OPBDA *	31%	32%		
Operating Profit *	22%	23%		
Net Income*	12%	11%		

* As a percentage of Net Revenues

During FY10, Consolidated Net Revenues increased by 20% (+P\$2,453 million vs. FY09) to P\$14,679 million, mainly fueled by the Mobile and Broadband businesses. Moreover, Operating Profit increased by 16% (+P\$439 million vs. FY09) to P\$3,201 million.

Consolidated Operating Revenues

Mobile Services

Clients have significantly increased in FY10, reaching 18.2 million as of the end of December 2010, representing an increase of 1.9 million since December 31, 2009.

The activities developed to increase the usage of the value added services (VAS) and to retain high value segments allowed Personal to increase consolidated net revenues to P\$10,039 million (+24% vs. FY09).

Telecom Personal in Argentina

As of December 31, 2010, Personal surpassed 16 million subscribers in Argentina (+13% or 1.9 million vs. FY09), thus improving its market position. The overall subscriber base mix continued with 70% of prepaid subscribers and 30% postpaid (including Cuentas claras plans and 3G modems).

In FY10, Net Revenues reached P\$9,501 million (+P\$1,873 million or 25% vs. FY09) while Service Revenues (excluding handset sales) amounted to P\$8,483 million (+24% vs. FY09), with 40% corresponding to value-added services (VAS) revenues. VAS revenues increased vs. FY09 by 46%.

During FY10, the overall voice traffic minutes increased by 14% vs. FY09. Meanwhile, SMS traffic performance (charged incoming and outgoing messages), climbed to 4,614 million in FY10 from a monthly average of 3,034 million messages in FY09 (+52% vs. FY09). Due to this increase in traffic and VAS usage, Average Monthly Revenue per User (ARPU) increased to approximately P\$44 during FY10 (+9% vs. FY09) meanwhile ARPU in 4Q10 reached P\$49 (+17% vs. FY09).

Table of Contents

Initiatives

During the last quarter of the year, Personal continued to extend its Personal Black portfolio incorporating exclusive handsets (such as Motorola Milestone II, Motorola Defy and Nokia N8, among others) and the launching of new promotions to its subscribers. In this sense, the focus on market position and innovation in Smartphones leverage by its strategy of Personal Black, allowed Personal to lead in Smartphones handsets sales with more than 53% of participation.

Furthermore, with the consolidation of the 3G network, that already covers 82% of population; Personal continued launching different connectivity plans that provide alternatives for the need of each client type with limited time or data volume packages, both for 3G modems and handsets.

In addition, among the most remarkable services of FY10 and specifically for Mother's Day, Personal presented an integrated offer with new plans and benefits for Club Personal clients, together with some free services, such as Personal Email, and Pack 2.0 to access to social networks, allowed continuing incentivizing VAS usage. Also the new BlackBerry Mail and BlackBerry Redes offerings were launched and were included in the All Inclusive Plans.

During FY10, Personal continued with its strategy of fostering benefits such as service packs and recharges to its client base (double and triple credit).

Finally, Personal presented the second experience in development and investigation in fourth generation technology (4G) in the country. With Personal 4G, high definition video streaming tests, video calls, high speed files transfers, among others services were tested, where speeds of 50 Mb per second were exceeded. In this way, Personal continued to be distinguished as pioneer in innovation by offering the new technologies that would revolutionize mobile services.

Telecom Personal in Paraguay

By the end of December 2010, Nucleo's subscriber base increased to approximately 1.9 million clients (+4% vs. FY09), including Wimax clients. Prepaid and Postpaid customers represented 85% and 15%, respectively.

Personal's subsidiary in Paraguay generated revenues equivalent to P\$538 million during FY10 (+22% vs. FY09) with increases in the level of ARPU.

Fixed Services (Voice, Data Transmission & Internet)

During FY10 revenues generated by fixed services amounted to P\$4,640 million, +12% vs. FY09; with internet revenues growing in relative terms the most in this segment (+30% vs. FY09), followed by Data (+23% vs. FY09).

Table of Contents

Voice

Total Revenues for this service reached P\$2,928 million in FY10 (+4% vs. FY09). The results of this line of business continue to be affected by frozen tariffs of regulated services and lower interconnection revenues.

Monthly Charges and Supplementary Services increased by P\$42 million, or 5% vs. FY09, to P\$884 million, as a consequence of a higher number of lines in service (+1%), which surpassed 4.1 million, and a 17% increase in supplementary services.

