**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On December 2, 2011, Koppers Holdings Inc. (the Company) committed to cease operations at its carbon black manufacturing facility in Kurnell, New South Wales, Australia. The decision was made as a result of a detailed analysis of the manufacturing assets in light of deteriorating operating conditions including raw material availability and cost, competition in export markets due to the strength of the Australian dollar, and a variety of other factors. Manufacturing operations at the facility will cease during the week of December 5, 2011 and the facility will transition to closure over the next four months.

The Company expects the closure plan to result in a pre-tax charge to earnings of approximately \$14 to \$18 million over two years. The total after-tax charge to earnings for the closure costs is expected to be approximately \$7 to \$9 million, of which approximately \$6 to \$8 million is expected to be incurred in the fourth quarter of 2011. Estimates of the total pre-tax amount the Company expects to incur for each major type of cost associated with the closure plan are: (i) severance costs of approximately \$3 million, (ii) demolition costs of approximately \$5 to \$6 million, (iii) site remediation costs of approximately \$5 to \$8 million, and (iv) inventory write-downs of approximately \$1 million.

Of the pre-tax charges of \$14 to \$18 million, approximately \$12 to \$16 million is expected to negatively impact cash flow, of which approximately \$1 million is expected to be paid during the fourth quarter of 2011. The net cash impact of the closure is estimated to be minimal due to the positive effect of reduced working capital combined with tax deductions that are expected to reduce future income tax payments.

In connection with the foregoing, the Company issued a press release on December 5, 2011, a copy of which is attached hereto as Exhibit 99.1 and incorporated herein by reference.

99.1 Press Release dated December 5, 2011

**Forward-Looking Statements**

The statements made in this Form 8-K regarding the amount and timing of the charge to earnings the Company expects to record, the estimates of the total costs expected for each major type of cost and the expected cash outlays constitute forward looking statements for purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those expressed by these forward-looking statements as a result of various important factors, including: finalization of employee severance arrangements; finalization of the accounting impact of the closure; higher than expected demolition, site clearing, environmental remediation or asset retirement costs; and other factors and risks discussed in the Company's latest annual report on Form 10-K. In addition, the forward-looking statements represent estimates only as of today and should not be relied upon as representing estimates as of any subsequent date. The Company disclaims any obligation to update publicly any forward-looking statements, whether in response to new information, future events or otherwise, except as required by applicable law.
