**EXPLANATORY NOTE**

The Form 6-K filed by Textainer Group Holdings Limited (the Company) on November 4 with the Company's third quarter 2011 earnings press release contained an incorrect cash flow statement due to an error by the Company's financial printer. The last six lines at the bottom of the Condensed Consolidated Statement of Cash Flows appearing on Page 10 of earnings press release contain data for prior periods that were previously disclosed in the Company's 2010 Form 20-F and were not intended to be included in this statement and are not accurate for the periods indicated. The Company is filing this Amended Form 6-K solely to remove these 6 lines from the Condensed Consolidated Statement of Cash Flows and the Company has made no other changes from the Form 6-K previously filed.

This report contains a copy of the press release entitled Textainer Group Holdings Limited Reports Third Quarter and Nine Months 2011 Results and Declares Quarterly Dividend, dated November 4, 2011.

**Exhibit**

1. Press Release dated November 4, 2011

**Textainer Group Holdings Limited Reports Third Quarter and Nine Months**

**2011 Results and Declares Quarterly Dividend**

*Raises Dividend by 6.1% to \$0.35 per Common Share, Representing Seventh Consecutive Increase to Quarterly Payout*

**Third Quarter and Year-to-Date 2011 Highlights**

Recorded net income attributable to Textainer Group Holdings Limited common shareholders of \$45.8 million, or \$0.92 per diluted common share, for the third quarter and \$134.7 million, or \$2.70 per diluted common share, for the nine months ended September 30, 2011;

Recorded net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to noncontrolling interest ( NCI )(1) of \$49.3 million, or \$0.99 per diluted common share, for the third quarter, and \$125.2 million, or \$2.51 per diluted common share, for the nine months ended September 30, 2011;

Increased average fleet utilization to 98.6% for the third quarter of 2011 from 98.0% for the third quarter of 2010;

Utilized balance sheet strength to order 177,000 Twenty-Foot Equivalent Units ( TEU ) of new standard dry-freight containers and 16,000 TEU of new refrigerated containers, both for delivery through December 2011, and purchased 212,000 TEU of used containers, including those we previously managed and additional containers from purchase-leaseback transactions, for a total of 405,000 TEU, representing \$787 million of capital expenditures year-to-date, a new record;

Completed a capital restructuring of our primary asset-owning subsidiary, Textainer Marine Containers Limited ( TMCL ), effective June 30, 2011, whereby our wholly-owned subsidiary, Textainer Limited ( TL ), now owns 100% of TMCL. The restructuring resulted in a \$19.8 million gain on sale of containers to the prior noncontrolling interest holder for the nine months ended September 30, 2011. The gain was the result of recognizing the fair value of containers and direct finance leases in excess of their book value exchanged for TMCL s common shares at the time of the transaction. This was a noncash transaction;

Paid a \$0.33 per common share dividend on August 26, 2011 to all shareholders of record as of August 19, 2011; and

Declared a dividend increase of 6.1% to \$0.35 per common share, payable on November 28, 2011 to all shareholders of record as of November 14, 2011.

---

HAMILTON, Bermuda, November 4, 2011 (BUSINESS WIRE) Textainer Group Holdings Limited (NYSE:TGH) (Textainer, the Company, we and our), the world's largest lessor of intermodal containers based on fleet size, today reported results for the third quarter and nine months ended September 30, 2011.

Total revenue for the third quarter 2011 was \$109.5 million, which was an increase of \$33.9 million, or 45%, compared to \$75.6 million for the prior year comparable quarter. For the nine months ended September 30, 2011, total revenue was \$306.4 million, which was an increase of \$86.5 million, or 39% compared to \$219.9 million for the prior year comparable period. EBITDA(1) (see GAAP to non-GAAP reconciliations) for the third quarter 2011 was \$86.6 million, which was an increase of \$30.2 million, or 54%, compared to \$56.4 million for the prior year comparable quarter. The increase in EBITDA(1) for the third quarter 2011 compared to the prior year comparable quarter was primarily due to a 32.8% increase in the Company's owned fleet size, a 5.5% increase in per diem rental rates and a 0.6 percentage point improvement in utilization. EBITDA(1) for the nine months ended September 30, 2011 was \$243.0 million, which was an increase of \$89.3 million, or 58%, compared to \$153.7 million for the prior year comparable period. The increase in EBITDA(1) for the nine months ended September 30, 2011 compared to the prior year comparable period was primarily due to a 30.1% increase in the Company's owned fleet size, a 9.4% increase in per diem rental rates and a 4.0 percentage point improvement in utilization.

Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) for the third quarter 2011 was \$49.3 million, which was an increase of \$16.0 million, or 48%, compared to \$33.3 million for the prior year comparable quarter. Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) for the third quarter 2011 was positively affected by the increases in the Company's owned fleet size and per diem rental rates and the improvement in utilization. In addition, Textainer has experienced a significant increase in container resale prices over the last two years as a result of the shortage of older containers available for sale and the increased cost of new containers. Based on this extended period of higher realized container resale prices and Textainer's expectation that new equipment prices will remain near recent levels, Textainer increased the estimated future residual values of its containers used in the calculation of depreciation expense during the third quarter of 2011, which resulted in \$4.8 million less depreciation expense than would have been recorded using the prior residual values during the current quarter. Net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) for the third quarter 2011 was \$0.99 per share, which was an increase of \$0.32 per share, or 48%, compared to \$0.67 per share for the prior year comparable quarter.

Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) for the nine months ended September 30, 2011 was \$125.2 million, which was an increase of \$37.4 million, or 43%, compared to \$87.8 million for the prior year comparable period. Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) for the nine months ended September 30, 2011 was positively affected by the increases in the Company's owned fleet size and per diem rental rates, the improvement in utilization and the \$4.8 million decrease in depreciation expense resulting from Textainer increasing the estimated future residual values of its containers during the current quarter. Net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) for the nine months ended September 30, 2011 was \$2.51 per share, which was an increase of \$0.72 per share, or 40%, compared to \$1.79 per share for the prior year comparable period.

Net income attributable to Textainer Group Holdings Limited common shareholders for the third quarter 2011 was \$45.8 million, which was an increase of \$15.1 million, or 49%, compared to \$30.7 million for the prior year comparable quarter. The increase in net income attributable to Textainer Group Holdings Limited common shareholders for the third quarter 2011 was primarily due to the increases in the Company's owned fleet size and per diem rental rates, the improvement in utilization and the \$4.8 million decrease in

depreciation expense resulting from the increase in Textainer's estimated future residual values of its containers. Net income attributable to Textainer Group Holdings Limited common shareholders for the nine months ended September 30, 2011 was \$134.7 million, which was an increase of \$54.7 million, or 68%, compared to \$80.0 million for the prior year comparable period. The increase in net income attributable to Textainer Group Holdings Limited common shareholders for the nine months ended September 30, 2011 was primarily due to the \$19.8 million gain on sale of containers to NCI, the increases in the Company's owned fleet size and per diem rental rates, the improvement in utilization and the \$4.8 million decrease in depreciation expense resulting from the increase in Textainer's estimated future residual values of its containers.

Net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share for the third quarter 2011 was \$0.92, which was an increase of \$0.30 per share, or 48%, from the \$0.62 per share for the prior year comparable quarter. Net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share for the nine months ended September 30, 2011 was \$2.70, which was an increase of \$1.07 per share, or 66%, from the \$1.63 per share for the prior year comparable period.

Philip K. Brewer, President and Chief Executive Officer of Textainer, commented, "Textainer achieved solid results for the third quarter of 2011 aided by a total of \$787 million of capital expenditures year-to-date, a new record. Continued high utilization and historically high sales prices for our older containers being retired from marine service also contributed to our results. With 78% of our fleet committed to long-term and direct financing leases, we have a sizeable contracted revenue stream which we expect will continue to provide our shareholders with attractive returns. Also, as a result of our previously announced restructuring of TMCL, TL now owns 100% of TMCL. We acquired the related noncontrolling equity interest which benefited our shareholders.

Mr. Brewer continued, "Textainer's Board declared a dividend increase for the seventh consecutive quarter. Our third quarter 2011 dividend represents an increase of 6.1% from our previous quarterly payout and continues our record of providing stable or increasing dividends since going public in 2007.

