Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors, officers and beneficial owners of more than 10% of our common stock to file reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of such forms received by us, or written representations from reporting persons that no Forms 3, 4 or 5 were required of such persons, we believe that during our fiscal year ended December 31, 2006, all reports were timely filed, with the exceptions noted herein. One late Form 4 was filed by Joseph M. DeVivo on April 18, 2007 to report an option grant on December 6, 2006. One late Form 4 was filed by Mark M. Sieczkarek on April 18, 2007 to report an option grant on December 6, 2006.

Code of Business Conduct and Ethics

We are committed to maintaining the highest standards of business conduct and ethics. We have adopted a Code of Business Conduct and Ethics (the "Code") for our directors, officers (including our principal executive officer and principal financial officer) and employees. The Code reflects our values and the business practices and principles of behavior that support this commitment. The Code satisfies SEC rules for a code of ethics required by Section 406 of the Sarbanes-Oxley Act of 2002, as well as the Nasdaq listing standards requirement for a code of conduct. The Code is available on our website at <http://www.thermage.com> under Investor Relations Corporate Governance. We will post any amendment to the Code, as well as any waivers that are required to be disclosed by the rules of the SEC or the Nasdaq, on our website.

Audit Committee

Audit Committee. Our audit committee is a standing committee of, and operates under a written charter adopted by, our board of directors. The committee's written charter is available on our website at <http://www.thermage.com>. Our audit committee is chaired by Mr. Ludlum and also includes Messrs. Colella and Sieczkarek, each of whom is independent within the meaning of applicable SEC and Nasdaq rules. Our board of directors has determined that Mr. Ludlum qualifies as an audit committee financial expert. The committee is authorized to:

appoint our independent auditors;

review our internal accounting procedures and financial statements; and

consult with and review the services provided by our independent auditors, including the results and scope of their audit.

Item 11. Executive Compensation.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

The primary objectives of our compensation programs are to:

attract and retain the top echelon of performers;

establish a direct link between sustained performance and individual rewards;

create long-term value; and

provide ownership opportunity to all employees.

We seek to foster a performance-oriented culture, where individual performance is aligned with organizational objectives. Company performance is the primary measure of success upon which we structure our compensation. We evaluate and reward our executive officers based on their contribution to the achievement of short and longer term goals. Individual and departmental performance is factored into salary increase decisions, individual bonus recommendations and stock option (long term incentive) awards.

Executive compensation is reviewed annually, and adjustments are made to reflect performance-based factors, as well as competitive conditions.

Role of Our Compensation Committee

The Compensation Committee, together with our board, establishes compensation for our Chief Executive Officer and our other executive officers and administers the 2006 Equity Incentive Plan, the 2006 Employee Stock Purchase Plan, and the 1997 Stock Plan. The Compensation Committee has a written charter, which was adopted by our board in August 2006. A copy of this charter is available on our website at <http://www.thermage.com>.

Our Compensation Committee is appointed by our board, and is comprised of Msrs. Samuel Colella, Joseph DeVivo and Mark Sieczkarek. The purpose of our Compensation Committee is to:

discharge the board's responsibilities relating to compensation of our executive officers;

administer our stock option plans, stock purchase plans, restricted stock plans and any other equity incentive plans we adopt; and

provide disinterested administration of any employee benefit plans in which our executive officers are eligible to participate.

For each of the last several years, we have hired a third-party compensation consulting group to assist us in setting executive compensation. In past years, management has taken an active role in engaging the consulting group and in preparing the recommendations for the Compensation Committee's, and ultimately the board's, review. In 2006, through interviews with the Compensation Committee and key executives, our compensation consultant assisted us in developing our compensation guiding principles. With the SEC's recent reforms to executive compensation disclosure, our board directed our Compensation Committee to assume primary responsibility for the annual compensation review process. For 2007, our Compensation Committee has engaged the third-party compensation consulting group directly, and has actively worked with the consultant to produce a report for the Committee's consideration. In the future, we may decide not to hire a compensation consultant each year, if we believe that the prior report we obtained, along with publicly-available data from our industry peer group, is sufficient to allow us to make informed decisions with regard to executive compensation matters. Our compensation consultant performs a peer group analysis, reviewing executive compensation arrangements primarily of other publicly-traded medical device companies.

Because bonus targets are driven by financial goals, as to which management has greater insight than the board or the Compensation Committee, the Compensation Committee has directed management to recommend appropriate targets.

