,000			
Initial goodwill	2,138,565			
Additional goodwill under earnout	3,924,318			
Total goodwill	\$ 6,062,883			

The additional goodwill will be calculated for each period as each earn-out payment is earned and an adjustment will be recorded to goodwill. The first two earn-out installments of \$1,562,158 and \$400,000 were paid in August 2005 and November 2005, respectively. The third earn-out installment of \$400,000 is due on or by March 1, 2006. Four additional minimum payments of \$390,540 each are due on or by May 30, 2006, August 29, 2006, November 29, 2006 and March 1, 2007. These quarterly payments have a maximum ceiling of \$400,000. Further payments may be due, calculated at 10% of revenues exceeding \$10,000,000 in the annual period ending June 30, 2006, and 10% of revenue exceeding \$5,000,000 in the six month period ending December 31, 2006.

(11) Physical Commodities Inventory

The Company commenced physical base metals trading activities during the quarter ended December 31, 2005 and at the end of this quarter had physical base metals inventory of \$1,035,574. Physical commodities inventory is valued at the lower of cost or market value, determined using the specific identification weighted average price method.

(12) Trust Certificates and Total Return Swap

During the quarter ended December 31, 2004, the Company entered into a series of financial transactions (the Transactions) with an unaffiliated financial institution in Latin America for a transaction fee. These Transactions involved three distinct and simultaneous steps:

- a) the acquisition by the Company of beneficial interests (Trust Interests) in certain trusts (the Trusts) in exchange for the assumption of a liability to deliver securities, at a transaction value of \$29,739,902. This step did not require any prior purchase or delivery of securities by the Company. The Trusts were previously established by the financial institution to hold a variety of real estate assets;
- the entry into a repurchase agreement under the terms of which the Company notionally repurchased these undelivered securities for cash, at a price of \$29,739,902;
- c) the entry into a total return swap (TRS) agreement.
 - i) Under the TRS agreement the Company received, on a notional basis, the cash amount of \$29,739,902 as collateral for the potential liability of the financial institution to the Company.

ii) Receivables or payables arising from the TRS should leave the Company unaffected by any changes in the values of the Trust Interests or securities deliverable.

Notes to Condensed Consolidated Financial Statements, continued

- iii) When the Transactions terminate in November 2007 the Company intends to sell the Trust Interests at their then prevailing market values. As part of the Transactions, the gain or loss arising from the change in market value of the Trust Interests will be passed to the financial institution.
- iv) The Company has obtained legal advice on the Transactions and believes that the TRS agreement has been structured in such a way as to fully offset any changes in the value of the Trust Interests against its liability to deliver certain securities to the financial institution.

The initial transaction value was \$29,739,902. During September 2005 the Company sold Trust Interests for \$5,200,554, the price at which they were acquired, and released a proportionate share of the securities referred to in b) above from the repurchase arrangement.

Under FIN 39 the nominal payment and receipt of an equal amount of cash as described in b) and c) i) above have a net effect of zero on the Company s cash position, represent transactions with a single counterparty and may therefore be offset. Under FIN 39 the asset of securities receivable under the repurchase agreement in b) may be offset against the collateral liability of the Company in c) ii), since they involve an asset and liability position with a single counterparty.

The net result is that the Company reports the effects of a) above as an increase in assets of \$24,539,348 (represented by the Trust Interests), and the assumption of a liability to deliver securities. Over time, as the values of the Trust Interests and securities deliverable may change, the Company will experience equal and offsetting changes in the values of the TRS receivables or payables. Although the Transactions will temporarily increase the Company s assets and liabilities until termination, the Company expects that the only impact of the transactions on the Company s net cash flow will be the Company s receipt of fee revenue.

The total fees received and to be received on the Transactions, as well as the associated variable compensation payable, are spread on a straight-line basis over the terms of the Transactions. Non-refundable fees received but not yet recognized as revenue, amounting to \$146,956, appear as a liability on the Condensed Consolidated Balance Sheets as at December 31, 2005 under Other liabilities . Non-recoverable costs incurred in connection with the Transactions but not yet recognized as expenses, amounting to \$44,087, appear as an asset under Other assets at the same date.

