Table of Contents**OceanFirst Financial Corp.****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS****Note 1. Summary of Significant Accounting Policies**

The accompanying unaudited consolidated financial statements include the accounts of OceanFirst Financial Corp. (the Company) and its wholly-owned subsidiary, OceanFirst Bank (the Bank) and its wholly-owned subsidiaries, Columbia Home Loans, LLC, OceanFirst REIT Holdings, Inc. and OceanFirst Services, LLC.

The interim consolidated financial statements reflect all normal and recurring adjustments which are, in the opinion of management, considered necessary for a fair presentation of the financial condition and results of operations for the periods presented. The results of operations for the three months ended March 31, 2006 are not necessarily indicative of the results of operations that may be expected for all of 2006.

Certain information and note disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC).

These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report to Stockholders on Form 10-K for the year ended December 31, 2005.

Stock-Based Compensation

Prior to January 1, 2006, the Company accounted for stock-based compensation using the intrinsic value method under Accounting Principles Board Opinion No. 25 and accordingly recognized no compensation expense under this method. Effective January 1, 2006, the Company adopted Financial Accounting Standards Board Statement No. 123 (revised 2004) which requires an entity to recognize the grant-date fair-value of stock options and other equity-based compensation issued to employees in the income statement. The modified prospective transition method was adopted so that the current period income statement includes \$29,000 of expense for equity-based compensation, but prior periods have not been restated. At March 31, 2006 the Company had \$1.1 million in compensation cost related to non-vested awards not yet recognized. This cost will be recognized over the remaining vesting period of 4.9 years.

As a result of adopting Statement 123(R) on January 1, 2006, the Company's income before income taxes and net income for the three months ended March 31, 2006 are \$29,000 and \$19,000 lower, respectively, than if it had continued to account for share-based compensation under Opinion 25. Basic and diluted earnings per share for the three months ended March 31, 2006 would have been unchanged at \$.37 and \$.36, respectively, if the Company had not adopted Statement 123(R).

The fair value of stock options granted by the Company was estimated through the use of the Black-Scholes option pricing model applying the following assumptions:

| | Three months ended March 31, | |
|--|---|--------------|
| | 2006 | 2005 |
| Risk-free interest rate | 4.68% | 3.94% |
| Expected option life | 7 years | 6 years |
| Expected volatility | 22% | 22% |
| Expected dividend yield | 3.41% | 3.39% |
| Weighted average fair value of an option share granted during the period | \$ 4.87 | \$ 4.25 |
| Intrinsic value of options exercised during the period | \$ 922,000 | \$ 1,585,000 |

Table of Contents

Had the compensation costs for the Company's stock option plan for the three months ended March 31, 2005 been determined based on the fair value method, the Company's net income and earnings per share would have been reduced to the pro forma amounts indicated below (in thousands, except per share data):

| | Three months ended March 31, 2005 |
|---|--|
| Net income as reported | \$ 4,946 |
| Stock-based compensation expense included in reported net income, net of related tax effects | 15 |
| Total stock-based compensation expense determined under the fair value based method, net of related tax effects | (184) |
| Net stock-based compensation expense not included in reported net income, all relating to stock option grants, net of related tax effects | (169) |
| Net income pro forma | \$ 4,777 |
| Basic earnings per share: | |
| As reported | \$.41 |
| Pro forma | \$.40 |
| Diluted earnings per share: | |
| As reported | \$.40 |
| Pro forma | \$.38 |

The Company has established the Amended and Restated OceanFirst Financial Corp. 1997 Incentive Plan (the "Incentive Plan") which authorizes the granting of stock options and awards of Common Stock and the OceanFirst Financial Corp. 2000 Stock Option Plan which authorizes the granting of stock options. On April 24, 2003 the Company's shareholders ratified an amendment of the OceanFirst Financial Corp. 2000 Stock Option Plan which increased the number of shares available under option. All officers, other employees and Outside Directors of the Company and its affiliates are eligible to receive awards under the plans.

