The9 Reports Fourth Quarter and Fiscal Year 2005 Unaudited

Financial Results

Shanghai, China February 23, 2005 The9 Limited (NASDAQ: NCTY), a leading online game operator in China, today announced its unaudited financial results for the fourth quarter and fiscal year ended December 31, 2005.

Fourth Quarter 2005 Financial Highlights:

Net revenues for the fourth quarter of 2005 grew by 15% quarter-over-quarter and 2,407% year-over-year to RMB212.2 million (US\$26.3 million).

Net revenues attributable to the operation of World of Warcraft® (WoW), including game playing time, merchandise sales and other related revenues, were RMB211.2 million (US\$26.2 million) in the fourth quarter of 2005, a 15% increase from RMB183.5 million (US\$22.7 million) in the third quarter of 2005.*

Net income for the fourth quarter of 2005 was RMB68.3 million (US\$8.5 million), an 81% increase from RMB37.7 million (US\$4.7 million) in the third quarter of 2005.

Adjusted EBITDA (non-GAAP) was RMB108.9 million (US\$13.5 million) in the fourth quarter, compared with adjusted EBITDA (non-GAAP) of RMB58.1 million (US\$7.2 million) in the third quarter of 2005.

Fully diluted earnings per share (one American Depositary Share ADS represents one ordinary share) were RMB2.82 (US\$0.35) for the fourth quarter of 2005 compared with RMB1.54 (US\$0.19) for the third quarter of 2005. Fully diluted adjusted EBITDA (non-GAAP) per share were RMB4.50 (US\$0.56) for the fourth quarter of 2005 compared with RMB2.38 (US\$0.29) for the third quarter of 2005.

* We sell prepaid WoW playing time and recognize revenues from such sales based upon the actual usage of WoW playing time by end users. We are provided with data on end users' actual usage of WoW playing time by the licensor of WoW and do not otherwise have direct access to such information pursuant to the license agreement with the licensor.

Fiscal Year 2005 Financial Highlights:

Net revenues for the fiscal year 2005 grew by 1,239% year-over-year to RMB465.0 million (US\$57.6 million).

Net income for the fiscal year 2005 was RMB72.5 million (US\$9.0 million), a 196% increase year-over-year from RMB24.5 million (US\$3.0 million) in fiscal year 2004.

Adjusted EBITDA (non-GAAP) was RMB151.7 million (US\$18.8 million) for the fiscal year 2005, compared with adjusted EBITDA (non-GAAP) of RMB33.1 million (US\$4.1 million) for the fiscal year 2004.

Fully diluted earnings per share were RMB2.92 (US\$0.36) for the fiscal year 2005 and adjusted EBITDA (non-GAAP) per share were RMB6.12 (US\$0.76) for the fiscal year 2005, compared with fully diluted earnings per share RMB0.87 (US\$0.11) and fully diluted adjusted EBITDA (non-GAAP) per share RMB2.28 (US\$0.28) for the fiscal year 2004.

Management Comments:

Commenting on the fourth quarter and fiscal year 2005 results, Jun Zhu, Chairman and Chief Executive Officer of The9 Limited, said, "The fourth quarter of 2005 was once again a good quarter for our operation of Blizzard Entertainment's WoW in China. In the fourth quarter, we attained peak and average concurrent WoW users of approximately 530,000 and 270,000, respectively. As of December 31, 2005, approximately 3.3 million paid accounts have been activated. In addition, to further diversify and expand our game portfolio, in December 2005, we successfully obtained the exclusive license to operate Soul of The Ultimate Nation® (SUN), a highly anticipated Korean 3D massively multiplayer online role playing game (MMORPG), in China. We believe that SUN is a great addition to The9's impressive game portfolio of WoW and Granado Espada, which collectively will continue to bring fantastic entertainment experience to online game players throughout China."

