Notes to Condensed Consolidated Financial Statements

(Unaudited, In Thousands Except Per Share Amounts)

1. DESCRIPTION OF COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Alaska Communications Systems Group, Inc. (we , our , us , the Company and ACS), a Delaware corporation, through its operating subsidiaries provides telecommunications and network services to consumer, business and enterprise customers in the State of Alaska and beyond using its statewide and interstate telecommunications network.

The accompanying condensed consolidated financial statements represent the consolidated financial position, comprehensive income and cash flows of Alaska Communications Systems Group, Inc. and the following wholly owned subsidiaries:

Alaska Communications Systems Holdings, Inc. (ACS Holdings)	Crest Communications Corporation (Crest)
ACS of Alaska, Inc. (ACSAK)	WCI Cable, Inc.
ACS of the Northland, Inc. (ACSN)	WCIC Hillsboro, LLC.
ACS of Fairbanks, Inc. (ACSF)	Alaska Northstar Communications, LLC.
ACS of Anchorage, Inc. (ACSA)	WCI Lightpoint, LLC.
ACS Wireless, Inc. (ACSW)	Worldnet Communications, Inc.
ACS Long Distance, Inc. (ACSLD)	Alaska Fiber Star, LLC.
ACS Internet, Inc. (ACSI)	
ACS Messaging, Inc. (ACSM)	
ACS Cable Systems, Inc. (ACSC)	

In addition to the wholly owned subsidiaries, the Company has a 49% interest in TekMate, LLC which is represented in the Company s condensed consolidated financial statements as an equity method investment.

Basis of Presentation

The accompanying condensed consolidated financial statements and footnotes included in this Quarterly Report on Form 10-Q should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2011. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles (GAAP) in the United States of America have been condensed or omitted pursuant to rules and regulations of the Securities and Exchange Commission (SEC). The Company believes the disclosures made are adequate to make the information presented not misleading.

In the opinion of management, the condensed consolidated financial statements contain all normal, recurring adjustments necessary to present fairly the consolidated financial position, comprehensive income and cash flows for all periods presented. The comprehensive income for the three months ended March 31, 2012, is not necessarily indicative of comprehensive income which might be expected for the entire year or any other interim periods.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Company s consolidated financial statements and the accompanying notes, including estimates of probable losses and expenses. Actual results could differ materially from those estimates.

Recently Adopted Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

(ASU 2011-04). The amendments contained in this ASU result in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. ASU 2011-04 is effective prospectively for interim and annual periods beginning after December 15, 2011 and was adopted by the Company in the first quarter of 2012. See Note 2 - Fair Value Measurements, for the disclosure requirements of ASU 2011-04. Adoption of ASU 2011-04 did not have a material effect on the Company's consolidated financial statements.

ALASKA COMMUNICATIONS SYSTEMS GROUP, INC.

Notes to Condensed Consolidated Financial Statements

(Unaudited, In Thousands Except Per Share Amounts)

1. DESCRIPTION OF COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In June 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income* (ASU 2011-05). This ASU requires that the components of net income, the components of other comprehensive income and the total of comprehensive income be presented as a single continuous financial statement or in two separate but consecutive statements. The option of presenting other comprehensive income in the statement of stockholders' equity is eliminated. This update also requires the presentation on the face of the financial statements of reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statements where the components of net income and the components of other comprehensive income are presented. In December 2011, the FASB issued ASU No. 2011-12, which deferred the effective date of the requirement to present reclassification adjustments indefinitely. ASU 2011-05 and ASU 2011-12 are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company adopted ASU 2011-05, as amended by ASU 2011-12, in the first quarter of 2012, and presents net income and comprehensive income as a single financial statement.

In September 2011, the FASB issued ASU No. 2011-08, *Intangibles-Goodwill and Other (Topic 350): Testing for Goodwill Impairment* (ASU 2011-08). This ASU amends existing guidance by giving an entity the option to first assess qualitative factors to determine whether it is more-likely-than-not that the fair value of a reporting unit is less than its carrying amount. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If an entity determines that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, then the performance of the two-step goodwill impairment test is required. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, and was adopted by the Company in the first quarter of 2012. The Company conducts its annual assessment of goodwill during the fourth quarter. Adoption did not have a material effect on the Company's consolidated financial statements.

2. FAIR VALUE MEASUREMENTS

The Company has developed valuation techniques based upon observable and unobservable inputs to calculate the fair value of non-current monetary assets and liabilities. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect internal market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical instruments in active markets;

Level 2 - Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations whose inputs are observable or whose significant value drivers are observable; and

Level 3 - Significant inputs to the valuation model are unobservable.

The fair values of cash and cash equivalents, restricted stock, net accounts receivable, and payable, other short-term monetary assets and liabilities and capital leases approximate carrying values due to their nature. The fair value of the Company's 2010 Senior Credit Facility, convertible notes and other long-term obligations of \$505,292 at March 31, 2012, were estimated based primarily on quoted market prices (Level 1). The carrying values of these liabilities totaled \$564,282 at March 31, 2012.

Fair Value Measurements on a Recurring Basis

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

Financial assets and liabilities are classified within the fair value hierarchy in their entirety based on the lowest level of input that is significant to the fair value measurements. The Company's assessment of the significance of a particular input to the fair value measurements requires judgment and may affect the valuation of the assets and liabilities being measured, as well as their level within the fair value hierarchy.

