TEAM, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED CONDENSED

FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES

Introduction. Unless otherwise indicated, the terms Team, Inc., Team, the Company, we, our and us are used in this report to refer to Team, Inc., to one or more of our consolidated subsidiaries or to all of them taken as a whole. Our corporate headquarters is located at 200 Hermann Drive, Alvin, Texas, 77511 and our telephone number is (281) 331-6154. We were incorporated in Texas under the name Team, Inc. in 1973. Our fiscal year ends on May 31.

On December 14, 2006 our Board of Directors approved the transfer of the listing of our common stock from the American Stock Exchange (AMEX) to the NASDAQ Global Select Market (NASDAQ). Our common stock continued to trade on the AMEX under the symbol TMI until the transfer was completed on December 28, 2006, at which time we began trading on the NASDAQ under the symbol TISI .

We are a leading provider of specialty maintenance and construction services required in maintaining high temperature and high pressure piping systems and vessels that are utilized extensively in the refining, petrochemical, power, pipeline, and other heavy industries. Our inspection services also serve a broader customer base that includes the aerospace and automotive industries. We offer an array of complimentary services including:

leak repair,

hot tapping,

fugitive emissions control,

field machining,

technical bolting,

field valve repair,

non-destructive testing,

field heat treating.

We offer these services in over 70 locations throughout the United States, Aruba, Canada, Singapore, Trinidad and Venezuela.

Basis for Presentation. These interim financial statements are unaudited, but in the opinion of our management, reflect all adjustments, consisting of normal recurring adjustments and adjustments related to the sale of a business segment (please see Note 2), necessary for a fair presentation of results for such periods. The consolidated condensed balance sheet at May 31, 2006 is derived from the May 31, 2006 audited consolidated financial statements. The results of operations for any interim period are not necessarily indicative of results for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto contained in our annual report on Form 10-K

Edgar Filing: TEAM INC - Form 10-Q

for the fiscal year ended May 31, 2006.

Consolidation. Our consolidated condensed financial statements include the financial statements of Team, Inc. and our majority owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. Minority interest is recognized for the portion of any subsidiaries not owned by us. Certain amounts in prior years have been reclassified to conform to the current year presentation.

Table of Contents**TEAM, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED CONDENSED****FINANCIAL STATEMENTS (Continued)**

Use of Estimates. Our accounting policies conform to Generally Accepted Accounting Principles in the United States (GAAP). Our most significant accounting policies are described below. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and judgments that affect our reported financial position and results of operations. We review significant estimates and judgments affecting our consolidated financial statements on a recurring basis and record the effect of any necessary adjustments prior to their publication. Estimates and judgments are based on information available at the time such estimates and judgments are made. Adjustments made with respect to the use of these estimates and judgments often relate to information not previously available. Uncertainties with respect to such estimates and judgments are inherent in the preparation of financial statements. Estimates and judgments are used in, among other things; (1) aspects of revenue recognition, (2) analyzing tangible and intangible assets for possible impairment, (3) assessing future tax exposure and the realization of tax assets, (4) estimating various factors used to accrue liabilities for workers compensation, auto, medical and general liability, (5) establishing an allowance for uncollectible accounts receivable, and (6) estimating the useful lives of our assets.

Cash and Cash Equivalents. Cash and cash equivalents consist of all demand deposits and funds invested in highly liquid short-term investments with original maturities of three months or less.

Allowance for Doubtful Accounts. In the ordinary course of business, a percentage of our accounts receivable are not collected due to billing disputes, customer bankruptcies, dissatisfaction with the services we performed and other various reasons. To account for those receivables that will eventually be deemed uncollectible and written off, we establish an allowance. The allowance for doubtful accounts is based on a combination of our historical experience and our review of long outstanding accounts receivable. Our review of long outstanding accounts receivable takes into account many factors which include, but are not limited to, our relationship with the customer, terms and conditions of the contractual arrangements with the customer, adequacy of records and documents and other various factors. At February 28, 2007 and May 31, 2006 our allowance for doubtful accounts was \$2.5 million and \$1.3 million, respectively.

Inventories. Inventories are stated at the lower of cost (first-in, first-out method) or market. Inventories include material, labor, and certain fixed overhead costs.

