Report of Independent Registered Public Accounting Firm

Profit Sharing Committee

NVR, Inc and Affiliated Companies:

We have audited the accompanying statements of net assets available for plan benefits of the Profit Sharing Plan of NVR, Inc. and Affiliated Companies (the Plan) as of December 31, 2014 and 2013, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan's Administrator. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014 in conformity with U.S. generally accepted accounting principles.

The supplemental information in the accompanying schedule Schedule H, line 4(i) schedule of assets (held at end of year) as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Plan's 2014 financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying Schedule H, line 4(i) schedule of assets (held at end of year) as of December 31, 2014 is fairly stated in all material respects in relation to the 2014 financial statements as a whole.

1. Description of Plan and Benefits

The following description of the Profit Sharing Plan of NVR, Inc. and Affiliated Companies (the Plan or PSP) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan s provisions.

General

The Plan is a defined contribution, profit-sharing retirement plan, and covers substantially all employees of NVR, Inc. and its affiliated companies (NVR or the Company). The Plan is administered by a Profit Sharing Committee (the Plan Administrator), which is designated by the Board of Directors of NVR, Inc. (the Board). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan Year begins each January 1st and ends each December 31st.

Employee Eligibility

All full-time and part-time employees are eligible to participate in the Plan immediately upon employment. The Plan excludes any employee covered by a collective bargaining agreement negotiated in good faith with the Company and leased employees.

Contributions

The Plan provides for eligible Plan participants to make voluntary salary deferral contributions (VSDC) from 1% to 50% of their current salary on a combined pre-tax and post-tax basis into the Plan for investment. All investment funds provided in the Plan are available for employee VSDC. A participant s pre-tax deferral was limited to a maximum contribution of \$17.5 during both 2014 and 2013. Participants who reached age 50 or older before the close of the calendar year and have deferred the maximum amount allowed under the Plan have the option to make additional pre-tax salary deferrals. The maximum catch-up contribution for both 2014 and 2013 was \$5.5. Participants may change their salary deferral percentages periodically, but participants generally cannot withdraw fund balances before termination, retirement, death or total permanent disability unless certain hardship conditions exist.

In accordance with the Plan, the Company may declare a program of matching contributions. In both 2014 and 2013, the Company matched up to the first one thousand dollars of individual participants VSDC. NVR contributed \$2,899 and \$2,605 in matching contributions during 2014 and 2013, respectively. Matching contributions are invested in participant s accounts in the Plan as directed by participants.

Vesting and Forfeitures

Edgar Filing: NVR INC - Form 11-K

Employees vest in Company matching contributions at the rate of 20% per year beginning with the completion of the second year of service. Employees also become 100% vested upon reaching age 60 or upon an employee's termination on account of death or total disability. Participants are fully vested at all times in their VSDC account balances. Forfeitures of unvested amounts relating to terminated employees

are allocated annually to all eligible participants in the Plan as of December 31, based upon the proportion that the participant's compensation for that Plan Year bears to the total compensation received for such year by all participants sharing in the allocation, subject to the annual addition limitation and nondiscrimination requirement imposed under the Internal Revenue Code. Forfeitures of \$392 and \$168 in 2014 and 2013, respectively, were allocated to participant accounts in 2015 and 2014, respectively.

Investment Options

The Company selects the number and type of investment options available. The Plan's recordkeeper (Recordkeeper) is responsible for maintaining an account balance for each participant. Each participant instructs the Recordkeeper how to allocate their account balances. The Recordkeeper values account balances daily. Each investment fund's income and expenses are allocated to participant accounts daily in relation to their respective account balances. Each account balance is based on the value of the underlying investments in each account. Generally, participants may elect to change how future contributions are allocated or may transfer current account balances among investment options.

Payments of Benefits

Depending on various provisions and restrictions of the Plan, the method of benefit payment can be in the form of a lump-sum distribution or based on a deferred payment schedule. Amounts remaining in the Plan as a result of deferred payments are subject to daily fluctuations in value based on the underlying investments in each account.

Participant Loans

Loans are made available to all participants on a nondiscriminatory basis in accordance with the specific provisions set forth in the Plan. The amount of a loan generally cannot exceed the lesser of \$50 or one-half of a participant's total vested account balance as of the loan origination date. Generally, a loan bears interest at a fixed rate which is determined by the Profit Sharing Trust Committee. Such rate for all outstanding loans was prime plus 1% set at the date of loan origination. All loans are subject to specific repayment terms and are secured by the participant's nonforfeitable interest in his/her account equivalent to the principal amount of the loan. Participants must pay any outstanding loans in full upon termination of service with the Company. Loans not repaid within the timeframe specified by the Plan subsequent to termination are considered to be in default and treated as a distribution to the terminated participant. Participant loans are recorded at unpaid principal plus accrued interest.

Administrative Expenses

Loan origination fees and trustee fees are paid by the Plan. All other administrative expenses are paid directly by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Table of Contents

PROFIT SHARING PLAN OF NVR, INC.