Table of Contents**ALASKA COMMUNICATIONS SYSTEMS GROUP, INC.****Notes to Condensed Consolidated Financial Statements****(Unaudited, In Thousands Except Per Share Amounts)****2. FAIR VALUE MEASUREMENTS (Continued)**

The following table presents the balances of assets and liabilities measured at fair value on a recurring basis as of March 31, 2012 and December 31, 2011, at each hierarchical level:

	March 31, 2012				December 31, 2011			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
Liabilities:								
Other long-term liabilities								
Interest rate swaps	\$ (9,397)	\$	\$ (9,397)	\$	\$ (8,478)	\$	\$ (8,478)	\$

The Company uses derivative financial instruments to hedge variable interest rate debt to manage interest rate risk. To the extent that derivative financial instruments are outstanding as of a period end, the fair value of those instruments, represented by the estimated amount the Company would receive or pay to terminate the agreement, is reported on the balance sheet.

Derivative contracts, included in Other long-term liabilities at March 31, 2012 and December 31, 2011, were comprised of interest rate swaps that are valued using models based on readily observable market parameters for all substantial terms and are classified within Level 2.

3. LONG-TERM OBLIGATIONS

Long-term obligations consist of the following at March 31, 2012 and December 31, 2011, respectively:

	2012	2011
2010 senior credit facility term loan due 2016	\$ 434,500	\$ 435,600
Debt discount - 2010 senior credit facility term loan due 2016	(3,345)	(3,528)
6.25% convertible notes due 2018	120,000	120,000
Debt discount - 6.25% convertible notes due 2018	(12,920)	(13,343)
5.75% convertible notes due 2013	21,660	26,660
Debt discount - 5.75% convertible notes due 2013	(990)	(1,529)
Capital leases and other long-term obligations	5,377	5,694
	564,282	569,554
Less current portion	(26,502)	(30,930)
Long-term obligations, net of current portion	\$ 537,780	\$ 538,624

The aggregate maturities of long-term obligations for each of the five years and thereafter subsequent to March 31, 2012, are as follows:

2012 (April 1 - December 31)	\$ 26,042
------------------------------	-----------

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

2013 (January 1 - December 31)	5,561
2014 (January 1 - December 31)	5,108
2015 (January 1 - December 31)	4,694
2016 (January 1 - December 31)	418,342
2017 (January 1 - December 31)	120,395
Thereafter	1,395

\$ 581,537

Table of Contents**ALASKA COMMUNICATIONS SYSTEMS GROUP, INC.****Notes to Condensed Consolidated Financial Statements****(Unaudited, In Thousands Except Per Share Amounts)****4. ACCUMULATED OTHER COMPREHENSIVE LOSS**

Accumulated other comprehensive loss consisted of the following at March 31, 2012 and December 31, 2011, respectively:

	2012	2011
Minimum pension liability adjustment	\$ (3,236)	\$ (3,325)
Interest rate swaps	(5,535)	(4,994)
Accumulated other comprehensive loss	\$ (8,771)	\$ (8,319)

5. STOCK INCENTIVE PLANS

Under the Company's stock incentive plan, stock options, restricted stock, stock-settled stock appreciation rights (SSARs), performance share units and other awards may be granted to officers, employees, consultants, and non-employee directors.

The following table summarizes the activity for SSARs and stock options for the three months ended March 31, 2012:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Life	Aggregate Intrinsic Value
Outstanding at December 31, 2011	317	\$ 8.64		
Granted				
Exercised				
Canceled or expired	(6)	8.00		
Outstanding at March 31, 2012	311	8.66	1.79	\$
Exercisable at March 31, 2012	311	\$ 8.66	1.79	\$

The following table summarizes the activity for restricted stock units, long-term incentive awards and non-employee director stock compensation for the three months ended March 31, 2012:

	Number of Shares	Weighted Average Fair Value
Nonvested at December 31, 2011	1,072	\$ 7.35
Granted	294	3.00
Exercised	(176)	8.29
Canceled or expired	(8)	7.39

Nonvested at March 31, 2012	1,182	\$ 6.12
-----------------------------	-------	---------

Table of Contents**ALASKA COMMUNICATIONS SYSTEMS GROUP, INC.****Notes to Condensed Consolidated Financial Statements****(Unaudited, In Thousands Except Per Share Amounts)****5. STOCK INCENTIVE PLANS (Continued)**

The following table summarizes the activity for performance share units for the three months ended March 31, 2012:

	Number of Shares	Weighted Average Fair Value
Nonvested at December 31, 2011	290	\$ 7.66
Granted	323	2.99
Exercised	(96)	6.51
Canceled or expired	(2)	6.12
Nonvested at March 31, 2012	515	\$ 4.95

The following table summarizes the assumptions used for valuation of equity instruments granted during the three months ended March 31, 2012 and 2011:

	Three Months Ended March 31,	
	2012	2011
Restricted stock:		
Risk free rate	0.21%	0%
Quarterly dividend per share	\$ 0.05	\$ 0.215
Expected annual forfeiture rate	9.00%	0%

The following table provides selected information about the Company's share-based compensation for the three months ended March 31, 2012 and 2011:

	Three Months Ended March 31,	
	2012	2011
Total compensation cost for share-based payments	\$ 717	\$ 1,344
Weighted average grant-date fair value of equity instruments granted (per share)	\$ 2.99	\$ 9.79
Total fair value of shares vested during the period	\$ 756	\$ 4,596
Total intrinsic value of options exercised	\$	\$ 1,638
Unamortized share-based payments	\$ 4,032	\$ 4,248
Weighted average period (in years) to be recognized as expense	1.7	3.2