Compensation Components

Compensation for our executive officers is broken out into the following components:

Cash Compensation. Cash compensation consists of base salary and annual bonus potential. Our compensation consultant assists us in analyzing peer companies to guide our determination of appropriate cash compensation. Our cash compensation goals for our executive officers are based upon the following principals:

Ensuring that our short-term incentive program is consistent with our compensation philosophy;

Payouts should be based primarily on company financial performance, rather than individual performance;

With improved company performance, pay will move toward targeted positioning; and

Ensuring that individual target incentive opportunities align target total cash compensation levels with desired positioning (e.g., at the market 50th to 60th percentile).

Base Salary and Total Target Cash Compensation. In 2006, our goal was to set base salary at the 50th to 60th percentile of our peer group and total target cash compensation at or above the 60th percentile of our peer group. We found that our base salaries, on average, were 108% of the median of companies with less than \$100 million in revenue, and 97% of the median of the total peer group, but varied on an individual basis. As a result, we determined that there was no need for across-the-board market-based adjustments, but that individual adjustments would be based on performance and contribution. For 2007, our Compensation Committee accepted management's recommended salary merit increases for non-executive employees, averaging 4%. The Committee also accepted management's salary increase recommendations presented for all executive officers, other than the CEO, which ranged from 4% to 9%. The Committee determined to also increase the CEO's salary by 9%.

Discretionary Bonus Program. In addition to base salary compensation, we have a bonus program for executive officers and other personnel pursuant to which cash bonus payments, discretionary cash, and equity awards may be made. Bonuses are calculated based upon actual achievement of pre-established goals. For 2006, our board of directors determined that the calculation would be based exclusively on achievement of corporate operating performance, rather than on a mix of both corporate and individual achievement. In our 2006 compensation survey, we found that our target bonus opportunities were above the market 50th percentile for most executives, but that actual cash incentives were generally below the market 50th percentile. To ensure that individual target incentive opportunities aligned target total cash compensation levels with desired positioning, we set our executive officer target incentives as follows: CEO: 75% of salary; all other executives: 40% of salary. Based upon actual overachievement of targets, our Compensation Committee determined that the maximum payout of 150% of target would be paid to each executive for 2006; we paid out bonuses up to 100% of target achievement in cash and the additional 50% payout for overachievement was made in the form of restricted stock units, vesting quarterly over 2007. The additional 50% payout in the form of restricted stock units were made on February 7, 2007 and will be earned in 2007. As a result such issuances were not accrued as of December 31, 2006. For 2007, our Compensation Committee approved a bonus plan covering all full-time regular employees, including the executive officers (except for certain of our employees in manufacturing who are under a monthly bonus plan and our sales representatives who are under a sales compensation plan). Our Compensation Committee may modify,

amend, revoke or suspend the 2007 bonus plan at any time in its sole discretion. The target bonus for our CEO is 75% of his base salary, and for each other executive officer, 40% of his or her respective base salary. The actual bonuses payable for fiscal year 2007, if any, will vary depending on the extent to which our actual financial performance meets, exceeds, or falls short of the financial goals approved by the Compensation Committee. If our actual performance exceeds the goals approved by the Committee, the actual bonus payable may be up to 150% of the target bonus.

Long-Term Incentive Program. We believe that long-term performance is achieved through an ownership culture that encourages long-term performance by our executive officers through the use of stock-based awards. All employees are eligible to participate in some form of equity program. Our equity compensation goals for our executive officers are based upon the following principals:

Stockholder and executive interests should be aligned;

The program should be structured to provide meaningful retention incentives to participants; and

Actual awards should be tailored to reflect individual performance and attraction/retention goals.

Under our 2006 Equity Incentive Plan, we are permitted to grant stock options, stock appreciation rights, restricted shares, restricted stock units, performance shares, and other stock-based awards. Under our 2006 Equity Incentive Plan, we issue options to our officers, directors and employees to purchase shares of our common stock at an exercise price equal to the fair market value of such stock on the date of grant. The date of grant is typically the date of a regularly scheduled board meeting, of which we have four per year. We have no program, plan or practice to select option grant dates (or set board meeting dates) to correspond with the release of material non-public information. We also have a 2006 Employee Stock Purchase Plan that provides employees with the opportunity to purchase shares of our common stock.

