**Table of Contents**

**CONVERTED ORGANICS INC.**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**NOTE 1 BASIS OF PRESENTATION AND NATURE OF OPERATIONS**

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ( US GAAP ) for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, these interim consolidated financial statements do not include all of the information and disclosures required by U.S. GAAP for complete financial statements. In management's opinion, the interim consolidated financial statements and accompanying notes reflect all adjustments, consisting of normal and recurring adjustments that are necessary for a fair presentation of these financial statements.

The results of operations for the interim periods are not necessarily indicative of the results to be expected for other interim periods or for the entire year. This Form 10-Q should be read in conjunction with the consolidated financial statements and notes thereto included in Converted Organics Inc.'s Form 10-K/A as of and for the year ended December 31, 2011.

***NATURE OF OPERATIONS***

Converted Organics Inc. and its subsidiaries (collectively the Company) utilize innovative clean technologies to establish environmentally friendly businesses. The Company is dedicated to creating a cleaner, greener future, and operates using sustainable business practices that support this vision. During the six months ended June 30, 2012, the Company has three business segments: Organic Fertilizer, Industrial Wastewater Treatment and Vertical Farming.

*Organic Fertilizer:* The Company operates a processing facility that converts food waste and other raw materials into all-natural fertilizers, biostimulants, and soil amendment products.

*Industrial Wastewater Treatment:* Utilizing an innovative wastewater treatment process, Converted Organics provides a means of treating industrial wastewater. This technology can use a variety of fuel sources to separate industrial wastewater into clean water vapor and landfill-appropriate solid residuals.

*Vertical Farming:* The Company established its vertical farming segment through its TerraSphere business, which owns the patents for efficient systems for growing pesticide-free organic produce in a controlled indoor environment using its patented technology.

A summary of the subsidiaries that comprise the Company are as follows:

Converted Organics of California, LLC (the Gonzales, CA facility), is a California limited liability company and wholly-owned subsidiary of the Company. The Gonzales, CA facility operates a plant in Gonzales, CA, in the Salinas Valley and produces approximately 25 tons of organic fertilizer per day, which is sold primarily to the California agricultural market. The Gonzales, CA facility employs a proprietary method called High Temperature Liquid Composting (HTLC). The facility has been upgraded to enable it to accept larger amounts of food waste from waste haulers and may be upgraded, depending on demand, to have the capability to produce a dry product in addition to the current liquid fertilizer it produces. The operations of the Gonzales, CA facility are part of the organic fertilizer business segment.

Converted Organics of Woodbridge, LLC, (the Woodbridge, NJ facility), is a New Jersey limited liability company and wholly-owned subsidiary of the Company, which was formed for the purpose of owning, constructing and operating the Company's facility in Woodbridge, NJ. The Woodbridge, NJ facility was designed to service the New York-Northern New Jersey metropolitan area. During 2010, the Company discontinued operations at the Woodbridge, NJ facility. The Company has reported the results of operations of Converted Organics of Woodbridge, LLC as discontinued operations within the consolidated financial statements. The operations of the Woodbridge, NJ facility were part of the organic fertilizer business segment.

On January 26, 2010, the Company formed Converted Organics of Mississippi, LLC, a Mississippi limited liability company and a wholly-owned subsidiary of the Company, for the purpose of hiring a sales force and adding a poultry litter-based fertilizer product to the Company's existing product lines. The Company has not had any operating activity in this subsidiary since inception.

Converted Organics of Rhode Island, LLC ( RILLC ) is an inactive, 92.5% owned subsidiary of Converted Organics Inc. RILLC has no assets or liabilities.

---

**Table of Contents**

**CONVERTED ORGANICS INC.**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

**NOTE 1 BASIS OF PRESENTATION AND NATURE OF OPERATIONS (Continued)**

The business activities associated with the Company's Industrial Waste Water facility in Colorado, which are included in the Industrial Wastewater Treatment segment are recorded on the books of the parent company, Converted Organics Inc., and not in a separate subsidiary. On January 30, 2012, the Company announced that it had defaulted on its agreement with South Canyon Waste Systems and therefore had no revenue for the three and six months ended June 30, 2012.

On May 20, 2010, the Company formed TerraSphere Inc. (TerraSphere), a Delaware corporation and a wholly-owned subsidiary of the Company, for the purpose of acquiring the membership interests of TerraSphere Systems LLC (TerraSphere Systems). On November 12, 2010, TerraSphere acquired a 95% membership interest in TerraSphere Systems. TerraSphere Systems has two subsidiaries; wholly owned PharmaSphere, LLC (PharmaSphere) and majority owned TerraSphere Systems Canada, Inc. (TerraSphere Canada). TerraSphere operations are part of the vertical farming business segment.

PharmaSphere's business plan is to utilize the TerraSphere System's patented technology for the production of high value biocompounds sourced from plants and used as active pharmaceutical ingredients and for the production of transgenic plants (genetically engineered plants) for the biotechnology market. PharmaSphere has a wholly-owned subsidiary PharmaSphere Worcester, LLC, which was formed to build a facility in Worcester, Massachusetts utilizing PharmaSphere's business plan. The building of the facility has not commenced. PharmaSphere has no revenue to date. TerraSphere Canada, located in Vancouver, British Columbia, operated the research and manufacturing facility for TerraSphere and is 85% owned by TerraSphere Systems.

On December 30, 2010, Converted Organics Inc. purchased a majority ownership interest of the vertical farming entity, GoLocalProduceRI, LLC located in Rhode Island. The Company has not had any material operating activity in this subsidiary since inception.

In February 2012, the Company's vertical farming segment entered into a license agreement whereby the Company granted the use of the TerraSphere technology to produce medical marijuana. The Company received \$40,000 for this license, which is recorded as deferred revenue until revenue recognition criteria are met, and agreed to return a non-refundable deposit of 3 million shares of common stock in a publicly traded company, which was previously given to the Company for an option to purchase its PharmaSphere business.

**NOTE 2 GOING CONCERN**

The accompanying interim consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As reflected in the interim consolidated financial statements, the Company has an accumulated deficit, has suffered significant net losses and negative cash flows from operations, and has negative working capital, which raises substantial doubt about the Company's ability to continue as a going concern. The unaudited interim consolidated financial statements do not include any adjustments that might result should the Company be unable to continue as a going concern.

As reflected in the interim consolidated financial statements, the Company incurred a loss from continuing operations before other income of approximately \$1.8 million for the six months ended June 30, 2012 and as of June 30, 2012 has an accumulated deficit of approximately \$113.7 million and a working capital deficiency of approximately \$5.1 million.

Presently, the Company's liquidity is limited to cash on hand at June 30, 2012 of approximately \$208,000 and up to approximately \$1.4 million that may be received in 2012 as a result of the sale of the additional convertible notes. As of June 30, 2012, the Company has sold \$1,338,260 of these notes and may sell up to \$237,600 per month through December 31, 2012, if certain conditions are met. There is no assurance that the holder of the notes will continue to purchase the monthly amount and, as such, it may not receive these funds to fund continuing operations.

If the Company does not receive additional funds from external funding sources or from the continued sale of convertible notes on a monthly basis during the remainder of 2012, the Company will not have sufficient cash to be able to continue its operations. The Company anticipates that it will exhaust its cash position as of December 31, 2012 and unless additional financing can be secured (for which there are no

## Edgar Filing: Converted Organics Inc. - Form 10-Q

commitments), the Company will not be able to continue operations after December 31, 2012. Therefore, in the fourth quarter of 2011, in order to conserve cash, the Company determined to continue operations in the organic fertilizer business segment while curtailing all but essential personnel at the corporate level and in the industrial wastewater treatment and vertical farming business segments.

---

**Table of Contents**

**CONVERTED ORGANICS INC.**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

**NOTE 3 SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***PRINCIPLES OF CONSOLIDATION AND BASIS OF PRESENTATION***

The accompanying interim consolidated financial statements include the balances of Converted Organics Inc. and its wholly-owned subsidiaries, Converted Organics of California, LLC, Converted Organics of Woodbridge, LLC, Converted Organics of Mississippi, LLC and its majority-owned subsidiaries Converted Organics of Rhode Island, LLC, TerraSphere Inc. and GoLocalProduceRI, LLC. The minority-owned interest in its subsidiaries is included in the Company's consolidated financial statements as non-controlling interest. All intercompany transactions and balances have been eliminated in consolidation.

***USE OF ESTIMATES***

The preparation of the interim consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the interim consolidated financial statements. Actual results could differ from those estimates.

Among the most significant estimates used in the preparation of the Company's interim consolidated financial statements are the projections of future cash flows from the Company's business segments used in assessing whether there has been any impairment to the Company's long-lived assets, intangible assets or goodwill, the valuation of derivative liabilities and liabilities for discontinued operations. These estimates are inherently uncertain and may require significant adjustments based on future events. The effect of any such adjustments could be significant.