6. EARNINGS PER SHARE

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

Earnings per share are based on the weighted average number of shares of common stock and dilutive potential common share equivalents outstanding. Basic earnings per share includes no dilution and is computed by dividing net income or loss available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect the potential dilution of securities that could share in the earnings of an entity. The Company includes dilutive stock options based on the treasury stock method. Potential common share equivalents, which consist of options, restricted stock and SSARs granted to employees, and deferred shares granted to directors, resulted in dilutive earnings per share for the three months ended March 31, 2012 and 2011. Excluded from the calculation were 36 options and 275 SSARs which were out-of-the-money and therefore anti-dilutive at March 31, 2012, and 500 SSARs which were out-of-the money and therefore anti-dilutive at March 31, 2011. Also excluded from the calculation were shares related to the Company's 5.75% Convertible Notes Due 2013 (5.75% Notes) which were anti-dilutive for the three month periods ended March 31, 2012 and 2011, and shares related to the Company's 6.25% Convertible Notes due 2018 (6.25% Notes) which were anti-dilutive for the three month period ended March 31, 2012.

Table of Contents**ALASKA COMMUNICATIONS SYSTEMS GROUP, INC.****Notes to Condensed Consolidated Financial Statements****(Unaudited, In Thousands Except Per Share Amounts)****6. EARNINGS PER SHARE (Continued)**

Earnings per share for the three months ended March 31, 2012 and 2011 were as follows:

	Three Months Ended March 31,	
	2012	2011
Net income	\$ 1,129	\$ 2,699
Weighted average common shares outstanding:		
Basic shares	45,364	44,808
Restricted stock, options and deferred shares	260	1,298
Diluted shares	45,624	46,106
Net income per share:		
Basic and diluted	\$ 0.02	\$ 0.06

7. RETIREMENT PLANS*Multi-employer Defined Benefit Plan*

Pension benefits for substantially all of the Company's Alaska-based employees are provided through the Alaska Electrical Pension Fund. The Company pays a contractual hourly amount based on employee classification or base compensation.

Defined Benefit Plan

The Company has a separate defined benefit plan that covers certain employees previously employed by Century Telephone Enterprise, Inc. (CenturyTel Plan). This plan was transferred to the Company in connection with the acquisition of CenturyTel, Inc.'s Alaska properties, whereby assets and liabilities of the CenturyTel Plan were transferred to the ACS Retirement Plan on September 1, 1999.

Net periodic benefit cost for the ACS Retirement Plan was \$150 and \$186 in the three months ended March 31, 2012 and 2011, respectively.

8. BUSINESS SEGMENTS

The Company operates its business under a single reportable segment. Effective in the first quarter of 2012, the Company changed its operational focus from a products-based business to a customer-focused business. The Company reassessed and reorganized its management and internal reporting structures and realigned its external financial reporting to support this change. The Company's chief operating decision maker assesses the financial performance of the business as follows: (i) revenues are managed on the basis of specific customers and customer groups; (ii) costs are managed and assessed functionally and generally support and cross all customer groups or revenue streams; (iii) profitability is assessed at the consolidated level; and (iv) investment decisions and the assessment of existing assets are based on the support they provide to all revenue streams. Prior to 2012, the Company operated its business under two reportable segments - Wireline and Wireless.

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

As a result of the Company's reorganization of its reporting structure, goodwill, assets other than goodwill and liabilities were reassigned to a single reporting unit. No indicators of goodwill impairment were present as of March 31, 2012.

9. COMMITMENTS AND CONTINGENCIES

The Company enters into purchase commitments with vendors in the ordinary course of business including minimum purchase agreements with certain suppliers of handsets. The Company also has long-term purchase contracts with vendors to support the ongoing needs of its business. These purchase commitments and contracts have varying terms and in certain cases may require the Company to buy goods and services in the future at predetermined volumes and at fixed prices.

The Company is involved in various claims, legal actions and regulatory proceedings arising in the ordinary course of business and has recorded litigation reserves of approximately \$550 at March 31, 2012 against certain current claims and legal actions. The Company believes that the disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, comprehensive income or cash flows. It is the Company's policy to expense costs associated with loss contingencies, including any related legal fees, as they are incurred.

On April 19, 2010, the Internal Revenue Service (IRS) issued a Notice of Proposed Adjustment (NOPA) with respect to the 2006, 2007 and 2008 taxable years of Crest, which was acquired by the Company on October 30, 2008. Crest had acquired certain entities out of bankruptcy in 2002. The original majority stockholder of these entities, an Australian insurance company, AMP, had made certain advances to the entities. These entities entered into bankruptcy in 2001 and the bankruptcy court approved a plan which effectively subordinated these advances to all other creditors. Upon acquiring the entities in 2002, Crest characterized the advances as equity for tax purposes. The IRS is asserting that characterization of the AMP advances as equity was incorrect and that Crest had additional taxable income due to the cancellation of debt.

On November 2, 2010, the IRS reissued their original NOPA and issued four additional NOPAs which restated their original position on debt versus equity and assessed the Company for accuracy related penalties and for adjustments to the tax treatment of optical cables, fibers and related conduit. On May 31, 2011, the IRS issued a 30-day letter and revenue agent's report which restated the IRS's position in the NOPAs while adding certain additional adjustments. In the third quarter of 2011, the IRS sent a rebuttal letter to the Company's responses to the NOPAs discussed above. The case has been submitted to the IRS's Appeals Office and the Company is waiting for its hearing date to be scheduled. The cancellation of indebtedness income at the amounts set out in the above IRS documents could result in a charge to income tax expense of approximately \$91,733, \$52,243 of which would be a result of additional taxes payable, including accrued interest, and \$39,490 of which would be a result of the reduction in recognized deferred tax assets. For the Company's 2008 and 2009 Federal tax returns the IRS proposed to disallow \$862 in depreciation and amortization, consistent with the above positions.

