ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Alberto-Culver Company and its subsidiaries (the company) operate two businesses: Global Consumer Products and Beauty Supply Distribution. The Global Consumer Products business consists of two divisions: (1) Alberto-Culver Consumer Products Worldwide, which develops, manufactures, distributes and markets branded beauty care products as well as branded food and household products in the United States and more than 100 other countries, and (2) Cederroth International, which manufactures, markets and distributes beauty and health care products throughout Scandinavia and in Europe. For reporting purposes, these two divisions are included in the Global Consumer Products segment. The company's Beauty Supply Distribution business includes two segments: (1) Sally Beauty Supply, a domestic and international chain of cash-and-carry stores offering professional beauty supplies to both salon professionals and retail consumers, and (2) Beauty Systems Group (BSG), a full-service beauty supply distributor offering professional brands directly to salons through its own sales force and professional-only stores in exclusive geographical territories in North America.

The consolidated financial statements of the company contained in this report have not been audited by the company's independent registered public accounting firm, except for balance sheet information presented at September 30, 2005 which has been derived from the company's audited 2005 financial statements. However, in the opinion of the company, the consolidated financial statements reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the data contained therein. The results of operations for the periods presented are not necessarily indicative of results for a full year. Certain amounts for the prior year have been reclassified to conform to the current year's presentation.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the financial statements. Actual results may differ from those estimates. Management believes these estimates and assumptions are reasonable.

Effective October 1, 2005, the company adopted Financial Accounting Standards Board's (FASB) Statement of Financial Accounting Standards (SFAS) No. 123 (R), Share-Based Payment, using the modified prospective method. Under this method, compensation expense is recognized for new stock option grants beginning in fiscal year 2006 and for the unvested portion of outstanding stock options that were granted prior to the adoption of SFAS No. 123 (R). The company recognizes compensation expense on a straight-line basis over the vesting period or to the date a participant becomes eligible for retirement, if earlier. In accordance with the modified prospective method, the financial statements for prior periods have not been restated. See note 5 for further discussion of the adoption and the impact on the second quarter and first half of fiscal year 2006.

During the second quarter of fiscal year 2006, the company determined that certain of the Beauty Supply Distribution business' warehousing and distribution costs previously classified in the consolidated statements of earnings as components of advertising, marketing, selling and administrative expenses should be classified as cost of products sold to be consistent with the company's policy of capitalizing these costs in inventory. As a result, the company has reclassified expenses related to purchasing costs, freight from distribution centers to the stores and handling costs in the distribution centers for all periods presented. These costs amounted to \$44.5 million for the first half of fiscal year 2006 (with \$22.5 million of that amount related to the second quarter) and \$41.7 million for the first six months of fiscal year 2005 (with \$21.7 million of that amount related to the second quarter). The reclassifications had no effect on earnings.

These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the annual report on Form 10-K for the fiscal year ended September 30, 2005.

(2) CONVERSION TO ONE CLASS OF COMMON STOCK

On October 22, 2003, the Board of Directors approved the conversion of all of the issued shares of Class A common stock into Class B common stock on a one share-for-one share basis in accordance with the terms of the company's certificate of incorporation. The conversion became effective after the close of business on November 5, 2003. Following the conversion, all outstanding options to purchase shares of Class A common stock became options to purchase an equal

number of shares of Class B common stock. On January 22, 2004, all shares of Class B common stock were redesignated as common stock. The single class of common stock continues to trade on the New York Stock Exchange under the symbol ACV.

Prior to the adoption of SFAS No. 123 (R), as discussed in note 5, the company accounted for stock compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, which required the company to recognize a non-cash charge from the remeasurement of the intrinsic value of all Class A stock options outstanding on the conversion date. A portion of this non-cash charge was recognized on the conversion date for vested stock options and the remaining non-cash charges related to unvested stock options and restricted shares was being recognized over the remaining vesting periods. In the first half of fiscal year 2005, the company recorded non-cash charges against pre-tax earnings of \$7.4 million (\$4.8 million after tax) with \$3.6 million (\$2.3 million after tax) recognized in the second quarter. The non-cash charges reduced earnings before provision for income taxes, provision for income taxes, net earnings and basic and diluted net earnings per share. The net balance sheet effect of the options remeasurement increased total stockholders' equity by \$2.6 million in the first half of fiscal year 2005, and resulted in the recognition of deferred tax assets of the same amount. Due to the adoption of SFAS No. 123 (R) effective October 1, 2005, the amount of the non-cash charge affecting the second quarter and first half of fiscal year 2006 was approximately \$1,000 and \$2,000, respectively. The non-cash charge had no effect on the operating profits or cash flows of the company's business segments or the consolidated cash flows of the company.

(3) STOCKHOLDERS' EQUITY

On April 28, 2005, the Board of Directors authorized the company to purchase up to 5,000,000 shares of common stock. No shares have been purchased under this authorization as of March 31, 2006.

During the six months ended March 31, 2006 and 2005, the company acquired \$2.1 million and \$2.3 million, respectively, of common stock surrendered by employees in connection with the exercises of stock options and the payment of withholding taxes as provided under the terms of certain incentive plans. Shares acquired under these plans are not subject to the company's stock repurchase program.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Notes to Consolidated Financial Statements (continued)

(4) WEIGHTED AVERAGE SHARES OUTSTANDING (continued)

The computations of diluted weighted average shares outstanding for the three and six months ended March 31, 2006 exclude stock options for 38,000 shares since total assumed proceeds for the options calculated in accordance with the treasury stock method were greater than the average market price and therefore the options were anti-dilutive. Stock options for 30,000 shares were anti-dilutive for the three and six months ended March 31, 2005 since the options' exercise prices were greater than the average market price.