***INVESTMENT***

On March 12, 2012, the Company entered into a Securities Purchase Agreement (the Preferred Stock Purchase Agreement), pursuant to which the Company acquired 150 shares of Series A Convertible Preferred Stock (the Preferred Shares) of Innovate/Protect, Inc., a privately-held Delaware corporation, for \$495,000. Innovate/Protect, Inc. maximizes the economic benefit of intellectual property assets, and through its subsidiary, I/P Engine, initiated a patent infringement lawsuit in the United States District Court for the Eastern District of Virginia against Google, Inc., AOL, Inc., IAC Search & Media, Inc., Gannett Company, Inc. and Target Corporation for unlawfully using systems that incorporate features claimed in two patents owned by I/P Engine. Upon acquisition of the shares of Preferred Stock, the Company converted the shares of preferred stock into shares of common stock. As of June 30, 2012, the Company has accounted for this investment at cost.

During July 2012, Innovate/Protect completed a merger with Vringo Inc. (NYSE Amex: VRNG), a provider of software platforms for mobile social and video applications and the Company received 452,640 shares of Vringo stock and 186,408 warrants valued at \$1.76 per share by the NYSE on the date of the merger. Upon the receipt of Vringo shares, the Company will recognize this investment at fair value, using Level 1 inputs, and will mark it to market at each reporting period.

***DEFERRED FINANCING COSTS***

In connection with its various private financings, the Company incurs fees which are capitalized and are being amortized over the term of the related loans. Amortization expense associated with private financings totaled \$1,683,338 and \$5,558,287 for the six months ended June 30, 2012 and 2011, respectively.

***RECENTLY ISSUED ACCOUNTING STANDARDS***

There have been no new accounting pronouncements during the three months ended June 30, 2012, as compared to the recent accounting pronouncements described in the Company's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2011, that are of significance, or potential significance, to the Company.

**NOTE 4 INVENTORIES**

The Company's inventories consisted of the following:

	<b>June 30, 2012</b>	<b>December 31, 2011</b>
Finished goods	\$ 113,107	\$ 224,009
Raw materials	28,129	50,382
<b>Total inventories</b>	<b>\$ 141,236</b>	<b>\$ 274,391</b>

**Table of Contents****CONVERTED ORGANICS INC.****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****NOTE 5 DEBT**

In connection with the Company's acquisition of TerraSphere Systems, the Company assumed TerraSphere's existing liability to a third party (unrelated to the Company or TerraSphere) for a note payable in the amount of \$350,000 with a fixed interest rate of 15% per annum. Interest only payments totaling \$4,375 were due monthly with the principal balance due August, 27, 2011. On March 9, 2011, the Company entered into an agreement with the third party regarding its \$350,000 promissory note payable. In consideration of receiving a lump sum cash payment of \$125,000, the third party released and discharged the Company from all obligations under the note. This gain on settlement of \$225,000 is included in other income (expense) in the consolidated statements of operations and comprehensive income (loss) for the six months ended June 30, 2011.

***NOTE PAYABLE RELATED PARTY***

In connection with the Company's acquisition of TerraSphere Systems, the Company assumed an unsecured note payable to William Gildea, Secretary of the Company and brother of Edward Gildea, President of the Company, which has an interest rate of 10% per annum. The principal amount due totaled \$72,351 at June 30, 2012 and December 31, 2011. The Company incurred interest expense totaling \$3,608 and \$3,588 for the six months ended June 30, 2012 and 2011, respectively.

***CONVERTIBLE NOTES PAYABLE***

On April 1, 2011, the Company entered into a second Securities Purchase Agreement (the "Second Purchase Agreement") with an institutional investor (the "Buyer") whereby, the Company agreed to sell to the Buyer certain notes and warrants. Pursuant to the terms of the Agreement, the Company agreed to sell to the Buyer a convertible note in the aggregate original principal amount of \$3,850,000 (the "Original Note"), which is convertible into shares of common stock. The Original Note is non-interest bearing and was issued with an original issue discount of approximately 9%. The Company recorded the initial fair values of the OID and the conversion feature from the warrants up to the gross proceeds of the note (\$3,500,000) as a discount on the Original Note which was to be amortized ratably over the six-month term. Net proceeds of the Original Note were \$3,325,000 and at December 31, 2011, the carrying value of the Original Note was \$2,685,686 and the associated unamortized discount was \$527,878. The note was fully converted in April, 2012.

The Company has adopted Accounting Standards Codification Topic 470 *Modifications and Extinguishments* (ASC 470), which defines a debt modification. ASC 470 establishes that a modification exists if the terms of the embedded conversion option from which the change in the fair value of the embedded conversion option (calculated as the difference between the fair value of the embedded conversion option immediately before and after the modification or exchange) is at least 10 percent of the carrying amount of the original debt instrument immediately before the modification or exchange. On March 12, 2012, the effective date of the January 2012 and April 2011 additional Note amendments, the Company measured the fair value of the embedded conversion option and determined that the change in fair value immediately before and after the amendments were greater than 10 percent resulting in debt modifications. In accordance with ASC 470, the Company has recognized a loss on debt modifications of \$3,000,205 on the accompanying interim consolidated statements of operations and comprehensive income for the six months ended June 30, 2012.

On January 3, 2012 the Company entered into a Purchase Agreement, whereby the Company agreed to sell to an investor twelve (12) senior secured convertible notes (each note the "Note," and collectively the "Notes"). The initial Note has an original principal amount of \$247,500, and was issued for a purchase price of \$225,000. The remaining eleven (11) Notes each have an original principal amount of up to \$237,600. The aggregate principal amount of the Notes that it may issue pursuant to the Purchase Agreement is \$2,861,100, for an aggregate purchase price of \$2,601,000, if certain conditions are met. Each Note matures eight (8) months after issuance. The closing of the purchase of the initial Note occurred on January 6, 2012, with subsequent closings taking place each month from February through June 2012 and the closing of the remaining Notes being expected to occur on the first day of each month thereafter, subject to certain closing conditions. The Notes are being issued with an original issue discount and are not interest bearing, unless the Company is in default on the Notes, in which case the Notes carry an interest rate of 18% per annum. As of June 30, 2012, the total principal outstanding on these notes was \$1,338,260.

On March 12, 2012, the Company entered into an agreement with two investors, pursuant to which it agreed to effect an additional closing under the January 3, 2012 convertible note in which it will issue the buyers new notes having an aggregate original principal amount of \$550,000 for a

## Edgar Filing: Converted Organics Inc. - Form 10-Q

purchase price of \$500,000, and warrants to purchase an aggregate of 5,238 shares of common stock at an exercise price of \$52.50 per share. The notes are convertible into shares of its common stock at a conversion price equal to the lowest of (1) \$0.105 per share (the Fixed Conversion Price), (2) the price which is 85% of the three lowest closing sale prices of the its common stock during the twenty trading day period preceding the applicable conversion date, and (3) the price which is 85% of the closing sale price of its common stock on the trading day preceding the applicable conversion date; provided that if it makes certain dilutive issuances (with limited exceptions), the Fixed Conversion Price of the Notes will be lowered to the per share price for the dilutive issuances. The closing of the purchase of the Notes and Warrants occurred on March 13, 2012. As of June 30, 2012, the outstanding principal on this additional closing note was \$550,000.

---

**Table of Contents**

**CONVERTED ORGANICS INC.**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

**NOTE 5 DEBT (Continued)**

On March 12, 2012, the Company entered into a Securities Purchase Agreement with an investor, pursuant to which the Company acquired 150 shares of Series A Convertible Preferred Stock of Innovate/Protect, Inc., a privately-held Delaware corporation, for \$495,000. In the March 12, 2012 agreement detailed in the preceding paragraph, the Company agreed to utilize the proceeds from the issuance of the New Notes to purchase the Preferred Shares (see Note 3 Investment).

**NOTE 6 DERIVATIVE INSTRUMENTS**

The following tables detail activity for the six months ended June 30, 2012 for derivative instruments in existence as of December 31, 2011 as well as new derivative instruments entered into during the six months ended June 30, 2012 as described below. For further details regarding derivative instruments in existence as of December 31, 2011, refer to the Company's 10-K/A filed on April 10, 2012.

On January 3, 2012, the Company entered into an agreement with an institutional investor whereby the Company agreed to sell to the investor twelve senior secured convertible notes (the January Notes). The initial January Note was issued on January 6, 2012 in an original principal amount of \$247,500, for a purchase price of \$225,000. The remaining eleven January Notes will each have an original principal amount of up to \$237,600. Each January Note matures eight months after issuance. The total face value of the twelve notes under this agreement will be \$2,861,100, assuming each note is sold to the investor for full value. As of June 30, 2012 the total principal outstanding on these notes was \$1,338,260. The January Notes are convertible into shares of its common stock at a conversion price equal to 80% of lowest bid price of its common stock on the date of conversion.

In conjunction with the January Notes, the Company also agreed to issue to the investor up to twelve warrants to acquire shares of common stock (January Warrants), each such issuance to occur along with each purchase of a January Note. Each warrant provides that the holder is initially entitled to purchase the number of shares of common stock equal to 50% of the number of shares of common stock issuable upon conversion in full of the applicable January Note (based on initial fixed conversion price equal to the three lowest closing sale prices of its common stock during the twenty trading day period preceding the issuance of the particular January Note, with respect to each January Note, such term is referred to as the Fixed Conversion Price) at an initial exercise price equal to the Fixed Conversion Price of the applicable January Note that is issued along with such warrant. As of June 30, 2012, 92,934,772 shares of common stock underlie these warrants.