Property, Plant and Equipment. Property, plant and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization of assets are computed by the straight-line method over the following estimated useful lives of the assets:

Classification	Life
Buildings	20-40 years
Leasehold improvements	2-10 years
Machinery and equipment	2-10 years
Furniture and fixtures	2-10 years
Computers and computer software	2-5 years
Automobiles	2-5 years

Goodwill and Other Intangible Assets. Goodwill represents the excess of costs over fair value of assets of businesses acquired. Goodwill and intangible assets acquired in a purchase business combination and determined

Table of Contents

TEAM, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED CONDENSED

FINANCIAL STATEMENTS (Continued)

to have an indefinite useful life are not amortized, but are instead tested for impairment at least annually in accordance with the provisions of the Financial Accounting Standards Board (FASB) Statement No. 142, *Goodwill and Other Intangible Assets*. Intangible assets with estimated useful lives are amortized over their respective estimated useful lives to their estimated residual values and reviewed for impairment in accordance with FASB Statement No. 144, *Accounting for Impairment or Disposal of Long-Lived Assets*.

Income Taxes. We follow the guidance in FASB Statement No. 109, *Accounting for Income Taxes* (FASB No. 109) which requires that we use the asset and liability method of accounting for deferred income taxes and provide deferred income taxes for all significant temporary differences. As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves estimating our actual current tax payable and related tax expense together with assessing temporary differences resulting from differing treatment of certain items, such as depreciation, for tax and accounting purposes. These differences can result in deferred tax assets and liabilities, which are included within our consolidated balance sheets. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income and, to the extent we believe that it is more likely than not (a likelihood of more than 50%) that some portion or all of the deferred tax assets will not be realized, we must establish a valuation allowance. We consider all available evidence, both positive and negative, to determine whether, based on the weight of the evidence, a valuation allowance is needed. Evidence used includes information about our current financial position and our results of operations for the current and preceding years, as well as all currently available information about future years, including our anticipated future performance, the reversal of deferred tax liabilities and tax planning strategies.

Workers Compensation, Auto, Medical and General Liability Accruals. In accordance with FASB Statement No. 5, *Accounting for Contingencies*, we record a loss contingency when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. We review our loss contingencies on an ongoing basis to ensure that we have appropriate reserves recorded on our balance sheet. These reserves are based on historical experience with claims incurred but not received, estimates and judgments made by management, applicable insurance coverage for litigation matters, and are adjusted as circumstances warrant. For workers' compensation and automobile liability claims, our self-insured retention is \$250,000 per case. For medical claims, our self-insured retention is \$150,000 per individual claimant determined on an annual basis. Our estimates and judgments could change based on new information, changes in laws or regulations, changes in management's plans or intentions, or the outcome of legal proceedings, settlements or other factors.

Revenue Recognition. We derive our revenues by providing a variety of industrial services. We determine our revenue recognition guidelines for our operations based on guidance provided in applicable accounting standards and positions adopted by the FASB or the Securities and Exchange Commission (SEC). Generally, customers are billed on a time and materials basis although some work may be performed pursuant to a fixed-price bid. Emission control services may also be billed based on the number of components monitored.

Most of our projects are short-term in nature. For jobs which are time and materials based, or based on the number of components monitored, our revenues are recognized as services are rendered or when a product is shipped and risk of ownership passes to the customer. For jobs that are based on a fixed-price bid, costs are deferred until, and revenues are recognized when, the job is complete.

Foreign Currency. For subsidiaries whose functional currency is not the United States dollar, assets and liabilities are translated at period ending rates of exchange and revenues and expenses are translated at period average exchange rates. Translation adjustments for the asset and liability accounts are included as a separate

Table of Contents**TEAM, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED CONDENSED****FINANCIAL STATEMENTS (Continued)**

component of accumulated other comprehensive income in stockholders' equity. Currency transaction gains and losses are recorded in the consolidated statements of operations.

Earnings Per Share. Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the year. Diluted earnings per share is computed by dividing net income by the sum of (1) the weighted-average number of common shares outstanding during the period and (2) the dilutive effect of the assumed exercise of stock options using the treasury stock method. There is no difference, for any of the periods presented, in the amount of net income (numerator) used in the computation of basic and diluted earnings per share. With respect to the number of weighted average shares outstanding (denominator), diluted shares reflects only the additional pro forma exercise of options to acquire common stock to the extent that the options exercised are dilutive.

