**PART I**

This Annual Report on Form 10-K contains forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements other than those that are purely historical are forward-looking statements which reflect the Company's current views with respect to future events and financial performance.

These forward-looking statements are subject to certain risks and uncertainties. The words aim, believe, expect, anticipate, intend, estimate, and other expressions that indicate future events and trends identify forward-looking statements. These statements include, but are not limited to, references to the near-term growth expectations for multi-purpose maintenance products and homecare and cleaning products, the impact of changes in product distribution, competition for shelf space, the impact of competition on product pricing, the level of promotional and advertising spending, plans for and success of product innovation, the impact of new product introductions on the growth of sales, the impact of customer mix and costs of raw materials, components and finished goods costs on gross margins, the impact of promotional programs on sales, the rate of sales growth in the Asia-Pacific segment, direct European countries and Eastern and Northern Europe, foreign currency exchange rates and fluctuations in those rates, the impact of changes in inventory management, the effect of future income tax provisions and audit outcomes on tax rates, and the effects of, and changes in, worldwide economic conditions and legal proceedings and other risk factors identified in Item 1A of this report.

As used in this report, the terms we, our, us and the Company refer to WD-40 Company and its wholly-owned subsidiaries, unless the context suggests otherwise. Amounts and percents in tables and discussions may not total due to rounding.

**Item 1. Business**

*Overview*

WD-40 Company is a global consumer products company dedicated to delivering unique, high value and easy-to-use solutions for a wide variety of maintenance needs of doer and on-the-job users by leveraging and building the brand fortress of the Company. The Company was founded in 1953 and its headquarters are located in San Diego, California. For more than four decades, the Company sold only one product, WD-40®, a multi-purpose maintenance product which acts as a lubricant, rust preventative, penetrant, cleaner and moisture displacer. Over the years, the Company has further developed the WD-40 product and acquired several brands worldwide, many of which have been homecare and cleaning product brands, in order to build a fortress of brands that deliver a unique high value to end users. In addition, some of these brand acquisitions have provided the Company with access to existing distribution channels for other of its existing brands and have also provided the Company with economies of scale in areas such as sales, manufacturing and administration. The Company's acquisitions include the following:

3-IN-ONE® brand of general purpose and specialty maintenance products in fiscal year 1996;

Lava® brand of heavy-duty hand cleaners in fiscal year 1999;

2000 Flushes® automatic toilet bowl cleaners, X-14® automatic toilet bowl cleaners and hard surface cleaners and Carpet Fresh® rug and room deodorizers, all of which were associated with the Global Household Brands acquisition, and Solvol® brand of heavy-duty hand cleaners in Australia in fiscal year 2001;

Spot Shot® brand, whose primary product was a carpet stain remover; in fiscal year 2002; and

1001® line of carpet and household cleaners in the United Kingdom ( U.K. ) in fiscal year 2004.

---

## **Table of Contents**

The Company is focused on and committed to innovation and renovation of its products. The Company sees innovation and renovation as important factors to the long-term growth of its brands, and it intends to continue to work on future product, packaging and promotional innovations and renovations. The Company is also focused on expanding its current brands in existing markets with new product development. The Company's product development team, Team Tomorrow, supports new product development and current product improvement for all of the Company's brands. Since its inception in fiscal year 2003, Team Tomorrow has made an innovation impact on most of the Company's fortress of brands. Key innovations for the Company's products include, but are not limited to, WD-40 Smart Stra<sup>®</sup>, WD-40 Trigger Pro<sup>®</sup>, 3-IN-ONE Professional Garage Door Lube<sup>®</sup>, Spot Shot Pet Clean<sup>®</sup> which is a non-aerosol Spot Shot trigger product, and a mildew stain remover under the X-14 brand. In addition, during fiscal year 2010, the Company launched Blue Works<sup>®</sup>, a new brand of multi-purpose maintenance products.

The Company's core strategic initiatives and the areas where it will continue to focus its time and resources in future periods include:

(i) expanding geographically in countries where end users could benefit from or continue to benefit from using the WD-40 brand; (ii) maximizing its position in the multi-purpose maintenance products line by focusing its research and development resources to leverage its multi-purpose maintenance products and adjacent categories; (iii) developing its business through acquisitions, joint ventures and/or other strategic partnerships; and (iv) leveraging the trust the WD-40 brand has established with its wide user base to grow the Company's revenues and profits.

The Company's brands are sold in various locations around the world. Multi-purpose maintenance products are sold worldwide in markets such as North, Central and South America, Asia, Australia and the Pacific Rim, Europe, the Middle East and Africa. Homecare and cleaning products are sold primarily in North America, the U.K., Australia and the Pacific Rim.

### ***Financial Information About Operating Segments***

The Company's operating segments are determined consistent with the way management organizes and evaluates financial information internally for making operating decisions and assessing performance. The Company is organized on the basis of geographical area into the following segments: the Americas, Europe and Asia-Pacific.

The Company's management reviews product performance on the basis of sales, which comes from its two product lines multi-purpose maintenance products and homecare and cleaning products. The Company sells its products primarily through mass retail and home center stores, warehouse club stores, grocery stores, hardware stores, automotive parts outlets and industrial distributors and suppliers. The financial information required by this item is included in Note 14 Business Segments and Foreign Operations of the Company's consolidated financial statements, included in Item 15 of this report, and in Management's Discussion and Analysis of Financial Condition and Results of Operations, included in Item 7 of this report.

### ***Products***

#### ***Multi-Purpose Maintenance Products***

The WD-40 brand is a market leader among multi-purpose maintenance products and is sold as an aerosol spray, a non-aerosol trigger spray and in liquid form through retail chain stores, hardware stores, warehouse club stores, automotive parts outlets and industrial distributors and suppliers. WD-40 products are sold worldwide in markets such as North, Central and South America, Asia, Australia and the Pacific Rim, Europe, the Middle East and Africa. WD-40 products have a wide variety of consumer uses in, for example, household, marine, automotive, construction, repair, sporting goods and gardening applications, in addition to numerous industrial applications.

The 3-IN-ONE brand consists of multi-purpose drip oil and spray lubricant products, as well as other specialty maintenance products. The drip oil is an entry-level lubricant with unique spout options that allow precise

---

**Table of Contents**

applications for small mechanisms and assemblies, tool maintenance and threads on screws and bolts. 3-IN-ONE Oil is the market share leader among drip oils for household consumers. It also has wide industrial applications in such areas as locksmithing, HVAC, marine, farming, construction and jewelry manufacturing. In addition to the drip oil line of products, the 3-IN-ONE brand also includes a professional line of products known as 3-IN-ONE Professional, which is a line of high quality, great value multi-purpose maintenance products. The high quality of the 3-IN-ONE brand and its established distribution network have enabled these products to gain international acceptance. 3-IN-ONE products are sold primarily in the U.S., Europe, Canada, Latin America, Australia and Asia.

The Blue Works brand consists of a line of industrial grade, specialty maintenance products that includes lubricants, penetrants, degreasers and cleaners designed specifically for the needs of industrial users. Blue Works products were launched in the U.S. during the second quarter of fiscal year 2010 and are currently sold through the industrial channel. This industrial channel represents a smaller market and experiences slower growth with different sales cycles than do other distribution channels where the Company currently sells its products. The Company plans to launch Blue Works products in selected markets in Europe during fiscal year 2011 and expects that the Blue Works brand will contribute to the multi-purpose maintenance products line over time.

*Homecare and Cleaning Products*

The X-14 brand is a line of quality products designed for unique cleaning needs. X-14 is sold as a liquid mildew stain remover and two types of automatic toilet bowl cleaners. X-14 is sold primarily in the U.S. through grocery and mass retail channels.

The 2000 Flushes brand is a line of long-lasting automatic toilet bowl cleaners which includes a variety of formulas. 2000 Flushes is sold primarily in the U.S. and Canada through grocery and mass retail channels.

The Carpet Fresh brand is a line of room and rug deodorizers sold as powder, aerosol foam and trigger spray products. Carpet Fresh is sold primarily through grocery and mass retail channels in the U.S., U.K. and Australia. In the U.K., Carpet Fresh is sold under the 1001 brand name. In Australia, Carpet Fresh is sold under the No Vac brand name.

The Spot Shot brand is sold as an aerosol carpet stain remover and a liquid trigger carpet stain and odor eliminator. The brand also includes environmentally friendly products such as Spot Shot Instant Carpet Stain & Odor Eliminator and Spot Shot Pet Clean, which are non-toxic and biodegradable. Spot Shot products are sold primarily through grocery and mass retail channels, warehouse club stores and hardware and home center stores in the U.S. and Canada. Spot Shot products are also sold in the U.K. under the 1001 brand name.

The 1001 brand includes carpet and household cleaners and rug and room deodorizers which are sold primarily through mass retail, grocery and home center stores in the U.K. The brand was acquired to introduce the Company's other homecare and cleaning product formulations under the 1001 brand in order to expand the Company's homecare and cleaning products business into the U.K. market. During fiscal year 2004, the Carpet Fresh and Spot Shot brands were introduced under the 1001 brand in the U.K.

The Lava and Solvol brands consist of heavy-duty hand cleaner products which are sold in bar soap and liquid form through hardware, grocery, industrial, automotive and mass retail channels. Lava is sold primarily in the U.S., while Solvol is sold exclusively in Australia.

Financial information about operating segments and product lines appears in Note 14 Business Segments and Foreign Operations of the consolidated financial statements, included in Item 15 of this report.

## **Table of Contents**

### ***Sources and Availability of Components and Raw Materials***

The Company relies on a limited number of suppliers, including sole suppliers, for certain of its raw materials, packaging, product components and other necessary supplies. The Company's primary components and raw materials include aerosol cans and petroleum-based products, which are manufactured from commodities that are subject to volatile price changes. The availability of these components and raw materials is affected by a variety of supply and demand factors, including global market trends, plant capacity decisions and natural disasters. The Company expects these components and raw materials to continue to be readily available in the future, although the Company will continue to be exposed to volatile price changes.

### ***Research and Development***

The Company recognizes the importance of innovation and renovation to its long-term success and is focused on and committed to research and new product development activities. The Company's product development team, Team Tomorrow, engages in consumer research, product development, current product improvement and testing activities, and also leverages its development capabilities by partnering with a network of outside resources including the Company's current and prospective outsource suppliers. The Company incurred research and development expenses of \$5.3 million, \$4.8 million and \$3.6 million in fiscal years 2010, 2009 and 2008, respectively. None of this research and development activity was customer-sponsored.

### ***Seasonality***

During times in the Company's history, it has achieved its highest quarterly sales levels during the fourth quarter of its fiscal year. These patterns were largely reflective of the customers' seasonal purchasing patterns, as well as the timing of the Company's promotional activities. Due to new product introductions and international sales growth, the Company did not experience such trends during fiscal years 2010, 2009 or 2008, and such trends may not exist in future years.

### ***Manufacturing***

The Company outsources the manufacturing of its finished products to various third-party contract manufacturers. The Company uses contract manufacturers in the United States, Canada, Brazil, Argentina, U.K., Australia, China, South Korea and India. Although the Company does not typically have definitive minimum purchase obligations included in the contract terms with its contract manufacturers, when such obligations have been included, they have been immaterial to date. Supply needs are communicated by the Company to its contract manufacturers, and the Company is committed to purchase the products manufactured based on orders and short-term projections, ranging from two to five months, provided to the contract manufacturers. In addition, the Company has expanded its manufacturer sourcing outside of its traditional contract manufacturing and distribution model in order to support certain product introductions.

In addition to the commitments to purchase products from contract manufacturers described above, the Company may also enter into commitments with other manufacturers from time to time to purchase finished goods and components to support innovation initiatives and/or supply chain initiatives.

### ***Significant Customer***

Wal-Mart Stores, Inc. is a significant U.S. and global mass retail customer and offers a variety of the Company's products. Sales to Wal-Mart stores and its affiliates worldwide accounted for approximately 9 percent of the Company's consolidated net sales in fiscal year 2010 and approximately 10 percent of the Company's consolidated net sales in each of fiscal years 2009 and 2008. Accounts receivable from Wal-Mart stores and its affiliates worldwide accounted for approximately 9 percent of the Company's accounts receivable at August 31, 2010 and 2009.

---

## **Table of Contents**

### ***Order Backlog***

Order backlog is not a significant factor in the Company's business.

### ***Competition***

The markets for the Company's products, particularly those related to its homecare and cleaning products, are highly competitive. The Company's products compete both within their own product classes as well as within product distribution channels, competing with many other products for store placement and shelf space. Competition in international markets varies by country. The Company is aware of many competing products, some of which sell for lower prices or are produced and marketed by companies with greater financial resources than those of the Company. The Company relies on the awareness of its brands among consumers, the value offered by those brands as perceived by consumers, product innovation and renovation and its multiple channel distributions as its primary strategies. New products typically encounter intense competition, which may require substantial advertising and promotional support and activities. When or if a new product achieves consumer acceptance, ongoing advertising and promotional support may be required to maintain its relative market position.

### ***Trademarks and Patents***

The Company owns numerous patents, but relies primarily upon its established trademarks, brand names and marketing efforts, including advertising and sales promotion, to compete effectively. The WD-40, 3-IN-ONE, Lava, Solvol, X-14, 2000 Flushes, Carpet Fresh and No Vac, Spot Shot and 1001 trademarks are registered in various countries throughout the world.

### ***Employees***

At August 31, 2010, the Company employed 316 people worldwide: 142 by the United States parent corporation (including 5 of whom are based in the Malaysia regional office); 8 by the Canada subsidiary; 117 by the U.K. subsidiary (including 60 in the U.K., 19 in Germany, 17 in France, 13 in Spain and 8 in Italy); 14 by the Australia subsidiary; 33 by the China subsidiary; and 2 by WD-40 Manufacturing Company, the Company's manufacturing subsidiary.

### ***Financial Information About Foreign and Domestic Operations***

For detailed information about the Company's foreign and domestic operations, including net sales and total assets by reportable segment and long-lived assets by geography, refer to Note 14 Business Segments and Foreign Operations of the consolidated financial statements, included in Item 15 of this report.

### ***Access to SEC Filings***

The Company's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, are available through the Investors section of the Company's website at [www.wd40company.com](http://www.wd40company.com). These reports can be accessed free of charge from the Company's website as soon as reasonably practicable after the Company electronically files such materials with, or furnishes them to, the Securities and Exchange Commission (SEC). Information contained on the Company's website is not included as a part of, or incorporated by reference into, this report.

Interested readers may also read and copy any materials that the Company files at the SEC Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Readers may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an internet site ([www.sec.gov](http://www.sec.gov)) that contains the Company's reports.

---

## **Table of Contents**

### **Item 1A. Risk Factors**

The following risks and uncertainties, as well as other factors described elsewhere in this report or in other SEC filings by the Company, could adversely affect the Company's business, financial condition and results of operations.

***The Company's financial results could suffer if the Company is unable to implement and successfully manage its core strategic initiatives or if the Company's core strategic initiatives do not achieve the intended results.***

There is no assurance that the Company will be able to implement and successfully manage its core strategic initiatives, including its four major strategic initiatives, or that the core strategic initiatives will achieve the intended results, which include sales volume growth. The Company's four major strategic initiatives include: (i) expanding geographically in countries where end users could benefit from or continue to benefit from using the WD-40 brand; (ii) maximizing its position in the multi-purpose maintenance products line by focusing its research and development resources to leverage its multi-purpose maintenance products and adjacent categories; (iii) developing its business through acquisitions, joint ventures and/or other strategic partnerships; and (iv) leveraging the trust the WD-40 brand has established with its wide user base to grow the Company's revenues and profits. If the Company is unable to implement and successfully manage its core strategic initiatives in accordance with its business plans, the Company's business and financial results could be adversely affected. Moreover, the Company cannot be certain that implementation of its core strategic initiatives will necessarily advance its business or financial results as intended.

***Cost increases in finished goods, components, raw materials, transportation and other necessary supplies or services could harm the Company's financial condition and results of operations.***

Increases in the cost of finished goods, components and raw materials and increases in the cost of transportation and other necessary supplies or services may harm the Company's financial condition and results of operations. Petroleum-based products and aerosol cans, which constitute a significant portion of the costs for many of the Company's products, have experienced significant price volatility in the past, and may continue to do so in the future. Fluctuations in oil prices have also impacted the Company's cost of transporting its products. As component and raw material costs are the principal contributors to the cost of goods sold for all of the Company's products, any significant fluctuation in the costs of components and raw materials could have a material impact on the gross margins realized on the Company's products. Specifically, aerosol can prices are exposed to fluctuations resulting from changes in the cost of tinplate used to manufacture such cans. In the event there is significant volatility in the Company's cost of goods or increases in raw material and/or component costs or the costs of transportation and other necessary supplies or services, the Company may not be able to maintain its gross margins if it chooses not to raise its product sales prices. Should the Company choose to increase product sales prices to offset cost increases, such increases may adversely affect demand and unit sales. Sustained increases in the cost of raw materials, components, transportation and other necessary supplies or services, or significant volatility in such costs, could have a material adverse effect on the Company's financial condition and results of operations.