Mr. Brewer added, "John Maccarone retired in October after 24 years of service to Textainer. Under his guidance, Textainer grew from a small leasing company with a fleet of 38,000 TEU to become the world's largest lessor with more than 2.4 million TEU and a leader in the industry. We join the shareholders in thanking him for his outstanding leadership and commitment to excellence. We are grateful that we will continue to benefit from his experience as he will remain on our Board of Directors.

## **Outlook**

### *Industry*

2011 has been a record year by several measures. Capital expenditures for new standard dry-freight and refrigerated containers is the highest in our history, in-fleet container utilization continues to remain at or near historic highs and demand for depot equipment remains strong. Demand for new standard dry-freight containers began to slow during the second quarter. We don't expect to order many more through year end because we believe we already have a sufficient supply of new containers available. The demand for refrigerated containers remains strong. We have already ordered more than twice as many refrigerated containers for delivery through December 2011 than in any year in our history.

At this point, we expect that high in-fleet utilization will continue through at least the remainder of 2011.

Resale prices appear to have peaked, and even begun to decline slightly in some locations. Nonetheless, relative to the last ten years, current price levels remain very high.

*Strategic Focus*

TMCL's issuance of \$400 million in fixed rate asset backed notes in June represented one of the largest container securitizations in history and again demonstrated Textainer's ability to attract strong investor support in the debt markets. With a debt-to-equity ratio of 2.3:1, we are in a strong position to continue purchasing both new and used containers to meet market demand and maintain our industry leading position.

**Dividend**

On November 2, 2011, Textainer's board of directors approved and declared a quarterly cash dividend of \$0.35 per share on Textainer's issued and outstanding common shares, payable on November 28, 2011 to shareholders of record as of November 14, 2011. This dividend is an increase of \$0.02 per share from the prior quarter and will continue Textainer's history of paying constant or higher dividends every quarter since our October 2007 initial public offering. Combined, these dividends have averaged 44% of net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) during this period. The current dividend represents 35% of net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI(1) for the third quarter.

**Investors Webcast**

Textainer will hold a conference call and a Webcast with an accompanying slide presentation at 11:00 am EDT on Friday, November 4, 2011 to discuss Textainer's third quarter results 2011. An archive of the Webcast will be available one hour after the live call through November 4, 2012. For callers in the U.S. the dial-in number for the conference call is 877-303-9078; for callers outside the U.S. the dial-in number for the conference call is 970-315-0455. To access the live Webcast or archive, please visit Textainer's website at <http://www.textainer.com>.

**About Textainer Group Holdings Limited**

Textainer has operated since 1979 and is the world's largest lessor of intermodal containers based on fleet size. We have a total of more than 1.6 million containers, representing more than 2.4 million TEU, in our owned and managed fleet. We lease containers to approximately 400 shipping lines and other lessees. We lease dry freight containers, which are by far the most common of the three principal types of intermodal containers, as well as specialized and refrigerated containers. We have also been one of the largest purchasers of new containers among container lessors over the last 10 years. We are one of the largest sellers of used containers, having sold more than 77,000 containers during the last calendar year to more than 1,100 customers. We provide our services worldwide via a network of regional and area offices and independent depots.

**Important Cautionary Information Regarding Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical facts and include, without limitation, statements regarding: (i) Textainer's expectation that its sizeable contracted revenue stream will continue to provide its shareholders with attractive returns; (ii) Textainer's expectation that Textainer will not order many more new standard dry freight containers through year end because it believes it already has a sufficient supply of new containers available from orders during the first half of the year; (iii) Textainer's belief that, at this point, it expects that high in-fleet utilization will continue through at least the remainder of 2011; (iv) Textainer's belief that resale prices have peaked; and (v) Textainer's belief that it is in a strong position to continue purchasing both new and used containers to meet market demand and maintain its industry leading position. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. These risks and uncertainties include, without limitation, the following: any deceleration

