CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This document includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are based on management's beliefs and assumptions. These forward-looking statements are identified by terms and phrases such as: anticipate, believe, intend, estimate, expect, continue, should, could, may, plan, project, predict, will, potential, forecast, and similar expressions. Forward-looking statements involve risks and uncertainties that may cause actual results to be materially different from the results predicted. Factors that could cause actual results to differ materially from those indicated in any forward-looking statement include, but are not limited to:

state and federal legislative and regulatory initiatives that affect cost and investment recovery, have an effect on rate structure, and affect the speed at and degree to which competition enters the natural gas industries;

outcomes of litigation and regulatory investigations, proceedings or inquiries;

weather and other natural phenomena, including the economic, operational and other effects of hurricanes and storms;

the timing and extent of changes in interest rates;

general economic conditions, including the risk of a prolonged economic slowdown or decline, or the risk of delay in a recovery, which can affect the long-term demand for natural gas and related services;

potential effects arising from terrorist attacks and any consequential or other hostilities;

changes in environmental, safety and other laws and regulations;

results and costs of financing efforts, including the ability to obtain financing on favorable terms, which can be affected by various factors, including credit ratings and general market and economic conditions;

increases in the cost of goods and services required to complete capital projects;

growth in opportunities, including the timing and success of efforts to develop domestic pipeline, storage, gathering and other infrastructure projects and the effects of competition;

the performance of natural gas transmission, storage and gathering facilities;

the extent of success in connecting natural gas supplies to transmission and gathering systems and in connecting to expanding gas markets;

Edgar Filing: Spectra Energy Partners, LP - Form 10-Q

the effect of accounting pronouncements issued periodically by accounting standard-setting bodies;

conditions of the capital markets during the periods covered by the forward-looking statements; and

the ability to successfully complete merger, acquisition or divestiture plans; regulatory or other limitations imposed as a result of a merger, acquisition or divestiture; and the success of the business following a merger, acquisition or divestiture.

In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than Spectra Energy Partners, LP has described. Spectra Energy Partners, LP undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

SPECTRA ENERGY PARTNERS, LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. General

The terms we, our, us and Spectra Energy Partners as used in this report refer collectively to Spectra Energy Partners, LP and its subsidiaries unless the context suggests otherwise. These terms are used for convenience only and are not intended as a precise description of any separate legal entity within Spectra Energy Partners.

Nature of Operations. Spectra Energy Partners, LP, through its subsidiaries and equity affiliates is engaged in the transportation and gathering of natural gas through interstate pipeline systems that are located in the southeastern quadrant of the United States and the storage of natural gas in underground facilities that are located in southeast Texas, south central Louisiana and southwest Virginia. In addition, we own a 50% interest in Market Hub Partners Holding (Market Hub) and a 24.5% interest in Gulfstream Natural Gas System, L.L.C. (Gulfstream).

Basis of Presentation. The accompanying Condensed Consolidated Financial Statements include our accounts, our majority-owned subsidiaries where we have control and those variable interest entities, if any, where we are the primary beneficiary. These interim financial statements should be read in conjunction with the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2009, and reflect all normal recurring adjustments that are, in our opinion, necessary to fairly present our results of operations and financial position. Amounts reported in the Condensed Consolidated Statements of Operations are not necessarily indicative of amounts expected for the respective annual periods.

Use of Estimates. To conform with generally accepted accounting principles (GAAP) in the United States, we make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements. Although these estimates are based on our best available knowledge at the time, actual results could differ.

2. Acquisition

On May 4, 2009, we acquired all the ownership interests of NOARK Pipeline System Limited Partnership (NOARK) from Atlas Pipeline Partners, L.P. (Atlas) for approximately \$294.5 million. NOARK's assets consist of 100% ownership interests in Ozark Gas Transmission, L.L.C. (Ozark Gas Transmission), a 565-mile Federal Energy Regulatory Commission (FERC) regulated interstate natural gas transmission system, and Ozark Gas Gathering L.L.C. (Ozark Gas Gathering), a 365-mile, fee-based, natural gas gathering system whose operations are regulated by the applicable state commissions. The transaction was initially funded by \$218.0 million drawn on our available bank credit facility, \$70.0 million borrowed under a credit facility with a subsidiary of Spectra Energy Corp (Spectra Energy) and \$6.5 million from cash on hand. This transaction was partially refinanced through the issuance of 9.8 million common units to the public, representing limited partner interests, and 0.2 million general partner units to Spectra Energy in the second quarter of 2009. Spectra Energy's ownership of our partnership decreased from 84% to 74% as a result of the issuance of 9.8 million common units to the public.

