In connection with the new management structure, the Company made certain market-based design adjustments to its annual executive incentive compensation program for the next fiscal year. The amendments affecting these changes were entered into on June 19, 2013 in order to enhance the alignment of such program to the duties and responsibilities of each executive management role. The changes to the Company's executive compensation program are designed to achieve an appropriate balance between fixed compensation and variable incentive compensation, pay for performance and promote an alignment between the interests of our executives and our shareholders. The Company's new management structure and improvements to its executive compensation program were designed to enhance the Company's ability to attract, motivate, reward and retain the management talent necessary to achieve both long-term and short-term corporate objectives and enhance shareholder value. Additionally, the Company aims to provide its executive officers with incentive-based compensation tied to its performance in achieving growth and improved profitability, which aligns each executive's opportunity with the interests of our shareholders.