Under the Incentive Plan and the Amended 2000 Stock Option Plan the Company is authorized to issue up to 4,153,564 shares subject to option. All options expire 10 years from the date of grant and generally vest at the rate of 20% per year. The exercise price of each option equals the market price of the Company's stock on the date of grant. The Company typically issues Treasury shares to satisfy stock option exercises.

A summary of option activity for the three months ended March 31, 2006 follows:

Note 4. Recent Accounting Pronouncements

In March 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 156, Accounting for Servicing of Financial Assets. SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities, establishes, among other things, the accounting for all separately recognized servicing assets and servicing liabilities. SFAS No. 156 amends Statement 140 to require that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable. This Statement permits, but does not require, the subsequent measurement of separately recognized servicing assets and servicing liabilities at fair value. An entity that uses derivative instruments to mitigate the risks inherent in servicing assets and servicing liabilities is required to account for those derivative instruments at fair value. Under this Statement, an entity can elect subsequent fair value measurement to account for its separately recognized servicing assets and servicing liabilities. By electing that option, an entity may simplify its accounting because this Statement permits income statement recognition of the potential offsetting changes in fair value of those servicing assets and servicing liabilities and derivative instruments in the same accounting period. The Statement is effective in the first fiscal year beginning after September 15, 2006 with earlier adoption permitted. The Company does not expect the adoption of Statement No. 156 to have a material impact on its financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Critical Accounting Policies

Note 1 to the Company's Audited Consolidated Financial Statements for the year ended December 31, 2005 included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, as supplemented by this report, contains a summary of significant accounting policies. Various elements of these accounting policies, by their nature, are inherently subject to estimation techniques, valuation assumptions and other subjective assessments. Certain assets are carried in the consolidated statements of financial condition at fair value or the lower of cost or fair value. Policies with respect to the methodologies used to determine the allowance for loan losses, the valuation of Mortgage Servicing Rights and judgments regarding securities impairment are the most critical accounting policies because they are important to the presentation of the Company's financial condition and results of operations, involve a higher degree of complexity and require management to make difficult and subjective judgments which often require assumptions or estimates about highly uncertain matters. The use of different judgments, assumptions and estimates could result in material differences in the results of operations or financial condition. These critical accounting policies and their application are reviewed periodically and, at least annually, with the Audit Committee of the Board of Directors.

Summary

The Company's results of operations are dependent primarily on net interest income, which is the difference between the interest income earned on the Company's interest-earning assets, such as loans and investments, and the interest expense on its interest-bearing liabilities, such as deposits and borrowings. The Company also generates non-interest income such as income from loan sales, loan

Table of Contents

servicing, loan originations, merchant credit card services, deposit accounts, the sale of alternative investments, trust and asset management services and other fees. The Company's operating expenses primarily consist of compensation and employee benefits, occupancy and equipment, marketing, data processing and other general and administrative expenses. The Company's results of operations are also significantly affected by general economic and competitive conditions, particularly changes in market interest rates, government policies and actions of regulatory agencies.

Recent increases in short-term interest rates have outpaced increases in longer-term rates resulting in a flattening of the interest rate yield curve. The continuation of a flat yield curve through the remainder of 2006 is expected to have a negative impact on the Company's results of operations and net interest margin as interest-earning assets, both loans and securities, are priced against longer-term indices, while interest-bearing liabilities, primarily deposits and borrowings, are priced against shorter-term indices. The Company has generally not repriced all core deposits (defined as all deposits other than time deposits) in line with the market increases in short-term interest rates. The likely upward repricing of core deposits is also expected to have a negative impact on the Company's results of operations and net interest margin.

While the Company continues to focus on growing core deposits the rise in interest rates has made certificates of deposit relatively more attractive as an investment option. The Company has generally repriced certificates of deposit upwards in line with market rates while core deposit repricing has lagged the rise in short-term rates. As competition for core deposits has intensified, some of the Bank's competitors have aggressively raised their core deposit pricing. In light of these trends, the Bank recorded growth in certificates of deposit during the first quarter while core deposit balances declined. The Company has executed leases for new branch offices in Barnegat and Little Egg Harbor which are projected to open in May 2006 and late 2006, respectively. Additionally, the Company plans to open two new branches in 2007. Finally, the Company plans to relocate the Whiting branch to a more convenient and prominent location in July 2006.