Table of Contents

The assets and liabilities of NOARK were recorded at their respective fair values as of May 4, 2009 and the results of NOARK's operations are included in the Condensed Consolidated Financial Statements beginning as of the effective date of the acquisition. The following unaudited pro forma information of Spectra Energy Partners has been prepared as if the acquisition had occurred on January 1, 2009.

	Three Months Ended June 30, 2009	Six Months Ended June 30, 2009
	(in millions)	
Operating revenues	\$ 45.9	\$ 97.5
Net income	\$ 38.1	\$ 76.4
Basic and diluted net income per limited partner unit	\$ 0.46	\$ 0.94

3. Business Segments

Our Gas Transportation and Storage segment aligns our operations with the chief operating decision maker's view of the business. This business segment is considered to be our sole reportable segment.

The Gas Transportation and Storage segment provides interstate transportation, storage and gathering services of natural gas, and the storage and redelivery of liquefied natural gas for customers in the southeastern quadrant of the United States. Substantially all of our operations are subject to the FERC and the Department of Transportation's (DOT) rules and regulations. This segment includes East Tennessee Natural Gas, LLC (East Tennessee), Ozark Gas Transmission and Ozark Gas Gathering (collectively, hereafter referred to as "Ozark") and Saltville Gas Storage, L.L.C. (Saltville).

The remainder of our operations is presented as "Other." While it is not considered a business segment, Other primarily includes our equity investments in Gulfstream and Market Hub and certain unallocated corporate costs.

Gulfstream provides interstate natural gas pipeline transportation for customers in central and southern Florida. Gulfstream's operations are subject to the rules and regulations of the FERC and DOT.

Market Hub owns and operates two natural gas storage facilities, Moss Bluff and Egan, which are located in southeast Texas and south central Louisiana, respectively. Market Hub's operations are subject to the rules and regulations of DOT. Moss Bluff is also subject to the rules and regulations of the Texas Railroad Commission, while Egan is also subject to the rules and regulations of the FERC.

Management evaluates segment performance based on earnings before interest and taxes from continuing operations (EBIT). On a segment basis, EBIT represents all profits from continuing operations (both operating and non-operating) before deducting interest and income taxes.

Edgar Filing: Spectra Energy Partners, LP - Form 10-Q

Net income per limited partner unit basic and diluted	\$ 0.38	\$ 0.44	\$ 0.84	\$ 0.83

Table of Contents

The partnership agreement requires that, within 45 days after the end of each quarter, we distribute all of our Available Cash, as defined, to unitholders of record on the applicable record date.

Available Cash. Available Cash, for any quarter, consists of all cash on hand at the end of that quarter:

less the amount of cash reserves established by the general partner to:

provide for the proper conduct of business,

comply with applicable law, any debt instrument or other agreement, or

provide funds for distributions to the unitholders and to the general partner for any one or more of the next four quarters,

plus, if the general partner so determines, all or a portion of cash on hand on the date of determination of Available Cash for the quarter.

Subordinated Units. All of the subordinated units are held by wholly owned subsidiaries of Spectra Energy. The partnership agreement provides that, during the subordination period, the common unitholders have the right to receive distributions of Available Cash each quarter in an amount equal to \$0.30 per common unit (the Minimum Quarterly Distribution), plus any arrearages in the payment of the Minimum Quarterly Distribution on the common units from prior quarters, before any distributions of Available Cash may be made on the subordinated units. Furthermore, no arrearages will be paid on the subordinated units. The practical effect of the subordinated units is to increase the likelihood that during the subordination period there will be Available Cash to be distributed on the common units. The subordination period will end on the first business day after we have earned and paid at least the Minimum Quarterly Distribution on each outstanding limited partner unit and general partner unit for any three consecutive, non-overlapping four quarter periods ending on or after June 30, 2010. The subordination period also will end upon the removal of our general partner other than for cause if the units held by our general partner and its affiliates are not voted in favor of such removal. When the subordination period ends, all remaining subordinated units will convert to common units, on a one-for-one basis, and the common units will no longer be entitled to arrearages.

On July 22, 2010, our general partner's board of directors confirmed that, under the terms of our partnership agreement and upon the payment of our second quarter cash distribution to unitholders, our subordination period will end. As a result, our 21,638,730 subordinated units held by wholly owned subsidiaries of Spectra Energy will be converted into common units on a one-for-one basis effective as of August 13, 2010. The conversion of the subordinated units does not impact the amount of cash distributions paid or the total number of outstanding units. The conversion will have no impact on our calculation of net income per limited partner unit since the subordinated units were previously included in the net income per limited partner unit calculation. In addition, since there will be no subordinated units, future distributions will be shared equally among the limited partner units owned by subsidiaries of Spectra Energy and limited partner units owned by other common unitholders.