(5) ACCOUNTING FOR STOCK-BASED COMPENSATION

The company provides stock-based compensation under two stock option plans that have been approved by its stockholders. Under these plans, the company is authorized to issue non-qualified stock options to employees and non-employee directors to purchase a limited number of shares of the company's common stock at a price not less than the fair market value of the stock on the date of grant. Generally, options under the plans expire ten years from the date of grant and are exercisable on a cumulative basis in four equal annual increments commencing one year after the date of grant. A total of 9.2 million shares have been authorized to be issued under the plans, of which 2.9 million shares remain available for future grants as of March 31, 2006. The company also has stock options outstanding under two previous plans which, upon the adoption of the current plans, can no longer issue new grants. The company expects to use treasury shares upon the exercise of stock options for the foreseeable future.

Prior to fiscal year 2006, SFAS No. 123, Accounting for Stock-Based Compensation, required either the adoption of a fair value based method of accounting for stock-based compensation or the continuance of the intrinsic value method with pro-forma disclosures as if the fair value method was adopted. The company had elected to measure compensation expense for its stock-based plans using the intrinsic value method prescribed by APB Opinion No. 25, and, accordingly, no compensation cost related to stock options had been recognized in the consolidated statements of earnings, except for the non-cash charge related to the conversion to one class of common stock discussed in note 2.

Effective October 1, 2005, the company adopted SFAS No. 123 (R) using the modified prospective method. Under this method, compensation expense is recognized for new stock option grants beginning in fiscal year 2006 and for the unvested portion of outstanding stock options that were granted prior to the adoption of SFAS No. 123 (R). The company recognizes compensation expense on a straight-line basis over the vesting period or to the date a participant becomes eligible for retirement, if earlier. In accordance with the modified prospective method, the financial statements for prior periods have not been restated.

In the second quarter of fiscal year 2006, the company recorded stock option expense that reduced earnings before provision for income taxes by \$3.1 million, provision for income taxes by \$1.1 million, net earnings by \$2.0 million and basic and diluted net earnings per share by two cents. In the first half of fiscal year 2006, the company recorded stock option expense that reduced earnings before provision for income taxes by \$10.0 million, provision for income taxes by \$3.5 million, net earnings by \$6.5 million and basic and diluted net earnings per share by seven cents. The expense recorded in the first quarter of fiscal year 2006 included the immediate expensing of the fair value of stock options granted during the quarter to participants who had already met the definition of retirement under the stock option plans. The stock option expense was included in advertising, marketing, selling and administrative expenses in the consolidated statements of earnings. The net balance sheet effect of recognizing stock option expense increased total stockholders' equity by \$3.5 million in the first half of fiscal year 2006 and resulted in the recognition of deferred tax assets of the same amount. The company's consolidated statement of cash flows for the six months ended March 31, 2006 reflects \$777,000 of excess tax benefits from employee stock option exercises as a financing cash inflow in accordance with the provisions of SFAS No. 123 (R) which became effective October 1, 2005. For the six months ended March 31, 2005, the company's consolidated statement of cash flows reflects \$3.3 million of excess tax benefits from employee stock option exercises as an operating cash inflow.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Notes to Consolidated Financial Statements (continued)

(5) ACCOUNTING FOR STOCK-BASED COMPENSATION (continued)

The weighted average fair value of stock options at the date of grant during the three and six months ended March 31, 2006 was \$8.90 and \$9.41, respectively. The weighted average fair value of stock options at the date of grant during the three and six months ended March 31, 2005 was \$12.45 and \$9.39, respectively. The fair value of each stock option grant was estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions:

	Three Months Ended		Six Months Ended	
	March 31		March 31	
	2006	2005	2006	2005
Expected life	4.5 years	5 years	4.5 years	3.5 - 5 years
Volatility	20.0%	20.0%	20.0%	20.0%
Risk-free interest rate	4.4%	3.9%	4.2% - 4.4%	3.3% - 3.9%
Dividend yield	1.0%	0.9%	1.0%	0.9%

The expected life of stock options represents the period of time that the stock options granted are expected to be outstanding based on historical exercise trends. The expected volatility is based on the historical volatility of the company's common stock. The risk-free interest rate represents the U.S. Treasury bill rate for the expected life of the related stock options. The dividend yield represents the company's anticipated cash dividend over the expected life of the stock options.

Stock option activity under the plans is summarized as follows:

	Number of Options (in thousands)	Weighted Average Option Price	Average Remaining Contractual Life	Aggregate Intrinsic Value (in thousands)
Outstanding at September 30, 2005	6,487	\$ 32.79		
Granted	1,599	\$ 44.40		
Exercised	(765)	\$ 23.83		
Canceled	(64)	\$ 37.57		
Outstanding at March 31, 2006	7,257	\$ 36.25	7.9 years	\$ 57,938
Exercisable at March 31, 2006	3,390	\$ 29.52	6.7 years	\$ 49,890

The total fair value of stock options that vested during the first half of fiscal year 2006 and 2005 was \$501,000 (\$268,000 in the second quarter) and \$337,000 (\$254,000 in the second quarter), respectively. The total intrinsic value of stock options exercised during the first half of fiscal year 2006 and 2005 was \$15.8 million (\$13.7 million in the second quarter) and \$32.4 million (\$23.3 million in the second quarter), respectively. The tax benefit realized from stock options exercised during the first half of fiscal year 2006 and 2005 was \$5.3 million (\$4.7 million in the second quarter) and \$10.8 million (\$8.1 million in the second quarter), respectively. As of March 31, 2006, the company had \$20.3 million of unrecognized compensation cost related to stock options that is expected to be recorded over a weighted average period of 2.4 years.

The company is also authorized to grant up to 900,000 restricted shares of common stock to employees under a restricted stock plan that has been approved by stockholders. As of March 31, 2006, approximately 796,000 shares remain authorized for future issuance under the plan. In addition, the company has restricted shares outstanding under a previous restricted stock plan which, upon the adoption of the current plan, can no longer issue new grants. The restricted shares outstanding under these plans meet the definition of "nonvested shares" in SFAS No. 123 (R). The restricted shares generally vest on a cumulative basis in four equal annual installments commencing two years after the date of grant. The

total fair market value of restricted shares on the date of grant is amortized to expense on a straight-line basis over the vesting period. The amortization expense related to restricted shares during the three months ended March 31, 2006 and 2005 was \$472,000 and \$261,000, respectively. The amortization expense related to restricted shares during the six months ended March 31, 2006 and 2005 was \$900,000 and \$687,000, respectively.

