Mitsui Approves the Final Investment Decision of the Vincent Oil Project in Offshore Australia

Mitsui & Co., Ltd. (Mitsui) announces that its wholly owned subsidiary, Mitsui E&P Australia Pty Ltd. (MEPAU), approved the Final Investment Decision of the Vincent oil project, alongside Joint Venture partner Woodside Energy Ltd. (Woodside). Details of the Vincent project are as follows:

Location:	Permit Block WA-28-L in Offshore Northwestern Australia
Development Cost:	Approx. 720 Million U.S. Dollars (Net Cost for Mitsui: Approx. 290 Million U.S. Dollars)
Schedule:	Production to Commence in 2008
Peak Production:	Approx. 100,000 Barrels per Day
Operator:	Woodside (60% Share Holder)

In March of 2004, MEPAU acquired its 40% interest in each of WA-28-L and exploration block WA-271-P, which together contained three discovered but undeveloped oil fields: Enfield, Vincent, and Laverda. Enfield is currently under development with production scheduled to commence later this year, with peak production expected to be approximately 100,000 barrels per day.

Woodside is the largest oil and gas exploration and production company in Australia with a vast experience as an operator, including the operatorship role in the North West Shelf LNG Project, in which Mitsui also participates in. Mitsui has placed the Oceania region as one of its core areas of the Exploration and Production businesses, and aims to pursue continuous development and production of natural resources in the future.
