Company Activities

Net Revenues

The evolution in **Consolidated Net Revenues** by reportable segment was as follows:

Voice, data transmission & Internet

Revenues generated by the Fixed-line Business (including voice, data transmission and Internet services) amounted to **P\$783 million**, a **7%** increase over **1Q06**.

Voice

Total Revenues for this segment reached **P\$619 million** (+4%).

Monthly Charges increased by **P\$6 million** or **3%**, reaching **P\$182 million**, even though no increase has been applied to regulated tariffs. Lines in service increased **4%** as a consequence of promotions and campaigns developed by Telecom.

Revenues generated by **traffic** totaled **P\$296 million**, as a consequence of the **8%** decrease in **Local Measured Service** and increases of **13%** and **8%** in **Domestic Long Distance** and **International Telephony**, respectively.

Interconnection revenues amounted to **P\$84 million** (+22%), mainly driven by a higher level of mobile traffic transported by and terminated in Telecom's fixed line network.

Internet and Data Transmission

As a consequence of the extraordinary evolution of broadband subscribers, **Internet** continues to be the main driver of growth in the fixed-line business, with revenues of **P\$123 million** (+23% vs. **1Q06**).

As of the end of **1Q07**, Telecom's ADSL subscribers reached **526,000** (+**276,000** or **+111%** vs. **1Q06**). Lines with ADSL connection accounted for approximately **13%** of Telecom's lines in service. Regarding ISP services, Arnet subscribers totaled **534,000** (**+80%** or **+237,000** subscribers), due to the increase of **262,000** broadband subscribers (**+141%**) and the decrease of **25,000** dial-up subscribers (**-26%**).

This positive evolution is a consequence of Telecom's offering of high quality products at accessible prices (for example, the product Arnet 640Kb, which showed an excellent performance), leveraging on broadband-specific content, improving ADSL coverage, as well as investing in promotional and branding activities for the portfolio of Arnet products.

Revenues generated by **Data transmission** amounted to **P\$41 million**, (**+17%** or **P\$6 million**, vs. **1Q06**).

Cellular Telephony

The Cellular Telephony business generated revenues of P\$ 1,272 million in 1Q07.

During the quarter, Personal continued with its strategy of strengthening technological innovation by launching the latest generation of value-added services, such as Personal Cam (live images through the web portal); and SMS to fixed (text messages that can be sent to a fixed line telephone). Personal has also been the first operator offering Blackberry Pearl, with more features and a latest generation design.

In addition, Personal continued its customer loyalty program Club Personal with specific activities designed for the summer season. Meanwhile, the development of the network and commercial channels continued, mainly in the Southern Region, in order to improve service quality and customer attention to Personal's subscribers.

The subscriber base as of **March 31, 2007** reached approximately **1.3 million, +93%** vs. **1Q06**. Prepaid and Postpaid customers represented **88%** and **12%**, respectively, while **GSM** subscribers represented **80%** of the overall subscriber base.

Advertising: expenditures reached **P\$61 million (+69%)**, related to brand positioning campaigns and the acquisition of new cellular and Internet customers.

Cost of cellular handsets: increased to **P\$197 million (+10%)** due to the increase in handset sales related to the subscriber growth and handset upgrades.

TLRD (termination charges in third party cellular networks) and Roaming: increased to **P\$176 million (+36%)** due to increased traffic among cellular operators, in line with the significant expansion of the market.

Allowance for Doubtful Accounts: amounted to **P\$19 million (+6%)**, but remained below **1%** of net revenues.

Depreciation of Fixed and Intangible Assets decreased to **P\$330 million (+P\$13million** in the cellular business, **-P\$32 million** in Voice, data & Internet business).

Consolidated Financial and Holding Results

Financial and Holding Results resulted in a loss of **P\$132 million**, as compared to the **P\$183 million** loss registered in **1Q06**. The difference is mainly due to lower net financial interest expenses **P\$38 million** (due to lower net financial debt) and foreign currency exchange losses **P\$19 million**.

Net Financial Debt

As of **March 31, 2007**, **Net Debt** (Loans before the effect of NPV valuation, minus Cash, Banks, Current Investments and Other credits derived from derivative Investments) amounted to **P\$3,222 million**, a reduction of **P\$1.052 million** as compared to **March 31, 2006**. It is worth mentioning that on April 16, 2007, Telecom Argentina cancelled the remaining 25% of the principal amortization originally scheduled for October 15, 2009 and 31.8% of the principal amortization originally scheduled for April 15, 2010 of its Series A and B Notes, in an amount approximately equivalent to US\$81 million.

Consolidated Capital Expenditures

A total amount of **P\$198 million** invested in fixed and intangibles assets was allocated to the cellular business (**P\$94 million**) and the Voice, data and Internet business (**P\$104 million**).

In the Fixed-line business, the Company focused its efforts on the deployment of a new generation network (NGN) based on IP technology. Additionally, investments were allocated to the development of important IT projects, such as the new ERP system.

In the Cellular business expenditures continued to be focused in the GSM/GPRS/EDGE network deployment in the South Region and the extension of its capacity in AMBA and North Regions. In addition, the Group continues with the development of value-added services.