Incentive Distribution Rights. The general partner holds incentive distribution rights in accordance with the partnership agreement as follows:

	Total Quarterly Distribution	Marginal Percentage Interest in Distributions	
		Common and Subordinated Unitholders	General Partner
	Target Per-Unit Amount		
Minimum Quarterly Distribution	\$0.30	98%	2%
First Target Distribution	up to \$0.345	98%	2%
Second Target Distribution	above \$0.345 up to \$0.375	85%	15%
Third Target Distribution	above \$0.375 up to \$0.45	75%	25%

Thereafter	above \$0.45	50%	50%
------------	--------------	-----	-----

Table of Contents

To the extent these incentive distributions are made to the general partner, there will be more Available Cash proportionately allocated to the general partner than to holders of common and subordinated units.

7. Investments in Unconsolidated Affiliates

As of June 30, 2010, our investments in unconsolidated affiliates consist of a 24.5% interest in Gulfstream and a 50% interest in Market Hub, both of which are accounted for using the equity method.

For the six months ended June 30, 2010, we received total distributions of \$21.6 million from Gulfstream. Of these distributions, \$15.5 million were included in Cash Flows From Operating Activities Distributions Received From Unconsolidated Affiliates and \$6.1 million were included in Cash Flow From Investing Activities Distributions Received From Unconsolidated Affiliates on the Condensed Consolidated Statements of Cash Flows. For the six months ended June 30, 2009, we received total distributions of \$89.8 million, of which \$19.3 million were included in Cash Flows From Operating Activities Distributions Received From Unconsolidated Affiliates and \$70.5 million were included in Cash Flow From Investing Activities Distributions Received From Unconsolidated Affiliates.

We received distributions from Market Hub of \$26.2 million during the six months ended June 30, 2010 and \$17.6 million during the same period in 2009, which were included in Cash Flows From Operating Activities Distributions Received From Unconsolidated Affiliates.

Net income	19.8	21.6	40.3	41.5

Table of Contents

8. Goodwill

We completed our annual goodwill impairment test as of April 1, 2010 and no impairments were identified. All of our goodwill is in our Gas Transportation and Storage segment, and there have been no additions, amortization or other changes in the carrying amount of goodwill since December 31, 2009.

We primarily use a discounted cash flow analysis to determine fair value for our reporting unit. Key assumptions in the determination of fair value include the use of an appropriate discount rate and estimated future cash flows. In estimating cash flows, we incorporate expected long-term growth rates in key markets served by our operations, regulatory stability, and the ability to renew contracts, as well as other factors that affect our revenue, expense and capital expenditure projections.

9. Debt and Credit Facility

Credit Facility Summary	Expiration Date	Credit Facility Capacity	Outstanding as of
			June 30, 2010
			Revolving Credit (in millions)
Spectra Energy Partners, LP	2012	\$ 500.0	\$ 240.0

The credit facility prohibits us from making distributions of Available Cash to unitholders if any default or event of default, as defined, exists. In addition, the credit facility contains covenants, among others, limiting our ability to make other restricted distributions or dividends on account of the purchase, redemption, retirement, acquisition, cancellation or termination of partnership interests, and is also subject to certain financial covenants. These financial covenants include financial leverage and interest coverage ratios. The terms of the credit agreement require us to maintain a ratio of total debt to Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), as defined in the credit agreement, of 5.0 or less. The terms of the credit agreement also require us to maintain a ratio of Adjusted EBITDA to interest expense of 2.5 or greater. As of June 30, 2010, we were in compliance with those covenants. The credit facility does not contain provisions that trigger an acceleration of indebtedness based solely on the occurrence of a material adverse change in our financial condition or results of operations.

In addition to the credit facility, long-term debt includes East Tennessee's 5.71% unsecured notes payable totaling \$150.0 million as of both June 30, 2010 and December 31, 2009. East Tennessee's debt agreement contains financial covenants which limit the amount of debt that can be outstanding as a percentage of total capital. Failure to maintain the covenants could require East Tennessee to immediately pay down the outstanding balance. As of June 30, 2010, East Tennessee was in compliance with those covenants. In addition, the debt agreement allows for acceleration of payments or termination of the agreements due to nonpayment, or to the acceleration of other significant indebtedness. The debt agreement does not contain provisions that trigger an acceleration of indebtedness based solely on the occurrence of a material adverse change.