The Company believes there are errors within the adjustments asserted by the IRS. If the IRS accepts the corrections the Company believes are appropriate, but prevails on the underlying debt versus equity issue, the result is expected to be a receivable from the IRS for the overpayment of alternative minimum tax of \$2,781, a charge to income tax expense of approximately \$29,678, and a net reduction in recognized deferred tax assets. The Company believes it is more likely than not that it will prevail on factual errors included in the NOPAs; however, it is unable to conclude it is more likely than not it will prevail on the underlying debt versus equity issue. Therefore, in accordance with the guidance in ASC Topic 740, *Income Taxes* (ASC 740), the Company recorded \$29,678 in additional income tax expense and a \$2,781 receivable in the second quarter of 2010, pending resolution with the IRS.

The additional income tax expense is made up of two components: the first representing \$11,018 for the tax effect of losing NOLs while the remaining \$18,660 represents a deferred tax liability for the difference in outside basis in certain Crest subsidiaries. ASC 740 requires recognition of a deferred tax liability for outside basis differences. An outside basis difference represents the amount by which the book basis of an investment in a domestic subsidiary for financial reporting purposes exceeds the tax basis in such subsidiary. For certain Crest subsidiaries, the cancellation of debt created a difference in outside basis that the Company cannot recover in a tax free manner and as such, a deferred tax liability was established. Through enforcing indemnification rights, preserving the corporate structure of the Crest subsidiaries and other proactive steps, it is possible to mitigate most or all of the cash impact of the \$18,660 deferred tax liability for as long as the Company remains a going concern.

The Stock Purchase Agreement (SPA) underlying the Company's acquisition of Crest provides for indemnification for the Company by the Selling Stockholders of Crest. The indemnifications are intended to mitigate the impact on the Company of potential exposure items such as

those raised by the NOPAs. The

9. COMMITMENTS AND CONTINGENCIES (Continued)

Company and the Selling Stockholders intend to contest all issues raised by the NOPAs through various avenues of appeal. However, should the appeals process fail to overturn the NOPAs, should the Company be unable to preserve the corporate structure of the Crest subsidiaries and should the Company prove unable to effectively enforce the indemnification provisions in the SPA, this could have a material adverse effect on the Company's consolidated financial position, comprehensive income and cash flows.

The Company's final purchase price for Crest included \$4,169 of cash consideration placed in an escrow account to be used for the settlement of any potential claims of misrepresentations, breach of warranties or covenants or for other indemnifications. At March 31, 2012 \$3,428 remained in the escrow account to be used for the settlement of expenses related to the current IRS audit discussed above. All other escrow issues have been resolved.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements and Analysts' Reports

This Form 10-Q and our future filings on Forms 10-K, 10-Q and 8-K and the documents incorporated therein by reference include forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934 (Exchange Act), as amended. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements. All statements other than statements of historical fact are forward-looking statements for purposes of federal and state securities laws, including statements about anticipated future operating and financial performance, financial position and liquidity, growth opportunities and growth rates, pricing plans, acquisition and divestiture opportunities, business prospects, strategic alternatives, business strategies, regulatory and competitive outlook, investment and expenditure plans, financing needs and availability and other similar forecasts and statements of expectation and statements of assumptions underlying any of the foregoing. Words such as aims , anticipates , believes , could , estimates , expects , hopes , intends , may , plans , projects , seeks , should and variations of these words and similar expressions are used to identify these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. Forward-looking statements by us are based on estimates, projections, beliefs and assumptions of management and are not guarantees of future performance. Such forward-looking statements may be contained in this Form 10-Q under Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere. Actual future performance, outcomes, results and future dividend payments may differ materially from those expressed in forward-looking statements made by us as a result of a number of important factors. Examples of these factors include (without limitation):

our strongly competitive environment, which comprises national and local facilities-based competitors, and the entry of one or more additional facilities-based carriers into the Alaska market; Verizon Wireless (Verizon) is expected to enter the market during 2012;

governmental and public policy changes, including changes in our revenues resulting from regulatory actions affecting inter-carrier compensation (ICC) and changes in revenue from Universal Service Funds (USFs);

the outcome of on-going IRS audits and the ability of certain third parties to fulfill their indemnity obligations to us in the event that there is an assessment as a result of these audits;

our substantial debt which requires us to dedicate a significant portion of our cash flow from operating activities to make debt payments and places pressure on our ability to access the capital markets and to fund capital opportunities;

the cost and availability of future financing in the amounts, at the terms, and subject to the conditions necessary, to support our business and pursue growth opportunities;

our ability, and our Board's judgment about our long-term ability, to generate sufficient earnings and cash flows to continue to make dividend payments to our stockholders;

our ability to keep pace with rapid technological developments and changing standards in the telecommunications industry, including our ability to obtain new devices, spectrum, bandwidth, and other network elements;

our ability to develop attractive, integrated products and services making use of our substantial investments in fiber optic cable facilities, including our Alaska Oregon Network (AKOR[®]) and Northstar fiber optic cables that connect Alaska to the

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

contiguous states;

unanticipated damage to one or more of our fiber optic cables resulting from construction or digging mishaps, fishing boats or other reasons;

changes in general industry and market conditions, and structural declines within the telecommunications industry;

a maintenance or other failure of our network or data centers;

a failure of back-office information technology (IT) systems;

a third party claim that the Company is infringing upon their intellectual property, resulting in significant litigation or licensing expenses, or the loss of our ability to sell or support certain products including certain smart phones;

changes in overall national, regional or local economic conditions;

Table of Contents

unanticipated costs required to fund our post-retirement benefit plans;

the success or failure of any future acquisitions;

loss of key personnel; and

the matters described under Item 1A - Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and this Quarterly Report on Form 10-Q.