***Reliance on a limited base of third-party contract manufacturers, logistics providers and suppliers of raw materials and components may result in disruption to the Company's business and this could adversely affect the Company's financial condition and results of operations.***

The Company relies on a limited number of third-party contract manufacturers, logistics providers and suppliers, including single or sole source suppliers for certain of its raw materials, packaging, product components and other necessary supplies. The Company does not have direct control over the management or business of these third parties, except indirectly through terms as negotiated in service or supply contracts. Should the terms of doing business with the Company's primary third-party contract manufacturers, suppliers and/or logistics providers change or should the Company have a disagreement with or be unable to maintain relationships with such third parties or such third parties experience financial difficulties, the Company's business may be disrupted.

---

**Table of Contents**

which could have an adverse effect on the Company's business, financial condition and results of operations. In addition, if the Company is unable to contract with third-party manufacturers or suppliers at the quantity and quality levels needed for its business, the Company could experience disruptions in production and its financial results could be adversely affected.

***Global economic conditions may negatively impact the Company's financial condition and results of operations.***

A general weakening or decline in the global economy or a reduction in business or consumer spending or confidence, could delay or significantly decrease purchases of the Company's products by its customers, which include retail and home center stores, warehouse club stores, grocery stores, hardware stores, automotive parts outlets and industrial distributors and suppliers. Consumer purchases of discretionary items, which may include the Company's multi-purpose maintenance products and homecare and cleaning products, often decline during periods where disposable income is reduced or there is economic uncertainty, and this may negatively impact the Company's financial condition and results of operations. In addition, during unfavorable or uncertain economic times, consumers may increase purchases of lower-priced or non-branded products and the Company's competitors may increase their level of promotional activities to maintain sales volumes, both of which may negatively impact the Company's financial condition and results of operations.

The Company's sales and operating results may be affected by uncertain or changing economic and market conditions, including inflation, deflation, prolonged weak consumer demand or other changes which may affect the principal markets in which the Company conducts its business. If economic or market conditions in the United States or other key global markets deteriorate, the Company may experience material adverse effects on its business, financial condition and results of operations. In recent periods, particularly in fiscal year 2009, consumer and business confidence and spending deteriorated significantly as the economy entered a recession. Although global economic conditions improved in fiscal year 2010, there is still uncertainty in the global economy, and there is no guarantee that the global economy will remain in this improved state.

Adverse economic and market conditions could also harm the Company's business by negatively affecting the parties with whom it does business, including its customers, retailers, distributors and wholesalers, and third-party contract manufacturers and suppliers. These conditions could impair the ability of the Company's customers to pay for products they have purchased from the Company. As a result, allowances for doubtful accounts and write-offs of accounts receivable from the Company's customers may increase. In addition, the Company's third-party contract manufacturers and its suppliers may experience financial difficulties that could negatively affect their operations and their ability to supply the Company with finished goods and the raw materials, packaging, and components required for the Company's products.

***The Company faces significant competition in its markets, particularly those related to its homecare and cleaning products, which could lead to reduced profitability.***

The Company faces significant competition from other consumer products companies, both in the U.S. and in international markets. Many of the Company's products, particularly its homecare and cleaning products, compete with other widely advertised brands within each product category and with private label brands and generic non-branded products of the Company's customers in certain categories, which are typically sold at lower prices. The Company also encounters competition from similar and alternative products, many of which are produced and marketed by major national or multinational companies.

The Company's products generally compete on the basis of product performance, brand recognition, price, quality or other benefits to consumers. Advertising, promotion, merchandising and packaging also have a significant impact on consumer purchasing decisions. A newly introduced consumer product, whether improved or newly developed, usually encounters intense competition requiring substantial expenditures for advertising, sales promotion and trade merchandising. If a product gains consumer acceptance, it normally requires continued advertising, promotional support and product improvements to maintain its relative market position.

---

**Table of Contents**

Some of the Company's competitors are larger and have financial resources greater than those of the Company. These competitors may be able to spend more aggressively on advertising and promotional activities, introduce competing products more quickly and respond more effectively to changing business and economic conditions than the Company. In addition, the Company's competitors may attempt to gain market share by offering products at sales prices at or below those typically offered by the Company.

Competitive activity may require the Company to increase its investment in marketing or reduce sales prices and may lead to reduced profit margins or a loss of market share, either of which could have a material adverse effect on the Company's business, financial condition and results of operations. There can be no assurance that the Company will be able to compete successfully against current and future competitors or that competitive pressures faced by the Company will not have a material adverse effect on its business, financial condition and results of operations.

***Global operations outside the U.S. expose the Company to uncertain conditions, foreign currency exchange rate risk and other risks in international markets.***

The Company's sales outside of the U.S. were approximately 54% of consolidated net sales in fiscal year 2010 and its strategy includes expanding its operations globally. The Company faces, and will continue to face, substantial risks associated with having global operations outside the U.S., including:

economic or political instability in its international markets, including Latin America, the Middle East, parts of Asia, Eastern Europe and Russia;

restrictions on or costs relating to the repatriation of foreign profits to the U.S., including possible taxes or withholding obligations on any repatriations; and

the imposition of tariffs or trade restrictions or other governmental actions.

These risks could have a significant impact on the Company's ability to sell its products on a competitive basis in global markets outside the U.S. and could have a material adverse effect on the Company's business, financial condition and results of operations.

The Company is also exposed to foreign currency exchange rate risk with respect to its sales, expenses, profits, assets and liabilities denominated in currencies other than the U.S. dollar. Although the Company uses instruments to hedge certain foreign currency risks, it is not fully protected against foreign currency fluctuations and, therefore, the Company's reported earnings may be affected by changes in foreign currency exchange rates. Moreover, any favorable impacts to profit margins or financial results from fluctuations in foreign currency exchange rates are likely to be unsustainable over time.

Additionally, the Company's global operations outside the U.S. are subject to risks relating to appropriate compliance with legal and regulatory requirements in local jurisdictions, potential difficulties in staffing and managing local operations, potentially higher incidence of fraud or corruption, credit risk of local customers and distributors and potentially adverse tax consequences.

***Sales volume growth may be difficult to achieve.***

The Company's ability to achieve sales volume growth will depend on its ability to (i) execute its core strategic initiatives, which include among other things, geographic expansion and business development through acquisitions, joint ventures, licensing and/or other strategic partnerships, (ii) drive growth within its existing markets through innovation, renovation and enhanced merchandising and marketing of its established brands and (iii) capture market share from its competitors. In order to protect the Company's existing market share or capture additional market share from its competitors, the Company may need to increase its expenditures related

---

**Table of Contents**

to promotions and advertising or introduce and establish new products. In past periods, the Company has also increased sales prices on certain of its products in response to increased costs for components and raw materials. Sales price increases may slow sales volume growth or create declines in volume in the short term as customers adjust to sales price increases. In addition, a change in the strategies of the Company's existing customers, including shelf simplification, the discontinuation of certain product offerings or the shift in shelf space to competitors' products could reduce the Company's sales and potentially offset sales volume increases achieved as a result of other sales growth initiatives. If the Company is unable to increase market share in its existing product lines by developing product improvements, investing adequately in its existing brands, building usage among new customers, developing, acquiring or successfully launching new products, or successfully penetrating new and developing markets globally, the Company may not achieve its sales volume growth objectives.

***Dependence on key customers could adversely affect the Company's business, financial condition and results of operations.***

A limited number of customers, which include mass retail customers, account for a large percentage of the Company's net sales. The Company expects that a significant portion of its revenues will continue to be derived from this limited number of customers. As a result, changes in the strategies of the Company's largest customers, including shelf simplification, a reduction in the number of brands they carry or a shift in shelf space to private label or competitors' products, may harm the Company's sales. The loss of, or reduction in, orders from any of the Company's most significant customers could have a material adverse effect on the Company's brand values, business, financial condition and results of operations. Large customers also seek price reductions, added support or promotional concessions, all of which may negatively impact the Company's ability to maintain existing profit margins.

In addition, the Company's business is based primarily upon individual sales orders, and the Company typically does not enter into long-term contracts with its customers. Accordingly, these customers could reduce their purchasing levels or cease buying products from the Company at any time and for any reason. The Company is also subject to changes in customer purchasing patterns. These types of changes may result from changes in the manner in which customers purchase and manage inventory levels, or display and promote products within their stores. Other potential factors such as customer disputes regarding shipments, fees, merchandise condition or related matters may also impact operating results. If the Company ceases doing business with a significant customer or if sales of its products to a significant customer materially decrease, the Company's business, financial condition and results of operations may be harmed.

***The Company may not successfully develop and introduce new products and line extensions.***

The Company's future performance and growth depend, in part, on its ability to successfully develop and introduce new products as both brand extensions and/or line extensions. The Company cannot be certain that it will successfully achieve those goals. The Company competes in several product categories where there are frequent introductions of new products and line extensions. The ability of the Company to understand consumer preferences is key to maintaining and improving the competitiveness of its product offerings. The development and introduction of new products, as well as the renovation of current products and product lines, require substantial and effective research, development and marketing expenditures, which the Company may be unable to recoup if the new or renovated products do not gain widespread market acceptance. There are inherent risks associated with new product development and marketing efforts, including product development or launch delays, which could result in the Company not being first to market, the failure of new products and line extensions to achieve anticipated levels of market acceptance and the cost of failed product introductions. As the Company continues to focus on innovation and renovation, the Company's business, financial condition or results of operations could be adversely affected in the event that the Company is not able to effectively develop and introduce new or renovated products and line extensions.

---

**Table of Contents**

***Government regulations and environmental laws and regulations could result in material costs or otherwise adversely affect the Company's financial condition and results of operations.***

The manufacturing, packaging, storage, distribution and labeling of the Company's products and the manner in which the Company's business operations are conducted must comply with extensive federal, state and foreign laws and regulations. If the Company is not successful in complying with all such regulations or changes to existing regulations, it could be fined and this could adversely affect the Company's financial condition and results of operations. It is also possible that governments will increase regulation of the transportation, storage or use of certain chemicals, to enhance homeland security or protect the environment and that such regulation could negatively impact the Company's ability to obtain raw materials, components and/or finished goods or could result in increased costs. In the event that such regulations result in increased product costs, the Company may not be in a position to raise selling prices, and therefore an increase in costs could have a material adverse effect on the Company's business, financial condition and results of operations.

Some of the Company's products have chemical compositions that are controlled by various state, federal and international laws and regulations. The Company is required to comply with these laws and regulations and seeks to anticipate regulatory developments that could impact the Company's ability to continue to produce and market its products. The Company invests in research and development to maintain product formulations that comply with such laws and regulations. There can be no assurance that the Company will not be required to alter the chemical composition of one or more of the Company's products in a way that will have an adverse effect upon the product's efficacy or marketability. A delay or other inability of the Company to complete product research and development in response to any such regulatory requirements could have a material adverse effect on the Company's business, financial condition and results of operations.

In previous years, the California Air Resources Board ( CARB ), one of the most influential state environmental agencies in the United States, has released regulations that have required the Company to reformulate certain of its multi-purpose maintenance products. During 2008, CARB approved regulatory amendments to establish lower limits for Volatile Organic Compounds ( VOCs ) in certain regulated consumer products, including multi-purpose lubricants and penetrants and aerosol spot removers, which will require reductions in the levels of VOCs in each product category by dates specified in the amendments. For multi-purpose lubricants and penetrants, the amendments require a reduction in VOC levels from the current standard of 50% by weight to 25% by December 31, 2013 and to 10% by December 31, 2015. For aerosol spot removers, the amendments require a reduction in VOC levels from the current standard of 18% by weight to 15% by December 31, 2012. The Company is required to reformulate certain of its multi-purpose maintenance products and its Spot Shot brand aerosol spot remover in order to comply with these lower limits on VOC content. There can be no assurance that reformulation of the Company's products can be accomplished at a commercially reasonable cost or without having an adverse impact on product performance. The inability of the Company to successfully reformulate its products to comply with these regulatory amendments could have a material adverse effect on the Company's business, financial condition and results of operations.

The Company is also subject to numerous environmental laws and regulations that impose various environmental controls on its business operations, including, among other things, the discharge of pollutants into the air and water, the handling, use, treatment, storage and clean-up of solid and hazardous wastes and the investigation and remediation of soil and groundwater affected by hazardous substances. Such laws and regulations may otherwise relate to various health and safety matters that impose burdens upon the Company's operations. These laws and regulations govern actions that may have adverse environmental effects and also require compliance with certain practices when handling and disposing of hazardous wastes. These laws and regulations also impose strict, retroactive and joint and several liability for the costs of, and damages resulting from, cleaning up current sites, past spills, disposals and other releases of hazardous substances. The Company believes that its expenditures related to environmental matters have not had, and are not currently expected to have, a material adverse effect on its financial condition, results of operations or cash flows. However, the environmental laws under which the Company operates are complicated, often become increasingly more stringent and may be applied retroactively.

## **Table of Contents**

Accordingly, there can be no assurance that the Company will not be required to incur additional expenditures to remain in or to achieve compliance with environmental laws in the future or that any such additional expenditures will not have a material adverse effect on the Company's business, financial condition or results of operations

*If the success and reputation of one or more of the Company's leading brands erodes, its business, financial condition and results of operations could be negatively impacted.*

The financial success of the Company is directly dependent on the success and reputation of its brands, particularly its WD-40 brand. The success and reputation of the Company's brands can suffer if marketing plans or product development and improvement initiatives do not have the desired impact on the brands' image or do not attract customers as intended. The Company's brands can also be adversely impacted due to the activities and pressures placed on them by the Company's competitors. Further, the Company's business, financial condition and results of operations could be negatively impacted if one of its leading brands suffers damage to its reputation due to real or perceived quality or safety issues. Although the Company makes every effort to prevent brand erosion and preserve its reputation and the reputation of its brands, there can be no assurance that such efforts will be successful.

*Goodwill and intangible assets are subject to impairment risk.*

The Company assesses the potential impairment of indefinite-lived intangible assets and goodwill during the second fiscal quarter of each fiscal year and otherwise when there is evidence that events or changes in circumstances indicate that an impairment condition may exist. The Company also assesses its definite-lived intangible assets for potential impairment when events and circumstances indicate that such impairment may exist. Events and circumstances that the Company considers important which could trigger impairment include matters such as the following:

Significant underperformance relative to historical or projected future operating results;

Significant changes in the extent or manner to which an acquired asset is being utilized by the Company;

Significant negative industry or global economic trends;

Significant decline in the Company's stock price for a sustained period;

Decreased market capitalization relative to net book value;

Unanticipated competitive activities;

Loss of key distribution;

Change in consumer demand;

Loss of key personnel; and

Acts by governments and courts.

## Edgar Filing: WD 40 CO - Form 10-K

The Company assesses potential impairment by comparing the estimated fair value of intangible assets and the implied fair value of goodwill to their carrying values. An impairment loss is recognized if the carrying amount of the asset exceeds its fair value. The Company assesses potential impairment of intangible assets using a two-step process. The Company compares the undiscounted future cash flows of the intangible assets to the

---

**Table of Contents**

carrying value. If the undiscounted cash flows of the asset are less than the carrying value, the Company assesses potential impairment by comparing the estimated fair value of intangible assets to their carrying values. An impairment loss is recognized if the carrying amount of the asset exceeds its fair value.

The Company estimates fair value using a discounted cash flow approach that requires significant management judgment and estimates with respect to, among other considerations, forecasted sales revenue, advertising and promotional expenses, cost of products sold, gross margins, operating margins, the success of product innovations and introductions, customer retention, tax rates, terminal growth values and the selection of appropriate discount and royalty rates. Many of the factors used in assessing fair value are outside the control of management, and it is reasonably likely that assumptions and estimates will change in future periods. These changes could result in future impairments to the Company's intangible assets and goodwill.

The Company faces challenges related to its homecare and cleaning product brands, which have short differentiated life cycles and often need continuous innovation, renovation and/or continuous marketing support to address consumers' changing needs and tastes. As a result of the dynamic nature of this product line, the ability to understand consumer preferences and innovate and/or renovate is key to the ongoing success of the homecare and cleaning product brands. In the event that the Company is unable to meet consumer preferences through innovation and/or renovation or achieve forecasted sales revenue levels, its homecare and cleaning product brands and product offerings may be at risk of future impairment.

