PROXY STATEMENT

2010 ANNUAL MEETING OF STOCKHOLDERS

This Proxy Statement and accompanying proxy was first mailed to stockholders on or about August 30, 2010, in connection with the solicitation of proxies by the Board of Directors (Board) of AsiaInfo-Linkage, Inc., a Delaware corporation (we, us or AsiaInfo-Linkage), for use at the annual meeting of stockholders to be held on September 29, 2010, at 3:00 p.m., local time, at our principal executive offices located at 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing, PRC, or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders (the Annual Meeting). Our telephone number at our principal executive offices is +8610 8216 6688.

INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Share Ownership

Stockholders of record at the close of business on August 23, 2010, which date is referred to herein as the record date, are entitled to notice of and to vote at the Annual Meeting. As of the record date, 74,172,529 shares of our common stock were issued and outstanding and held of record by approximately 713 registered stockholders.

Voting, Solicitation and Revocability of Proxy

Registered stockholders can vote by mail, telephone or the Internet. Please note that voting via the Internet is a valid proxy voting method under the laws of the State of Delaware (our state of incorporation). Telephone voting can be accessed by calling the toll-free number (in the United States only) 1-866-540-5760. Internet voting can be accessed by logging on to the following Internet address: <http://www.proxyvoting.com/asia>. Telephone and Internet voting information is provided on the proxy card. A control number located on the proxy card is designed to verify each stockholder's identity and allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded. If your shares are held in the name of a bank, broker or other nominee, follow the voting instructions on the form you receive from your bank, broker or other nominee. For such shares, the availability of telephone or Internet voting depends on the voting process of your bank, broker or other nominee.

Edgar Filing: ASIAINFO-LINKAGE, INC - Form DEF 14A

If you do not choose to vote by telephone or the Internet, you may still return your proxy card, properly signed, and the shares represented will be voted in accordance with your directions. You can specify your choices by marking the appropriate boxes on the proxy card. If your proxy card is signed and returned without specifying choices, the shares will be voted in favor of Proposals 1 and 2. If you vote by telephone or the Internet, it is not necessary to return your proxy card.

You may revoke your proxy at any time before it is voted at the Annual Meeting by casting a different vote by telephone or the Internet, by executing a later-voted proxy by mail, by voting by ballot at the Annual Meeting, or by providing written notice of the revocation to Susie Shan, our Legal Counsel, at our principal executive offices.

Your vote is important. Accordingly, regardless of whether you plan to attend the Annual Meeting, you are urged to vote by telephone, by the Internet, or by signing and returning the accompanying proxy card.

Table of Contents

If you do attend, you may vote by ballot at the Annual Meeting, thereby canceling any proxy previously given. However, attendance at the Annual Meeting will not revoke a proxy unless you actually vote in person at the meeting.

In the event that any matter not described in this Proxy Statement properly comes before the Annual Meeting, the proxy holders named in the accompanying proxy will vote the shares represented by the proxy in their discretion. As of the date of this Proxy Statement, we are not aware of any other matter that might be presented at the Annual Meeting.

Each share of common stock outstanding on the record date is entitled to one vote. The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of common stock issued and outstanding on the record date, present in person or represented by proxy. Stockholders may withhold authority to vote for one or more of the nominees for director and may abstain on one or more of the other matters that may come before the Annual Meeting. The inspector of election appointed for the Annual Meeting will determine the existence of a quorum and will tabulate the votes cast at the Annual Meeting. Broker non-votes (shares held by a bank, broker or other nominee that does not have the authority, either express or discretionary, to vote on a particular matter) will not be counted in determining the number of votes cast with respect to a proposal. For purposes of determining the presence of a quorum, abstentions and broker non-votes will be counted by us as present at the Annual Meeting. Abstentions will also be counted by us in determining the total number of votes cast with respect to a proposal (other than the election of directors). If, however, a quorum is not present or represented, the stockholders present in person or represented by proxy have the power to adjourn the Annual Meeting from time to time, without notice other than announcement at the Annual Meeting, until a quorum is present or represented. If a bank, broker or other nominee indicates on a proxy that it does not have discretionary authority to vote on a particular matter, under applicable Delaware law those shares will be counted as present for purposes of determining the presence of a quorum, but will not be counted as votes cast on the matter and will have no effect on the outcome of the vote on such matter. Under the rules regulating banks, brokers or other nominees who are members of the New York Stock Exchange, brokers, banks or other nominees that have not received voting instructions from a customer ten days prior to the meeting date may vote the customer's shares in discretion of the bank, broker or other nominee on proposals regarding routine matters, which in most cases includes the ratification of the appointment of the independent registered public accounting firm. However, the election of directors is considered a non-discretionary item, which means that your bank, broker, or other nominee cannot vote your shares to elect directors without your specific instructions.

The cost of soliciting proxies will be borne by us. Proxies may be solicited by certain of our directors, officers and employees, without additional compensation, in person or by telephone, email or facsimile. We have engaged Morrow & Co., LLC, 470 West Ave., Stamford, Connecticut 06902, to assist with the solicitation of proxies for an estimated fee of \$7,500 plus reasonable out-of-pocket expenses. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

Each class has a three-year term. The Class I Directors are Messrs. James Ding, Yungang Lu and Libin Sun, the Class II Directors are Messrs. Steve Zhang, Thomas J. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below, all of whom are presently directors. Vote Required

Directors are elected by a plurality of the votes present in person or represented by proxy and entitled to vote, assuming a quorum is present. Abstentions and broker non-votes are counted for quorum purposes but have no effect on the vote. Banks, brokers and other nominees who have not received voting instructions from their customers with respect to shares held beneficially for such customers may not vote such shares on a discretionary basis for the election of any director. Stockholders do not have cumulative voting rights in the election of directors.

Recommendation of Our Board

Our Board recommends that AsiaInfo-Linkage stockholders vote FOR the election of the three Class II nominees listed above.

CORPORATE GOVERNANCE

Director Independence

Our Board consists of nine directors. In accordance with the current listing standards of The NASDAQ Stock Market, our Board, on an annual basis, affirmatively determines the independence of each director or nominee for election as a director. Our Board has determined that, with the exception of Steve Zhang, Thomas J. Manning, Libin Sun, and Xiwei Huang, all of its members are independent directors, using the definition of that term in the listing standards of The NASDAQ Stock Market. Although our Board has historically characterized James Ding as non-independent due to his being a nominal officer of one of our inactive subsidiaries, our Board has reconsidered this position and, based on the scope, character and nature of the relationship, concluded that Mr. Ding is not and has not been an employee of our subsidiary in the past three years. Our Board has also determined that each of Qingtong Zhou, who served as a director until November 2009, and Tao Long, who served as a director until July 2010, was independent at the time he served as a director. In making these determinations, our Board has concluded that none of those members has an employment, business, family or other relationship which, in the opinion of our Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Board Leadership Structure

In accordance with our Bylaws, our Board elects our officers, including a President and Chief Executive Officer, or CEO, a Chief Financial Officer, or CFO, and such other officers as our Board may appoint from time to time. In addition, our Board may appoint a Chairman or any number of Co-Chairmen. At present, James Ding, an independent director, serves as a Co-Chairman, and Steve Zhang serves as our President and CEO. Effective upon the closing of our business combination with Linkage Technologies International Holdings Limited, or Linkage, in July 2010, Libin Sun became a Co-Chairman of our Board and our Executive Co-Chairman. Mr. Sun had served as the Chairman and Chief Executive Officer of Linkage, overseeing the historical day-to-day business of Linkage and its management while also leading its board of directors. Our Board believes that having Mr. Sun serve as a Co-Chairman provides valuable perspective to our Board with respect to the integration of Linkage and assists our overall leadership structure at an important phase in our strategic development.

Table of Contents

Either or both of the Co-Chairmen of our Board may preside at meetings of our Board. In their absence, the Chair of our Nominating and Corporate Governance Committee, or in such person's absence the independent director present who has the most seniority on our Board, is responsible for chairing Board meetings. Either or both of the Co-Chairmen of our Board also may preside at meetings of our stockholders and receive and distribute to our Board, and arrange for responses to, communications from stockholders.

Separating the positions of the Co-Chairmen and the CEO allows our CEO to focus on our day-to-day business, while allowing the Co-Chairmen of our Board to lead our Board in its fundamental role of providing advice to and independent oversight of management. Our Board recognizes the time, effort, and energy that our CEO is required to devote to his position in the current business environment, as well as the commitment required to serve as our Co-Chairmen, particularly as our Board's oversight responsibilities continue to grow. While our Bylaws and Corporate Governance Guidelines do not require that our Chairman and CEO positions be separate, our Board believes that separating these positions and having an independent director serve as a Co-Chairman is the appropriate leadership structure for us at this time and demonstrates our commitment to good corporate governance.