On March 12, 2012, the Company entered into an agreement (the March Agreement) with two investors, pursuant to which it agreed to effect an additional closing of notes identical to the January Notes in which it issued the buyers new notes having an aggregate original principal amount of \$550,000 for a purchase price of \$500,000 (the New Notes), and warrants to purchase an aggregate of 2,619,048 shares of common stock at an exercise price of \$0.105 per share (the New Warrants). The New Notes and New Warrants have identical terms to the January Notes and January Warrants described above. Each of the New Warrants issued was subject to the April 2012 Warrant Amendments, provided that in addition to such amendments, the New Warrants were amended to state that a portion of the New Warrants would be callable by the Company if the daily volume of its common stock was two million shares or greater for five consecutive trading days. As of June 30, 2012, 38,194,444 shares of the Company's common stock underlie these warrants.

**Table of Contents****CONVERTED ORGANICS INC.****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****NOTE 6 DERIVATIVE INSTRUMENTS (Continued)**

As of June 30, 2012, the Company has recognized the following warrants as derivative instruments:

Issue			Outstanding at Dec 31, 2011	Issued/amended	Exercised or Canceled	Outstanding and Exercisable at June 30, 2012	Fair Value at June 30, 2012	Fair Value at Dec 31, 2011

				6,042	181,874,232	(4,580)	181,875,694	\$ 1,052,492
								\$ 9,618

\* The above table reflects repricing of all warrants to \$250 in August 2011, except 27 Class C and 13 Class D warrants which remained at \$5,000 and \$5,100, respectively.

\*\* Includes warrants issued on March 7, 2011.

\*\*\* Includes January notes and each subsequent monthly note.

The Company also recognized certain conversion features issued in conjunction with debt as derivative instruments:

Issue			Outstanding at December 31, 2011	Issued	Exercised or Canceled	Outstanding and Exercisable at June 30, 2012	Fair Value at June 30, 2012	Fair Value at December 31, 2011
Date	Price							
April 1, 2011	\$ 2,000		2,083		(2,083)		\$	\$ 6,157,299
January 3, 2012	\$.0072			278,804,167		278,804,167	\$ 1,335,028

			2,083	393,387,500	(2,083)	393,387,500	\$ 1,915,411	\$ 6,157,299

## Edgar Filing: Converted Organics Inc. - Form 10-Q

The derivative fair value amount associated with the conversion features issued on the April 2011 derivative instrument has increased as the conversion stock price has decreased from the original conversion price of \$2,000.

In March 2012, the Company amended certain provisions of its April 2011 Original Note financing to amend the conversion price definition and as a result the Company recorded charges in its interim consolidated statements of operations for the six months ended June 30, 2012 of \$3,000,205, associated with these debt modifications.

**Table of Contents****CONVERTED ORGANICS INC.****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****NOTE 6 DERIVATIVE INSTRUMENTS (Continued)**

The warrants and conversion features above were revalued at June 30, 2012 and December 31, 2011 using a binomial lattice pricing model using certain assumptions related to the probability of exercise and the following:

Risk free interest rate	0.02% - 1.60%
Dividend yield	0
Volatility	202% - 447%
Expected term	3 months to 5 years

In addition to the above derivative transactions, on November 12, 2010, the Company completed the acquisition of TerraSphere Systems, LLC, where it determined that as a result of an anti-dilution provision included in the purchase agreement, certain additional shares may have to be issued. The Company estimated that approximately 408 shares could be issued and classified the anti-dilution provision as a derivative liability. As of June 30, 2012 and December 31, 2011, the Company revalued the derivative liability to \$582 and \$140,164, respectively, based on the closing share price of the stock on that date.

The derivative liabilities reflected on the consolidated balance sheets at June 30, 2012 and December 31, 2011 totaled \$2,968,485 and \$6,307,081 respectively, and the derivative gains for the six months ended June 30, 2012 and 2011 were \$8,973,441 and \$9,249,513, respectively.

**NOTE 7 FAIR VALUE MEASUREMENTS**

The Company's liabilities that are reported at fair value in the accompanying consolidated balance sheets as of June 30, 2012 and December 31, 2011 were as follows:

	Level of Hierarchy	Balance	
		June 30, 2012	December 31, 2011
Obligations to issue shares	Level 2	\$	\$ 9,127
Derivative warrants and anti-dilution provision liabilities	Level 3	\$ 2,968,485	\$ 6,307,081

The following table reflects the change in Level 3 fair value of the Company's derivative liabilities for the three and six months ended June 30, 2012:

	Three months ended	Six months ended
Balance, beginning of period	\$ (2,599,889)	\$ (6,307,081)
Conversions	256,662	384,744
Issuances	(1,305,856)	(3,019,384)
Loss on Debt Modification	(2,798,663)	(3,000,205)
Net gains	3,479,261	8,973,441
Balance, end of period	\$ 2,968,485	\$ 2,968,485

## Edgar Filing: Converted Organics Inc. - Form 10-Q

The Company has other non-derivative financial instruments, such as cash, accounts receivable, accounts payable, accrued expenses and long-term debt, for which carrying amounts approximate fair value.

### **NOTE 8 STOCKHOLDERS EQUITY**

#### ***STOCK OPTIONS***

During the six months ended June 30, 2012, the Company did not issue any stock options, none were exercised and 163 were forfeited. Therefore, as of June 30, 2012, the Company had 942 stock options outstanding with a weighted average price per share of \$4,600 and an average remaining life of 8.50 years.

#### ***REVERSE SPLIT OF COMMON STOCK***

On February 22, 2012, the Company implemented a one for five hundred (1:500) reverse split of its common stock. The effect of the reverse stock split is retroactively reflected in the accompanying interim consolidated financial statements and footnotes.

On June 8, 2012 the Company received authority to implement another reverse split and to increase its common shares authorized to one billion. The increase of shares of common stock to one billion shares took place in June 2012. At the time of filing this report, the Company has not decided when, or if, it will affect the reverse split that was approved on June 8, 2012.

**Table of Contents****CONVERTED ORGANICS INC.****NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****NOTE 8 STOCKHOLDERS EQUITY (Continued)****STOCK ISSUANCES**

During the six months ended June 30, 2012, the Company has issued 180,321,592 shares of its common stock to reduce principal of \$3,070,430 on its convertible debt.

**WARRANTS**

In addition to the warrants classified as derivatives, the Company has also recognized certain warrants as equity instruments.

The following table sets forth the outstanding warrants classified as equity instruments as of June 30, 2012:

Warrants	Price	Outstanding at December 31, 2011	Issued	Exercised	Canceled	Outstanding at June 30, 2012	Exercisable at June 30, 2012
Class B	\$ 55,000	530			(530)		
Class E	\$ 8,150	300				300	300
Class F	\$ 6,250	117				117	117
Class H	\$ 6,500	3,450				3,450	3,450
Class J	\$ 2,700	325				325	325
Class K	\$ 2,700	231				231	231
		4,953				4,423	4,423

**NOTE 9 DISCONTINUED OPERATIONS**

In 2010, the Company discontinued operations at its facility in Woodbridge, NJ. The Company is actively working with vendors to satisfy the \$526,200 of liabilities outstanding at June 30, 2012. For the six month periods ended June 30, 2012 and 2011, the Company had income from discontinued operations of \$690 and \$146,471, respectively, as a result of favorable settlements with certain of its creditors.

**NOTE 10 SEGMENT REPORTING**

The Company has three business segments, which are (1) organic fertilizer, (2) industrial wastewater treatment and (3) vertical farming. Based on the nature of products and services offered, the Company has determined each line of business is a reportable segment at June 30, 2012.

The Company evaluates performance based on several factors, of which the primary financial measure is business segment operating income. There were no intersegment sales for the three and six months ended June 30, 2012 and 2011. The discreet financial information is presented below as of and for the three and six months ended June 30, 2012 and 2011:

For the Three Months Ended June 30, 2012

Net income (loss)	(70,554)	(1,047,831)	(51,064)	(1,227,875)	(2,397,324)

- (1) Operating income (loss) of the principal businesses exclude corporate compensation, marketing expense, professional fees and other unallocated expenses.
- (2) Depreciation and amortization expense associated with property and equipment, intangibles and deferred financing fees. Corporate amortization expense relates to deferred financing fees.
- (3) Corporate interest expense is primarily related to amortization of discounts on convertible notes payable.
- (4) Total business assets are the owned or allocated assets used by each business. Corporate assets consist of cash, prepaid expenses, certain other assets and deferred financing costs.

Revenues are attributable to geographic areas based on the locations of the customers, which are primarily within the continental United States. The fertilizer segment derived approximately \$508,000 or 50% of its revenues from 2 customers and the vertical farming segment derived 100% of its revenue from one customer for the six months ended June 30, 2012. The industrial wastewater segment had no reportable income for the six months ended June 30, 2012. The fertilizer segment derived approximately \$849,000 or 44% of its revenues from 3 customers and the vertical farming and industrial wastewater segments derived 100% of their revenue from one customer for the six months ended June 30, 2011.