Hannah Lee, Chief Financial Officer, commented, "We're very pleased to see WoW continue to show great revenue and earnings potential in the fourth quarter of 2005, growing 15% sequentially from the previous quarter. In 2005, we demonstrated our strong operational capability and have set a solid foundation for our long term growth. We are happy that the joint venture of which we have a 30% interest commercially launched the WoW game in other parts of Greater China in early November. We will continue to leverage the high popularity of WoW among Chinese game players while diversifying and expanding our game portfolio in order to deliver long-term sustainable shareholder value."

Discussion of The9 s Unaudited Fourth Quarter and Fiscal Year 2005 Results

Revenues

For the fourth quarter of 2005, The9 reported net revenues of RMB212.2 million (US\$26.3 million), a 15% increase from the third quarter of 2005. For the fiscal year 2005, net revenues increased by 1,239% to RMB465.0 million (US\$57.6 million) from RMB 34.7 million (US\$4.3 million) in the fiscal year 2004.

The significant revenue increase was mainly due to The9 s commercial operation of WoW in China which commenced in June 2005 and continued to grow in the third and fourth quarter of 2005. For the fourth quarter and fiscal year 2005, net revenues attributable to the operation of WoW, including game playing time, merchandise sales and other related revenues, were RMB211.2 million (US\$26.2 million) and RMB455.3 million (US\$56.4 million), respectively.

For the fourth quarter of 2005, online game services gross revenues were RMB220.7 million (US\$27.3 million), an increase of 16% from the third quarter of 2005. For the fiscal year of 2005, these revenues were RMB466.6 million (US\$57.8 million), compared with RMB0.4 million (US\$0.04 million) in the fiscal year of 2004.

For the fourth quarter of 2005, gross revenues from game operating support, website solutions and advertisement, which principally relate to the operation of MU by 9Webzen, were RMB0.9 million (US\$0.1 million), largely unchanged from the third quarter. For the fiscal year of 2005, these revenues were RMB6.1 million (US\$0.7 million), a decrease of 76% from RMB24.7 million (US\$3.1 million) in the fiscal year of 2004. The decrease in such revenues was mainly due to the decline in MU revenues.

Other revenues mainly included sales of game-related accessories and merchandises related to WoW. For the fourth quarter of 2005, other revenues decreased to RMB1.6 million (US\$0.2 million) from RMB3.1 million (US\$0.4 million) in the third quarter of 2005. Sales of WoW licensed merchandise were higher in the third quarter of 2005 immediately following the commercial launch of WoW as compared to the fourth quarter.

For the fiscal year of 2005, other revenues increased by 2,713% to RMB13.2 million (US\$1.6 million) from RMB0.5 million (US\$0.06 million) in the fiscal year of 2004. The increase was primarily due to the sales of WoW related merchandise and packages with WoW s commercial launch in June 2005.

Gross Profit

Gross profit for the fourth quarter of 2005 increased by 5% to RMB97.3 million (US\$12.1 million) from RMB92.6 million (US\$11.5 million) in the third quarter of 2005 mainly due to increased revenues. Gross profit margin declined to 46% for the fourth

Table of Contents

quarter of 2005 from 50% in the third quarter of 2005. This was primarily because we recorded three months of intangibles assets amortization related to The9's acquisition of the remaining 31.1% interest in the entity that operates WoW in China and full quarter depreciation relating to the fifth server site which was added in the third quarter, compared to only one month of the above mentioned amortization and depreciation in the third quarter of 2005.

For fiscal year 2005, gross profit improved 778% to RMB224.6 million (US\$27.8 million) from RMB25.6 million (US\$3.2 million) in the fiscal year of 2004. The year-over-year increase of gross profit was primarily due to revenues from our commercial operation of WoW in China, which commenced in June 2005.