Board's Role in Risk Oversight

Risk is inherent in every business, and how well a business manages risk can ultimately determine its success. We face a number of risks, including strategic risks, enterprise risks, financial risks, regulatory risks, and others. Management is responsible for the day-to-day management of risks the company faces, while our Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, our Board has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed.

Our Board believes that establishing the right tone at the top, and full and open communication between management and our Board, are essential for effective risk management and oversight. Our Co-Chairmen meet regularly with our President and CEO and other senior officers to discuss strategy and the risks we face. Senior management attends the quarterly Board meetings and is available to address any questions or concerns raised by our Board on risk management-related and any other matters. Each quarter, our Board receives presentations from senior management on strategic matters involving our operations. Our Board holds strategic planning sessions with senior management to discuss strategies, key challenges, and risks and opportunities for us.

While our Board is ultimately responsible for risk oversight at our company, our three Board committees assist our Board in fulfilling its oversight responsibilities in certain areas of risk as further set forth below. Our board committees report to our Board on significant risks and other matters.

Executive Sessions

The independent members of our Board meet in executive session (without the participation of executive officers or other non-independent directors) at least two times each year, after a regularly scheduled Board meeting, and at any other time requested by any independent director. Either Co-Chairman of our Board, provided he or she is an independent director, is responsible for calling and presiding over executive sessions. To the extent that either Co-Chairman of our Board is absent or not an independent director, those responsibilities are carried out by the Chairman of our Nominating and Corporate Governance Committee or, if such person is absent or not an independent director, by the independent director present who has the most seniority on our Board.

Committees and Meeting Attendance

During the fiscal year ended December 31, 2009, our Board held four regular meetings, held four special meetings, and acted six times by unanimous written consent.

Table of Contents

Our Board has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. During the fiscal year ended December 31, 2009, the three committees of our Board held meetings as follows:

our Audit Committee held four meetings and acted one time by unanimous written consent;

our Compensation Committee held two meetings and acted four times by unanimous written consent; and

our Nominating and Corporate Governance Committee held no meetings and acted one time by unanimous written consent.

In 2009, each director, with the exception of Mr. Qingtong Zhou, who resigned in November 2009, attended 75% or more of the meetings of our Board and of the committees of our Board on which such director served during the period for which he was a director or committee member. Our Bylaws provide that either or both of the Co-Chairmen of our Board may preside at meetings of our stockholders. Otherwise, we have no requirements for our directors to attend our annual meetings of stockholders. James Ding and Steve Zhang both attended our 2009 annual meeting of stockholders.

Committee Composition

The following table sets forth the current membership of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee. Each committee conducts its business pursuant to a written charter approved by our Board, copies of which are available on our website at www.asiainfo-linkage.com.

Audit Committee	Compensation Committee	Nominating and Corporate Governance Committee
Yungang Lu	Davin A. Mackenzie	Thomas J. Manning
Sean Shao	Edward Tian	Edward Tian
Davin A. Mackenzie	James Ding	Sean Shao

Audit Committee. Our Audit Committee currently consists of Messrs. Lu (Chair), Shao and Mackenzie. Our Audit Committee falls within the definition of audit committee under Section 3(a)(58)(A) of the Securities Exchange Act of 1934, or the Exchange Act. In addition to meeting The NASDAQ Stock Market's tests for director independence, directors on our Audit Committee must meet two basic criteria set forth in the rules promulgated by the Securities and Exchange Commission, or SEC. First, Audit Committee members are barred from accepting, directly or indirectly, any consulting, advisory or other compensatory fee from us or any affiliate of us, other than in the member's capacity as a member of our Board and any Board committee. Second, a member of our Audit Committee may not be an affiliated person of us or any subsidiary of us, apart from his or her capacity as a member of our Board and any Board committee. Our Board has determined that each member of our Audit Committee meets these independence requirements, in addition to the independence criteria established by The NASDAQ Stock Market. In addition, our Board has determined that each member of our Audit Committee is an Audit Committee Financial Expert as defined by the SEC in Item 407(d) of Regulation S-K. Our Audit Committee assists our Board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with legal and regulatory requirements, and, in accordance with The NASDAQ Stock Market requirements, discusses policies with respect to risk assessment and risk management. Our Audit Committee's primary duties and responsibilities include:

appointing and retaining our independent registered public accounting firm, approving all audit, review, and other services to be provided by our independent registered public accounting firm and determining the compensation to be paid for such services;

Table of Contents

overseeing the integrity of our financial reporting process and systems of internal controls regarding accounting and finance;

overseeing the qualification, independence, and performance of our independent registered public accounting firm;

reviewing and, if appropriate, approving any related party transactions; and

monitoring compliance with legal and regulatory requirements.

Compensation Committee. Our Compensation Committee currently consists of Messrs. Mackenzie (Chair), Tian and Ding. Our Board has determined that each member of our Compensation Committee is an independent director, using the definition of that term in the listing standards of The NASDAQ Stock Market. Our Compensation Committee reviews and approves corporate goals and objectives relevant to the compensation of our executive officers, evaluates the performance of executive officers in light of those goals and objectives, and determines and approves the compensation level of executive officers based on this evaluation. Our Compensation Committee also administers our stock option plans and stock incentive plans. Our Compensation Committee assists our Board in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. For more information regarding our compensation programs and processes, see the discussion below under the heading Compensation Discussion and Analysis.

Nominating and Corporate Governance Committee. Our Nominating and Corporate Governance Committee currently consists of Messrs. Manning (Chair), Tian and Shao. Other than Mr. Manning, our Board has determined that each member of our Nominating and Corporate Governance Committee is an independent director, using the definition of that term in the listing standards of The NASDAQ Stock Market. Effective on the closing of our business combination with Linkage, our Board appointed Mr. Manning as a member and Chair of our Nominating and Corporate Governance Committee. On the basis of the limited and exceptional circumstances described in the remainder of this paragraph, our Board has determined that Mr. Manning's membership on our Nominating and Corporate Governance Committee is required by the best interests of our company and our stockholders. In making this determination, our Board considered all of the facts and circumstances, including the exceptional circumstances relating to our business combination with Linkage and the related changes in the composition of our Board, as well as Mr. Manning's previous experience serving as an independent director on our Nominating and Corporate Governance Committee from January 2006 until October 2009. In particular, the Board considered Mr. Manning's substantial historical knowledge regarding our Nominating and Corporate Governance Committee, its duties, policies and procedures, its oversight of risk relating to corporate governance, and related matters.

Our Nominating and Corporate Governance Committee makes recommendations to our Board regarding the nomination of candidates to stand for election or re-election as members of our Board, evaluates our Board's performance, provides oversight of corporate governance and ethical standards and establishes and administers Board committee member compensation policy. Our Nominating and Corporate Governance Committee assists our Board in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors and executive officers, and corporate governance.

Director Nominations

We have adopted Corporate Governance Guidelines that address the composition of our Board, criteria for Board membership and other Board governance matters. The Corporate Governance Guidelines set out our director nomination process. A copy of our Corporate Governance Guidelines is available on the Investor Relations section of our website at www.asiainfo-linkage.com.

Our Nominating and Corporate Governance Committee annually evaluates our Board and its committees, and the needs of our Board for various skills, experience, expected contributions and other characteristics, in determining the director candidates to be nominated at the annual meeting of stockholders. Our Nominating and Corporate Governance Committee evaluates candidates for directors proposed by directors, stockholders or management in light of our Nominating and Corporate Governance Committee's views of the current needs of our Board for certain skills, experience or other characteristics, the candidate's background, skills, experience, other characteristics and expected contributions and the qualification standards established from time to time by our Nominating and Corporate Governance Committee. While we do not have a formal diversity policy, our Nominating and Corporate Governance Committee seeks to have directors representing a range of experience, qualifications, skills and backgrounds, consistent with its goal of creating a board of directors that best serves the needs of our company and the interests of our stockholders. If our Nominating and Corporate Governance Committee believes that our Board requires additional candidates for nomination, our Nominating and Corporate Governance Committee may engage, as appropriate, a third-party search firm to assist in identifying qualified candidates. Our Nominating and Corporate Governance Committee also considers candidates for our Board membership proposed by our stockholders. Any such proposals should be made in writing to AsiaInfo-Linkage, Inc., 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing 100086, PRC, Attention: Legal Department. All nominees must submit a completed form of directors' and officers' questionnaire as part of the nominating process. In making the determinations regarding nominations of directors, our Nominating and Corporate Governance Committee may take into account the benefits of diverse viewpoints as well as the benefits of a constructive working relationship among directors.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section discusses the principles underlying our executive compensation policies and decisions and the most important factors relevant to an analysis of those policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers and places in perspective the detailed information presented in the tables below under the heading

Compensation Paid to Named Executive Officers. The tables that you find in this Proxy Statement contain specific information about the compensation earned or paid in 2007, 2008 and 2009 to the following individuals, including our CEO, the persons serving as our Vice President and CFO during 2009, and our three other most highly-compensated executive officers in 2009, whom we also refer to as our named executive officers :

Steve Zhang, President and CEO

Wei Li, Former Vice President and CFO

Eileen Chu, Former Vice President and CFO

Jian Qi, President and Chief Executive Officer - Lenovo-AsiaInfo Division

Feng Liu, Vice President and General Manager of Research and Development - AsiaInfo Technologies Division

Yadong Jin, Vice President and General Manager of Marketing

Overview of Compensation Program

Our Compensation Committee has responsibility for establishing, implementing and monitoring adherence to our compensation philosophy and objectives. Our Compensation Committee is responsible for ensuring that the total compensation paid to our executive officers is fair, reasonable and competitive. Our compensation decisions with respect to executive officer salaries, annual incentives and long-term incentive opportunities are influenced by (a) the officer's level of responsibility and function; (b) our overall financial performance and, in some cases, the officer's business unit; and (c) our assessment of the competitive marketplace, including other peer companies.