Restricted share activity under the plans is summarized as follows (shares in thousands):

	Number of Shares	Weighted Average Fair Value on Grant Date
Nonvested at September 30, 2005	168	\$ 24.29
Granted	44	\$ 44.40
Vested	(11)	\$ 19.39
Forfeited	(6)	\$ 14.94
Nonvested at March 31, 2006	195	\$ 29.38

The unamortized balance of restricted shares was included in unearned compensation, a separate component of stockholders' equity, as of September 30, 2005 and was reclassified to additional paid-in capital upon the adoption of SFAS No. 123 (R). As of March 31, 2006, the company had \$4.0 million of unearned compensation related to restricted shares that will be amortized to expense over a weighted average period of 3.4 years.

Had compensation expense for stock option plans been determined based upon the fair value of stock options on the dates of grant and recognized over the vesting period consistent with SFAS No. 123, the company's pro-forma net earnings and net earnings per share for the three and six months ended March 31, 2005 would have been as follows (in thousands, except per share amounts):

	Three Months Ended March 31, 2005	Six Months Ended March 31, 2005

The \$2.5 million and \$5.2 million additions to reported net income for the three and six months ended March 31, 2005, respectively, for stock-based compensation expense include \$2.3 million and \$4.8 million, respectively, of after-tax non-cash charges related to the conversion to a single class of common stock for the same periods. The \$1.9 million and \$6.3 million deductions for the three and six months ended March 31, 2005, respectively, for stock-based compensation expense determined under the fair-value based method include \$6,000 and \$11,000, respectively, of pro-forma after-tax non-cash charges related to the conversion to a single class of common stock for the same periods. See note 2 for further discussion of the conversion.

In January, 2004, the company amended the retirement provisions of its stock option plans to change the definition of retirement and to allow for the continuation of vesting after retirement. As a result of implementation guidance provided in SFAS No. 123 (R), and other minor adjustments, the company has modified its pro-forma disclosures for the prior period.

(6) COMPREHENSIVE INCOME

Comprehensive income consists of net earnings and foreign currency translation adjustments as follows (in thousands):

	Three Months		Six Months Ended	
	Ended March 31		March 31	
	2006	2005	2006	2005

Comprehensive income	\$ 59,147	39,241	105,068	113,813

The net earnings and comprehensive income amounts for the three and six months ended March 31, 2006 include \$2.0 million and \$6.5 million, respectively, of stock option expense as a result of the company adopting SFAS No. 123 (R). See note 5 for further discussion of stock option expense. The net earnings and comprehensive income amounts for the three and six months ended March 31, 2006 also include \$1.0 million and \$3.5 million, respectively, of transaction expenses related to the proposed spin/merge of Sally Holdings Inc. (Sally Holdings) with Regis Corporation (Regis) that was terminated in early April, 2006. See note 11 for further discussion of the transaction. The net earnings and comprehensive income amounts for the three and six months ended March 31, 2005 include \$2.3 million and \$4.8 million, respectively, of after-tax non-cash charges related to the conversion to a single class of common stock. The non-cash charge, net of income taxes, for the three and six months ended March 31, 2006 was approximately \$1,000 and \$2,000, respectively. See note 2 for further discussion of the conversion.

(8) GOODWILL AND TRADE NAMES

The change in the carrying amount of goodwill by operating segment for the six months ended March 31, 2006 is as follows (in thousands):

	Global Consumer Products	Sally Beauty Supply	Beauty Systems Group	Total
Balance as of September 30, 2005	\$ 197,607	10,089	343,461	551,157

(9) ACQUISITIONS

On December 31, 2004, the company acquired CosmoProf, a full-service distributor of professional beauty products, in order to expand the geographic area served by Beauty Systems Group. The total purchase price was \$91.2 million, with \$84.8 million of this amount paid at closing. The remaining \$6.4 million of purchase price was paid in the third and fourth quarters of fiscal year 2005 upon finalization of the closing balance sheet. Goodwill of \$54.8 million, trade names of \$19.7 million and other intangible assets of \$4.9 million were recorded as a result of the acquisition, substantially all of which are expected to be deductible for tax purposes. The acquisition was accounted for using the purchase method and, accordingly, the results of operations of CosmoProf are included in the consolidated financial statements from the date of acquisition. CosmoProf is included in the company's Beauty Systems Group segment. Pro-forma information for CosmoProf is not provided since it is not material to the company's consolidated results of operations.

On May 18, 2005, the company acquired substantially all the assets of Nexxus. The company expects the Nexxus line of hair care products to expand its market share in the hair care category and provide higher profit margins. The total amount paid for the acquisition was \$46.5 million. In accordance with the purchase agreement, additional consideration of up to \$55.0 million may be paid over the ten years following the closing of the acquisition based on a percentage of sales of Nexxus branded products. Such additional consideration will be accrued in the period the company becomes obligated to pay the amounts and will increase the amount of goodwill resulting from the acquisition. As of March 31, 2006, the company owed \$2.3 million of additional consideration which is expected to be paid in the fourth quarter of fiscal year 2006. Goodwill of \$30.1 million, a trade name of \$12.6 million and other intangible assets of \$2.0 million have been recorded as a result of the acquisition and are expected to be deductible for tax purposes. The acquisition was accounted for using the purchase method and, accordingly, the results of operations of Nexxus have been included in the consolidated financial statements from the date of acquisition. Nexxus is included in the company's Global Consumer Products segment. Pro-forma information for Nexxus is not provided since it is not material to the company's consolidated results of operations.