Operating Expenses

For the fourth quarter of 2005, operating expenses increased by 6% to RMB44.7 million (US\$5.5 million) from RMB42.2 million (US\$5.2 million) in the third quarter of 2005. This was a combined result of increased product development expenses relating to the continuous development of our first self-developed game, Joyful Journey West and a new 3D MMORPG; increased general and administrative expenses due to expenses related to relocation to new office space, depreciation of fixed assets of new office and public company related professional fees. The increase in product development and general and administrative expenses is offset, to a large extent by reduction of sales and marketing expenses compared to the third quarter of 2005 when we conducted more marketing activities in the summer, particularly with the co-marketing campaign with Coca-Cola.

For the fiscal year 2005, operating expenses totaled RMB164.9 million (US\$20.4 million), a 366% increase from RMB35.3 million (US\$4.4 million) for the fiscal year of 2004. This was primarily due to the launch and operation of WoW in China in 2005.

Income from Operations

For the fourth quarter of 2005, profit from operations increased by 4% to RMB52.6 million (US\$6.5 million), compared with RMB50.4 million (US\$6.2 million) in the third quarter of 2005.

For the fiscal year of 2005, we recorded profit from operations of RMB59.7 million (US\$7.4 million), compared to a loss from operations of RMB9.8 million (US\$1.2 million) in the fiscal year of 2004. This was primarily due to the operation of WoW in China in 2005.

Other Income (Expenses)

Other income for the fourth quarter of 2005 was RMB12.2 million (US\$1.5 million) compared to other expenses of RMB2.8 million (US\$0.3 million) in the third quarter of 2005. This improvement was primarily due to financial subsidy of RMB13.4 million (US\$1.7 million) from the local government received in the fourth quarter.

Table of Contents

For the fiscal year of 2005, other income slightly decreased by 8% to RMB14.5 million (US\$1.8 million) from RMB15.8 million (US\$2.0 million) in the fiscal year of 2004. This was primarily due to decreased income from sales of Pass9, our proprietary integrated membership management and payment system, and foreign exchange loss due to the appreciation of the Chinese Renminbi as explained in our third quarter's earnings release, partially offset by the financial subsidy received as mentioned above.

Gain from Disposal of Certain Equity Interest

For the fourth quarter of 2005, we sold 21% of our equity interest in 9Webzen, a joint venture between The9 and Webzen that currently operates a 2.5D MMORPG, MU, to Webzen, thus reducing our equity interest in 9Webzen from 51% to 30%. We recognized approximately RMB6.7 million (US\$0.8 million) of gain from this transaction.

Equity in Profit (Loss) of Affiliated Companies

For the fourth quarter of 2005, equity in loss from affiliated companies, net of taxes, amounted to RMB4.6 million (US\$0.6 million), which was sequentially flat compared to a loss of RMB4.6 million (US\$0.6 million) for the third quarter of 2005.

For the fiscal year of 2005, we recorded RMB13.7 million (US\$1.7 million) of equity in losses from affiliated companies, net of taxes, compared to an income of RMB16.6 million (US\$2.0 million) for the fiscal year of 2004. This was primarily due to declined revenues in MU which resulted in a loss for 9Webzen in 2005, and also other companies of which we have equity interests are still in the development or early game commercialization stages.

Net Income

For the fourth quarter of 2005, net income was RMB68.3 million (US\$8.5 million), improved 81% sequentially from RMB37.7 million (US\$4.7 million) in the third quarter of 2005. This was a result of the cumulative effect of the foregoing factors, as well as the decrease in income allocated to minority interest relating to the 31.1% equity interest of China The9 Interactive Limited (C9I), due to the acquisition of the equity interest in C9I in late August 2005. Minority interest of approximately RMB9.3 million (US\$1.2 million) was recorded in the third quarter, compared with no comparable minority interest in the fourth quarter. Fully diluted earnings per share and per ADS for the fourth quarter of 2005 was RMB2.82 (US\$0.35), compared to RMB1.54 (US\$0.19) in the third quarter of 2005.