Compensation Philosophy and Objectives

All of our compensation programs, including our executive compensation programs, are designed to attract and retain key employees in the highly competitive information technology software and services marketplace in China. Our executive compensation programs are also designed to motivate our executives to achieve and reward them for superior performance in attaining corporate and individual objectives that create stockholder value. Different programs, including both cash and stock-based compensation, are geared toward short- and long-term performance, respectively, with the goal of aligning employee interests with stockholder interests and increasing stockholder value over the long term. Executive compensation programs impact all employees by setting general levels of compensation and creating an environment of goals, reward and expectations. Our Compensation Committee also monitors our compensation policies and practices to ensure they do not incentivize risk-taking or other unintended risks that are reasonably likely to have a material adverse effect on us. Finally, we endeavor to ensure that our compensation programs are viewed as fundamentally fair to our stockholders.

Compensation Programs and Process

Elements of compensation for our named executive officers include base salary, non-equity incentive compensation, long-term equity incentive awards, pension plan, health, disability and life insurance and certain other perquisites. We use salary as the base amount necessary to match our

competitors for executive talent. We utilize cash incentive payments to reward performance achievements over the course of a one-year horizon and

Table of Contents

we use equity incentive awards to reward long-term performance, with excellent corporate performance and extended tenure producing potentially significant value for our named executive officers. We believe that this combination of programs provides an appropriate mix of fixed and variable pay, balances short-term operational performance with long-term stockholder value, and encourages executive recruitment and retention.

Our Compensation Committee is responsible for establishing, implementing and monitoring the compensation of our named executive officers. Our Compensation Committee meets outside the presence of all executive officers, including our named executive officers, to consider appropriate compensation for our CEO. Our Compensation Committee conducts its analysis with input from our Human Resources, or HR, department, which receives comparative salary data generated from participation in annual benchmarking compensation surveys, or the Salary Surveys, administered by Mercer Human Resource Consulting LLC, or Mercer, and Taihe Business Management Consulting Co. Ltd., or Taihe, each of which are independent consulting firms.

When making compensation decisions, our Compensation Committee analyzes the dollar amount of each component of the executive officer's compensation, including current cash compensation (base salary and non-equity plan incentive compensation), long-term equity incentive program compensation, and any other compensation.

Steve Zhang, our CEO, is responsible for conducting an annual review of each other named executive officer's performance and recommending the appropriate base salary and other forms of compensation for such officer to our Compensation Committee. Mr. Zhang receives base salary recommendations from our HR department based on the Salary Surveys described above. In addition, Mr. Zhang recommends annual performance milestones for each other named executive officer for the purpose of determining annual non-equity incentive compensation. Finally, Mr. Zhang recommends to our Compensation Committee the number of equity awards to be granted to each other named executive officer as long-term equity compensation.

Mr. Zhang's base salary is set by our Compensation Committee, which analyzes the Salary Surveys to ensure that his pay is competitive. Our Compensation Committee also determines Mr. Zhang's equity and non-equity incentive compensation based on corporate performance milestones which are set by our Compensation Committee. Finally, our Compensation Committee grants long-term equity awards to Mr. Zhang and considers Mr. Zhang's recommendations for long-term equity awards to other named executive officers.

Except as set forth below, our Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, or between cash and non-cash compensation. However, our philosophy is to pay our executive officers competitive levels of compensation that best reflect their individual responsibilities and contributions to us. In general, we typically make a greater percentage of an employee's compensation performance-based as he or she becomes more senior. We attempt to keep cash compensation to the minimum competitive level while providing the opportunity to be well rewarded through equity if we perform well over time.

We choose to pay each element of compensation in order to attract and retain necessary talent, reward annual performance (on an individual, business unit and enterprise-wide basis) and provide incentives for achieving long-term strategic goals as well as short-term objectives. The amount of each element of compensation is determined by our Compensation Committee in consultation with our CEO with respect to the other named executive officers, and, with respect to the CEO, by our Compensation Committee. Compensation decisions for all named executive officers take into account the following factors:

Performance against corporate and individual objectives for the previous year;

Value of skills and capabilities to support our long-term performance;

Performance of general management responsibilities; and

Contribution as a member of our executive management team.

Table of Contents

Base Salary

Base salary levels for our named executive officers are intended to compensate executives competitively within the information technology marketplace in China. Base salary rewards core competence in an executive role relative to an officer's skills, experience and contributions to our business. Base salaries are determined on an individual basis by evaluating each executive officer's scope of responsibility, past performance, and data on prevailing compensation levels in an appropriate market comparison group. Each year our HR department participates in two salary surveys, which collect compensation data, including base salary statistics, from peer companies in the IT, software and telecommunications industries. The survey conducted by Taihe covers Chinese companies in the IT industry (including, for example, Neusoft, Huawei, Lenovo, Digital China, Datang Mobile and ZTE Corporation), while the participants in the Mercer survey are primarily Chinese subsidiaries of foreign-owned businesses (including, for example, Oracle, Cisco Systems, EMC Beijing, HP Beijing, IBM Beijing, Motorola Beijing, NCR Beijing and Microsoft Beijing). We generally receive results from the Salary Surveys during the second quarter of each year and begin to analyze base salary adjustments at that time. Assuming that a named executive officer has achieved satisfactory individual performance, our general approach is to compensate named executive officers at or near (a) the 50th percentile of salaries of executives with similar roles at comparable companies that participate in the Mercer Salary Survey, and (b) the 80th or 90th percentile of salaries of executives with similar roles at comparable companies that participate in the Taihe Salary Survey. We use a lower percentile benchmark when analyzing the Mercer Salary Survey, in general, because the base salaries paid to executives at foreign-owned companies are substantially higher than those paid to their counterparts at Chinese-owned companies. We believe that these percentile benchmarks for base salaries, in combination with the other elements of compensation discussed below, provide the minimum cash compensation level that would allow us to attract and retain talented officers. We believe that, given the industry in which we operate and the corporate culture that we have created, base compensation at this level is sufficient to retain our existing named executive officers and to hire new executive officers when and as required.

After considering job performance and marketplace competitiveness, the base salaries of our named executive officers for 2009 remained the same as those in effect at the end of 2008. The salary levels fixed in 2009 for our named executive officers are reflected in the Summary Compensation Table below. We believe that the base salary paid to our named executive officers during 2009 achieves our objectives, compares favorably to our peer group and is within our target of providing a base salary at the market median (with respect to international competitors) and at the higher range of the market with respect to our Chinese competitors.

Non-Equity Incentive Compensation

In 2009 we adopted various non-equity incentive compensation programs, also referred to as ICPs, which are designed to reward our named executive officers with an opportunity to earn annual cash bonuses based both on our achievement of certain pre-established performance goals as well as the performance of the individual named executive officer's functional business unit or department, as the case may be. We anticipate that we will continue to establish similar ICPs on an annual basis for succeeding years. The goals for our company-wide and individual measures are established so that target attainment is not assured under any ICP. The attainment of payment for performance at target or above requires significant effort on the part of our executives. Details on how payments were calculated under these plans, and specific factors our Compensation Committee considered, in 2009 for our named executive officers are set forth below. While we do not target annual bonus opportunities at any particular percentage of total compensation, we target bonuses for our named executive officers at 25%-67% of their respective base salary.

