#### FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and 21E of the Securities Exchange Act of 1934. You should not place undue reliance on these statements. These forward-looking statements include statements that reflect the current views of our senior management with respect to our financial performance and future events with respect to our business and the insurance industry in general. Statements that include the words expect, intend, plan, believe, project, forecast, estimate, may, anticipate and similar statements of a future or forward-looking nature identify forward-looking statements. Forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause our actual results to differ materially from those indicated in these statements. We believe that these factors include, but are not limited to, the following:

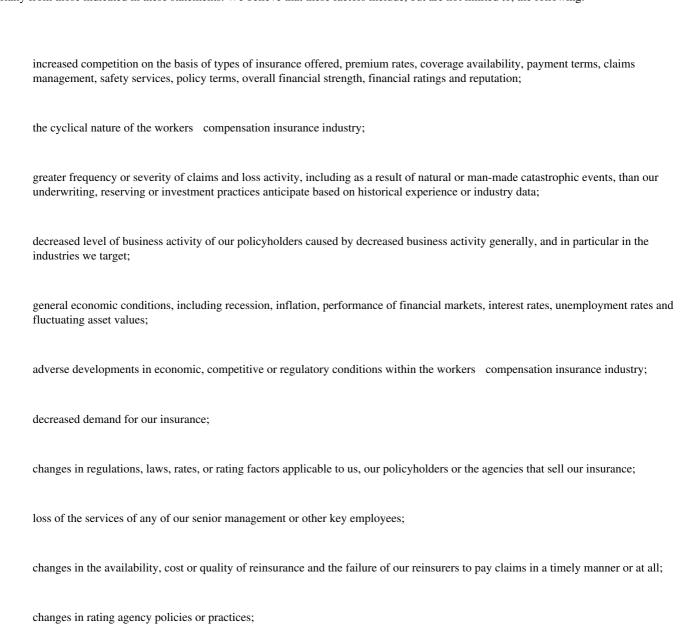

Table of Contents 4

developments in capital markets that adversely affect the performance of our investments;

changes in legal theories of liability under our insurance policies;

the effects of U.S. involvement in hostilities with other countries and large-scale acts of terrorism, or the threat of hostilities or terrorist acts; and

other risks and uncertainties described from time to time in the Company s filings with the Securities and Exchange Commission (SEC.).

The foregoing factors should not be construed as exhaustive and should be read together with the other cautionary statements included in this report and under Item 1A, Risk Factors of Part I to our Annual Report on Form 10-K for the year ended December 31, 2011. If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate.

#### AMERISAFE, INC. AND SUBSIDIARIES

#### NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### (unaudited)

#### Note 1. Basis of Presentation

AMERISAFE, Inc. (the Company ) is an insurance holding company incorporated in the state of Texas. The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its subsidiaries: American Interstate Insurance Company (AIIC), Silver Oak Casualty, Inc. (SOCI), American Interstate Insurance Company of Texas (AIICTX), Americane Risk Services, Inc. (RISK) and Americane General Agency, Inc. (AGAI). AIIC and SOCI are property and casualty insurance companies organized under the laws of the state of Louisiana. AIICTX is a property and casualty insurance company organized under the laws of the state of Texas. RISK, a wholly owned subsidiary of the Company, is a claims and safety services company, currently servicing only affiliated insurance companies. AGAI, a wholly owned subsidiary of the Company, is a general agent for the Company. AGAI sells insurance, which is underwritten by AIIC, SOCI and AIICTX, as well as by nonaffiliated insurance carriers. The assets and operations of AGAI are not significant to that of the Company and its consolidated subsidiaries. The terms AMERISAFE, the Company, we, us or our refer to AMERISAFE, Inc. and its consolidated subsidiaries the context requires.

The Company provides workers compensation and general liability insurance for small to mid-sized employers engaged in hazardous industries, principally construction, trucking and agriculture. Assets and revenues of AIIC represent more than 99% of comparable consolidated amounts of the Company for each of 2012 and 2011.

In the opinion of management of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring accruals) necessary to present fairly the financial position, the results of operations and cash flows for the periods presented. The unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q under the Securities Exchange Act of 1934 and therefore do not include all information and footnotes to be in conformity with accounting principles generally accepted in the United States (GAAP). The results for the interim periods are not necessarily indicative of the results of operations that may be expected for the year. The unaudited condensed consolidated financial statements contained herein should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2011.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain prior year amounts have been reclassified to conform with the current year presentation.

#### Note 2. Stock Options and Restricted Stock

The Company has three equity incentive plans: the AMERISAFE 2005 Equity Incentive Plan (the 2005 Incentive Plan ), the AMERISAFE 2010 Non-Employee Director Restricted Stock Plan (the 2010 Restricted Stock Plan ) and the AMERISAFE 2012 Equity and Incentive Compensation Plan (the 2012 Incentive Plan ). The 2012 Incentive Plan was approved by the Company s shareholders at the annual shareholders meeting in June 2012. See Note 13 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2011 for additional information regarding the Company s 2005 and 2010 incentive plans.