**Table of Contents**

**CONVERTED ORGANICS INC.**

**NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

**NOTE 11 LEGAL PROCEEDINGS**

The Company is not currently aware of any pending or threatened legal proceeding to which it is or would be a party, or any proceedings being contemplated by governmental authorities against it, or any of its executive officers or directors relating to the services performed on the Company's behalf, except as follows:

On August 25, 2011, TerraSphere, Inc., a wholly owned subsidiary of the Company, was named as a defendant in an action filed in the United States district court for the eastern district of Michigan against TerraSphere Systems, LLC and TerraSphere, Inc. The plaintiff alleges, among other things breach of fiduciary responsibilities regarding a joint venture agreement. The parties sought to resolve this matter but were unsuccessful. Responsive pleadings were filed and TerraSphere, Inc. has been dismissed from the lawsuit. TerraSphere Systems, LLC remains a defendant and the Company plans to vigorously defend this matter. At this time, the Company is unable to estimate any losses that may be incurred as a result of this litigation and upon its eventual disposition. Accordingly, no loss has been recorded relating to this matter.

In January 2012, Converted Organics Inc. (the Company) received notice that a complaint has been filed in the United States District Court for the District of Massachusetts, captioned Aboriginal Import Export, Ltd. and Nicholas G. Brusatore (the plaintiffs) v. TerraSphere Systems LLC, Converted Organics, Inc., William A. Gildea, Edward Gildea, Mark C. Gildea, and TerraSphere, Inc. (the defendants). The allegations in the complaint relate to the Company's acquisition of TerraSphere Systems, LLC in November 2010. On April 27, 2012, the parties entered into a settlement agreement pursuant to which the plaintiffs voluntarily dismissed the action with prejudice and without costs or fees. Pursuant to the settlement agreement, the parties agreed to terminate the restrictive covenant included in the acquisition agreement regarding the ability of the plaintiffs to compete with the Company. In addition, the parties agreed to release their claims against each other as they related to the legal action or the acquisition agreement pursuant to which the Company acquired TerraSphere Systems, LLC.

**NOTE 12 SUBSEQUENT EVENTS**

For the period from July 1, 2012 through August 9, 2012, the Company has issued 130,458,202 shares of its common stock to reduce the principal amount of its convertible debt by \$347,500.

For the period from July 1, 2012 until August 9, 2012 the Company has sold one additional convertible note under the January 2012 convertible note agreement with a total face value of \$114,400.

The Company evaluated subsequent events through August 9, 2012 to determine whether or not any such events required disclosure in this form 10-Q.

---

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the unaudited interim consolidated financial statements and related notes to the unaudited interim consolidated financial statements included elsewhere in this report. This discussion contains forward-looking statements that relate to future events or our future financial performance. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These forward-looking statements are based largely on our current expectations and are subject to a number of uncertainties and risks including the Risk Factors identified in our Annual Report on Form 10-K/A for the year ended December 31, 2011. Actual results could differ materially from these forward-looking statements. Converted Organics Inc. is sometimes referred to herein as we, us, our and the Company.

**General**

As of the filing date of this report, we have entered into a limited financing agreement that provides for monthly working capital needs (which may be discontinued by the investor if it believes in its good faith discretion that the prospect of repayment is impaired or is unlikely to occur) at the corporate level, which, if certain conditions are met, would allow us to operate until December 31, 2012, but we currently do not have sufficient cash to operate or expand our Industrial Wastewater Treatment ( IWR ) and Vertical Farming ( TerraSphere ) segments. In addition, if our monthly financing arrangement is terminated for any reason, we would no longer have sufficient funds to continue our corporate operations. Presently, within our Organic Fertilizer segment, our facility in Gonzales, CA is operational and self supporting (assuming no corporate overhead) but does not provide enough cash flow to either fund corporate operating needs or expand that business segment. Our Industrial Wastewater Treatment segment continues to own an exclusive license to operate licensed technology, however, the concentrator unit located in Colorado has been abandoned and the management agreement to operate that concentrator unit has been terminated due to lack of cash sufficient to pay the costs of financing the equipment. Our Vertical Farming segment owns patents related to that industry and in early 2012 issued a license for \$40,000 for use in the production of medical marijuana; however, the Company lacks the cash to fund the ongoing development expenses for the TerraSphere segment. While it is uncertain whether there will be continuing cash flows from these segments, any such cash flows will continue to be directly generated as part of the ongoing operations and continued involvement of the Company. Based on current operations or the ownership of certain licenses and patents we have not classified any of our business segments as discontinued operations in the accompanying interim consolidated financial statements.

Our plan is to continue to seek a way to provide value to our shareholders and we feel the best way to do that is to work with our creditors to pay off our debt, continue to operate our organic fertilizer segment, find investment for, or a buyer for, the Industrial Wastewater Treatment segment, spin off segments, or portions thereof to our shareholders, and seek a merger partner that can benefit from our status as a public company.

Presently, we believe the only way to proceed to implement this plan is to have the holder of our outstanding convertible secured promissory note continue to convert the note into shares of common stock and to continue to sell new convertible notes on a monthly basis through 2012 to this investor. There is no guarantee that the buyer of these notes will continue to fund our operations, as the terms of our arrangement state that the buyer can refuse to fund additional notes if it believes the prospect of repayment on its indebtedness is impaired or is unlikely to occur. Presently, assuming we continue to receive monthly funding from the issuance of additional convertible notes, it is not our intention to seek any form of court protection to accomplish our plan.

Based on our historically low stock price, the conversion of the notes has resulted in massive issuances of our common stock, which required us to affect a 1:10 reverse split in November 2011 and a 1:500 reverse split in February 2012 in order to maintain sufficient shares to permit the conversions. In addition, if the price of our common stock declines from current levels, we may not have sufficient shares to permit the full conversion of the notes or the future conversion of the monthly notes we are issuing, which means we would be required to either repay the note in cash, which we do not have, or request approval from our shareholders to complete one or more additional reverse stock splits. In April 2012 we requested that our shareholders approve an additional reverse split to increase our authorized number of common shares from 500 million to one billion. On June 8, 2012 (at our 2012 annual meeting) both the authority to have another reverse split and the increase of our common shares authorized to one billion were approved by our shareholders. The increase of our shares of common stock authorized to one billion shares was effective in June 2012. At the time of filing this report we have not decided when, or if, we will affect the reverse split that was approved on June 8, 2012.

During the first six months of 2012, Converted Organics had three business segments. The three segments are Organic Fertilizer, Industrial Wastewater Treatment and Vertical Farming. For the quarter and six months ended June 30, 2012, only the Organic Fertilizer segment produced revenue (revenues for the Organic Fertilizer business began in 2008). In the quarter and six months ended June 30, 2012, we did not generate revenue from the Industrial Wastewater Treatment or Vertical Farming segments. While it is uncertain whether there will be continuing cash flows from these segments, any such cash flows will continue to be directly generated as part of the ongoing operations and continued involvement of the Company.

## Edgar Filing: Converted Organics Inc. - Form 10-Q

On March 12, 2012, we entered into a Securities Purchase Agreement (the Preferred Stock Purchase Agreement ), pursuant to which we acquired 150 shares of Series A Convertible Preferred Stock (the Preferred Shares ) of Innovate Protect, Inc., a privately-held Delaware corporation, for \$495,000. Innovate Protect, Inc. maximizes the economic benefit of intellectual property assets, and through its subsidiary, I/P

**Table of Contents**

Engine, initiated a patent infringement lawsuit in the United States District Court for the Eastern District of Virginia against Google, Inc., AOL, Inc., IAC Search & Media, Inc., Gannett Company, Inc. and Target Corporation for unlawfully using systems that incorporate features claimed in two patents owned by I/P Engine. Upon acquisition of the shares of Preferred Stock, the Company converted the shares of preferred stock into shares of common stock.

Innovate/Protect entered into a merger agreement with Vringo, Inc. (NYSE Amex: VRNG), a provider of software platforms for mobile social and video applications. The merger was consummated in July 2012, and in accordance with the merger agreement, the shares of Innovate/Protect owned by Converted Organics Inc. were converted into 452,640 shares of common stock of Vringo, as well as approximately 181,000 warrants to purchase shares of Vringo common stock at an exercise price of \$1.76 per share (subject to adjustment).

**Introduction**

The Company has three business segments, which are (1) organic fertilizer, (2) vertical farming and (3) industrial wastewater treatment. Based on the nature of products and services offered, the Company has determined each line of business is a reportable segment at June 30, 2012.

