Buenos Aires, May 12, 2010 - IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BASE: IRSA), Argentina's leading real estate company, announces the results of its operations for the nine-month period ended on March 31, 2010.

HIGHLIGHTS

In Millions of Ps.	IIIQ 10	IIIQ 09	var%	9M 10	9M 09	var%

Net Income	35.4	-7.2		299.7	-106.2	

Revenues for the first nine months of fiscal year 2010 rose by 14.4%, driven by a 32.2% increase in revenues in Shopping Centers.

The strong increase in Operating Income for the first nine months of fiscal year 2010 (+182.4%) is explained by a 29.9% improvement in Gross Profit, a 6.8% reduction in Marketing and Administrative Expenses, and Income from Trusts of Ps. 34.8 million (vs. Ps. 49.0 million for the first nine months of fiscal year 2009).

Net Income for the first nine months of fiscal year 2010 was Ps. 405.9 million higher than for the first nine months of fiscal year 2009, due to several factors, including an increase in Operating Income of Ps. 253.9 million and an increase of approximately Ps. 200 million in equity investees.

The increase in Revenues for the third quarter of fiscal year 2010 vs. the third quarter of fiscal year 2009 was tempered by lower revenues recognized in the Sales and Developments segment (lower number of office buildings sold during the last quarter).

Net Income for the third quarter of fiscal year 2010 was Ps. 35.4 million, compared to a net loss of Ps. 7.2 million in the third quarter of fiscal year 2009.

¹ EBITDA represents operating income plus depreciation and amortization less gain from operations and holdings of real estate assets, net (included in operating income). Our presentation of EBITDA does not reflect the methodology suggested by its acronym. We believe EBITDA provides investors with meaningful information with respect to our operating performance and facilitates comparisons to our historical operating results. However, our EBITDA measure has limitations as an analytical tool, and should not be considered in isolation, as an alternative to net income or as an indicator of our operating performance or as a substitute for analysis of our results as reported under Argentine GAAP. Some of these limitations include:

it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

it does not reflect changes in, or cash requirements for, our working capital needs;

it does not reflect our interest expense, or the cash requirements to service the interest or principal payments of our debt;

it does not reflect any cash income taxes or employees' profit sharing we may be required to pay;

it reflects the effect of non-recurring expenses, as well as investing gains and losses;

it is not adjusted for all non-cash income or expense items that are reflected in restatements of changes in financial position;
and

other companies in our industry could calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

Because of these limitations, our EBITDA measure should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. EBITDA is not a recognized financial measure under Argentine GAAP. You should compensate for these limitations by relying principally on our Argentine GAAP results and using our EBITDA measurement supplementally.

Highlights for the first nine months of fiscal year 2010, including references to significant situations occurred after the end of the period.

I. Offices and Other Non-Shopping Center Rental Properties

During the last 3 months of calendar year 2009, there was an upward trend in the office leasing market in the City of Buenos Aires. This market, in which IRSA holds a major position, has shown a slow decrease in lease prices along with an increase in vacancy levels since the end of 2008, mainly as a result of two factors: on the one hand, supply rose in 2009, increasing the stock of leasable square meters in the downtown area of Buenos Aires and the northern region of Greater Buenos Aires, and on the other, demand was affected by the 2009 international economic crisis. By year end, the market started to show slight signs of recovery, resulting in vacancy levels of 5.8% and average prices of US\$ 29.2 per square meter for the A+ building segment, according to Colliers International's Annual Real Estate Report. Buenos Aires, 2009/2010 .

	Monthly Revenues ⁴ (Ps./sqm leased)	93.3	91.4	95.0	93.0	87.3	78.4

The growth in revenues and EBITDA lessened as a result of the smaller amount of leasable properties resulting from sales of non-strategic assets made in fiscal year 2010.

During the third quarter of fiscal year 2010 IRSA continued to improve its portfolio mix by selling non-strategic office properties at attractive prices. 1,240 square meters of leasable office space have been disposed of in Edificio Av. Libertador 498 for US\$ 4.3 million.

During the second quarter of fiscal year 2010, IRSA agreed to purchase a plot of land of 3,650 square meters in CATALINAS NORTE, a premium office district in the City of Buenos Aires, which may be used to develop an A+ office building.

II. Alto Palermo S.A. (APSA): Shopping Centers and Consumer Finance

After an atypical start to 2009 characterized by a smaller inflow of foreign tourists due to the international crisis and the H1N1 virus outbreak (which had affected the pace in the growth of sales during the third and fourth quarters of fiscal year 2009) the shopping center industry experienced a significant rebound during the first nine months of fiscal year 2010. Sales in the summer months grew notably as a result of the recovery in domestic consumption and an inflow of tourists, mainly from Brazil and Chile.

Prospects in this segment for the rest of 2010 are promising, in line with an upsurge in consumption and economic activities.

Development of new commercial area in Palermo. This project, currently in development, which is expected to be rolled out in the next months. The project includes, in principle, the development of retail stores, including green areas and a restaurant hub, over a total buildable area of approximately 24,000 square meters.

Soleil Factory Shopping Center. The process for transferring this shopping center's going concern has already started. Upon its completion, possession of part of the building will be delivered. We expect the transaction to be completed in the next months in order for APSA to be able to include this new shopping center in to its portfolio.