Pursuant to the 2010 Restricted Stock Plan, 9,513 shares of restricted common stock granted to non-employee directors in June 2011 vested on June 15, 2012, the date of the annual shareholders meeting. On June 15, 2012, the Company granted 7,833 shares of restricted common stock to non-employee directors in accordance with the 2010 Restricted Stock Plan. The market value of the restricted shares granted was \$0.2 million.

In March 2012, the compensation committee of our board of directors granted 2,331 shares of restricted common stock to two executive officers.

In May 2012, the Company granted 4,000 shares of restricted common stock in connection with the employment of a new officer. The award was made pursuant to the Company s 2005 Incentive Plan.

During the six months ended June 30, 2012, options to purchase 22,800 shares of common stock were exercised. During the six months ended June 30, 2011, options to purchase 217,750 shares of common stock were exercised. In connection with these exercises, the Company received \$0.2 million of stock option proceeds in the current year and \$2.0 million of stock option proceeds in the same period in 2011.

The Company recognized share-based compensation expense of \$0.1 million in the quarters ended June 30, 2012 and 2011. The Company recognized share-based compensation expense of \$0.2 million in the six months ended June 30, 2012, compared to \$0.3 million for the same period in 2011.

10

#### Note 3. Earnings Per Share

We compute earnings per share in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 260, Earnings Per Share. Diluted earnings per share includes potential common shares assumed issued under the treasury stock method, which reflects the potential dilution that would occur if any outstanding options are exercised. Diluted earnings per share also includes the if converted method for participating securities if the effect is dilutive.

#### **Table of Contents**

In the three months ended June 30, 2012, we sold equity securities classified as available-for-sale. The carrying value of these securities at disposal was \$0.9 million with realized gains on the sale of these securities of \$0.1 million. In the three months ended June 30, 2011, we sold fixed maturity securities classified as available-for-sale. The carrying value of these securities at disposal was \$11.9 million with realized gains on the sale of these securities of \$0.3 million.

In the six months ended June 30, 2012 and 2011, we sold equity and fixed maturity securities classified as available-for-sale. The carrying value of these securities at disposal was \$20.0 million with realized gains on the sale of these securities of \$1.9 million for the six months ended June 30, 2012, compared to a carrying value of \$12.8 million and realized gains of \$0.4 million for the same period in 2011.

We regularly review our investment portfolio to evaluate the necessity of recording impairment losses for other-than-temporary declines in the fair value of our investments. We consider various factors in determining if a decline in the fair value of an individual security is other-than-temporary. The key factors we consider are:

any reduction or elimination of dividends, or nonpayment of scheduled principal or interest payments;

the financial condition and near-term prospects of the issuer of the applicable security, including any specific events that may affect its operations or earnings;

how long and by how much the fair value of the security has been below its cost or amortized cost;

any downgrades of the security by a rating agency;

our intent not to sell the security for a sufficient time period for it to recover its value;

the likelihood of being forced to sell the security before the recovery of its value; and

an evaluation as to whether there are any credit losses on debt securities.

We reviewed all securities with unrealized losses in accordance with the impairment policy described above. We determined that the unrealized losses in the fixed maturity securities portfolios related primarily to changes in market interest rates since the date of purchase, current conditions in the capital markets and the impact of those conditions on market liquidity and prices generally and the transfer of investments from the available-for-sale classification to the held-to-maturity classification in January 2004. We expect to recover the carrying value of these securities since management does not intend to sell the securities and it is not more likely than not that we will be required to sell the security before the recovery of its amortized cost basis. In addition, none of the unrealized losses on debt securities are considered credit losses.

14

#### Note 5. Income Taxes

In accordance with FASB ASC Topic 740, Income Taxes, we provide for the recognition and measurement of deferred income tax benefits based on the likelihood of their realization in future years. As of June 30, 2012, the Company had no material unrecognized tax benefits and no adjustments to liabilities or operations were required.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. There were no uncertain tax positions recognized for the periods ended June 30, 2012 and 2011.

Tax years 2008 through 2011 are subject to examination by the federal and state taxing authorities. In April 2012, the Company was notified by the Internal Revenue Service that the examination for tax year 2009 had been completed. The Internal Revenue Service concluded that the Company properly computed the 2009 net long-term capital loss carryback of \$8.1 million and the Company was entitled to a \$2.9 million credit.

#### Note 6. Comprehensive Income

Comprehensive income was \$3.9 million for the three months ended June 30, 2012, as compared to \$5.4 million for the three months ended June 30, 2011. Comprehensive income was \$13.5 million for the six months ended June 30, 2012, as compared to \$11.9 million for the same period in 2011. The difference between net income as reported and comprehensive income was due to changes in unrealized gains and losses, net of tax, and a change in the deferred tax asset valuation allowance of \$0.2 million for the three and six months ended June 30, 2011.

#### Note 7. Fair Value Measurements

We carry available-for-sale securities at fair value in our consolidated financial statements and determine fair value measurements and disclosure in accordance with FASB ASC Topic 820, Fair Value Measurements and Disclosures.

The Company determined the fair values of its financial instruments based on the fair value hierarchy established in ASC Topic 820, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard defines fair value, describes three levels of inputs that may be used to measure fair value, and expands disclosures about fair value measurements.