Table of Contents**10. Fair Value Measurements**

The following table presents, for each of the fair value hierarchy levels, our assets and liabilities that are measured at fair value on a recurring basis:

Description	Condensed Consolidated Balance Sheet Caption	Total	June 30, 2010		
			Level 1	Level 2	Level 3
			(in millions)		
Interest rate swap liabilities	Current liabilities other	\$ 3.4	\$	\$ 3.4	\$
Interest rate swap liabilities	Deferred credits and other liabilities other	0.7		0.7	
Total Liabilities		\$ 4.1	\$	\$ 4.1	\$

Description	Condensed Consolidated Balance Sheet Caption	Total	December 31, 2009		
			Level 1	Level 2	Level 3
			(in millions)		
Interest rate swap liabilities	Current liabilities other	\$ 0.4	\$	\$ 0.4	\$
Interest rate swap liabilities	Deferred credits and other liabilities other	5.2		5.2	
Total Liabilities		\$ 5.6	\$	\$ 5.6	\$

Level 2 Valuation Techniques. Fair values of our financial instruments, which include interest rate swaps, are determined based on market-based prices. These valuations may include inputs such as quoted market prices of the exact or similar instruments or alternative pricing sources that may include models or matrix pricing tools, with reasonable levels of price transparency. For interest rate swaps, we utilize data obtained from multiple sources for the determination of fair value. Both the future cash flows for the fixed-leg and floating-leg of our swaps are discounted to present value. In addition, credit default swap rates are used to develop the adjustments for credit risk embedded in our positions. We believe that since some of the inputs and assumptions for the calculations of fair value are derived from observable market data, a Level 2 classification is appropriate.

Financial Instruments. There was no material change in fair value from December 31, 2009 for financial instruments recorded and carried at book value. Judgment is required in interpreting market data to develop the estimates of fair value.

During the 2010 and 2009 periods, there were no adjustments to assets and liabilities measured at fair value on a nonrecurring basis.

11. Commitments and Contingencies

Environmental. We are subject to various federal, state and local regulations regarding air and water quality, hazardous and solid waste disposal and other environmental matters. We believe there are no matters outstanding that upon resolution will have a material adverse effect on our consolidated results of operations, financial position or cash flows.

Litigation. We are involved in legal, tax and regulatory proceedings in various forums, including matters regarding contracts, performance and other matters, arising in the ordinary course of business, some of which may involve substantial monetary amounts. We have insurance coverage for certain of these losses should they be incurred. We believe that the final disposition of these proceedings will not have a material adverse effect on our consolidated results of operations, financial position or cash flows.

12. Risk Management and Hedging Activities

We are exposed to the impact of changes in interest rates as a result of our issuance of variable and fixed-rate debt. We manage our interest rate exposure by limiting our variable-rate exposures and by monitoring the effects of market changes in interest rates. We also enter into financial derivative instruments, including, but not limited to, interest rate swaps to manage and mitigate interest rate risk exposure.

Table of Contents

We use pay fixed receive floating interest rate swaps to mitigate our exposure to variable interest rates on loans outstanding under our revolving credit facility. In June 2010, we settled our two-year interest rate swap agreements with Spectra Energy on \$25.0 million of loans outstanding under the revolving credit facility, thereby reducing our total notional amount from \$180.0 million to \$155.0 million as of June 30, 2010. Other than these interest rate swaps, we did not have any derivatives outstanding during the three and six months ended June 30, 2010.

13. New Accounting Pronouncement

The following new accounting pronouncement was adopted during the six months ended June 30, 2010:

In June 2009, the Financial Accounting Standards Board issued an accounting standard which is intended to address (1) the effects on certain consolidation provisions as a result of the elimination of the concept of qualifying special-purpose entities and (2) constituent concerns about the application of certain consolidation provisions including those in which the accounting and disclosures do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. The adoption of the provisions of this standard on January 1, 2010 did not have any impact on our consolidated results of operations, financial position or cash flows.

14. Subsequent Event

As previously discussed in Note 6, on July 22, 2010, our general partner's board of directors confirmed that, under the terms of our partnership agreement and upon the payment of our second quarter cash distribution to unitholders, our subordination period will end. As a result, all subordinated units will be converted into common units on a one-for-one basis effective as of August 13, 2010.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations. INTRODUCTION

Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Condensed Consolidated Financial Statements.

Executive Overview

For the three months ended June 30, 2010, we reported net income of \$33.2 million compared to \$33.6 million for the comparable period in 2009. Increased revenues from the May 2009 Ozark acquisition and expansion projects were offset by higher operating expenses related to pipeline integrity work, labor and benefits costs and a full quarter of Ozark expenses. For the six months ended June 30, 2010 and 2009, we reported net income of \$72.3 million and \$62.1 million, respectively. The increase was due primarily to the acquisition of the Ozark assets in May 2009 and increased earnings from expansion at Gulfstream. For the six months ended June 30, 2010, cash available for distribution was \$89.1 million.

