REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of the

United Airlines Pilot Directed Account Plan

We have audited the accompanying statements of net assets available for benefits of the United Airlines Pilot Directed Account Plan (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedules of (1) assets (acquired and disposed of within the plan year) for the year ended December 31, 2011 and (2) assets (held at end of year) as of December 31, 2011 are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

UNITED AIRLINES PILOT DIRECTED ACCOUNT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2011 AND 2010, AND FOR THE YEAR ENDED DECEMBER 31, 2011

1. DESCRIPTION OF PLAN

The following description of the United Airlines Pilot Directed Account Plan (the Plan) is for general information purposes only. Participants should refer to the Plan document for more complete information.

General and Plan Participants. The Plan is a defined contribution plan covering all employees of United Air Lines, Inc. (United or the Company) who are represented by the Air Line Pilots Association, International (ALPA). United pilots are eligible to become participants in the Plan on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Trustee and Record Keeper. The Russell Trust Company (Russell or Trustee) serves as Plan Trustee. Per the United Airlines, Inc. Pilots Directed Account Plan Trust Agreement, Russell is responsible for many aspects of the trust, including administration and the management and custody of all Plan assets. As approved by the Retirement and Welfare Administration Committee (formerly the Plan Administrator) appointed by the Board of Directors of the Company, Russell has hired The Northern Trust Company to serve as sub-custodian of the Plan and Hewitt & Associates to serve as the subagent performing the participant recordkeeping functions.

Contributions. There are several types of contributions that may be made to the Plan on participants' behalf:

Company Contributions: The Company contributes to the Plan an amount equal to 16% of participant eligible earnings. Company contributions on behalf of a participant are allocated directly to each participant's account. The participant is not required to contribute to the Plan to receive this direct employer contribution.

Employee Contributions: Eligible employees may elect to contribute to the Plan in any whole percentage from 1% to 60% of eligible earnings. Eligible employees may also make a supplemental election to contribute an additional pretax contribution in an amount equal to 1% to 90% of their net pretax pay. Section 402(g) of the Internal Revenue Code (IRC) limits the amount of pretax 401(k) contributions to a maximum of \$16,500 in 2011. Lower limits may apply to certain highly compensated participants if the Plan does not pass certain nondiscrimination tests required by law. Eligible employees may also elect to make voluntary after-tax contributions to the Plan from 1% to 60% of the participant's earnings (as defined by the Plan) for each pay period only after making the maximum pretax contribution. Section 415(c) of the IRC limits the total amount of contributions to all qualified defined contribution retirement plans to the lesser of 100% of annual taxable earnings or \$49,000.

Voluntary pretax catch-up contributions: Participants age 50 or older at any time during the Plan year can make additional pretax catch-up contributions to the Plan. This catch-up contribution is available only to the extent the participant has contributed the maximum amount of 401(k) contributions permitted under the Plan and the participant has not exceeded the annual catch-up contribution limit. For calendar year 2011, the maximum amount is \$5,500.

Rollover contributions: Participants may elect to roll over money into the Plan from certain other qualified employer plans or qualified IRA. The Plan will not accept a rollover of after-tax contributions. Rollover contributions from other qualified plans for the year ended December 31, 2011 were \$613,822.

Participant Accounts. Individual accounts are maintained for each Plan participant. Each participant's account is credited with the contributions and an allocation of Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Edgar Filing: United Continental Holdings, Inc. - Form 11-K

Investments. Participants direct the investment of their contributions and account balances in 1% increments into the following various investment options offered by the Plan:

Money Market Fund

Short-Term Bond Fund

Stable Value Fund

Diversified Bond Fund

Value Equity Fund

Table of Contents

Growth Equity Fund

Small Cap Equity Fund

International Equity Fund

S&P 500 Index Fund

AutoPDAP Funds, which are funds that are invested in a diversified portfolio of underlying stock and bond funds strategically mixed for investors based on their estimated retirement date.

Individual Brokerage Account (IBA) Subject to a number of conditions and restrictions, this option allows participants to select from a wide range of investments, including United Continental Holdings, Inc. (UCHI) common stock, which are made available through the Charles Schwab and Co., Inc. individual brokerage account network.

Vesting. Participants are vested immediately in their contributions and the Company's contributions, plus actual earnings thereon, and the balance of a participant's account is nonforfeitable at all times. Accordingly, there are no forfeitures under the Plan.