(10) LEASE ACCOUNTING ADJUSTMENT

In February, 2005, the Securities and Exchange Commission (SEC) issued a letter expressing its interpretations of certain lease accounting issues relating to the amortization of leasehold improvements, the recognition of rent expense when leases have rent holidays and allowances received by tenants for leasehold improvements. As a result of a review of its historical lease accounting practices, the company found some deviations to these interpretations and recorded a pre-tax, non-cash charge in the second quarter of fiscal year 2005 of \$2.5 million (\$1.6 million after tax) which reduced basic and diluted net earnings per share by two cents. In addition, this adjustment increased fixed assets by \$2.0 million and other liabilities by \$4.5 million as of March 31, 2005.

(11) TERMINATED SALLY HOLDINGS SPIN/MERGE TRANSACTION

On January 10, 2006, the company entered into an agreement with Regis to merge Sally Holdings, a wholly-owned subsidiary of the company, with Regis in a tax-free transaction. Sally Holdings is comprised of the company's Sally Beauty Supply and Beauty Systems Group business segments. Pursuant to the terms and conditions of the merger agreement, Sally Holdings was to be spun off to the company's stockholders by way of a tax-free distribution and, immediately thereafter, combined with Regis in a tax-free stock-for-stock merger. In connection with this transaction, the company incurred transaction expenses, primarily legal and investment banking fees, in the first half of fiscal year 2006 totaling \$5.7 million (\$3.5 million after tax) with the second quarter amount totaling \$3.6 million (\$1.0 million after tax which includes a tax benefit for transaction expenses not previously expected to be tax deductible).

On April 5, 2006, the company provided notice to Regis that its Board of Directors had withdrawn its recommendation for shareholders to approve the transaction. Following the company's notice to Regis, also on April 5, 2006, Regis provided notice to the company that it was terminating the merger agreement effective immediately. In connection with the termination of the merger agreement, the company paid Regis a \$50.0 million termination fee on April 10, 2006 and will record a pre-tax charge in the third quarter of fiscal year 2006 for this payment and any other transaction related expenses incurred after March 31, 2006. All transaction related expenses incurred, including the termination fee, are expected to be deductible for tax purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DESCRIPTION OF BUSINESS

Alberto-Culver Company and its subsidiaries (the company) operate two businesses: Global Consumer Products and Beauty Supply Distribution. The Global Consumer Products business consists of two divisions: (1) Alberto-Culver Consumer Products Worldwide, which develops, manufactures, distributes and markets branded beauty care products as well as branded food and household products in the United States and more than 100 other countries, and (2) Cederroth International, which manufactures, markets and distributes beauty and health care products throughout Scandinavia and in Europe. For reporting purposes, these two divisions are included in the Global Consumer Products segment. The company's Beauty Supply Distribution business includes two segments: (1) Sally Beauty Supply, a domestic and international chain of cash-and-carry stores offering professional beauty supplies to both salon professionals and retail consumers, and (2) Beauty Systems Group (BSG), a full-service beauty supply distributor offering professional brands directly to salons through its own sales force and professional-only stores in exclusive geographical territories in North America.

OVERVIEW

NON-GAAP FINANCIAL MEASURES

The company's financial results in the second quarter and first half of fiscal year 2006 were affected by three non-core items: stock option expense recorded in accordance with Statement of Financial Accounting Standards (SFAS) No. 123 (R), Share-Based Payment; fees and expenses related to the proposed spin/merge of Sally Holdings, Inc. (Sally Holdings) with Regis Corporation (Regis) which was terminated in early April, 2006; and a non-cash charge related to the company's conversion to one class of common stock. In addition, the non-cash charge from the conversion to one class of common stock also affected the second quarter and first half of fiscal year 2005. In the first quarter of fiscal year 2006 the company began recording stock option expense in accordance with SFAS No. 123 (R). As allowed by the statement, the company elected not to restate its previously issued financial statements; therefore, the company's fiscal year 2006 results are not directly comparable to the results of prior year periods. In addition, the stock option expense had no effect on the operating profits or cash flows of the company's business segments or the consolidated cash flows of the company. The Sally Holdings spin/merge transaction costs relate to a proposed transaction that was contemplated by the company rather than the normal ongoing operations of the company's businesses and had no effect on the operating profits of the company's business segments. The non-cash charges relate to a change in the capital structure of the company rather than the normal operations of the company's core businesses and had no effect on the operating profits or cash flows of the company's business segments or the consolidated cash flows of the company.

To supplement the company's financial results presented in accordance with U.S. generally accepted accounting principles (GAAP), net earnings excluding non-core items, basic net earnings per share excluding non-core items and diluted net earnings per share excluding non-core items are disclosed in the Results of Operations section of Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A). In addition, the company discloses organic sales growth which measures the growth in net sales excluding the effects of foreign exchange rates, acquisitions and a divestiture. These measures are non-GAAP financial measures as defined by Regulation G of the Securities and Exchange Commission (SEC). The non-GAAP financial measures are not intended to be, and should not be, considered separately from or as alternatives to the most directly comparable GAAP financial measures of net earnings, basic net earnings per share, diluted net earnings per share and net sales growth. These specific non-GAAP financial measures, including the per share measures, are presented in MD&A with the intent of providing greater transparency to supplemental financial information used by management and the company's board of directors in their financial and operational decision-making. These non-GAAP financial measures are among the primary indicators that management and the board of directors use as a basis for budgeting, making operating and strategic decisions and evaluating performance of the company and management as they provide meaningful supplemental information regarding the normal ongoing operations of the company and its core businesses. In addition, these non-GAAP financial measures are used by management and the board of directors to facilitate internal comparisons to the company's historical operating results. These amounts are disclosed so that the reader has the same financial data that management uses with the belief that it will assist investors and other readers in making comparisons to the company's historical operating results and analyzing the underlying performance of the company's normal ongoing operations for the periods presented. Management believes that

the presentation of these non-GAAP financial measures, when considered along with the company's GAAP financial measures and the reconciliations to the corresponding GAAP financial measures, provides the reader with a more complete understanding of the factors and trends affecting the company than could be obtained absent these disclosures. It is important for the reader to note that the non-GAAP financial measures used by the company may be calculated differently from, and therefore may not be comparable to, similarly titled measures used by other companies. Reconciliations of these measures to their most directly comparable GAAP financial measures are provided in the Reconciliation of Non-GAAP Financial Measures section of MD&A and should be carefully evaluated by the reader.