For the three and nine month periods ended February 28, 2007 and 2006, all stock options are included in the computation of diluted EPS because all options were dilutive at February 28, 2007 and 2006, respectively.

Accounting Principles Adopted

FASB No. 123(R). In December 2004, the FASB issued FASB No. 123(R), *Share-Based Payment* (FASB No. 123(R)). FASB No. 123(R) requires all companies to expense the fair value of employee stock options and other forms of stock-based compensation. We adopted FASB No. 123(R) effective June 1, 2006, using the modified prospective transition method permitted under this pronouncement. Our cumulative effect of implementing this statement, which consists entirely of a forfeiture adjustment, was immaterial. The application of FASB No. 123(R) had a material impact on the unaudited condensed consolidated statements and basic and diluted loss per share for the three months and nine months ended February 28, 2007 compared to amounts that would have been reported pursuant to our previous accounting treatment. Had compensation cost for all stock options granted prior to June 1, 2006 been determined on a fair value basis consistent with FASB No. 123(R), our net income and basic and diluted earnings per share amounts for the three and nine month periods ended February 28, 2006 would have been as follows (in thousands):

	Three	Nine
	Months	Months
	Ended	Ended
	February 28, 2006	February 28, 2006
Income from continuing operations, as reported	\$ 2,279	\$ 6,627
Add stock-based employee compensation expense included in reported net income, net of tax		6
Deduct total stock-based employee compensation expense determined under fair value based method for all awards, net of tax	(143)	(437)
Pro forma net income	\$ 2,136	\$ 6,196
Earnings per share, as reported - basic	\$ 0.27	\$ 0.79
Pro forma earnings per share - basic	\$ 0.25	\$ 0.74
Earnings per share, as reported - diluted	\$ 0.25	\$ 0.72
Pro forma earnings per share - diluted	\$ 0.23	\$ 0.67

Table of Contents**TEAM, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED CONDENSED****FINANCIAL STATEMENTS (Continued)**

Our share-based payments consist of stock options and restricted stock awards. For stock options, we determine the fair value of each stock option at the grant date using a Black-Scholes model, with the following weighted-average assumptions used for grants made during the three and nine month periods ended February 28, 2007 and 2006:

	Three Months Ended February 28,		Nine Months Ended February 28,	
	2007	2006	2007	2006
Risk free interest rate	4.7%	4.7%	4.7%	3.8%
Volatility factor of the expected market price of the Company's common stock	39.2%	42.2%	39.2%	28.4%
Expected dividend yield percentage	0.0%	0.0%	0.0%	0.0%
Weighted average expected life	6 Yrs	4 Yrs	6 Yrs	4 Yrs

The exercise price, terms and other conditions applicable to each option granted are generally determined by the Compensation Committee of the Board of Directors at the time of grant of each option and may vary. We recognize the fair value of our share-based payments over the vesting periods of the awards. The stock options generally have ten year terms and vest and become fully exercisable after a period ranging from three to four years from the date of grant. Shares issued in connection with our stock option grants are issued out of authorized but unissued common stock. The governance of our stock option grants does not directly limit the number of future stock options we may award so long as the total number of shares ultimately issued does not exceed the total number of shares cumulatively authorized, which was 2,350,000 shares at February 28, 2007.

Included in the options discussed above are 1998 grants to our Chief Executive Officer (CEO) to purchase 200,000 shares of common stock at a price of \$3.625 per share that were subject to a vesting schedule based on our stock price performance measures. All of the performance measures were achieved as of the end of the first quarter of fiscal 2005.

In September 2004, we executed a Restricted Stock Award Agreement with our President and Chief Operating Officer. The agreement awards up to 15,000 shares of restricted stock which may vest upon the achievement of specific financial targets related to earnings before interest and taxes for the fiscal years 2005, 2006 and 2007. As of February 28, 2007, all shares are expected to vest. For restricted stock awards, we consider the fair value to be the closing price of the stock on the grant date.

