The exact stock prices and effective dates may not be set forth in the table above, in which case:

If the stock price is between two stock prices in the table or the effective date is between two effective dates in the table, the number of additional shares will be determined by a straight-line interpolation between the number of additional shares set forth for the higher and lower stock prices and the earlier and later effective dates, as applicable, based on a 365-day year.

If the stock price is greater than \$90.00 per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above), no additional shares will be added to the conversion rate.

If the stock price is less than \$22.00 per share (subject to adjustment in the same manner as the stock prices set forth in the column headings of the table above), no additional shares will be added to the conversion rate.

Notwithstanding the foregoing, in no event will the conversion rate exceed 45.4545 per \$1,000 principal amount of Notes, subject to adjustments in the same manner as the conversion rate as set forth under Description of Notes Conversion Rate Adjustments in the preliminary prospectus supplement dated May 20, 2009.