ACCOUNTING FOR STOCK-BASED COMPENSATION

Effective October 1, 2005, the company adopted SFAS No. 123 (R) using the modified prospective method. Under this method, compensation expense is recognized for new stock option grants beginning in fiscal year 2006 and for the unvested portion of outstanding stock options that were granted prior to the adoption of SFAS No. 123 (R). The company recognizes compensation expense on a straight-line basis over the vesting period or to the date a participant becomes eligible for retirement, if earlier. In accordance with the modified prospective method, the financial statements for prior periods have not been restated. In the second quarter of fiscal year 2006, the company recorded stock option expense that reduced earnings before provision for income taxes by \$3.1 million, provision for income taxes by \$1.1 million, net earnings by \$2.0 million and basic and diluted net earnings per share by two cents. In the first half of fiscal year 2006, the company recorded stock option expense that reduced earnings before provision for income taxes by \$10.0 million, provision for income taxes by \$3.5 million, net earnings by \$6.5 million and basic and diluted net earnings per share by seven cents. The expense recorded in the first quarter of fiscal year 2006 included the immediate expensing of the fair value of stock options granted during the quarter to participants who had already met the definition of retirement under the stock option plans. The net balance sheet effect of recognizing stock option expense increased total stockholders' equity by \$3.5 million in the first half of fiscal year 2006 and resulted in the recognition of deferred tax assets of the same amount. The company's consolidated statement of cash flows for the six months ended March 31, 2006 reflects \$777,000 of excess tax benefits from employee stock option exercises as a financing cash inflow in accordance with the provisions of SFAS No. 123 (R).

As of March 31, 2006, the company had \$20.3 million of unrecognized compensation cost related to stock options that is expected to be recorded over a weighted average period of 2.4 years and \$4.0 million of unearned compensation related to restricted shares that will be amortized to expense over a weighted average period of 3.4 years. The unamortized balance of restricted shares was included in unearned compensation, a separate component of stockholders' equity, as of September 30, 2005 and was reclassified to additional paid-in capital upon the adoption of SFAS No. 123 (R).

TERMINATED SALLY HOLDINGS SPIN/MERGE TRANSACTION

On January 10, 2006, the company entered into an agreement with Regis to merge Sally Holdings, a wholly-owned subsidiary of the company, with Regis in a tax-free transaction. Sally Holdings is comprised of the company's Sally Beauty Supply and Beauty Systems Group business segments. Pursuant to the terms and conditions of the merger agreement, Sally Holdings was to be spun off to the company's stockholders by way of a tax-free distribution and, immediately thereafter, combined with Regis in a tax-free stock-for-stock merger. In connection with this transaction, the company incurred transaction expenses, primarily legal and investment banking fees, in the first half of fiscal year 2006 totaling \$5.7 million (\$3.5 million after tax) with the second quarter amount totaling \$3.6 million (\$1.0 million after tax which includes a tax benefit for transaction expenses not previously expected to be tax deductible).

On April 5, 2006, the company provided notice to Regis that its Board of Directors had withdrawn its recommendation for shareholders to approve the transaction. Following the company's notice to Regis, also on April 5, 2006, Regis provided notice to the company that it was terminating the merger agreement effective immediately. In connection with the termination of the merger agreement, the company paid Regis a \$50.0 million termination fee on April 10, 2006 and will record a pre-tax charge in the third quarter of fiscal year 2006 for this payment and any other transaction related expenses incurred after March 31, 2006. All transaction related expenses incurred, including the termination fee, are expected to be deductible for tax purposes.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

OVERVIEW (continued)*NON-CASH CHARGE*

As discussed in note 2 to the Consolidated Financial Statements, on October 22, 2003, the Board of Directors approved the conversion of all of the issued shares of Class A common stock into Class B common stock on a one share-for-one share basis in accordance with the terms of the company's certificate of incorporation. The conversion became effective after the close of business on November 5, 2003. Following the conversion, all outstanding options to purchase shares of Class A common stock became options to purchase an equal number of shares of Class B common stock. On January 22, 2004, all shares of Class B common stock were redesignated as common stock. The single class of common stock continues to trade on the New York Stock Exchange under the symbol ACV.

Prior to the adoption of SFAS No. 123 (R), the company accounted for stock compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, which required the company to recognize a non-cash charge from the remeasurement of the intrinsic value of all Class A stock options outstanding on the conversion date. A portion of this non-cash charge was recognized on the conversion date for vested stock options and the remaining non-cash charges related to unvested stock options and restricted shares was being recognized over the remaining vesting periods. In the first half of fiscal year 2005, the company recorded non-cash charges against pre-tax earnings of \$7.4 million (\$4.8 million after tax) with \$3.6 million (\$2.3 million after tax) recognized in the second quarter. The non-cash charges reduced earnings before provision for income taxes, provision for income taxes, net earnings and basic and diluted net earnings per share. The net balance sheet effect of the options remeasurement increased total stockholders' equity by \$2.6 million in the first half of fiscal year 2005, and resulted in the recognition of deferred tax assets of the same amount. Due to the adoption of SFAS No. 123 (R) effective October 1, 2005, the amount of the non-cash charge affecting the second quarter and first half of fiscal year 2006 was approximately \$1,000 and \$2,000, respectively. The non-cash charge had no effect on the operating profits or cash flows of the company's business segments or the consolidated cash flows of the company.