We granted zero and 231,000 stock options during the three-month and nine-month periods ended February 28, 2007, respectively. We granted 50,000 and 260,000 stock options during the three-month and nine-month periods ended February 28, 2006, respectively. Compensation expense related to options granted and restricted stock awards totaled \$0.4 million and \$0.9 million for the three-month and nine-month periods ended February 28, 2007, respectively. Tax benefits for compensation expense related to options granted and restricted stock awards totaled \$727 and \$1,219 for the three-month and nine-month periods ended February 28, 2007. As of February 28, 2007, \$4.5 million of total unrecognized compensation expense related to options granted and restricted stock awarded is expected to be recognized over a remaining weighted-average period of 2 years.

Table of Contents**TEAM, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED CONDENSED****FINANCIAL STATEMENTS (Continued)**

Transactions involving stock options for the nine months ended February 28, 2007 are summarized below:

	Options (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (in years)	Intrinsic Value (in millions)
Outstanding at May 31, 2006	1,434	\$ 12.65	7	\$ 27.0
Granted	276	29.33	10	1.3
Exercised	(229)	6.94	4	2.4
Forfeited or expired	(3)	31.94	9	
Outstanding at February 28, 2007	1,478	\$ 16.62	7	\$ 25.9
Exercisable at February 28, 2007	795	\$ 10.15	5	\$ 19.1

Accounting Principles Not Yet Adopted

FIN No. 48. In July 2006, the FASB issued interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN No. 48). FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with FASB No. 109. FIN No. 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of an income tax position taken or expected to be taken in an income tax return. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the impact of this statement on our financial statements.

EITF 06-3. In June 2006, the FASB's Emerging Issues Task Force (the Task Force) issued consensus 06-3, *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)* (EITF 06-3). In EITF 06-3, the Task Force reached a consensus that the presentation of tax assessed by a governmental authority that is both imposed on and concurrent with a specific revenue-producing transaction between a seller and a customer and disclosed on either a gross basis (included in revenues and costs) or a net basis (excluded from revenues) is an accounting policy decision that should be disclosed. In addition, for any such taxes that are reported on a gross basis, an entity should disclose the amounts of those taxes in interim and annual financial statements for each period for which an income statement is presented if those amounts are significant. EITF 06-3 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the impact of this statement on our financial statements.

SAB 108. In September 2006, the SEC released Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108). SAB 108 states that a registrant's materiality evaluation of an identified unadjusted error should quantify the effects of the identified unadjusted error on each financial statement and related financial statement disclosure. SAB 108 also states that registrants electing not to restate prior periods should reflect the effects of initially applying SAB 108 in their annual financial statements covering the first fiscal year ending after November 15, 2006. We are currently evaluating the effect of SAB 108 on our results of operations, financial position and cash flows.

2. DISPOSITIONS AND ACQUISITIONS

Dispositions. On November 30, 2005, we sold all of the outstanding stock of our wholly-owned subsidiary, Climax Portable Machine Tools, Inc. (Climax), for approximately \$14.5 million and recognized subsequent

Table of Contents**TEAM, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED CONDENSED****FINANCIAL STATEMENTS (Continued)**

sale price adjustments of approximately \$0.2 million. Climax was engaged in equipment sales and rental and was a designer and manufacturer of portable metal cutting machinery used for industrial maintenance at customer locations. The results of operations for Climax, presented as discontinued operations, include our \$1.5 million gain on the sale of Climax and interest on our debt that is required to be repaid with proceeds from the sale of Climax. The revenues, operating income, interest expense allocation and earnings before income taxes, presented in discontinued operations for the three and nine months ended February 28, 2007 and 2006 are as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	February 28,		February 28,	
	2007	2006	2007	2006
Revenues	\$	\$	\$	\$ 7,462
Operating income				394
Interest expense allocation				(472)

Total	\$ 15,540	\$ 16,898

7. LONG-TERM DEBT

In August 2004 we replaced our existing debt with a banking facility comprised of a term loan and revolving credit facility (the Credit Facility). The Credit Facility matures in August 2009 and bears interest at LIBOR plus a margin which is variable depending upon a ratio of funded debt to EBITDA as defined in the Credit Facility (such margin was 1.75% at February 28, 2007). The Credit Facility is secured by virtually all of our assets and contains restrictions on the creation of liens on assets, the acquisition or sale of subsidiaries and the incurrence of certain liabilities. We are in compliance with all covenants at February 28, 2007 and our unused borrowing capacity under the Credit Facility was \$23.0 million at

Edgar Filing: TEAM INC - Form 10-Q

February 28, 2007.