Fair value is defined in ASC Topic 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is the price to sell an asset or transfer a liability and, therefore, represents an exit price, not an entry price. Fair value is the exit price in the principal market (or, if lacking a principal market, the most advantageous market) in which the reporting entity would transact. Fair value is a market-based measurement, not an entity-specific measurement, and, as such, is determined based on the assumptions that market participants would use in pricing the asset or liability. The exit price objective of a fair value measurement applies regardless of the reporting entity s intent and/or ability to sell the asset or transfer the liability at the measurement date.

ASC Topic 820 requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present value amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset, also known as current replacement cost. Valuation techniques used to measure fair value are consistently applied.

In ASC Topic 820, inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable:

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity.

Unobservable inputs are inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

15

Valuation techniques used to measure fair value are intended to maximize the use of observable inputs and minimize the use of unobservable inputs. ASC Topic 820 establishes a fair value hierarchy that prioritizes the use of inputs used in valuation techniques into the following three levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs are to be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters.

The fair values of the Company s investments are based upon prices provided by an independent pricing service. The Company has reviewed these prices for reasonableness and has not adjusted any prices received from the independent provider. Securities reported at fair value utilizing Level 1 inputs represent assets whose fair value is determined based upon observable unadjusted quoted market prices for identical assets in active markets. Level 2 securities represent assets whose fair value is determined using observable market information such as previous day trade prices, quotes from less active markets or quoted prices of securities with similar characteristics. There were no transfers between Level 1 and Level 2 during the six months ended June 30, 2012.

At June 30, 2012, assets and liabilities measured at fair value on a recurring basis are summarized below:

	Level 1 Inputs	Level 2 Inputs (in thou	Level 3 Inputs usands)	Total Fair Value
Securities available for sale equity				
Domestic common stock	\$ 7,903	\$	\$	\$ 7,903
Securities available for sale fixed maturity				
States and political subdivisions		76,203		76,203
Corporate bonds		48,141		48,141
U.S. agency-based mortgage-backed securities		4,221		4,221
Total available for sale fixed maturity		\$ 128,565	\$	\$ 128,565
Total available for sale	\$ 7,903	\$ 128,565	\$	\$ 136,468

At December 31, 2011, assets and liabilities measured at fair value on a recurring basis are summarized below:

	Level 1 Inputs	Level 2 Inputs (in thou	Level 3 Inputs	Total Fair Value
Securities available for sale equity				

Edgar Filing: AMERISAFE INC - Form 10-Q

Domestic common stock	\$ 11,460	\$	\$ \$ 11,460
Securities available for sale fixed maturity			
States and political subdivisions		57,762	57,762
Corporate bonds		42,980	42,980
Total available for sale fixed maturity		\$ 100,742	\$ \$ 100,742
Total available for sale	\$ 11,460	\$ 100,742	\$ \$ 112,202

In addition, the Company held common securities in unconsolidated variable interest entities of approximately \$0.4 million at June 30, 2012, and \$0.8 million at December 31, 2011, which are carried at cost. These variable interest entities are further discussed below in Note 9.

The Company determines fair value amounts for financial instruments using available third-party market information. When such information is not available, the Company determines the fair value amounts using appropriate valuation methodologies. Nonfinancial instruments such as real estate, property and equipment, deferred policy acquisition costs, deferred income taxes and loss adjustment expense reserves are excluded from the fair value disclosure.

Cash and Cash Equivalents The carrying amounts reported in the accompanying consolidated balance sheets for these financial instruments approximate their fair values, which are characterized as a Level 1 asset.

*Investments* The fair values for fixed maturity and equity securities are based on prices obtained from an independent pricing service. Fixed maturity securities are characterized as a Level 2 asset, as their fair values are determined using observable market inputs. Equity securities are characterized as Level 1 assets, as their fair values are based on quoted prices in active markets.

Short Term Investments The carrying amounts reported in the accompanying consolidated balance sheets for these financial instruments approximate their fair values. These securities are characterized as a Level 2 asset in the fair value hierarchy.

Subordinated Debt Securities The carrying value of the Company s subordinated debt securities approximates the estimated fair value of the obligations as the interest rates on these securities are comparable to rates that the Company believes it presently would incur on comparable borrowings. These liabilities are characterized as a Level 2.

The following table summarizes the carrying or reported values and corresponding fair values for financial instruments:

	As of Jun	As of June 30, 2012		June 30, 2012 As of Decen		cember 31, 2011

ACI II	12,090	12,090	23,700	25,760			

#### Note 8. Treasury Stock

The Board of Directors initially authorized the Company s share repurchase program in February 2010. In October 2011, the Board reauthorized this program with a new limit of \$25.0 million. There were no shares purchased during the three or six months ended June 30, 2012. During the six months ended June 30, 2011, 159,062 shares were purchased for \$2.9 million, or an average price (including commissions) of \$17.98 per share.

#### Note 9. Variable Interest Entities

In 2003, the Company formed Amerisafe Capital Trust I ( ACT I ) for the sole purpose of issuing \$10.0 million in trust preferred securities. ACT I used the proceeds from the sale of these securities and the Company s initial capital contribution to purchase \$10.31 million of subordinated debt securities from the Company. In July 2011, the Company redeemed all \$10.31 million of subordinated debt securities from ACT I and the trust was canceled.