In light of these risks, uncertainties and assumptions, you should not place undue reliance on any forward-looking statements. Additional risks that we may currently deem immaterial or that are not currently known to us could also cause the forward-looking events discussed in this Form 10-Q or our other reports not to occur as described. Except as otherwise required by applicable securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or any other reason after the date of this Form 10-Q.

Investors should also be aware that while we do, at various times, communicate with securities analysts, it is against our policy to disclose to them any material non-public information or other confidential information. Accordingly, investors should not assume that we agree with any statement or report issued by an analyst irrespective of the content of the statement or report. To the extent that reports issued by securities analysts contain any projections, forecasts or opinions, such reports are not our responsibility.

Overview

We provide leading integrated communications services to consumer and business customers in and out of Alaska. Our communications networks extend throughout Alaska and connect to the contiguous states via our two diverse undersea fiber optic cable systems. These networks are among the most expansive in Alaska and form the foundation of service to our customers. Our significant wireless spectrum holdings are used in the delivery of our wireless services.

The sections that follow provide information about important aspects of our operations and investments and include discussions of our results of operations, financial condition and sources and uses of cash. In addition, we have highlighted key trends and uncertainties to the extent practicable. The content and organization of the financial and non-financial data presented in these sections are consistent with information we use in evaluating our own performance and allocating our resources. We also monitor the state of the economy in general. In doing so, we compare Alaskan economic activity with broader economic conditions. In general, we believe that the Alaskan telecommunications market, as well as general economic activity in Alaska, is affected by certain economic factors, which include:

investment activity in the oil and gas markets;

tourism levels;

governmental spending and activity of military personnel;

the price of terrestrial and IP-based telecommunications bandwidth;

the growth in demand for IP-based services;

local customer preferences;

unemployment levels; and

housing activity.

We have observed variances in the factors affecting the Alaskan economy as compared to the U.S. as a whole. Some factors, particularly the price of oil and gas, usually have the opposite effect on the Alaskan economy than the U.S. economy as a whole.

Regulatory Update

The items reported under Part I, Item 1: Business - Regulation in our Annual Report on Form 10K for the fiscal year ended December 31, 2011, are updated as follows. This section should be read in conjunction with the corresponding items previously disclosed in our Annual Report.

Table of Contents

Federal Regulation

Interconnection with Local Telephone Companies and Access to Other Facilities

The updated global interconnection and resale agreement between our Local Exchange Carriers (ACSA, ACSAK, ACSF and ACSN) and General Communication, Inc. (GCI) governing the provision of unbundled network elements and other services, which was signed in December 2011 and effectively extends the original March 15, 2007 global interconnection agreement between our Company and GCI (with certain modified terms and conditions), was approved by the Regulatory Commission of Alaska (RCA) on March 8, 2012, and is currently in effect for a term of five years.

Lifeline Reform

In conjunction with the Federal Communications Commission's (FCC) January 2012 Lifeline Order, the FCC continues to evaluate further changes to its Lifeline program in an ongoing Further Notice of Proposed Rulemaking (FNPRM). There are a number of matters under consideration that could increase the Company's regulatory compliance obligations and customer administrative responsibilities, and impact revenue received from regulatory funding sources. We expect a state or national eligibility database requirement could involve costs to establish the database and to access the database. In addition, in its Lifeline Order, the FCC reduced the Lifeline discount amount reimbursed to Lifeline service providers on an interim basis, and in the FNPRM it is considering whether to revise that discount amount, which could result in a permanent reduction of federal Lifeline subsidy support.

State Regulation

Other RCA Proceedings

On April 19, 2012, the RCA opened a docket to consider whether to modify the current \$3.50 level of Lifeline support payments made to eligible telecommunications carriers by the Alaska Universal Service Administrative Company and has invited comments from interested parties. Based on the input it receives, the RCA may decide subsequently to open one or more rule-making proceedings proposing to increase, decrease or eliminate such Lifeline support payments. Depending on the ultimate outcome, there could be a revenue impact to the Company, but it is not possible to determine the amount or whether it might be favorable or unfavorable to us.

2012 Focus

Our results of operations, financial position and sources and uses of cash in the current and future periods reflect our focus on being the most successful broadband solutions company in Alaska by delivering the best customer experience in the markets we choose to serve. We seek to do this by:

Develop Our Workforce to Build Our Sales and Service Capabilities. We believe an engaged workforce is critical to our success.

Provide a Delightful Customer Experience Every Time. We believe the economics of retaining a customer always prevails over those of adding a customer. We will invest in training, process and systems improvements to continuously improve the customer experience we create.

Simplify How We Do Business. We believe we must reduce waste in non-value-added activities. We plan to accelerate our investments in technology and process improvement and expect these efforts to meaningfully impact margins in the next two to three years.

Offer Broadband Solutions to Our Customers at Home, at Work and Everywhere in Between. We will build on strength in designing, building and operating quality networks and provide new products and solutions to our customers.

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

We believe we can create value for our shareholders by carefully investing cash flows generated by the business in specific opportunities and transactions that support these imperatives and reducing our debt. Additionally, our board of directors has established an annual dividend of \$0.20 per share, returning \$2.3 million in cash dividends to our stockholders during the three months ended March 31, 2012.

Table of Contents**RESULTS OF OPERATIONS**

All amounts are discussed at the consolidated level after the elimination of affiliate revenue and expense.