In January 2006, we entered into a three-year enterprise agreement with a vendor for server and desktop volume licensing with software assurance. Financing for the agreement was provided by the vendor under a three year non-interest bearing note (the Software Licensing Note). The Software Licensing Note has been discounted at 7.3%, which was our effective borrowing rate at the time we entered into the agreement, and the discount of \$0.1 million is being amortized to interest expense.

	47,471	45,703
Less current installments	6,370	5,899
Long-term debt, excluding current installments	\$ 41,101	\$ 39,804

In order to secure our insurance programs we are required to post letters of credit generally issued by a bank as collateral. A letter of credit commits the issuer to remit specified amounts to the holder, if the holder demonstrates that we failed to meet our obligations under the letter of credit. If this were to occur, we would be obligated to reimburse the issuer for any payments the issuer was required to remit to the holder of the letter of credit. To date, we have not had any claims made against a letter of credit that resulted in a payment made by the issuer or by us to the holder. We believe it is unlikely that we will have to fund claims made under letters of credit in the foreseeable future. At February 28, 2007, we were contingently liable for outstanding stand-by letters of credit totaling \$5.2 million.

8. OTHER COMPREHENSIVE INCOME

A summary of comprehensive income for the three and nine months ended February 28, 2007 and 2006 is as follows (in thousands):

	Three Months Ended February 28, 2007	2006	Nine Months Ended February 28, 2007	2006

Comprehensive income (loss)	\$ 2,377	\$ 2,384	\$ 9,204	\$ 6,904

9. INDUSTRY SEGMENT INFORMATION

Prior to the sale of Climax on November 30, 2005, we operated as two business segments, industrial services and equipment sales and rentals. As a result of the sale of Climax, we now operate in only one segment industrial services. Significant prior acquisitions within the industrial services segment have led to the creation of two divisions. Our TMS division provides the services of leak repair, hot tapping, fugitive emissions control, field machining, technical bolting and field valve repair. Our TCM division provides the services of non-destructive testing and field heat treating.

10. INVESTIGATION

In December 2006, our management was alerted that certain false sales entries were made to revenue and accounts receivable at one of our branch locations and, subsequently, our management determined that such entries, totaling \$0.4 million, were indeed made at that branch location in November 2005. In addition, our management became aware of certain instances of the unauthorized use of Company funds for personal expenses at the same branch location. These matters were promptly reported to our audit committee, who initiated an independent investigation into these matters with the assistance of outside counsel and forensic accountants. The independent investigation was concluded in March 2007. In their respective reports to the audit committee, the Company's outside counsel and forensic accountants found no further false sales entries from this branch location. Based upon the findings of the outside counsel and forensic accountants, and our management's internal review of these matters, we have concluded that these matters did not have a material effect on any of our previously issued financial statements and that the wrong doing is limited to a single branch location.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview:

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in Item 1 of this report, and the consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations, including Critical Accounting Policies, included in our Annual Report on Form 10-K for the year ended May 31, 2006.

We based our forward-looking statements on our current expectations, estimates and projections about ourselves and our industry. We caution that these statements are not guarantees of future performance and involve risks, uncertainties and assumptions that we cannot predict. In addition, we based many of these forward-looking statements on assumptions about future events that may prove to be inaccurate. Accordingly, our actual results may differ materially from the future performance that we have expressed or forecast in the forward-looking statements. Differences between actual results and any future performance suggested in these forward-looking statements could result from a variety of factors, including those listed beginning on page 6 of our 2006 Form 10-K.

General Description of Business

Our corporate headquarters is located at 200 Hermann Drive, Alvin, Texas, 77511 and our telephone number is (281) 331-6154. We were incorporated in Texas under the name Team, Inc. in 1973. Our fiscal year ends on May 31 of each calendar year.