Participant Loans. Active employees receiving regular pay from the Company may borrow from their Plan accounts. A loan may not exceed \$50,000 minus active employees' highest outstanding loan balance over the last 12 months or one-half of their Plan account balance, whichever is less. The minimum that may be borrowed is \$1,000. Loans will be funded by a pro rata transfer from the assets of the account invested in the investment funds (excluding Individual Brokerage Account). The loan is secured by the participant's account balance, and is generally repaid through payroll deductions on an after-tax basis for the term of the loan, which is a maximum of 60 months. The term of the loan may be extended to a period up to 15 years if the loan is used to acquire a principal residence. Loans are subject to an annual interest rate at one percent above the prime rate listed in the Wall Street Journal on the business day preceding the effective date of the participant request (interest rates ranged from 4.25% to 10.5% at December 31, 2011). Participants may only have one loan outstanding at any time. An administrative fee of \$90 is charged to each participant taking a loan and is automatically deducted from the participant's account and added to the loan amount. Effective July 1, 2011, the administrative fee will be: (a) \$50, or (b) such other amount as the Company and the Association mutually determine, effective as of the date (which may not be retroactive) specified in communications to the participants. No fee will be charged unless a loan is actually made.

Benefit Payment. Withdrawals from the Plan may be made as follows, as applicable to the participant's eligibility, amount requested, and existing balances:

Participants who have separated from service (for reasons other than death) may elect payment in the form of a lump sum, periodic distributions, irregular partial distributions, or in the form of a fixed or variable annuity. All or a portion of the amount of the distribution may be excluded from income by a direct roll over into an Individual Retirement Account, qualified plan, an annuity contract or annuity plan under Section 403, and certain governmental plans under Section 457. However, distributions required under the minimum distribution rules, a hardship distribution from pretax contributions, or periodic payments in substantially equal amounts over the life, life expectancy or period of 10 years and more are not eligible for rollover distributions. Participants must begin to receive plan benefits not later than April 1 of the year following the year in which they reach age 70 1/2. At a minimum, they must draw benefits in annual installments at least equal to the minimum required by law.

Distributions of accounts due to the death of a participant may be taken by the participant's beneficiaries in any one, or any combination of forms, and in any proportions, as are made available to participant upon retirement or termination of employment. The participant's surviving spouse, if any, is automatically the beneficiary of at least half of the account. The surviving spouse may elect to defer distribution until the participant would have attained age 70 1/2 or may elect an earlier distribution. Any designated beneficiary who is not the participant's surviving spouse may elect a direct trustee-to-trustee transfer of eligible distributions.

In-service withdrawals for participants who are actively employed or are absent due to reasons of illness, or approved leave of absence that maintain an employer-employee relationship with United are permitted as follows:

Discretionary withdrawals of after-tax contributions and earnings

Hardship withdrawals of pretax 401(k) contributions, subject to restrictions described in the Plan

After reaching age 59 1/2, pretax contributions, rollover contributions (as adjusted for earnings and losses) may be withdrawn at any time. After rollover contributions are depleted, pretax contributions (but no earnings) can be withdrawn. Generally, withdrawals are allocated pro rata to the balances of each of the investment funds in the participant's account.

Table of Contents

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Fair Value information. In January 2010, the Financial Accounting Standards Board (FASB) released accounting guidance that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models and at what level of detail fair value disclosures should be provided.

In May 2011, the FASB issued Accounting Standards Update 2011-04 (ASU 2011-04), *Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, which changes the wording used to describe the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. ASU 2011-04 is effective for interim and annual periods beginning after December 15, 2011, and should be applied prospectively. Early adoption is not permitted. The Plan is currently evaluating the impact ASU 2011-04 will have on the financial statements.

Investment Valuation and Income Recognition. The Plan's investments are reported at fair value (See Note 8 Fair Value Measurements). The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The pending trade receivables (payables) are recorded net of related (payables) receivables and represent net amounts due from (to) investment managers arising from security trading activities settled subsequent to year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation in Value of Investments. Net appreciation in value of investments includes realized and unrealized gains and losses. Realized and unrealized gains and losses are calculated as the difference between fair value at January 1, or date of purchase if subsequent to January 1, and fair value at date of sale or the current year-end.

Administrative and Investment Management Expenses. Management and audit fees, which are paid by the Plan, are paid to the trustee based upon investment fund balances. Brokerage and other investment fees are included as an addition to the net appreciation in fair value of investments. United performs certain administrative functions for the Plan without charge.

Benefit Payments. Benefit payments to participants are recorded upon distribution. Amounts relating to participants who have elected to withdraw from the Plan but have not yet been paid were \$1,490,265 and \$632,289 at December 31, 2011 and 2010, respectively.

Risks and Uncertainties. The Plan utilizes various investment instruments, including mutual funds and investment contracts. Investment securities are exposed to various risks such as interest rate, credit risks, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

3. INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010, are as follows (in millions):

Edgar Filing: United Continental Holdings, Inc. - Form 11-K

	2011	2010
Schwab Money Market Fund	\$ 250	\$ 195

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows (in millions):

Table of Contents

Cash and cash equivalents	\$ (5)
Equity securities	(133)
Corporate and international bonds	9
Government securities and other fixed income instruments	17
Net gain on in-kind Schwab IBA benefit distributions	(12)
Total	\$ (124)

Plan assets are invested by a group of investment managers. The investment managers buy or sell securities on behalf of the Plan, in accordance with the investment objectives and guidelines established for each of the investment funds.

