The supplemental note is attached as Exhibit 99 to this report.

The following important factors could affect future results and could cause those results to differ materially from those expressed in the forward-looking statements: materially adverse changes in economic and industry conditions and labor matters, including workforce levels and labor negotiations, and any resulting financial and/or operational impact, in the markets served by us or by companies in which we have substantial investments; material changes in available technology, including disruption of our suppliers' provisioning of critical products or services; the impact of natural or man-made disasters or litigation and any resulting financial impact not covered by insurance; technology substitution; an adverse change in the ratings afforded our debt securities by nationally accredited ratings organizations; the final results of federal and state regulatory proceedings concerning our provision of retail and wholesale services and judicial review of those results; the effects of competition in our markets; the timing, scope and financial impacts of our deployment of fiber-to-the-premises broadband technology; the ability of Verizon Wireless to continue to obtain sufficient spectrum resources; changes in our accounting assumptions that regulatory agencies, including the SEC, may require or that result from changes in the accounting rules or their application, which could result in an impact on earnings; and the ability to complete acquisitions and dispositions.