On December 14, 2006 our Board of Directors approved the transfer of the listing of our common stock from the AMEX to the NASDAQ. Our common stock continued to trade on the AMEX under the symbol TMI until the transfer was completed on December 28, 2006, at which time we began trading on the NASDAQ under the symbol TISI.

We are a leading provider of specialty maintenance and construction services required in maintaining high temperature and high pressure piping systems and vessels that are utilized extensively in the refining, petrochemical, power, pipeline, and other heavy industries. Our inspection services also serve a broader customer base that includes the aerospace and automotive industries. We offer an array of complementary services including:

leak repair,

hot tapping,

fugitive emissions control,

field machining,

technical bolting,

field valve repair,

non-destructive testing

Edgar Filing: TEAM INC - Form 10-Q

field heat treating.

We operate in one reportable segment industrial services. Significant prior acquisitions within this segment have led to the creation of two divisions. Our TMS division provides the services of leak repair, hot tapping, fugitive emissions control, field machining, technical bolting and field valve repair. Our TCM division provides the services of non-destructive testing and field heat treating. We offer our services in over 70 locations throughout the United States and international markets including Aruba, Canada, Singapore, Trinidad and Venezuela.

Table of Contents

Dispositions

On November 30, 2005, we sold all of the outstanding stock of our wholly-owned subsidiary, Climax Portable Machine Tools, Inc. (Climax) of Newberg, Oregon, for approximately \$14.5 million in cash. As presented in this document, our consolidated balance sheets, consolidated statements of operations, and consolidated statements of cash flows have been recast to present the operating results of Climax as discontinued operations for all periods presented.

Three Months Ended February 28, 2007 Compared To Three Months Ended February 28, 2006

Revenues. Revenues from continuing operations in the quarter ended February 28, 2007 were \$73.3 million compared to \$62.6 million in the quarter ended February 28, 2006, an increase of \$10.7 million or 17%. Revenue growth reflects continued market share growth due to continued procurement consolidation trends by our major customers, extensive turnaround and new project work across the country and more favorable pricing resulting from the increased demand. Revenues increased for both our TMS division and TCM division and in 11 out of 13 of the geographic regions in which our two divisions operate. Revenues for the TCM division in the current quarter were \$38.6 million compared to \$33.9 million in the prior year quarter, an increase of \$4.7 million or 14%. Revenues for the TMS division in the current quarter were \$34.7 million compared to \$28.7 million in the prior year quarter, an increase of \$6.0 million or 21%.

Gross Margin. Gross margin from continuing operations in the quarter ended February 28, 2007 was \$24.1 million compared to \$21.0 million in the quarter ended February 28, 2006, an increase of \$3.1 million or 15%. Gross margin as a percentage of sales was 33% in the current quarter compared to 34% in the prior year quarter. The decrease in gross margin as a percentage of sales was attributable to our TMS division where the current year period included start up costs for new service initiatives and unusually high amounts of idle time around the holidays. For the current quarter, gross margin was \$12.5 million for the TMS division and \$11.6 million for the TCM division. For the current quarter, gross margin as a percentage of sales was 36% for the TMS division and 30% for the TCM division. For the prior year quarter, gross margin was \$11.1 million for the TMS division and \$9.9 million for the TCM division. For the prior year quarter, gross margin as a percentage of sales was 39% for the TMS division and 29% for the TCM division.

Selling, General and Administrative Expenses. SG&A of continuing operations in the quarter ended February 28, 2007 was \$18.9 million compared to \$15.7 million in the quarter ended February 28, 2006, an increase of \$3.2 million or 20%. For the current quarter, SG&A attributable to field operations was \$15.6 million and SG&A attributable to corporate administration was \$3.3 million, which included stock option related expense of \$0.4 million and \$0.6 million of costs relating to the independent investigation (please see Note 10). For the prior year quarter, SG&A attributable to field operations was \$13.3 million and SG&A attributable to corporate administration was \$2.4 million, which included no stock option related expense. The increase in SG&A attributable to field operations was primarily due to field level resources and infrastructure to support the growth of the business.

Bad Debt Expense. Bad debt expense from continuing operations was \$0.2 million in the quarter ended February 28, 2007 compared to \$0.5 million in the quarter ended February 28, 2006, a decrease of \$0.3 million.