The Company evaluates performance based on several factors, of which the primary financial measure is business segment operating income. There were no intersegment sales for the three and six months ended June 30, 2012 and 2011. The discreet financial information is presented below as of and for the three and six months ended June 30, 2012 and 2011:

	For the Three Months Ended June 30, 2012				
	Organic Fertilizer	Vertical Farming	Industrial Wastewater	Corporate and Eliminations	Consolidated
Revenues	\$ 627,280	\$	\$	\$	\$ 627,280
Operating loss from continuing operations(1)	(29,356)	(102,656)		(582,275)	(714,287)
Depreciation and amortization(2)	106,692	54,577		41,782	203,051
Interest expense(3)		1,804		1,641,005	1,642,809
Net income (loss)	(29,356)	(138,081)		(1,508,442)	(1,675,879)

	For the Three Months Ended June 30, 2011				
	Organic Fertilizer	Vertical Farming	Industrial Wastewater	Corporate and Eliminations	Consolidated
Revenues	\$ 1,274,092	\$ 50,000	\$ 105,618	\$	\$ 1,429,710
Operating loss from continuing operations(1)	11,447	(724,932)	(48,241)	(3,699,732)	(4,461,458)
Depreciation and amortization(2)	106,195	113,253	33,333	188,820	441,601
Interest expense(3)		5,432		3,560,352	3,565,784
Net income (loss)	11,447	(715,133)	(48,241)	203,151	(548,776)

	For the Six Months Ended June 30, 2012				
	Organic Fertilizer	Vertical Farming	Industrial Wastewater	Corporate and Eliminations	Consolidated
Revenues	\$ 1,013,946	\$ 14,323	\$	\$	\$ 1,028,269
Operating loss from continuing operations(1)	(203,083)	(293,079)		(1,272,582)	(1,768,744)
Depreciation and amortization(2)	213,383	121,489		79,855	414,727
Interest expense(3)		3,608		2,827,377	2,830,985
Net income (loss)	(203,083)	(420,925)		1,916,366	1,292,358
Total assets (4)	3,006,898	2,881,212	995,000	174,212	7,057,322

	For the Six Months Ended June 30, 2011				
	Organic Fertilizer	Vertical Farming	Industrial Wastewater	Corporate and Eliminations	Consolidated
Revenues	\$ 1,918,092	\$ 50,000	\$ 200,794	\$	\$ 2,168,886
Operating loss from continuing operations(1)	(70,554)	(1,275,991)	(51,064)	(5,335,070)	(6,732,679)
Depreciation and amortization(2)	211,284	226,168	38,887	337,931	814,270
Interest expense(3)		12,074		5,828,172	5,840,246
Net income (loss)	(70,554)	(1,047,831)	(51,064)	(1,227,875)	(2,397,324)

Edgar Filing: Converted Organics Inc. - Form 10-Q

- (1) Operating income (loss) of the principal businesses exclude corporate compensation, marketing expense, professional fees and other unallocated expenses.

---

**Table of Contents**

- (2) Depreciation and amortization expense associated with property and equipment, intangibles and deferred financing fees. Corporate amortization expense relates to deferred financing fees.
- (3) Corporate interest expense is primarily related to amortization of discounts on convertible notes payable.
- (4) Total business assets are the owned or allocated assets used by each business. Corporate assets consist of cash, prepaid expenses, certain other assets and deferred financing costs.

Revenues are attributable to geographic areas based on the locations of the customers, which are primarily within the continental United States. The fertilizer segment derived approximately \$508,000 or 50% of its revenues from 2 customers and the vertical farming segment derived 100% of its revenue from one customer for the six months ended June 30, 2012. The industrial wastewater segment had no reportable income for the six months ended June 30, 2012. The fertilizer segment derived approximately \$849,000 or 44% of its revenues from 3 customers and the vertical farming and industrial wastewater segments derived 100% of their revenue from one customer for the six months ended June 30, 2011.

Our operating structure is composed of our parent company, Converted Organics Inc. ( COIN ) and the subsidiaries listed below. Expenditures at the corporate level (items paid for by COIN) include management and public company expenses, and in 2011 included expenses associated with its Industrial Wastewater Treatment business, and the outsourcing of dry product fertilizer production. It was the intention of management to transfer the operations of IWR and the dry fertilizer product to a subsidiary level when business volumes became appropriate. The current subsidiaries of COIN are as follows:

Converted Organics of California, LLC, a wholly-owned subsidiary of COIN, which includes the operation of our Gonzales, CA facility.

Converted Organics of Woodbridge, LLC, a wholly-owned subsidiary of COIN, which includes the discontinued operation of our Woodbridge, NJ facility.

Converted Organics of Mississippi, LLC, an inactive wholly-owned subsidiary of COIN, originally established for the purpose of adding a poultry litter-based fertilizer product to the Company's existing product lines.

Converted Organics of Rhode Island, LLC ( RILLC ), an inactive subsidiary of Converted Organics Inc., of which we own 92.5%. RILLC has no assets or liabilities.

TerraSphere Inc., a Delaware C corporation and wholly owned subsidiary of COIN, was established to hold COIN's investment in TerraSphere Systems, LLC ( Systems LLC ) in which COIN acquired a 95% interest on November 12, 2010. Systems LLC owns 85% of TerraSphere Systems Canada Inc. and 100% of PharmaSphere, LLC, which in turn owns 100% of PharmaSphere Worcester, LLC. COIN's acquisition of its interest in Systems LLC was approved by our shareholders at a special meeting held on September 16, 2010.

GoLocalProduceRI, LLC, an 83.34% owned subsidiary of COIN, was acquired on December 30, 2010 for the purpose of building and operating a TerraSphere facility.

***Organic Fertilizer Business***

We operate a processing facility in Gonzales, CA that uses food and agricultural waste as raw materials to manufacture all-natural fertilizer and soil amendment products combining nutritional and disease suppression characteristics for sale to our agribusiness market. During 2012, we have not recorded any sales from our production facility in Woodbridge, NJ, as operations at that facility were discontinued and we will not have sales from that facility in the future. In the first six months of 2011 we contracted with a third party manufacturer and packager to produce our 8-1-4 dry product to sell to our established retail and turf management customers that were previously serviced by our Woodbridge, NJ facility. We generated approximately \$285,000 in revenue from this outsourced product in 2011 but we do not plan to generate revenue in 2012 from the outsourced product. Our plan to produce future revenue from the fertilizer business is based upon our continued operation of our Gonzales, CA facility and possibly the licensing the use of our technology to others.

## Edgar Filing: Converted Organics Inc. - Form 10-Q

### *Converted Organics of California, LLC - Gonzales, CA Facility*

The Gonzales, CA facility is our production facility that services the West Coast agribusiness customer base through established distribution channels. This facility uses our proprietary technology and process known as High Temperature Liquid Composting, or HTLC<sup>®</sup>, which processes various biodegradable waste products into liquid and food waste-based fertilizer and a limited amount of solids that could be further processed into a useable form for use in agriculture, retail, and professional turf markets.

The Gonzales, CA facility generated revenues of approximately \$1,028,000 and a gross profit of approximately \$187,000, or 18% (based on no allocation of corporate overhead) and generated positive cash flow for the six months ended June 30, 2012. The gross margin of 18% is significantly less than the 33% achieved in the same period in 2011 and the decline is due to lower than anticipated sales and fixed production costs (this is further discussed in the results of operations section below). We plan to improve this operating margin by generating tip fees from receiving additional quantities of food processing waste and by reducing the amount of raw material and freight costs currently associated with the production process.

---

## **Table of Contents**

In 2008, we entered into certain arrangements whereby we became the exclusive owner of the HTLC<sup>®</sup> system, which enables the processing of various biodegradable waste products into liquid and solid food waste-based fertilizer and feed products. In addition, the acquisition of this technology provides for a technology fee payment of \$5,500 per ton of waste-processing capacity for capacity that is either added to plants that were not planned at the time of this acquisition and that use this technology. There is a 10-year cap for these processing capacity charges, and no minimum payment is required. This fee did not apply to the Woodbridge, NJ facility and does not apply to the Gonzales, CA facility, including the planned addition thereto at the time of acquisition, but expansion in excess of the acquisition plan will trigger payable fees for that excess. The agreement also provides for a 50% profit share with the seller on any portable facilities.

During 2010 and part of 2011, we were also party to an agreement with Pacific Seafoods Inc. ( Pacific Seafoods ) whereby we agreed to pay Pacific Seafoods 50% of the profits from the development of a fish-waste product. Under this agreement, the seller of the HTLC<sup>®</sup> technology would also be entitled to 50% of our profits from this joint venture. Our profits from this arrangement are thus 25% of the total profits from the enterprise (50% of total profits net half of the remainder). To date, no profits have been earned from the fish-waste product and the agreement has expired. We continue to have access to the fish waste from this supplier on an as purchased basis and, if the need for the product continues, we plan to produce it.

Combined payments of both the \$5,500 per ton technology fee and the profits paid from the fish waste-processing product, if any, are capped at \$7.0 million, with no minimum payment required. It is our intention to expense the payments, if any, that are paid on either the profits from the fish waste-processing product or the \$5,500 per-ton technology fee. We do not expect to have any related payments in 2012.

### *Converted Organics of Mississippi, LLC*

On January 26, 2010, we formed Converted Organics of Mississippi, LLC, a Mississippi limited liability company and a wholly owned subsidiary of the Company. We established this entity for the purpose of adding a poultry litter-based fertilizer to our existing product lines, and we outsourced the production of this product. We did not have any sales from this product in 2011 or the first six months of 2012 and we do not expect sales from this product in the future.

### *Converted Organics of Woodbridge, LLC*

During the third quarter of 2010, we discontinued the operations of our Woodbridge, NJ facility, which is discussed further in this section under the caption Results of Discontinued Operations.

### ***Industrial Wastewater Treatment Business***

In March 2010, we began to operate an Industrial Wastewater Resources division of the Company ( IWR ) to leverage our exclusive license of the LM-HT<sup>®</sup> Concentrator technology for the treatment of industrial wastewater. Due to its unique, energy efficient design, the LM-HT<sup>®</sup> Concentrator provides a highly cost-effective alternative to traditional industrial wastewater treatment technology.