For 2009, our Compensation Committee determined, with input from our HR department, to base our CEO's incentive compensation on our achievement of Board-established targets for net revenue and operating profits. These financial goals were set by our Board in April 2009. Our Compensation Committee determined that net revenues (meaning our GAAP revenue net of hardware costs) are an appropriate measure of our overall growth while operating profit is a valid indicator of cost-effectiveness. Both of these elements were weighted equally in determining Mr. Zhang's incentive compensation for 2009. Specific factors our Compensation Committee

Table of Contents

considered in determining Mr. Zhang's 2009 incentive compensation targets included rewarding cost-effective, corporate growth, the extensive responsibilities associated with serving as our CEO, and Mr. Zhang's historical service to us and strong performance reviews. In calculating Mr. Zhang's incentive compensation, we first determine our percentage achievement for each financial target and then multiplied the aggregate achievement percentage by Mr. Zhang's target incentive compensation, which, for 2009, equaled 42.8% of his base salary. No incentive compensation would have been paid to Mr. Zhang had the aggregate achievement percentage for these two performance goals been below 75%. As a result of the formula described above, the Compensation Committee awarded \$596,783 in 2009 to Mr. Zhang, which primarily reflects our strong growth in 2009 and Mr. Zhang's favorable performance reviews.

Our named executive officers, other than our CEO, received non-equity incentive compensation awards pursuant to the following ICPs, each of which was established in March 2009:

The 2009 Employee Incentive Program of AsiaInfo's Functional Departments, or the 2009 EIP, governs non-equity incentive compensation for Wei Li, our former CFO. For 2009, awards under the 2009 EIP were payable based on the following equally-weighted factors: (i) our achievement of targets for net revenue and operating profits, which goals were set by our Compensation Committee in March 2009, and (ii) the applicable functional department's satisfaction of certain performance measures which were established by our CEO in early 2009. These non-financial objectives may change from year to year as our business and departmental priorities evolve. Our CEO recommended and our Compensation Committee determined all incentive compensation payable under the 2009 EIP to Ms. Wei Li. Specific factors our Compensation Committee considered in determining such 2009 incentive compensation included rewarding cost-effective, corporate growth, the extensive responsibilities associated with serving as our CFO, the timing and extent of services provided to us and performance reviews. In calculating incentive compensation payable under the 2009 EIP, the target realization bonus for all employees of an individual functional department, which equals 25-42.8% of such employees' aggregate base salaries, is multiplied by that department's aggregate achievement percentage of all of its goals. No incentive compensation would have been payable to any member of a functional department if the department's overall achievement percentage is below 75%. Achievement percentages are calculated based on the overall achievement of our net revenue and operating profit targets, as well as the achievement of comparable targets within the employee's department. The bonus pool allocable to a department is then further allocated among individual employees by the head of each department, and our CEO determines the amount allocable to each individual department head. As a result of the formula described above, the Compensation Committee awarded \$39,909 in 2009 to Ms. Li, which primarily reflects our strong growth in 2009 and Ms. Li's relatively new addition to our team.

The 2009 AsiaInfo Performance Incentive Plan (Non-Sales), or the 2009 PIP, establishes the incentive pay components for two of our named executive officers, Feng Liu, Vice President and General Manager of Research and Development of AsiaInfo Technologies Division, and Yadong Jin, Vice President and General Manager of Marketing. For 2009, under the 2009 PIP, various business unit and functional heads were awarded incentive cash compensation based upon (i) a 20% weighting accorded to our achievement of certain net revenue and marginal profit targets, which goals were set by our Compensation Committee in March 2009, and (ii) an 80% weighting accorded to the achievement of certain performance goals, which are, in the case of our research and development, or R&D, department, largely measured by contribution to various business units, and in the case of our marketing department, measured by our net sales revenue, pre-sales of our solutions and the satisfaction of our internal clients. The contribution of our R&D department to the customer-focused business units within our AsiaInfo Technologies division is, in turn, measured by considering the achievement of performance goals by those units in combination with the percentage of R&D cost allocable to those business units. Because our R&D department plays a critical role in supporting these units, our Compensation Committee believes it is appropriate, in large part, to align incentive compensation for our R&D department by looking at a combination of the success of each business unit to which it contributes and the amount of resources it devotes to that business unit. A bonus pool for our R&D department is established by

Table of Contents

multiplying the overall achievement percentage of the department by a target incentive pool equal to 42.8% of all R&D employees base salaries, in the aggregate. No bonuses are payable if our R&D department's achievement percentage is less than 75%. The resulting bonus pool allocable to our R&D department is distributed to individual employees by the head of R&D, Mr. Liu. Our CEO determines the incentive compensation payable to Messrs. Liu and Jin. For 2009, Mr. Liu was awarded incentive compensation of \$99,050, which primarily reflects strong R&D contributions to our growth in 2009, and \$113,186 was awarded to Mr. Jin, which primarily reflects our growth in 2009.

The 2009 Lenovo Security Appraisal and Incentive Program, or the 2009 LIP, governs the incentive awards payable to certain executives, including Jian Qi, President and Chief Executive Officer of our Lenovo-AsiaInfo Division. Under the 2009 LIP, Mr. Qi received incentive payments based on three performance tests for the division, including net revenue, contribution profit of our Lenovo-AsiaInfo Division, and days sales outstanding, with each target set by our Compensation Committee in March 2009. Specific factors our Compensation Committee considered in determining Mr. Qi's 2009 incentive compensation targets included rewarding cost-effective growth primarily in our Lenovo-AsiaInfo Division, the extensive responsibilities associated with serving as Chief Executive Officer of our Lenovo-AsiaInfo Division, and Mr. Qi's historical service to us. While most of our other named executive officers have duties and responsibilities relating to all of our operations, Mr. Qi's efforts are focused on our Lenovo-AsiaInfo Division, and therefore we believe it is appropriate to base his bonus opportunities on performance goals relating to the results of that division. Mr. Qi's target incentive compensation is approximately 67% of his base salary, and his bonus is derived by multiplying that target incentive figure by the overall achievement percentage for the Lenovo-AsiaInfo Division for the three performance targets described above. Mr. Qi's target incentive compensation reflects our policy of making incentive compensation a higher proportion of the total compensation package with respect to employees who head business divisions, as compared to employees who head functional departments. As a result of the formula described above, the Compensation Committee awarded \$84,516 in 2009 to Mr. Qi, which primarily reflects our strong growth in 2009.

All of our employees, including our named executive officers, are eligible to participate in the 2009 Profit Sharing Program, or the 2009 PSP. The 2009 PSP is designed to allow non-sales employees to share in the profits generated by the business units within the telecommunications division, as well as our training center, the AsiaInfo-Linkage Academy. To the extent that each of these units achieves its annual net income target, the excess difference between the actual marginal profit and the target profit of that business unit is divided between AsiaInfo Technologies and the business unit on a 70/30 basis. Upon approval of our Compensation Committee, ten percent of each business unit's profit allocation is awarded to our CEO. 70% of each business unit's profit is allocated to that business unit for further distribution among its employees and the remainder is allocated for company-wide distribution by our CEO.

Long-Term Equity Incentive Program

We believe that long-term performance is achieved through an ownership culture that encourages such performance by our executive officers through the use of stock and stock-based awards. Our equity compensation plans have been established and implemented to provide certain of our employees, including our named executive officers, with incentives to help align those employees' interests with those of our stockholders. Our Compensation Committee believes that this use of equity awards offers the best approach to achieving our compensation goals. We have not adopted stock ownership guidelines and our equity compensation plans have historically provided the principal method for our executive officers to acquire equity interests in us.

Before 2005, we generally provided long-term equity incentives to our named executive officers, and to other employees, through the grant of stock options under our stock option plans. Stock options were generally granted at an exercise price equal to 100% of the fair market value of our common stock on the date of grant, with a ten-year term and generally subject to a four-year vesting period. Stock options were generally granted to our named executive officers upon their acceptance of employment with us. In addition, our Compensation

Table of Contents

Committee generally granted stock options to our named executive officers at the beginning of each fiscal year, based on long-term strategic and performance objectives and each executive officer's anticipated contributions to our future performance. When determining the number of stock options to be awarded to an executive officer, our Compensation Committee considered the executive officer's current contribution to our performance, the executive officer's anticipated contribution in meeting our long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by similarly-situated information technology companies in China. In October 2005, our Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of our Board under our 2000 Stock Option Plan and 2002 Stock Option Plan. The primary purpose of the accelerated vesting was to enable us to avoid recognizing future compensation expense associated with our adoption in 2006 of FASB Statement No. 123R, Share-Based Payment, now known as Accounting Standards Codification, or ASC, Topic 718.

In 2005, pursuant to the AsiaInfo Holdings, Inc. 2005 Stock Incentive Plan, or the 2005 Incentive Plan, we began to implement a policy of granting restricted stock units, or RSUs, instead of stock options, to our directors, officers and employees.

In November 2006, our Compensation Committee approved grants of performance-based restricted stock units, or PSUs, to key employees, managers and executive officers under the 2005 Incentive Plan. The PSUs vested based on, and were allocated among, five different performance goals and were, in some cases, also subject to certain holding periods. For a description of the vesting criteria of the PSUs, see the discussion below under the heading Terms of Performance Stock Units.