Analysis of Net Interest Income

Net interest income represents the difference between income on interest-earning assets and expense on interest-bearing liabilities. Net interest income also depends upon the relative amounts of interest-earning assets and interest-bearing liabilities and the interest rate earned or paid on them.

Table of Contents

The following table sets forth certain information relating to the Company for the three months ended March 31, 2006 and 2005. The yields and costs are derived by dividing income or expense by the average balance of assets or liabilities, respectively, for the periods shown except where noted otherwise. Average balances are derived from average daily balances. The yields and costs include certain fees which are considered adjustments to yields.

- (4) Net interest margin represents net interest income divided by average interest-earning assets.

Comparison of Financial Condition at March 31, 2006 and December 31, 2005

Total assets at March 31, 2006 were \$2.008 billion, an increase of \$23.1 million, compared to \$1.985 billion at December 31, 2005.

Loans receivable, net increased by \$34.0 million to a balance of \$1.689 billion at March 31, 2006, compared to a balance of \$1.655 billion at December 31, 2005. One-to four-family real estate loans and consumer loans increased while commercial real estate loans decreased due to pay-offs and seasonal paydowns on several large credit facilities.

Deposit balances increased \$16.4 million to \$1.373 billion at March 31, 2006 from \$1.357 billion at December 31, 2005. Core deposits decreased by \$6.4 million, while time deposits increased by \$22.7 million.

Total Federal Home Loan Bank borrowings, consisting of securities sold under agreements to repurchase and advances, increased \$10.1 million to \$424.0 million at March 31, 2006, compared to a balance of \$413.9 million at December 31, 2005. The increase was used to fund loan growth.

Stockholders' equity at March 31, 2006 decreased to \$135.8 million, compared to \$138.8 million at December 31, 2005. The Company repurchased 276,298 shares of common stock during the three months ended March 31, 2006 at a total cost of \$6.5 million. Under the 5% repurchase program authorized by the Board of Directors in October 2005, 419,386 shares remain to be purchased as of March 31, 2006. The cost

Table of Contents

of the share repurchases was partly offset by net income, proceeds from stock option exercises and the related tax benefit, and Employee Stock Ownership Plan amortization.

Comparison of Operating Results for the Three Months Ended March 31, 2006 and March 31, 2005

General

Net income decreased to \$4.3 million for the three months ended March 31, 2006, as compared to net income of \$4.9 million for the three months ended March 31, 2005. Diluted earnings per share decreased to \$.36 for the three months ended March 31, 2006, as compared to \$.40 for the same prior year period. Earnings per share was favorably affected by the Company's repurchase program, which reduced the average diluted shares outstanding.

Interest Income

Interest income for the three months ended March 31, 2006 was \$27.8 million compared to \$24.3 million for the three months ended March 31, 2005. The yield on interest-earning assets increased to 5.87% for the three months ended March 31, 2006 as compared to 5.43% for the same prior year period. The asset yield for the current quarter benefited from \$463,000 of income relating to an equity investment. The comparable benefit for the prior year period was \$443,000. Average interest-earning assets increased by \$104.5 million for the three months March 31, 2006 as compared to the same prior year period. The growth was concentrated in average loans receivable which grew \$148.4 million, or 9.6%.

Interest Expense

Interest expense for the three months ended March 31, 2006 was \$12.4 million compared to \$9.1 million for the three months ended March 31, 2005. The cost of interest-bearing liabilities increased to 2.87% for the three months ended March 31, 2006, as compared to 2.25% in the same prior year period. Average interest-bearing liabilities increased by \$94.5 million for the three months ended March 31, 2006 as compared to the same prior year period. The growth was split between average interest-bearing deposits which grew \$53.4 million, or 4.5%, and by average borrowed funds which grew \$41.2 million.

