**Item 8.01 Other Events.**

On September 23, 2011, we announced that we propose to offer, subject to market conditions, senior secured discount notes due 2017 (the Notes ) expected to yield gross proceeds of approximately \$370.0 million. If the offering is consummated, the net proceeds from the offering of the Notes would be used for development and operating capital, including completion of the Phase 3 clinical trials of our lead product candidate, AFREZZA, preparing for commercialization of AFREZZA, continuing the build-out of our Danbury, Connecticut manufacturing facility, ongoing research and development efforts, and general corporate purposes.

The Notes have not been registered under the Securities Act of 1933, as amended (the Securities Act ) or applicable state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state laws. The Notes may be resold by the initial purchasers pursuant to Rule 144A and Regulation S under the Securities Act. This Current Report on Form 8-K does not constitute an offer to sell or the solicitation of an offer to buy the Notes.

We are filing the following information with the Securities and Exchange Commission for the purpose of updating certain aspects of our publicly disclosed descriptions of our business:

We have recently confirmed with the Food and Drug Administration, or the FDA, the design of two clinical studies that will evaluate the efficacy and safety of AFREZZA. The study in patients with type 1 diabetes is now underway and the study in patients with type 2 diabetes will begin shortly. Subject to the timely enrollment of patients in these studies, we currently expect to complete both of these studies during 2012 and to submit the results as an amendment to our new drug application to the FDA by early 2013.