In 2006, as we progressed towards an IPO, we changed our practice from a periodic, non-annual equity grant program for our executives to an annual grant program. Our target goal was to set our long term incentive compensation at or above the median of our peer group. In determining 2006 equity grants for executives, we considered market competitive data, retention power of unvested equity, total potential ownership levels and individual performance. In 2007, the Compensation Committee guided our executive officer equity grants towards the 50th percentile of our peer group, other than our CEO, whose equity grant fell between the 50th and 75th percentile. We also took into consideration the use of equity awards as a means of rewarding achievement and as a means of retention, especially for our officers who were mostly vested in their prior awards.

Benefits. We provide the following benefits to our senior executives generally on the same basis as the benefits provided to all employees:

Health, vision and dental insurance;

Life insurance;

Short-and long-term disability;

401(k) plan;

Employee assistance plan; and

Flexible spending plan.

We believe that these benefits are consistent with those offered by other companies and specifically with those companies with which we compete for employees.

Summary Compensation Table

The following table sets forth summary compensation information for the year ended December 31, 2006 for our chief executive officer, chief financial officer and each of our other three most highly compensated executive officers as of the end of the last fiscal year. We refer to these persons as our named executive officers elsewhere in this prospectus. Except as provided below, none of our named executive officers received any other compensation required to be disclosed by law or in excess of \$10,000 annually.

Name and Principal Position	Year	Salary	Bonus	Non-Equity Incentive Plan Compensation			All Other Compensation	Total
				Stock Awards (1)	Option Awards (2)	Non-Equity Incentive Plan Compensation		
Stephen J. Fanning President and Chief Executive Officer	2006	\$ 390,000			\$ 815,521(3)	\$ 292,500	\$	\$ 1,498,021
Lauren DeBuono Chief Financial Officer	2006	245,700				98,280		343,980
Bader Bellahsene Vice President, Research & Development	2006	195,000			188,085(4)	78,000		461,085
Clint Carnell Vice President, Domestic Sales	2006	249,600			193,679(5)	99,840		543,119
Sherree Lucas Vice President, Marketing	2006	195,000			181,099(6)	78,000		454,099

- (1) Amounts reported on Non-Equity Incentive Plan Compensation represent cash amounts paid under our 2006 bonus program, a non equity incentive program for the achievement of corporate operating performance. Our compensation committee determined to pay 100% of the target achievement of corporate performance under the bonus program in cash. Such cash amounts were paid in 2007. An additional 50% payout for overachievement under the bonus program was made in the form of restricted stock units. Such restricted stock units were granted in 2007 and are not shown on this table. Such units will vest quarterly over 2007.
- (2) Amounts represent the dollar amount of compensation expense recorded in our income statement for the 2006 fiscal year in accordance with FAS123R. Amounts include compensation expense recognized with respect to awards granted in previous fiscal years, as well as those granted, if any, in the 2006 fiscal year. Page 77 of our Form 10-K describes the assumptions made in the valuation of our options under FAS 123R.
- (3) An option exercisable for 650,000 shares was deemed forfeited in March 2006 in connection with the repricing of such option.
- (4) Options exercisable for 4,000, 10,000, 70,000 and 50,000 shares were deemed forfeited in March 2006 in connection with the repricing of such options.
- (5) An option exercisable for 150,000 shares was deemed forfeited in March 2006 in connection with the repricing of such option.
- (6) Options exercisable for 75,000 and 75,000 shares were deemed forfeited in March 2006 in connection with the repricing of such options.

- (1) Represents cash amounts payable under our 2006 bonus program, a non equity incentive program for the achievement of corporate operating performance. The maximum amount specified represents 150% of the target achievement of corporate operating performance. Our compensation committee determined to pay 100% of the target achievement of corporate performance under the bonus program in cash. Such cash amounts were paid in 2007. An additional 50% payout for overachievement under the bonus program was made in the form of restricted stock units. Such restricted stock units were granted in 2007 and are not shown on this table. Such units will vest quarterly over 2007.
- (2) Option granted under our 1997 Stock Option Plan.
- (3) Options grants under our 1997 Stock Option Plan were made while no market existed for our common stock. The exercise price of such options was the fair market value of our common stock on the date of grant as determined by our board of directors.
- (4) In the case of options awarded, amounts represent the dollar amount of compensation cost recognized over the requisite service period, in accordance with FAS 123R, which include both the amounts recorded as compensation expense in our income statement for the 2006 fiscal year as well as amounts to be recognized in future requisite service periods. Page 77 of our Form 10-K describes the assumptions made in the valuation of our options under FAS 123R. In the case of options repriced in 2006, amounts represent the incremental fair value, computed as of the repricing date, under SFAS 123R.
- (5) Option previously granted but repriced in 2006.