Interest. Interest expense attributable to continuing operations was \$1.0 million in the quarter ended February 28, 2007 and was consistent with interest expense in the quarter ended February 28, 2006.

Taxes. The provision for income taxes on continuing operations was \$1.6 million on pretax income of \$4.0 million for the quarter ended February 28, 2007. The provision for income taxes for the quarter ended February 28, 2006 was \$1.5 million on pretax income of \$3.7 million. The effective tax rate for the quarter ended February 28, 2007 was 39% and consistent with the prior quarter ended February 28, 2006.

Table of Contents

Nine Months Ended February 28, 2007 Compared To Nine Months Ended February 28, 2006

Revenues. Revenues from continuing operations for the nine month period ended February 28, 2007 were \$222.2 million compared to \$183.8 million in the nine month period ended February 28, 2006, an increase of \$38.4 million or 21%. Revenue growth reflects continued market share growth due to continued procurement consolidation trends by our major customers, extensive turnaround and new project work across the country and more favorable pricing resulting from the increased demand. Revenues increased for both our TMS division and TCM division and in 12 out of 13 of the geographic regions in which our two divisions operate. Revenues for the TCM division in the nine month period ended February 28, 2007 were \$116.2 million compared to \$102.0 million in the prior period, an increase of \$14.2 million or 14%. Revenues for the TMS division in the nine month period ended February 28, 2007 were \$106.0 million compared to \$81.8 million in the prior period, an increase of \$24.1 million, or 30%.

Gross Margin. Gross margin from continuing operations in the nine month period ended February 28, 2007 was \$76.3 million compared to \$61.7 million in the nine month period ended February 28, 2006, an increase of \$14.6 million or 24%. Gross margin as a percentage of sales was consistent at 34% in the current year period when compared to the prior year period. For the current year period, gross margin was \$40.6 million for the TMS division and \$35.7 million for the TCM division. For the current year period, gross margin as a percentage of sales was 38% for the TMS division and 31% for the TCM division. For the prior year period, gross margin was \$31.1 million for the TMS division and \$30.6 million for the TCM division. For the prior year period, gross margin as a percentage of sales was 38% for the TMS division and 30% for the TCM division.

Selling, General and Administrative Expenses. SG&A of continuing operations in the nine month period ended February 28, 2007 was \$55.5 million compared to \$47.2 million in the nine month period ended February 28, 2006, an increase of \$8.3 million or 18%. For the current year period, SG&A attributable to field operations was \$45.4 million and SG&A attributable to corporate administration was \$10.1 million, which included stock option related expense of \$0.9 million and \$0.6 million of costs relating to the independent investigation (please see Note 10). For the prior year period, SG&A attributable to field operations was \$39.6 million and SG&A attributable to corporate administration was \$7.6 million, which included no stock option related expense. The increase in SG&A attributable to field operations was primarily due to field level resources and infrastructure to support the growth of the business.

Bad Debt Expense. Bad debt expense from continuing operations was \$1.8 million in the nine month period ended February 28, 2007 compared to \$0.9 million in the nine month period ended February 28, 2006, an increase of \$0.9 million. The increase in bad debt expense is attributable to increased levels of sales, a billing dispute with a large customer and a \$0.4 million pre-tax charge related to an internal investigation (please see Note 10).

Interest. Interest expense attributable to continuing operations was \$3.2 million in the nine month period ended February 28, 2007 compared to \$2.9 million in the nine month period ended February 28, 2006. This increase is the result of higher interest rates on our LIBOR based debt.

Taxes. The provision for income taxes on continuing operations was \$6.4 million on pretax income of \$15.8 million for the nine month period ended February 28, 2007. The provision for income taxes for the nine month period ended February 28, 2006 was \$4.1 million on pretax income of \$10.7 million. The effective tax rate for the nine month period ended February 28, 2007 was 40% compared to 38% for the nine month period ended February 28, 2006. The increase in effective tax rates is primarily due to the tax related effects of new stock option accounting rules.

Liquidity and Capital Resources

Financing for our operations consists primarily of leasing arrangements, our Credit Facility and cash flows attributable to our continuing operations. We believe that the liquidity we derive from our leasing arrangements,

Table of Contents

our Credit Facility and cash flows attributable to our continuing operations is more than sufficient to fund our capital expenditures, debt maturities and other business needs. At February 28, 2007, our unused available borrowing capacity under the Credit Facility was \$23 million.