In 2004, the Company formed Amerisafe Capital Trust II ( ACT II ) for the sole purpose of issuing \$25.0 million in trust preferred securities. ACT II used the proceeds from the sale of these securities and the Company s initial capital contribution to purchase \$25.78 million of subordinated debt securities from the Company. The debt securities are the sole assets of ACT II, and the payments under the debt securities are the sole revenues of ACT II. In May 2012, the Company redeemed \$12.89 million of the \$25.78 million aggregate principal amount of subordinated debt securities. In May 2012, the Company s Board of Directors authorized the redemption of the remaining \$12.89 million principal amount of subordinated debt securities. The redemption is expected to occur in the third quarter of 2012.

The Company concluded that the equity investment in ACT II is not at risk since the subordinated debt securities issued by the Company are the sole assets of ACT II. Accordingly, ACT II is considered a variable interest entity. The Company is not considered to be the primary beneficiary of ACT II and has not consolidated this entity.

17

#### **Note 10. Recently Issued Accounting Pronouncements**

In October 2010, the FASB issued Accounting Standards Update 2010-26, Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts (previously referred to as Emerging Issues Task Force (EITF) Issue 09-G). This guidance changes the accounting for costs associated with acquiring or renewing insurance contracts in response to diversity in practice in the capitalization and amortization of those costs. Under the new guidance, deferrable costs will be limited to incremental direct costs of successful contract acquisition incurred with independent third parties and the portion of total employee compensation and payroll-related fringe benefits related to time spent performing specified acquisition activities (e.g., underwriting, policy issuance and processing) for successful acquisition efforts. Companies will have a choice between prospective and retrospective adoption. The new guidance is effective for fiscal years beginning after December 15, 2011. Pursuant to the new guidance, the Company adopted the standard on a retrospective basis. The Company s adoption resulted in a \$2.2 million reduction of deferred policy acquisition costs, a \$0.8 million decrease in deferred income tax liabilities and a \$1.4 million decrease to shareholders equity at December 31, 2011. The adjustment to shareholders equity resulted in a reduction in book value of \$0.08 per share based on the number of shares outstanding at January 1, 2012. The impact on the Company s results of operations at June 30, 2012 was not material.

In May 2011, the FASB issued Accounting Standards Update 2011-04 Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in GAAP and the International Financial Reporting Standards (IFRS). ASU 2011-04 clarifies some existing concepts, eliminates wording differences between GAAP and IFRS, and in some limited cases, changes principles to achieve convergence between GAAP and IFRS. ASU 2011-04 results in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between GAAP and IFRS. ASU 2011-04 also expands the disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. The new guidance is effective for interim and annual periods beginning after December 15, 2011. The adoption of this guidance did not have a material impact on our consolidated financial statements.

In June 2011, the FASB issued Accounting Standards Update 2011-05, Presentation of Comprehensive Income. This guidance requires an entity to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present components of other comprehensive income as part of the statement of equity. This guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The adoption of this guidance did not have a material impact on our consolidated financial statements.

#### Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and the related notes included in Item 1 of Part I of this Quarterly Report on Form 10-Q, together with Management s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2011.

We begin our discussion with an overview of our Company to give you an understanding of our business and the markets we serve. We then discuss our critical accounting policies. This is followed with a discussion of our results of operations for the three and six months ended June 30, 2012 and 2011. This discussion includes an analysis of certain significant period-to-period variances in our consolidated statements of operations. Our cash flows and financial condition are discussed under the caption Liquidity and Capital Resources.

#### **Business Overview**

AMERISAFE is a holding company that markets and underwrites workers compensation insurance through its insurance subsidiaries. Workers compensation insurance covers statutorily prescribed benefits that employers are obligated to provide to their employees who are injured in the course and scope of their employment. Our business strategy is focused on providing this coverage to small to mid-sized employers engaged in hazardous industries, principally construction, trucking and agriculture. Employers engaged in hazardous industries pay substantially higher than average rates for workers compensation insurance compared to employers in other industries, as measured per payroll dollar. The higher premium rates are due to the nature of the work performed and the inherent workplace danger of our target employers. Hazardous industry employers also tend to have less frequent but more severe claims as compared to employers in other industries due to the nature of their businesses. We employ a proactive, disciplined approach to underwriting employers and providing comprehensive services intended to lessen the overall incidence and cost of

workplace injuries. We provide safety services at employers—workplaces as a vital component of our underwriting process and also to promote safer workplaces. We utilize intensive claims management practices that we believe permit us to reduce the overall cost of our claims. In addition, our audit services ensure that our policyholders pay the appropriate premiums required under the terms of their policies and enable us to monitor payroll patterns that cause underwriting, safety or fraud concerns. We believe that the higher premiums typically paid by our policyholders, together with our disciplined underwriting and safety, claims and audit services, provide us with the opportunity to earn attractive returns for our shareholders.

We actively market our insurance in 35 states and the District of Columbia through independent agencies, as well as through our wholly owned insurance agency subsidiary. We are also licensed in an additional 12 states and the U.S. Virgin Islands.

#### **Critical Accounting Policies**

Understanding our accounting policies is key to understanding our financial statements. Management considers some of these policies to be very important to the presentation of our financial results because they require us to make significant estimates and assumptions. These estimates and assumptions affect the reported amounts of our assets, liabilities, revenues and expenses and related disclosures. Some of the estimates result from judgments that can be subjective and complex and, consequently, actual results in future periods might differ from these estimates.