Net Interest Income

Net interest income for the three months ended March 31, 2006 increased to \$15.4 million as compared to \$15.2 million in the same prior year period benefiting from the increase in average interest-earning assets as noted above. The net interest margin decreased to 3.25% for the three months ended March 31, 2006 from 3.39% in the same prior year period. The rise in short-term interest rates and the flattening of the interest rate yield curve caused the increase in interest-bearing liabilities to outpace the increase in interest-earning assets.

Provision for Loan Losses

For the three months ended March 31, 2006, the Company's provision for loan losses was \$50,000, unchanged from the same prior year period. Total loans receivable increased, but net charge-offs for the three months ended March 31, 2006 improved to a \$4,000 recovery, as compared to a \$3,000 charge-off for the same prior year period. Additionally, non-performing loans decreased to \$1.6 million at March 31, 2006 from \$2.7 million at March 31, 2005.

Other Income

Other income was \$4.4 million for the three months ended March 31, 2006, compared to \$5.9 million for the same prior year period. For the three months ended March 31, 2006, the Company recorded gains of \$1.7 million on the sale of loans and securities available for sale, as compared to gains of \$3.3 million in the same prior year period. Loans sold for the three month period ended March 31, 2006 decreased to \$95.7 million from \$160.8 million in the same prior year period. Most of the decline in sales volume occurred at the Company's mortgage banking subsidiary, Columbia Home Loans, LLC. The decline experienced at Columbia is partly reflective of declines experienced industry-wide. Additionally, staff turnover in the

Table of Contents

wholesale alternative credit channel adversely affected sales volume. In light of continuing pressure on volume and margins, Columbia implemented plans to consolidate lending channels to a more centralized platform designed to improve efficiency and reduce operating costs. The consolidation reduced lending capacity and adversely impacted the volume of loan sales.

Fees and service charges increased \$165,000 for the three months ended March 31, 2006, as compared to the same prior year period primarily related to increases in fees from reverse mortgage loans, a new emphasis for the Company, as well as fees from private mortgage insurance.

Operating Expenses

Operating expenses were \$13.2 million for the three months ended March 31, 2006, as compared to \$13.4 million in the same prior year period. The decrease was in loan related costs for compensation and marketing.

Provision for Income Taxes

Income tax expense was \$2.3 million for the three months ended March 31, 2006, as compared to \$2.7 million for the same prior year period. The effective tax rate decreased slightly to 34.8% for the three months ended March 31, 2006 as compared to 35.2% for the same prior year period.

Liquidity and Capital Resources

The Company's primary sources of funds are deposits, principal and interest payments on loans and mortgage-backed securities, proceeds from the sale of loans, Federal Home Loan Bank (FHLB) and other borrowings and, to a lesser extent, investment maturities. While scheduled amortization of loans is a predictable source of funds, deposit flows and mortgage prepayments are greatly influenced by general interest rates, economic conditions and competition. The Company has other sources of liquidity if a need for additional funds arises, including an overnight line of credit and advances from the FHLB.

At March 31, 2006 the Company had outstanding overnight borrowings from the FHLB of \$66.0 million as compared to \$51.9 million in overnight borrowings at December 31, 2005. The Company utilizes the overnight line from time-to-time to fund short-term liquidity needs. The Company had total FHLB borrowings, including overnight borrowings, of \$424.0 million at March 31, 2006, an increase from \$413.9 million at December 31, 2005. The increase in borrowings was used to fund loan growth.

The Company's cash needs for the three months ended March 31, 2006, were primarily satisfied by principal payments on loans and mortgage-backed securities, increased deposits and borrowings and proceeds from the sale of mortgage loans held for sale. The cash was principally utilized for loan originations and the repurchase of common stock. For the three months ended March 31, 2005, the cash needs of the Company were primarily satisfied by principal payments on loans and mortgage-backed securities, increased deposits and proceeds from the sale of mortgage loans held for sale. The cash provided was principally used for the origination of loans, a reduction in total borrowings and the repurchase of common stock.

