Free Writing Prospectus**Dated March 16, 2006****4,500,000 Shares****Cerus Corporation****Common Stock**

This free writing prospectus relates only to the securities described below and should be read together with the preliminary prospectus supplement dated February 27, 2006 (including the base prospectus dated December 17, 2001 and the documents incorporated by reference therein) relating to these securities.

Public offering price. \$8.75 per share, with an underwriting discount of \$0.481 per share

Common stock to be outstanding after this offering. 26,957,729 shares, assuming no exercise of the over-allotment option

The number of shares of our common stock to be outstanding after this offering is based on 22,457,729 shares of capital stock outstanding as of December 31, 2005, and excludes an aggregate of 7,390,000 shares of common stock reserved for issuance under our equity compensation plans, of which 4,598,063 were subject to outstanding stock options as of December 31, 2005, at a weighted average exercise price of \$13.025 (the "Excluded Securities").

Use of Proceeds. We estimate that the net proceeds from this offering will be approximately \$36.9 million (or approximately \$42.5 million if the underwriters' over-allotment option is exercised in full), based on the public offering price of \$8.75 per share, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

As Adjusted Balance Sheet. The following as adjusted balance sheet as of December 31, 2005 gives effect to the issuance and sale of 4,500,000 shares of our common stock in the offering at a public offering price of \$8.75 per share, after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

Dilution.

The net tangible book value of our common stock on December 31, 2005 was approximately \$35.3 million, or \$1.57 per share. After giving effect to the sale by us of 4,500,000 shares of common stock in this offering at the public offering price of \$8.75 per share and after deducting underwriting discounts and commissions and estimated offering expenses payable by us, our net tangible book value at December 31, 2005 would have been approximately \$72.2 million, or \$2.68 per share. This represents an immediate increase in net tangible book value of \$1.11 per share to existing stockholders and an immediate dilution of \$6.07 per share to new investors purchasing shares of common stock in this offering. If the underwriters exercise their over-allotment option in full, the as adjusted net tangible book value as of December 31, 2005 would have been \$2.81 per share, representing an increase to existing stockholders of \$1.24 per share, and there will be immediate dilution of \$5.94 per share to new investors.

The foregoing information is based on the number of shares of capital stock outstanding as of December 31, 2005 and does not take into account further dilution to new investors that could occur upon the exercise or issuance of Excluded Securities with a per share exercise price or purchase price less than the public offering price.