Employment Agreements

All of our current executive officers have entered into agreements with us which contain restrictions and covenants. These provisions include covenants relating to the protection of our confidential information and the assignment of inventions. None of our employees are employed for a specified term, and each employee's employment with us is subject to termination at any time by either party for any reason, with or without cause.

We have entered into an employment agreement with Stephen J. Fanning. The employment agreement provides for a lump sum cash payment in the amount of one year of base salary and bonus plus full acceleration of stock option vesting in the event that Mr. Fanning is constructively terminated within 12 months after a change in control. The employment agreement also provides for severance payments consisting of one year of base salary and reimbursement for one year of continued health benefits in the event of termination without cause not in connection with a change in control.

We have adopted a formal severance benefit plan for our full-time employees. The exact payment to any eligible employee is dependent on rank. The maximum possible payment to the highest ranking employees covered by the plan is equal to 12 weeks of severance pay and 3 months of COBRA coverage and outplacement services. Stephen J. Fanning, our President and Chief Executive Officer, whose employment agreement provides for separate and superior severance benefits, and our employees based outside the United States, are not eligible to participate in the plan. Each of our other full-time employees who is involuntarily terminated as a result of the following circumstances is eligible to participate in the plan:

a corporate reorganization;

a reduction in staff and selection for participation in the plan by the Chief Executive Officer; or

a closure or reorganization of a facility or operation.

Repricing of Stock Options in 2006

During March 2006, we repriced stock option awards held by 116 of our employees and directors. Under the terms of this repricing, we repriced certain employee and director stock options having an exercise price of \$2.00 or above to an exercise price of \$1.90. Other than the exercise price, all other terms of the repriced options, such as vesting and contractual life, remained the same. In consideration for the repricing of eligible stock option awards, employees and directors who were previously granted stock option awards on February 2, 2005 were also required to return these awards for cancellation. As a result of this repricing, we repriced 447,565 vested options and 1,523,035 unvested options having a weighted average original exercise price of \$4.18 and \$4.10, respectively. Such options were repriced at a new exercise price of \$1.90 per share. As a result of this repricing, we also cancelled 35,216 outstanding employee options with an original exercise price of \$4.00 that were granted on February 2, 2005.

Nonqualified Deferred Compensation

None of our named executive officers participate in non-qualified defined contribution plans or other deferred compensation plans maintained by us. Our compensation committee may elect to provide our officers and other employees with non-qualified defined contribution or deferred compensation benefits if the compensation committee determines that doing so is in our best interests.

Potential Payments Upon Termination or Change in Control

The following summaries set forth potential payments payable to our executive officers upon termination of employment following a change in control under their current change of control agreements with us. The compensation committee of our board of directors may, at their discretion, amend or add benefits to these arrangements as they deem advisable.

We have entered into an employment agreement with Stephen J. Fanning. The employment agreement provides for a lump sum cash payment in the amount of one year of base salary and target bonus plus full acceleration of stock option vesting in the event that Mr. Fanning is constructively terminated within 12 months after a change in control. Mr. Fanning would have become entitled to \$682,500 had his employment with us terminated on December 31, 2006 under such circumstances. The employment agreement also provides for severance payments consisting of one year of base salary and reimbursement for one year of continued health benefits in the event of termination without cause not in connection with a change in control. Mr. Fanning would have become entitled to approximately \$402,090 had his employment with us terminated on December 31, 2006 under such circumstances. The receipt of any such benefits on termination is contingent on the execution of a mutually agreed upon severance and release agreement with Mr. Fanning.

We have adopted a formal severance benefit plan for our full-time employees. The exact payment to any eligible employee is dependent on rank. The maximum possible payment to the highest ranking employees covered by the plan is equal to 12 weeks of severance pay and 3 months of COBRA coverage and outplacement services. Stephen J. Fanning, our President and Chief Executive Officer, whose employment agreement provides for separate and superior severance benefits, and our employees based outside the United States, are not eligible to participate in the plan. Each of our other full-time employees who is involuntarily terminated as a result of the following circumstances is eligible to participate in the plan:

a corporate reorganization;

a reduction in staff and selection for participation in the plan by the Chief Executive Officer; or

a closure or reorganization of a facility or operation.