RECLASSIFICATION

During the second quarter of fiscal year 2006, the company determined that certain of the Beauty Supply Distribution business' warehousing and distribution costs previously classified in the consolidated statements of earnings as components of advertising, marketing, selling and administrative expenses should be classified as cost of products sold to be consistent with the company's policy of capitalizing these costs in inventory. As a result, the company has reclassified expenses related to purchasing costs, freight from distribution centers to the stores and handling costs in the distribution centers for all periods presented. These costs amounted to \$44.5 million for the first half of fiscal year 2006 (with \$22.5 million of that amount related to the second quarter) and \$41.7 million for the first six months of fiscal year 2005 (with \$21.7 million of that amount related to the second quarter). The reclassifications had no effect on earnings.

LEASE ACCOUNTING ADJUSTMENT

In February, 2005, the SEC issued a letter expressing its interpretations of certain lease accounting issues relating to the amortization of leasehold improvements, the recognition of rent expense when leases have rent holidays and allowances received by tenants for leasehold improvements. As a result of a review of its historical lease accounting practices, the company found some deviations to these interpretations and recorded a pre-tax, non-cash charge in the second quarter of fiscal year 2005 of \$2.5 million (\$1.6 million after tax) which reduced basic and diluted net earnings per share by two cents. In addition, net fixed assets were increased by \$2.0 million and other liabilities were increased by \$4.5 million.

RESULTS OF OPERATIONSSecond Fiscal Quarter and Six Months Ended March 31, 2006 versus Second Fiscal Quarter and Six Months Ended March 31, 2005

The company achieved record second quarter net sales of \$946.8 million in fiscal year 2006, up \$62.7 million or 7.1% over the comparable period of the prior year. For the six months ended March 31, 2006, net sales reached a new high of \$1.85 billion, representing a 6.6% increase compared to last year's six-month period. The effect of foreign exchange rates decreased sales by 1.0% in both the second quarter and first half of fiscal year 2006. Organic sales, which exclude the

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

RESULTS OF OPERATIONS (continued)

effects of foreign exchange rates, acquisitions and a divestiture, grew 7.7% during the second quarter and 5.9% during the first half of fiscal year 2006. Organic sales growth for the second quarter and first half of fiscal year 2006 includes the effect of sales related to the launch of Nexxus into retail channels.

Net earnings were \$56.9 million for the three months ended March 31, 2006 versus \$49.1 million for the same period of the prior year. Net earnings for the second quarter of fiscal years 2006 and 2005 were reduced by \$3.0 million and \$2.3 million, net of income taxes, respectively, as a result of the non-core items discussed in the Overview section of MD&A. Basic net earnings per share were 62 cents in the second quarter of fiscal year 2006 versus 54 cents in the same period of fiscal year 2005. Diluted net earnings per share for the current quarter increased to 61 cents from 53 cents in the same period of the prior year. In the second quarter of fiscal year 2006, non-core items decreased basic and diluted net earnings per share by three cents. In the second quarter of fiscal year 2005, the non-core item reduced basic and diluted net earnings per share by two cents.

Excluding non-core items, net earnings were \$59.9 million for the three months ended March 31, 2006 or 16.5% higher than net earnings of \$51.4 million in the second quarter of fiscal year 2005. Basic net earnings per share excluding non-core items were 65 cents in the second quarter of fiscal year 2006, which was nine cents or 16.1% higher than the same period of fiscal year 2005. Diluted net earnings per share excluding non-core items increased 16.4% to 64 cents from 55 cents in the same period of the prior year.

Net earnings for the six months ended March 31, 2006 were \$109.0 million versus \$98.5 million in the prior year. Net earnings were lowered by \$10.0 million and \$4.8 million, net of income taxes, in the first half of fiscal years 2006 and 2005, respectively, as a result of the non-core items discussed in the Overview section of the MD&A. Basic net earnings per share were \$1.18 in the first half of fiscal year 2006 versus \$1.08 in the same period of fiscal year 2005. Diluted net earnings per share were \$1.17 for the first half of fiscal year 2006 compared to \$1.06 in the prior year. In the first half of fiscal year 2006, non-core items reduced basic and diluted net earnings per share by 11 cents. In the first half of fiscal year 2005, the non-core item reduced basic and diluted net earnings per share by five cents.

Excluding non-core items, net earnings were \$119.0 million for the six months ended March 31, 2006 or 15.2% higher than the prior year's first half net earnings of \$103.3 million. Basic net earnings per share excluding non-core items were \$1.29 in the first half of fiscal year 2006, which was 16 cents or 14.2% higher than the same period of fiscal year 2005. Diluted net earnings per share excluding non-core items for the first half of 2006 increased 15.3% to \$1.28 from \$1.11 in the same period of the prior year.

Compared to the same periods of the prior year, sales of Global Consumer Products increased 13.0% and 9.2% in the second quarter and first six months of fiscal year 2006, respectively. The second quarter and first half increases were partially offset by the effect of foreign exchange rates, which decreased sales by 2.2% and 2.3% in the second quarter and first half of fiscal year 2006, respectively. The second quarter and first half sales increases were primarily due to the launch of Nexxus into retail channels and higher sales of TRESemmé shampoos, conditioners and styling products in the U.S.

Sales of the Beauty Supply Distribution business, composed of Sally Beauty Supply and BSG, were \$581.1 million in the second quarter and \$1.17 billion for the first six months of fiscal year 2006, representing an increase of 3.7% for the second quarter and 5.0% for the six-month period versus the prior year.

Sales of Sally Beauty Supply increased to \$353.1 million in the second quarter of fiscal year 2006 and \$703.0 million for the first six months of fiscal year 2006, compared to \$336.1 million and \$673.9 million for the prior year periods. The sales increases of 5.0% for the second quarter and 4.3% for the first half of fiscal year 2006 were primarily attributable to the opening of new stores, including 84 net new stores during the last twelve months (2.3% for the second quarter and 2.2% for the first half) and the growth of its existing business which primarily represents same store sales. These increases were partially offset by the effect of foreign exchange rates (0.8% for the second quarter and 0.7% for the first half).

