

Edgar Filing: NUVELO INC - Form 425

NUVELO INC
Form 425
January 13, 2009

Filed by Nuvelo, Inc. Pursuant to Rule 425

Under the Securities Act of 1933

And Deemed Filed Pursuant to Rule 14a-12

Under the Securities Exchange Act of 1934

Subject Company: ARCA biopharma, Inc.

Commission File No. 333-154839

The following is a presentation made by ARCA biopharma, Inc. and Nuvelo, Inc. beginning on January 12, 2009.

J.P. Morgan
27
th
Annual Healthcare
Conference
January 12
15, 2009

Safe Harbor Statement

2

This presentation contains forward-looking statements which include, without limitation, statements regarding the completion of the proposed merger transaction between Nuvelo, Inc., ARCA biopharma, Inc. and Dawn Acquisition Sub, Inc. the proposed merger's anticipated benefits, timing, progress and anticipated completion of the companies' clinical stage and research programs, the timing of regulatory approval, the potential benefits that patients may

experience from the use of the companies' clinical stage compounds, and the cash position of the companies following the merger, which statements are hereby identified as forward-looking statements for purposes of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. Such statements are based on the companies' managements' current expectations and involve risks and uncertainties. Actual results and performance could differ materially from those projected in the forward-looking statements as a result of many factors, including, without limitation, failure to complete the proposed merger in a timely fashion, the risk that Nuvelo's and ARCA's business operations will not be integrated successfully; the companies' inability to further identify, develop and achieve commercial success for products and technologies; the risk that the companies' financial resources will be insufficient to meet their business objectives; uncertainties relating to drug discovery and the regulatory approval process; clinical development processes; enrollment rates for patients in the companies' clinical trials; changes in relationships with strategic partners and dependence upon strategic partners for the performance of critical activities under collaborative agreements; and the impact of competitive products and technological changes. These and other factors are identified and described in more detail in Nuvelo's filings with the SEC, including without limitation Nuvelo's quarterly report on Form 10-Q for the quarter ended September 30, 2008 and subsequent filings. Nuvelo and ARCA disclaim any intent or obligation to update these forward-looking statements.

Introducing: ARCA *biopharma**

3

Pioneering Genetically-Targeted
Cardiovascular Therapies

*ARCA, Nuvelo merger is expected to be

Introducing Gencaro *
(bucindolol hydrochloride)
Investigational drug currently under FDA
review
Next-generation beta-blocker with
unique pharmacology
Potentially first genetically-targeted

heart failure drug

Companion genetic test being developed
by LabCorp
Potential to target ~50% of heart failure
(HF) patients

Very Favorable
genotype is target
patient population for treatment
Potential follow-on indications

Potential prevention of atrial fibrillation
and/or ventricular tachycardia/ventricular
fibrillation being explored
* Trade name pending FDA approval

Comparison of Beta blocker Studies*:

US & ROW

9

* Not head-to-head studies

Marketing Research:

Gencaro

Demand

> 600 cardiologists with established HF practices interviewed
or surveyed to date

Demand for Gencaro
is anticipated to be strong

Peak genetic test ordering opportunity for targeted patient
population segments

>60% of beta-blocker naïve HF patients

>60% of HF patients that are difficult to titrate or have been deemed
non-responsive to existing beta-blocking agents

Cardiologists expected to value Gencaro s:

Improvement in clinical outcomes

Ability to predict response

10

ARCA Primary Market Research; 11/2008

LabCorp Relationship

Easy-to-administer genetic
test

Quick turnaround time for
results expected

Test results will identify
genetic markers that
predict clinical response

510K/PMA track within FDA

Coordinated with Gencaro
NDA
11

Established, Large Market Opportunity
Beta-blockers = current standard of
care in chronic heart failure

Beta-blockers should be prescribed
to all patients with stable HF due to
reduced LVEF

(ACC/AHA Guidelines
2005)

~6 million US HF patients

~550K newly diagnosed
patients annually

12

Commercial Strategy

Cardiologists initiate and influence beta-blocker prescriptions

Penetrate U.S. market with specialized sales force

Unique and desirable offering in large market

Expected to be only drug with companion test to predict response

Defend market exclusivity

Hatch-Waxman protection until 2017

Potential patent protection until 2025

13

Competitive Environment
Limited Competitive Threats

Current beta blockers have
generic equivalents on the
market

Promotion is very limited

Known future competitors
do not have a companion
genetic test or any known
PGt interactions

14

Pricing and Reimbursement

While majority of HF patients are Part D eligible, most opt for supplemental commercial prescription coverage

Current branded beta-blocker products range from \$2.54 - \$4.74 /day (AWP)

Gencaro expected to be on formulary with reasonable pricing

Test anticipated to be covered via medical benefit; Part B for Medicare patients

15

Gencaro US Approval Process

FDA filed New Drug Application
9/28/08

Clinical site inspections proceeding

FDA Pre-Approval Inspection of manufacturer
scheduled

Regulatory department actively communicating
with the agency

FDA's 2009 performance goal: Review and act on
90% of NDAs by PDUFA date

16

NDA submission to
the FDA: 7/31/08

THANK YOU

Additional Information and Where to
Find It

Nuvelo has filed a registration statement on Form S-4, and a related proxy statement/prospectus/consent solicitation, in connection with the merger. Investors and security holders are urged to read the registration statement on Form S-4 and the related proxy statement/prospectus/consent solicitation which contain important

information
about
the
merger
transaction.
Investors
and
security
holders
may
obtain
free
copies
of
these
documents
and
other
documents
filed
with
the
SEC
at
the
SEC's
website
at
www.sec.gov.

In
addition,
investors
and
security
holders
may
obtain

deemed
to
be
participants
in
the
solicitation
of
proxies
from
the
stockholders
of
Nuvelo
in
connection
with
the
merger
transaction.
Information
regarding
the
special
interests
of
these
directors
and
executive
officers
in
the
merger
transaction
is
included
in

the proxy statement/prospectus/consent solicitation described above. Additional information regarding the directors and executive officers of Nuvelo is also included in Nuvelo's proxy statement for its 2008 Annual Meeting of Stockholders which was filed with the SEC on April 23, 2008 and its Annual Report on Form 10-K for the year ended December 31, 2007, which was filed with the

SEC
on
March
12,
2008.
These
documents
are
available as described above.