Our option agreements with our directors and certain key employees also provide for the accelerated vesting of all shares subject to these options in the event such director or key employee is terminated without cause or constructively terminated within 12 months of a change of control.

The following table lists the named executive officers and the estimated amounts they would have become entitled to had their employment with us terminated on December 31, 2006 under circumstances described above.

Name	Estimated Total Value of Cash Payment	Estimated Total Value of Health Coverage Continuation	Estimated Total Value of Outplacement Benefits	Value of Accelerated Equity (1)
Stephen J. Fanning	\$ *	\$ *	\$	\$ 2,134,537
Laureen DeBuono	61,425	2,793	6,000	
Bader Bellahsene	48,750	1,460	6,000	457,057
Clint Carnell	62,400	4,588	6,000	524,906
Sherree L. Lucas	48,750	4,588	6,000	493,094

* The amount Mr. Fanning would have become entitled to had his employment with us terminated on December 31, 2006 would vary depending on the circumstances. See description more fully set forth above.

(1) We estimate the value of acceleration of options and shares held by each of our named executive officers based on a share price of \$6.99 per share as of December 31, 2006 and the number of options and shares held by each of our executive officers that were unvested as of December 31, 2006.

2006 Director Compensation

Effective after our initial public offering in November 2006, each of our non-employee directors receives, for his or her service on the board, \$1,500 per meeting attended. Each of our non-employee director who serves on our audit committee or compensation committee also receives, for his or her service on such committee \$500 per meeting attended.

In addition, beginning in 2007, the chairpersons of our audit committee, compensation committee, and nominating and governance committee annually were due to receive \$10,000, \$5,000, and \$5,000 respectively, in consideration for their services in these respective roles. In February 2007, our board adjusted the amounts payable to the chairpersons of our audit committee and compensation committee to \$20,000 and \$15,000 respectively. Directors may be reimbursed for expenses incurred in connection with their attendance at board of directors and committee meetings.

In the past, we granted directors options to purchase our common stock pursuant to the terms of our 1997 Stock Option Plan. We now provide for the automatic grant of non-statutory options to our non-employee directors under our 2006 Equity Incentive Plan. Each non-employee director first appointed to the board of directors subsequent to our November 2006 initial public offering will receive an initial option to purchase 20,000 shares upon such appointment. This option will vest ratably as to 1/36th of the shares subject to the option each month, subject to the director's continued service on each relevant vesting date. In addition, beginning in 2007, non-employee directors who have been directors for at least six months will receive an option to purchase 10,000 shares immediately following each annual meeting of our stockholders. This option will vest ratably as to 1/12th of the shares subject to the option each month, subject to the director's continued service on each relevant vesting date. All options granted under the automatic grant provisions have a term of ten years and an exercise price equal to the fair market value on the date of grant.

Equity compensation plans not approved by security holders			

- (1) Our 2006 Equity Incentive Plan provides for annual increases in the number of shares available for issuance thereunder on the first day of each fiscal year, beginning with our 2007 fiscal year, equal to the least of: (a) 3.5% of the outstanding shares of our common stock on the last day of the immediately preceding fiscal year; (b) 1,800,000 shares, or (c) such other amount as our board of directors may determine; and our 2006 Employee Stock Purchase Plan provides for annual increases in the number of shares available for issuance under the plan on the first day of each fiscal year, beginning with our 2007 fiscal year, equal to the least of: (a) 2% of the outstanding shares of our common stock on the first day of the fiscal year; (b) 900,000 shares; or (c) such other amount as our board of directors may determine.

Security Ownership of Certain Beneficial Owners and Management

The following table provides information relating to the beneficial ownership of our common stock as of March 31, 2007, except where otherwise noted, by:

each stockholder known by us to own beneficially more than 5% of our common stock;

each of our executive officers named in the summary compensation table on page 9 (our Chief Executive Officer, our Chief Financial Officer and our three other most highly compensated executive officers);

each of our current directors; and

all of our directors and executive officers as a group.

The number of shares beneficially owned by each entity, person, director or executive officer is determined in accordance with the rules of the SEC, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under such rules, beneficial ownership includes any shares over which the individual has the sole voting power, shared voting power, or investment power and includes any shares that the individual has the right to acquire within 60 days of March 31, 2007 through the exercise of any stock option or other right. The number and percentage of shares beneficially owned is computed on the basis of 23,026,723 shares of our common stock outstanding as of March 31, 2007. The information in the following table regarding the beneficial owners of more than 5% of our common stock is based upon information supplied by our principal stockholders or Schedules 13D and 13G filed with the SEC.