Revenues generated by Local and Domestic Long Distance Measured Services and International Services totaled P\$1,341 million, an increase of P\$66 million or 5% vs. FY09. In relative terms, revenues from local calls increased the most, with 9% vs. FY09, mainly due to the incorporation of flat rate packs and, secondly, by domestic long distance traffic (+5% vs. FY09). Meanwhile, revenues from international services remained at similar levels, compared to the same period from last year.

Interconnection revenues decreased to P\$435 million (-3% vs. FY09), mainly due to low traffic derived by the incorporation of new interconnection points with mobile operators.

Public telephony decreased to P\$61 million (-P\$9 million vs. FY09). Finally, other revenues totaled P\$207 million (+9% vs. FY09) mainly due to higher income related to billing and collection services and fixed line equipment sales.

During FY10, the Company launched new Aladino handsets, coupled with more services to continue innovating in fixed services.

Data Transmission and Internet

Data transmission revenues amounted to P\$338 million (+23% vs. FY09), where the focus was to strengthen Telecom's position as an integrated ICT provider.

During FY10 the Virtual Central service was launched, a communications platform that combines the traditional PBX service (Transfers, rerouting of calls and redials) with advanced functions that incorporate the integration with IT tools. This IP technology based service allows savings in infrastructure costs and also updates clients' communications.

During 4Q10, commercial offers to promote Data services were intensified in the SMEs segment. As a result, there was an annual increase of 42% in Internet and Virtual Private Networks (VPN) accesses. In this period, sales from ArnetBIZ Plus offered to professionals and businesses through a connection

experience, proprietary inbox domain and presence in the web, increased by 68% vs. FY09.

Table of Contents

Revenues related to Internet totaled P\$1,374 million (+P\$316 million or 30% vs. FY09), mainly due to the continued expansion of broadband services.

As of December 31, 2010, Telecom reached 1.38 million ADSL accesses (+14% vs. FY09). These connections represented 34% of Telecom's fixed lines in service. In addition, ADSL ARPU reached P\$76 in FY10, +14% when compared to FY09 and churn reached 1.4% in FY10 (vs. 1.8% in FY09).

During 4Q10, Telecom continued enhancing broadband domestic use, under the slogan "Internet en Todo" (Internet everywhere), that positions the Internet as a tool for the different aspects of everyday life, including access to information, entertainment, security and interaction through social networks. With this concept, Arnet presented its bundled offers with other complementary services such as local calls or mobile Internet.

Following this initiative of promoting Internet as the main communication tool, the bundling offer Arnet 3 Mb Wi-Fi at home plus Arnet Mobile was launched during 4Q10. More than 15% of Arnet Broadband customers hired also Arnet Mobile.

To motivate the online sales channel, specific offers as Pack Arnet (Internet plus local calls) were launched and well accepted: in 4Q10 more than 50% of broadband adds occurred packed with local calls.

Consolidated Operating Costs

The Cost of Services Provided, Administrative Expenses and Selling Expenses totaled P\$11,478 million in FY10, an increase of P\$2,014 million, or +21%, vs. FY09. The increase is a consequence of higher commercial costs due to a higher volume of revenues, inflationary effects on the general cost structure, and greater expenses related to competition in the industry.

The cost breakdown is as follows:

Salaries and Social Security Contributions totaled P\$1,880 million (+25% vs. FY09), mainly affected by increases in salaries due to the new labor agreement and the increase in employees. Regarding personnel, in the same period the incorporation of 563 employees in the mobile business was partially compensated by the decrease in headcount in the fixed line business (-234 employees vs. FY09). Total headcount at the end of the period was 15,629 employees.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Taxes reached P\$1,261 million (+26% vs. FY09), impacted by higher rates in turnover taxes and higher municipal and provincial rates and fees paid to regulatory entities that mainly were influenced by a higher volume of revenues. It was also affected by taxes related to debit and credit tax associated to the dividend payment and to the cancellation of the Notes of Telecom Personal.

Table of Contents

Network access costs (includes TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$1,390 million, +P\$18 million vs. FY09. This was mainly due to savings from stimulating on-net traffic among mobile clients.

Agents, prepaid card commissions and other commissions were P\$1,286 million (+20% vs. FY09), mainly due to the increase in commissions paid to commercial agents associated with higher revenues from more sophisticated handsets, higher costs associated with a higher volume of acquisitions and retention of customers and higher cards sales and prepaid recharges.

Advertising amounted to P\$451 million (+25% vs. FY09), oriented towards supporting the commercial activity in mobile and Internet services and to strengthen the Telecom Group brand position.