Management believes that the most critical accounting policies relate to the reporting of reserves for loss and loss adjustment expenses, including losses that have occurred but have not been reported prior to the reporting date, amounts recoverable from reinsurers, premiums receivable, assessments, deferred policy acquisition costs, deferred income taxes, the impairment of investment securities and share-based compensation. These critical accounting policies are more fully described in Item 7, Management s Discussion and Analysis of Financial Condition and Results of Operations of Part II to our Annual Report on Form 10-K for the year ended December 31, 2011.

#### **Results of Operations**

The following table summarizes our consolidated financial results for the three and six months ended June 30, 2012 and 2011.

	Three Months Ended June 30,		Six Month June	
	2012	2011	2012	2011
	(dolla	ars in thousands,	except per share	data)
		(unau	ıdited)	
Gross premiums written	\$ 85,476	\$ 72,916	\$ 170,400	\$ 144,275
Net premiums earned	69,733	60,261	139,523	120,350
Net investment income	6,605	6,597	13,519	13,143
Total revenues	76,637	67,051	155,291	134,010
Total expenses	72,604	62,219	139,825	121,688
Net income	3,445	4,594	13,006	11,224
Diluted earnings per common share	\$ 0.19	\$ 0.24	\$ 0.70	\$ 0.60
Other Key Measures				
Net combined ratio (1)	103.8%	102.6%	99.8%	100.5%
Return on average equity (2)	3.8%	5.5%	7.3%	6.7%
Book value per share (3)	\$ 19.98	\$ 18.50	\$ 19.98	\$ 18.50

- (1) The net combined ratio is calculated by dividing the sum of loss and loss adjustment expenses incurred, underwriting and certain other operating costs, commissions, salaries and benefits, and policyholder dividends by the current period s net premiums earned.
- (2) Return on average equity is calculated by dividing the annualized net income by the average shareholders equity for the applicable period.
- (3) Book value per share is calculated by dividing shareholders equity by total outstanding shares.

Consolidated Results of Operations for Three Months Ended June 30, 2012 Compared to June 30, 2011

*Gross Premiums Written*. Gross premiums written for the quarter ended June 30, 2012 were \$85.5 million, compared to \$72.9 million for the same period in 2011, an increase of 17.2%. The increase was attributable to a \$6.4 million increase in annual premiums on voluntary policies written during the period, a \$4.9 million increase in premiums resulting from payroll audits and related premium adjustments for policies written

in previous quarters and a \$1.2 million increase in assumed premium from mandatory pooling arrangements.

19

*Net Premiums Written.* Net premiums written for the quarter ended June 30, 2012 were \$81.5 million, compared to \$69.5 million for the same period in 2011, an increase of 17.2%. The increase was primarily attributable to the increase in gross premiums written. As a percentage of gross premiums earned, ceded premiums were 5.4% for the second quarter of 2012, compared to 5.3% for the second quarter of 2011. For additional information, see Business Reinsurance in our Annual Report on Form 10-K for the year ended December 31, 2011.

*Net Premiums Earned*. Net premiums earned for the second quarter of 2012 were \$69.7 million, compared to \$60.3 million for the same period in 2011, an increase of 15.7%. The increase was attributable to the increase in net premiums written in the quarter, offset by an increase in unearned premiums.

Net Investment Income. Net investment income for the quarters ended June 30, 2012 and 2011 was \$6.6 million. Average invested assets, including cash and cash equivalents, were \$873.2 million in the quarter ended June 30, 2012, compared to \$828.5 million for the same period in 2011, an increase of 5.4%. The pre-tax investment yield on our investment portfolio was 3.0% per annum during the quarter ended June 30, 2012, compared to 3.2% per annum for the quarter ended June 30, 2011. The tax-equivalent yield on our investment portfolio was 4.5% per annum for the quarters ended June 30, 2012 and 2011. The tax-equivalent yield is calculated using the effective interest rate and a 35% marginal tax rate.

Net Realized Gains (Losses) on Investments. Net realized gains on investments for the three months ended June 30, 2012 and 2011 totaled \$0.1 million. Net realized gains in the second quarter of 2012 were attributable to called fixed maturity securities and the sale of equity securities from the available-for-sale portfolio. Net realized gains in the second quarter of 2011 were attributable to \$0.3 million in realized gains from the sale of fixed maturity securities from the available for sale portfolio. The gains were offset by an other-than-temporary impairment of \$0.2 million on one asset-backed security from our held-to-maturity portfolio in the 2011 period.

Loss and Loss Adjustment Expenses Incurred. Loss and loss adjustment expenses (LAE) incurred totaled \$56.7 million for the three months ended June 30, 2012, compared to \$46.6 million for the same period in 2011, an increase of \$10.1 million, or 21.8%. The current accident year losses and LAE incurred were \$53.3 million, or 76.5% of net premiums earned, compared to \$47.8 million, or 79.3% of net premiums earned, for the same period in 2011. We recorded unfavorable prior accident year development of \$3.4 million in the second quarter of 2012, compared to favorable development of \$1.2 million in the same period of 2011, as further discussed below in Prior Year Development. Our net loss ratio was 81.3% in the second quarter of 2012, compared to 77.3% for the same period of 2011.