During the first quarter of 2010, East Tennessee Natural Gas executed a precedent agreement with the Tennessee Valley Authority for the Northeastern Tennessee Project (NET), and filed the related certificate application with the FERC. In July 2010, the FERC issued the environmental assessment which positions the project to receive full FERC certification on schedule. This project will provide approximately 150,000 dekatherms per day (Dth/d) of gas service to a generation plant in Hawkins County, Tennessee. The initial in-service date is expected to be in late 2011. Gulfstream's Phase V project was granted its FERC certificate, in the first quarter of 2010 and the capacity expansion projects at Market Hub continue to progress.

We continue to project capital expansion expenditures of \$60 million in 2010 and \$140 million in 2011.

A cash distribution of \$0.43 per limited partner unit was declared in July 2010 and payable on August 13, 2010, representing a 2.4% increase over the previous distribution of \$0.42 per limited partner unit paid in May 2010.

(a) See Reconciliation of Non-GAAP Measures for a reconciliation of this measure to its most directly comparable financial measures calculated and presented in accordance with GAAP.

Three Months Ended June 30, 2010 compared to same period in 2009

Operating Revenues. The \$6.1 million increase was driven primarily by an increase of \$4.6 million related to the acquisition of the Ozark assets in May 2009 and higher revenues of \$1.5 million at East Tennessee due to increased contracted volumes.

Operating, Maintenance and Other Expense. The \$6.6 million increase was driven primarily by:

a \$3.9 million increase in operating costs associated with the Ozark assets acquired in May 2009,

a \$0.9 million increase due to timing of governance expenses in 2009,

a \$0.8 million increase in benefit costs during 2010,

a \$0.7 million increase in pipeline integrity costs as a result of scheduling delays in 2009 and,

a \$0.7 million increase from lower pipeline fuel recoveries by East Tennessee, partially offset by

a \$1.7 million decrease as a result of 2009 transaction costs associated with the Ozark acquisition.

Table of Contents

Equity in Earnings of Unconsolidated Affiliates. The \$0.4 million decrease includes a \$1.0 million decrease in equity earnings from Market Hub and a \$0.6 million increase in equity earnings from Gulfstream. The following discussion explains the factors affecting the equity earnings of Gulfstream and Market Hub, each representing 100% of the earnings drivers of those entities.

	Three Months Ended June 30,		
	2010	2009 (in millions)	Increase (Decrease)

Net income	\$ 30.1	\$ 27.9	\$ 2.2
Spectra Energy Partners' share	\$ 7.4	\$ 6.8	\$ 0.6

Gulfstream Owned 24.5%

Gulfstream's net income increased \$2.2 million to \$30.1 million for the three-month period in 2010 compared to \$27.9 million for the same period in 2009. The increase was driven primarily by:

a \$5.8 million increase in revenues primarily from the Phase III expansion contracts that were fully ramped up by June 2009, partially offset by

a \$3.4 million increase in interest expense attributable to the \$300 million debt issued in May 2009 by Gulfstream.

	Three Months Ended June 30,		
	2010	2009 (in millions)	Increase (Decrease)
<i>Market Hub</i>			
Operating revenues	\$ 29.8	\$ 29.9	\$ (0.1)

Spectra Energy Partners' share	\$ 9.8	\$ 10.8	\$ (1.0)

Market Hub Owned 50%

Edgar Filing: Spectra Energy Partners, LP - Form 10-Q

Market Hub's net income decreased \$1.8 million to \$19.8 million for the three-month period ended June 30, 2010 compared to \$21.6 million for the same period in 2009. The decrease was driven primarily by:

a \$0.1 million decrease in revenues resulting from \$1.8 million lower demand for hub services compared to the prior year quarter, mostly offset by \$1.7 million of additional revenue from the continued phase-in of the Egan Cavern 3 storage expansion,

Table of Contents

a \$0.7 million increase in operating, maintenance and other expense due primarily to increased ad valorem taxes resulting from the Egan expansion and a decrease in capitalized overhead costs in 2010, and

a \$0.8 million increase in depreciation expense primarily due to the Egan expansion placed in service during the second half of 2009.
Six Months Ended June 30, 2010 compared to same period in 2009

Operating Revenues. The \$21.0 million increase was driven primarily by the acquisition of the Ozark assets in May 2009.