As of December 31, 2011, the investment managers were as follows:

Money Market Fund	- Russell Trust Company
Diversified Bond Fund	- Western Asset Management Company - Pacific Investment Management Company LLC - Russell Trust Company
International Equity Fund	- Arrowstreet Capital, LP - Marsico Capital Management, LLC - MFS Institutional Advisors, Inc. - Barrow, Hanley, Mewhinney & Strauss, LLC - Russell Trust Company
Value Equity Fund	- Jacobs Levy Equity Management, Inc. - MFS Institutional Advisors, Inc. - Deprince, Race & Zollo, Inc. - Snow Capital Management L.P. - Russell Trust Company
Growth Equity Fund	- BlackRock, Inc. - Cornerstone Capital Management, Inc. - Suffolk Capital Management, LLC - Sustainable Growth Advisers, LP - Russell Trust Company
Small Cap Equity Fund	- ClariVest Asset Management, LLC - Delaware Investment Advisers - Jacobs Levy Equity Management, Inc. - Opus Capital Management - Signia Capital Management, LLC - Turner Investment Partners, Inc. - Russell Trust Company
S&P 500 Index Fund	- PanAgora Asset Management, Inc. - Russell Trust Company
Stable Value Fund	- Galliard Investment
Individual Brokerage Account Option	- Self-directed account with Charles Schwab

Table of Contents

4. DERIVATIVE FINANCIAL INSTRUMENTS

The Plan allows certain investment managers to reduce the funds' exposure to foreign currency fluctuations through the use of foreign currency forwards and options. The Plan authorizes certain investment managers to earn equity returns on the funds' cash position through equity index future contracts. Additionally, other investment managers use interest rate futures and money market futures to replicate government bond positions and manage interest rate exposure. Credit default swaps may be used by investment managers to effectively increase or decrease their exposure to individual corporate bond issues or baskets of corporate bond issues. They may also be used to effectively replicate corporate bond positions and manage overall credit risk. The Plan prohibits investment managers from being a party to any leveraged derivatives. All derivative positions are stated at fair value as determined by exchange quoted market prices or through other valuation techniques. The Plan's derivative positions as of December 31, 2011 and 2010 were not material.

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan holds investments managed by Russell. Russell is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Total fees and commissions paid by the Plan to Russell for plan year 2011 totaled \$12,354,356.

The Plan invests in shares of UCHI common stock. UCHI is the parent company of United and, as such, investment activity related to the UCHI common stock qualifies as exempt party-in-interest transactions.

6. PLAN TERMINATION

The Company expects to continue the Plan indefinitely, but reserves the right to terminate the Plan, in whole or in part, provided that Plan termination is effected by a written resolution adopted by a majority of the Board of Directors of the Company subject to the provisions set forth in ERISA and the currently effective collective bargaining agreement with ALPA. If the Plan is terminated, employer contributions would cease and all amounts credited to a participant's account at the time of termination shall be retained in the Plan and will be distributed in accordance with ERISA and the normal distribution rules of the Plan.

7. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter, dated March 31, 2009, that the Plan and related trust were designed in accordance with applicable regulations of the IRC. United and Plan management believe the Plan is currently designed and operated in accordance with applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. FAIR VALUE MEASUREMENT

Generally accepted accounting principles include a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 Unadjusted quoted prices in active markets for assets or liabilities identical to those to be reported at fair value.
- Level 2 Other inputs that are observable directly or indirectly, such as quoted prices for similar assets or liabilities or market-corroborated inputs.
- Level 3 Unobservable inputs for which there is little or no market data and which require us to develop our own assumptions about how market participants would price the assets or liabilities.

Mutual funds and collective trusts represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the closing share price, which is based on the funds' net asset value at year-end. Units held in collective trusts are valued at the unit value as reported by the investment managers at year-end.

Investments in Individual Brokerage Accounts and the UCHI Stock Fund are described below:

Edgar Filing: United Continental Holdings, Inc. - Form 11-K

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest, which approximates market value.

Table of Contents

Common stock, preferred stock, and fixed income securities traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of each period presented. Fixed income securities classified as Level 2 are valued based on quoted prices in inactive markets.

Valuation of investment contracts is described in Note 9.