Underwriting and Certain Other Operating Costs, Commissions and Salaries and Benefits. Underwriting and certain other operating costs, commissions and salaries and benefits for the quarter ended June 30, 2012 were \$15.3 million, compared to \$14.9 million for the same period in 2011, an increase of 3.0%. This increase was primarily due to a \$0.9 million increase in commission expense, a \$0.5 million increase in accounts receivable write-offs, a \$0.4 million increase in insurance related assessments and a \$0.4 million increase in mandatory pooling arrangement fees. Offsetting these increases was a \$0.6 million increase in experience-rated commissions and a decrease in premium taxes of \$1.3 million. Our expense ratio was 22.0% in the second quarter of 2012 compared to 24.7% in the second quarter of 2011.

Interest expense. Interest expense for the second quarter of 2012 was \$0.2 million, compared to \$0.4 million for the same period in 2011. Weighted average borrowings for the quarter ended June 30, 2012 were \$19.3 million, compared to \$36.1 million for the same period in 2011. The weighted average interest rate increased to 4.3% per annum for the second quarter of 2012 from 4.2% per annum for the second quarter of 2011.

*Income tax expense.* Income tax expense for the three months ended June 30, 2012 was \$0.6 million, compared to \$0.2 million for the same period in 2011. The increase was attributable to an effective tax rate of 14.6% in the second quarter of 2012, compared to an effective tax rate of 4.9% in the second quarter of 2011. The increase in the effective tax rate was attributable to a lower ratio of tax-exempt investment income to pre-tax income in the second quarter of 2012 compared to the second quarter of 2011.

#### Consolidated Results of Operations for Six Months Ended June 30, 2012 Compared to June 30, 2011

Gross Premiums Written. Gross premiums written for the first half of 2012 were \$170.4 million, compared to \$144.3 million for the same period in 2011, an increase of 18.1%. The increase was attributable to a \$14.4 million increase in annual premiums on voluntary policies written during the period, a \$10.3 million increase in premiums resulting from payroll audits and related premium adjustments for policies written in previous quarters and a \$1.3 million increase in assumed premium from mandatory pooling arrangements. In addition, the renewal rights and assumption agreement with Cooperative Mutual was completed in the first quarter of 2011, which accounted for \$4.0 million of gross premiums written in that period.

*Net Premiums Written.* Net premiums written for the six months ended June 30, 2012 were \$162.5 million, compared to \$137.3 million for the same period in 2011, an increase of 18.4%. The increase was primarily attributable to the increase in gross premiums written. As a percentage of gross premiums earned, ceded premiums were 5.3% for the first half of 2012, compared to 5.5% for the first half of 2011. The decrease in ceded premiums as a percentage of gross premiums earned is a result of a change in our 2012 reinsurance treaties.

20

*Net Premiums Earned.* Net premiums earned for the first half of 2012 were \$139.5 million, compared to \$120.4 million for the same period in 2011, an increase of 15.9%. The increase was attributable to the increase in net premiums written, offset by an increase in unearned premiums.

Net Investment Income. Net investment income for the first six months of 2012 was \$13.5 million, compared to \$13.1 million for the same period in 2011. Average invested assets, including cash and cash equivalents, were \$868.3 million in the six months ended June 30, 2012, compared to \$827.2 million for the same period in 2011, an increase of 5.0%. The pre-tax investment yield on our investment portfolio was 3.1% per annum during the six months ended June 30, 2012, compared to 3.2% per annum during the same period in 2011. The tax-equivalent yield on our investment portfolio was 4.5% per annum for the first half of 2012 and 2011. The tax-equivalent yield is calculated using the effective interest rate and a 35% marginal tax rate.

Net Realized Gains (Losses) on Investments. Net realized gains on investments for the six months ended June 30, 2012 totaled \$1.9 million, compared to \$0.2 million for the same period in 2011. Net realized gains in the first half of 2012 were attributable to called fixed maturity securities and from the sale of equity securities and fixed maturity securities from the available-for-sale portfolio. Net realized gains in the first half of 2011 primarily resulted from \$0.4 million in gains from the sale of certain equity and fixed maturity securities from the available-for-sale portfolio. The gains were offset by an other-than-temporary impairment of \$0.2 million on one asset-backed security from our held-to-maturity portfolio in the 2011 period.

Loss and Loss Adjustment Expenses Incurred. Loss and loss adjustment expenses (LAE) incurred totaled \$108.6 million for the six months ended June 30, 2012, compared to \$90.8 million for the same period in 2011, an increase of \$17.8 million, or 19.6%. The current accident year losses and LAE incurred were \$106.8 million, or 76.5% of net premiums earned, compared to \$94.1 million, or 78.2% of net premiums earned, for the same period in 2011. We recorded unfavorable prior accident year development of \$1.8 million in the first half of 2012, compared to favorable prior accident year development of \$3.3 million in the same period of 2011, as further discussed below in Prior Year Development. Our net loss ratio was 77.8% in the first half of 2012, compared to 75.4% for the same period of 2011.