In the normal course of business, the Company routinely enters into various commitments, primarily relating to the origination and sale of loans. At March 31, 2006, outstanding commitments to originate loans totaled \$184.1 million; outstanding unused lines of credit totaled \$182.8 million; and outstanding commitments to sell loans totaled \$56.1 million. The Company expects to have sufficient funds available to meet current commitments arising in the normal course of business.

Time deposits scheduled to mature in one year or less totaled \$365.8 million at March 31, 2006. Based upon historical experience management estimates that a significant portion of such deposits will remain with the Company.

Under the Company's stock repurchase programs, shares of OceanFirst Financial Corp. common stock may be purchased in the open market and through other privately negotiated transactions, from time-to-time, depending on market conditions. The repurchased shares are held as treasury stock for general corporate

Table of Contents

use. For the three months ended March 31, 2006, the Company purchased 276,298 shares of common stock at a total cost of \$6.5 million compared with purchases of 302,113 shares for the three months ended March 31, 2005 at an aggregate cost of \$7.1 million. At March 31, 2006, there were 419,386 shares remaining to be repurchased under the existing stock repurchase program. Cash dividends declared and paid during the first three months of 2006 were \$2.3 million, a decrease from \$2.4 million from the same prior year period due to the reduction in common shares outstanding. On April 19, 2006, the Board of Directors declared a quarterly cash dividend of twenty cents (\$.20) per common share. The dividend is payable on May 12, 2006 to stockholders of record at the close of business on April 28, 2006.

The primary source of liquidity for OceanFirst Financial Corp., the holding company of OceanFirst Bank, is capital distributions from the banking subsidiary and, to a lesser extent, the issuance of debt instruments. For the first three months of 2006, OceanFirst Financial Corp. received \$5.0 million in dividend payments from OceanFirst Bank. The primary use of these funds is the payment of dividends to shareholders and the repurchase of common stock. OceanFirst Financial Corp.'s ability to continue these activities is partly dependent upon capital distributions from OceanFirst Bank. Applicable Federal law or the Bank's regulator, may limit the amount of capital distributions OceanFirst Bank may make.

At March 31, 2006, the Bank exceeded all of its regulatory capital requirements with tangible capital of \$127.8 million, or 6.4% of total adjusted assets, which is above the required level of \$30.1 million or 1.5%; core capital of \$127.8 million or 6.4% of total adjusted assets, which is above the required level of \$60.2 million, or 3.0%; and risk-based capital of \$138.3 million, or 10.8% of risk-weighted assets, which is above the required level of \$102.7 million or 8.0%. The Bank is considered a well-capitalized institution under the Office of Thrift Supervision's Prompt Corrective Action Regulations.

Off-Balance-Sheet Arrangements and Contractual Obligations

In the normal course of operations, the Company engages in a variety of financial transactions that, in accordance with generally accepted accounting principles, are not recorded in the financial statements. These transactions involve, to varying degrees, elements of credit, interest rate, and liquidity risk. Such transactions are used for general corporate purposes or for customer needs. Corporate purpose transactions are used to help manage credit, interest rate, and liquidity risk or to optimize capital. Customer transactions are used to manage customers' requests for funding. These financial instruments and commitments include unused consumer lines of credit and commitments to extend credit. The Company also has outstanding commitments to sell loans amounting to \$56.1 million.

The following table shows the contractual obligations of the Company by expected payment period as of March 31, 2006 (in thousands):

| Contractual Obligation | Total | Less than | | | More than |
|--|------------|------------|------------|-----------|-----------|
| | | one year | 1-3 years | 3-5 years | 5 years |
| Debt Obligations | \$ 480,772 | \$ 213,772 | \$ 174,000 | \$ 73,000 | \$ 20,000 |
| Commitments to Originate Loans | 184,055 | 184,055 | | | |
| Commitments to Fund Unused Lines of Credit | 182,809 | 182,809 | | | |

Debt obligations include borrowings from the FHLB and Securities Sold under Agreements to Repurchase. The borrowings have defined terms and, under certain circumstances, \$62.0 million of the borrowings are callable at the option of the lender.