On March 23, 2010, we entered into a loan and license agreement with Heartland Technology Partners, LLC ( HTP ). The non-interest bearing loan agreement required us to advance \$500,000 to HTP in three monthly installments that commenced upon signing of the loan. The outstanding principal balance of the loan is due only if either a change of control of HTP or the completion by HTP of a financing in excess of \$10 million occurred on or before June 30, 2012. In consideration for entering into the loan agreement, we were granted an exclusive, irrevocable license to utilize HTP's patented LM-HT<sup>®</sup> Concentrator technology in the U.S. industrial wastewater market. The industrial wastewater market involves the treatment of waters that have been contaminated by anthropogenic industrial or commercial activities, prior to their reuse or release into the environment. The LM-HT<sup>®</sup> Concentrator reduces carbon emissions compared to traditional technologies by using waste heat and renewable energy as thermal fuel. As of June 30, 2012, these two items had not occurred and therefore we will not receive the \$500,000 repayment from HTP, however, we continue to value the license at \$500,000. We are currently investigating alternatives to producing revenues from this license.

During 2011, IWR operated an industrial wastewater concentrator on Glenwood Springs Landfill Enterprise's South Canyon Landfill in Glenwood Springs, CO as a result of an agreement signed in January of 2011 with Waste Systems, Inc. This facility was designed to treat 15,000 gallons of aqueous waste per day and was fueled by the combustion of biomass diverted from disposal in the landfill. Among the industrial wastewaters treated by the plant were septic, wash waters, process waters, man-camp wastewaters, and wastewaters from oil and gas exploration activities. Under this agreement we were paid a per gallon fee for the amount of industrial wastewater that was treated, less labor costs to operate the unit and a marketing fee to generate industrial wastewater delivered to the facility. In addition, we were responsible for repairs and maintenance of the evaporator unit. We were responsible for the purchase of the evaporator unit and will own it. The unit was manufactured by HTP. As of January 2011 we began to generate revenue under this agreement from South Canyon Landfill's traditional method of wastewater

## Edgar Filing: Converted Organics Inc. - Form 10-Q

treatment as we waited for conditional air permits. Such permits were received in March of 2011, at which time we paid \$600,000 of the \$1.6 million purchase price of the evaporator and the unit commenced operations. The agreement that we had with South Canyon landfill called for us to own the equipment and they will operate it. We would receive the gross revenue from the wastewater that is treated less a charge for direct labor to operate the equipment, repairs and maintenance on the equipment and a marketing fee to allow us to

**Table of Contents**

attract additional wastewater customers to use the South Canyon landfill for wastewater disposal. In the later part of 2011, we were unable to continue to make the required payments towards the equipment and in early January 2012 we received notice from Waste Systems, Inc. that the agreement had been terminated and the equipment and any deposits made on the equipment remained with Waste Systems and therefore we will not generate further revenue from this operation.

***Vertical Farming Business***

On May 20, 2010, we formed TerraSphere Inc., a Delaware C corporation and a wholly owned subsidiary of the Company, for the purpose of acquiring the membership interests of TerraSphere Systems, LLC ( TerraSphere Systems ). On July 6, 2010, a membership interest purchase agreement was entered into by the Company, TerraSphere Inc., TerraSphere Systems, and the members of TerraSphere Systems, pursuant to which we agreed to acquire the membership interests of TerraSphere Systems. The maximum total shares that could be issued for TerraSphere Systems was estimated to be 6,833 shares of our common stock, which included earn-out share payments of up to 2,921 shares of our common stock. Pursuant to the purchase agreement, the acquisition was approved by our shareholders on September 16, 2010, and the Company acquired 95% of the membership interest of TerraSphere Systems on November 12, 2010. We issued 6,556 shares of our common stock to the members of TerraSphere Systems in exchange for 95% of the units of TerraSphere Systems, subject to certain anti-dilution adjustments. Of these shares, 3,635 shares were issued on November 12, 2010, the closing of the acquisition, and the remainder of the shares were to be issued if TerraSphere achieved four milestones. As of the filing date of this report, three of the four milestones, TerraSphere's collection of \$2.0 million of its accounts receivable by February 28, 2011 and market capitalization and gross margin as of December 31, 2011 were subject to measurement. Those three milestones were not met, and as a result we will not issue the 2,190 shares of our common stock associated with those milestones. The final milestone (additional gross margin) is to be measured at December 31, 2012 and at this time we do not expect that this final milestone will be met.

TerraSphere Systems is in the business of designing, building, and operating highly efficient and scalable systems, featuring a patented, proprietary technology that utilizes vertically-stacked modules to house rows of plants, which are then placed perpendicular to an interior light source to grow pesticide and chemical-free organic fruits and vegetables. Due to a controlled, indoor environment, the system generates fresh produce year-round in any location or climate world-wide. During all of 2011, we funded the TerraSphere operation and sought additional financing to build out the TerraSphere business. By the end of 2011, we had not been successful in those efforts and we are unable to continue to fund the operations.

**2011 and 2012 Financing Activities**

On April 1, 2011, we entered into a Securities Purchase Agreement with an institutional investor whereby we sold to the investor a convertible note in the aggregate original principal amount of \$3,850,000 (the Original Note ), which was convertible into shares of our common stock. The Original Note was issued with an original issue discount of approximately 9.1%, and the proceeds from the Original Note were \$3,500,000. The Original Note was noninterest bearing. On November 2, 2011, we entered into an agreement pursuant to which we agreed with the holder of the Original Note to exchange Original Note, which had \$3,474,797 of principal outstanding on November 2, 2011, for a senior secured convertible in the aggregate original principal amount of \$3,474,797 (the Note ).

The terms of the Note we issued on November 2, 2011 were substantially identical to the terms of the Original Note, except that we were not required to amortize payment for the Note and the maturity date of the Note was extended to May 2, 2012, instead of February 17, 2012.

On April 13, 2012, the investor converted the entire remaining balance of the Note into shares of our common stock and the \$1,153,950 balance on the Note as of March 31, 2012 was relieved.

Pursuant to the terms of the Original Note and as retained in the Note, we also agreed to issue to the Note holder warrants to acquire shares of common stock, in the form of three warrants: (i) Series A Warrants , (ii) Series B Warrants and (iii) Series C Warrants . The Series B and C Warrants expired in May 2012.

In April 2012, we agreed to the following amendments (the April Warrant Amendments ) to the Series A Warrants: (1) the anti-dilution price protection currently contained in such warrants (which provides that if we issue common stock or common stock equivalents at a price per share that is lower than the exercise price of the warrants, the exercise price of the warrants will be reduced to such lower price) will now also apply to issuances of common stock or common stock equivalents to the warrant holders under separate securities; (2) upon any adjustment in the exercise price of the warrants as described in (1) above or otherwise, the number of shares of common stock underlying such warrants shall be increased such that the aggregate exercise price of the warrants will remain the same; and (3) upon a Fundamental Transaction (as defined in each of the warrants), the warrant holders will be permitted to require us (or any successor entity) to purchase the warrants from the warrant holders at a price equal to the greater of (A) the Black Scholes value of the warrants or (B) the product of \$0.10 multiplied by the number of

## Edgar Filing: Converted Organics Inc. - Form 10-Q

shares underlying such warrants (disregarding, for the purposes of making the calculation of the number of shares underlying the warrants, any adjustments to such share number arising solely from an adjustment to the exercise price of the warrants due to the completion of a combination (or reverse split) of our common stock after April 2012, provided that the amount payable to the warrant holders pursuant to (B) above will not exceed \$25.0 million in the aggregate.

The Series A Warrants are exercisable six months and one day after issuance and have a five year term commencing on the initial exercise date. As of August 9, 2012, the exercise price of the Series A Warrants is \$0.00175 per share, and the number of shares underlying the Series A Warrants is 137,500,000. The Series C Warrants provide that if on the later of (1) the expiration date of the Series B Warrants or (2) the date on which we register the shares of common stock underlying the securities we issued in the Original Note offering, we have the right to redeem from such holder its Series C Warrant for \$1,000 under certain circumstances, including that less than 50% of the Series B Warrants have been exercised. The Series B Warrants expired unexercised in May 2012. The exercisability of the warrants may be limited if, upon exercise, the holder or any of its affiliates would beneficially own more than 4.9% of our common stock.

---

## **Table of Contents**

On January 3, 2012, we entered into an agreement with an institutional investor whereby we agreed to sell to the investor twelve senior secured convertible notes (the "January Notes"). The initial January Note was issued on January 3, 2012 in an original principal amount of \$247,500, for a purchase price of \$225,000. The remaining eleven January Notes will each have an original principal amount of up to \$237,600, and will each be issued for a purchase price of \$216,000. Each January Note matures eight months after issuance. The total face value of the twelve notes under this agreement will be \$2,861,100, assuming each note is sold to the investor for the full amount, of which there is no assurance. The January Notes are convertible into shares of our common stock at a conversion price equal to 80% of lowest bid price of our common stock on the date of conversion. As of August 9, 2012, the total principal outstanding on these notes was \$1,105,160.