At our Annual Meeting of Stockholders in April 2008, our stockholders approved and ratified the AsiaInfo Holdings, Inc. 2008 Stock Incentive Plan, or the 2008 Incentive Plan. The purpose of the 2008 Incentive Plan, which is administered by our Compensation Committee, is to enhance long-term stockholder value by offering opportunities to our employees, directors, officers, consultants, agents, advisors and independent contractors to participate in our growth and success, and to encourage them to continue providing services to us and to acquire and maintain stock ownership in us. Pursuant to the 2008 Incentive Plan, our Compensation Committee, as the plan administrator, has discretion over whether and to whom to grant awards.

In March 2009, our Compensation Committee approved grants of PSUs to key employees, managers and executive officers under the 2008 Incentive Plan. The PSUs vest based on performance goals and are, in some cases, also subject to certain holding periods. For a description of the vesting criteria of the PSUs, see the discussion below under the heading Terms of Performance Stock Units. Specific factors our Compensation Committee considered in approving these awards included the value of creating a direct and transparent link between compensation and management achievement of specific business performance targets and aligning the interests of our executives with those of our stockholders, as well as our historical performance, the individual historical performance and contributions of members of our management team, the skills, capabilities and responsibilities of individual members of our management team. Finally, the vesting of PSUs based on continued employment is designed to facilitate retention.

The value and the terms of the PSUs granted to our named executive officers are set forth below under the headings Summary Compensation Table, Terms of Performance Stock Units and Grants of Plan-Based Award. As of the date of this Proxy Statement, all of the PSUs granted to named executive officers during 2006 are either vested or forfeited and part of the PSUs granted to named executive officers during 2009 have vested following the achievement of certain business performance targets specified in the PSU agreements during 2009.

Pension Plans

Our employees in China are entitled to retirement benefits calculated with reference to their base salaries upon retirement and their length of service in accordance with a government managed social welfare plan. The Chinese

Table of Contents

government is responsible for administering the benefits for these retired employees. We are required to make contributions to the state social welfare plan at a rate of 1% to 22% of the monthly base salaries of our current employees.

For the benefit of our small number of employees who are citizens or lawful permanent residents of the United States, we have adopted a Simplified Employee Pension Plan, or the Pension Plan. The Pension Plan covers employees who have worked at AsiaInfo-Linkage for at least six months. We make monthly contributions under the Pension Plan in an amount equal to 5% of each covered employee's monthly salary. The contributions are tax deductible by us and are not taxable to our employees. Withdrawals are taxable as ordinary income, and withdrawals before age 59 1/2 may be subject to tax penalties. For U.S. tax purposes, we believe the Pension Plan constitutes a qualified defined contribution plan.

In 2009, we contributed approximately \$12,000 to the accounts of all employees covered by the Pension Plan. With respect to our named executive officers, we contributed approximately \$8,000 on behalf of Steve Zhang and approximately \$2,000 on behalf of Wei Li to the Pension Plan.

The value of social welfare and Pension Plan benefits is reflected in the Summary Compensation Table below.

Other Compensation

Our named executive officers are also eligible to participate in benefits programs generally available to other employees, such as medical, dental, vision, group life, disability, and accidental death and dismemberment insurance. Other benefits provided to certain executive officers during 2009 include housing allowances, educational allowances for children, and home-visit allowances.

As part of our compensation program, we have entered into agreements with Steve Zhang, Wei Li and Jian Qi pursuant to which they may be entitled to receive severance benefits upon the occurrence of certain enumerated events following a change in control. The events that trigger payment are generally those related to termination of employment or detrimental changes to the executive's terms and conditions of employment. For a more detailed description, see the discussion below under the heading Potential Payments upon Termination of Employment or Change in Control. We believe that this structure will help (i) assure the executive's full attention and dedication to us, free from distractions caused by personal uncertainties and risks related to a pending or threatened change in control; (ii) assure the executive's objectivity in fulfilling the interests of stockholders; (iii) assure the executives of fair treatment in case of involuntary termination following a change in control; and (iv) maintain our ability to attract and retain key talent during uncertain times.

Tax and Accounting Implications

Policy Regarding Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code, or the IRC, generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to a company's chief executive officer, chief financial officer or any of the three most highly compensated executive officers. Certain performance-based compensation, however, is exempt from the deduction limit. Our Compensation Committee has considered the potential impact of Section 162(m) of the IRC on the compensation paid to our executive officers. It is our Compensation Committee's intention that, so long as it is consistent with its overall compensation objectives and philosophy, executive compensation will be deductible for U.S. federal income tax purposes. Awards issued under our stock incentive plans (including stock options, RSUs and PSUs) have been structured so that any taxable compensation derived pursuant to the exercise of options granted under such plans should not be subject to these deductibility limitations.

Accounting for Stock-Based Compensation

In January 2006, we began accounting for stock-based payments in accordance with the requirements of ASC Topic 718, which requires us to estimate and record an expense over the service period of the award.

Internal Pay Equity

Among the factors influencing compensation decisions is our view that our executive compensation program be internally equitable in order for us to achieve our corporate objectives outlined above. Our Compensation Committee has considered the relationship between our CEO's total compensation and the total compensation of our other named executive officers to ensure that it regards the level of executive compensation as reasonable in light of our objectives. Our Compensation Committee has also considered the relationship between the mix of the individual elements of compensation paid to the CEO and our other named executive officers. In analyzing these relationships, our Compensation Committee also considered relevant factors impacting compensation decisions, such as the composition of our management team, the responsibilities, skills, capabilities and historical contributions of named executive officers, our performance, vesting and other conditions associated with equity awards, leadership considerations and employee morale.

In 2009, Steve Zhang, our CEO, received total compensation, stock awards and non-equity incentive plan compensation significantly exceeding that of our other named executive officers. However, our Compensation Committee determined that these amounts were equitable and reasonable, based on a variety of factors, including Mr. Zhang's comparatively greater responsibilities, his historical contributions to our growth, and our strong performance in 2009.

Agreements with Named Executive Officers

Employment-Related Agreements

Steve Zhang. In July 2010, we entered into an Executive Employment Agreement, an Employment Contract and a Confidentiality and Non-Competition Agreement, which we collectively refer to as the Employment Agreements, with our current CEO, Steve Zhang. Pursuant to the Employment Agreements, Mr. Zhang will continue to serve as our CEO for a three-year term, which will be automatically extended for an additional three years unless we or Mr. Zhang provide the other party with 90 days prior written notice that the term will not be so extended. Mr. Zhang will receive an annual base salary in an amount determined by our Board, which may be increased (but not decreased) as may be determined annually by our Compensation Committee in its sole discretion. Mr. Zhang will be eligible for an annual bonus in an amount determined by our Board, will be eligible to participate in all long-term equity incentive plans and programs available to senior executives of the Company, and will be entitled to participate in medical insurance and pension and welfare benefit plans, programs and arrangements generally available to the Company's other senior executives. Mr. Zhang will receive an annual housing entitlement of \$24,000, an annual home visit allowance of \$10,000, and annual education reimbursement for his children's education through secondary school. Upon a change of control, regardless of whether Mr. Zhang is terminated, he will be entitled to immediate vesting of 100% of any outstanding unvested equity incentive awards. If Mr. Zhang's employment terminates for any reason, he will be entitled to certain severance payments as described below under the heading Potential Payments upon Termination of Employment and Change in Control.

Jian Qi. In February 2008, we entered into a three-year Employment Contract and a Confidentiality and Non-Competition Agreement with our President and Chief Executive Officer of our Lenovo-AsiaInfo Division, Jian Qi. Pursuant to the terms of the Employment Contract with Mr. Qi, Mr. Qi will receive an annual base salary of approximately \$92,350 in 2010 and will be eligible for an annual bonus. The actual amount of the bonus will depend upon Mr. Qi's achievement of his annual performance objectives. In April 2004, we entered into a Master Executive Employment Agreement and a Change-Of-Control Severance Agreement with Mr. Qi. Pursuant to the Change-of-Control Severance Agreement with Mr. Qi, if we terminate Mr. Qi's employment without cause or he resigns for good reason within the one-year period immediately following a change of control, he will be entitled to certain severance payments as described below under the heading Potential Payments upon Termination of Employment and Change in Control.