During fiscal year 2009, the Company recorded impairments to certain of its homecare and cleaning product brands based on the results of its annual or subsequent events and circumstances driven impairment tests. During the second quarter of fiscal year 2009, the Company determined, while performing its annual impairment tests, that its indefinite-lived intangible asset related to its Carpet Fresh brand was impaired as of February 28, 2009. Due to the declines in profit margin and forecasted sales revenue for the Carpet Fresh brand, both of which occurred during the second quarter of fiscal year 2009, the Company concluded that the Carpet Fresh trade name was impaired by \$2.8 million as of February 28, 2009. The decline in forecasted sales revenue for the Carpet Fresh brand resulted from the Company's strategic decision to focus its research and development resources on its multi-purpose maintenance products and not its homecare and cleaning products, the loss of distribution with a significant U.S. mass retail customer and assumed lower future foreign currency exchange rates in the U.K. and Australia. While some of these factors also impacted the indefinite-lived intangible assets related to the Company's other homecare and cleaning product brands, they did not result in impairment to any of such other indefinite-lived intangible assets as of February 28, 2009.

During the third and fourth quarters of fiscal year 2009, the Company reevaluated its indefinite-lived intangible assets and determined that indicators of potential impairment existed due to lower than forecasted sales revenue for several of its homecare and cleaning products, including the Carpet Fresh, X-14, Spot Shot and 2000 Flushes brands. As a result, the Company tested these indefinite-lived intangible assets for impairment for both periods. For the test conducted during the third quarter of fiscal year 2009, the Company concluded that no impairment existed as of May 31, 2009. For the test conducted during the fourth quarter of fiscal year 2009, the Company concluded that the intangible assets associated with its Carpet Fresh and X-14 trade names were impaired by \$3.3 million and \$0.6 million, respectively, as of August 31, 2009.

Due to the continued sales declines in fiscal year 2009 and the lower level of forecasted sales for the Carpet Fresh and X-14 brands which have been caused by a variety of factors, including lost distribution and the Company's strategic decision to focus its research and development resources on its multi-purpose maintenance products, the Company concluded that these two brands should no longer be considered to have indefinite lives. As a result, effective August 31, 2009, the Company changed the classification of the Carpet Fresh and X-14 trade names from indefinite-lived to definite-lived intangible assets. The Company began to amortize the Carpet Fresh and X-14 trade names on a straight-line basis effective September 1, 2009 based on their estimated remaining useful lives of thirteen and eight years, respectively.

**Table of Contents**

Since the fourth quarter of fiscal year 2009, no impairment of the Company's indefinite-lived or definite-lived intangible assets related to its homecare and cleaning product brands has been identified or recorded. However, if significant marketing and other initiatives related to these brands are not successful, they could potentially become impaired in the future.

Negative changes in the Company's assumptions and estimates, such as royalty rates, forecasted sales revenue, advertising and promotional expenses, cost of products sold, gross margins, operating margins, the success of product innovations and introductions, customer retention, development of new and/or alternative distribution channels, tax rates and terminal growth values, could result in impairment of its intangible assets.

The Company will continue to closely monitor events and circumstances that could result in impairment of its intangible assets. It is possible that changes in circumstances or in the variables, assumptions and estimates used by the Company to assess the fair value of its intangible assets, could change in the future and require the Company to record impairment charges.

***The Company's operating results and financial performance may not meet expectations which could adversely affect the Company's stock price.***

The Company cannot be sure that its operating results and financial performance, which include sales growth, net income, earnings per common share, gross margin and cash flows, will meet expectations. If the Company's assumptions and estimates are incorrect or do not come to fruition, or if the Company does not achieve all of its key goals or core strategic initiatives, then the Company's actual performance could vary materially from its internal and market expectations. Failure to meet or exceed these expectations could cause the market price of the Company's stock to decline. The Company's operating results and financial performance may be influenced by a number of factors, including the following:

Significant increases in the costs of finished goods, components, raw materials and/or transportation;

The impact of general economic and market conditions in the U.S. and in other countries in which the Company currently does business;

Changes in product sales prices by the Company or its competitors and consumer and customer reactions to such sales price changes;

The introduction of new products and line extensions by the Company or its competitors;

The mix of products sold with varying profitability in a given period;

The mix of products sold within different channels and countries with varying profitability in a given period;

The Company's ability to control internal costs;

The effectiveness of the Company's advertising, marketing and promotional programs;

The availability and cost of debt financing;

## Edgar Filing: WD 40 CO - Form 10-K

The ability of the Company to execute its core strategic initiatives and to maintain and enhance profits in the face of a consolidating retail environment;

The ability of the Company to achieve its business plans, including sales volume growth and sales pricing plans, as a result of high levels of competitive activity;

**Table of Contents**

The ability of the Company to maintain key customer relationships;

The ability of the Company to maintain key supplier, third-party contract manufacturer and logistics provider relationships;

The ability of the Company to generate expected cost savings and efficiencies;

The ability of the Company to maintain the value of its brands;

The ability of major customers and other debtors to meet their obligations as they come due;

The failure of parties contracting with the Company to perform their obligations and the loss of or inability to renew contracts of importance to the Company's performance;

The Company's reliance on brokers for the grocery and industrial channels;

The ability to successfully manage regulatory, tax and legal matters, including resolution of pending matters within current estimates;

The substantial costs associated with regulatory compliance;

The ability of the Company to attract and retain qualified personnel;

The expenses associated with the potential impairment of the Company's goodwill, trade names and other intangible assets and the potential impairment or obsolescence of its property, plant and equipment;

The ability to maintain the overall quality of new and existing products;

The ability of the Company to penetrate and grow domestic and international markets and distribution channels;

The ability of the Company to manage the impact of foreign currency exchange rate fluctuations in the countries in which it does business;

The impact of foreign import and export restrictions or other trade regulations;

## Edgar Filing: WD 40 CO - Form 10-K

Changes to cash flow resulting from the Company's operating results, tax payments, tax settlements, debt repayments, dividend payments and share repurchases;

The ability of the Company to manage inventory at appropriate levels, including decisions regarding obsolescence;

Changes in accounting policies and accounting standards;

The impact of any litigation or product liability claims; and

Fluctuations in federal, state, local and foreign taxes.

In addition, sales volume growth, whether due to acquisitions or internal growth, can place burdens on management resources and financial controls that, in turn, can have a negative impact on operating results and financial condition of the Company. To some extent, the Company plans its expense levels in anticipation of future revenues. If actual revenues fall short of these expectations, operating results and the financial condition of the Company are likely to be adversely affected.

---

**Table of Contents**

***Resolutions of income tax disputes may impact the Company's financial condition and results of operations.***

Significant judgment is required in determining the Company's effective income tax rate and in evaluating tax positions, particularly those related to uncertain tax positions. The Company provides for uncertain tax positions when such tax positions do not meet the recognition thresholds or measurement standards prescribed by the accounting standard for uncertain tax positions. Changes in uncertain tax positions, including related interest and penalties, impact the Company's effective tax rate. When particular tax matters arise, a number of years may elapse before such matters are audited and finally resolved. Favorable resolution of such matters could be recognized as a reduction to the Company's effective tax rate in the year of resolution. Unfavorable resolution of any tax matter could increase the effective tax rate. Any resolution of a tax matter may require the adjustment of tax assets or tax liabilities or the use of cash in the year of resolution. For additional information, refer to the information set forth in Note 11 – Income Taxes of the consolidated financial statements, included in Item 15 of this report.

***The Company's business development activities may not be successful.***

The Company seeks to increase growth through business development activities such as acquisitions, joint ventures, licensing and/or other strategic partnerships in the United States and internationally. However, if the Company is not able to identify, acquire and successfully integrate acquired products or companies or successfully manage joint ventures or other strategic partnerships, the Company may not be able to maximize these opportunities. The failure to properly manage business development activities because of difficulties in the assimilation of operations and products, the diversion of management's attention from other business concerns, the loss of key employees or other factors could materially adversely affect the Company's business, financial condition and results of operations. In addition, there can be no assurance that the Company's business development activities will be profitable at their inception or that they will achieve sales levels and profitability that justify the investments made.

Future acquisitions, joint ventures or strategic partnerships could also result in the incurrence of debt, potentially dilutive issuances of equity securities, contingent liabilities, amortization expenses related to certain intangible assets and/or increased operating expenses, all of which could adversely affect the Company's results of operations and financial condition. In addition, to the extent that the economic benefits associated with any of the Company's business development activities diminish in the future, the Company may be required to record impairments to goodwill, intangible assets or other assets associated with such activities, which could also adversely affect the Company's business, financial condition and results of operations.

***The Company may not have sufficient cash to service its indebtedness and pay cash dividends.***

The Company has historically paid out a large part of its earnings to stockholders in the form of regular quarterly cash dividends. Historically, acquisitions that have been executed by the Company have been funded to a large extent by debt. In order to service the debt, the Company is required to use its income from operations to make interest and principal payments required by the terms of the loan agreements. In addition, the Company is required by covenants within the loan agreements to maintain certain financial ratios and compliance with other financial terms.

The Company has historically paid regular quarterly cash dividends on its common stock. On October 1, 2010, the Board of Directors declared an 8% increase in the regular quarterly cash dividend, increasing it from \$0.25 per share to \$0.27 per share. However, if operating income is not sufficient to properly service the Company's debt or otherwise allow the Company to maintain compliance with the terms of its loans, the Company could be required to seek additional financing by incurring additional debt or through the sale of equity securities, or the Company might be required to reduce dividends.

The Company may incur substantial additional debt in the future for other reasons, including acquisitions or other business development activities. To the extent that the Company is required to seek additional financing by

---

**Table of Contents**

incurring additional debt or selling equity securities, such financing may not be available in sufficient amounts or on terms acceptable to the Company. If new debt is added to current debt levels, the Company's related risks could become more significant.

***Failure to maximize or to successfully assert the Company's intellectual property rights or infringement by the Company on the intellectual property rights of others could impact its competitiveness or otherwise adversely affect the Company's financial condition and results of operations.***

The Company relies on trademark, trade secret, patent and copyright laws to protect its intellectual property rights. The Company cannot be sure that these intellectual property rights will be maximized or that they can be successfully asserted. There is a risk that the Company will not be able to obtain and perfect its own intellectual property rights or, where appropriate, license intellectual property rights necessary to support new product introductions. The Company cannot be certain that these rights, if obtained, will not be invalidated, circumvented or challenged in the future, and the Company could incur significant costs in connection with legal actions to defend its intellectual property rights. In addition, even if such rights are obtained in the United States, it may be that the laws of some of the other countries in which the Company's products are or may be sold do not protect intellectual property rights to the same extent as the laws of the United States, or they may be difficult to enforce. If other companies infringe the Company's intellectual property rights or take part in counterfeiting activities, they may dilute the value of the Company's brands in the marketplace, which could diminish the value the consumers associate with the Company's brands and harm its sales. The failure of the Company to perfect or successfully assert its intellectual property rights or to protect its other proprietary information could make the Company less competitive and could have a material adverse effect on its business, financial condition and results of operations.

If the Company is found to have violated the trademark, trade secret, copyright, patent or other intellectual property rights of others, such a finding could result in the need to cease the use of a trademark, trade secret, copyrighted work or patented invention in the Company's business and an obligation to pay a substantial amount for past infringement. It could also be necessary to pay a substantial amount in the future if the holders of such rights are willing to permit the Company to continue to use the intellectual property rights. Either having to cease use or pay such amounts could make the Company less competitive and could have a material adverse impact on its business, financial condition and results of operations.

***Product liability claims and other litigation could adversely affect the Company's sales and operating results.***

While the Company makes every effort to ensure that the products it develops and markets are safe for consumers, the use of the Company's products may expose the Company to liability claims resulting from such use. Claims could be based on allegations that, among other things, the Company's products contain contaminants, provide inadequate instructions regarding their use or inadequate warnings concerning their use or interactions with other substances. Product liability claims could result in negative publicity that could harm the Company's sales and operating results. In addition, if one of the Company's products were determined to be defective, the Company could be required to recall the product, which could result in adverse publicity and significant expenses. The Company maintains product liability insurance that it believes will be adequate to protect the Company from material loss attributable to such claims but the extent of such loss could exceed available limits of insurance or could arise out of circumstances under which such insurance coverage would be unavailable. Other business activities of the Company may also expose the Company to litigation risks, including risks that may not be covered by insurance. If successful claims are asserted by third parties against the Company for uninsured liabilities or liabilities in excess of applicable limits of insurance coverage, the Company's business, financial condition and results of operations may be adversely affected.

Additionally, the Company's products may be associated with competitor products or other products in the same category, which may be alleged to have caused harm to consumers. As a result of this association, the Company may be named in unwarranted legal actions. The potential costs to defend such claims may materially affect the Company's business, financial condition and results of operations.

---

**Table of Contents**

***Changes in marketing distributor relationships that are not managed successfully by the Company could result in a disruption in one or more of the affected markets.***

The Company distributes its products throughout the world in one of two ways: the Direct Distribution model, in which products are sold directly by the Company to wholesalers and retailers in the U.S., Canada, Australia, China, the U.K. and a number of other countries throughout Europe; and the Marketing Distributor model, in which products are sold to marketing distributors who in turn sell to wholesalers and retailers. The Marketing Distributor model is generally used in certain countries where the Company does not have direct Company-owned operations. Instead, the Company partners with local companies who perform the sales, marketing and distribution functions. The Company invests time and resources in these relationships. Should key personnel change and/or the relationship change or terminate, the Company could be at risk until such time as a suitable replacement can be found and the Company's key marketing strategies implemented. There is a risk that changes in such marketing distributor relationships that are not managed successfully could result in a disruption in one or more of the affected markets and that such disruption could have a material adverse effect on the Company's business, financial condition and results of operations. Additionally, in some countries, local laws may require substantial payments to terminate existing relationships, which could also have a material adverse effect on the Company's business, financial condition and results of operations.

***The operations of the Company and its third-party contract manufacturers and suppliers of raw materials and components are subject to disruption by events beyond the Company's control.***

Operations of the Company and the operations of its third-party contract manufacturers and suppliers of raw materials and components are subject to disruption for a variety of reasons, including work stoppages, acts of war, terrorism, pandemics, fire, earthquakes, hurricanes, flooding or other natural disasters. If a major disruption were to occur, it could result in harm to people or the natural environment, temporary loss of access to critical data, delays in shipments of products to customers, supply chain disruptions, increased costs for finished goods, components and/or raw materials or suspension of operations, any of which could have a material adverse effect on the Company's business, financial condition and results of operations. Although the Company has certain business continuity plans in place to respond to such events, there is no assurance that such plans are adequate or would be successfully implemented.

***The Company may experience difficulties with or malfunctions of the critical information systems that it uses for the daily operations of its business and this could adversely affect the Company's business, financial condition and results of operations.***

System failure, malfunction or loss of data which is housed in the Company's critical information systems could disrupt its ability to timely and accurately process transactions and produce key financial reports, including information on the Company's operating results, financial position and cash flows. The Company's information systems could be damaged or cease to function properly due to a number of reasons, including catastrophic events, power outages and security breaches. Although the Company has certain business continuity plans in place to address such service interruptions, there is no guarantee that these business continuity plans will provide alternative processes in a timely manner. As a result, the Company may experience interruptions in its ability to manage its daily operations and this could adversely affect the Company's business, financial condition and results of operations.

In addition, the information system that the U.S. office uses for its business operations is a market specific application which is not widely used by other companies. The company that owns and supports this application may not be able to provide the same level of support as that of companies which own larger, more widely spread information systems. If the company that supports this application in the U.S. were to cease its operations or were unable to provide continued support for this application, it could adversely affect the Company's daily operations or its business, financial condition and results of operations.

---

**Table of Contents**

*Compliance with changing regulations and standards for accounting, corporate governance and public disclosure may result in additional expenses and this could negatively impact the Company's business, financial condition and results of operations.*

Changing laws, regulations and standards relating to accounting and financial reporting, corporate governance and public disclosure, including new SEC regulations, new NASDAQ Stock Market rules, new accounting requirements and the expected future requirement to transition to international financial reporting standards are creating uncertainty and additional complexities for the Company. To maintain high standards of accounting and financial reporting, corporate governance and public disclosure, the Company intends to invest all reasonably necessary resources to comply with all such evolving standards and requirements. These investments may result in increased general and administrative expenses and a diversion of management time and attention from strategic revenue generating and cost management activities, either of which could negatively impact the Company's business, financial condition and results of operations.

*The Company's continued growth and expansion could adversely affect its internal control over financial reporting which could harm its business and financial condition.*

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting per the Sarbanes-Oxley Act of 2002. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of financial reporting for external purposes in accordance with accounting standards generally accepted in the United States. Internal control over financial reporting includes maintaining records in reasonable detail such that they accurately and fairly reflect the Company's transactions, providing reasonable assurance that receipts and expenditures are made in accordance with management's authorization, policies and procedures and providing reasonable assurance that the unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements would be prevented or detected in a timely manner. The Company's continued growth and expansion, particularly in global markets, will place additional pressure and risk on the Company's system of internal control over financial reporting. Any failure by the Company to maintain an effective system of internal control over financial reporting associated with such growth and expansion could limit the Company's ability to report its financial results accurately and on a timely basis or to detect and prevent fraud.

**Item 1B. Unresolved Staff Comments**

Not applicable.

