  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 2.02 Results of Operations and Financial Condition.**

On February 8, 2007, Idearc Inc. issued a press release announcing its financial results for the three months and year ended December 31, 2006. A copy of the press release is furnished as part of this Current Report on Form 8-K as Exhibit 99.1 and is incorporated herein by reference.

**Non-GAAP Measures**

Idearc's press release and financial schedules include financial information prepared in conformity with generally accepted accounting principles (GAAP) as well as non-GAAP financial information. The non-GAAP financial information includes:

adjusted consolidated statements of income;

pro forma consolidated statements of income;

operating income before interest, taxes, depreciation and amortization (OIBITDA), as well as OIBITDA based on our adjusted and pro forma consolidated statements of income;

OIBITDA margin, as well as OIBITDA margin based on our adjusted and pro forma consolidated statements of income; and

published print revenue.

The non-GAAP financial information may be determined or calculated differently by other companies.

The adjusted consolidated statements of income eliminate one-time costs associated with our spin-off from Verizon Communications Inc. because of their non-operational and non-recurring nature. The pro forma consolidated statements of income eliminate these one-time spin-off costs and make adjustments for special items that are intended to present our fourth-quarter and full year 2006 financial results as if Idearc (i) had been a stand-alone entity for the entire year and (ii) had exited the commercial printing business and entered into a new printing contract as of January 1, 2006. Descriptions of the eliminations and adjustments used to prepare our adjusted and pro forma consolidated statements of income are provided in the financial schedules accompanying the press release.

Management believes the presentations of adjusted and pro forma operating performance assist readers in better understanding our results of operations and trends from period to period, consistent with management's evaluation of Idearc's consolidated results of operations for a variety of internal measures including strategic business planning, capital allocation and compensation. Management believes that the adjusted and pro forma consolidated statements of income are more indicative of future operating results than GAAP results of operations, given the non-operational and/or non-recurring nature of the items eliminated and the on-going nature of the items included for purposes of reporting results of operations on an adjusted and pro forma basis. As a result of these factors, management provides this information externally, along with a reconciliation to their comparable GAAP amounts, so readers have access to the detail and general nature of adjustments made to GAAP results.

Management believes that OIBITDA and OIBITDA margin are also useful to investors and other users of our financial information in evaluating our operating financial performance. OIBITDA is determined by adding back depreciation and amortization to operating income. OIBITDA margin is calculated by dividing OIBITDA by total operating revenue. OIBITDA and OIBITDA margin are used internally to evaluate current operating expense efficiency and operating profitability on a more

variable cost basis by excluding the interest, taxes, depreciation and amortization expenses related primarily to capital expenditures that occurred in prior years, as well as for compensation. Management believes that adjusted and pro forma OIBITDA and OIBITDA margin assist readers in better understanding and evaluating our operating financial performance for the reasons described in the immediately preceding paragraph.

Published print revenue represents the total revenue value of directories published that will be amortized over the life of the directories, which is typically 12 months. Management believes that published print revenue is useful to investors in understanding and evaluating our results of operations and trends from period to period. Management uses published print revenue as a leading indicator of amortized print products revenue and for a variety of internal measures, including compensation.

Management provides non-GAAP financial information to enhance understanding of Idearc's GAAP consolidated financial statements and readers should consider them in addition to, but not instead of, Idearc's financial statements prepared in accordance with GAAP.