Operating, Maintenance and Other Expense. The \$11.8 million increase was driven primarily by:

a \$10.0 million increase in operating costs associated with the Ozark assets acquired in May 2009,

a \$1.1 million increase from lower pipeline fuel recoveries by East Tennessee,

a \$0.7 million increase due to timing of governance expenses in 2009,

a \$0.3 million increase in benefit costs during 2010, and

a \$0.7 million increase in pipeline integrity costs as a result of scheduling delays in 2009, partially offset by

a \$2.7 million decrease as a result of 2009 transaction costs associated with the Ozark acquisition.

Equity in Earnings of Unconsolidated Affiliates. The \$1.2 million increase includes a \$1.8 million increase in equity earnings from Gulfstream and a \$0.6 million decrease in equity earnings from Market Hub. The following discussion explains the factors affecting the equity earnings of Gulfstream and Market Hub, each representing 100% of the earnings drivers of those entities.

	2010	Six Months Ended June 30, 2009 (in millions)	Increase (Decrease)
<i>Gulfstream</i>			
Operating revenues	\$ 134.0	\$ 117.1	\$ 16.9
Operating, maintenance and other expense	18.9	18.1	0.8
Depreciation and amortization	17.5	17.1	0.4
Other income and expenses, net	0.5	0.3	0.2
Interest expense	35.0	26.3	8.7
Net income	\$ 63.1	\$ 55.9	\$ 7.2
Spectra Energy Partners share	\$ 15.5	\$ 13.7	\$ 1.8

Gulfstream Owned 24.5%

Edgar Filing: Spectra Energy Partners, LP - Form 10-Q

Gulfstream's net income increased \$7.2 million to \$63.1 million for the six-month period ended June 30, 2010 compared to \$55.9 million for the same period in 2009. The increase was driven primarily by:

a \$16.9 million increase in revenues primarily from the Phase III expansion contracts that were fully ramped up by June 2009 and higher park and loan activity due to colder weather increasing the demand for natural gas in the first quarter of the current year, partially offset by

a \$0.8 million increase in operating, maintenance and other expense related primarily to higher ad valorem tax expense, and

an \$8.7 million increase in interest expense attributable to the \$300 million debt issued in May 2009 by Gulfstream.

Table of Contents

	Six Months Ended June 30,		
	2010	2009 (in millions)	Increase (Decrease)
<i>Market Hub</i>			
Operating revenues	\$ 58.9	\$ 57.8	\$ 1.1
Operating, maintenance and other expense	12.0	10.7	1.3

Other income and expenses, net	0.6		0.6
Interest income	0.1	0.2	(0.1)
Interest expense		0.1	(0.1)
Income tax expense	0.2	0.1	0.1
Net income	\$ 40.3	\$ 41.5	\$ (1.2)
Spectra Energy Partners' share	\$ 20.1	\$ 20.7	\$ (0.6)

Market Hub - Owned 50%

Market Hub's net income decreased \$1.2 million to \$40.3 million for the six-month period in 2010 compared to \$41.5 million for the same period in 2009. The decrease was driven primarily by:

a \$1.3 million increase in operating, maintenance and other expense due primarily to increased ad valorem taxes resulting from the Egan expansion and a favorable tax adjustment in 2009, and

a \$1.5 million increase in depreciation expense primarily due to the Egan expansion placed in service during the second half of 2009, partially offset by

a \$1.1 million increase in revenues resulting from the continued phased-in of the Egan Cavern 3 storage expansion of \$4.6 million, partially offset by lower demand for hub services compared to the prior year of \$3.5 million, and

a \$0.6 million increase in other income and expenses, net primarily due to a right-of-way granted to a third party at Moss Bluff.

Adjusted EBITDA and Cash Available for Distribution*Adjusted EBITDA*

We define our Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) as Net Income plus Interest Expense, Income Taxes and Depreciation and Amortization less our Equity in Earnings of Gulfstream and Market Hub, Interest Income, and Other Income and Expenses, Net, which primarily consists of non-cash AFUDC. Our Adjusted EBITDA is not a presentation made in accordance with GAAP. Because Adjusted EBITDA excludes some, but not all, items that affect net income and is defined differently by companies in our industry, our definition of Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Adjusted EBITDA should not be considered an alternative to Net Income, Operating Income, cash from operations or any other measure of financial performance or liquidity presented in accordance with GAAP.

Adjusted EBITDA is used as a supplemental financial measure by our management and by external users of our financial statements to assess:

the financial performance of assets without regard to financing methods, capital structure or historical cost basis;

the ability to generate cash sufficient to pay interest on indebtedness and to make distributions to partners; and

operating performance and return on invested capital as compared to those of other publicly traded limited partnerships that own energy infrastructure assets, without regard to financing methods and capital structure.