Cost of handsets sold totaled P\$1,541 million (+36% vs. FY09) due to a change in the mix of handset sold, increased sales of high-end handsets and a higher number of handsets upgrades, this to stimulate VAS usage. These effects resulted in the increase of the average cost of handsets. Additionally, this was affected by the increase in Internal Tax, better known as the Technological Tax.

Fees for services amounted to \$663 million (+33% vs. FY09), principally due to higher costs from the call centers, with more services requirements, and to the inflationary effects on the prices of these services.

Depreciation of Fixed and Intangible Assets reached P\$1,354 million (+19% vs. FY09). Fixed-line telephony totaled P\$719 million (+8% vs. FY09) and mobile services totaled P\$635 million (+34% vs. FY09), due to higher investment in fixed assets.

Others Costs totaled P\$1,652 million (+19% vs. FY09). This increase was mainly due to general increases in services such as maintenance, materials and supplies, transportation, freight and rental expenses. The decrease in bad debt expenses of 9% vs. FY09 is notable. There was also an increase in cost related to VAS, such as content offers, similar to that evidenced in recent periods.

Financial and Holding Results

Consolidated Financial and Holding Results

(In million P\$)

		FY09	FY10
Financial and Holding Results resulted in a loss of P\$34 million, a decrease of P\$295 million vs. FY09. This was mainly due to losses for FX results of P\$99 million in FY10 (losses of P\$211 million vs. FY09); and a gain in net financial interest of P\$68 million in FY10 (+P\$84 million vs. FY09), partially compensated by losses in holding on inventories by P\$15 million in FY10 (+P\$8 million vs. FY09).	Net Interests	-\$ 16	\$ 68
	FX results	-\$ 310	-\$ 99
	Others	-\$ 3	-\$ 3
	Total	-\$ 329	-\$ 34

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Consolidated Net Financial Position

As of December 31, 2010, Net Financial Position (Cash, Cash Equivalents and current Investments minus Loans) totaled P\$1,224 million in cash, an

Table of Contents

improvement of P\$755 million vs. Net Financial Position as of December 2009. This was due to the strong cash flow generation evidenced in the period that allowed the payment of P\$1,053 million in dividends.

During 4Q10, Personal made the total amortization of its Series 3 Notes for an amount of approximately U\$S173 million after the purchases previously performed and informed.

Consolidated Capital Expenditures

During FY10, the Company invested P\$1,974 million (excluding materials). This amount was allocated to Voice, Data and Internet businesses (P\$943 million) and Mobile services (P\$1,031 million). In relative terms, capex reached 13% of net consolidated revenues.

Main capex projects are related to the deployment of 3G services to support the growth of mobile Internet together with the launch of innovative VAS. Moreover, with these investments, the Company foresees the expansion of ADSL services to improve transmission and speed available to clients together with the expansion of backhaul networks to meet the growing services demand of our fixed and mobile clients.

Other Relevant Matters

The Extraordinary and Ordinary Shareholders Meeting held on November 30, 2010 has resolved to approve the modification of the Bylaws and determine the number of Directors and Alternate Directors and the appointment of them.

Recent Relevant Matters

The Board of Directors of Telecom Argentina proposed to the Shareholders Meeting a cash dividend payment proposal of P\$915.5 million (equivalent to P\$0.93 per share).

Complementary Information IFRS

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

With the aim to provide complementary information, in Annexes 9 and 10 of this release a detail of the Income Statement and Shareholders' Equity under the new International Financial Reporting Standards (IFRS) were included. Additional information on the application of IFRS is included in Note 14 of the Consolidated Financial Statements.

Table of Contents

Telecom is the parent company of a leading telecommunications group in Argentina, where it offers, either or through its controlled subsidiaries local and long distance fixed-line telephony, cellular, data transmission and Internet services, among other services. Additionally, through a controlled subsidiary, the Telecom Group offers cellular services in Paraguay. The Company commenced operations on November 8, 1990, upon the Argentine government's transfer of the telecommunications system in the northern region of Argentina.

Nortel Inversora S.A. (Nortel), which acquired the majority of the Company from the Argentine government, holds 54.74% of Telecom's common stock. Nortel is a holding company whose common stock (approximately 68% of capital stock) is owned by Sofora Telecomunicaciones S.A. Additionally, Nortel capital stock comprised of preferred shares that are held by minority shareholders.

As of December 31, 2010, Telecom had 984,380,978 shares outstanding.