Table of Contents

Revenue Sources by Customer Group

We manage our revenues based on the sale of services and products to the following major customer groups:

Business and Wholesale: We provide communications services including local and long distance voice, broadband data, Internet access, network access, data hosting, billing and collection services, IT management and cloud-based services, to carriers, business and government customers.

Consumer: We provide local and long distance voice, broadband data, Internet access and other communications products and services to residential customers.

Wireless: We provide wireless facilities-based voice and data services, products, other value-added services and equipment sales statewide across Alaska with roaming coverage available in the contiguous states, Hawaii and Canada.

Access and CETC: We provide voice and broadband termination services to inter and intrastate carriers who provide services to our retail customers. We also receive interstate high cost support funds and other revenue streams as structured by state and federal regulatory agencies.

Operating Revenue

Business and Wholesale

Business and Wholesale revenue of \$26.4 million increased \$2.2 million, or 9.0%, in the three month period of 2012 from \$24.3 million in the same period of 2011. Wholesale and other revenue increased \$1.5 million due in part to the effect of a new capacity exchange agreement with another carrier and growth in capacity arrangements to supply other wireless operators. Broadband revenue increased \$1.1 million due primarily to higher average revenue per broadband connection on a marginally higher subscriber base. These increases were partially offset by a \$0.4 million decrease in voice revenue due primarily to lower subscriber access lines.

Consumer

Consumer revenue of \$9.6 million decreased \$0.3 million, or 3.0%, in the three month period of 2012 from \$9.9 million in the same period of 2011. Voice revenue decreased \$0.5 million due primarily to a reduction in subscriber access lines. This decrease was partially offset by a \$0.2 million increase in broadband revenue reflecting increased revenue per broadband connection.

Wireless

Wireless service revenue of \$29.1 million increased \$1.8 million, or 6.6%, in the three month period of 2012 from \$27.3 million in the same period of 2011. Foreign roaming revenue increased \$2.6 million driven by higher data usage on our network by non-Alaska Communications customers. Broadband revenue increased \$0.9 million due primarily to the continued increase in demand for data rich cell phone plans. Voice revenue decreased \$1.3 million due primarily to lower demand for voice services and the shift in subscribers from postpaid to prepaid, which are generally lower priced plans. Equipment sales and other revenue were down \$0.4 million.

Access and CETC

Access and CETC revenue of \$20.8 million decreased \$4.3 million, or 17.3%, in the three month period of 2012 from \$25.1 million in the same period of 2011. This decline was primarily attributable to the release of \$3.4 million in CETC reserves and \$1.8 million of out-of-period Access revenue settlements in 2011.

Operating Expenses

Edgar Filing: ALASKA COMMUNICATIONS SYSTEMS GROUP INC - Form 10-Q

Cost of Services and Sales: Cost of services and sales of \$35.2 million increased \$2.3 million, or 6.9%, in the three month period of 2012 from \$32.9 million in the same period of 2011. This increase was driven by increases of \$1.8 million in USF expense associated with Intrastate access reform, \$1.0 million in circuit costs inclusive of \$0.7 million in a new capacity exchange agreement, \$0.9 million in DSL and advanced network services costs, \$0.6 million in data features and roaming COGS, and \$0.5 million in land and building costs. Offsetting these increases were decreases of \$1.5 million in handset and accessory expenses and \$1.1 million in Interstate and Intrastate access COGS.

Selling, General and Administrative: Selling, general and administrative expenses of \$25.5 million increased \$2.2 million, or 9.5%, in the three month period of 2012 from \$23.3 million in the same period of 2011. This growth was due primarily to increases of \$1.0 million in labor, \$0.6 million in consulting and \$0.3 million in advertising to support our sales organization and our strategic initiatives to grow the business.

Depreciation and Amortization: Depreciation and amortization expense of \$12.9 million decreased \$2.0 million, or 13.3%, in the three month period of 2012 from \$14.9 million in the same period of 2011 due primarily to a number of pooled asset classes reaching their maximum depreciable lives. These decreases were partially offset by additions to our asset base from the build out of our network.

Table of Contents**Other Income and Expense**

Other income and expense was net expense of \$9.9 million in 2012 and \$9.7 million in 2011, and consisted primarily of interest expense in both years. A \$0.3 million loss on extinguishment of debt was recorded in the first quarter of 2012 in connection with the repurchase of \$5.0 million aggregate principal amount of our 5.75% Notes.

Income Taxes

The income tax provision and effective tax rate in the first quarter 2012 of \$1.1 million and 48.6%, respectively, compares with \$3.1 million and 53.2%, respectively, in the prior year.

Liquidity and Capital Resources

Our major sources and uses of funds in the three months ended March 31, 2012 and 2011 are as follows:

(in thousands)	Three Months Ended	
	March 31,	
	2012	2011
Net cash provided by operating activities	\$ 19,571	\$ 21,694
Net change in funds held in restricted accounts	\$ (132)	\$
Capital expenditures	\$ (10,018)	\$ (8,188)
Change in unsettled capital expenditures	\$ (3,131)	\$ (859)
Net debt repayments	\$ (6,417)	\$ (1,294)
Debt issuance costs	\$	\$ (84)
Interest paid	\$ (7,016)	\$ (9,838)
Payment of cash dividend on common stock	\$ (2,268)	\$ (9,628)
Payment of withholding taxes on stock-based compensation	\$ (231)	\$ (1,912)

Sources

We satisfied our cash requirements for operations, capital expenditures and debt service in the first three months of 2012 primarily through internally generated funds. In the three months ended March 31, 2012, our net cash flows provided by operating activities were \$19.6 million. At March 31, 2012, we had \$17.9 million in cash and cash equivalents and \$5.1 million in restricted cash. As of March 31, 2012, we had access to \$30.0 million under our revolving credit facility, representing 100% of available capacity.