We also agreed to issue to the investor up to twelve warrants to acquire shares of common stock, each such issuance to occur along with each purchase of a January Note. Each warrant provides that the holder is initially entitled to purchase the number of shares of common stock equal to 50% of the number of shares of common stock issuable upon conversion in full of the applicable January Note (based on initial fixed conversion price equal to the three lowest closing sale prices of our common stock during the twenty trading day period preceding the issuance of the particular January Note, with respect to each January Note, such term is referred to as the "Fixed Conversion Price") at an initial exercise price equal to the Fixed Conversion Price of the applicable January Note that is issued along with such warrant. Each of the warrants issued and to be issued in connection with the January Notes was amended in April 2012 and are now subject to the April Warrant Amendments.

With respect to the initial January Notes issued from January 3, 2012 through August 14, 2012, using the Fixed Conversion Price, which means (after taking into account the reverse split we completed in March 2012) the minimum number of shares of common stock underlying the initial January Note is 13,285,119 shares. As of August 9, 2012, the number of shares of common stock underlying the warrants issued in connection with the initial January Notes are 382,360,000 shares and the exercise price of the warrants were \$0.00175. We cannot predict the Fixed Conversion Price for the January Notes and corresponding warrants at this time. In addition, we cannot predict if the exercise price of the outstanding warrants will be lowered due and the number of shares underlying the warrants will be increased due to anti-dilution protections in such warrants. As such, the total number of shares underlying all twelve January Notes and warrants is unknown.

On March 12, 2012, we entered into an agreement (the "March Agreement") with two investors, pursuant to which we agreed to effect an additional closing of notes identical to the January Notes in which we issued the buyers new notes having an aggregate original principal amount of \$550,000 for a purchase price of \$500,000 (the "New Notes"), and warrants to purchase an aggregate of 2,619,048 shares of common stock at an exercise price of \$0.105 per share (the "New Warrants"). The New Notes and New Warrants have identical terms to the January Notes and Series A Warrants described above. Each of the New Warrants issued was subject to the April Warrant Amendments, provided that in addition to such amendments, the New Warrants were amended to state that a portion of the New Warrants would be callable by us upon if the daily volume of our common stock was two million shares or greater for five consecutive trading days. As of August 9, 2012, the number of shares of common stock underlying the warrants issued in connection with the March Agreement were 157,142,857 shares and the exercise price of the warrant was \$0.00175. We cannot predict the Fixed Conversion Price for the remaining eleven January Notes and corresponding warrants at this time. As such, the total number of shares underlying the March Agreement is unknown.

## **Trends and Uncertainties Affecting our Operations**

We will be subject to a number of factors that may affect our operations and financial performance. These factors include, but are not limited to, the available supply and price of organic food waste, the market for liquid and solid organic fertilizer, increasing energy costs, the unpredictable cost of compliance with environmental and other government regulation, and the time and cost of obtaining USDA, state or other product labeling designations. Demand for organic fertilizer and the resulting prices customers are willing to pay also may not be as high as our market studies suggest. In addition, supply of organic fertilizer products from the use of other technologies or other competitors may adversely affect our selling prices and consequently our overall profitability. In addition, our plan for 2012 includes the sale of additional convertible notes, leveraging of the IWR license and finding a merger candidate. There is no guarantee that we will be successful in any or all of these efforts.

## **Liquidity and Capital Resources**

At June 30, 2012, we had total current assets of approximately \$779,000, consisting primarily of cash, accounts receivable and fertilizer inventory, and had current liabilities of approximately \$5.9 million, consisting primarily of term and convertible notes payable, accounts payable, liabilities from discontinued operations and derivative liabilities, leaving us with negative working capital of approximately \$5.1 million. Non-current assets totaled approximately \$6.3 million and consisted primarily of property and equipment and intangible assets. We have an accumulated deficit at June 30, 2012 of approximately \$113.7 million. We had stockholders' equity at June 30, 2012 of approximately \$140,000. For the first six months of 2012, we generated revenues from continuing operations of approximately \$1,028,000 as compared to revenue from continuing operations of \$2,169,000 for the same period in 2011. A full discussion of the variance in revenue is included in the results of operations section below.

## Edgar Filing: Converted Organics Inc. - Form 10-Q

Although the California fertilizer business is cash flow positive, we do not expect that it will generate enough cash to fund the corporate overhead, even though we have greatly reduced such overhead from 2011 levels, and we do not have enough cash to fund any operating activity in the TerraSphere or IWR segments, although we continue to seek ways to generate cash and revenues from the license and patents in both the TerraSphere and IWR segments. While it is uncertain whether there will be continuing cash flows from these segments, any such cash flows will continue to be directly generated as part of the ongoing operations and continued involvement of the Company.

---

## **Table of Contents**

Presently, our liquidity is limited to our cash on hand at June 30, 2012 of approximately \$208,000, and the approximately \$1.4 million that we may receive during the remainder of 2012 as a result of the sale of the additional convertible notes. Through August 14, 2012 we have sold \$1,452,660 of these notes and may sell up to \$237,600 per month through December 31, 2012, if certain conditions are met. Currently, all of our warrant issuances are not in the money and our stock price has been less than \$.01 per share and, therefore, we do not expect to raise any significant funds due to the exercise of warrants.

If we do not receive additional funds in excess of the amount of cash on hand, whether as a result of the exercise of the warrants issued or the convertible note, or otherwise, we will not be able to continue our operations once the cash on hand is utilized. Even in the event that we do receive additional funds, there is no guarantee that such funds will be sufficient to continue operations until we achieve our plan. At this time, we do not have any commitments for additional financing, and there is no assurance that capital in any form will be available to us on terms and conditions that are acceptable or at all.

### **Results of Continuing Operations for the three months ended June 30, 2012**

#### *Revenue*

Our revenue from continuing operations for the three month period ended June 30, 2012 was approximately \$627,000 compared to approximately \$1,430,000 for the same period ended June 30, 2011. The various components are described below.

Revenue from fertilizer was approximately \$627,000 for the three month period ended June 30, 2012 (\$627,000 for liquid fertilizer from Gonzales and \$0 from the outsourced dry fertilizer) compared to approximately \$1,274,000 for the same period ended June 30, 2011 (\$1,072,000 for liquid fertilizer from Gonzales and \$202,000 from outsourced dry fertilizer). This decrease of \$647,000 in fertilizer revenues is due to a decrease in the sale of dry product produced by an outside vendor of \$202,000 and a decrease in sales at the Gonzales facility of \$445,000. The decrease in sales from Gonzales is due to loss of a customer and increased competition in the organic fertilizer market. We did not have sales in 2012 of the outsourced dry fertilizer product as we did not continue the production of that product after June 2011.

The IWR segment of our business recognized revenues in the amount of \$106,000 in the three month period ended June 30, 2011. This segment had no revenues in 2012, as our agreement to operate a concentrator unit in Colorado was terminated in late 2011.

Our TerraSphere segment did not report any revenues for the three month period ended June 30, 2012 and had \$50,000 in revenue for the same period in 2011. We do not have the funds to generate revenue from TerraSphere products and we do not expect further sales in 2012.

#### *Cost of Goods Sold*

For the three month period ended June 30, 2012, we had cost of goods of approximately \$486,000 compared to \$954,000 for the same period in 2011. The decrease in cost of goods sold is detailed below.

Cost of goods sold related to fertilizer at the Gonzales facility was approximately \$486,000 for the three months ended June 30, 2012, leaving an operating margin of \$141,000 or 22%, compared to cost of goods of \$647,000 for the same period in 2011 and an operating margin of \$425,000 or 40%. This decline in margin is due to a decline in sales with production costs remaining fixed.

Cost of goods for our dry fertilizer product (produced by an outside supplier) was approximately \$263,000 for the three months ended June 30, 2011, leaving an operating margin of negative 30%. There was no comparable activity in 2012.

Cost of goods for our IWR segment was \$44,000 for the three months ended June 30, 2011 leaving an operating margin of 28%. There was no comparable activity in 2012 as we no longer operate the Colorado facility.

#### *General and Administrative Expenses*

General and administrative expenses for the three month period ended June 30, 2012 were approximately \$728,000 compared to approximately \$3.8 million for the same period in 2011. The decrease of approximately \$3.1 million is primarily comprised of a decrease in salaries and operating expenses, as operations have been curtailed significantly in order to conserve cash.

#### *Interest Expense*

## Edgar Filing: Converted Organics Inc. - Form 10-Q

Interest expense for the three months ended June 30, 2012 was approximately \$1.6 million compared to approximately \$3.6 million for the same period in 2011. This decrease of approximately \$2.0 million is directly associated with the amortization of debt discounts related to our convertible notes and is a non-cash item.

### *Derivative gain*

For the three months ended June 30, 2012, we had a derivative gain of approximately \$3.5 million compared to a derivative gain of approximately \$6.9 million for the same period in 2011. This is a non-cash gain and is related to the valuation of certain derivative features included in certain of our warrants and convertible debt obligations, and included an anti-dilution provision related to shares issued in the TerraSphere acquisition. In addition, certain derivative instruments were issued and settled during the quarter, which impacted the derivative gain (loss).

### *Loss on Debt Modification*

For the three months ended June 30, 2012, we had a loss on debt modification of approximately \$2.8 million compared to \$0 for the same period in 2011. This is a non-cash loss and is related to the valuation of certain derivative features included in certain of our warrants and convertible debt obligations, which is calculated upon any modification to existing debt agreements.