or reversal of the current domestic and global economic recoveries may materially and negatively impact our business, results of operations, cash flows, financial condition and future prospects; lease rates may decrease, which could harm our business, results of operations and financial condition and lessee defaults may harm our business, results of operations and financial condition by decreasing revenue and increasing storage, repositioning, collection and recovery expenses; we own a large and growing number of containers in our fleet and are subject to significant ownership risk; further consolidation of container manufacturers or the disruption of manufacturing for the major manufacturers could result in higher new container prices and/or decreased supply of new containers and any increase in the cost or reduction in the supply of new containers could harm our business, results of operations and financial condition; the demand for leased containers depends on many political and economic factors beyond Textainer's control; the demand for leased containers is partially tied to international trade and if this demand were to decrease due to increased barriers to trade, or for any other reason, it could reduce demand for intermodal container leasing, which would harm our business, results of operations and financial condition; as we increase the number of containers in our owned fleet, we will have significant capital at risk and may need to incur more debt, which could result in financial instability; Textainer faces extensive competition in the container leasing industry; the international nature of the container shipping industry exposes Textainer to numerous risks; gains and losses associated with the disposition of used equipment may fluctuate and adversely affect our business, results of operations and financial condition; our indebtedness reduces our financial flexibility and could impede our ability to operate; and other risks and uncertainties, including those set forth in Textainer's filings with the Securities and Exchange Commission. For a discussion of some of these risks and uncertainties, see Item 4 Risk Factors in Textainer's Quarterly Report on Form 6-K and Item 3 Key Information Risk Factors in Textainer's Annual Report on Form 20-F filed with the Securities and Exchange Commission on August 12, 2011 and March 18, 2011, respectively.

Textainer's views, estimates, plans and outlook as described within this document may change subsequent to the release of this press release. Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

Reconciliation of GAAP financial measures to non-GAAP financial measures

Three and Nine Months Ended September 30, 2011 and 2010

(Unaudited)

(All currency expressed in United States dollars in thousands, except per share amounts)

- (1) The following is a reconciliation of certain GAAP measures to non-GAAP financial measures (such items listed in (a) to (d) below and defined as Non-GAAP Measures ) for the three and nine months ended September 30, 2011 and 2010, including:
- (a) net income attributable to Textainer Group Holdings Limited common shareholders to EBITDA (EBITDA defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and interest expense, realized and unrealized losses on interest rate swaps and caps, net, income tax expense, net income attributable to the noncontrolling interest ( NCI ), depreciation and amortization expense, gain on sale of containers to NCI and the related impact of reconciling items on net income attributable to the NCI);
  - (b) net cash provided by operating activities to EBITDA (for the nine months ended September 30, 2011 and 2010 only);
  - (c) net income attributable to Textainer Group Holdings Limited common shareholders to net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI (defined as net income attributable to Textainer Group Holdings Limited common shareholders before unrealized losses on interest rate swaps, net, gain on sale of containers to NCI and the related impact of reconciling items on net income attributable to the NCI); and
  - (d) net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share to net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI (defined as net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share before unrealized losses on interest rate swaps, net, gain on sale of containers to NCI and the related impact of reconciling items on net income attributable to the NCI).

Non-GAAP Measures are not financial measures calculated in accordance with U.S. generally accepted accounting principles ( GAAP ) and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. Non-GAAP Measures are presented solely as supplemental disclosures. Management believes that EBITDA may be a useful performance measure that is widely used within our industry and net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI may be a useful performance measure because Textainer intends to hold its interest rate swaps until maturity and over the life of an interest rate swap held to maturity the unrealized (gains) losses will net to zero. EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison.

Management also believes that net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI and net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI are useful in evaluating our operating performance because unrealized losses on interest rate swaps, net and gain on sale of containers to NCI are both noncash items and unrealized losses on interest rate swaps is a non-operating item. We believe Non-GAAP Measures provide useful information on our earnings from ongoing operations. We believe that EBITDA provides useful information on our ability to service our long-term debt and other fixed obligations and on our ability to fund our expected growth with internally generated funds. Non-GAAP Measures have limitations as analytical tools, and you should not consider either of them in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are:

They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

They do not reflect changes in, or cash requirements for, our working capital needs;

EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;

Although depreciation is a noncash charge, the assets being depreciated may be replaced in the future, and neither EBITDA, net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI or net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share excluding unrealized losses on interest rate swaps, net and gain on sale of containers to NCI reflects any cash requirements for such replacements;

They are not adjusted for all noncash income or expense items that are reflected in our statements of cash flows; and

Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.