**Item 2. Properties**

*Americas*

The Company owns and occupies an office and plant facility, consisting of office, plant and storage space, which is located at 1061 Cudahy Place, San Diego, California 92110. The Company also leases additional office and storage space in San Diego. The Company leases a regional sales office in Miami, Florida, a research and development office in Springfield, New Jersey and office space in Toronto, Ontario, Canada. In addition, the Company owns a warehouse facility in Memphis, Tennessee which is currently vacant. The Company is working with an agent to lease this warehouse facility.

*Europe*

The Company owns and occupies an office and plant facility, consisting of office, plant and storage space, located in Milton Keynes, United Kingdom. In addition, the Company leases space for its branch offices in Germany, France, Spain and Italy.

### ***Asia-Pacific***

The Company leases office space in Epping, New South Wales, Australia and Shanghai, China. The Company also leases office space for a regional office in Kuala Lumpur, Malaysia.

### **Item 3. Legal Proceedings**

The Company is party to various claims, legal actions and complaints, including product liability litigation, arising in the ordinary course of business.

On October 3, 2010, a legal action was filed against the Company in United States Federal Court for the Eastern District of Texas (*Promote Innovation, LLC v. WD-40 Company*). The complaint is a *qui tam* action brought by the plaintiff on behalf of the United States of America for alleged violation of Section 292 of the Patent Act (Title 35 U.S. Code, Section 292) for false patent marking. The complaint alleges that the Company included reference to an expired patent on certain product packaging, specifically including 2000 Flushes brand products, with an intent to deceive the public. The complaint seeks to recover a civil monetary fine of \$500 per false marking offense, or an alternative amount determined by the court, one-half of which is to be paid to the United States. The Company intends to vigorously defend this claim of intentional false patent marking. At the present time, the Company is unable to estimate the extent of possible loss or a range of possible loss with respect to this claim.

On June 18, 2010, a legal action was filed against the Company in the Superior Court of California in the County of Orange (*Andrea Burns v. WD-40 Company*). The complaint seeks class action status and alleges that the Company misrepresented that its 2000 Flushes Bleach and 2000 Flushes Blue Plus Bleach automatic toilet bowl cleaners ( ATBCs ) are safe for plumbing systems and unlawfully omitted to advise consumers regarding the allegedly damaging effect the use of the ATBCs has on toilet parts made of plastic and rubber. This action is substantively similar to the *Drimmer v. WD-40 Company* case that was filed by the same plaintiff law firm in April 2006 in the United States District Court, Southern District of California. In August 2008, the Company defeated class certification in that case, a decision that was upheld by the Ninth Circuit Court of Appeals in September 2009, and the case was dismissed with prejudice in March 2010. As in the *Drimmer* case, the Company intends to vigorously defend against the *Burns* case. If, however, class action certification is granted in the *Burns* case, it is reasonably possible that the outcome could have a material adverse effect on the Company's consolidated financial position, results of operations and cash flows. There is not sufficient information available at this time to determine the likelihood that class certification will be granted or the extent of possible loss if class certification is granted.

Since 2004, the Company has been named as a defendant in lawsuits brought by a group of attorneys on behalf of individual plaintiffs who assert that exposure to products that allegedly contain benzene is a cause of certain cancers (the Benzene Lawsuits ). The Company is one of many defendants in these legal proceedings whose products are alleged to contain benzene. However, the Company specifies that its suppliers provide constituent ingredients free of benzene. The Company believes its products have always been formulated without containing benzene and the facts developed in litigation to date support this position. The plaintiffs in the Benzene Lawsuits typically seek damages in unspecified amounts for injuries or death attributable to a form of cancer linked to exposure to benzene. The Company is unable to quantify the total amount of damages asserted by the plaintiffs in the Benzene Lawsuits. Except for self-insured retention amounts applicable to each separately filed lawsuit, the Company expects that the Benzene Lawsuits will be adequately covered by insurance and will not have a material impact on the Company's consolidated financial position or results of operations. The Company is vigorously defending these lawsuits. The Company is unable to assess the expected cost of defense of these lawsuits in future periods. If the number of Benzene Lawsuits filed against the Company increases, it is reasonably possible that such costs of defense may materially affect the Company's consolidated financial position, results of operations and cash flows in future periods.

**Table of Contents****Item 4. Removed and Reserved****Executive Officers of the Registrant**

The following table sets forth the names, ages, year elected to current position and current titles of the executive officers of the Company as of August 31, 2010:

<b>Name, Age and Year Elected to Current Position</b>	<b>Title</b>
Garry O. Ridge	54 1997 President and Chief Executive Officer
Jay W. Rembolt	59 2008 Vice President, Finance and Chief Financial Officer
Michael J. Irwin	47 2008 Executive Vice President, Strategic Development
Graham P. Milner	56 2002 Executive Vice President, Global Development and Chief Branding Officer
Michael L. Freeman	57 2002 Division President, The Americas
Geoffrey J. Holdsworth	48 1996 Managing Director, Asia Pacific
William B. Noble	52 1996 Managing Director, WD-40 Company Ltd. (U.K.)

Mr. Ridge joined the Company's Australian subsidiary, WD-40 Company (Australia) Pty. Limited, in 1987 as Managing Director and held several senior management positions prior to his election as Chief Executive Officer in 1997.

Mr. Rembolt joined the Company in December 1997 as Manager, Financial Services. He was promoted to Controller in May 1999 and to Vice President, Finance/Controller in May 2001. Mr. Rembolt was then promoted to his current position of Vice President, Finance and Chief Financial Officer in April 2008.

Mr. Irwin joined the Company in May 1995 as Director of U.S. Marketing, and later served as Director of Marketing, The Americas. In April 1998, he was then promoted to Vice President, Marketing, The Americas. He was named Senior Vice President, Chief Financial Officer and Treasurer in May 2001 and in September 2002, he was named Executive Vice President. Mr. Irwin was named Executive Vice President, Strategic Development in April 2008.

Mr. Milner joined the Company in 1992 as International Director. He was appointed Vice President, Sales and Marketing, The Americas, in March 1997 and then Senior Vice President, The Americas, in April 1998. He was then named Executive Vice President, Global Development and Chief Branding Officer in September of 2002.

Mr. Freeman joined the Company in 1990 as Director of Marketing and was named Director of Operations in 1994. He became Vice President, Administration and Chief Information Officer in December 1996, was promoted to Senior Vice President, Operations in September 2001, and was named Division President, The Americas, in September 2002.

Mr. Holdsworth joined the Company's Australia subsidiary, WD-40 Company (Australia) Pty. Limited, in 1996 as General Manager and was named Managing Director, Asia Pacific in 1997.

Mr. Noble joined the Company's Australia subsidiary, WD-40 Company (Australia) Pty. Limited, in 1993 as International Marketing Manager for the Asia Region. He was appointed Managing Director, WD-40 Company Ltd. (U.K.) in December 1996.

All executive officers hold office at the discretion of the Board of Directors.

**Table of Contents****PART II****Item 5. Market For Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The Company's common stock is traded on the NASDAQ Global Select Market. The following table sets forth the high and low sales prices per share of the Company's common stock for each of the quarterly periods indicated as reported by the NASDAQ Global Select Market.

	Fiscal Year 2010			Fiscal Year 2009		
	High	Low	Dividend	High	Low	Dividend
First Quarter	\$ 34.55	\$ 26.23	\$ 0.25	\$ 40.00	\$ 23.06	\$ 0.25
Second Quarter	\$ 34.53	\$ 29.30	\$ 0.25	\$ 28.88	\$ 23.06	\$ 0.25
Third Quarter	\$ 36.65	\$ 31.13	\$ 0.25	\$ 28.24	\$ 21.81	\$ 0.25
Fourth Quarter	\$ 37.50	\$ 30.11	\$ 0.25	\$ 31.78	\$ 25.37	\$ 0.25

On October 12, 2010, the last reported sales price of the Company's common stock on the NASDAQ Global Select Market was \$39.03 per share, and there were 16,732,665 shares of common stock outstanding held by approximately 1,104 holders of record.

The Company has historically paid regular quarterly cash dividends on its common stock. On October 1, 2010, the Board of Directors declared an 8% increase in the regular quarterly cash dividend, increasing it from \$0.25 per share to \$0.27 per share. The dividend is payable on October 29, 2010 to shareholders of record on October 14, 2010.

The Board of Directors of the Company presently intends to continue the payment of regular quarterly cash dividends on the Company's common stock. The Company's ability to pay dividends could be affected by future business performance, liquidity, capital needs, alternative investment opportunities and loan covenants.

**Item 6. Selected Financial Data**

The following data has been derived from the Company's audited consolidated financial statements. The data should be read in conjunction with such consolidated financial statements and other financial information included elsewhere in this report (in thousands, except per share amounts):

	As of and for the Fiscal Year Ended August 31,				
	2010	2009	2008	2007	2006
Net sales	\$ 321,516	\$ 292,002	\$ 317,118	\$ 307,816	\$ 286,916
Cost of products sold	156,210	147,469	168,848	158,954	148,516
Gross profit	165,306	144,533	148,270	148,862	138,400
Operating expenses	110,108	104,688	105,574	99,846	92,378
Income from operations	55,198	39,845	42,696	49,016	46,022
Interest and other expense, net	(1,641)	(1,521)	(697)	(1,841)	(3,164)
Income before income taxes	53,557	38,324	41,999	47,175	42,858
Provision for income taxes	17,462	12,037	14,377	15,641	14,746

## **Table of Contents**

### **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Management's Discussion and Analysis of Financial Condition and Results of Operations ( MD&A ) is designed to provide the reader of the Company's financial statements with a narrative from the perspective of management on the Company's financial condition, results of operations, liquidity and certain other factors that may affect future results. This MD&A includes the following sections: Overview, Highlights, Results of Operations, Liquidity and Capital Resources, Critical Accounting Policies, Recently Issued Accounting Standards and Related Parties. The MD&A is provided as a supplement to, and should be read in conjunction with, the Company's audited consolidated financial statements and the related notes included in Item 15 of this report.

In order to show the impact of changes in foreign currency exchange rates on our consolidated results of operations, we have included constant currency disclosures in the Overview and Results of Operations sections which follow. Constant currency disclosures represent the translation of our current fiscal year revenues and expenses from the functional currencies of our subsidiaries to U.S. dollars using the exchange rates in effect for the prior fiscal year.

#### **Overview**

##### ***The Company***

WD-40 Company, based in San Diego, California, is a global consumer products company dedicated to delivering unique, high value and easy-to-use solutions for a wide variety of maintenance needs of doer and on-the-job users by leveraging and building the brand fortress of the Company. We market three multi-purpose maintenance product brands, WD-40®, 3-IN-ONE® and BLUE WORKS®, and the following eight homecare and cleaning product brands: X-14® mildew stain remover and automatic toilet bowl cleaners, 2000 Flushes® automatic toilet bowl cleaners, Carpet Fresh® and No Vac® rug and room deodorizers, Spot Shot® aerosol and liquid carpet stain removers, 1001® carpet and household cleaners and rug and room deodorizers and Lava® and Solvol® heavy-duty hand cleaners.

Our brands are sold in various locations around the world. Multi-purpose maintenance products are sold worldwide in markets throughout North, Central and South America, Asia, Australia and the Pacific Rim, Europe, the Middle East and Africa. Homecare and cleaning products are sold primarily in North America, the U.K., Australia and the Pacific Rim. We sell our products primarily through mass retail and home center stores, warehouse club stores, grocery stores, hardware stores, automotive parts outlets and industrial distributors and suppliers.

#### **Highlights**

*Consolidated net sales increased 10% and consolidated net income increased 37% for fiscal year 2010 compared to the prior fiscal year. Changes in foreign currency exchange rates had a favorable impact on net sales and net income for fiscal year 2010. On a constant currency basis, net sales would have increased 9% and net income would have increased 35% for fiscal year 2010 compared to the prior fiscal year.*

*Sales of multi-purpose maintenance products increased 15% for fiscal year 2010 compared to the prior fiscal year due to sales growth across all segments. Sales in the Americas segment increased 13% primarily due to a 13% increase in the U.S. as a result of increased volume through existing distribution channels, new distribution and the timing of promotional activities. Sales in the Europe segment increased 16% primarily due to the continued growth of the WD-40 Smart Straw product and new distribution. Sales in the Asia-Pacific segment increased 19% due to significant promotional activities and the favorable impact of changes in foreign currency exchange rates.*

**Table of Contents**

*Sales of homecare and cleaning products decreased 5% for fiscal year 2010 compared to the prior fiscal year due to sales decreases in the Americas and Europe segments for such products. These decreases were the result of several factors which primarily occurred in the prior fiscal year but continued to negatively impact sales of these products in fiscal year 2010. These include items such as lost distribution and discontinuance of certain product offerings. Although our focus has shifted to our multi-purpose maintenance products, we were still able to either stabilize or increase the sales of certain of our homecare and cleaning products in fiscal year 2010 by pursuing our niche markets or expanding our distribution channels.*

*Our gross margin as a percentage of net sales increased to 51.4% for fiscal year 2010 from 49.5% for the prior fiscal year primarily due to the positive impacts of lower advertising and promotional discounts, lower costs of petroleum-based materials, sourcing changes, price increases and sales mix changes. These decreases were all partially offset by increased costs for aerosol cans resulting from increased tinplate costs.*

Our core strategic initiatives and the areas where we will continue to focus our time and resources in future periods include: (i) expanding geographically in countries where end users could benefit from or continue to benefit from using the WD-40 brand; (ii) maximizing our position in the multi-purpose maintenance products line by focusing our research and development resources to leverage our multi-purpose maintenance products and adjacent categories; (iii) developing our business through acquisitions, joint ventures and/or other strategic partnerships; and (iv) leveraging the trust the WD-40 brand has established with its wide user base to grow our revenues and profits.

**Results of Operations*****Fiscal Year Ended August 31, 2010 Compared to Fiscal Year Ended August 31, 2009******Operating Items***

The following table summarizes operating data for our consolidated operations (in thousands, except percentages and per share amounts):

	<b>Fiscal Year Ended August 31,</b>			
	<b>2010</b>	<b>2009</b>	<b>Change from Prior Year</b>	
			<b>Dollars</b>	<b>Percent</b>
Net sales:				
Multi-purpose maintenance products	\$ 258,095	\$ 225,098	\$ 32,997	15%
Homecare and cleaning products	63,421	66,904	(3,483)	(5)%
Total net sales	321,516	292,002	29,514	10%
Cost of products sold	156,210	147,469	8,741	6%
Gross profit	165,306	144,533	20,773	14%
Operating expenses	110,108	104,688	5,420	5%
Income from operations	\$ 55,198	\$ 39,845	\$ 15,353	39%
Net income	\$ 36,095	\$ 26,287	\$ 9,808	37%
Earnings per common share diluted	\$ 2.15	\$ 1.58	\$ 0.57	36%

**Table of Contents****Net Sales by Segment**

The following table summarizes net sales by segment (in thousands, except percentages):

	Fiscal Year Ended August 31, Change from Prior Year			
	2010	2009	Dollars	Percent
Americas	\$ 179,867	\$ 168,381	\$ 11,486	7%
Europe	110,367	97,518	12,849	13%
Asia-Pacific	31,282	26,103	5,179	20%
	\$ 321,516	\$ 292,002	\$ 29,514	10%

**Americas**

The following table summarizes net sales by product line for the Americas segment (in thousands, except percentages):

	Fiscal Year Ended August 31, Change from Prior Year			
	2010	2009	Dollars	Percent
Multi-purpose maintenance products	\$ 129,834	\$ 115,095	\$ 14,739	13%
Homecare and cleaning products	50,033	53,286	(3,253)	(6)%
	\$ 179,867	\$ 168,381	\$ 11,486	7%
<b>% of consolidated net sales</b>	<b>56%</b>	<b>58%</b>		

Sales in the Americas segment, which includes the U.S., Canada and Latin America, increased to \$179.9 million, up \$11.5 million, or 7%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year. Changes in foreign currency exchange rates did not have a material impact on sales for the fiscal year ended August 31, 2010 compared to the prior fiscal year.

Sales of multi-purpose maintenance products in the Americas segment increased \$14.7 million, or 13%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year. Sales of WD-40 products in the Americas segment increased \$14.3 million, or 13%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year due to improved economic conditions, increased volume through existing distribution channels, new distribution and increased promotional activities.

Sales of homecare and cleaning products in the Americas segment decreased \$3.3 million, or 6%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year. Although our focus has shifted to our multi-purpose maintenance products, we were still able to either stabilize or increase the sales of certain of our homecare and cleaning products in fiscal year 2010 by pursuing our niche markets or expanding our distribution channels. However, this increase was more than offset by the decrease in sales of all other homecare and cleaning product brands in the Americas segment. The largest decline came from the automatic toilet bowl cleaners which decreased \$1.9 million, or 10%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year due primarily to the effect of competitive factors and declining categories which was partially offset by new distribution outside of the grocery channel. The decline in sales of the Carpet Fresh brand products and X-14 mildew stain remover, which totaled \$1.8 million, or 18%, was the result of several factors, including lost distribution, the discontinuation of certain product offerings, the effect of competitive factors and our strategic decision to focus our research and development resources on our multi-purpose maintenance products and not on our homecare and cleaning products.