Table of Contents

Significant drivers of variances in Adjusted EBITDA between the periods presented are substantially the same as those previously discussed under Results of Operations.

Cash Available for Distribution

We define Cash Available for Distribution as our Adjusted EBITDA plus Cash Available for Distribution from Gulfstream and Market Hub and net preliminary project costs, less net cash paid for interest expense, cash paid for income tax expense, and maintenance capital expenditures, excluding the impact of reimbursable projects. Cash Available for Distribution does not reflect changes in working capital balances. Cash Available for Distribution for Gulfstream and Market Hub is defined on a basis consistent with us. Cash Available for Distribution should not be viewed as indicative of the actual amount of cash we plan to distribute for a given period.

Cash Available for Distribution should not be considered an alternative to Net Income, Operating Income, cash from operations or any other measure of financial performance or liquidity presented in accordance with GAAP. Cash Available for Distribution excludes some, but not all, items that affect Net Income and Operating Income and these measures may vary among other companies. Therefore, Cash Available for Distribution as presented may not be comparable to similarly titled measures of other companies.

Significant drivers of variances in Cash Available for Distribution between the periods presented are substantially the same as those previously discussed under Results of Operations. Other drivers include the timing of certain cash outflows, such as capital expenditures for maintenance and the scheduled payments of interest.

Goodwill Impairment Test				

We completed our annual goodwill impairment test as of April 1, 2010 and no impairments were identified. All of our goodwill is in our Gas Transportation and Storage segment, and there have been no additions, amortization or other changes in the carrying amount of goodwill since December 31, 2009.

We primarily use a discounted cash flow analysis to determine fair value for our reporting unit. Key assumptions in the determination of fair value include the use of an appropriate discount rate and estimated future cash flows. In estimating cash flows, we incorporate expected long-term growth rates in key markets served by our operations, regulatory stability, and the ability to renew contracts, as well as other factors that affect our revenue, expense and capital expenditure projections.

The long-term growth rates used for our reporting unit reflect continued expansion of our assets, driven by new natural gas supplies such as shale gas and increasing demand for natural gas transportation capacity on our pipeline systems. We assumed a weighted-average long-term growth rate of 3% for our 2010 goodwill impairment analysis. Had we assumed a 1% lower growth rate for our reporting unit, there would have been no impairment of goodwill.

We continue to monitor the effects of the economic downturn that global economies are currently facing on the long-term cost of capital utilized to calculate our reporting unit fair value. We assumed a weighted-average cost of capital that market participants would use in evaluating our business of 9.4% for our 2010 goodwill impairment analysis. Had we assumed a 100 basis point increase in the weighted-average cost of capital for our reporting unit, there would have been no impairment of goodwill.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

We will rely primarily upon cash flows from operations, including cash distributions received from Gulfstream and Market Hub, an available credit facility and potential additional financing transactions to fund our liquidity and capital requirements for the next 12 months. As of June 30, 2010, we had negative net working capital of \$8.0 million compared to negative \$8.4 million as of December 31, 2009, of which the June 30, 2010 balance included \$25.0 million and the December 31, 2009 balance included \$27.5 million for the note payable on demand to Market Hub.

Operating Cash Flows

Net cash provided by operating activities totaled \$93.7 million in the six months of 2010 compared to \$65.3 million during the same period in 2009. This increase was driven primarily by earnings from the Ozark acquisition in May 2009, as well as increased distributions received from Market Hub and 2010 collection of receivables primarily at Ozark.

Investing Cash Flows

Cash flows used in investing activities totaled \$16.5 million in the six months of 2010 compared to \$223.1 million during the same period in 2009. The change was driven primarily by:

the \$294.5 million acquisition of Ozark in 2009, partially offset by

the \$70.5 million distribution received from Gulfstream resulting from their \$300.0 million debt issuance in 2009, and

\$31.6 million of proceeds in 2009 from the liquidation of the remaining available-for-sale securities.

Capital and Investment Expenditures

	Six Months Ended June 30,	
	2010	2009
	(in millions)	
Capital Expenditures		
Gas Transportation and Storage	\$ 11.9	\$ 8.8
Investment Expenditures		
Gulfstream	1.3	7.1
Market Hub	9.4	14.8
Total capital and investment expenditures	\$ 22.6	\$ 30.7

Capital and investment expenditures for the six months ended June 30, 2010 totaled \$22.6 million and included \$17.5 million for expansion projects and \$5.1 million for maintenance and other projects. We estimate 2010 capital and investment expenditures of approximately \$75 million, of which \$60 million is expected to be used for expansion projects and \$15 million for maintenance and other projects. For 2011, expansion projects are estimated at \$140 million and primarily relate to the East Tennessee NET project. Given our objective of growth through acquisitions and expansions of existing assets, we anticipate that we will continue to invest significant amounts of capital to grow and acquire assets. Expansion capital expenditures may vary significantly based on investment opportunities.