Shares of our common stock that a person has the right to acquire within 60 days of March 31, 2007 are deemed outstanding for purposes of computing the percentage ownership of the person holding such rights, but are not deemed outstanding for purposes of computing the percentage ownership of any other person, except with respect to the percentage ownership of all directors and executive officers as a group. To our knowledge, except as set forth in the footnotes to this table and subject to applicable community property laws, each person or entity named in the table has sole voting and dispositive power with respect to the shares set forth opposite such person's or entity's name. The address for those persons for whom an address is not otherwise provided is c/o Thermage, Inc., 25881 Industrial Boulevard, Hayward, California 94545.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Director Independence

Our board of directors has determined that Kenneth Ludlum, Samuel D. Colella, Edward W. Knowlton, M.D., Joseph M. DeVivo, and Mark M. Sieczkarek, are each independent within the meaning of applicable Nasdaq rules.

Our compensation committee is chaired by Mr. Colella and also includes Messrs. DeVivo and Sieczkarek, each of whom is independent within the meaning of applicable SEC and Nasdaq rules. Our compensation committee may form and delegate authority to subcommittees when appropriate. In December 2007, our compensation committee formed a non-executive option grant subcommittee consisting of Messrs. Fanning and Colella. Mr. Fanning is not considered to be independent.

Our nominating and governance committee is chaired by Mr. DeVivo and also includes Messrs. Byrnes, Colella and Fanning. Messrs. DeVivo and Colella are independent within the meaning of applicable SEC and Nasdaq rules. Messrs. Byrnes and Fanning are not considered to be independent.

In determining the independence of Edward W. Knowlton, M.D., our board of directors took into consideration our consulting agreement with Edward W. Knowlton, M.D. to obtain consulting services related to the development of our ThermaCool system. Pursuant to the consulting agreement, Dr. Knowlton provides approximately six days of consulting services per month at a rate of \$6,250 per month for an indefinite term. The consulting agreement is terminable by either party upon a one-year written notice.

Related Transactions

We describe below transactions and series of similar transactions that have occurred during our last fiscal year to which we were a party or a party in which:

the amounts involved exceeded or will exceed \$120,000; and
a director, executive officer, holder of more than 5% of our common stock or any member of their immediate family had or will have a direct or indirect material interest.

Repricing of Stock Options in 2006

In March 2006, we amended certain unexercised options granted to certain of our directors and executive officers as set forth in the table below to reduce the exercise price of such options to \$1.90 per share in exchange for the forfeiture by such directors and executive officers of options granted to them at higher prices.

Review, Approval or Ratification of Related-Person Transactions

As provided by our audit committee charter, our audit committee must review and approve in advance any related party transaction. All of our directors, officers and employees are required to report to our audit committee any such related party transaction prior to its completion.

**Item 14. Principal Accounting Fees and Services.
Fees Paid to Independent Auditors**

The following information sets out the fees paid to our independent registered public accounting firm, PricewaterhouseCoopers LLP, during the fiscal years 2006 and 2005.

Service Category	2006	2005
Audit Fees	\$ 1,481,522	\$ 215,733
Audit-Related Fees		
Tax Fees		35,361
All Other Fees	1,500	4,166
Total	\$ 1,483,022	\$ 255,260

In the above table, in accordance with the SEC's definitions and rules, audit fees are fees for professional services for the audit of a company's 2006 financial statements and for services that are normally provided by the accountant in connection with other statutory and regulatory filings or engagements; audit-related fees are fees for assurance and related services that are reasonably related to the performance of the audit or review of a company's financial statements; tax services fees are fees for tax compliance, tax advice and tax planning; and all other fees are fees for any services not included in the first three categories.

To help ensure the independence of the independent registered public accounting firm, the Audit Committee has adopted a policy for the pre-approval of all audit and non-audit services to be performed for us by the independent registered public accounting firm. Pursuant to this policy, all audit and non-audit services to be performed by the independent auditor during 2007 must be approved in advance by the Audit Committee. The Audit Committee may delegate to one or more of its members the authority to grant the required approvals, provided that any exercise of such authority is presented to the full Audit Committee at its next regularly scheduled meeting.

All of the services provided by PricewaterhouseCoopers described in the table above were approved by the Audit Committee.