**Table of Contents**

For the Americas segment, 83% of sales came from the U.S. and 17% of sales came from Canada and Latin America combined for the fiscal year ended August 31, 2010, compared to the distribution for the fiscal year ended August 31, 2009 when 84% of sales came from the U.S. and 16% of sales came from Canada and Latin America combined.

**Europe**

The following table summarizes net sales by product line for the Europe segment (in thousands, except percentages):

	<b>Fiscal Year Ended August 31,</b>			
			<b>Change from Prior Year</b>	
	<b>2010</b>	<b>2009</b>	<b>Dollars</b>	<b>Percent</b>
Multi-purpose maintenance products	\$ 102,195	\$ 88,153	\$ 14,042	16%
Homecare and cleaning products	8,172	9,365	(1,193)	(13)%
	<b>\$ 110,367</b>	<b>\$ 97,518</b>	<b>\$ 12,849</b>	<b>13%</b>
<b>% of consolidated net sales</b>	<b>34%</b>	<b>33%</b>		

Sales in the Europe segment increased to \$110.4 million, up \$12.8 million, or 13%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year. Changes in foreign currency exchange rates did not have a material impact on sales for the fiscal year ended August 31, 2010 compared to the prior fiscal year.

The countries in Europe where we sell through a direct sales force include the U.K., Italy, France, Iberia (which includes Spain and Portugal) and the Germanics sales region (which includes Germany, Austria, Denmark, Holland and Switzerland). Overall, sales from these direct markets increased \$6.6 million, or 10%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year and accounted for 67% of the Europe segment's sales for the fiscal year ended August 31, 2010 compared to 69% for the prior fiscal year. We experienced sales growth throughout most of the Europe segment for the fiscal year ended August 31, 2010 compared to the prior fiscal year, with percentage increases in sales as follows: Italy, 30%; Iberia, 26%; Germanics sales region, 20%; and France, 19%. Partially offsetting these sales increases was a sales decrease in the U.K. of 10% for the fiscal year ended August 31, 2010 compared to the prior fiscal year. We expect to launch Blue Works in selected markets in Europe during fiscal year 2011.

The sales growth throughout the Europe segment, where we sell direct, was primarily due to the continued growth of the WD-40 Smart Straw product and new distribution. Other factors that positively impacted sales growth were improved economic conditions, increased volume through existing distribution channels and increased promotional activities. In addition, France and Iberia benefited from the continued growth of the 3-IN-ONE product line. The sales decline in the U.K. was primarily due to lost distribution and the effect of competitive factors. In line with our core strategic initiatives, we will continue to focus our research and development resources on our multi-purpose maintenance products throughout Europe.

In the countries in which we sell through local distributors, sales increased \$6.2 million, or 21%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year, driven by sales increases of the WD-40 products in Northern Europe and the Middle East. The distributor markets accounted for 33% of the total Europe segment sales for the fiscal year ended August 31, 2010, compared to 31% for the prior fiscal year.

**Table of Contents**Asia-Pacific

The following table summarizes net sales by product line for the Asia-Pacific segment (in thousands, except percentages):

	Fiscal Year Ended August 31,			
	2010	2009	Change from Prior Year	
			Dollars	Percent
Multi-purpose maintenance products	\$ 26,066	\$ 21,850	\$ 4,216	19%
Homecare and cleaning products	5,216	4,253	963	23%
	\$ 31,282	\$ 26,103	\$ 5,179	20%
<b>% of consolidated net sales</b>	<b>10%</b>	<b>9%</b>		

In the Asia-Pacific segment, which includes Australia and Asia, sales increased to \$31.3 million, up \$5.2 million, or 20%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year. Changes in foreign currency exchange rates compared to the prior fiscal year had a favorable impact on sales. Sales for the fiscal year ended August 31, 2010 translated at the exchange rates in effect for the prior fiscal year would have been \$29.1 million in the Asia-Pacific segment. Thus, on a constant currency basis, sales would have increased by \$3.0 million, or 12%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year.

Sales in Asia, which represented 62% of the total sales in the Asia-Pacific segment, increased \$2.5 million, or 15%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year primarily due to improved economic conditions throughout the Asia region. The distributor markets in the Asia region experienced a sales increase of \$1.2 million, or 10%, due to higher sales of multi-purpose maintenance products throughout the distributor markets, including those in the Philippines, Taiwan, Indonesia, Hong Kong and Singapore. Sales in China increased \$1.3 million, or 28%, due to improved economic conditions, significant promotional activities and the launch of a new product in the 3-IN-ONE product line during the fiscal year ended August 31, 2010.

Sales in Australia increased \$2.7 million, or 29%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year primarily due to the favorable impact of changes in foreign currency exchange rates. On a constant currency basis, sales would have increased \$0.5 million, or 6%, for the fiscal year ended August 31, 2010 compared to the prior fiscal year primarily due to increased marketing and promotional activities.

**Gross Profit**

Gross profit was \$165.3 million, which yielded a gross margin of 51.4% of net sales, for the fiscal year ended August 31, 2010 compared to \$144.5 million, or 49.5% of net sales, for the prior fiscal year. Cost savings from product conversions and sourcing changes on a combined basis and the lower costs for petroleum-based materials positively impacted gross margin by 0.6 percentage points and 0.5 percentage points, respectively, for the fiscal year ended August 31, 2010. In addition, worldwide price increases implemented during the first quarter of fiscal year 2009 added 0.4 percentage points to our gross margin for the fiscal year ended August 31, 2010.

In general, the timing of advertising, promotional and other discounts, which are recorded as a reduction to sales, as well as shifts in product and customer mix, may cause fluctuations in gross margin from period to period. Examples of advertising, promotional and other discounts include coupon redemptions, consideration and allowances given to retailers for space and/or favorable display positions in their stores, co-operative advertising and promotional activity, volume discounts and other one-time or ongoing incentives. During the fiscal year ended August 31, 2010, advertising, promotional and other discounts decreased compared to the prior fiscal year, positively impacting gross margin by 0.8 percentage points. The decrease in such discounts was due to the fact that a lower percentage of sales during the fiscal year ended August 31, 2010 was subject to promotional allowances compared to the prior fiscal year. In addition, sales mix favorably impacted gross margin by 0.6 percentage points.

---

**Table of Contents**

Our gross margin for the fiscal year ended August 31, 2010 was also positively impacted by 0.1 percentage points due to losses associated with VML Company L.L.C. ( VML ), a former related party, which were incurred in fiscal year 2009 but not in the current fiscal year.

Partially offsetting the aforementioned favorable impacts to gross margin were higher costs for aerosol cans, which negatively affected our gross margin by 1.1 percentage points for the fiscal year ended August 31, 2010. We began to experience a significant increase in the cost of aerosol cans during the second quarter of fiscal year 2009, due to the cost of tinplate used to manufacture such cans. Although the cost of aerosol cans decreased in fiscal year 2010, the decrease was minimal. Tinplate pricing is generally set annually and is independent of the movements in the cost of steel on the spot market.

Note that our gross profits and gross margins may not be comparable to those of other reporting entities, since some entities include all costs related to distribution of their products in cost of products sold, whereas we exclude the portion associated with amounts paid to third parties for distribution to our customers from our contract packagers and include these costs in selling, general and administrative expenses. These costs totaled \$13.6 million and \$13.3 million for the fiscal years ended August 31, 2010 and 2009, respectively.

**Selling, General and Administrative Expenses**

Selling, general and administrative ( SG&A ) expenses for the fiscal year ended August 31, 2010 increased \$9.2 million, or 12%, to \$87.3 million from \$78.1 million for the prior fiscal year. As a percentage of net sales, SG&A expenses increased slightly to 27.2% for the fiscal year ended August 31, 2010 from 26.7% for the prior fiscal year. The increase in SG&A expenses was primarily due to higher employee-related costs year over year. Employee-related costs, which include salaries, bonuses, profit sharing and other fringe benefits, increased \$8.3 million for the fiscal year ended August 31, 2010 compared to the prior fiscal year due primarily to significantly higher bonus expense. Most of our regions met or exceeded sales and other profit performance targets for fiscal year 2010 whereas achievement of such targets in the prior fiscal year was unusually low. As a result, bonus expense for the fiscal year ended August 31, 2010 reflects these higher levels of achievement. Changes in foreign currency exchange rates increased SG&A expenses by \$0.7 million for the fiscal year ended August 31, 2010 compared to the prior fiscal year. Also contributing to the higher SG&A expenses in fiscal year 2010 as compared to fiscal year 2009 was a \$0.9 million increase in travel and entertainment expenses due to improved business conditions. Additionally, other miscellaneous expenses when combined increased \$0.2 million year over year. Partially offsetting these increases was a decrease in professional services costs totaling \$0.5 million due primarily to lower legal costs for the fiscal year ended August 31, 2010 compared to the prior fiscal year. In addition, bad debt expense decreased \$0.4 million due primarily to specific accounts receivable allowances recorded by our international subsidiaries during fiscal year 2009 which were not repeated during the fiscal year ended August 31, 2010.

We continued our research and development investment in support of our focus on innovation and renovation of our products. Research and development costs for the fiscal year ended August 31, 2010 and 2009 were \$5.3 million and \$4.8 million, respectively. Our product development team, Team Tomorrow, engages in consumer research, product development, current product improvement and testing activities. This team leverages its development capabilities by partnering with a network of outside resources including our current and prospective outsource suppliers.

**Advertising and Sales Promotion Expenses**

Advertising and sales promotion expenses for the fiscal year ended August 31, 2010 increased \$2.6 million, or 13%, to \$22.1 million from \$19.5 million for the prior fiscal year. As a percentage of net sales, these expenses increased to 6.9% for the fiscal year ended August 31, 2010 from 6.7% for the prior fiscal year. The increase in advertising and sales promotion expenses was primarily due to the timing of sales promotions and the increased level of investment in advertising activities across all segments. Investment in global advertising and sales promotion expenses for fiscal year 2011 is expected to be in the range of 6.5% to 8.0% of net sales.

**Table of Contents**

As a percentage of net sales, advertising and sales promotion expenses may fluctuate period to period based upon the type of marketing activities we employ and the period in which the costs are incurred. The costs of certain promotional activities are required to be recorded as a reduction to sales, while others are recorded as advertising and sales promotion expenses. Total promotional costs recorded as a reduction to sales were \$18.4 million for each of the fiscal years ended August 31, 2010 and 2009. Therefore, our total investment in advertising and sales promotion activities totaled \$40.5 million and \$37.9 million for the fiscal years ended August 31, 2010 and 2009, respectively.

**Amortization of Definite-lived Intangible Assets Expense**

Amortization of our definite-lived intangible assets was \$0.7 million and \$0.5 million for the fiscal years ended August 31, 2010 and 2009, respectively. The increase in amortization for the fiscal year ended August 31, 2010 as compared to the prior fiscal year relates to the Carpet Fresh and X-14 trade names which were changed to definite-lived intangible assets from indefinite-lived intangible assets at August 31, 2009. The amortization for the fiscal year ended August 31, 2009 related only to the non-contractual customer relationships included in the 1001 acquisition completed by the Europe segment in fiscal year 2004. Beginning September 1, 2009, the Carpet Fresh and X-14 trade names are being amortized on a straight-line basis over their estimated useful lives of thirteen and eight years, respectively. The non-contractual customer relationships intangible asset is recorded and amortized in Pounds Sterling on a straight-line basis over its estimated eight-year life and is converted to U.S. dollars for reporting purposes. Therefore, a portion of the fluctuation in amortization from period to period is the result of changes in foreign currency exchange rates.

**Impairment of Indefinite-lived Intangible Assets Expense**

During the quarter ended February 28, 2010, we performed our annual impairment tests of goodwill and indefinite-lived intangible assets. As a result of our annual impairment tests, no impairment charge was recorded for either our goodwill or any of our indefinite-lived intangible assets. However, as a result of the annual impairment tests that we performed during the fiscal year ended August 31, 2009, we recorded impairment charges totaling \$6.7 million to reduce the carrying value of our Carpet Fresh and X-14 indefinite-lived intangible assets to their estimated fair values. We subsequently determined that the Carpet Fresh and X-14 trade names were no longer indefinite-lived intangible assets. As a result, we reclassified them to definite-lived intangible assets effective August 31, 2009 and started to amortize them over their expected useful lives of thirteen and eight years, respectively, beginning September 1, 2009.

***Non-Operating Items***

The following table summarizes non-operating income and expenses for our consolidated operations (in thousands):

	<b>Fiscal Year Ended August 31,</b>		
	<b>2010</b>	<b>2009</b>	<b>Change</b>
Interest income	\$ 174	\$ 428	\$ (254)
Interest expense	\$ 1,726	\$ 2,492	\$ (766)
Other (expense) income, net	\$ (89)	\$ 543	\$ (632)
Provision for income taxes	\$ 17,462	\$ 12,037	\$ 5,425

**Interest Income**

Interest income decreased \$0.3 million for the fiscal year ended August 31, 2010 compared to the prior fiscal year due primarily to lower interest rates year over year.

## Table of Contents

### Interest Expense

Interest expense decreased by \$0.8 million for fiscal year 2010 compared to the prior fiscal year due primarily to the lower principal balance on long-term borrowings resulting from the annual \$10.7 million principal payment made in October 2009.

### Other (Expense) Income, Net

Other (expense) income, net decreased by \$0.6 million for the fiscal year ended August 31, 2010 compared to the prior fiscal year due primarily to lower foreign currency exchange gains in the Europe segment, specifically related to the Euro and Pound Sterling.

### Provision for Income Taxes

The provision for income taxes was 32.6% of income before income taxes for the fiscal year ended August 31, 2010 compared to 31.4% for the prior fiscal year. The effective tax rate was lower than normal for both fiscal years. For the fiscal year ended August 31, 2010, the effective tax rate was low due to the release of liabilities associated with unrecognized tax benefits that resulted from the conclusion of the audit of our fiscal year 2008 federal income tax return, the expiration of certain statutes due to certain tax years being closed and other provision adjustments that we recorded during the third quarter of fiscal year 2010 related to the filing of our federal and state tax returns. For the fiscal year ended August 31, 2009, the effective tax rate was lower than normal primarily due to a one time California tax law change that occurred in the second quarter of fiscal year 2009. This law change caused a revaluation of our deferred tax assets and liabilities that resulted in a tax benefit of \$0.5 million in fiscal year 2009.

### Net Income

Net income was \$36.1 million, or \$2.15 per common share on a fully diluted basis, for fiscal year 2010 compared to \$26.3 million, or \$1.58 per common share on a fully diluted basis, for the prior fiscal year. Changes in foreign currency exchange rates year over year had a favorable impact of \$0.5 million on net income for fiscal year 2010. Thus, on a constant currency basis, net income for fiscal year 2010 would have been \$35.6 million.

### *Fiscal Year Ended August 31, 2009 Compared to Fiscal Year Ended August 31, 2008*

### Operating Items

The following table summarizes operating data for our consolidated operations (in thousands, except percentages and per share amounts):

	Fiscal Year Ended August 31,			
	2009	2008	Change from Prior Year	
			Dollars	Percent
Net sales:				
Multi-purpose maintenance products	\$ 225,098	\$ 235,898	\$ (10,800)	(5)%
Homecare and cleaning products	66,904	81,220	(14,316)	(18)%
Total net sales	292,002	317,118	(25,116)	(8)%
Cost of products sold	147,469	168,848	(21,379)	(13)%
Gross profit	144,533	148,270	(3,737)	(3)%
Operating expenses	104,688	105,574	(886)	(1)%
Income from operations	\$ 39,845	\$ 42,696	\$ (2,851)	(7)%
Net income	\$ 26,287	\$ 27,622	\$ (1,335)	(5)%
Earnings per common share diluted	\$ 1.58	\$ 1.64	\$ (0.06)	(4)%

**Table of Contents****Net Sales by Segment**

The following table summarizes net sales by segment (in thousands, except percentages):

	Fiscal Year Ended August 31, Change from Prior Year			
	2009	2008	Dollars	Percent
Americas	\$ 168,381	\$ 176,885	\$ (8,504)	(5)%
Europe	97,518	110,504	(12,986)	(12)%
Asia-Pacific	26,103	29,729	(3,626)	(12)%
	\$ 292,002	\$ 317,118	\$ (25,116)	(8)%

**Americas**

The following table summarizes net sales by product line for the Americas segment (in thousands, except percentages):

	Fiscal Year Ended August 31, Change from Prior Year			
	2009	2008	Dollars	Percent
Multi-purpose maintenance products	\$ 115,095	\$ 111,368	\$ 3,727	3%
Homecare and cleaning products	53,286	65,517	(12,231)	(19)%
	\$ 168,381	\$ 176,885	\$ (8,504)	(5)%
<b>% of consolidated net sales</b>	<b>58%</b>	<b>56%</b>		

Sales in the Americas segment, which includes the U.S., Canada and Latin America, decreased to \$168.4 million, down \$8.5 million, or 5%, for fiscal year 2009 compared to fiscal year 2008. Changes in foreign currency exchange rates in Canada for fiscal year 2009 compared to fiscal year 2008 had an unfavorable impact on sales. Sales in the Americas segment for fiscal year 2009 translated at the exchange rates in effect for fiscal year 2008 would have been \$170.3 million. Thus, on a constant currency basis, sales would have decreased by \$6.6 million, or 4%, for fiscal year 2009 compared to fiscal year 2008.