Cashflows Attributable to Our Continuing Operations. For the nine month period ended February 28, 2007, cash provided by operating activities was \$11.6 million. Net income from continuing operations was \$9.4 million, depreciation and amortization was \$5.4 million and \$5.6 million was used to fund our working capital requirements.

Cashflows Attributable to Our Investing Activities. For the nine month period ended February 28, 2007, cash used in investing activities was \$10.8 million due primarily to \$11.1 million of capital expenditures. We anticipate capital expenditures for the remainder of the fiscal year to continue at current levels resulting in total fiscal 2007 capital expenditures of approximately \$15 million. The continued level of capital expenditures is associated with specific project opportunities, replacement of equipment acquired in prior acquisitions and business expansion.

Cashflows Attributable to Our Financing Activities. For the nine month period ended February 28, 2007, cash provided by financing activities was \$1.5 million primarily due to cash provided by borrowing under our Credit Facility and issuance of common stock.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

We are exposed to market risk, primarily related to potential increases in interest rates related to our floating interest rate debt. Please see Note 8 to our consolidated financial statements filed on Form 10-K with the SEC for further discussion regarding our Credit Facility.

We have operations in foreign countries with a functional currency that is not the United States Dollar. We are exposed to political risk and market risk, primarily related to foreign currency fluctuations related to these operations.

ITEM 4. CONTROLS AND PROCEDURES

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this quarterly report. Based on the evaluation, such officers have concluded that these disclosure controls and procedures are effective in ensuring that the information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely discussions regarding required disclosure.

In December 2006, our management was alerted that certain false sales entries were made to revenue and accounts receivable at one of our branch locations and, subsequently, our management determined that such entries, totaling \$0.4 million, were indeed made at that branch location in November 2005. In addition, our management became aware of certain instances of the unauthorized use of Company funds for personal expenses at the same branch location. These matters were promptly reported to our audit committee, who initiated an independent investigation into these matters with the assistance of outside counsel and forensic accountants. The independent investigation was concluded in March 2007. In their respective reports to the audit committee, the Company's outside counsel and forensic accountants found no further false sales entries from this branch.

Table of Contents

location. Based upon the findings of the outside counsel and forensic accountants, and our management's internal review of these matters, we have concluded that these matters did not have a material effect on any of our previously issued financial statements and that the wrong doing is limited to a single branch location.

In light of these discoveries, our management has developed and implemented additional, strengthened internal controls to prevent and detect improper entries to the accounting records and the unauthorized use of Company funds. Those controls include centralized processing of cash disbursements, improved separation of duties at the branch-level and additional training and personnel in key support functions.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In August 2005, we were served in a lawsuit styled Paulette Barker, as named Executor for the Estate of Robert Barker, et. al. v. Emmett J. Lescroart, Michael Urban, Team, Inc. et. al., Case Number 355868-402 in the Probate Court #1, Harris County, Texas. The dispute arises out of the sale by Mr. Barker to Mr. Lescroart of stock in Thermal Solutions, Inc. (TSI). Subsequently, we acquired all of the outstanding stock of TSI in April 2004 allegedly for a much higher price than Mr. Lescroart paid Mr. Barker in July 2003. The plaintiff claims damages in excess of \$1,000,000. We intend to vigorously defend this action and do not believe that we have any legal liability under the allegations of the suit. We further believe that we are entitled to be indemnified from any loss we may incur under the terms of the Stock Purchase Agreement related to the acquisition. Mr. Lescroart is a member of our Board of Directors and his dismissal from the lawsuit for lack of personal jurisdiction in December 2005 was reversed by the court of appeals in early 2007. The matter will now proceed to discovery in the lower probate court.

We are involved in various other lawsuits and are subject to various claims and proceedings encountered in the normal conduct of business. In our opinion, any uninsured losses that might arise from these lawsuits and proceedings will not have a materially adverse effect on our consolidated financial statements.

ITEM 1A. RISK FACTORS

Item 1A. Risk Factors beginning on page 6 of our 2006 Form 10-K includes a detailed discussion of our risk factors.