Alto Palermo's Purchase Option. On January 14, 2010 IRSA announced the acquisition of an option to purchase the entire direct and indirect equity interest held by Parque Arauco in Alto Palermo S.A., which totals 29.6% of the current shareholding interest and including Parque Arauco's holding of US\$ 15,5 million face value of APSA 2014 Convertible Bonds. IRSA paid 6 million dollars for the option, which sum is considered an advance payment of the final amount, fixed by both parties at US\$ 126 million. The option may be exercised until August 31, 2010, extendable to November 30 of this year.

The company believes that once the transaction is consummated, apart from being an excellent business opportunity it will also result in the consolidation of our position in the Argentine shopping center market, placing us at the forefront of this industry.

Consolidation of the recovery of Tarshop S.A.'s operations as a result of actions taken by management, improved capitalization and stabilization in the local financial markets.

On December 29, 2009, APSA executed a stock purchase agreement with Banco Hipotecario S.A. whereby Banco Hipotecario agreed to the acquisition of 80% of Tarshop S.A.'s stock capital held by APSA for US\$ 26.8 million. The transaction is subject to the occurrence of certain events, including the grant of the Argentine Central Bank's consent, in compliance with the applicable laws.

III. Sales and Developments

With respect to the demand for residential real estate in the Argentinean real estate market throughout calendar year 2009, there was a deceleration both in demand and supply. However, such deceleration did not significantly impact pricing levels, as in other countries, since many individuals perceive real estate investments in Argentina as a high quality alternative to preserve their wealth. In addition, the low level of housing financing in Argentina, compared to other countries, has helped sustain the value of residential properties.

The lower level of revenues and results in the third quarter of fiscal year 2010, compared to the third quarter of fiscal year 2009, is attributable to lower sales of office buildings (recognized in this segment) made in the third quarter of fiscal year 2010.

Horizons Project (CYRSA, partnered by IRSA and Cyrela): sales percentage is more than 99% of available units and the work progress of works exceeds 78% as of March 31. Completion and delivery of the sold units is expected to occur during fiscal 2011.

Torres Rosario Project (APSA s barter). A barter between APSA and a third party was executed over 2 parcels (2-G and 2-H) for the construction of two condominiums, whose degree of progress is 99% and 25%, respectively. Completion of the project is scheduled for July 2010 and December 2011, respectively. The process of the sale of the condominiums in parcel 2-G has started.

El Encuentro Project: The process of sale of the 110 functional units located in this residential community has started. The project is located in the district of Tigre, Province of Buenos Aires.

Sale of undeveloped land reserve in Hudson, Province of Buenos Aires⁶. After the end of the March 31, 2010 period, IRSA agreed to a sale of a property known as "Pereiraola" for US\$ 11.8 million (through the sale of the shares of Pereiraola SAICIFYA). The property is located in the district of Hudson, Province of Buenos Aires, and it extends over an area of approximately 130 hectares. We expect to close the transaction in the next few months.

⁶ IRSA agreed the sale of the proprietary company of the land reserve known as "Pereiraola"

IV. Hotels

There has been an improvement in tourism since the last quarter of 2009. According to data released by the Tourism Secretariat in its International Tourism Survey (ETI) as of December 2009, the number of tourists arriving in Argentina (accumulated 12-month data) was 14.1% higher than in the same period for the previous year. The adverse effects of the world financial crisis and the H1N1 influenza outbreak have eased, and the hotel tourist industry has been recovering since the end of 2009.

Progress in the accomplishment of the IFRS implementation plan

On April 29, 2010, the Company's Board of Directors approved the specific implementation plan for the application of IFRS.

VIII. Brief comment on prospects for the next quarter

Our business segments have shown robust and sound performance. The quality of IRSA's asset portfolio, as shown by its high occupancy levels, has allowed us to capitalize on the effects of the economic recovery and resume a strong pattern of revenues and results.

Shopping centers maintain high occupancy levels and a strong commitment and adhesion by tenants. The pace of sales in the shopping centers has shown a sound recovery during the third quarter of fiscal year 2010, in line with the positive trend that has been observed during the last months. Tenants continue to be loyal and support our new proposals in this segment.

In addition, we will continue working to improve the services we offer to our tenants and consumers, seeking to maintain our successful occupancy levels and traffic in our Shopping Centers. In this sense, we expect to expand our portfolio in the next few months by adding Soleil to our portfolio and launching a new project in Palermo (through our subsidiary Arcos Gourmet S.A.).

With respect to the Consumer Finance business, the first nine months of the fiscal year saw a profit that is the result of the efforts made in the previous year to streamline and stabilize the business in light of the new economic scenario. By the end of the third quarter, operating data in this segment have shown signs of stabilization. However, we will continue to work with the aim of optimizing operating and financial performance in this segment, and in pursuit of this goal we aspire to complete the sales process of Tarshop S.A.'s majority interest to Banco Hipotecario S.A., that will benefit Tarshop with an operating and financial performance capacity commensurate with its future business needs.

As concerns the Office and Non-Shopping Center Rental Properties segment, lease revenues have remained firm, both in pesos and dollars. We believe that there is some stagnation in the market in terms of occupancy rates and pricing levels caused by the market conditions and the addition of footage, mainly in the northern area of the City of Buenos Aires and Greater Buenos Aires. To face this, we have a unique premium portfolio in downtown Buenos Aires that has sparked interest among top-quality lessees in the market. We will continue working towards maintaining high occupancy levels and optimizing our portfolio mix.

Regarding the Sales and Development segment, we will make progress in the development schedule of the Horizons project through our subsidiary Cyrsa, where we have already started to recognize revenues and the degree of work progress is above 78%. We believe that our alliance with Cyrela in this company is an excellent opportunity to develop additional successful projects.