For the fiscal year 2005, net income totaled RMB72.5 million (US\$9.0 million), a 196% improvement from RMB24.5 million (US\$3.0 million) for the fiscal year 2004. Apart from the cumulative foregoing factors, this improvement was also because our effective income tax rate is approximately nil in fiscal year 2005 compared to approximately 83% for the fiscal year 2004 mainly due to the utilization of the deferred tax assets amounted

Table of Contents

to RMB 4.5 million (US\$0.6 million) in fiscal year 2004. Fully diluted earnings per share and per ADS for the fiscal year 2005 was RMB2.92 (US\$0.36), compared to RMB0.87 (US\$0.11) in the fiscal year 2004.

Adjusted EBITDA (non-GAAP) is defined as earnings or loss, respectively, before depreciation of fixed assets, impairment and amortization of intangibles, income tax expenses/benefits and share-based compensation expenses relating to stock options granted to directors, employees and consultants, as applicable. For the fourth quarter of 2005, adjusted EBITDA (non-GAAP) was RMB108.9 million (US\$13.5 million) compared to adjusted EBITDA (non-GAAP) of RMB58.1 million (US\$7.2 million) for the previous quarter. For fiscal year 2005, adjusted EBITDA (non-GAAP) totaled RMB151.7 million (US\$18.8 million) compared to adjusted EBITDA (non-GAAP) of RMB33.1 million (US\$4.1 million) for the fiscal year 2004.

For the fourth quarter of 2005, fully diluted adjusted EBITDA (non-GAAP) per share was RMB4.50 (US\$0.56) compared with RMB2.38 (US\$0.29) for the third quarter of 2005. For the fiscal year 2005, fully diluted adjusted EBITDA (non-GAAP) per share was RMB6.12 (US\$0.76) compared with adjusted EBITDA (non-GAAP) of RMB2.28 (US\$0.28).

As of December 31, 2005, the Company's total cash and cash equivalents balance was RMB488.2 million (US\$60.5 million). The decrease in cash and cash equivalents from RMB793.4 million (US\$98.3 million) as at December 31, 2004 was mainly due to the combined result of purchases of servers and prepaid royalty payments to licensor relating to WoW's China operations, and partial payments relating to the purchase of the remaining 31.1% interest in the entity that operates WoW in China, offset in part by receipts of prepaid card proceeds, repayments received against loan receivable and financial subsidy.

The conversion of Renminbi (RMB) into U.S. dollars (US\$) in this press release is based on the noon buying rate in The City of New York for cable transfers in Renminbi per U.S. dollar as certified for customs purposes by the Federal Reserve Bank of New York as of December 30, 2005 (the last business day of fourth quarter and fiscal year 2005), which was RMB8.0702 to US\$1.00. The percentages stated in this press release are calculated based on the RMB amounts.

Recent Developments

In December 2005, The9 announced that it has entered into an agreement with Webzen, Inc, a leading game developer and operator in Korea, for a three-year exclusive license (from commercialization) to operate the *Soul of The Ultimate Nation*TM (SUN) game, a 3D MMORPG in China. SUN is currently in the pre-open beta testing stage in Korea, and according to Webzen, SUN registered peak concurrent user level reached approximately 53,000 during this stage.

Non-GAAP Measures

To supplement the consolidated financial statements presented in accordance with accounting principles generally accepted in the United States (US GAAP), The9 uses non-GAAP measures of adjusted EBITDA, which are adjusted from the most directly comparable financial measures calculated and presented in accordance with GAAP to exclude certain expenses. These non-GAAP financial measures are provided to enhance investors' overall understanding of the company's financial performance.

Adjusted EBITDA (non-GAAP) is defined as earnings and loss, respectively, before depreciation of fixed assets, amortization of intangibles, income tax expenses/benefits and share-based compensation expenses relating to stock options granted to employees, directors and consultants, as applicable. The company believes its adjusted EBITDA provides useful information to both management and investors as it excludes certain expenses that are not expected to result in future cash payments. This non-GAAP measure should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. For more information on this non-GAAP financial measure, please see the tables captioned "Reconciliation of non-GAAP to GAAP results" set forth at the end of this release.