Our existing Senior Credit Facility matures on October 21, 2016 and the revolver matures on October 21, 2015. We have, as of March 31, 2012, repurchased an aggregate principal amount of \$103.3 million of our 5.75% Notes, including \$5.0 million during the first quarter of 2012, which precludes an accelerated maturity date of December 19, 2012 that would have been required under our Senior Credit Facility. We intend to use cash flow from operating activities to redeem additional amounts of our 5.75% Notes prior to December 31, 2012.

Our Senior Credit Facility contains a number of restrictive covenants and events of default, including covenants limiting capital expenditures, incurrence of debt and the payment of dividends. The Senior Credit Facility also requires that we maintain certain financial ratios. Substantially all of our assets (including those of our subsidiaries) have been pledged as collateral for our Senior Credit Facility.

Uses

Our networks require timely maintenance of plant and infrastructure. Our historical capital expenditures have been, and continue to be, significant. Cash outflows for capital expenditures in the three months ended March 31, 2012 were \$13.1 million, inclusive of \$3.1 million in net settlements of capital expenditure payables. We intend to fund future capital expenditures primarily with cash on hand and net cash generated from operations.

Since October 28, 2004, we have paid quarterly dividends on our common stock. Based on current shares outstanding at April 18, 2012 of approximately 45.5 million and our current annual dividend rate of \$0.20 per share, maintaining our current dividend policy would result in \$9.1 million being paid to common stockholders over the next four quarters. Dividends on our common stock are not cumulative.

Table of Contents

We believe that we will have sufficient cash on hand and cash provided by operations to service our debt; pay our quarterly dividends; and fund our operations, capital expenditures and other obligations over the next twelve months. However, our ability to make such an assessment is dependent upon our future financial performance, which is subject to future economic conditions and to financial, business, regulatory, competitive entry and many other factors, many of which are beyond our control and could impact us during the time period of this assessment. See Item 1A Risk Factors in our Annual Report on Form 10-K and this report for further information regarding these risks.

Table of Contents**Non-GAAP Financial Measures**

In an effort to provide investors with additional information regarding our financial results, in particular with regards to our liquidity and capital resources, we have disclosed certain non-GAAP information which management utilizes to assess performance and believes provides useful information to investors. The Company has disclosed earnings before interest expense and income, loss on extinguishment of debt, depreciation and amortization, loss on disposal of assets, gift of services, income taxes and stock-based compensation (EBITDA), as defined and reconciled below, and EBITDA Margin, defined as EBITDA divided by operating revenues, because it believes they are important performance indicators and provide information about our ability to service debt, pay dividends and fund capital expenditures. The Company also discloses Free Cash Flow, as defined and reconciled below, because it believes it is an important measure of its ability to fund its business activities. EBITDA, EBITDA Margin and Free Cash Flow are not GAAP measures and should not be considered a substitute for operating income, net cash provided by operating activities, or net cash provided or used.

The following table provides the computation of EBITDA and Free cash flow for the three months ended March 31, 2012 and 2011:

(in thousands)	Three Months Ended March 31,	
	2012	2011
Net cash provided by operating activities	\$ 19,571	\$ 21,694
Adjustments to reconcile net income to net cash provided by operating activities:

Legal

We are involved in various claims, legal actions, personnel matters and regulatory proceedings arising in the ordinary course of business and as of March 31, 2012, we have recorded litigation reserves of \$0.6 million against certain of those claims and legal actions. We believe that the disposition of these matters will not have a material adverse effect on our consolidated financial position, comprehensive income or cash flows beyond the amounts already recorded. Estimates involved in developing these litigation reserves could change as these claims, legal actions and regulatory proceedings progress. See also Part II, Item 1, Legal Proceedings .

Additionally, this section should be read in conjunction with Note 9 - Commitments and Contingencies, which reports on a NOPA reissued by the IRS on November 2, 2010 with respect to the 2006, 2007 and 2008 taxable years of Crest, which we acquired on October 30, 2008. The IRS's position could result in a charge to income tax expense of approximately \$91.7 million, \$52.2 million of which would be a result of additional taxes payable, including accrued interest, and \$39.5 million of which would be a result of the reduction in recognized deferred tax assets. The case has been submitted to the IRS Appeals Office and we are waiting for its hearing date to be scheduled. While we and the Selling Stockholders are continuing to vigorously contest the IRS's claims, should the appeals process fail to overturn the IRS's positions, should the Company be unable to preserve the corporate structure of the Crest subsidiaries and should the Company prove unable to effectively enforce the indemnification provisions in the SPA or should any amounts exceed the indemnity obligation, or ability to pay, of the indemnifying parties under the SPA, this could have a material adverse effect on the Company's consolidated financial position, comprehensive income, cash flows and liquidity.

Employees

As of March 31, 2012 we employed 841 full-time employees, 9 part-time employees and 18 temporary employees. Approximately 70% of our employees are represented by the International Brotherhood of Electrical Workers, Local 1547 (IBEW). Our Master Collective Bargaining Agreement with the IBEW, as amended, that governs the terms and conditions of employment for all IBEW represented employees working for us in the state of Alaska expires on December 31, 2012. Management considers employee relations to be generally good.