Sales of BSG were \$228.0 million in the second quarter and \$464.4 million for the first half of fiscal year 2006 compared to \$224.4 million in the second quarter and \$437.4 million for the first half of the prior year. The sales increase of 1.6% for the second quarter of fiscal year 2006 was primarily due to the opening of new stores, including 18 net new stores during the last twelve months (0.9%), the impact of foreign exchange rates (0.6%) and the growth of its existing business

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

RESULTS OF OPERATIONS (continued)

which primarily represents same store sales. The sales increase of 6.2% for the first half of fiscal year 2006 was mainly attributable to acquisitions (5.7%), the opening of new stores, including 18 net new stores during the last twelve months (1.1%), the impact of foreign exchange rates (0.5%) and the growth of its existing business which primarily represents same store sales. These increases for the second quarter and first half of fiscal year 2006 were partially offset by lower sales by BSG's professional distributor sales consultants to salons.

Cost of products sold as a percentage of net sales was 50.4% for the second quarter and 51.3% for the first six months of fiscal year 2006 compared to 52.0% for the second quarter and 52.1% for the first half of the prior year. The lower cost of products sold percentages in the second quarter and first half of fiscal year 2006 were primarily attributable to the launch of Nexxus into retail channels, as Nexxus products have a lower cost of goods sold percentage, and improved vendor pricing and lower store inventory shrinkage for the Beauty Supply Distribution business.

Compared to the prior year, advertising, marketing, selling and administrative expenses in fiscal year 2006 increased \$37.4 million or 10.9% for the second quarter and \$55.7 million or 8.3% for the first six months. The increases primarily resulted from higher expenditures for advertising and marketing (7.3% for the second quarter and 3.3% for the first half), the recording of stock option expense resulting from the adoption of SFAS No. 123 (R) (0.9% for the second quarter and 1.5% for the first half) and higher selling costs associated with the launch of Nexxus into retail channels and the growth of the Sally Beauty Supply and BSG businesses (1.5% for the second quarter and 2.4% for the first half).

Advertising and marketing expenditures were \$95.6 million in the second quarter of fiscal year 2006, an increase of 35.4% from \$70.6 million in the prior year, and \$158.6 million for the first half of fiscal year 2006, which was 16.0% higher than the \$136.7 million for the first half of fiscal year 2005. These increases were primarily due to higher advertising and marketing expenditures in the U.S. for Nexxus (30.7% for the second quarter and 16.4% for the first half) and TRESemmé (7.7% for the second quarter and 5.5% for the first half), partially offset by the impact of foreign exchange rates (1.8% for the second quarter and 1.7% for the first half).

Interest expense, net of interest income, was \$1.2 million in the second quarter and \$2.8 million for the first half of fiscal year 2006 compared to \$2.2 million for the second quarter and \$4.0 million for the first half of fiscal year 2005. Interest expense was \$2.6 million in the second quarter and \$5.2 million for the first half of fiscal year 2006 versus \$2.8 million for the second quarter and \$5.4 million for the first half of fiscal year 2005. Interest income was \$1.4 million in the second quarter of fiscal year 2006 and \$2.4 million for the first six months of fiscal year 2006 compared to \$543,000 for the second quarter and \$1.4 million for the first half of the prior year. The increase in interest income was primarily due to higher interest rates and higher cash and short-term investment balances in the current year.

The provision for income taxes as a percentage of earnings before income taxes was 32.8% for the second quarter and 34.4% for the first half of fiscal year 2006, as compared to 35.0% for the second quarter and first half of fiscal year 2005. The lower effective tax rates in the second quarter and first half of fiscal year 2006 were mainly due to the effect of the Sally Holdings spin/merge transaction expenses (including a tax benefit recorded during the second quarter for expenses not previously expected to be tax deductible), the expected utilization of additional foreign tax credits and the favorable resolutions of certain tax audits, partially offset by higher state income taxes.

FINANCIAL CONDITION

March 31, 2006 versus September 30, 2005

Working capital at March 31, 2006 was \$751.6 million, an increase of \$97.9 million from \$653.7 million at September 30, 2005. The resulting ratio of current assets to current liabilities was 2.39 to 1.00 at March 31, 2006 compared to 2.22 to 1.00 at September 30, 2005. The increase in working capital was primarily due to working capital generated from operations, partially offset by cash outlays for capital expenditures and cash dividends.

Cash, cash equivalents and short-term investments increased \$53.3 million to \$221.8 million during the first six months of fiscal year 2006 primarily due to cash flows provided by operating activities (\$111.0 million) and cash received from exercises of employee stock options (\$17.6 million), partially offset by cash outlays for capital expenditures (\$45.2 million) and dividends (\$21.2 million).

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

FINANCIAL CONDITION (continued)

Accounts receivable decreased \$4.0 million to \$282.0 million in the first half of fiscal year 2006. Trade receivables declined \$6.6 million in the first half of fiscal year 2006 primarily due to the timing of customer payments, a decrease in the U.K as a result of lower shipments in February, 2006 and March, 2006 as compared to the last two months of fiscal year 2005 and the effect of foreign exchange rates, partially offset by receivables resulting from the launch of Nexxus into retail channels. Other receivables increased \$2.6 million during the first half of fiscal year 2006 principally due to the timing of collections from vendors under various advertising and volume purchase programs.

Inventories increased \$50.6 million during the first six months of fiscal year 2006 to \$740.3 million. Sally Beauty Supply and BSG inventories were \$30.3 million higher primarily due to new stores, expanded product lines and strategic inventory purchases related to favorable pricing from vendors. Inventories for Global Consumer Products were \$20.7 million higher principally due to increased finished goods inventories associated with the launch of Nexxus into retail channels.