Underwriting and Certain Other Operating Costs, Commissions and Salaries and Benefits. Underwriting and certain other operating costs, commissions and salaries and benefits for the six months ended June 30, 2012 were \$30.1 million, compared to \$29.5 million for the same period in 2011, an increase of 2.0%. This increase was primarily due to a \$1.9 million increase in commission expense, a \$0.6 million increase in accounts receivable write-offs, a \$0.5 million increase in insurance related assessments and a \$0.4 million increase in mandatory pooling arrangement fees. Offsetting these increases was a \$2.2 million increase in experience-rated commission, a decrease in premium taxes of \$0.8 million and a decrease of \$0.2 million in ceding commission related to our 2012 reinsurance agreement. Our expense ratio was 21.5% in the first half of 2012 compared to 24.5% in the same period of 2011.

*Interest expense*. Interest expense for the first six months of 2012 was \$0.5 million, compared to \$0.8 million for the same period in 2011. Weighted average borrowings for the six months ended June 30, 2012 were \$22.5 million, compared to \$36.1 for the same period of 2011. The weighted average interest rate increased to 4.3% per annum for the first half of 2012 from 4.2% for the same period of 2011.

*Income tax expense.* Income tax expense for the six months ended June 30, 2012 was \$2.5 million, compared to \$1.1 million for the same period in 2011. The increase was attributable to an increase in pre-tax income to \$15.5 million in the first half of 2012 from \$12.3 million in the first half of 2011. The effective tax rate also increased to 15.9% for the six months ended June 30, 2012 from 8.9% for the six months ended June 30, 2011. This increase is due to a lower level of tax-exempt investment income relative to our pre-tax income.

#### **Liquidity and Capital Resources**

Our principal sources of operating funds are premiums, investment income and proceeds from sales and maturities of investments. Our primary uses of operating funds include payments of claims and operating expenses. Currently, we pay claims using cash flow from operations and invest our excess cash.

Net cash provided by operating activities was \$41.9 million for the six months ended June 30, 2012, which represented a \$37.2 million increase from \$4.7 million in net cash provided by operating activities for the six months ended June 30, 2011. This increase in operating cash flow was attributable to a \$18.9 increase in payables for securities sold, a \$15.0 million increase in premiums collected, a \$3.6 million increase in reinsurance recoveries, a \$2.9 million increase in investment income, a \$2.5 million decrease in losses paid and a \$1.4 million decrease in expense disbursements. Offsetting these increases was a \$5.4 million increase in federal income taxes paid.

Net cash provided by investing activities was \$2.0 million for the six months ended June 30, 2012, compared to net cash used in investment activities of \$3.4 million for the same period in 2011. Cash provided by sales and maturities of investments totaled \$148.1 million for the six months ended June 30, 2012, compared to \$139.8 million for the same period in 2011. A total of \$145.9 million in cash was used to purchase investments in the six months ended June 30, 2012, compared to \$142.9 million in purchases for the same period in 2011.

Net cash used in financing activities in the six months ended June 30, 2012 was \$12.6 million, compared to \$0.2 million for the same period in 2011. In the six months ended June 30, 2012, \$12.9 million of cash was used to redeem subordinated debt securities. During the six months ended June 30, 2012, there were no repurchases of outstanding shares of our common stock, compared to \$2.9 million used for repurchases for the same period in 2011. Proceeds from stock option exercises totaled \$0.2 million in the six months ended June 30, 2012, compared to \$2.0 million for the same period in 2011.

The Board of Directors initially authorized the Company s share repurchase program in February 2010. In October 2011, the Board reauthorized this program with a new limit of \$25.0 million. There were no shares purchased during the six months ended June 30, 2012. During the six months ended June 30, 2011, 159,062 shares were purchased for \$2.9 million, or an average price (including commissions) of \$17.98 per share.

In May 2012, the Company s Board of Directors authorized the redemption of the remaining \$12.89 million principal amount of outstanding subordinated debt securities. The redemption is expected to occur in the third quarter of 2012, with the redemption being funded from available cash.

#### **Investment Portfolio**

As of June 30, 2012, our investment portfolio, including cash and cash equivalents, totaled \$878.1 million, an increase of 5.9% from June 30, 2011. Effective April 1, 2010, purchases of fixed maturity securities are classified as available-for-sale or held-to-maturity based on the individual security. Such classification is made at the time of purchase. The reported value of our fixed maturity securities classified as held-to-maturity, as defined by FASB ASC Topic 320, Investments-Debt and Equity Securities, was equal to their amortized cost, and thus was not impacted by changing interest rates. Our equity securities and fixed maturity securities classified as available-for-sale were reported at fair value.