Sales of multi-purpose maintenance products in the Americas segment for fiscal year 2009 increased \$3.7 million, or 3%, compared to fiscal year 2008. This increase was primarily due to a 4% sales increase in the U.S. as a result of sales price increases and additional promotional activities during the first quarter of fiscal year 2009, partially offset by the negative impact of customers reducing inventory levels during the second and third quarters of the fiscal year in response to general economic conditions. Canada experienced a 12% sales decrease for fiscal year 2009 compared to fiscal year 2008 primarily due to the unfavorable impact of changes in foreign currency exchange rates. Latin America experienced a 6% sales increase for fiscal year 2009 compared to fiscal year 2008 due to sales price increases, promotional activities and increased distribution with new customers.

Sales of homecare and cleaning products in the Americas segment decreased \$12.2 million, or 19%, for fiscal year 2009 compared to fiscal year 2008 due to sales declines across all homecare and cleaning brands throughout the Americas segment. The most significant decreases related to sales of Carpet Fresh and automatic toilet bowl cleaners which were down 33% and 23%, respectively, compared to fiscal year 2008. Sales declines in homecare and cleaning product brands were the result of several factors, including lost distribution, the effect of competitive factors and challenges due to general economic conditions.

For the Americas segment, 84% of sales came from the U.S., and 16% of sales came from Canada and Latin America combined for each of fiscal years 2009 and 2008.

**Table of Contents**Europe

The following table summarizes net sales by product line for the Europe segment (in thousands, except percentages):

	<b>Fiscal Year Ended August 31,</b>			
	<b>2009</b>	<b>2008</b>	<b>Change from Prior Year</b>	
			<b>Dollars</b>	<b>Percent</b>
Multi-purpose maintenance products	\$ 88,153	\$ 99,826	\$ (11,673)	(12)%
Homecare and cleaning products	9,365	10,678	(1,313)	(12)%
	<b>\$ 97,518</b>	<b>\$ 110,504</b>	<b>\$ (12,986)</b>	<b>(12)%</b>
<b>% of consolidated net sales</b>	<b>33%</b>	<b>35%</b>		

Sales in the Europe segment decreased to \$97.5 million, down \$13.0 million, or 12%, for fiscal year 2009 compared to fiscal year 2008. Changes in foreign currency exchange rates for fiscal year 2009 compared to fiscal year 2008 had an unfavorable impact on sales. Sales for fiscal year 2009 translated at the exchange rates in effect for fiscal year 2008 would have been \$123.4 million in the Europe segment. Thus, on a constant currency basis, sales would have increased by \$12.9 million, or 12%, for fiscal year 2009 compared to fiscal year 2008.

The countries in Europe where we sell through a direct sales force include the U.K., Italy, France, Iberia (which includes Spain and Portugal), and the Germanics sales region (which includes Germany, Austria, Denmark, Holland and Switzerland). Overall, sales from these direct markets decreased \$8.2 million, or 11%, for fiscal year 2009 compared to fiscal year 2008 and accounted for 69% of the Europe segment's sales, compared to 68% for fiscal year 2008. For fiscal year 2009, we experienced sales declines throughout the Europe segment, with percentage decreases in sales as follows: Italy, 18%; Iberia, 18%; U.K., 12%; Germanics sales region, 11%; and France, 1%.

While most of the countries throughout the Europe segment experienced sales declines during fiscal year 2009 as customers reduced inventory levels in response to general economic conditions, the U.K. and France, which represented 37% and 19% of the total direct sales in the Europe segment, respectively, experienced sales growth of 11% and 12%, respectively, in their respective local currencies for fiscal year 2009 compared to fiscal year 2008. The sales growth in the U.K. was due to increased sales across all brands, which include WD-40, 3-IN-ONE and 1001, due to the timing of promotional activities. The sales growth in France was driven by the continued sales growth of WD-40 Smart Straw and the 3-IN-ONE Pro product line. In addition, both the U.K. and France benefitted from new distribution gained during fiscal year 2009 compared to fiscal year 2008. However, the unfavorable impact of changes in foreign currency exchange rates year over year more than offset the sales growth in local currencies in the U.K. and France.

In the countries in which we sell through local distributors, sales decreased \$4.8 million, or 14%, for fiscal year 2009 compared to fiscal year 2008 due to the impact of customers across all trade channels reducing inventory levels, particularly during the second and third quarters of fiscal year 2009, in response to general economic conditions, the timing of promotional activities and the unfavorable impact of changes in foreign currency exchange rates year over year. The distributor markets accounted for 31% of the total Europe segment sales for fiscal year 2009, compared to 32% for fiscal year 2008.

**Table of Contents**Asia-Pacific

The following table summarizes net sales by product line for the Asia-Pacific segment (in thousands, except percentages):

	<b>Fiscal Year Ended August 31,</b>			
	<b>2009</b>	<b>2008</b>	<b>Change from Prior Year</b>	
			<b>Dollars</b>	<b>Percent</b>
Multi-purpose maintenance products	\$ 21,850	\$ 24,704	\$ (2,854)	(12)%
Homecare and cleaning products	4,253	5,025	(772)	(15)%
	<b>\$ 26,103</b>	<b>\$ 29,729</b>	<b>\$ (3,626)</b>	<b>(12)%</b>
<b>% of consolidated net sales</b>	<b>9%</b>	<b>9%</b>		

In the Asia-Pacific segment, which includes Australia and Asia, sales decreased to \$26.1 million, down \$3.6 million, or 12%, for fiscal year 2009 compared to fiscal year 2008. Changes in foreign currency exchange rates for fiscal year 2009 compared to fiscal year 2008 had an unfavorable impact on sales. Sales for fiscal year 2009 translated at the exchange rates in effect for fiscal year 2008 would have been \$28.3 million in the Asia-Pacific segment. Thus, on a constant currency basis, sales would have decreased by \$1.4 million, or 5%, for fiscal year 2009 compared to fiscal year 2008.

Sales in Asia, which represented 64% of total sales in the Asia-Pacific segment, decreased \$2.1 million, or 11%, for fiscal year 2009 compared to fiscal year 2008 primarily due to lower sales of multi-purpose maintenance products across most of the Asia region, including China, Indonesia, Singapore, Malaysia and Taiwan. Sales in China decreased by \$1.0 million, or 17%, representing 46% of the total decrease in the Asia region, while sales across the rest of the Asia region decreased 9%. Although China and many of the markets throughout the Asia region experienced strong sales during the first quarter of fiscal year 2009, they were unable to fully recover from the sales declines experienced during the remainder of the fiscal year due to the negative impact of general economic conditions.

Sales in Australia decreased \$1.5 million, or 14%, for fiscal year 2009 compared to fiscal year 2008 primarily due to the unfavorable impact of changes in foreign currency exchange rates. On a constant currency basis, sales would have increased \$0.8 million, or 7%, for fiscal year 2009 compared to fiscal year 2008 due to sales price increases implemented during the first quarter of fiscal year 2009, increased promotional activities and new distribution across all trade channels.

**Gross Profit**

Gross profit was \$144.5 million, which yielded a gross margin of 49.5% of net sales, for fiscal year 2009, compared to \$148.3 million, or 46.8% of net sales, for fiscal year 2008. The increase in gross margin was due to worldwide sales price increases implemented during the first quarter of fiscal year 2009, partially offset by higher costs of products, the timing of advertising, promotional, and other discounts, and the closeout of slow moving inventory during fiscal year 2009.

To combat the higher costs of products, we implemented worldwide sales price increases on certain products which added approximately 4.7 percentage points to our gross margin for fiscal year 2009.

The increase in cost of products, which had a negative impact on gross margin of 1.4 percentage points, was due primarily to the increase in costs for components and raw materials, including aerosol cans, during fiscal year 2009. The higher costs for aerosol cans negatively impacted our gross margin by 1.5 percentage points for fiscal year 2009. We began to experience a significant increase in the cost of aerosol cans during the second quarter of fiscal year 2009 primarily due to the cost of tinplate used to manufacture such cans. Partially offsetting these cost

---

**Table of Contents**

increases were the lower costs for petroleum-based products, which positively impacted our gross margin by 0.1 percentage points. In addition, changes in foreign currency exchange rates in the Europe segment negatively impacted our gross margin by 0.6 percentage points, while cost benefits related to product conversions and sourcing changes in the U.S. during the fourth quarter of fiscal year 2008 positively impacted gross margin by 0.8 percentage points during fiscal year 2009.

In general, shifts in product and customer mix, as well as the timing of advertising, promotional and other discounts, which are recorded as a reduction to sales, may cause fluctuations in gross margin from period to period. Such shift in product and customer mix negatively impacted our gross margin by 0.4 percentage points for fiscal year 2009. Examples of advertising, promotional and other discounts include coupon redemptions, consideration and allowances given to retailers for space and/or favorable display positions in their stores, co-operative advertising and promotional activity, volume discounts and other one-time or ongoing incentives. During fiscal year 2009, advertising, promotional and other discounts increased compared to the prior fiscal year, negatively impacting gross margin by 0.1 percentage points. The increase in such discounts was due to the fact that a greater percentage of sales during fiscal year 2009 was subject to promotional allowances in response to general economic conditions.

Also negatively impacting our gross margin for fiscal year 2009 was the closeout of slow-moving inventory, which had a negative impact on gross margin of 0.3 percentage points.

Note that our gross profits and gross margins may not be comparable to those of other reporting entities, since some entities include all costs related to distribution of their products in cost of products sold, whereas we exclude the portion associated with amounts paid to third parties for distribution to our customers from our contract manufacturers and include these costs in selling, general and administrative expenses. These costs totaled \$13.3 million and \$18.1 million for the fiscal years ended August 31, 2009 and 2008, respectively.

**Selling, General and Administrative Expenses**

SG&A expenses for fiscal year 2009 decreased to \$78.1 million from \$83.8 million for fiscal year 2008. However, as a percentage of net sales, SG&A expenses increased to 26.7% for fiscal year 2009 from 26.4% for fiscal year 2008. The decrease in SG&A expenses was largely attributable to the impact of foreign currency translation and to lower freight costs. Changes in foreign currency exchange rates compared to fiscal year 2008 decreased SG&A expenses by \$7.8 million for fiscal year 2009. Thus, on a constant currency basis, SG&A expenses for fiscal year 2009 would have been \$85.9 million for an increase of \$2.1 million, or 3%, over fiscal year 2008. Freight costs decreased \$3.2 million due to reduced fuel costs, improved shipping efficiencies and lower sales revenue. Partially offsetting these decreases were increases in employee-related costs, research and development costs and other miscellaneous expenses. Employee-related costs, which include salaries, bonuses, profit sharing and other fringe benefits, increased \$4.1 million due to annual compensation increases and higher staffing levels primarily to support the growth of international operations. Research and development costs increased \$1.1 million due to the timing of new product development activity. Other miscellaneous expenses, including stock-based compensation, professional services costs and bad debt expense, increased by \$0.1 million.

We continued our research and development investment in support of our focus on innovation and renovation. Research and development costs were \$4.8 million for fiscal year 2009, compared to \$3.6 million for fiscal year 2008. This increase was due to our increased investment in research and development in support of our strategic initiative to maximize our position in the multi-purpose maintenance products segment by diverting our research and development resources from our homecare and cleaning products to our multi-purpose maintenance products. Our product development team, Team Tomorrow, engages in consumer research, product development, current product improvement and testing activities. This team leverages its development capabilities by partnering with a network of outside resources including our current and prospective outsource suppliers.

---

**Table of Contents**

**Advertising and Sales Promotion Expenses**

Advertising and sales promotion expenses decreased to \$19.5 million for fiscal year 2009 compared to \$19.8 million for fiscal year 2008. However, as a percentage of net sales, such expenses increased to 6.7% for fiscal year 2009 from 6.3% for fiscal year 2008. The decrease in these expenses was due to the timing of investment in advertising activities, partially offset by the favorable impact of changes in foreign currency exchange rates year over year. On a constant currency basis, advertising and sales promotion expenses for fiscal year 2009 would have been \$21.5 million for an increase of \$1.7 million, or 9%, over fiscal year 2008.

As a percentage of net sales, advertising and sales promotion expenses may fluctuate period to period based upon the type of marketing activities employed by the Company and the period in which the costs are incurred. The costs of certain promotional activities are required to be recorded as reductions to sales, while others remain in advertising and sales promotion expenses. For fiscal year 2009, total promotional costs recorded as a reduction to sales were \$18.4 million compared to \$18.9 million for fiscal year 2008. Therefore, our total investment in advertising and sales promotion activities totaled \$37.9 million and \$38.7 million for fiscal years 2009 and 2008, respectively.

**Amortization of Definite-lived Intangible Asset Expense**

Amortization of our definite-lived intangible asset was \$0.5 million and \$0.6 million for fiscal years 2009 and 2008, respectively. The amortization relates to the non-contractual customer relationships included in the 1001 acquisition completed by the Europe segment in fiscal year 2004. This intangible asset is recorded and amortized in Pound Sterling on a straight-line basis over its estimated eight-year life and is converted to U.S. dollars for reporting purposes. Therefore, a portion of the fluctuation in amortization from period to period is the result of changes in foreign currency exchange rates.

**Impairment of Indefinite-lived Intangible Assets Expense**

During the second quarter of fiscal year 2009, we performed our annual impairment test of goodwill and indefinite-lived intangible assets in accordance with the authoritative guidance on goodwill, intangibles and other. Based on the results of this test, we determined that our goodwill was not impaired since the fair value of each reporting unit exceeded its carrying value. We also determined that each of the indefinite-lived intangible assets related to our homeware and cleaning product brands, with the exception of the indefinite-lived intangible asset related to the Carpet Fresh brand, was not impaired as of February 28, 2009. Due to the declines in profit margin and forecasted sales revenue for the Carpet Fresh brand, both of which occurred during the second quarter of fiscal year 2009, we concluded that the Carpet Fresh trade name was impaired by \$2.8 million as of February 28, 2009. The decline in forecasted sales revenue for the Carpet Fresh brand resulted from our strategic decision to divert our research and development resources from our homeware and cleaning products to our multi-purpose maintenance products, the loss of distribution with a significant U.S. mass retail customer and assumed lower future foreign currency exchange rates in the U.K. and Australia. While some of these factors also impacted the indefinite-lived intangible assets related to our other homeware and cleaning product brands, they did not result in impairment to any of such other indefinite-lived intangible assets as of February 28, 2009.

During the third quarter of fiscal year 2009, we evaluated our indefinite-lived intangible assets and determined that indicators of potential impairment existed due to the fact that actual sales revenue for the Carpet Fresh, X-14, 2000 Flushes and Spot Shot brands did not meet our forecasted sales revenue for the quarter ended May 31, 2009, partially due to adverse economic conditions. As a result, we tested these indefinite-lived intangible assets for impairment and concluded that no impairment existed as of May 31, 2009.

During the fourth quarter of fiscal year 2009, we reevaluated our indefinite-lived intangible assets and determined that indicators of potential impairment existed related to the Carpet Fresh and X-14 brands due to a further decline in forecasted sales revenue as a result of additional lost distribution in the U.S. and further

**Table of Contents**

diversion of research and development resources from our homecare and cleaning products to our multi-purpose maintenance products. As a result, we tested the indefinite-lived intangible assets related to the Carpet Fresh and X-14 trade names for impairment and concluded that they were impaired by \$3.3 million and \$0.6 million, respectively, as of August 31, 2009. We determined that no indicators of impairment existed related to the Spot Shot and 2000 Flushes brands as of August 31, 2009.

**Non-Operating Items**

The following table summarizes non-operating income and expenses for our consolidated operations (in thousands):

	<b>Fiscal Year Ended August 31,</b>		
	<b>2009</b>	<b>2008</b>	<b>Change</b>
Interest income	\$ 428	\$ 1,602	\$ (1,174)
Interest expense	\$ 2,492	\$ 3,281	\$ (789)
Other income, net	\$ 543	\$ 982	\$ (439)
Provision for income taxes	\$ 12,037	\$ 14,377	\$ (2,340)

**Interest Income**

Interest income decreased \$1.2 million for fiscal year 2009 compared to fiscal year 2008 due primarily to lower interest rates year over year.

