The Company announces its unaudited revenue for March 2011

1. Date of occurrence of the event: 2011/04/11

2. Company name: Chunghwa Telecom Co., Ltd.

3. Relationship to the Company (please enter head office or affiliate company ): Head office

4. Reciprocal shareholding ratios: N/A

5. Cause of occurrence: Chunghwa Telecom today announced its revenue for March 2011. Total revenue increased by 4.9% year-over-year to NT\$15.34 billion. Operating income increased by 2.8% year-over-year to NT\$4.22 billion, net income increased by 12.5% year-over-year to NT\$3.86 billion and EPS increased by 40.0% to NT\$0.49. The revenue increase was primarily attributable to the rise in local fixed line revenue resulting from the shift of the pricing right of a fixed-to-mobile call from mobile operators to fixed network operators as well as the growth in the mobile value added services which offset the impact on mobile revenue caused by the shift of pricing right. Operating income increased year-over-year, primarily due to the increase in total revenue. Net income increase was primarily due to the increase in the proceeds from disposal of fixed asset and reflecting the income tax rate reduction from 25% to 17%. EPS increased year-over-year, mainly attributable to the increase in net income and the capital reduction in January 2011 which decreased the number of weighted average outstanding shares. The shift of the pricing right starting from year 2011 increased domestic fixed revenues by 14.9% and decreased mobile businesses revenues by 4.1% year over year respectively in March. To be comparable with alternative mobile operators, if including the interconnection and transition fee received from fixed-line segment, the mobile revenue for March 2011 will increase 4.7% year-over- year in March.