The composition of our investment portfolio, including cash and cash equivalents, as of June 30, 2012, is shown in the following table:

	Carrying Value (in the	Percentage of Portfolio ousands)
Fixed maturity securities held-to-maturity:		
States and political subdivisions	\$ 419,483	47.7%
U.S. agency-based mortgage-backed securities	39,013	4.4%
Commercial mortgage-backed securities	51,540	5.9%
U.S. Treasury securities and obligations of U.S. Government		
agencies	11,042	1.3%
Corporate bonds	94,831	10.8%
Asset-backed securities	4,773	0.5%
Total fixed maturity securities held-to-maturity	620,682	70.6%
Fixed maturity securities available-for-sale:	76.202	0.70
States and political subdivisions	76,203	8.7%
U.S. agency-based mortgage-backed securities	4,221	0.5%
Corporate bonds	48,141	5.5%
Total fixed maturity securities available-for-sale	128,565	14.7%
Equity securities	8,293	0.9%
Short-term investments	43,751	5.0%
Cash and cash equivalents	76,848	8.8%

Total investments, including cash and cash equivalents

\$878,139

100.0%

Our securities classified as available-for-sale are marked to market as of the end of each calendar quarter. As of that date, unrealized gains and losses are recorded to Accumulated Other Comprehensive Income, except when such securities are deemed to be other-than-temporarily impaired. For our securities classified as held-to-maturity, unrealized gains and losses are not recorded in the financial statements until realized or until a decline in fair value, below amortized cost, is deemed to be other-than-temporary.

22

#### **Prior Year Development**

The Company recorded unfavorable prior accident year development of \$3.4 million in the three months ended June 30, 2012. The table below sets forth the favorable or unfavorable development for the three and six months ended June 30, 2012 and 2011 for accident years 2007 through 2011 and, collectively, for all accident years prior to 2007.

		Favorable/(Unfa	vorable) Develop	ment			
	Three Months Ended June 30Three Months Endetix Months Endetix Months Ende						
	June 304 n 2012	June 30, 2011	ax Months Endea June 30, 2012	June 30, 2011			
	2012	- /	millions)	June 30, 2011			
Accident Year							
2011	\$ (3.2)	\$	\$ (3.2)	\$			
2010	(2.0)	(5.4)	(5.6)	(19.1)			
2009	0.3		0.3				
2008	0.1	1.5	0.4	3.7			
2007		1.8	2.8	7.9			
Prior to 2007	1.4	3.3	3.5	10.8			
Total net development	\$ (3.4)	\$ 1.2	\$ (1.8)	\$ 3.3			

The table below sets forth the number of open claims as of June 30, 2012 and 2011, and the number of claims reported and closed during the three and six months then ended.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Open claims at beginning of period	5,097	5,101	5,184	5,129
Claims reported	1,523	1,484	2,894	2,819
Claims closed	(1,561)	(1,453)	(3,019)	(2,816)
Open claims at end of period	5,059	5,132	5,059	5,132

The number of open claims at June 30, 2012 decreased by 73 claims as compared to the number of open claims at June 30, 2011. Efforts continue to close prior year claims, especially in those circumstances where the claim could be settled for less than the corresponding case reserve amount (which amount represents the estimated ultimate cost to settle the claim, undiscounted).

At June 30, 2012, our incurred amounts for certain accident years, particularly 2006, 2007, 2008 and 2009 have not developed to the degree management previously expected. The assumptions we used in establishing our reserves for these accident years were based on our historical claims data. However, as of June 30, 2012, actual results for these accident years have been lower than our assumptions would have predicted. At the same time, actual results for accident years 2010 and 2011 are higher than we predicted. We do not presently intend to modify our assumptions for establishing reserves in light of recent results. However, if actual results for current and future accident years are consistent with, or different than, our results in these recent accident years, our historical claims data will reflect these changes and, over time, will impact the reserves we establish for future claims.

Our reserves for loss and loss adjustment expenses are inherently uncertain and our focus on providing workers compensation insurance to employers engaged in hazardous industries results in our receiving relatively fewer but more severe claims than many other workers compensation insurance companies. As a result of this focus on higher severity, lower frequency business, our reserve for loss and loss adjustment expenses may have greater volatility than other workers compensation insurance companies. For additional information, see Item 1, Business Loss Reserves in our Annual Report on Form 10-K for the year ended December 31, 2011.

23

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Market risk is the risk of potential economic loss principally arising from adverse changes in the fair value of financial instruments. The major components of market risk affecting us are credit risk, interest rate risk and equity price risk. We currently have no exposure to foreign currency risk.

Since December 31, 2011, there have been no material changes in the quantitative or qualitative aspect of our market risk profile. For additional information regarding the Company s exposure to certain market risks, see Item 7A, Quantitative and Qualitative Disclosures About Market Risk in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

#### Item 4. Controls and Procedures.

Under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act )) as of the end of the period covered by this report. Based on that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that information we are required to disclose in reports that are filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms. We note that the design of any system of controls is based in part upon assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving the stated goals under all potential future conditions.

There have not been any changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II OTHER INFORMATION

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table summarizes the Company s purchases of its common stock, par value \$0.01 per share, during the three months ended June 30, 2012:

	Total	Approximate
	Number	Dollar
	of	Value
	Shares	of Shares
	Purchased	that
	as Part	May Yet Be
Total	of	Purchased
Number of	Publicly	Under the
Shares Average	e Price Announced	Program
Period PurchasedPaid per S	Share (1Program (2)	(in thousands)
April 1, 2012 to April 30, 2012		24,388
May 1, 2012 to May 31, 2012		24,388
June 1, 2012 to June 30, 2012		24,388

Total

- (1) Average price per share includes commissions.
- (2) The Board of Directors initially authorized the Company s share repurchase program in February 2010. In October 2011, the Board reauthorized this program with a new limit of \$25.0 million. Unless reauthorized, the program will expire on December 31, 2012.