AND AFFILIATED COMPANIES

Notes to Financial Statements

December 31, 2014 and 2013

(dollars in thousands)

Investment Income

Interest income from investments is recorded on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Investment transactions are accounted for on a trade-date basis. Realized gains and losses on sales of investments are based on the change in market values from the investment transactions' acquisition dates.

Investment Valuation and Transactions

All investments are carried at fair value except for fully benefit-responsive investment contracts. Under accounting standards generally accepted in the United States of America (GAAP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Plan Benefits adjusts the value of the investment contract from fair value to contract value.

Net unrealized appreciation and depreciation is measured and recognized in the Statement of Changes in Net Assets Available for Plan Benefits as the difference between the fair value of investments remeasured at the financial statement date and the fair value at the beginning of the Plan Year or the original measurement at the investment purchase date if purchased during the Plan Year. Purchase and sale transactions are recorded on a trade-date basis.

Fair Value Measurements

Accounting Standard Codification (ASC) Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability, in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a fair value hierarchy for those instruments measured at fair value that distinguishes between assumptions based on market data (observable inputs) and the Plan's assumptions (unobservable inputs). The hierarchy consists of three levels:

Level 1 Quoted market prices in active markets for identical assets or liabilities.

Investments in registered investment companies, shares of the Company's common stock, other common and preferred stock and cash are valued using quoted prices in active markets.

Level 2 Inputs other than Level 1 inputs that are either directly or indirectly observable.

Investments in a common collective trust (the Fidelity Managed Income Portfolio or the Fund) are valued using the net asset value (NAV) provided by the trustee. The NAV is quoted in a private market, and is based on the fair value of the underlying assets owned by the Fund, which are predominantly traded in an active market. These investments are redeemable with the Fund at contract value under the Fund's terms of operations. It is possible that these redemption rights may be restricted by the Fund in the future in accordance with the terms. Due to the nature of the investments held by the Fund, changes in market conditions and the economic environment may significantly impact the net asset value of the Fund, and the Plan's interest in the Fund.

Notes to Financial Statements

December 31, 2014 and 2013

(dollars in thousands)

The Plan also holds other assets and liabilities not measured at fair value, but for which fair value is required to be disclosed, including loans to participants and amounts due to participants. The fair value of these assets and liabilities approximates the carrying amounts in the accompanying financial statements due to either the short-term maturity of the instruments or because stated interest rates approximate market rates for instruments with similar terms and characteristics. Under the fair value hierarchy, these financial instruments are valued primarily using Level 2 inputs.

Level 3 Unobservable inputs developed using estimates and assumptions developed by the Plan, which reflect those a market participant would use.

The Plan has no investments valued using Level 3 inputs.

The following table presents the financial instruments the Plan measured at fair value on a recurring basis, based on the fair value hierarchy as of December 31, 2014:

	Basis of Fair Value Measurements			
	Level 1	Level 2	Level 3	Total

Cash	1,384			1,384
Total	\$ 264,376	\$ 17,084	\$	\$ 281,460

Payments of Benefits

Benefits are recorded as deductions when paid. At December 31, 2014 and 2013, refunds of \$179 and \$1, respectively, were due to participants for excess contributions made during the Plan Year and are reflected as a reduction of employee contributions in the Statement of Changes in Net Assets Available for Plan Benefits and in the Due to participants line item on the Statement of Net Assets Available for Plan Benefits.

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of Plan activity during the reporting period.

Accordingly, actual results may differ from those estimates.

3. Investments

The investments of the Plan are maintained in a master trust with the investments of the NVR, Inc. Employee Stock Ownership Plan (ESOP). The Plan s share of changes in the master trust and the value of the master trust have been reported to the Plan by the trustee as having been determined through the use of fair values for all investments, except for fully benefit-responsive investment contracts which are adjusted from fair value to contract value. See Note 2 for further discussion of fully benefit-responsive investment contracts. The undivided interest of each Plan in the master trust is increased or decreased (as the case may be) (i) for the entire amount of every contribution received on behalf of the Plan, every benefit payment, or other expense attributable solely to such Plan, and every other transaction relating only to such Plan; and (ii) for accrued income, gain or loss, and administrative expense attributable solely to such Plan. The Plan s interest in the master trust was approximately 44% as of both December 31, 2014 and 2013.

Notes to Financial Statements

December 31, 2014 and 2013

(dollars in thousands)

The following table presents the investments in the master trust at fair value for all investments, except for fully benefit-responsive investment contracts which are presented at contract value:

	December 31,	
	2014	2013
NVR, Inc. common stock	\$ 418,595	\$ 359,347
Investments in registered investment companies	274,343	235,949
Investments in common/collective trusts	31,184	32,582
Other common and preferred stock	2,358	2,182
Cash	1,440	1,979
Total	\$ 727,920	\$ 632,039

The interests of each of the PSP and ESOP participating in the master trust investments at December 31, 2014 and 2013 were as follows:

	2014	2013
NVR, Inc. Employee Stock Ownership Plan	\$ 408,561	\$ 350,837
Profit Sharing Plan of NVR, Inc. and Affiliated Companies	319,359	281,202
Net investment assets in master trust	\$ 727,920	\$ 632,039

Net investment income for the master trust for the year ended December 31, 2014 was as follows:

Net investment income due to appreciation of;	
Common and preferred stock	\$ 84,040
Investments in registered investment companies	3,227
Interest	268
Dividends	17,578

Net investment income in master trust

Notes to Financial Statements

December 31, 2014 and 2013

(dollars in thousands)

The interest of each of the PSP and ESOP participating in the net investment income in the master trust for the year ended December 31, 2014, was as follows:

NVR, Inc. Employee Stock Ownership Plan	\$ 72,327
Profit Sharing Plan of NVR, Inc. and Affiliated Companies	32,786
Net investment income in master trust	\$ 105,113

The income allocation variance between the PSP and ESOP is driven primarily by the investment mix within the respective plans. The ESOP requires holdings to be predominately invested in NVR, Inc. common stock; whereas the PSP has no similar requirements and thus holdings within the PSP are diversified among multiple investments.

The fair value of the investments of the master trust attributable to the Plan which represent 5% or more of the Plan's net assets at the end of each year, were as follows:

	December 31,	
	2014	2013
Registered Investment Companies:		
Fidelity Growth Company Fund	\$ 38,294	\$ 32,960
Fidelity Balanced Fund	25,558	21,189
Fidelity Equity Dividend Income Fund	19,395	17,521
Fidelity Diversified International Fund (1)		16,293
Spartan 500 Institutional Index Fund	18,264	14,749
Common/Collective Trust:		
Fidelity Managed Income Portfolio Fund (2)	\$ 16,408	\$ 16,826
Employer securities:		
NVR, Inc. common stock	\$ 74,236	\$ 67,276

(1) Investment amount did not exceed 5% of the Plan's net assets at December 31, 2014.

(2) Investment amounts at contract value. The fair value of the investment was \$16,651 and \$17,084 at December 31, 2014 and 2013, respectively.

4. Tax Status

The Plan received its latest determination letter on May 17, 2012 which stated that the Plan is qualified under section 401(a) of the Internal Revenue Code (the Code) and its related Trust is exempt from tax under section 501(a) of the Code. The Plan has been amended since receiving the determination letter; however, in the opinion of the Plan Administrator, the Plan and its underlying trust have operated within the terms of the Plan and remain qualified under the applicable provisions of the Code.

Table of Contents

Notes to Financial Statements

December 31, 2014 and 2013

(dollars in thousands)

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

5. The Stable Value Fund

The Plan invests in fully benefit-responsive synthetic guaranteed investment contracts (GICs) as part of offering the Fidelity Managed Income Portfolio Fund (the Fund). Contributions to the Fund are invested in a portfolio of high quality short- and intermediate-term U.S. bonds, including U.S. government treasuries, corporate debt securities, and other high-credit quality asset-backed securities.

Participant accounts in the Fund are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As discussed in Note 2, because the GICs are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GICs. The average yield of the Fund based on actual earnings was 1.67% and 1.54% at December 31, 2014 and 2013, respectively. The average yield of the Fund based on interest rates credited to participants was 1.07% and 0.89% at December 31, 2014 and 2013, respectively.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, partial Plan termination or if the Sponsor suspends contributions indefinitely, affected participants will become fully vested in their accounts.

7. Parties-In-Interest

At December 31, 2014 and 2013, Plan investments of \$227,315 and \$196,311, respectively, are with parties-in-interest as they are investment funds of the trustee and recordkeeper, Fidelity Management Trust Company and Fidelity

Investments Institutional Operations Company, Inc.

At December 31, 2014 and 2013, investments held by the Plan included 58,209 shares and 65,570 shares of NVR, Inc. common stock, with a fair value of approximately \$74,236 and \$67,276, respectively. These qualify as exempt parties-in-interest transactions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation from the financial statements to the Form 5500 of plan interest in master trust:

 Total additions to plan assets as reported in the Form 5500	 \$ 56,132

The following is a reconciliation from the financial statements to the Form 5500 of benefits paid to participants:

	Year ended December 31, 2014
Benefit payments to participants as reported in the financial statements	\$ 17,775
Disbursements related to deemed distributions (b)	(41)
Corrective distributions (c)	179
 Benefit payments to participants as reported in the Form 5500	 \$ 17,913

(a) Fully benefit-responsive investment contracts are included in the financial statements at contract value as opposed to at fair value in the Form 5500. See Note 2 for additional discussion of fully benefit-responsive

investment contracts.

- (b) Deemed distributions represent defaulted loan balances for which there were no post-default payment activity. These distributions are not included in the loan balance, and in turn, are not included in the net assets available for plan benefits, for reporting purposes in the Form 5500 but are reflected in the total loan balance for financial statement reporting purposes.
- (c) Corrective distributions relate to amounts due to participants for current plan year excess contributions and are reported as a reduction to employee contributions in the financial statements and as distributions in the Form 5500.