---

**Table of Contents**

**Results of Continuing Operations for the six months ended June 30, 2012**

*Revenue*

Our revenues from continuing operations for the six month period ended June 30, 2012 were approximately \$1,029,000 compared to \$2,168,000 for the same period ended June 30, 2011. The various components are described below.

Revenue from fertilizer was approximately \$1,014,000 for the six month period ended June 30, 2012 (\$1,014,000 for liquid fertilizer from Gonzales and \$0 from the outsourced dry fertilizer) compared to approximately \$1,918,000 for the same period ended June 30, 2011 (\$1,636,000 for liquid fertilizer from Gonzales and \$282,000 from outsourced dry fertilizer). This decrease of approximately \$904,000 in revenues is due to a decrease in the sale of dry product produced by an outside vendor of \$282,000 and a decrease in sales at the Gonzales facility of \$622,000. The decrease in sales from Gonzales is due to loss of a customer and increased competition in the organic fertilizer market. We did not have sales in 2012 of the outsourced dry fertilizer product as we did not continue the production of that product after June 2011.

The IWR segment of our business recognized revenues in the amount of approximately \$201,000 in the six month period ended June 30, 2011. This segment had no revenues in 2012, as our agreement to operate a concentrator unit in Colorado was terminated in late 2011.

Our TerraSphere segment had revenues for the six month period ended June 30, 2012 of approximately \$14,000 and reported approximately \$50,000 of revenue for the six months ended June 30, 2012. The revenue that was generated in 2012 was associated with product sales in Canada. We do not have the funds to operate the facility in Canada and we do not expect further sales in 2012 from that facility.

*Cost of Goods Sold*

For the six month period ended June 30, 2012, we had cost of goods sold of approximately \$842,000 compared to \$1,458,000 for the same period in 2011. The decrease in cost of goods sold is detailed below.

Cost of goods sold related to fertilizer at the Gonzales facility was approximately \$842,000 for the six months ended June 30, 2012, leaving an operating margin of \$172,000 or 17%, compared to cost of goods sold of \$1,028,000 for the same period in 2011 and an operating margin of \$608,000 or 37%. This decline in margin is due to a decline in sales with production costs remaining fixed.

Cost of goods sold for our dry fertilizer product (produced by an outside supplier) was approximately \$360,000 for the six months ended June 30, 2011, leaving an operating margin of negative 28%. There was no comparable activity in 2012.

Cost of goods sold for our IWR segment was \$70,000 for the six months ended June 30, 2011 leaving an operating margin of 46%. There was no comparable activity in 2012 as we no longer operate the Colorado facility.

*General and Administrative Expenses*

General and administrative expenses for the six month period ended June 30, 2012 were approximately \$1.7 million compared to approximately \$6.1 million for the same period in 2011. The decrease of approximately \$4.4 million is primarily comprised of a decrease in salaries and operating expenses, as operations have been curtailed significantly in order to conserve cash.

*Interest Expense*

Interest expense for the six months ended June 30, 2012 was approximately \$2.8 million compared to approximately \$5.8 million for the same period in 2011. This decrease of approximately \$3.0 million is directly associated with the amortization of debt discounts related to our convertible notes and is a non-cash item.

*Derivative gain*

For the six months ended June 30, 2012, we had a derivative gain of approximately \$9.0 million compared to a derivative gain of approximately \$9.2 million for the same period in 2011. This is a non-cash gain and is related to the valuation of certain derivative features included in certain of our warrants and convertible debt obligations, and included an anti-dilution provision related to shares issued in the TerraSphere acquisition. In addition, certain derivative instruments were issued and settled during the quarter, which impacted the derivative gain.

*Loss on Debt Modification*

For the six months ended June 30, 2012, we had a loss on debt modification of approximately \$3.0 million compared to \$0 for the same period in 2011. This is a non-cash loss and is related to the valuation of certain derivative features included in certain of our warrants and convertible debt obligations, which is calculated upon any modification to existing debt agreements.

**Liquidity and Capital Resources**

For the six months ended June 30, 2012, we had negative cash flows from operating activities of approximately \$1.2 million, comprised of income from operations of approximately \$1.3 million adjusted for certain non-cash items such as depreciation and amortization, non-cash interest expense associated with the issuance of convertible debt, amortization of deferred financing fees, non-cash derivative gain and an increase in accounts payable and accrued expenses. We also had negative cash flows from investing activities of approximately \$502,000, primarily related to our investment in stock of a private company. The negative cash flows from both operating and investing activities was offset by approximately \$1.6 million in positive cash flows from financing activities comprised of proceeds from our various convertible debt transactions. The result of the above activities decreased our cash position by approximately \$47,000 for the six months ended June 30, 2012.

**Table of Contents****Results of Discontinued Operations**

In 2010, the Company discontinued operations at its facility in Woodbridge, NJ. The following table summarizes the components of the loss from discontinued operations.

	<b>For the six Months Ended June 31,</b>	
	<b>2012</b>	<b>2011</b>
Revenue from discontinued operations	\$	\$
Income from discontinued operations	\$ 690	\$ 146,471

The Company does not expect to have any continuing positive cash flows from operations associated with the Woodbridge, NJ facility. The Income from discontinued operations reflects the result of favorable settlements with certain creditors.

The following table provides the assets and liabilities of the Woodbridge, NJ facility, classified as discontinued operations, in the consolidated balance sheets as of June 30, 2012 and December 31, 2011:

	<b>June 30, 2012</b>	<b>December 31,</b> <b>2011</b>
Accounts payable	\$ 526,200	\$ 528,377
Accrued expenses		
Other liabilities		
Liabilities of discontinued operations	\$ 526,200	\$ 528,377

The Company is actively working with vendors to satisfy the liabilities outstanding at June 30, 2012.

**Critical Accounting Policies and Estimates**

Our discussion and analysis of our financial condition and results of operations are based upon our interim consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America consistently applied. The preparation of these interim consolidated financial statements requires us to make significant estimates and judgments that affect the amounts reported in our interim consolidated financial statements and the accompanying notes. These items are regularly monitored and analyzed by management for changes in facts and circumstances, and material changes in these estimates could occur in the future. Changes in estimates are recorded in the period in which they become known. We base our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from our estimates.

While all of our accounting policies impact the interim consolidated financial statements, certain policies are viewed to be critical. Critical accounting policies are those that are both most important to the portrayal of our financial condition and results of operations and that require management's most subjective or complex judgments and estimates. We consider the following accounting policies to be critical in fully understanding and evaluating our financial results:

Revenue Recognition

Share-based Compensation

Long-Lived Assets

Derivative Instruments

## Edgar Filing: Converted Organics Inc. - Form 10-Q

Discontinued Operations

Fair Value Measurements

Income Taxes

Please refer to the critical accounting policies set forth in our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2011, filed with the Securities and Exchange Commission, for a description of all critical accounting policies.

The critical accounting policies included in our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2011 have not materially changed.

## **Table of Contents**

### **Off-Balance Sheet Transactions**

We do not engage in material off-balance sheet transactions.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not applicable.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our chief executive officer and chief financial officers, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of June 30, 2012. Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of June 30, 2012, these disclosure controls and procedures were effective to provide reasonable assurance that material information required to be disclosed by us, in reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the Commission rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

#### **Evaluation of Changes in Internal Control over Financial Reporting**

No change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended June 30, 2012 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**Table of Contents**

**PART II OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

On August 25, 2011, TerraSphere, Inc., our wholly owned subsidiary, was named as a defendant in an action filed in the United States district court for the eastern district of Michigan against TerraSphere Systems, LLC and TerraSphere, Inc. The plaintiff alleges, among other things, breach of fiduciary responsibilities regarding a joint venture agreement. The parties sought to resolve this matter but were unsuccessful. Responsive pleadings were filed and TerraSphere, Inc. has been dismissed from the lawsuit. TerraSphere Systems, LLC remains a defendant and we plan to vigorously defend this matter. At this time we are unable to estimate any losses that may be incurred as a result of this litigation and upon its eventual disposition. Accordingly, no loss has been recorded relating to this matter.

**ITEM 1A. RISK FACTORS**

We incorporate herein by reference the risk factors contained in Part I, Item 1A of our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2011. There have been no material changes from the risk factors previously disclosed in our annual report on Form 10-K for the fiscal year ended December 31, 2011.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

None that have not been previously disclosed on Form 8-K.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

None.

**ITEM 4. MINE SAFETY DISCLOSURES**

Not applicable.

**ITEM 5. OTHER INFORMATION**

On March 6, 2012, our previously approved implementation of a 1-for-500 reverse split of our common stock became effective. On such date, every five hundred shares of pre-split common stock were automatically converted into one share of post-split common stock. The reverse split affects all issued and outstanding shares immediately prior to the effective date of the reverse split.

On June 8, 2012 (at our 2012 annual meeting) both the authority to have another reverse split and the increase of our common shares authorized to one billion were approved by or shareholders. The increase of our shares of common stock to one billion shares took place in June 2012. At the time of filing this report we have not decided when or if, we will affect the reverse split that was approved on June 8, 2012.