Net property, plant and equipment rose \$12.9 million during the first six months of fiscal year 2006 to \$348.3 million at March 31, 2006. The increase resulted primarily from expenditures for additional Sally Beauty Supply and BSG stores, and office facilities and warehouse expansions, partially offset by depreciation during the six-month period.

Accounts payable increased \$20.0 million during the first six months of fiscal year 2006 to \$281.3 million mainly due to higher advertising payables related to the launch of Nexxus into retail channels and the timing of vendor payments.

Accrued expenses declined \$11.2 million during the first six months of fiscal year 2006 to \$241.3 million mainly due to payments under various incentive plans. The decrease was partially offset by higher accruals for insurance, additional consideration related to the Nexxus acquisition and professional fees related to the Sally Holdings spin/merge transaction.

Unearned compensation, a separate component of stockholders' equity, decreased \$3.0 million during the first six months of fiscal year 2006. The unamortized balance of restricted shares was included in unearned compensation as of September 30, 2005 and was reclassified to additional paid-in capital in fiscal year 2006 in accordance with SFAS No. 123 (R).

LIQUIDITY AND CAPITAL RESOURCES

On April 28, 2005, the Board of Directors authorized the company to purchase up to 5,000,000 shares of common stock. No shares have been purchased under this authorization as of March 31, 2006. Purchases of the company's common stock may be made through the open market and/or private transactions depending on various factors including market conditions, share price and other alternative uses of cash such as acquisitions.

As a result of the termination of the proposed spin/merge of Sally Holdings with Regis as discussed in the Overview section of MD&A, the company will not pay the \$3 per share special dividend that the company had announced it intended to declare and pay if the transaction was completed. Also, in connection with the termination of the merger agreement, the company paid Regis a \$50.0 million contract termination fee on April 10, 2006. This cash payment was funded using cash, cash equivalents and short-term investments on hand as of March 31, 2006.

The Board of Directors approved an increase to the company's cash dividend on April 26, 2006, raising the quarterly dividend 13% to 13 cents per share or 52 cents annually. Based on shares outstanding as of March 31, 2006, the higher cash dividend will increase quarterly cash dividend payments by approximately \$1.4 million. The next quarterly cash dividend will be paid on May 19, 2006 to shareholders of record on May 8, 2006.

CRITICAL ACCOUNTING POLICIES

The company's significant accounting policies are described in note 1 of the Notes to the Consolidated Financial Statements included in the Annual Report on Form 10-K for the fiscal year ended September 30, 2005. A discussion of critical accounting policies is included in MD&A in the company's Annual Report on Form 10-K for the fiscal year ended September 30, 2005. Other than the item discussed below, there were no significant changes in the company's critical accounting policies during the six months ended March 31, 2006.

CRITICAL ACCOUNTING POLICIES (continued)

Effective October 1, 2005, the company adopted SFAS No. 123 (R) using the modified prospective method. Under this method, compensation expense is recognized for new stock option grants beginning in fiscal year 2006 and for the unvested portion of outstanding stock options that were granted prior to the adoption of SFAS No. 123 (R). The company recognizes compensation expense on a straight-line basis over the vesting period or to the date a participant becomes eligible for retirement, if earlier. The company considers the calculation and treatment of stock option expense under SFAS No. 123 (R) to be a critical accounting policy.

The amount of stock option expense is determined based on the fair value of each stock option grant, which is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions: expected life, volatility, risk-free interest rate and dividend yield. The expected life of stock options represents the period of time that the stock options granted are expected to be outstanding. The company estimates the expected life based on historical exercise trends. The company estimates expected volatility based on the historical volatility of the company's common stock. The estimate of the risk-free interest rate is based on the U.S. Treasury bill rate for the expected life of the related stock options.

The dividend yield represents the company's anticipated cash dividend over the expected life of the stock options. The amount of stock option expense recorded is significantly affected by these estimates. In addition, the company records stock option expense based on an estimate of the total number of stock options expected to vest, which requires the company to estimate future forfeitures. The company uses historical forfeiture experience as a basis for this estimate. Actual forfeitures differing from these estimates could significantly affect the timing of the recognition of stock option expense.

FORWARD - LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein, if any, may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on management's current expectations and assessments of risks and uncertainties and reflect various assumptions concerning anticipated results, which may or may not prove to be correct. Some of the factors that could cause actual results to differ materially from estimates or projections contained in such forward-looking statements include: the pattern of brand sales, including variations in sales volume within periods; loss of distributorship rights; competition within the relevant product markets, including the ability to develop and successfully introduce new products, ensuring product quality, pricing, promotional activities, introduction of competing products and continuing customer acceptance of existing products; the loss of one or more key employees; risks inherent in acquisitions, divestitures and strategic alliances including business risks, legal risks and risks associated with the tax and accounting treatment of such transactions; changes in costs, including changes in labor costs, raw material prices or advertising and marketing expenses; sales by unauthorized distributors in Alberto-Culver Company's exclusive markets; the effects of a prolonged United States or global economic downturn or recession; the costs and effects of unanticipated legal or administrative proceedings; health epidemics; adverse weather conditions; and variations in political, economic or other factors such as currency exchange rates, inflation rates, interest rates, tax changes, legal and regulatory changes or other external factors over which Alberto-Culver Company has no control. Alberto-Culver Company has no obligation to update any forward-looking statement in this Quarterly Report on Form 10-Q or any incorporated document.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the company's market risk during the six months ended March 31, 2006.

ITEM 4. CONTROLS AND PROCEDURES

- (a) As of the end of the period covered by this quarterly report on Form 10-Q, the company carried out an evaluation, under the supervision and with the participation of the company's management, including the chief executive officer and the chief financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act). Based upon that evaluation, the chief executive officer and the chief financial officer of the company have concluded that Alberto-Culver Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

- (b) There were no changes in the company's internal control over financial reporting that occurred during the company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.