Additional Information

On April 20, 2012, the Company began offering the iPhone for sale to its wireless customers. The Company anticipates significant demand for this product. Because the Company, consistent with other wireless carriers, subsidizes the cost of this device for its customers, COGS is expected to increase.

In 2010, Verizon purchased a 700 MHz block of wireless spectrum covering the state of Alaska, and in 2011 it began construction of a switching facility in Anchorage. We currently expect Verizon to enter the Alaska telecommunications market sometime during 2012. Given our limited market size, the impact from this increased competition is expected to be material, and will impact our future service and roaming revenue. We cannot reliably predict the size and pace of this impact on our revenues, but believe it is unlikely we will see any significant erosion in our roaming revenue stream until 2013. Given the increasing use of wireless data we expect roaming revenue to increase in the near to medium term. Our roaming revenue represented 11.1% of our total revenues in fiscal year 2011 and 10.2% in the three-month period ended March 31, 2012.

Critical Accounting Policies and Accounting Estimates

We have identified certain policies and estimates as critical to our business operations and the understanding of our past or present results of operations. For additional discussion on the application of these and other significant accounting policies, see Note 1 - Summary of Significant Accounting Policies, to our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. These policies and estimates are considered critical because they had a material impact, or have the potential to have a material impact, on our financial statements and because they require significant judgments, assumptions or estimates.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Among the significant estimates affecting the financial statements are those related to the realizable value of accounts receivable, materials and supplies, long-lived assets, goodwill, intangible assets, equity method investments, deferred income taxes and network access revenue reserves. Actual results may differ from those estimates as the collection of those balances is not reasonably assured.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of March 31, 2012, we had outstanding debt under our Senior Credit Facility. Our credit facility exposes us to risk from changes in interest rates, specifically from changes in LIBOR, or, in certain cases, the prime rate, which are used to determine the interest rates that are applicable to borrowings under the Senior Credit Facility. To manage this risk, we have entered into a series of forward floating-to-fixed interest rate swap agreements and a buy back of the 1.5% LIBOR floor that effectively fixes LIBOR on \$385.0 million of the outstanding balance. These forward swaps begin June 30, 2012 and expire on September 30, 2015. We also purchased an interest rate cap that effectively caps LIBOR at 3.0% from January 1, 2011 to June 30, 2012.

On March 31, 2012, we also had outstanding \$21.7 million aggregate principal amount of our 5.75% Notes and \$120.0 million of our 6.25% Notes. The notes pay interest at a fixed rate and are subordinated to our obligations under our Senior Credit Facility as well as certain hedging agreements and other secured debt available under our Senior Credit Facility.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended. Based on the evaluation, our Chief Executive Officer and our Chief Financial Officer believe that, as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required financial disclosure.

Our management, including our Chief Executive Officer and our Chief Financial Officer, does not expect that our disclosure controls and internal control over financial reporting will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls may be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls.

The design of any system of controls also is based, in part, upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, a control may become inadequate because of changes in conditions or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

There was no change in our internal controls over financial reporting that occurred in the first quarter of 2012 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in various claims, legal actions, personnel matters and regulatory proceedings arising in the ordinary course of business. As of March 31, 2012 we have recorded litigation reserves of \$0.6 million against certain current claims and legal actions. Other than as described above and as disclosed previously in Item 3 - Legal Proceedings in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, we believe that the disposition of these matters will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Table of Contents

ITEM 1A. RISK FACTORS

Other than as described below, there have been no material changes to the Company's risk factors as previously disclosed in Item 1A Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. The risk factors described below should be read in conjunction with those disclosed in our Form 10-K.

Competition and Device Access

As of April 20, 2012, the Company has the ability to provide customers with access to the iPhone. With the availability of this device, we expect that we will be on a more competitive footing with AT&T and Verizon with regard to customer preferences on handsets that utilize our Company's wireless services and network. However, the Company still faces significant challenges in competing with the many device and service offerings from dominant, national service providers, as well as from our local competitor, GCI, which competes heavily based on price and bundled services. Competition for wireless customers is expected to intensify, particularly when Verizon enters the market.

Network / E-911 Failure

Cyber-attacks may damage our networks or breach customer proprietary data, leading to service disruption, harm to reputation, loss of customers, and litigation over privacy violations.

All industries that rely on technology in customer interactions are increasingly at risk for cyber-attacks. A cyber-attack could be levied against our network, causing disruption of operations and service, requiring implementation of greater network security measures, and resulting in lost revenue due to lost service. A cyber-attack could also be targeted to infiltrate customer proprietary data, breaching customer privacy, resulting in misuse of customer information, and possibly leading to litigation over privacy breaches and causing harm to the Company's reputation. We rely on network monitoring, immediate notification of internal IT staff and IT management, and customer verification methods to guard against cyber-attacks. We also conduct periodic audits with external resources for verification and validation. We have procedures to aid in discovering potential cyber-attacks and processes for notifying customers and any appropriate authorities in the event of a cyber-attack that impacts services or customer proprietary information.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Working Capital Restrictions and Other Limitations on the Payment of Dividends

Our Senior Credit Facility contains a number of restrictive covenants and events of default, including covenants limiting capital expenditures, incurrence of debt and the payment of dividends. The Senior Credit Facility also requires that we maintain certain financial ratios.

In addition, our board of directors may at any time, in its absolute discretion, amend or repeal our dividend policy, which may result in the decrease or discontinuation of dividends. Future dividends, if any, will depend on, among other things, our comprehensive income, cash requirements, financial condition, contractual restrictions, business opportunities, any competitive or technological developments, our increased need to make capital expenditures, provisions of Delaware law or other applicable law and other factors that our board of directors may deem relevant.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.