**Interest Expense**

Interest expense decreased \$0.8 million for fiscal year 2009 compared to fiscal year 2008 due to the lower principal balance on long-term borrowings resulting from the annual \$10.7 million principal payment made in October 2008.

**Other Income, Net**

Other income, net decreased \$0.4 million for fiscal year 2009 compared to fiscal year 2008 primarily due to foreign currency exchange losses in the Europe segment.

**Provision for Income Taxes**

The provision for income taxes was 31.4% of income before income taxes for fiscal year 2009, a decrease from 34.2% for fiscal year 2008. The decrease in the effective tax rate was primarily due to a California tax law enacted during the second quarter of fiscal year 2009. The change resulted in the revaluation of our deferred tax assets and liabilities as of the law's effective date. The rate also decreased due to the impact of increasing income from foreign operations taxed at lower rates, benefits associated with the payout of a retired officer's life insurance policy, and the renewal of the research and development credit for fiscal year 2008's activities. The total impact of these items was a tax benefit of approximately \$0.8 million for fiscal year 2009.

**Net Income**

Net income was \$26.3 million, or \$1.58 per common share on a fully diluted basis, for fiscal year 2009 compared to \$27.6 million, or \$1.64 per common share on a fully diluted basis, for fiscal year 2008. The change in foreign currency exchange rates year over year had an unfavorable impact of \$4.5 million on net income for fiscal year 2009. Thus, on a constant currency basis, net income for fiscal year 2009 would have been \$30.8 million.

---

**Table of Contents**

**Liquidity and Capital Resources**

*Overview*

The Company's financial condition and liquidity remain strong. Net cash provided by operations was \$56.4 million for fiscal year 2010 compared to \$34.6 million for fiscal year 2009. We believe we continue to be well positioned to weather any uncertainty in the capital markets and global economy due to our strong balance sheet and efficient business model, along with our growing and diversified global revenues. We continue to manage all aspects of our business including, but not limited to, monitoring the financial health of our customers, suppliers and other third-party relationships, implementing gross margin enhancement strategies and developing new opportunities for growth.

Our principal sources of liquidity are our existing cash and cash equivalents, cash generated from operations and cash available from our \$10 million revolving credit facility, which was obtained in September 2008, and is currently undrawn. At August 31, 2010, we had a total of \$75.9 million in cash and cash equivalents. We believe that these existing cash and cash equivalents at August 31, 2010, the liquidity provided by our revolving credit facility and our anticipated cash flows from operations will be sufficient to meet the projected operating and capital requirements for our current business plans. We consider various factors when reviewing liquidity needs and plans for available cash on hand including: future debt, principal and interest payments, early debt repayment penalties, future capital expenditure requirements, future dividend payments (which are determined on a quarterly basis by the Company's Board of Directors), alternative investment opportunities, loan covenants and any other relevant considerations currently facing our business.

Our outstanding indebtedness under our original \$75 million, 7.28% fixed-rate term loan was \$21.4 million as of August 31, 2010. Outstanding borrowings under our term loan must be repaid in annual principal payments of \$10.7 million, with the final payment due in October 2011. In accordance with the terms of the fixed-rate term loan, we are required to maintain minimum consolidated net worth greater than the sum of \$57 million plus 25% of consolidated net income for each fiscal quarter beginning with the first fiscal quarter of 2002, plus proceeds of all equity securities other than those issued under the Company's prior stock option plan and current stock incentive plan. A consolidated fixed charge coverage ratio greater than 1.20 to 1.00 on the last day of any fiscal quarter must be maintained. The Company is also limited to a maximum ratio of funded debt to earnings before interest, taxes, depreciation and amortization of 2.25 to 1.00.

The term loan agreement also limits the Company's ability, without prior approval from the Company's lenders, to incur additional unsecured indebtedness, sell, lease or transfer assets, place liens on properties, complete certain acquisitions, mergers or consolidations, enter into guarantee obligations, enter into related party transactions and make certain loan advances and investments.

The events of default under the fixed-rate term loan include the following:

Failure to pay principal or interest when due;

Failure to comply with covenants, representations and warranties or other terms and conditions under the credit agreements;

Commencing any proceeding for bankruptcy, insolvency, reorganization, dissolution or liquidation; and

The sale, transfer, abandonment, forfeiture or disposal of the WD-40 trademark or any other trademark used in a material product line. In the event of default, the term loan may be due and callable immediately at the option of the holders.

---

**Table of Contents**

During fiscal year 2007, the Company's Board of Directors approved a share buy-back plan, resulting in the revision of the Company's debt covenants related to its fixed-rate term loan. Under the revised debt covenants, the aggregate payments for dividends and share repurchases by the Company are limited to \$35 million, plus 75% of consolidated net income for each fiscal quarter beginning March 1, 2007.

The Company is in compliance with all debt covenants as required by the term loan agreement. The Company's cash balance has not been used to prepay the term loan due to certain prepayment penalties under the loan agreements.

In September 2008, the Company entered into an unsecured loan agreement for the aforementioned \$10 million credit facility, which expires in October 2011. The credit facility is currently undrawn, however, outstanding borrowings under the credit facility would accrue interest at either London Interbank Offered Rates ( LIBOR ) plus 1.0 percent or the Bank's variable interest rate, as selected by the Company, and the proceeds could be utilized for general working capital purposes. The credit facility is subject to the same covenants as required by the term loan agreement.

***Cash Flows******Operating Activities***

Net cash provided by operating activities increased \$21.8 million to \$56.4 million for fiscal year 2010 from \$34.6 million for the prior fiscal year. This increase was partially due to the significant increase in net income as adjusted for noncash items such as depreciation and amortization, impairment of indefinite-lived intangible assets, deferred income taxes, stock-based compensation and net unrealized foreign currency exchange gains and losses. Cash provided by operating activities also increased for fiscal year 2010 as compared to the prior fiscal year due to changes in assets and liabilities, primarily changes in accounts payable and accrued expenses and liabilities, deferred employee benefits and other long-term liabilities and income taxes payable. Accounts payable and accrued expenses and liabilities increased significantly from year to year due primarily to the increase in accounts payable balances resulting from increased business activities and the timing of payments. In addition, accrued expenses and liabilities increased from year to year due to a higher level of bonus accruals recorded during fiscal year 2010 compared to the prior fiscal year and the timing of payments for both the bonus and profit sharing plans. Bonus accruals were higher during fiscal year 2010 as most regions met or exceeded sales and other profit performance targets in fiscal year 2010 whereas achievement of such targets were unusually low in fiscal year 2009. Deferred employee benefits and other long-term liabilities increased for fiscal year 2010 as compared to the prior fiscal year primarily due to an increase in long-term income taxes payable related to uncertain tax positions. Partially offsetting these increases from year to year was a decrease in income taxes payable due to the timing of payments as compared to income tax accruals and the final year-end tax provision entries.

***Investing Activities***

Net cash used in investing activities decreased \$1.2 million to \$1.6 million for fiscal year 2010 from \$2.8 million for the prior fiscal year due primarily to lower capital expenditures. Capital expenditures during fiscal year 2010 were primarily for machinery and equipment to enhance manufacturing efficiencies, computer equipment and software. Capital expenditures for fiscal year 2009 were higher primarily due to an increased level of purchases of machinery and equipment in support of manufacturing activities, particularly those related to Smart Straw. For fiscal year 2011, we expect to spend approximately \$3.9 million for new capital assets largely driven by purchases of machinery and equipment to enhance manufacturing efficiencies, as well as purchases of computer equipment, software and vehicles.

***Financing Activities***

Net cash used in financing activities decreased \$2.3 million to \$23.6 million for fiscal year 2010 from \$25.9 million for the prior fiscal year due primarily to higher proceeds from the issuance of common stock.

**Table of Contents****Share Repurchase Plan**

On December 8, 2009, the Company's Board of Directors approved a share buy-back plan. Under the plan, which is in effect for up to twelve months from the date of approval, we are authorized to acquire up to \$15.0 million of our outstanding shares. During the period from December 8, 2009 through August 31, 2010, we did not purchase any shares under this share buy-back plan.

**Dividends**

On October 1, 2010, the Company's Board of Directors declared a cash dividend of \$0.27 per share payable on October 29, 2010 to shareholders of record on October 14, 2010. This cash dividend reflects an 8% increase in the regular quarterly cash dividend from its previous amount of \$0.25 per share. Our ability to pay dividends could be affected by future business performance, liquidity, capital needs, alternative investment opportunities and loan covenants.

**Contractual Obligations**

The following table sets forth our best estimates as to the amounts and timing of minimum contractual payments for our most significant contractual obligations and commitments as of August 31, 2010 for the next five years and thereafter (in thousands). Future events could cause actual payments to differ significantly from these amounts.

	<b>Total</b>	<b>1 year</b>	<b>2-3 years</b>	<b>4-5 years</b>	<b>Thereafter</b>
Total debt	\$ 21,429	\$ 10,714	\$ 10,715	\$	\$
Interest payments on debt	1,170	975	195		
Operating leases	3,180	1,403	1,387	351	39
Purchase commitments <sup>(1)</sup>	500	500			
	\$ 26,279	\$ 13,592	\$ 12,297	\$ 351	\$ 39

(1) Represents commitments with manufacturers to purchase finished goods and components specifically in support of innovation initiatives and/or supply chain initiatives.

The following summarizes other commercial commitments as of August 31, 2010:

The Company has relationships with various suppliers, or contract manufacturers, who manufacture the Company's products. Although the Company typically does not have definitive minimum purchase obligations included in the contract terms with its contract manufacturers, when such obligations have been included, they have been immaterial to date. Supply needs are communicated by the Company to its contract manufacturers, and the Company is committed to purchase the products produced based on orders and short-term projections, ranging from two to five months, provided to these contract manufacturers. The Company is also obligated to purchase obsolete or slow-moving inventory from its contract manufacturers and has done so in the past under these commitments, the amounts of which have been immaterial.

The Company provides fixed retirement benefits to certain of its key executives under a supplemental employee retirement plan. Under the plan, the Company is committed to pay benefits to current retirees of approximately \$0.1 million in each of fiscal years 2011 and 2012. Benefits payable to current employees vest upon retirement. As a result, the timing of payments and the total annual benefit payment amounts beyond fiscal year 2012 are uncertain. However, the Company has actuarially determined the present value of all future benefit payments to be \$0.7 million as of August 31, 2010.

At August 31, 2010, the liability recorded for uncertain tax positions, excluding associated interest and penalties, was approximately \$3.6 million. We have estimated that up to \$0.2 million of unrecognized tax benefits related to income tax positions may be affected by the resolution of tax examinations or expiring statutes of limitation.

---

**Table of Contents**

within the next twelve months. Since the ultimate amount and timing of other potential audit related cash settlements cannot be predicted with reasonable certainty, liabilities for uncertain tax positions are excluded from the contractual obligations table above.

**Critical Accounting Policies**

Our results of operations and financial condition, as reflected in our consolidated financial statements, have been prepared in accordance with accounting principles generally accepted in the United States of America. Preparation of financial statements requires us to make estimates and assumptions affecting the reported amounts of assets, liabilities, revenues and expenses and the disclosures of contingent assets and liabilities. We use historical experience and other relevant factors when developing estimates and assumptions and these estimates and assumptions are continually evaluated. Note 2 to our consolidated financial statements included in Item 15 of this report includes a discussion of significant accounting policies. The accounting policies discussed below are the ones we consider to be most critical to an understanding of our consolidated financial statements because their application places the most significant demands on our judgment. Our financial results may have varied from those reported had different assumptions been used or other conditions prevailed. Our critical accounting policies have been reviewed with the Audit Committee of the Board of Directors.

*Revenue Recognition and Sales Incentives*

Sales are recognized as revenue at the time of delivery to the customer when risks of loss and title have passed. Sales are recorded net of allowances for damaged goods and other sales returns and cash discounts. We must make judgments and certain assumptions in order to determine when delivery has occurred. Through an analysis of end-of-period shipments, we determine an average time of transit of product to our customers, and this is used to estimate the time of delivery. Differences in judgments or estimates related to the lengthening or shortening of the estimated delivery time used could result in material differences in the timing of revenue recognition.

Sales incentives are also recorded as a reduction of sales in our consolidated statements of operations. Sales incentives include on-going trade promotion programs with customers and consumer coupon programs that require us to estimate and accrue the expected costs of such programs. These programs include cooperative marketing programs, shelf price reductions, coupons, rebates, consideration and allowances given to retailers for shelf space and/or favorable display positions in their stores and other promotional activities. Costs related to these sales incentive programs, with the exception of coupon costs, are recorded as a reduction to sales upon delivery of products to customers. Coupon costs are based upon historical redemption rates and are recorded as a reduction to sales as incurred, which is when the coupons are circulated.

Sales incentives are calculated based primarily on historical rates and consideration of recent promotional activities. The determination of sales incentive costs and the related liabilities require us to use judgment for estimates that include current and past trade promotion spending patterns, status of trade promotion activities and the interpretation of historical spending trends by customer and category. We review our assumptions and adjust our reserves accordingly on a quarterly basis. Our consolidated financial statements could be materially impacted if the actual promotion rates are different from the estimated rates. If our accrual estimates for sales incentives at August 31, 2010 were to differ by 10%, the impact on net sales would be approximately \$0.7 million.

*Allowance for Doubtful Accounts*

The preparation of our financial statements requires us to make certain estimates and assumptions related to the collectability of our accounts receivable balances. We specifically analyze historical bad debts, customer credit worthiness, current economic trends and changes in our customer payment terms when evaluating the adequacy of the allowance for doubtful accounts. We review our accounts receivable balances and our assumptions used to determine their collectability on a periodic basis and adjust our allowance for doubtful accounts accordingly on a quarterly basis.

---

**Table of Contents***Accounting for Income Taxes*

Current income tax expense is the amount of income taxes expected to be payable for the current year. A deferred income tax liability or asset is established for the expected future tax consequences resulting from the differences in financial reporting and tax bases of assets and liabilities. A valuation allowance is provided if it is more likely than not that some or all of the deferred tax assets will not be realized. In addition to valuation allowances, we provide for uncertain tax positions when such tax positions do not meet the recognition thresholds or measurement standards prescribed by the authoritative guidance on income taxes. Amounts for uncertain tax positions are adjusted in periods when new information becomes available or when positions are effectively settled. We recognize accrued interest and penalties related to uncertain tax positions as a component of income tax expense.

U.S. federal income tax expense is provided on remittances of foreign earnings and on unremitted foreign earnings that are not indefinitely reinvested. U.S. federal income taxes and foreign withholding taxes are not provided when foreign earnings are indefinitely reinvested. We determine whether our foreign subsidiaries will invest their undistributed earnings indefinitely based on the capital needs of the foreign subsidiaries. We reassess this determination each reporting period. Changes to this determination may be warranted based on our experience as well as plans regarding future international operations and expected remittances.

*Valuation of Goodwill and Indefinite-lived Intangible Assets*

The carrying values of goodwill and indefinite-lived intangible assets are reviewed for possible impairment in accordance with the authoritative guidance on goodwill, intangibles and other. We assess possible impairments to goodwill and indefinite-lived intangible assets at least annually during our second fiscal quarter and otherwise when there is evidence that events or changes in circumstances indicate that an impairment condition may exist. In addition, indefinite-lived intangible assets are evaluated each reporting period to determine whether events and circumstances continue to support an indefinite useful life. In performing the annual impairment test of our goodwill and indefinite-lived intangible assets, we consider the new fair value concepts of a market participant and the highest and best use for our intangible assets.

We test for goodwill impairment at the reporting unit level based on a two-step process which is conducted by applying fair value concepts. First, the book value of our net assets is compared to the fair value of the net assets of the reporting units that have goodwill assigned to them. If the fair value is determined to be less than book value, a second step is performed to compute the amount of impairment. In the second step, the implied fair value of goodwill is estimated as the fair value of the reporting unit used in the first step less the fair values of all other net tangible and intangible assets of the reporting unit. If the carrying amount of goodwill exceeds its implied fair value, an impairment loss is recognized in an amount equal to that excess, not to exceed the carrying amount of the goodwill. Any required impairment losses are recorded as a reduction in the carrying amount of the related asset and charged to results of operations.

We test for impairment of our indefinite-lived intangible assets based on a discounted cash flow approach that requires significant management judgment and estimates with respect to, among other considerations, forecasted sales revenue, advertising and promotional expenses, cost of products sold, gross margins, operating margins, the success of product innovations and introductions, customer retention, tax rates, terminal growth values and the selection of appropriate discount and royalty rates. Many of the factors used in assessing fair value are outside the control of management, and it is reasonably likely that assumptions and estimates will change in future periods. These changes could result in future impairments. For our indefinite-lived intangible assets, an impairment loss is recognized when the fair value of the asset is less than its carrying amount and is measured as the amount by which the asset's carrying amount exceeds its fair value.