We continue to evaluate customers' needs for incremental expansion opportunities at East Tennessee, Ozark, Gulfstream and Market Hub. We expect that significant natural gas infrastructure, including both natural gas transportation and storage with links to growing gas supplies and markets, will be needed over time.

Table of Contents

Financing Cash Flows

Net cash used in financing activities totaled \$74.9 million in the six months of 2010 compared to \$137.8 million cash provided by in the same prior-year period. This change was driven primarily by:

\$212.2 million of net proceeds received from the issuance of units associated with the Ozark acquisition in 2009,

\$17.9 million increase in distributions to partners in 2010 compared to the same period in 2009, as a result of increased distribution rates and an increase in the number of units outstanding due to the issuance in the second quarter of 2009, and

a \$2.5 million payment on note payable to affiliates in 2010, partially offset by \$21.5 million of net payments in the same period in 2009.

Available Credit Facility and Restrictive Debt Covenants. See Note 9 of Notes to Condensed Consolidated Financial Statements for a discussion of the available credit facility and related financial and other covenants.

Cash Distributions. As previously discussed, a cash distribution of \$0.43 per limited partner unit was declared in July 2010, payable on August 13, 2010, representing a 2.4% increase over the previous distribution of \$0.42 per limited partner unit and the eleventh consecutive quarterly increase. This cash distribution represents a 13.2% increase over the distribution of \$0.38 per limited partner unit declared in July 2009.

Other Financing Matters. As previously discussed in Note 6, on July 22, 2010, our general partner's board of directors confirmed that, under the terms of our partnership agreement and upon payment of our second quarter cash distribution to unitholders, our subordination period will end. As a result, all subordinated units will be converted into common units on a one-for-one basis on August 13, 2010. In addition, since there will be no subordinated units, future distributions will be shared equally among the limited partner units owned by subsidiaries of Spectra Energy and limited partner units owned by other common unitholders.

As of the date of this filing, we have \$1.3 billion available in the aggregate under an effective shelf registration statement on file with the Securities and Exchange Commission (SEC) to register the issuance of limited partner common units and various debt securities.

OTHER ISSUES

New Accounting Pronouncement

See Note 13 of Notes to Condensed Consolidated Financial Statements for discussion.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Our exposure to market risk is described in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2009. We believe the exposure to market risk has not changed materially at June 30, 2010.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 (Exchange Act) is recorded, processed, summarized, and reported, within the time periods specified by the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by us in the reports we file or submit under the

Edgar Filing: Spectra Energy Partners, LP - Form 10-Q

Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Table of Contents

Under the supervision and with the participation of the management of Spectra Energy Partners (DE) GP, LP (our General Partner), including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2010, and, based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these controls and procedures are effective.

Changes in Internal Control over Financial Reporting

Under the supervision and with the participation of the management of our General Partner, including the Chief Executive Officer and Chief Financial Officer, we have evaluated changes in internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the fiscal quarter ended June 30, 2010 and found no change that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings.**

For information regarding material legal proceedings and environmental matters, see Note 11 of Notes to Condensed Consolidated Financial Statements, which is incorporated by reference into this Part II.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, careful consideration should be given to the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2009, which could materially affect our financial condition or future results. There were no material changes to those risk factors at June 30, 2010.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.***Issuer Purchases of Equity Securities***

Period	Total Number of Units Purchased (a)	Average Price Paid per Unit	Total Number of Units Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Units that may yet be Purchased under the Plans or Programs
April 1 April 30, 2010				
May 1 May 31, 2010				
June 1 June 30, 2010	48,000	\$ 33.15		
Total April 1 June 30, 2010	48,000	\$ 33.15		

(a) These units were purchased to satisfy awards vesting in July 2010 under the Long-Term Incentive Plan.

Item 6. Exhibits.

Any agreements included as exhibits to this Form 10-Q may contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties have been made solely for the benefit of the other parties to the applicable agreement and:

were not intended to be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate;

may have been qualified by disclosures that were made to the other party in connection with the negotiation of the applicable agreement;

may apply contract standards of materiality that are different from materiality under the applicable securities laws; and

were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement. We acknowledge that, notwithstanding the inclusion of the foregoing cautionary statements, we are responsible for considering whether additional specific disclosures of material information regarding material contractual provisions are required to make the statements in this Form 10-Q not misleading.