Pursuant to the terms of Offer Letter and Employment Contract with Mr. Wu, Mr. Wu will receive an annual base salary of approximately \$191,656 and be eligible for an annual bonus, the actual amount of which will depend upon Mr. Wu's achievement of his annual performance objectives. Mr. Wu is also entitled to an annual housing allowance of approximately \$14,742, an annual tuition allowance of \$11,794 for his children's education, and an annual home visit allowance. Mr. Wu has been awarded 30,000 RSUs and 20,000 PSUs pursuant to our 2008 Incentive Plan. The PSUs will vest based on the achievement of certain performance thresholds. Mr. Wu is entitled to participate in the health insurance, life insurance, long term disability insurance and other employee benefit arrangements generally available to our employees, as well as to vacation time and reimbursement of his reasonable business expenses. Potential Payments upon Termination of Employment and Change in Control

Potential Payments to Mr. Zhang

Pursuant to the Executive Employment Agreement we entered into with Mr. Steve Zhang, if we terminate the employment of Mr. Zhang for any reason (other than death or disability), Mr. Zhang will be entitled to:

payment of all accrued and unpaid salary, bonus, reimbursable expenses, vacation and employee benefits;

If Mr. Zhang resigns for good reason, Mr. Zhang will be entitled to receive all of the termination benefits listed above, except that the severance amount would equal six months of his base salary for the year in which he resigns and immediate vesting would only apply to 50% of any outstanding unvested equity incentive awards. If we terminate the employment of Mr. Zhang or he resigns within one year after a change of control, Mr. Zhang will be entitled to receive all of the termination benefits listed above, except that the severance amount would equal 2.99 times his base salary for the year of the termination and annual bonus for the prior year.

assignment to Mr. Zhang of any duties inconsistent in any materially adverse or diminutive respect with his position, authority, duties or responsibilities;

a reduction in Mr. Zhang's base salary as in effect immediately before the change of control, except for a reduction that applies in equal proportion to all of our employees;

expiration of the employment term under the Employment Agreements due to our provision of notice to Mr. Zhang that his employment term will not be extended.

For purposes of the Executive Employment Agreement with Mr. Zhang described above, a change of control will be deemed to have occurred upon the happening of any of the following:

during any period of twelve consecutive months, the individuals who, at the beginning of such period, constitute our Board cease to constitute at least a majority thereof because of a vote of our stockholders, subject to certain exceptions;

our stockholders or our Board approve a plan of complete liquidation or dissolution of us; or

the consummation of a sale or disposition by us of all or substantially all of our assets, excluding certain reorganization transactions.

Potential Payments to Ms. Li, Mr. Qi and Mr. Wu

If we terminate any of Ms. Li, Mr. Qi or Mr. Wu without cause or any of them resigns for good reason within one-year immediately following a change of control, Ms. Li, Mr. Qi and Mr. Wu would respectively be entitled to:

payment of all accrued and unpaid salary and bonus;

severance payments equal to the sum of (i) such executive's base salary for the year in which the date of termination occurred (or, if higher, as in effect at the time of the change of control) and (ii) such executive's target annual bonus for the year which the date of termination occurs (or, if higher, as in effect at the time of the change of control);

immediate vesting of 50% of any outstanding unvested stock options held by such executive as of the date of such termination;

exercise all vested stock options for a period of 18 months after the date of termination; and

medical benefits for one year and housing allowance for six months following termination.

In the event of a change of control not resulting in termination of employment and in which the executive's stock options are neither assumed nor replaced, Ms. Li, Mr. Qi and Mr. Wu would be entitled to immediate vesting of 50% of any outstanding unvested stock options.

For purposes of the Change-of-Control Severance Agreements with Ms. Li, Mr. Qi and Mr. Wu described above, termination for cause includes:

a reduction in the executive's base salary as in effect immediately before the change of control, except for a reduction that applies in equal proportion to all of our employees; or

a material reduction in the executive's aggregate compensation opportunity, including the executive's base salary, bonus opportunity, if any, and long-term or other incentive compensation opportunity, if any.

Table of Contents

For purposes of the Change-of-Control Severance Agreements with Ms. Li, Mr. Qi and Mr. Wu described above, a change of control will be deemed to have occurred upon the happening of any of the following:

any person (other than AsiaInfo-Linkage and certain affiliated entities) is or becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of our securities (other than any securities acquired directly from us) representing more than 45% of either the then outstanding shares of our stock or the combined voting power of our then outstanding securities;

during any period of twelve consecutive months, the individuals who, at the beginning of such period, constitute our Board cease to constitute at least a majority thereof because of a vote of our stockholders, subject to certain exceptions;

the consummation of a merger or consolidation of us with any other corporation other than (A) a merger or consolidation that would result in our voting securities outstanding immediately prior to such merger or consolidation continuing to represent at least 60% of the combined voting power of our voting securities or such surviving entity or any parent thereof outstanding immediately after such merger or consolidation, or (B) a merger or consolidation effected to implement a recapitalization of us or a similar transaction in which no person is or becomes the beneficial owner, directly or indirectly, of our securities (other than securities acquired directly from us) representing 45% or more of either the then outstanding shares of our stock or the combined voting power of our then outstanding securities;

our stockholders or our Board approve a plan of complete liquidation or dissolution of us; or

the consummation of a sale or disposition by us of all or substantially all of our assets, excluding certain reorganization transactions.

Other Potential Payments

Each of Mr. Steve Zhang, Ms. Wei Li, Mr. Jian Qi, Mr. Feng Liu, Mr. Yadong Jin and Mr. Michael Wu entered into a Confidentiality and Non-Competition Agreement with us. Under the terms of these agreements, upon termination of employment of each of these individuals for any reason, we may elect to enforce a one-year non-competition provision by agreeing to pay 50% of such individual's then-current annual base salary, payable in a lump sum or in monthly installments over the one-year period.

The following table sets forth the estimated payments and benefits that would be due to each of Mr. Steve Zhang, Ms. Li and Mr. Qi upon the termination of his or her employment without cause or resignation for good reason within the one-year period immediately following a change of control. The amounts provided in the table below assume that each such termination was effective as of December 31, 2009 (the last day of our 2009 fiscal year). These are merely illustrative of the impact of hypothetical events, based on the terms of arrangements then in effect. The amounts to be payable upon an actual termination of employment without cause or resignation for good reason within the one-year period immediately following a change of control can only be determined at the time of such event, based on the facts and circumstances then prevailing.

Table of Contents

We have a long-standing severance policy for departing members of our senior management. In the event that we terminate an employee at the vice president level or above without cause, the employee will receive severance pay equal to one month's base salary for each year he or she has been employed by us, or six month's base salary, whichever is greater.

Periodically, our Compensation Committee analyzes and assesses all of our termination and change of control arrangements to determine whether they are necessary and appropriate under our current circumstances and given the circumstances of each individual named executive officer.

Terms of Performance Stock Units

Our Compensation Committee approved PSU grants under our incentive plans to certain of our named executive officers in 2006 and 2009, respectively. Each PSU granted is accompanied by a stock award agreement which specifies the number of shares granted and the milestones for vesting of the PSUs. Complete copies of our standard PSU award agreements are filed as exhibits to our Current Report on Form 8-K dated November 28, 2006 and our Current Report on Form 8-K dated March 19, 2009. For the complete terms of the PSU awards, please refer to those filings.

2006 PSUs. Different percentages of the PSUs granted to named executive officers in 2006 were to vest based upon the attainment of five different performance goals. The five different performance goals, and the relative weighting applicable to each goal, were as follows:

30% of the PSU grant was to vest based on our level of Annual EBIT and Annual Net Revenue Growth during each of three 12-month periods commencing on July 1, 2006, July 1, 2007 and July 1, 2008. Annual EBIT is defined as our earnings before interest and taxes, and Annual Net Revenue Growth is the percentage increase in our net revenue (meaning our revenue net of hardware costs), for each 12-month period against the immediately preceding 12-month period.

22.5% of the PSU grant was to vest if the average closing price per share of our common stock during any continuous thirty-day period occurring between July 1, 2006 and June 30, 2009 reached certain thresholds.

22.5% of each PSU grant was to vest based on our New Business Revenue Percentage during the period commencing on July 1, 2006 and ending on June 30, 2009. New Business Revenue Percentage means, for such period, our net revenue attributable to (i) new business models in the PRC telecommunications market, and (ii) sales of products or services to customers outside of the telecommunications market or outside of the PRC, expressed as a percentage of our total net revenue attributable to our AsiaInfo Technologies division.

12.5% of each PSU grant vests based on the average closing price per share of our common stock during any continuous fifty-day period occurring between July 1, 2006 and June 30, 2010. If the average closing price equaled or exceeded \$12.00 per share for such period, all of the PSUs allocated to this performance goal were to vest, but the earliest possible vesting date was March 31, 2009.

12.5% of each PSU grant vests based on Annual EBIT as measured for each of three 12-month periods commencing on July 1, 2006, July 1, 2007 and July 1, 2008. All of the PSUs allocated to this performance goal were to vest on the last date of the first such 12-month period (if any) when Annual EBIT equaled or exceeded \$12,000,000.

As of the date of this Proxy Statement, all of the PSUs granted to our named executive officers during 2006 have either vested or been forfeited according to their terms.

