## Section 1 Registrant's Business and Operation

### Item 1.01 Entry into a Material Definitive Agreement

The information set forth in Item 2.03 of this Current Report on Form 8-K with respect to the Supplements to Loan Agreements is hereby incorporated herein by reference.

## Section 2 Financial Information

### Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

On September 1, 2015, Talen Energy Supply, LLC (formerly known as PPL Energy Supply, LLC) (the Company), a wholly owned, indirect subsidiary of Talen Energy Corporation, completed the previously announced remarketing of (i) \$100,000,000 principal amount of its Exempt Facilities Revenue Refunding Bonds, Series 2009A (PPL Energy Supply, LLC Project) (the 2009A Bonds), (ii) \$50,000,000 aggregate principal amount of its Exempt Facilities Revenue Refunding Bonds, Series 2009B (PPL Energy Supply, LLC Project) (the 2009B Bonds) and (iii) \$80,570,000 aggregate principal amount of its Exempt Facilities Revenue Refunding Bonds, Series 2009C (PPL Energy Supply, LLC Project) (the 2009C Bonds) and, together with the 2009A Bonds and the 2009B Bonds, the Bonds), which Bonds had been subject to mandatory purchase by the Company on September 1, 2015.

Each series of Bonds was initially issued and sold by the Pennsylvania Economic Development Financing Authority (the Authority) on April 6, 2009, pursuant to a separate Trust Indenture, dated as of April 1, 2009 (each, an Indenture), between the Authority and The Bank of New York Mellon Trust Company, N.A., as trustee. The Company received the proceeds from the original issuance of each series of Bonds pursuant to a separate Exempt Facilities Loan Agreement dated as of April 1, 2009 (each, a Loan Agreement and, collectively, the Loan Agreements), and each such Loan Agreement was amended and supplemented in connection with the remarketing by a First Supplement to Exempt Facilities Loan Agreement dated September 1, 2015 (each, a Supplement to Loan Agreement and, collectively, the Supplements to Loan Agreements) between the Company and the Authority. The Company used such proceeds to refund outstanding series of Authority bonds previously issued on behalf of the Company to finance a portion of the costs of the installation of certain pollution control facilities at certain electric generating stations.

The Supplements to Loan Agreements add to the Loan Agreements covenants of the Company related to a limitation on liens, a limitation on asset sales and an obligation to offer to purchase all or any part of the Bonds upon a change of control. The foregoing description of the Supplements to Loan Agreements does not purport to be complete and is qualified in its entirety by reference to and incorporates herein by reference the full text of the Supplements to Loan Agreements, which are attached hereto as Exhibits 4(a), 4(b) and 4(c).

The Series 2009A Bonds bear interest at a fixed rate of 6.40% per annum and mature on December 1, 2038. The 2009A Bonds are not subject to mandatory purchase prior to their stated maturity date. The Series 2009A Bonds may be redeemed at the option of the Authority, upon the written direction of the Company, on or after September 1, 2025 at a redemption price of 100% of the principal amount thereof plus interest accrued, if any, to the redemption date. The Series 2009B Bonds bear interest at a fixed rate of 5.00% per annum to the mandatory purchase date described below, mature on December 1, 2038 and will be subject to mandatory purchase at a purchase price equal to the principal amount thereof plus accrued and unpaid interest on September 1, 2020. The Series 2009C Bonds bear interest at a fixed rate of 5.00% per annum to the mandatory purchase date described below, mature on December 1, 2037, and will be subject to mandatory purchase at a purchase price equal to the principal amount thereof plus accrued and unpaid interest on September 1, 2020. The Bonds are subject to extraordinary optional redemption prior to maturity in certain circumstances described in the Indenture, and are also subject to special mandatory redemption upon a determination that the interest on the Bonds would be included in the holders' gross income for federal income

tax purposes. Any such extraordinary optional or special mandatory redemption would also be at a redemption price of 100% of the principal amount thereof, without premium, plus accrued interest, if any, to the redemption date.

The payment of principal and interest on each series of Bonds is secured by an unsecured promissory note of the Company corresponding to such series of Bonds in a principal amount corresponding to the principal amount of such series of Bonds. The promissory notes contain principal, interest and prepayment provisions corresponding to the principal, interest and redemption provisions of the respective series of Bonds. Talen Energy Corporation does not guarantee the Company's obligations under the Loan Agreements, the Supplements to Loan Agreements, the Bonds and/or the promissory notes referred to above.
