Item 2.02 Results of Operations and Financial Condition

On September 17, 2008, SunLink Health Systems, Inc. (SunLink) issued a press release announcing its results for the fiscal quarter ended June 30, 2008; a copy of such press release is attached as Exhibit 99.1 to this report.

This information shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing. The disclosure in this Current Report, including the Exhibit attached hereto, of any information (financial or otherwise) does not constitute an admission that such information is material.

Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

On September 17, 2008, SunLink issued a press release announcing it expects the audited financial statements of its Carmichael s Cashway Pharmacy, Inc. (Carmichael s) subsidiary to be restated to adjust the pre-acquisition periods previously reported in SunLink s Current Report on Form 8-K filed on July 9, 2008; a copy of such press release is attached as Exhibit 99.2 to this report.

On September 17, 2008, SunLink announced that the financial statements of Carmichael s for the periods June 1, 2006 through December 31, 2006, January 1, 2007 through December 31, 2007 and January 1, 2008 through April 22, 2008, should not be relied upon. SunLink reached its conclusion based on information reviewed by SunLink s Management, SunLink s Audit Committee and SunLink s independent registered public accounting firm (the Accountants) that the Carmichael s financial statements contain errors that include the amount of customer receivables and relates to pre-acquisition collections, bad debts policies and Carmichael s collection activities. Based on current information, SunLink believes the receivables balance will be decreased by at least \$1,300,000 and there will be an increase in the allowance for doubtful accounts and certain customer credit adjustments, which will result in an adjustment to SunLink s allocation of the acquisition purchase price.

SunLink s management and the Audit Committee have discussed the matter reported under this Item 4.02 with the Accountants.

This information shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing. The disclosure in this Current Report, including the Exhibit attached hereto, of any information (financial or otherwise) does not constitute an admission that such information is material.

Item 7.01 Regulation FD Disclosure

On September 17, 2008, SunLink held a conference call to discuss its results for the fiscal quarter ended June 30, 2008. The September 17, 2008 press release and the September 17, 2008 conference call contain, and may implicate, forward-looking statements regarding SunLink and include cautionary statements identifying important factors that could cause actual results to differ materially from those anticipated. Exhibit 99.3 attached hereto and incorporated herein by this reference sets forth certain financial information discussed on the conference call that was not included in the press release.

The information in Item 7.01 of this Form 8-K and the Exhibits attached hereto shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing. The disclosure in this Current Report, including the Exhibits attached hereto, of any information (financial or otherwise) does not constitute an admission that such information is material.

Use of Non-GAAP Financial Information

SunLink may provide a non-GAAP measures of earnings (loss) per share in its earnings releases, conference calls or otherwise. Such measures may include EBITDA or Adjusted EBITDA. Earnings before interest, income taxes, depreciation and amortization (EBITDA) represents the sum of income before interest, income taxes, depreciation and amortization. We understand that certain industry analysts and investors generally consider EBITDA to be one measure of the ability to service debt and satisfy capital requirements, and it is presented to assist analysts and investors in analyzing the ability of a company to generate cash, service debt and meet capital requirements. We believe increased EBITDA, and more particularly in the case of the Company, Adjusted EBITDA, is an indicator of improved ability to service existing debt and to satisfy capital requirements. Neither EBITDA nor adjusted EBITDA, however, is a measure of financial performance under accounting principles generally accepted in the United States of America and should not be considered an alternative to net income as a measure of operating performance or to cash liquidity. Because EBITDA is not a measure determined in accordance with accounting principles generally accepted in the United States of America and is thus susceptible to varying calculations, EBITDA, as presented, may not be comparable to other similarly titled measures of other corporations.

Where we adjust EBITDA for non-cash charges we refer to such measurement as Adjusted EBITDA, which we report on a company wide basis. Non-cash adjustments in Adjusted EBITDA are not intended to be identified or characterized in any respect as non-recurring, infrequent or unusual, if we believe such charge is reasonably likely to recur within two years, or if there was a similar charge (or gain) within the prior two years. Where we report Adjusted EBITDA, we typically also report Hospital Facilities Segment Adjusted EBITDA and Specialty Pharmacy Segment Adjusted EBITDA which is the EBITDA for the applicable Segments without any allocation of corporate overhead, which we report as a separate line item, and without any allocation of the non-cash adjustments, which we also report as a separate line item in Adjusted EBITDA.

Any non-GAAP presentation is intended to be a supplemental measure of performance. It is not intended to replace or to be displayed more prominently than our GAAP measurement of earnings (loss) per shares. If we have provided non-GAAP information, we also have provided a reconciliation of any non-GAAP measure of earnings to the measure of earnings (loss) calculated in accordance with GAAP.