2009 PSUs. Different percentages of the PSUs granted to named executive officers vest based on targeted increases in our operating profit for each of the three twelve-month periods commencing on October 1, 2008, October 1, 2009 and October 1, 2010, respectively, as compared to the immediately preceding

Table of Contents

twelve-month period. We refer to such targeted increases as the Annual Operating Profit Growth Rate. Each recipient's PSUs are allocated in three equal proportions over the three twelve-month periods. The PSUs allocated to each such twelve-month period vest based on the following schedule:

If the Annual Operating Profit Growth Rate is between 25% and 33%, then 45.5% of the PSUs allocated to the period vest.

If the Annual Operating Profit Growth Rate is between 33% and 40%, then 54.5% of the PSUs allocated to the period vest.

If the Annual Operating Profit Growth Rate is between 40% and 45%, then 72.7% of the PSUs allocated to the period vest.

If the Annual Operating Profit Growth Rate is equal to or more than 45%, then 100% of the PSUs allocated to the period vest. Any PSUs that do not vest at the end of a twelve-month period due to our failure to achieve the relevant Annual Operating Profit Growth Rate thresholds expire and are automatically forfeited. As of the date of this Proxy Statement, some PSUs granted to our named executive officers during 2009 have vested and some remain unvested. For more information, see the discussion below under the headings Outstanding Equity Awards at Fiscal Year-End Table and Options Exercised and Stock Vested.

Grants of Plan-Based Awards

Our Compensation Committee approved PSU and RSU grants under our 2008 Incentive Plan to certain of our named executive officers in 2009. The following table sets forth information regarding our 2008 Incentive Plan awards granted during 2009:

Name	Grant Date ⁽¹⁾	Estimated Future Payouts Under Equity Incentive Plan Awards Maximum(#)	Grant Date Fair Value of Stock and Option Awards (\$) ⁽²⁾
Steve Zhang	03/16/2009	247,500	3,242,250
Wei Li ⁽³⁾	01/19/2009	30,000	269,700
	03/16/2009	60,000	786,000
Yadong Jin	03/16/2009	35,000	458,500
Jian Qi	03/16/2009	35,000	458,500
Feng Liu	03/16/2009	44,500	582,950

- (1) Unless otherwise specified, all 2008 Incentive Plan-based awards are PSU grants. There are no target or threshold PSU grants. As described below, the vesting of different numbers of PSUs is associated with different performance goals. If a performance goal is met, there is full vesting of the PSUs associated with the grant. If a performance goal is not met, then the PSUs allocable to that performance goal expire and are automatically forfeited in their entirety. In other words, the PSUs associated with each performance goal either vest fully or not at all. If all of the performance goals are met, all of the PSUs vest. If none of the performance goals are satisfied, none of the PSUs vest. Varying numbers of PSUs vest if some of the performance goals are met and some are not.
- (2) Reflects the grant date fair value of the options granted calculated in accordance with ASC Topic 718. See the notes to our financial statements contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, as amended, for a discussion of assumptions made by us in determining the ASC Topic 718 values of our equity awards.
- (3) Ms. Wei Li served as our Vice President and CFO from January 2009 to August 2010. We expect Ms. Li to continue providing services to us until September 30, 2010. Reflects RSU awards granted that vest, if at all, in 25% installments on the four anniversary dates following the grant date, subject to Ms. Li continuing to provide services to us.

Table of Contents**Outstanding Equity Awards at Fiscal Year-End**

The following table sets forth certain information with respect to options, restricted stock and equity incentive plan awards for each named executive officer outstanding as of December 31, 2009.

As discussed above, beginning in 2005, we began issuing RSUs, instead of stock options, to our directors, officers and employees. These RSUs, which are set forth in the column Number of Shares or Units of Stock That Have Not Vested, are subject to time-based vesting requirements which are further detailed in footnote 2 to the table. In 2006, our Compensation Committee approved grants of PSUs which vest depending on the attainment of certain performance goals. In 2009, our Compensation Committee approved additional grants of PSUs which vest based on our Annual Operating Profit Growth Rate. These PSU grants are set forth in the column entitled Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested. The vesting criteria for these PSUs are discussed above under the heading Terms of Performance Stock Units.

With respect to Ms. Wei Li, who served as our Vice President and CFO from January 2009 to August 2010, 30,000 RSUs were granted in January 2009 and 7,500 vested in January 2010, with an additional 7,500 RSUs vesting in January of each of 2011, 2012 and 2013, respectively, subject to Ms. Li continuing to provide services to us. With respect to Mr. Yadong Jin, 20,000 RSUs were granted in November 2008 and 5,000 vested in November 2009, with an additional 5,000 RSUs vesting in November of each of 2010, 2011 and 2012, respectively.

(3) Represents the aggregate market value or payout value of RSUs granted under any equity incentive plan that have not vested and that have not been earned. The figures are obtained by multiplying the number of RSUs by the closing market price of our common stock as of December 31, 2009, which was \$30.45 per share.

(4) Represents the total number of PSUs granted under any equity incentive plan that have not vested and that have not been earned. For more information on the vesting of these PSUs, see the discussion above under the heading Terms of Performance Stock Units. With respect to Ms. Wei Li, we expect Ms. Li to continue providing services to us such that vesting of her PSUs will continue until September 30, 2010. Thereafter, the unvested portion of the award shall be cancelled automatically and be forfeited to the Company immediately upon termination of service with the Company.

The figures assume the satisfaction of all performance objectives and are obtained by multiplying the number of PSUs by the closing market price of our common stock as of December 31, 2009, which was \$30.45 per share.

In October 2005, our Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of our Board under our 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of our Compensation Committee were excluded from the acceleration.

As a condition of the acceleration, and to avoid any unintended personal benefits, we also imposed a holding period on shares underlying the accelerated options that requires all optionees to refrain from selling any shares acquired upon the exercise of the options until the date on which such shares would have vested under the options' original vesting terms.

Pension Benefits

None of our named executive officers participate in or have account balances in qualified or non-qualified defined benefit plans sponsored by us.

Nonqualified Deferred Compensation

None of our named executive officers participate in or have account balances in non-qualified defined contribution plans or other deferred compensation plans maintained by us.

Table of Contents**DIRECTOR COMPENSATION****General**

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties as well as the skill level of our directors.

In 2009, each non-executive director was paid an annual retainer of \$15,000 and an additional fee of \$2,000 for each Board meeting attended in person or by teleconference. The chairman of our Audit Committee was paid an additional annual fee of \$5,000 and each member of our Audit Committee was paid a fee of \$1,000 for each Audit Committee meeting attended in person or by teleconference. In addition to these fees, we reimburse directors and committee members for reasonable and actual out-of-pocket travel expenses incurred when attending Board or committee meetings. In addition, from time to time our Board may form special committees and provide additional compensation to directors for their service to our Board on such committees. Members of our Board who are also our employees did not receive any compensation for their services as directors.

Before 2005, we granted stock options to most of our non-executive directors, beginning with an initial grant of 20,000 options to each non-executive director, vesting over four years on an annual schedule of 25% per year. During the last two years of the vesting schedule, the options vested on a quarterly basis. In the past, we typically granted new options to our non-executive directors as their options vested, so that each non-executive director would always maintain 20,000 unvested options. In October 2005, our Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of our Board under our 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of our Compensation Committee were excluded from the acceleration. The primary purpose of the accelerated vesting was to enable us to avoid recognizing future compensation expense associated with the accelerated stock options upon the planned adoption of ASC Topic 718 in 2006.

Beginning in 2005, we began to implement a policy of granting RSUs, instead of stock options, to all of our non-executive directors pursuant to our 2005 Incentive Plan. These awards began with an initial grant of 5,000 RSUs to each non-executive director, vesting over four years on an annual schedule of 25% per year. Effective July 2008, our Board increased the initial grant to our non-executive directors to 8,000 RSUs. We typically grant new RSUs to our non-executive directors as their RSUs vest, so that each non-executive director maintains 8,000 RSUs outstanding.

AUDIT COMMITTEE REPORT

The Audit Committee reviews our financial reporting process on behalf of our Board and is responsible for the retention of our independent registered public accounting firm. Management has the primary responsibility for the financial statements and the reporting process and for maintaining effective internal control over financial reporting. Our independent registered public accounting firm is responsible for expressing an opinion on (1) the conformity of our consolidated financial statements to accounting principles generally accepted in the United States of America, and (2) the effectiveness of our internal control over financial reporting. The Audit Committee currently consists of Messrs. Yungang Lu (Chair), Sean Shao and Davin A. Mackenzie, all independent directors, as defined in the listing standards for The NASDAQ Stock Market and applicable SEC rules.

The Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2009 and the effectiveness of internal control over financial reporting as of December 31, 2009 with our management, has discussed with our independent registered public accounting firm the matters required to be discussed by PCAOB AU380 (Communication With Audit Committees), SEC Regulation S-X Rule 207 (Communication with Audit Committees) and other relevant PCAOB guidance regarding the auditor's communication with those charged with governance, has received the written disclosures required by PCAOB Ethics and Independence Rule 3526 (Communication with Audit Committee Concerning Independence) and has discussed with our independent registered public accounting firm its independence. The Audit Committee has also considered whether the provision of non-audit services by our independent registered public accounting firm is compatible with maintaining its independence. Our Board adopted a written charter of the Audit Committee in November 1999. Our Board adopted amendments to the charter in March 2003, January 2004 and in February 2009.

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm.

Table of Contents

Prior to the engagement of an independent registered public accounting firm for the next year's audit, management submits an aggregate of services expected to be rendered by the independent registered public accounting firm during that year to the Audit Committee for approval, along with the anticipated fees for those services. Management's report to the Audit Committee categorizes all anticipated fees into one of the following four classifications:

Audit services include fees for audit work performed on our (1) consolidated financial statements and (2) internal control over financial reporting, as well as work that generally only the independent registered public accounting firm can reasonably be expected to provide, including review of quarterly condensed consolidated financial information, comfort letters, statutory audits, and other attestation services.

Audit-related services include fees for assurance and related services that are traditionally performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions and special procedures required to meet certain regulatory requirements. We have not incurred such costs for the past two fiscal years.

Tax services include fees for all services permitted to be performed by the independent registered public accounting firm's tax personnel except those services specifically related to the audits of the financial statements and internal control over financial reporting or are prohibited under the rules of the SEC and the Public Company Accounting Oversight Board. Tax service fees include fees in the areas of corporate tax compliance, tax planning, and tax advice.

Other Fees include fees associated with services not captured in the other categories. We generally do not request such services from the independent registered public accounting firm and have not incurred such costs for the past two fiscal years.

Prior to engagement, the Audit Committee must pre-approve these services. The fees are budgeted and the Audit Committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

In 2009, the Audit Committee pre-approved all services provided by our independent registered public accounting firm. Private meetings were held with our independent registered public accounting firm to ensure that there were no restrictions on the scope of their audit and to discuss any items the auditors did not wish to raise with management present.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to our Board that the audited financial statements for the fiscal year ended December 31, 2009 be included in our Annual Report on Form 10-K.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

We have established procedures for identifying related parties and related party transactions, and for ensuring that any changes in the status of related parties are brought to the attention of relevant departments within us in a timely manner. For transactions with related parties in the ordinary course of business, such as customer sales, supply purchases, subcontracting or consulting services, we apply the same review and approval process as we would in the context of other commercial agreements. All such transactions with related parties are summarized and provided to the legal department for disclosure purposes and to our Audit Committee review. For transactions with related parties outside the ordinary course of business, such as significant capital expenditures, capital raising activities and mergers and acquisitions, the transactions must be approved by our CEO or CFO, and in most cases our Audit Committee.

Other than compensation agreements and other arrangements which are described under *Compensation Discussion and Analysis* and the transactions described below, since January 1, 2009, there has not been, and there is not currently proposed, any transaction or series of similar transactions to which we were or will be a party in which the amount involved exceeded or will exceed \$120,000 and in which any of our directors, executive officers, holders of more than 5% of any class of our voting securities or any member of the immediate family of the foregoing persons had or will have a direct or indirect material interest. We believe that we have executed all of the transactions set forth below on terms no less favorable to us than we could have obtained from unaffiliated third parties.

Transactions with Lenovo Group Limited and Certain of Our Other Affiliates

We closed our acquisition of the non-telecommunications related information technology services business of Lenovo Group Limited, or Lenovo, in October 2004. As part of the consideration for the assets we acquired from Lenovo, our subsidiary Bonson Information Technology Limited, or Bonson, entered into a forward contract with a subsidiary of Lenovo under which Bonson was obligated to deliver shares of our common stock having a market value of approximately \$27.1 million on the settlement date. In July 2005, we settled the forward contract by delivering from treasury stock 4,498,130 shares of our common stock, with a fair value of approximately \$25.2 million and a cost of approximately \$23.3 million and paying cash in the amount of approximately \$2.0 million to Lenovo. Lenovo owned approximately 3,465,666 shares of our outstanding common stock, as of August 23, 2010, and during the fiscal year ended December 31, 2009 beneficially owned in excess of 5% of our issued and outstanding common stock.

Agreements regarding ownership structure of the systems integration business involving state secrets

In connection with the closing of our acquisition of Lenovo's IT services business, we and Lenovo entered into a supplement to the acquisition agreement in October 2004, which sets forth certain supplemental understandings and agreements regarding the structure of the acquisition and other terms and conditions. Among other things, the supplement sets forth the structure of the acquisition of the part of Lenovo's IT services business that constitutes *systems integration involving state secrets* under relevant PRC law. Under the supplement, the parties agreed that Legend Holdings Limited, or Legend Holdings, the parent of Lenovo Group, would establish a subsidiary in China, Lenovo Security Technologies (Beijing) Inc., or Lenovo Security. At the time Lenovo Security was established, Legend Holdings owned 51% of the equity interest in Lenovo Security, and two PRC citizens, Mr. Bing Yu, a former member of our Board, and Ms. Zheng Wang, one of our employees, held the remaining equity interest. Mr. Bing Yu's equity interest was subsequently transferred and is now held by Mr. Jian Qi, President and Chief Executive Officer of our Lenovo-AsiaInfo Division. The purpose of Lenovo Security is to obtain the necessary licenses and qualifications for the systems integration businesses involving state secrets, after which Lenovo Security will be transferred to us (unless it has been transferred earlier, under certain circumstances). Through our wholly-owned subsidiary, Lenovo-AsiaInfo Technologies, Inc., or Lenovo-AsiaInfo, we have entered into a series of contractual arrangements with Lenovo Security and its shareholders under which we enjoy effective control of Lenovo Security and economic benefits substantially similar to equity ownership of Lenovo Security.

Table of Contents

The supplement to the acquisition agreement also provides that during the transition period from the date of closing the acquisition to the earlier of (1) the date when Lenovo Security has received the Information System Integration Qualification from the relevant government agency in China (which is a prerequisite for the operation of the systems integration businesses involving state secrets) and (2) the date when Lenovo-AsiaInfo acquires all of Legend Holdings' equity interest in Lenovo Security pursuant to the terms of the equity transfer arrangement agreements described below, we will operate the system integration businesses involving state secrets through Lenovo Computer System and Technology Services Co., Ltd., or Lenovo Computer. Lenovo Computer is owned by two subsidiaries of Lenovo: Lenovo Manufacturing Limited, or Lenovo Manufacturing, and Lenovo Beijing Limited, or Lenovo Beijing. We have entered into similar contractual arrangements with Lenovo Computer, Lenovo Manufacturing and Lenovo Beijing to operate and control Lenovo Computer during this transitional period, and to receive economic benefits substantially similar to equity ownership in Lenovo Computer.

The structure of our contractual arrangements with Lenovo Security and Lenovo Computer was developed in order to comply with the current prohibition under PRC laws and regulations on foreign persons or foreign-invested enterprises from engaging in systems integration businesses involving state secrets, and to comply with certain licensing requirements with respect to such businesses.

For a further description of those laws and regulations, see the discussion in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009, or the 2009 Form 10-K, in Item 1, Business, under the heading Governmental Regulation.

For a discussion of certain risks related to those regulations and our contractual arrangements with Lenovo, see the discussion in our 2009 Form 10-K in Item 1A, Risk Factors.

Other agreements with Lenovo

In connection with the acquisition of Lenovo's IT services business in October 2004, we entered into a series of ancillary agreements with Lenovo and its affiliates. Those agreements include a patent, copyright and technology license agreement under which we have a royalty-free license to utilize certain intellectual property owned by Lenovo that is material to the IT services business we acquired from Lenovo, but which is also utilized by Lenovo in certain of its businesses that we did not acquire. We also entered into a trademark license agreement under which we have a royalty-free license to utilize the Lenovo name and certain other Lenovo trademarks, primarily in conjunction with the AsiaInfo name and certain other of our trademarks, in connection with the non-telecommunications-related IT services business we acquired. The licenses have a term of approximately seven years, subject to earlier termination under certain circumstances.

Under a procurement, production and distribution services agreement entered into in connection with the acquisition, Lenovo has provided us with procurement, manufacturing, transportation and sales services for certain information security business products sold to us. The products include hardware and software for use in firewall products, virtual private networks, security management platforms and other solutions we offer to our customers.

We have also entered into a transitional period support and service agreement with Lenovo under which we incurred an aggregate of \$58,000 rental fees for leasing certain properties during 2009. As of December 31, 2009, we had no accounts receivable or payable balance with Lenovo.
