Changes from the Preliminary Prospectus Supplement

The following sentence appearing on pages S-5/6, S-10 and S-11 has been completed as follows:

As of June 30, 2015, after giving pro forma effect to (i) the offering of the notes pursuant to this prospectus supplement and (ii) the use of the net proceeds from the offering to reduce borrowings under the revolving credit facility under our credit agreement, we and the guarantors would have had approximately \$5.5 billion of total indebtedness (including borrowings under our credit agreement, our mortgage facility, our floorplan financing arrangements, our existing senior notes and our commercial paper program), of which approximately \$3.5 billion would have been secured, and we would have had approximately \$1.7 billion of undrawn capacity under the revolving credit facility of our credit agreement, of which we would have had the ability to borrow \$1.5 billion due to limitations imposed by the maximum leverage ratio covenant contained in our credit agreement.

The information set forth below updates the Capitalization section of the prospectus supplement:

The following table sets forth our consolidated cash and cash equivalents and capitalization as of June 30, 2015:

on an actual basis; and

as adjusted to give pro forma effect to the offering of the notes pursuant to the prospectus supplement and the use of the net proceeds therefrom to reduce borrowings under our revolving credit facility, but as described under the caption Use of Proceeds, we may also use net proceeds for general corporate purposes.

You should read the information in this table in conjunction with the information set forth following the caption Use of Proceeds and our consolidated financial statements and the notes thereto, which are incorporated by reference in the prospectus supplement and the accompanying prospectus.