(13) Financial Instruments with Off-Balance Sheet Risk and Concentrations of Credit Risk

The Company is party to certain financial instruments with off-balance sheet risk in the normal course of business as a registered securities broker-dealer and proprietary trading in the foreign exchange and commodities trading business. The Company has sold financial instruments that it does not currently own and will therefore be obligated to purchase such financial instruments at a future date. The Company has recorded these obligations in the consolidated financial statements at December 31, 2005 at market values of the related financial instruments (totaling \$71,411,248). The Company will incur losses if the market value of the financial instruments increases subsequent to December 31, 2005. The total of \$71,411,248 includes \$13,227,471 for options and futures contracts, which represent a liability of the Company based on their market value as of December 31, 2005.

Listed below is the fair value of trading-related derivatives as of December 31, 2005 and September 30, 2005. Assets represent net unrealized gains and liabilities represent net unrealized losses.

	December 31, 2005	December 31, 2005	September 30, 2005	September 30, 2005

Total	\$ 13,135,097	\$ 13,227,471	\$ 3,338,381	\$ 3,181,690

Options and futures contracts held by the Company result from its customer market-making and proprietary trading activities in the foreign exchange/commodities trading business segment. The Company assists its commodities clients in protecting the value of their future production (precious or base metals) by selling them put options on an OTC basis. The Company also provides its commodities clients with sophisticated option products, including combinations of buying and selling puts and calls. The Company mitigates its risk by effecting offsetting OTC options with market counterparties or through the purchase or sale of commodities futures traded through the COMEX division of the New York Mercantile Exchange. The risk mitigation of offsetting options is not within the documented hedging designation requirements of FAS 133.

These derivative contracts are traded along with cash transactions because of the integrated nature of the markets for such products. The Company manages the risks associated with derivatives on an aggregate basis along with the risks associated with its proprietary trading and market-making activities in cash instruments as part of its firm-wide risk management policies.

In the normal course of business, the Company purchases and sells financial instruments and foreign currency as either principal or agent on behalf of its customers. If either the customer or counterparty fails to perform, the Company may be required to discharge the obligations of the nonperforming party. In such circumstances, the Company may sustain a loss if the market value of the financial instrument or foreign currency is different from the contract value of the transaction.

The majority of the Company s transactions and, consequently, the concentration of its credit exposure is with customers, broker-dealers and other financial institutions. These activities primarily involve collateralized and uncollateralized arrangements and may result in credit exposure in the event that the counterparty fails to meet its contractual obligations. The Company s exposure to credit risk can be directly impacted by volatile financial markets, which may impair the ability of counterparties to satisfy their contractual obligations. The Company seeks to control its credit risk through a variety of reporting and control procedures, including establishing credit limits based upon a review of the counterparties financial condition and credit ratings. The Company monitors collateral levels on a daily basis for compliance with regulatory and internal guidelines and requests changes in collateral levels as appropriate.

(14) Payable to Banks Under Loans and Overdrafts

At December 31, 2005, the Company had five lines of credit with three commercial banks totaling \$45,000,000. Four of the credit facilities are secured by certain assets. Total interest expense related to these facilities was approximately \$228,400 for the quarter ended December 31, 2005. The interest rate terms for these facilities range from 1.25% to 2.75% over the London Interbank Offered Rates (LIBOR) (approximately 4.3% at December 31, 2005).

In addition, the Company has a \$5,000,000 line of credit with one commercial bank for the exclusive purpose of issuing letters of credit. This line of credit requires a 20% cash margin deposit and requires the security of the assets covered by the letter of credit. Letters of credit issued under this line of credit totaled \$1,400,000 at December 31, 2005.

At December 31, 2005 the Company had the following credit facilities:

_	Maximum Amount	Borrowing at ember 31, 2005	Security	Maturity