The following table presents the Trust's investment assets and liabilities at fair value categorized in the different levels, as of December 31, 2011 and 2010. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

<i>(in millions)</i>	Investment Assets at Fair Value as of			
	December 31, 2011			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents net of offsets	\$ 21	\$ 9	\$	\$ 30

Table of Contents**Level 3 Gains and Losses**

The table below summarizes the changes in the fair value of the Trust's Level 3 investment assets for the year ended December 31, 2011:

	Equity Securities	Asset- Backed Securities	Government securities and other fixed income	Synthetic GICs	Other	Total
Fair Value Balance, beginning of year	\$	\$ 1	\$ 1	\$ 217	\$ 9	\$ 228
Purchases, issuances, and settlements				37	(2)	35
Realized and unrealized gains/ (losses)						
Transfer out of Level 3		(1)	(1)			(2)
Fair Value Balance, end of year	\$	\$	\$	\$ 254	\$ 7	\$ 261

The amount of total gains or losses for the period included in net appreciation in value of the Plan's investments attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.

	\$	\$	\$	\$	\$	\$
--	----	----	----	----	----	----

Transfers in and transfers out of level categories is as of the end of the period.

The most significant addition to Level 3 assets in 2011 was the purchase of \$37 million of synthetic guaranteed investment contracts (GICs), as defined below, for a total fair market value of \$254 million. All synthetic GICs were classified as Level 3 because the significant inputs used in the calculation of fair market value are not observable market data. The Other category, which has a fair market value of \$7 million on December 31, 2011, primarily includes cash margin deposits held as collateral with various institutions for the financial futures. Transfers out of Level 3 represent securities that were moved from Level 3 to Level 2 primarily because there was more reliable information available in 2011 for use as inputs in pricing these securities as compared to 2010. Also, there was a higher trading volume so the Plan was able to look at similar securities from a pricing perspective.

In addition to transfers in and out of Level 3, the Plan moved securities worth approximately \$19 million from Level 2 to Level 1 in 2011. These securities primarily consist of equities and common collective funds not traded in an active market. Based on the level assignment methodology for the other securities, the Plan classified these securities as Level 2.

The Plan also moved securities worth approximately \$2 million from Level 3 to Level 2 in 2011. This is because the market for these securities is considered an active market in 2011.

9. SYNTHETIC GUARANTEED INVESTMENT CONTRACTS

The synthetic GICs are part of the Stable Value Fund (the Fund). The Fund primarily invests in traditional GICs and security-backed contracts (also called synthetic GICs) issued by insurance companies and other financial institutions. The contracts are fully benefit responsive and, as such, are required to be reported at fair value and reconciled to contract value in the Statements of Net Assets Available for Benefits as of December 31, 2011. For the year ended December 31, 2011 the fair value and contract value of the GICs were both \$254 million.

A synthetic GIC is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds that are owned by the fund. The portfolio underlying the contract is maintained separately from the contract issuer's general assets, usually by a third party custodian. The interest crediting rate of a security-backed contract is based on the contract value, and the fair value, duration, and yield to maturity of the underlying portfolio. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustments to the future interest crediting rate, rather than reflected immediately in the net assets of the fund. The issuer guarantees that all qualified participant withdrawals will be at contract value.

The fair value of the Stable Income Fund equals the sum of the market value of the underlying investments plus the fair value of the wrap contracts, which are calculated by discounting the difference between the contractual wrap fee and the market value of the rebid fee over the remaining duration of the contract.

Table of Contents

The yield earned by the Fund at December 31, 2011 was 1.64%. This represents the annualized earnings of all investments in the Fund divided by the fair value of all investments in the Fund at December 31, 2011.

The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2011 was 2.17%. This represents the annualized earnings credited to participants in the Fund divided by the fair value of all investments in the Fund at December 31, 2011. The synthetic GICs are designed to reset their respective crediting rates on a quarterly basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

Synthetic GICs generally provide for withdrawals associated with certain events which are not in the ordinary course of Fund operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events may include all or a portion of the following:

material amendments to the Fund's structure or administration;

changes to the participating plans' competing investment options including the elimination of equity wash provisions;

complete or partial termination of the Fund, including a merger with another fund;

the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;

the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;

any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or participating plans;

the delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

Synthetic GICs generally are evergreen contracts that contain termination provisions, allowing the Fund or the contract issuer to terminate with notice, at any time at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero. In addition, if the Fund defaults in its obligations under the security-backed contract (including the issuer's determination that the agreement constitutes a non-exempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Fund will receive the fair value as of the date of termination.

10. RECONCILIATION TO FORM 5500

The amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, 2011, but not yet paid as of that date. The following is a reconciliation of net assets available for benefits per the

Edgar Filing: United Continental Holdings, Inc. - Form 11-K

financial statements to the Form 5500 (in millions):

	2011	2010
Net assets available for benefits per financial statements	\$ 3,240	\$ 3,249
Less: Participant withdrawals payable at December 31, 2011	(1)	
Net assets available for benefits per Form 5500	\$ 3,239	\$ 3,249

The following is a reconciliation benefits paid per the financial statements to the Form 5500 (in millions):

Table of Contents

	Year Ended December 31, 2011