Events and circumstances that we consider important which could trigger impairment include the following:

Significant underperformance relative to historical or projected future operating results;

**Table of Contents**

Significant changes in the extent or manner to which an acquired asset is being utilized by the Company;

Significant negative industry or global economic trends;

Significant decline in our stock price for a sustained period;

Decreased market capitalization relative to net book value;

Unanticipated competitive activities;

Loss of key distribution;

Change in consumer demand;

Loss of key personnel; and

Acts by governments and courts.

During the second quarter of fiscal year 2010, we performed our annual impairment test of goodwill. Based on the results of this test, we determined that our goodwill was not impaired since the fair value of each reporting unit exceeded its carrying value by more than 10% as of February 28, 2010.

During fiscal year 2009, we recorded impairments to certain of our indefinite-lived intangible assets, all of which were related to brands included in our homecare and cleaning products line, based on the results of our annual or subsequent events and circumstances driven impairment tests. During the second quarter of fiscal year 2009, we determined, while performing our annual impairment tests, that our indefinite-lived intangible asset related to our Carpet Fresh brand was impaired as of February 28, 2009. Due to the declines in profit margin and forecasted sales revenue for the Carpet Fresh brand, both of which occurred during the second quarter of fiscal year 2009, we concluded that the Carpet Fresh trade name was impaired by \$2.8 million as of February 28, 2009. The decline in forecasted sales revenue for the Carpet Fresh brand resulted from our strategic decision to focus our research and development resources on our multi-purpose maintenance products and not our homecare and cleaning products, the loss of distribution with a significant U.S. mass retail customer and assumed lower future foreign currency exchange rates in the U.K. and Australia. While some of these factors also impacted the indefinite-lived intangible assets related to our other homecare and cleaning product brands, they did not result in impairment to any of such other indefinite-lived intangible assets as of February 28, 2009.

During the third and fourth quarters of fiscal year 2009, we reevaluated our indefinite-lived intangible assets and determined that indicators of potential impairment existed due to lower than forecasted sales revenue for several of our homecare and cleaning products, including the Carpet Fresh, X-14, Spot Shot and 2000 Flushes brands. As a result, we tested these indefinite-lived intangible assets for impairment for both periods. For the test conducted during the third quarter of fiscal year 2009, we concluded that no impairment existed as of May 31, 2009. For the test conducted during the fourth quarter of fiscal year 2009, we concluded that the intangible assets associated with our Carpet Fresh and X-14 trade names were impaired by \$3.3 million and \$0.6 million, respectively, as of August 31, 2009.

Due to the continued sales declines in fiscal year 2009 and the lower level of forecasted sales for the Carpet Fresh and X-14 brands which were caused by a variety of factors, including lost distribution and our strategic decision to focus our research and development resources on our multi-purpose maintenance products, we concluded that these two trade names should no longer be considered to have indefinite lives. As a result, effective August 31, 2009, we changed the classification of the Carpet Fresh and X-14 trade names from indefinite-lived to definite-lived

intangible assets. We began to amortize the Carpet Fresh and X-14 trade names on a straight-line basis effective on September 1, 2009 based on their estimated remaining useful lives of thirteen and eight years, respectively.

**Table of Contents**

Since the fourth quarter of fiscal year 2009, no impairment of our indefinite-lived intangible assets, which include the Spot Shot, 2000 Flushes and 1001 brands, has been identified or recorded. However, if significant marketing and other initiatives related to these brands are not successful, they could potentially become impaired in the future.

We performed a sensitivity analysis on the significant assumptions and estimates used in the valuation of our indefinite-lived intangible assets related to the Spot Shot, 2000 Flushes and 1001 brands as of August 31, 2010 and determined that a negative change in our significant assumptions and estimates would have resulted in the following potential impairment charges (the approximate impact of the change in each significant assumption and estimate assumes all other assumptions and estimates remain constant; in millions, except percentages):

	<b>Potential Impairment Charges</b>
<b>Spot Shot</b>	
100 basis point decrease in assumed royalty rate	\$ 0.2
25% decrease in forecasted sales revenue	\$ 0.7
<b>2000 Flushes</b>	
150 basis point decrease in assumed royalty rate	\$ 0.6
30% decrease in forecasted sales revenue	\$ 0.1
<b>1001</b>	
250 basis point decrease in assumed royalty rate	\$ 0.6
50% decrease in forecasted sales revenue	\$ 0.2

Negative changes in assumptions and estimates not included above, such as advertising and promotional expenses, cost of products sold, gross margins, operating margins, the success of product innovations and introductions, customer retention, development of new and/or alternative distribution channels, tax rates and terminal growth values, could also result in future impairment.

We will continue to closely monitor events and circumstances that could result in impairment of any of our indefinite-lived intangible assets. It is possible that changes in circumstances, existing at that time or at other times in the future, or in the numerous variables associated with the assumptions and estimates made by us in assessing the fair value of our indefinite-lived intangible assets, could result in future impairment charges.

**Recently Issued Accounting Standards**

In January 2010, the Financial Accounting Standards Board ( FASB ) issued updated authoritative guidance related to fair value measurements which requires certain new disclosures related to activities in Level 3 fair value measurements, including purchases, sales, issuances and settlements. This updated authoritative guidance is effective for annual periods beginning after December 15, 2010. We do not expect the adoption of this updated guidance to have a material impact on our consolidated financial statement disclosures.

In July 2010, the FASB issued updated authoritative guidance related to financing receivables which enhances the disclosure requirements about the credit quality and related allowance for credit losses of financing receivables. This updated guidance is effective for interim and annual reporting periods ending on or after December 15, 2010. We have evaluated this updated authoritative guidance, and we do not expect it to impact our consolidated financial statements.

**Related Parties**

Prior to July 1, 2009, we owned a 30% membership interest in VML. VML made profit distributions to us and the 70% owner on a discretionary basis in proportion to each party's respective interest. VML served as one of our contract manufacturers for certain homecare and cleaning products. We entered into a Settlement Agreement and Mutual General Release with VML effective July 1, 2009. As a result, VML is no longer a related party.

---

**Table of Contents**

We recorded equity losses related to our investment in VML of \$0.4 million and \$0.6 million for fiscal years 2009 and 2008, respectively, which were recorded as a component of cost of products sold, as VML acted primarily as a contract manufacturer to the Company. Cost of products sold that were purchased from VML, net of rebates and equity earnings or losses, were \$11.7 million and \$21.8 million for fiscal years 2009 and 2008, respectively. Additionally, we received rental income from VML, which was recorded as a component of other income, net in our consolidated statements of operations. Our investment in VML was written off in full as of February 28, 2009.

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

***Foreign Currency Risk***

The Company is exposed to a variety of risks, including foreign currency exchange rate fluctuations. In the normal course of business, the Company employs established policies and procedures to manage its exposure to fluctuations in foreign currency values.

All of the Company's international subsidiaries operate in functional currencies other than the U.S. dollar. As a result, the Company is exposed to foreign currency related risk when the financial statements of its international subsidiaries are translated for consolidation purposes from functional currencies to U.S. dollars. This foreign currency risk can affect sales, expenses and profits as well as assets and liabilities that are denominated in currencies in other than the U.S. dollar. The Company does not enter into any hedging activities to mitigate this foreign currency translation risk.

The Company's U.K. subsidiary, whose functional currency is Pound Sterling, utilizes foreign currency forward contracts to limit its exposure in converting cash and intercompany accounts receivable balances denominated in non-functional currencies. The principal currency affected is the Euro. The Company regularly monitors its foreign exchange exposures to ensure the overall effectiveness of its foreign currency hedge positions. While the Company engages in foreign currency hedging activity to reduce its risk, for accounting purposes, none of its foreign currency forward contracts are designated as hedges.

The Company has performed a sensitivity analysis related to its foreign currency forward contracts outstanding at August 31, 2010. If the foreign currency exchange rates relevant to those contracts were to change unfavorably by 10%, the Company would incur a loss of approximately \$0.9 million.

***Interest Rate Risk***

As of August 31, 2010, the Company had \$21.4 million remaining on an original \$75 million, 7.28% fixed-rate term loan. Additionally, in September 2008, the Company entered into an unsecured loan agreement for a credit facility consisting of a \$10 million revolving loan, which expires in October 2011. Although currently undrawn, any outstanding borrowings under the new credit facility would accrue interest at either LIBOR plus 1.0 percent or the Bank's variable interest rate, as selected by the Company. As a result of the fixed interest rate on the term loan, only the \$10 million revolving line of credit is subject to interest rate fluctuations. Any significant increase in the LIBOR rate could have a material effect on interest expense incurred on any borrowings outstanding under the line of credit.

**Item 8. Financial Statements and Supplementary Data**

The Company's consolidated financial statements at August 31, 2010 and 2009 and for each of the three fiscal years in the period ended August 31, 2010, and the Report of Independent Registered Public Accounting Firm, are included in Item 15 of this report.

**Table of Contents****Quarterly Financial Information (Unaudited)**

The following table sets forth certain unaudited quarterly consolidated financial information for each of the two fiscal years in the period ended August 31, 2010 (in thousands, except per share data):

<b>Quarter Ended:</b>	<b>Net Sales</b>	<b>Gross Profit</b>	<b>Net Income</b>	<b>Diluted Earnings Per Common Share</b>
November 30, 2009	\$ 77,721	\$ 39,913	\$ 9,413	\$ 0.56
February 28, 2010	80,553	42,233	10,677	0.64
May 31, 2010	82,561	42,255	9,117	0.54
August 31, 2010	80,681	40,905	6,888	0.41
	\$ 321,516	\$ 165,306	\$ 36,095	\$ 2.15
November 30, 2008	\$ 83,597	\$ 38,737	\$ 7,685	\$ 0.46
February 28, 2009	61,837	30,645	4,083	0.25
May 31, 2009	68,816	34,995	6,897	0.41
August 31, 2009	77,752	40,156	7,622	0.46
	\$ 292,002	\$ 144,533	\$ 26,287	\$ 1.58

**Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure**

Not applicable.

**Item 9A. Controls and Procedures****Evaluation of Disclosure Controls and Procedures**

The term "disclosure controls and procedures" is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934 ( "Exchange Act" ). The term disclosure controls and procedures means controls and other procedures of a Company that are designed to ensure the information required to be disclosed by the Company in the reports that it files or submits under the Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosures. The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures as of August 31, 2010, the end of the period covered by this report (the Evaluation Date), and they have concluded that, as of the Evaluation Date, such controls and procedures were effective at ensuring that required information will be disclosed on a timely basis in the Company's reports filed under the Exchange Act. Although management believes the Company's existing disclosure controls and procedures are adequate to enable the Company to comply with its disclosure obligations, management continues to review and update such controls and procedures. The Company has a disclosure committee, which consists of certain members of the Company's senior management.

**Management's Report on Internal Control over Financial Reporting**

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, management conducted an evaluation of the effectiveness of its internal control over financial reporting based upon the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, management concluded that its internal control over financial reporting is effective as of August 31, 2010.

**Table of Contents**

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PricewaterhouseCoopers LLP, independent registered public accounting firm, who audited and reported on the consolidated financial statements of WD-40 Company included in this report, has audited the effectiveness of WD-40 Company's internal control over financial reporting as of August 31, 2010, as stated in their report included in Item 15 of this report.

**Changes in Internal Control over Financial Reporting**

For the quarter ended August 31, 2010, there were no significant changes to the Company's internal control over financial reporting that materially affected, or would be reasonably likely to materially affect, its internal control over financial reporting.

**Item 9B. Other Information**

Not applicable.

**Table of Contents****PART III****Item 10. Directors, Executive Officers and Corporate Governance**

Certain information required by this item is set forth under the headings Security Ownership of Directors and Executive Officers, Nominees for Election as Directors, Audit Committee and Section 16(a) Beneficial Ownership Reporting Compliance in the Company's Proxy Statement to be filed with the Securities and Exchange Commission in connection with the 2010 Annual Meeting of Stockholders on December 14, 2010 ( Proxy Statement ), which information is incorporated by reference herein. Additional information concerning executive officers of the Registrant required by this item is included in this report following Item 4 of Part I under the heading, Executive Officers of the Registrant.

The Registrant has a financial reporting code of ethics applicable to its principal executive officer, principal financial officer, principal accounting officer or controller and persons performing similar functions. A copy of the financial reporting code of ethics applicable to such persons may be found on the Registrant's internet website on the Officers and Directors link from the Investors page at [www.wd40company.com](http://www.wd40company.com).

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Shareholders of WD-40 Company:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of shareholders' equity and comprehensive income and of cash flows present fairly, in all material respects, the financial position of WD-40 Company and its subsidiaries at August 31, 2010 and August 31, 2009, and the results of their operations and their cash flows for each of the three years in the period ended August 31, 2010 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of August 31, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**WD-40 COMPANY**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Note 1. The Company**

WD-40 Company (the Company), based in San Diego, California, is a global consumer products company dedicated to delivering unique, high value and easy-to-use solutions for a wide variety of maintenance needs of doer and on-the-job users by leveraging and building the brand fortress of the Company. Historically, the Company has marketed two multi-purpose maintenance product brands, WD-40® and 3-IN-ONE® Oil. In December 2009, the Company launched and began shipping in the U.S. a third multi-purpose maintenance product brand, BLUE WORKS®, which is targeted at the industrial channel. The Company also markets the following homecare and cleaning product brands: X-14® mildew stain remover and automatic toilet bowl cleaners, 2000 Flushes® automatic toilet bowl cleaners, Carpet Fresh® and No Vac® rug and room deodorizers, Spot Shot® aerosol and liquid carpet stain removers, 1001® carpet and household cleaners and rug and room deodorizers and Lava® and Solvol® heavy-duty hand cleaners.

The Company's brands are sold in various locations around the world. Multi-purpose maintenance products are sold worldwide in markets throughout North, Central and South America, Asia, Australia and the Pacific Rim, Europe, the Middle East and Africa. Homecare and cleaning products are sold primarily in North America, the U.K., Australia and the Pacific Rim. The Company's products are sold primarily through mass retail and home center stores, warehouse club stores, grocery stores, hardware stores, automotive parts outlets and industrial distributors and suppliers.

**Note 2. Basis of Presentation and Summary of Significant Accounting Policies**

***Basis of Presentation and Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

***Reclassifications***

Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation.

***Sales Concentration***

Wal-Mart Stores, Inc. is a significant U.S. and global mass retail customer and offers a variety of the Company's products. Sales to U.S. Wal-Mart stores and its affiliates worldwide accounted for approximately 9 percent of the Company's consolidated net sales in fiscal year 2010 and approximately 10 percent of the Company's consolidated net sales in each of fiscal years 2009 and 2008. Accounts receivable from Wal-Mart stores and its affiliates worldwide accounted for approximately 9 percent of the Company's consolidated accounts receivable balances at August 31, 2010 and 2009.

***Supplier Risk***

The Company relies on a limited number of suppliers, including sole suppliers, for certain of its raw materials, packaging, product components and other necessary supplies. Where possible and where it makes business sense,

**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

the Company works with secondary suppliers to qualify additional supply sources. To date, the Company has been able to obtain adequate supplies of these materials which are used in the production of its multipurpose maintenance products and homecare and cleaning products in a timely manner from existing sources.

***Cash and Cash Equivalents***

Cash equivalents are highly liquid investments purchased with an original maturity of three months or less.

***Marketable Securities***

Historically, the Company has invested in interest-bearing short-term investments, some of which consisted of investment-grade auction rate securities classified as available-for-sale and reported at fair value. Although these investments generally had stated maturities of 13 months to 30 years, this type of investment was designed to provide liquidity through an auction process that reset the applicable interest rates at predetermined periods ranging from 7 to 35 days. This reset mechanism was intended to allow existing investors to continue to own their respective interest in the auction rate security or to gain immediate liquidity by selling their interests at par value. The Company liquidated the last of its investment-grade auction rate securities at par value through successful auctions in May 2008. As of August 31, 2010 and 2009, the Company did not hold any auction rate securities or other short-term investments.

***Trade Accounts Receivable and Allowance for Doubtful Accounts***

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in existing accounts receivable. The Company determines the allowance for doubtful accounts based on historical write-off experience and the identification of specific balances deemed uncollectable. Trade accounts receivable are charged off against the allowance when the Company believes it is probable that the trade accounts receivable will not be recovered. The Company does not have any off-balance sheet credit exposure related to its customers.

Changes in the allowance for doubtful accounts are summarized below (in thousands):

	<b>Balance at Beginning of Year</b>	<b>Additions Charged to Costs and Expenses</b>	<b>Deductions*</b>	<b>Balance at End of Year</b>
Fiscal year ended August 31, 2008	\$ 369	\$ 782	\$ 665	\$ 486
Fiscal year ended August 31, 2009	\$ 486	\$ 500	\$ 292	\$ 694
Fiscal year ended August 31, 2010	\$ 694	\$ 103	\$ 498	\$ 299