Commitments to originate loans and commitments to fund unused lines of credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since some of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company's exposure to credit risk is represented by the contractual amount of the instruments.

Table of Contents**Non-Performing Assets**

The following table sets forth information regarding the Company's non-performing assets consisting of non-accrual loans and Real Estate Owned (REO). It is the policy of the Company to cease accruing interest on loans 90 days or more past due or in the process of foreclosure.

The Company also classifies assets in accordance with certain regulatory guidelines. At March 31, 2006 the Bank had \$14.0 million classified as Special Mention, \$3.5 million classified as Substandard and \$65,000 classified as Doubtful as compared to \$15.5 million, \$2.2 million and \$59,000, respectively, classified as Special Mention, Substandard and Doubtful at December 31, 2005.

Private Securities Litigation Reform Act Safe Harbor Statement

In addition to historical information, this quarterly report contains certain forward-looking statements which are based on certain assumptions and describe future plans, strategies and expectations of the Company. These forward-looking statements are generally identified by use of the words believe, expect, intend, anticipate, estimate, project, or similar expressions. The Company's ability to predict results or the actual future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations of the Company and the subsidiaries include, but are not limited to, changes in interest rates, general economic conditions, legislative/regulatory changes, monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board, the quality or composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, demand for financial services in the Company's market area and accounting principles and guidelines. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on statements. The Company does not undertake - and specifically disclaims any obligation - to publicly release the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events. Further description of the risks and uncertainties to the business are included in Item 1, Business and Item 1A, Risk Factors of the Company's 2005 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's interest rate sensitivity is monitored through the use of an interest rate risk (IRR) model. At March 31, 2006 the Company adopted a new interest rate risk model which is expected to provide improved modeling capabilities. The new model allows for greater disaggregation of data elements, enhanced loan prepayment modeling and greater flexibility. The following tables set forth the amounts of interest-earning assets and interest-bearing liabilities outstanding at March 31, 2006 and December 31, 2005,

Table of Contents

which were anticipated by the Company, based upon certain assumptions, to reprice or mature in each of the future time periods shown. The Company's results for December 31, 2005 have been restated using the new IRR model. At March 31, 2006 the Company's one-year gap was positive 0.86% as compared to positive 4.19% at December 31, 2005.

- (1) Interest-earning assets are included in the period in which the balances are expected to be redeployed and/or repriced as a result of anticipated prepayments, scheduled rate adjustments, and contractual maturities.
- (2) For purposes of the gap analysis, loans receivable includes loans held for sale and non-performing loans gross of the allowance for loan losses, unamortized discounts and deferred loan fees.
- (3) Interest sensitivity gap represents the difference between interest-earning assets and interest-bearing liabilities.

Table of Contents

Additionally, the table below sets forth the Company's exposure to interest rate risk as measured by the change in net portfolio value (NPV) and net interest income under varying rate shocks as of March 31, 2006 and December 31, 2005. All methods used to measure interest rate sensitivity involve the use of assumptions, which may tend to oversimplify the manner in which actual yields and costs respond to changes in market interest rates. The Company's interest rate sensitivity should be reviewed in conjunction with the financial statements and notes thereto contained in the Company's Annual Report for the year ended December 31, 2005.

Item 4. Controls and Procedures

The Company's management, including the Company's principal executive officer and principal financial officer, have evaluated the effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, (the Exchange Act). Based upon their evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the SEC (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. In addition, based on that evaluation, no change in the Company's internal control over financial reporting occurred during the quarter ended March 31, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION**Item 1. Legal Proceedings**

The Company is not engaged in any legal proceedings of a material nature at the present time. From time to time, the Company is a party to routine legal proceedings within the normal course of business. Such routine legal proceedings in the aggregate are believed by management to be immaterial to the Company's financial condition or results of operations.

Item 1A. Risk Factors
